The Fund was organized in 1961 under the laws of the State of Florida, and commenced the sale of its scholarship plans ("Plans") in 1962. The Fund suspended sales of these Plans sometime prior to 1967. On July 17, 1967, the Fund registered under the Act, and on September 26, 1967, it filed a registration statement (File No. 2-27353) on Form S-6 under the Securities Act of 1933 to cover the sale of new scholarship plans. This registration statement was declared effective on October 6, 1969, and information in the Commission's files discloses that 1300 new Plans were sold between October 6, 1969, and May, 1975, making a total of 5,150 Plans outstanding as of that date. Due to certain problems which developed in the management and administration of the Fund the Department of Insurance of the State of Florida sometime in 1975 decided to take action to have the Fund liquidated. A proceeding entitled *State of Florida, ex rel The Department of Insurance* (Realtor) vs. *The Scholarship Club, Inc.*, (Respondent), was filed in the Circuit Court, Second Judicial Circuit for Leon County Florida, Civil Action No. 75-1701. That Court issued an order on August 26, 1975, appointing the Florida Department of Insurance as Receiver of the Fund's property and affairs for the purpose of supervising the liquidation of the Fund. On March 9, 1977, that Court issued an Order of Final Distribution causing the Fund to be liquidated and its assets distributed to participating Fund members and trustees of Fund members. The Division of Rehabilitation and Liquidation of the State of Florida Department of Insurance has advised the Commission by letters dated May 16, 1977, and August 9, 1977, that the Order of Final Distribution was implemented on March 18, 1977, and therefore the Fund ceased to exist on that date. Specifically, the staff of the Commission has been advised that the Fund has no assets or liabilities currently outstanding.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company it shall so declare by order, which may be made upon appropriate conditions if necessary for the protection of investors, and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than September 12, 1977, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Fund at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of this matter will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request, or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area No. 1360]

ALABAMA

Declaration of Disaster Loan Area

The following 62 counties, and adjacent counties, in the State of Alabama constitute a disaster area as a result of drought caused by severe crop losses during the 1976 crop year and continuing into the 1977 crop year:

Autauga	DeKalb
Baldwin	Elmore
Barbour	Escambia
Bibb	Etowah
Blount	Fayette
Bullock	Franklin
Butler	Geneva
Calhoun	Greene
Chambers	Hale
Cherokee	Henry
Chilton	Houston
Choctaw	Jackson
Clarke	Jefferson
Clay	Lamar
Cleburne	Lee
Coffee	Lowndes
Conecuh	Macon
Coosa	Marengo
Covington	Marion
Crenshaw	Marshall
Cullman	Mobile
Dale	Monroe
Dallas	Montgomery
Morgan	Sumter
Perry	Talladega
Pickens	Tallapoosa
Pike	Tuscaloosa
Randolph	Walker
Russell	Washington
Shelby	Wilcox
St. Clair	Winston

Eligible persons firms and organizations may file applications for loans for physical damage until the close of business on Oct. 14, 1977, and for economic injury until the close of business on June 15, 1978, at:

Small Business Administration, District Office, 980 South 20th Street, Birmingham, Ala. 02114.

or other locally announced locations.

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008.)

Dated: August 12, 1977.

A. VERNON WEAVER,
Administrator.

FIRST SOUTHERN CAPITAL CORP.

[License No. 06/12-0023]

Application for Transfer of Control of Licensed Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration (SBA), pursuant to Section 107.701 of the regulations governing small business investment companies (13 CFR Section 107.701 (1977)), for transfer of control of First Southern Capital Corporation (FSCC), Suite 1216 Commerce Building, 821 Gravier Street, New Orleans, La. 70112, a Federal Licensee under the Small Business Investment Act of 1958, as amended (The Act), (15 U.S.C. 661 et seq.), and the Rules and Regulations promulgated thereunder.

FSCC was licensed on May 11, 1961, and its present capitalization is $1,028,224. It is proposed that Crabtree Investments, Inc. (CII), One American Place, Baton Rouge, La. 70825, purchase 357,904 shares of FSCC's issued and outstanding common stock from First National Bank of Commerce, New Orleans, La. These shares represent approximately 49 percent of FSCC's issued and outstanding stock, and, accordingly, CII will effectively control FSCC. There is only one class of stock authorized.

CII is a Louisiana corporation which was organized in July 1974 and is owned 100 percent by John H. Crabtree, 3551 S. Lakeshore Drive, Baton Rouge, La. 70808. It is registered with the Securities and Exchange Commission as an investment advisor, and its principal activities to date have been furnishing investment and management services to commercial banks in Louisiana.

The proposed transfer of control is subject to the approval of SBA. If such approval is given, Mr. Crabtree will become a director of FSCC. There will be no change in FSCC's charter or bylaws.

Matters involved in SBA's consideration of the application include the gen-

eral business reputation and character of management and shareholders, and the probability of successful operations of FSCC under their management in accordance with the Act and Regulations.

Notice is further given that any person may, not later than September 2, 1977, submit to SBA in writing, comments on the proposed transfer of control of this company. Any such comments should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416.

A copy of this notice will be published by FSCC in a newspaper of general circulation in New Orleans, La.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: August 12, 1977.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA General Docket H-77-3]

ASSOCIATION OF AMERICAN RAILROADS

Power Brake Test Program

Notice is hereby given that the Association of American Railroads (AAR) has petitioned the Federal Railroad Administration (FRA) for a temporary waiver of compliance with the testing and repair requirements of 49 CFR 232.-17(a)(1) and (b). The temporary waiver is requested in order to conduct a limited study and evaluation of the safe service life and reliability of a specific type of power brake equipment.

The current provisions, which establish the intervals for the testing and repair of freight car brake equipment, require that freight cars equipped with ABD type valve components be given cleaning, oiling, testing and stenciling (COT&S) attention at periods which do not exceed 120 months. These provisions were premised on prior limited test programs which were sponsored and supervised by the AAR.

In generalized terms those earlier tests obtained evidence of valve component conditions by sampling inspections which were conducted after specific time periods. These prior tests were limited in scope and primarily involved open top hopper cars.

The test program being proposed by AAR would utilize a variety of freight car equipment which is owned by five railroads. Approximately 2,300 freight cars, which are operated in interchange service, are proposed to be employed in this test program.

The AAR indicates that Consolidated Rail Corp., Missouri Pacific Railroad, Seaboard Coast Line, Union Pacific and Denver & Rio Grande Western will furnish the equipment to be employed in this test program. A detailed list of this equipment is provided in the appendix to this notice.

The AAR notes that a test program of this size should provide a statistically valid sample of various railroad operating practices, equipment and climatic conditions. The cars selected generally range in age from seven to ten years which should produce effective test data in the near term future.

During the period of the test program the AAR proposes to have these cars given complete COT&S attention only in the event that the equipment on a given car fails to pass an In-Date-Single Car Code of tests. Each of these cars will be subjected to an In-Date-Test when placed on a shop or repair track for any reason. The AAR also proposes to subject a minimum of twenty cars to the In-Date-Test-Procedure each year and a minimum of two cars will have their valvular portions and piston cylinder removed for examination. This additional procedure would be utilized for cars which have been in service for ten years.

In the event that a car fails to pass the In-Date-Test because of a malfunction of the valve portion or the brake cylinder, the Chief Mechanical Officer of the carrier owner will be notified. If it is necessary to provide COT&S attention to the equipment, the installed equipment will be removed and to the extent possible sent to the carrier owners air brake shop. The removed equipment will be identified as part of the test program and a report will be furnished.

Interested persons are invited to participate in this proceeding by submitting written data, views or comments. FRA does not anticipate scheduling an opportunity for oral comment on this petition since the facts do not appear to warrant it. However, an opportunity to present oral comments will be provided if any interested party requests it prior to September 9, 1977.

All communications concerning this proceeding must identify the docket designation (FRA General Docket H-77-3) and should be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590. Communications received before September 30, 1977 will be considered by the Federal Railroad Administration before final action is taken. Comments received after that date will be considered so far as practicable. All comments received will be available for examination during regular business hours, both before and after the closing date for comments, in Room 5101, Nassif Building, 400 Seventh Street SW., Washington, D.C.

(Section 202 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 431), as amended by Sec. 5(b) of the Federal Railroad Safety Authorization Act of 1975, Pub. L. 94-348, 90 Stat. 817, July 8, 1976; § 1.49(n) of the regulations of the Office of the Secretary, 49 CFR 1.49(n).)

Issued in Washington, D.C. on August 17, 1977.

DONALD W. BENNETT,
Chairman, Railroad Safety Board.

APPENDIX

CONSOLIDATED RAIL CORPORATION

Total Number of Cars—200.
Type of Car—Open Top Hopper.
Reporting Marks—PPLX in the series between 100 and 309.

SEABOARD COAST LINE RAILROAD

Total Number of Cars—1400.
Type of Car—Covered Hoppers.
Reporting Marks—SCL in the series between 421800 and 422399 and between 831700 and 832499.

UNION PACIFIC RAILROAD

Total Number of Cars—195.
Type of Cars—Open Top Hoppers.
Reporting Marks—UP in the series between 31900 and 31994 and between 32000 and 32099.

DENVER AND RIO GRANDE WESTERN RAILROAD

Total Number of Cars—205.
Type of Car—Open Top Hoppers.
Reporting Marks—DRGW in the series between 56995 and 56999, 16398 and 16500 and between 16763 and 16864.

MISSOURI PACIFIC RAILROAD

Total Number of Cars—200.
Type of Cars—Refrigerator Cars and Box Cars.
Reporting Marks—MP in the series between 786400 and 499 and between 794800 and 794999 for the refrigerator cars. MP in the series between 265000 and 265999 and between 271500 and 271674 for the box cars.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C. Section 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions of each applicant's record and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Agnes, James R., 550 Evergreen Lane, Munster, Indiana, convicted on March 12, 1957, in the United States District Court, Hammond, Ind.

Albright, Douglas K., 3800 Adams, Denver, Colo., convicted on July 5, 1973, in the Denver District Court, Colorado.

Argyle, Dale M., 764 South University, Blackfoot, Idaho, convicted on April 27, 1972, in the United States District Court for the District of Idaho.

Bailey, Donald A., 750 Sherburne, St. Paul, Minn., convicted on April 18, 1969, in the District Court, Hennepin County, Minn.

Barberini, Joseph, 110 Sherwood Avenue, Yonkers, N.Y., convicted on June 30, 1972, in the United States District Court, Southern District of New York.

Barbour, James R., Route 2, Fort Valley, Ga., convicted on May 16, 1960, in the Superior Court, Bibb County, Ga.

Bradford, Clifton R., 1434 East John Cove, Greenville, Miss., convicted on April 25, 1975, in the United States District Court, Memphis, Tenn.

Bradford, Pascal S., P.O. Box 145, Camden, Ind., convicted on September 27, 1952, in the Harrison Circuit Court, Harrison County, Ind.

Brisk, James B., Star Route, Keshena, Wis., convicted on September 8, 1959, in the County Court, Shawano County, Circuit Court Branch, Wisconsin; and on October 3, 1961, in the County Court, Shawano, Menominee Court, Circuit Court Branch, Shawano County Division, Wisconsin.

Casteel, Donald W., Box 393, Huntsville, Ariz., convicted on March 11, 1967, in the Madison County Circuit Court, Huntsville, Ark.

Castro, Gerald G., P.O. Box 314, Tijeras, N. Mex., convicted on May 21, 1976, in the Criminal District Court, Dallas County, Tex.

Clark Donald P., P.O. Box 983, Brazoria, Tex., convicted on February 24, 1969, in the District Court of Brazoria County, Twenty-Third Judicial District, Texas.

Clark, Milton, 35033 Concord Court, Mt. Clemens, Mich., convicted on October 26, 1964, and on May 7, 1968, in the Recorder's Court of the City of Detroit, Mich.; and on February 14, 1968, in the Circuit Court for the County of Wayne, Michigan.

Colburn, William C., 5927 West Avalon Drive, Phoenix, Ariz., convicted on April 18, 1957, in the Superior Court, San Diego County, California.

Cooney, John T., 4911 South Pine, Tacoma, Wash., convicted on May 27, 1971, in the Superior Court of the State of California in and for the County of Alameda.

Cornell, James M., 3537 Brown Road, Ferndale, Wash., convicted in 1962, in Oneida, N.Y.

Earnhardt, Clyde H., Jr., 4000 Dunwoody Drive, Charlotte, N.C., convicted on September 28, 1970, in the United States District Court for the Southern District of Texas.

Estep, Gordon J., 2552 West Avenue K, Lancaster, Calif., convicted on March 18, 1959, in the Brattleboro Municipal Court, Vermont.

Fernengel, Dennis M., 808 Columbia Road, Westlake, Ohio, convicted on March 2, 1967, in the Cuyahoga County Common Pleas Court, Cuyahoga County, Ohio.

Foltz, Richard B., 7602 West St. Clair, Indianapolis, Ind., convicted on April 26, 1973, in the United States District Court, Indiana.

Garza, Ruben T., 3602 West LaSalle, Phoenix, Ariz., convicted on January 31, 1974, in the United States District Court for the District of Arizona.

Hicks, Gene A., P.O. Box 544, Folsom, Calif., convicted on March 19, 1973, in the United States District Court for the Eastern District of California.

Humphryes, Horace E., 705 1st Avenue, Lipscomb, Ala., convicted on July 20, 1947, in the Jefferson County Circuit Court, Bessemer, Ala.; and on June 22, 1962, in the Tuscaloosa County Circuit Court, Sixth Circuit, Alabama.

Kitchens, Bud J., 7280 Stanford Avenue, La-Mesa, Calif., convicted on April 24, 1968, in the Municipal Court, El Cajon Judicial District, County of San Diego, Calif.

Linder, Thomas E., Jr., 1913 B Mimosa Drive, Lynchburg, Va., convicted on December 20, 1973, in the United States District Court, Northern District, Pensacola, Fla.

Lock, Gary E., 706 North Volland, Kennewick, Wash., convicted on June 23, 1972, in the Superior Court of the State of Washington for Franklin County.

McGee, Robert, Route 4, Box 438, Fayetteville, Tenn., convicted on October 23, 1931, in the Gibbs County Circuit Court, Pulaski, Tenn.

Martin, Frank H., 287 Wheeler Street, Akron, Ohio, convicted on January 27, 1964, in the United States District Court, Cleveland, Ohio.

Martin, Thomas D., P.O. Box 30, Hanksville, Utah, convicted on or about November 21, 1963, in the District Court of Grand County, Utah.

Moskal, Stanley, 32772 Tuxedo Court, Warren, Mich., convicted on September 20, 1937, in the Macomb County Circuit Court, Mich.; and on September 26, 1940, in the Recorder's Court, Detroit, Mich.

Mueller, Brian L., 1106 North 10th Street, Sheboygan, Wis., convicted on or about December 27, 1967, in the Sheboygan County Court, Branch II, Sheboygan, Wis.

Mundinger, Henry D., 275 Aurora Street, St. Paul, Minn., convicted on November 7, 1969, on December 29, 1969, and on December 14, 1971, in the District Court, Fourth Judicial District of Hennepin County, Minnesota.

Orcutt, Scott E., 133 Kunze Drive, St. Charles, Mo., convicted on December 5, 1969, in the Court of Record at Broward County, Florida.

Penn, Joseph D., 267 West Burke Circle, McDonough, Ga., convicted on July 6, 1973, in the Superior Court, Henry County, Ga.

Powell, Curtis E., East 12009 Third Avenue, Spokane, Wash., convicted on April 4, 1969, in the Spokane County Superior Court, Spokane, Wash.

Ridgley, Thomas W., 1913 Druid Hill Avenue, Baltimore, Md., convicted on May 11, 1938, by the Justice of the Peace, Howard County, Maryland.

Schultz, Leah C., 4703 Franklin Road, Boise, Idaho, convicted on December 20, 1974, in the District Court of the Second Judicial District of the State of Idaho.

Smith, Jesse B., Route 3, Box 60-D, Zachary, Louisiana, convicted on August 28, 1968, in the Circuit Court of Franklin County, Mississippi.

Sullivan, Robert E., 514 Forest Park Drive, Pensacola, Fla., convicted on July 28, 1969, in the State of Florida, Circuit Court in and for Santa Rosa County.

Swann, Lee E., 1847 North 38th Place, Phoenix, Ariz., convicted on February 3, 1975, in the United States District Court, District of Arizona, Phoenix, Ariz.

Tewksbury, James R., 2866 B Hemlock Street, Bremerton, Wash., convicted on March 11, 1974, in the Superior Court of the State of Washington for Kitsap County.

Townsend, Charles E., 9310 Palo Alto Drive, Oklahoma City, Okla., convicted on August 25, 1972, in the United States District Court for the Western District of Oklahoma.

Trout, LaDoit S., 16237 S.E. Lincoln Street, Portland, Oreg., convicted on September 12, 1962, in the District Court of the Sixth Judicial District, Park County, Mont.

Tucker, Efren H., 1544 Minden Drive, San Diego, Calif., convicted on February 1, 1961, in the Superior Court, San Diego, Calif.

Urista, Bruno R., 1797 Livernois, Detroit, Mich., convicted on July 19, 1954, in the Wayne County Circuit Court, Michigan.

Signed at Washington, D.C., this 9th day of August 1977.

REX D. DAVIS,
Director, Bureau of Alcohol, Tobacco and Firearms.

Office of the Secretary

SORBATES FROM JAPAN

Antidumping Proceeding

AGENCY: United States Treasury Department.

ACTION: Initiation of Antidumping Investigation.

SUMMARY: This notice is to advise the public that a petition in proper form has been received and an antidumping investigation is being initiated for the purpose of determining whether or not imports of sorbates (sorbic acid and potassium sorbate) from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act of 1921, as amended. Sales at less than fair value generally occur when the prices of merchandise sold for exportation to the United States are less than the prices in the home market.

EFFECTIVE DATE: August 23, 1977.

FOR FURTHER INFORMATION CONTACT:

Edward F. Haley, Duty Assessment Division, Technical Branch, 1301 Constitution Avenue NW., Washington, D.C. 20229 (202-566-5492).

SUPPLEMENTARY INFORMATION: On July 18, information was received in proper form pursuant to § 153.26 and § 153.27, Customs Regulations (19 CFR 153.26 and 153.27), from counsel acting on behalf of the Monsanto Company, a domestic producer of the subject merchandise, indicating a possibility that sorbates from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

For purposes of this notice, the term "sorbates" means sorbic acid and potassium sorbate, which are classified under item numbers 425.8720 and 426.8420, respectively, of the Tariff Schedules of the United States, Annotated.

There is evidence on record concerning injury to, or likelihood of injury to, or prevention of establishment of an indus-

try in the United States. This evidence indicates that imports of sorbates from Japan have increased their share of the United States market in recent years as a result of possible sales at less than fair value. Furthermore, it appears that those alleged sales at less than fair value have prevented the petitioner from pricing its merchandise at a level sufficient to realize an adequate return on its investment.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined that there are grounds for doing so, the United States Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information from all sources is as follows:

The information received tends to indicate that the prices of merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to section 153.30 of the Customs Regulations (19 CFR 153.30).

ROBERT H. MUNDHEIM,
General Counsel of the Treasury.

AUGUST 17, 1977.

[FR Doc.77-24331 Filed 8-22-77;8:45 am]

VETERANS ADMINISTRATION

COOPERATIVE STUDIES EVALUATION COMMITTEE

Meeting

The Veterans' Administration gives notice pursuant to Pub. L. 92-463 that a meeting of the Cooperative Studies Evaluation Committee, authorized by 38 USC 4101, will be held at the Burlington Hotel, Vermont Avenue at Thomas Circle, NW., Washington, D.C. on November 7, 8, and 9, 1977. The meeting will be for the purpose of reviewing proposed cooperative studies and advising the Veterans' Administration on the relevance and feasibility of the studies, the adequacy of the protocols, the scientific validity and the propriety of technical details, including involvement of human subjects. The Committee advises the Director, Medical Research Service, through the Chief of the Cooperative Studies Program, on its findings.

The meeting will be open to the public up to the seating capacity of the room from 8 a.m. to 8:30 a.m., November 7, to discuss the general status of the program. To assure adequate accommodations, those who plan to attend should contact Dr. James A. Hagans, Coordinator of the Committee, Veterans' Administration Central Office, Washington, D.C. (202-389-3702) prior to October 28.

The meeting will be closed from 8:30 a.m. to 5 p.m., November 7 and all day November 8 and 9 for consideration of specific proposals in accordance with provisions set forth in Section 10(d) of Pub. L. 92-463 and Section 552b(c)(6) of Title 5, United States Code. During this portion of the meeting, discussion and decisions will deal with qualifications of personnel conducting the studies and the medical records of patients who are study subjects, the disclosure of which would constitute an invasion of personal privacy.

Dated: August 16, 1977.

By direction of the Administrator.

RUFUS H. WILSON,
Deputy Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice No. 463]

ASSIGNMENT OF HEARINGS

AUGUST 18, 1977.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 32779 (Sub-No. 13), Silver Eagle Co., now being assigned November 28, 1977 (2 weeks), at Portland, Oreg., in a hearing room to be later designated.

MC 35807 (Sub-No. 68), Wells Fargo Armored Service Corp., now being assigned November 1, 1977 (3 days), at Richmond, Va., in a hearing room to be later designated.

MC 142783, Farruggio's Limousine Service, a division of Farruggio's Bristol & Philadelphia Auto Express, Inc., now being assigned December 5, 1977 (1 week), at Philadelphia, Pa., in a hearing room to be later designated.

MC 109897 (Sub-No. 2), Gray Line New York Tours Corp., now being assigned for November 9, 1977 (2 days), at Newark, N.J., in a hearing room to be later designated.

MC 87730 (Sub-No. 27), R. W. Bozel Transfer, Inc., now assigned November 16, 1977, at Washington, D.C., is canceled.

MC 130444, Nancy H. Nagle, now being assigned November 21, 1977 (3 days), at Richmond, Va., in a hearing room to be later designated.

MC 133591 (Sub-No. 33), Wayne Daniel Truck, Inc., now assigned October 18, 1977, at St. Louis, Mo., is canceled, application dismissed.

MC 112103 (Sub-No. 4), Leprechaun Lines, Inc., now being assigned November 14, 1977 (1 week), at Poughkeepsie, N.Y., in a room to be later designated.

MC-F-13154, Shaffer Trucking, Inc.—Purchase—Tempco Transportation, Inc., now September 13, 1977, at Louisville, Ky., is postponed to November 29, 1977 (4 days), at Louisville, Ky., in a hearing room to be later designated.

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 18, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before September 7, 1977. FSA No. 43413—*Wheat from Points in Kansas on the Missouri Pacific Railroad Company.* Filed by Missouri Pacific Railroad Company, (No. 1142), for interested rail carriers. Rates on wheat, in bulk, in carloads, as described in the application, from points in Kansas on the Missouri Pacific Railroad Company, i.e., Silverdale and Arkansas City, Kansas, to Gulf Ports, viz.: Ama, Baton Rouge, Lake Charles, Myrtle Grove, New Orleans, and Port Allen, Louisiana; also Beaumont, Corpus Christi, Freeport, Galveston, Houston, Orange and Texas City, Texas.

Grounds for relief—Motor-truck competition. Tariff—Supplement 97 to Missouri Pacific Railroad Company tariff 57-F, I.C.C. No. 518. Rates are published to become effective on September 17, 1977.

By the Commission.

H. G. HOMME, JR.,
Acting Secretary.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

[Notice No. 105TA]

AUGUST 17, 1977.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provides that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 59150 (Sub-No. 102TA), filed August 1, 1977. Applicant: PLOOF TRUCK LINES, INC., 1414 Lindrose Street, P.O. Box 3277, Jacksonville, Fla. 32206. CIVIL AERONAUTICS BOARD.

Notice of addition of item to August 23, 1977 meeting agenda.

TIME AND DATE: 10 a.m., August 23, 1977.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 15a. Docket 30221, Petition for discretionary review of the Initial Decision in the *DOD-Contract Eligible Certification Case* (Memo No. 7352, OGC).

STATUS: Open.

PERSON TO CONTACT:

Phyllis T. Kaylor, The Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: This proceeding involves eligibility to perform certain Department of Defense contracts beginning October 1, 1977 for the 1978 fiscal year. The initial decision was issued July 1, 1977, petitions for discretionary review were filed on July 22, 1977, and answers to the petition were filed by August 8, 1977. In order for the Board to be in a position to decide this case in time for the 1978 fiscal year, agency business requires that the Board meet on this item on less than seven days' notice. Accordingly, the following Members have voted that agency business requires the addition of this item on less than seven days' notice and that no earlier announcement of the addition was possible:

Chairman Alfred E. Kahn
Member Joseph Minetti
Member Lee R. West
Member Elizabeth E. Bailey

GAS AGENDA, 7670TH MEETING, AUGUST 24, 1977, REGULAR MEETING, PART II

CG-1.—Docket No. RP73-91 (PGA No. 77-2b), McCulloch Interstate Gas Corporation.

CG-2.—Docket No. RP72-134 (PGA Nos. 77-8 and 77-9), Eastern Shore Natural Gas Company.

CG-3.—Docket No. RP77-57, National Fuel Gas Supply Corporation.

CG-4.—Docket No. RP77-96, Natural Gas Pipeline Company of America.

CG-5.—Docket Nos. G-2017, et al., Texas Gas Transmission Corporation.

CG-6.—Phillips Petroleum Company, FPC Gas Rate Schedule No. 600; Texas Pacific Oil Company, Inc., FPC Gas Rate Schedule No. 121.

CG-7.—Docket No. C173-427, Texas Pacific Oil Company; Docket No. CS75-341, Tricentrol United States, Inc.; Docket No. CS71-659, Kilroy Properties Incorporated; Docket No. CS73-266, Harrington & Bibler, Inc.; Docket No. CS73-268, Bridger Petroleum Corporation; Docket No. CS75-389, Arden F. Blair.

CG-8.—Pennzoil Company, FPC Gas Rate Schedule No. 10.

CG-9.—Docket No. CP77-382, Transcontinental Gas Pipe Line Corporation.

CG-10.—Docket No. CP77-346, Natural Gas Pipeline Company of America Trunkline Gas Company and Columbia Gulf Transmission Company.

CG-11.—Docket No. CP77-264, Transcontinental Gas Pipe Line Corporation and United Gas Pipe Line Company.

CG-12.—Docket No. CP77-460, Cities Service Gas Company.

CG-13.—Docket No. CP77-375, United Gas Pipe Line Company.

CG-14.—Docket No. CP77-322, United Gas Pipe Line Company and Southern Natural Gas Company.

CG-15.—Docket No. CP77-122, Sea Robin Pipeline Company.

CG-16.—Docket No. CP77-408, El Paso Natural Gas Company; Docket No. CP77-411, Southwest Gas Corporation.

CG-17.—Docket Nos. CP77-369 and CP77-370, Transcontinental Gas Pipe Line Corporation.

CG-18.—Docket No. CP77-347, Western Gas Interstate Company.

CG-19.—Docket No. CP77-339, Columbia Gas Transmission Corporation.

CG-20.—Docket No. CP77-230, Florida Gas Transmission Company and United Gas Pipe Line Company.

CG-21.—Docket No. CP77-109, Texas Eastern Transmission Corporation.

CG-22.—Docket No. CP76-403, Texas Gas Transmission Corporation; Docket No. CP77-426, Transcontinental Gas Pipe Line Corporation.

CG-23.—Docket No. CP76-410, El Paso Natural Gas Company.

CG-24.—Docket No. CP77-249, Trunkline Gas Company.

CG-25.—Docket No. CP75-326, Transcontinental Gas Pipe Line Corporation.

CG-26.—Docket No. CI76-407, Columbia Gas Development Corporation; Docket No. CP76-132, Transcontinental Gas Pipe Line Corporation.

CG-27.—Docket No. CP77-11, Northern Natural Gas Company; Docket No. CP77-17, Trunkline Gas Company and Panhandle Eastern Pipe Line Company; Docket No. RP77-92, Trunkline Gas Company and Panhandle Eastern Pipe Line Company; Docket No. CP77-54, Northern Natural Gas Company.

CG-28.—Docket No. CP70-188, Texas Gas Transmission Corporation.

CG-29.—Docket No. CP77-427, Transcontinental Gas Pipe Line Corporation; Docket No. CP77-480, Panhandle Eastern Pipe Line Company and Trunkline Gas Company.

CG-30.—Docket No. CP76-363, Transcontinental Gas Pipe Line Corporation.

CG-31.—Docket No. CP63-177, Texas Eastern Transmission Corporation and Tennessee Gas Pipeline Company, a Division of Tenneco Inc.

CG-32.—Docket Nos. CP67-381, CP68-166 and CP69-71, Tennessee Gas Pipeline Company, a Division of Tenneco Inc.

CG-33.—Docket No. CP73-43, Mountain Fuel Supply Company.

CG-34.—Docket No. CP74-126, El Paso Natural Gas Company; Docket No. CP74-162, Natural Gas Pipeline Company of America.

CG-35.—Docket No. CP74-213, Michigan Wisconsin Pipe Line Company.

CG-36.—Docket No. CP76-362, Texas Eastern Transmission Corporation, Transcontinental Gas Pipe Line Corporation and Northern Natural Gas Company.

CG-37.—Docket No. CP75-301, Tennessee Gas Pipeline Company, a Division of Tenneco Inc., and Michigan Wisconsin Pipe Line Company.

CG-38.—Docket No. CP76-492, National Fuel Gas Supply Corporation and National Fuel Storage Corporation.

CG-39.—Docket No. CP76-492, National Fuel Gas Supply Corporation and National Gas Storage Corporation.

CG-40.—Docket No. CP76-500, United Gas Pipeline Company.

CG-41.—Docket No. CP77-210, Michigan Wisconsin Pipe Line Company and United Gas Pipe Line Company.

MISCELLANEOUS AGENDA, 7670TH MEETING, AUGUST 24, 1977, REGULAR MEETING, PART II

CM-1.—Central Hudson Gas and Electric Corporation.

CM-2.—Northern States Power Company (Minnesota).

CM-3.—Mississippi Power & Light Company.

CM-4.—Commission Minutes.

CM-5.—(A) *Amarex, Inc.* v. *FPC*, 10th Cir. No. 77-1503 (CP76-220).

(B) *Gulf Oil Corporation* v. *FPC*, 3d Cir. No. 77-1893 (C177-95).

(C) *Columbia Gas Transmission Corporation* v. *FPC*, D.C. Cir. No. 77-1627 (RP75-19).

(D) *Arizona Electric Power Cooperative* v. *FPC* (CP74-289).

(E) *The City of Groton, et al.* v. *FPC*, D.C. Cir. No. 77-1635 (E-7743).

(F) *Cities of Altus, et al.* v. *FPC*, D.C. Cir. No. 77-1548 (E-8242).

POWER AGENDA, 7670TH MEETING, AUGUST 24, 1977, REGULAR AGENDA, PART II

CP-1.—Docket No. ER77-328, Public Service Company of Oklahoma.

CP-2.—Docket No. ER77-223, Bangor Hydro-Electric Company.

CP-3.—Docket No. ER77-292, Kansas Power & Light Company.

CP-4.—State Director, Bureau of Land Management (I-13221), Boise, Idaho.

CP-5.—State Director, Bureau of Land Management (CA-4256), Sacramento, California.

CP-6.—Docket No. ID-1598, Willis S. White, Jr.

CP-7.—Docket No. ID-1682, Frederick Lange.

CP-8.—Docket No. ID-1811, Ernest D. Huggard.

CP-9.—Docket No. ID-1813, S. Hale Lull.

CP-10.—Docket No. DA-506-Colorado, U.S. Geological Survey, Lands Withdrawn in Power Site Classification Nos. 219 and 357.

CP-11.—Docket Nos. ER-77-427 and ER-77-473, Minnesota Power and Light Company, Superior Water, Light and Power Company.

OP-12.—Docket No. ER77-480, Montaup Electric Company.

CP-13.—Docket No. ER77-464, Public Service Company of New Mexico.

CP-14.—Docket No. E-9572, *Papago Tribal Utility Authority and Arizona Electric Power Cooperative, Inc.* v. *Arizona Public Service Company.*

CP-15.—Docket No. E-9579, Idaho Power Company.

[S-1159-77 Filed 8-19-77;2:51 p.m.]

9

INTERNATIONAL TRADE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: Issue of August 19, 1977.

PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING: 9:30 a.m., August 23, 1977.

CHANGES IN THE MEETING: Additional item added to the agenda as follows: 9. Promotion—see action jacket GC-77-48 (if necessary).

CONTACT PERSON FOR MORE INFORMATION:

Kenneth R. Mason, Secretary, 202-523-0161.

[S-1148-77 Filed 8-18-77;2:54 pm]

10

NUCLEAR REGULATORY COMMISSION.

TIME AND DATE: Week of August 22, 1977.

PLACE: Commissioners' Conference Room, 1717 H St. NW., Washington, D.C.

STATUS: Open/closed.

MATTERS TO BE CONSIDERED:

WEDNESDAY, AUGUST 24

9 a.m.—Preliminary Markup/Reclama (IE/NRR) (Closed—Exemption 9).

11:30 a.m.—Discussion of Response to Applicant's Agent and Proposed Action on Minor Export (public meeting).

1:30 p.m.—Briefing on Pending ALAB Review and Disposition of Certiorari Petitions, including Indian Point, Sabrook, Diablo Canyon, and St. Lucie, 2 Proceedings (Closed—Exemption 10).

THURSDAY, AUGUST 25

9 a.m.—Recall of Officers (RES) (approx. 1 hr) (public meeting).

10:00 a.m.—Affirmation of Clearance Exemption for Cong. Moss (approx. 5 min) (public meeting).

10:30 a.m.—Preliminary Markup/Reclama (RES) (approx. 1 hr) (Closed—Exemption 9).

1:30 p.m.—Commission Budget Markup (approx. 3 hrs) (Closed—Exemption 9).

FRIDAY, AUGUST 26

9 a.m.—Commission Budget Markup (approx. 3 hrs) closed—Exemption 9).

CONTACT PERSON FOR MORE INFORMATION:

Walter Magee, 202-634-1410.

WALTER MAGEE,
Office of the Secretary.

[S-1157-77 Filed 8-19-77;10:57 am]

11

PAROLE COMMISSION.

National Commissioners (the three Commissioners presently maintaining offices at Washington, D.C. Headquarters).

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: August 8, 1977, 42 FR 40074.

CHANGES IN THE MEETING: The Closed meeting scheduled for 9:30 a.m., on Wednesday, August 17, 1977, to consider referrals from regional directors of approximately 20 cases in which inmates of Federal Prisons have applied for parole or are contesting revocation of parole or mandatory release has been rescheduled for 9:30 a.m., on Tuesday, August 30, 1977.

PLACE: Room 338, Federal Home Loan Bank Board Building, 320 First Street NW., Washington, D.C. 20537.

AUTHORITY FOR THE CHANGE: Order of Commissioner George J. Reed, Acting Vice-Chairman and Presiding Officer of National Commissioners.

CONTACT PERSON FOR MORE INFORMATION:

Lee H. Chait, Analyst, 202-724-3094.

[S-1155-77 Filed 8-19-77;10:51 am]

12

TENNESSEE VALLEY AUTHORITY.

TIME AND DATE: 10:30 a.m., Thursday, August 25, 1977.

PLACE: Conference Room B-32, West Tower, 400 Commerce Avenue, Knoxville, Tennessee.

STATUS: Open.

MATTERS TO BE CONSIDERED:

A—PERSONNEL ACTIONS

None.

B—CONSULTING AND PERSONAL SERVICE CONTRACTS

1. Renewal of consulting contract with Lawrence K. Cecil, Champaign, Illinois—Office of Power.

C—PURCHASE AWARDS

1. Req. No. 820325—Metal siding panels and accessories including installation for Bellefonte Nuclear Plant.

2. Req. No. 820926—Sodium hypochlorite generation system for Browns Ferry, Sequoyah, Hartsville, proposed Phipps Bend, and proposed Yellow Creek Nuclear Plants.

3. Req. No. 821269—Horizontal centrifugal pumps for Hartsville and proposed Phipps Bend Nuclear Plants.

4. Req. No. 820900—Mechanical penetration assemblies for Hartsville and proposed Phipps Bend Nuclear Plants.

5. Req. No. 822512—Requirement contract for portland cement for proposed Phipps Bend Nuclear Plant.

6. Req. No. 822535—Indefinite quantity term contracts for steel reinforcing bars for proposed Phipps Bend Nuclear Plant.

7. Req. No. 107956—ACSR conductor cable for various transmission lines.

8. Req. No. 822334—Structural steel for 161- and 500-kV switchyards for Hartsville Nuclear Plant.

9. Req. No. 547118—Automatic pipe welding equipment for Watts Bar Nuclear Plant.

10. Amendment to Contracts 73C60-75210 and 75K60-84840-1 with General Electric Company, Chattanooga, Tennessee, for nuclear steam supply systems for Hartsville and the proposed Phipps Bend Nuclear Plants.

11. Amendment to Contract No. 76X72-71332 with Siskin Steel & Supply Company, Inc., Chattanooga, Tennessee, for carbon steel for any TVA nuclear project.

12. Req. No. 144930—Spare parts for nuclear steam supply systems for Sequoyah and Watts Bar Nuclear Plants.

13. Req. No. 547377—Indefinite quantity term contract for gasoline for various TVA projects and warehouses.

14. Sales Invitation No. 3644—Sale of scrap aluminum, electrical wire, and cable.

D—PROJECT AUTHORIZATIONS

1. No. 3215—Construction of transmission connections for the Hartsville Nuclear Plant.

2. No. 2902.1—Amendment to project authorization for Hartsville Nuclear Plant.

3. No. 3032.1—Amendment to project authorization for proposed Phipps Bend Nuclear Plant.

4. No. 3261—Environmental studies of coal cleaning processes (in collaboration with U.S. Environmental Protection Agency).

E—FERTILIZER ITEMS

1. Letter agreement with the International Fertilizer Development Center—research and technical assistance projects.

F—POWER ITEMS

1. Lease and amendatory agreement with Cumberland Electric Membership Corporation—Pleasant View 69-kV substation.

2. Lease and amendatory agreement with Tri-State Electric Membership Corporation—Epworth Substation.

3. Lease and amendatory agreement with Electric Plant Board of the city of Murray, Kentucky.

4. Lease and amendatory agreement with city of Paris, Tennessee.

5. Lease and amendatory agreement with North Georgia Electric Membership Corporation Catoosa and Tilton Substations.

6. New power contract with city of Trenton, Tennessee.

7. New power contract with city of Jackson, Tennessee.

8. New power contract with Jersey Miniere Zinc Company.

9. Letter agreement with Champion International Corporation—relocation of section of TVA's 161-kV transmission tapline near Courtland, Alabama.

10. Bill of sale and quitclaim deed to the city of Glasgow, Kentucky—deenergized section of TVA's former Summer Shade-Oakland 69-kV Transmission Line.

G—REAL PROPERTY TRANSACTIONS

1. Resolution relating to sale of 10-year easement for a coal-loading terminal, affecting approximately 3.4 acres of Guntersville Reservoir Land—Tract No. XGR-720IE.

2. Filing of condemnation suits.

H—UNCLASSIFIED

1. Resolution relating to settlement agreement with Skyline Structures, Division of Anderson "Safeway" Guard Rail Corporation, in connection with contract disputes.

2. Resolution relating to settlement agreement with Southwestern Engineering Company.

3. Agreement with the National Climatic Center of the National Oceanic and Atmospheric Administration for wind analyses.

4. Amendment to contract with University of Kentucky Research Foundation for aeromagnetic mapping.

5. Agreement with the United States Geological Survey for cooperative water resources investigations.

6. Agreement with the city of Rockwood, Tennessee, for redevelopment program.

Following the formal meeting, the Board will complete its quarterly review of current and anticipated conditions and costs affecting TVA's power operations and the adequacy of revenues to meet the requirements of the TVA Act and the tests and provisions of its bond resolutions. The Board will determine whether an adjustment of the rates and charges for the sale of electric power will be necessary during the quarter beginning October 1, 1977.

CONTACT PERSON FOR MORE INFORMATION:

John Van Mol, Director of Information, or a member of his staff can respond to requests for information about this meeting. Call 615-632-3257, Knoxville, Tennessee. Information is also available at TVA's Washington Office, 202-343-4537.

[S-1153-77 Filed 8-19-77,9:21 am]

13

CIVIL SERVICE COMMISSION.

TIME AND DATE OF MEETING: 9 a.m., August 30, 1977.

PLACE: Commissioners' Meeting Room, Room 5H09 (fifth floor), 1900 E Street NW., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED:

(1) Administrative Remedies—Downgrading.

(2) Commission Policy on Paid Institutional Advertising in Educational and Career Editions of Publications.

■

EDUCATION OF HANDICAPPED CHILDREN

Implementation of Part B of the Education of the Handicapped Act

V42 I163 AUG 23 77 UM V

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

EDUCATION OF HANDICAPPED CHILDREN

Implementation of Part B of the Education of the Handicapped Act

AGENCY: U.S. Office of Education, HEW.

ACTION: Final regulation.

SUMMARY: These regulations implement amendments to Part B of the Education of the Handicapped Act (as required by the Education for All Handicapped Children Act of 1975) by: (1) amending the existing regulations governing assistance to States for education of handicapped children, (2) adding a new part on incentive grants programs for handicapped children aged three through five, and (3) making certain conforming amendments to the general provisions for State-administered programs.

These regulations govern the provision of formula grant funds to State and local educational agencies to assist them in the education of handicapped children.

The regulations include provisions which are designed (1) to assure that all handicapped children have available to them a free appropriate public education; (2) to assure that the rights of handicapped children and their parents are protected; (3) to assist States and localities to provide for the education of handicapped children; and (4) to assess and assure the effectiveness of efforts to educate such children.

These regulations also include the final rules for counting and reporting handicapped children. (The child count rules were published in proposed form on September 8, 1976, and were incorporated into the December 30 proposed regulations for the convenience of the reader.)

EFFECTIVE DATE: October 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Daniel Ringelheim, Director, Division of Assistance to States, Bureau of Education for the Handicapped, 400 Maryland Ave. SW., (room 4046 Donohoe Building), Washington, D.C. 20202, telephone: 202-472-2265;

or

Thomas B. Irvin, Policy Officer, Bureau of Education for the Handicapped, 400 Maryland Ave. SW., (room 4926 Donohoe Building), Washington, D.C. 20202, telephone: 202-245-9405.

SUPPLEMENTARY INFORMATION:

RULEMAKING HISTORY—PUBLIC PARTICIPATION

Because of the potential impact that Pub. L. 94-142 will have on the education of handicapped children throughout the Nation, and on the agencies that serve them, the Office of Education recognized the need for intensive public participation in the development of regulations, and took steps to insure maximum public involvement throughout the entire rulemaking process. A description of these steps is included in the following paragraphs:

Before the proposed rules were drafted, the Office of Education carried out a massive effort to obtain comments and suggestions for developing regulations from interested parties throughout the Nation. This involved participating in approximately 20 meetings about the law conducted on both a geographic and special interest basis. Approximately 2,200 people participated in these meetings and several hundred comments were received.

In June 1976, the Office of Education convened a national writing group of approximately 170 people to develop concept papers for use in writing the regulations. This group was composed of parents, representatives of special interest organizations (i.e., AFT, NEA, private schools), and administrators of State and local schools. These concept papers formed the basis for the proposed regulations.

During the months of July–November, the Office of Education prepared several redrafts of the concept papers and continued to seek inputs on these drafts from various interested parties.

On December 30, 1976, the proposed rules were published in the FEDERAL REGISTER. Written comments and recommendations on the proposed rules were invited for a 60-day comment period ending March 1, 1977; and public hearings were held in Washington, San Francisco, Denver, Chicago, Boston, and Atlanta. Over 1,600 written comments were received during that period, all of which were reviewed and considered by the Office of Education in preparing these final regulations.

The tapes of the hearings and copies of written comments are available for public inspection at the Bureau of Education for the Handicapped, room 4921, Donohoe Building, 400 6th Street SW., Washington, D.C. 20202.

In addition to the above public comment activities, the Office of Education continued with other public participation efforts, including:

(1) Participating in 10 regional meetings of the American Association of School Administrators and other regional meetings with the Council of the Great City Schools;

(2) Conducting a national conference on the regulations for administrators of various State agency programs for the handicapped, and participating in meetings at other national conferences; and

(3) Participating in a special series of meetings organized by the Institute for Educational Leadership and composed of representatives of the National Governors' Conference, the National Conference of State Legislatures, the National Association of State Boards of Education, and the Education Commission of the States.

ACTION TAKEN ON PUBLIC COMMENTS

PART 100B—STATE ADMINISTERED PROGRAMS

No comments were received on the proposed amendments to Part 100b, and no changes have been made.

PART 121A—ASSISTANCE TO STATES FOR EDUCATION OF HANDICAPPED CHILDREN

The Office of Education conducted a careful review of the public comments received and summarized them by subpart and topic.

A very large number of comments dealt with specific statutory requirements. These comments expressed concerns about the statute and suggested changes to be made in the statutory provisions. However, because they are statutory, the Office of Education is not able to make any changes in the regulations with respect to those points. Some of the statutory provisions on which comments were received, together with concerns about them, are included below:

(1) Free appropriate public education—problems with timelines and concerns about the cost of implementing this requirement;

(2) Priorities—concerns about Federal priorities which are not consistent with State and local priorities;

(3) Individualized education programs—suggestions that the requirement be deleted from the regulation unless more funds are available for implementing it;

(4) Prior notice and other due process procedures—concerns about the amount of detail in these requirements and the time, cost and paper work involved in their implementation;

(5) State educational agency responsibility for general supervision of all special education programs in the State—concerns about lack of authority over other State agencies and the lack of funds to efficiently implement the provision;

(6) Child count—concerns about the dates on which the count must be taken.

Another large number of commenters cited specific concerns or issues with respect to the content of the proposed rules. Because of the large number of comments received, individual comments have been consolidated.

PART 121M—INCENTIVE GRANTS

Part 121m sets forth the conditions under which States may receive grants to assist in the education of handicapped children aged three through five. Congress established incentive grants in the recognition that when education begins at the earlier stages of development (1) benefits are maximized, (2) additional or more severe handicaps may be prevented, and (3) greater long-term cost effectiveness is realized.

Comment: An issue was raised concerning the possible use of incentive grant funds for children from birth through two years of age.

Response: Section 619 of the Act and the legislative history specify that the use of incentive grant funds is limited to children aged three through five years. However, the State's entitlement under section 611 of the Act may be used for children from birth through age twenty-one.

Comment: An issue was raised as to whether incentive grant funds may be used for administrative or supervisory costs.

Response: The regulation has been amended to make it clear that administrative costs are allowable.

MINIMUM REGULATION—FUTURE RULEMAKING PLANS

The preamble to the proposed rules contained the following statement regarding minimum regulations:

> The Department sees the development of regulations for implementing Pub. L. 94-142 as being an evolutionary process which will continue over a period of several years. The actual impact and consequences of the statutory provisions and problems which State and local educational agencies may have in implementing these provisions are not known at this time. Therefore, the Department feels that the most rational approach to follow is (1) to write minimum regulations at this point, and (2) to amend and revise such regulations in the future as need and experience dictate.
>
> Because the Statute is very comprehensive and specific on many points, the Department has elected (1) to incorporate the basic wording or substance of the Statute directly into the regulations, and (2) to expand on the statutory provisions only where additional interpretation sems to be necessary.

Although some commenters felt that more extensive regulations were necessary, many persons who responded to the proposed rules felt that the Office of Education had already over-regulated and should cut back on the rules when they are published in final form. At this juncture, the Office of Education holds to the same position that it took in the proposed rules, and for the same reasons as set forth in that document.

The Office of Education believes that some working experience with this regulation is essential before determining whether there is a need to amend it. Once the regulation becomes effective (Oct. 1, 1977) and people gain experience in implementing it, there will likely be a series of questions raised in individual States which could result in the development of policies and interpretations that would be proposed for addition to these regulations.

OVERVIEW OF CHANGES IN THE PART 121A REGULATIONS

A substantial number of changes have been made in response to comments received on the proposed rules. However, few of these changes have resulted in adding major substantive requirements. Most of the changes are technical or have been made in an attempt to provide greater clarity or to add more explanatory material.

Extensive use has been made of explanatory comments in the text of the regulations. The purpose of these comments is to attempt, where appropriate, to clarify or further interpret a particular rule, or to provide direction and assistance without imposing additional requirements. For example, an extensive explanation is included under the excess cost requirement and an example is given on how to make the computation under that requirement.

ORGANIZATION OF REGULATIONS

Three parts of Title 45 of the Code of Federal Regulations are amended by this document:

(1) Part 100b—*State Administered Programs.* This includes certain conforming amendments to the regulations under section 434(b)(1)(A) of the General Education Provisions Act.

(2) Part 121a—*Assistance to States for Education of Handicapped Children.* This is divided into seven subparts: (A) General, (B) State Annual Program Plans and Local Applications, (C) Services, (D) Private Schools, (E) Procedural Safeguards, (F) State Administration, and (G) Allocation of Funds and Reports.

(3) Part 121m—*Incentive Grants.* This governs the administration of the incentive grants program for handicapped children aged three through five, authorized under section 619 of the Act.

ANALYSIS OF REGULATIONS

Appendix A of Part 121a includes an analysis of each subpart, which (1) discusses significant comments received and the action taken with respect to those comments, and (2) explains the basis for any changes made from the proposed rules published on December 30, 1976.

TOPICAL INDEX

Appendix B of Part 121a includes an index of the major topics in the regulations (e.g., free appropriate public education, priorities, and individualized education program) and the specific sections under which each term is used.

NOTE.—The Department of Health, Education, and Welfare, has determined that this document contains a major proposal requiring preparation of an Economic Impact Analysis (EIA) Statement under Executive Orders 11821 and 11949 and OMB Circular A-107, and certifies that an Economic Impact Analysis has been prepared. However, because the portion of this regulation involving major costs is virtually identical to the content of subpart D of the regulation issued on discrimination against the handicapped under section 504 of the Rehabilitation Act of 1973 (45 CFR Part 84; published May 4, 1977, at 42 FR 22675), the Department has determined that (a) this regulation involves no substantial costs not imposed by Part 84 and (b) the pertinent parts of the EIA Statement for that regulation meet the EIA requirements for this regulation. Both regulations impose the following requirements: (1) appropriate education to handicapped children; (2) identification and evaluation of handicapped children; and (3) procedural safeguards for handicapped children and their parents.

(Catalog of Federal Domestic Assistance Number 13.449, Education of Handicapped Children, Part B.)

Dated: August 12, 1977.

JOHN ELLIS,
Acting U.S. Commissioner of Education.

Approved: August 15, 1977.

HALE CHAMPION,
Acting Secretary of Health, Education, and Welfare.

Title 45 of the Code of Federal Regulations is amended as follows:

PART 100b—STATE ADMINISTERED PROGRAMS

1. In Part 100b, § 100b.17 is revised to read as follows:

§ 100b.17 General applications.

(a) The general application of a State must meet the requirements of section 434(b)(1)(A) of the General Education Provisions Act.

(b) A State does not have to resubmit its general application.

(20 U.S.C. 1232c(b)(1)(A).)

(c)(1) The following statutes require that a State must submit certain provisions to the Commissioner which are similar to provisions in the general application.

(2) Subject to paragraph (d) of this section, if the Commissioner has approved a State's general application, the State does not have to submit the provisions required under the following statutes:

(i) *Compensatory education.* Section 142(a) (2) and (3) of Title I of the Elementary and Secondary Education Act of 1965, as amended.

(20 U.S.C. 1232c(b)(1)(A)(ii) (II), (III).)

(ii) *School library resources.* Section 203(a) (5), (6) and (7) of Title II of the Elementary and Secondary Education Act of 1965, as amended.

(20 U.S.C. 1232c(b)(1)(A)(ii) (II), (III), and (IV).)

(iii) *Supplementary educational centers and services; guidance, counseling, and testing.* Section 305(b) (9)(B), (10), and (11) of Title II of the Elementary and Secondary Education Act of 1965, as amended.

(20 U.S.C. 1232c(b)(1)(A)(ii) (II), (III) and (IV).)

(iv) *Education of the handicapped.* Section 613(a) (7)(A), (9)(B), and (10) of Part B of the Education of the Handicapped Act, as amended.

(20 U.S.C. 1232c(b)(1)(A)(ii) (II), (III) and (IV).)

(v) *Adult education.* Section 306(a) (6) and (7) of the Adult Education Act, as amended.

(20 U.S.C. 1232c(b)(1)(A)(ii) (II), (III).)

(vi) *Strengthening instruction in academic subjects.* Section 1004(a) (2) and (3) of Title X of the National Defense Education Act of 1958, as amended.

(20 U.S.C. 1232c(b)(1)(A)(ii), (II), (III).)

(vii) *State reading improvement programs.* Section 714(a) (10) of Title VII-B of the Education Amendments of 1974.

(20 U.S.C. 1232c(b)(1)(A)(ii), (III).)

(d)(1) The general application does not change the legal substance of the provisions listed under paragraph (c)(2) of this section.

(2) If a provision listed in paragraph (c)(2) of this section is different in wording from an assurance in the general application, the provision listed in that paragraph governs any question of compliance with the assurance.

(20 U.S.C. 1232c(b)(1)(B)(i), (b)(1)(B)(iii), (b)(2).)

2. In Part 100b, § 100b.35 is revised to read as follows:

§ 100b.35 Effective date of an application, plan, or amendment.

(a) Federal funds are available only for obligations incurred under:

(1) A State plan approved by the Commissioner (in the case of the programs set forth in § 100b.10 other than those referenced in § 100b.15(a)); or

(2) A general application and an annual program plan approved by the Commissioner (in the case of the programs referenced in § 100b.15(a)).

(b) A State plan, general application, annual program plan, or amendment to any of them, is effective on the date the State submits it to the Federal Government in substantially approvable form. However, the effective date cannot be earlier than the first day of the fiscal period for which it is submitted.

(c) The Commissioner sends the State agency a notice of approval, including notice of the effective date, when the application, plan, or amendment is approved.

(d) Federal funds are not available for obligation by a State or local agency before the effective date of the State plan or annual program plan (whichever is submitted under paragraph (a) of this section). If funds are expressly made available by statute for the development of the State plan, general application, or annual program plan, the first sentence of this paragraph does not apply to obligations by the State for that purpose.

(20 U.S.C. 1221e-3(a)(1).)

3. In Part 100b, § 100b.55 is revised to read as follows:

§ 100b.55 Obligation by recipients.

(a) *Period for obligation.* Federal funds which the Federal government may obligate during a fiscal period remain available for obligation by State and local recipients through the end of that fiscal period. Federal funds made available for construction of facilities remain available for obligation by State and local recipients for that purpose for a reasonable period of time as determined by the Commissioner.

(b) *Carryovers.* In accordance with section 414(b) of the General Education Provisions Act, any Federal funds which are not obligated by State and local recipients before the end of the fiscal period under paragraph (a) of this section, remain available for obligation by those agencies for one additional fiscal year.

(c) *Determinations of obligation.* (1) An obligation for the acquisition of real or personal property, for the construction of facilities, or for the performance of work, is incurred by a recipient on the date it makes a binding written commitment.

(2) An obligation for personal services, for services performed by public utilities, for travel, or for the rental of real or personal property, is incurred by a recipient on the date it receives the services, its personnel takes the travel, or it uses the rented property.

(20 U.S.C. 1221c(a); 1225(b); 1232c(b)(1)(A)(ii)(II).)

4. Part 121a is revised to read as follows:

PART 121a—ASSISTANCE TO STATES FOR EDUCATION OF HANDICAPPED CHILDREN

Subpart A—General

PURPOSE, APPLICABILITY, AND GENERAL PROVISIONS REGULATIONS

Sec.
121a.1 Purpose.
121a.2 Applicability to State, local, and private agencies.
121a.3 General provisions regulations.

DEFINITIONS

121a.4 Free appropriate public education.
121a.5 Handicapped children.
121a.6 Include.
121a.7 Intermediate educational unit.
121a.8 Local educational agency.
121a.9 Native language.
121a.10 Parent.
121a.11 Public agency.
121a.12 Qualified.
121a.13 Related services.
121a.14 Special education.
121a.15 State.

Subpart B—State Annual Program Plans and Local Applications

ANNUAL PROGRAM PLANS—GENERAL

121a.110 Condition of assistance.
121a.111 Contents of plan.
121a.112 Certification by the State educational agency and attorney general.
121a.113 Approval; disapproval.
121a.114 Effective period of annual program plan.

ANNUAL PROGRAM PLANS—CONTENTS

121a.120 Public participation.
121a.121 Right to a free appropriate public education.
121a.122 Timelines and ages for free appropriate public education.
121a.123 Full educational opportunity goal.
121a.124 Full educational opportunity goal—data requirement.
121a.125 Full educational opportunity goal—timetable.
121a.126 Full educational opportunity goal—facilities, personnel, and services.
121a.127 Priorities.
121a.128 Identification, location, and evaluation of handicapped children.
121a.129 Confidentiality of personally identifiable information.
121a.130 Individualized education programs.
121a.131 Procedural safeguards.
121a.132 Least restrictive environment.
121a.133 Protection in evaluation procedures.
121a.134 Responsibility of State educational agency for all educational programs.
121a.135 Monitoring procedures.
121a.136 Implementation procedures—State educational agency.
121a.137 Procedures for consultation.
121a.138 Other Federal programs.
121a.139 Comprehensive system of personnel development.
121a.140 Private schools.
121a.141 Recovery of funds for misclassified children.
121a.142 Control of funds and property.
121a.143 Records.
121a.144 Hearing on application.
121a.145 Prohibition of commingling.
121a.146 Annual evaluation.
121a.147 State advisory panel.
121a.148 Policies and procedures for use of Part B funds.
121a.149 Description of use of Part B funds.
121a.150 Nondiscrimination and employment of handicapped individuals.
121a.151 Additional information if the State educational agency provides direct services.

LOCAL EDUCATIONAL AGENCY APPLICATIONS—GENERAL

121a.180 Submission of application.
121a.181 Responsibilities of State educational agency.
121a.182 The excess cost requirement.
121a.183 Meeting the excess cost requirement.
121a.184 Excess costs—computation of minimum amounts.
121a.185 Computation of excess costs—consolidated application.
121a.186 Excess costs—limitation on use of Part B funds.
121a.190 Consolidated applications.
121a.191 Payments under consolidated applications.
121a.192 State regulation of consolidated applications.
121a.193 State educational agency approval; disapproval.
121a.194 Withholding.

LOCAL EDUCATIONAL AGENCY APPLICATIONS—CONTENTS

121a.220 Child identification.
121a.221 Confidentiality of personally identifiable information.
121a.222 Full educational opportunity goal; timetable.
121a.223 Facilities, personnel, and services.
121a.224 Personnel development.
121a.225 Priorities.
121a.226 Parent involvement.
121a.227 Participation in regular education programs.
121a.228 Public control of funds.
121a.229 Excess cost.
121a.230 Nonsupplanting.
121a.231 Comparable services.
121a.232 Information—reports.
121a.233 Records.
121a.234 Public participation.
121a.235 Individualized educaton program.
121a.236 Local policies consistent with statute.
121a.237 Procedural safeguards.
121a.238 Use of Part B funds.
121a.239 Nondiscrimination and employment of handicapped individuals.
121a.240 Other requirements.

APPLICATION FROM SECRETARY OF INTERIOR

121a.260 Submission of annual application; approval.
121a.261 Public participation.
121a.262 Use of Part B funds.
121a.263 Applicable regulations.

PUBLIC PARTICIPATION

121a.280 Public hearings before adopting an annual program plan.
121a.281 Notice.
121a.282 Opportunity to participate; comment period.

121a.283 Review of public comments before adopting plan.
121a.284 Publication and availability of approved plan.

Subpart C—Services

FREE APPROPRIATE PUBLIC EDUCATION

121a.300 Timeliness for free appropriate public education.
121a.301 Free appropriate public education—methods and payments.
121a.302 Residential placement.
121a.303 Proper functioning of hearing aids.
121a.304 Full educational opportunity goal.
121a.305 Program options.
121a.306 Nonacademic services.
121a.307 Physical education.

PRIORITIES IN THE USE OF PART B FUNDS

121a.320 Definitions of "first priority children" and "second priority children."
121a.321 Priorities.
121a.322 First priority children—school year 1977–1978.
121a.323 Services to other children.
121a.324 Application of local educational agency to use funds for the second priority.

INDIVIDUALIZED EDUCATION PROGRAMS

121a.340 Definition.
121a.341 State educational agency responsibility.
121a.342 When individualized education programs must be in effect.
121a.343 Meetings.
121a.344 Participants in meetings.
121a.345 Parent participation.
121a.346 Content of individualized education program.
121a.347 Private school placements.
121a.348 Handicapped children in parochial or other private schools.
121a.349 Individualized education program—accountability.

DIRECT SERVICE BY THE STATE EDUCATIONAL AGENCY

121a.360 Use of local educational agency allocation for direct services.
121a.361 Nature and location of services.
121a.370 Use of State educational agency allocation for direct and support services.
121a.371 State matching.
121a.372 Applicability of nonsupplanting requirement.

COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT

121a.380 Scope of system.
121a.381 Participation of other agencies and institutions.
121a.382 Inservice training.
121a.383 Personnel development plan.
121a.384 Dissemination.
121a.385 Adoption of educational practices.
121a.386 Evaluation.
121a.387 Technical assistance to local educational agencies.

Subpart D—Private Schools

HANDICAPPED CHILDREN IN PRIVATE SCHOOLS PLACED OR REFERRED BY PUBLIC AGENCIES

121a.400 Applicability of §§ 121a.401–121a.403.
121a.401 Responsibility of State educational agency.
121a.402 Implementation by State educational agency.
121a.403 Placement of children by parents.

HANDICAPPED CHILDREN IN PRIVATE SCHOOLS NOT PLACED OR REFERRED BY PUBLIC AGENCIES

121a.450 Applicability of §§ 121a.451–121a.460.
121a.451 State educational agency responsibility.
121a.452 Local educational agency responsibility.
121a.453 Determination of needs, number of children, and types of services.
121a.454 Service arrangements.
121a.455 Differences in services to private school handicapped children.
121a.456 Personnel.
121a.457 Equipment.
121a.458 Prohibition of segregation.
121a.459 Funds and property not to benefit private school.
121a.460 Existing level of instruction.

Subpart E—Procedural Safeguards

DUE PROCESS PROCEDURES FOR PARENTS AND CHILDREN

121a.500 Definitions of "consent", "evaluation", and "personally identifiable".
121a.501 General responsibility of public agencies.
121a.502 Opportunity to examine records.
121a.503 Independent educational evaluation.
121a.504 Prior notice; parent consent.
121a.505 Content of notice.
121a.506 Impartial due process hearing.
121a.507 Impartial hearing officer.
121a.508 Hearing rights.
121a.509 Hearing decision; appeal.
121a.510 Administrative appeal; impartial review.
121a.511 Civil action.
121a.512 Timelines and convenience of hearings and reviews.
121a.513 Child's status during proceedings.
121a.514 Surrogate parents.

PROTECTION IN EVALUATION PROCEDURES

121a.530 General.
121a.531 Preplacement evaluation.
121a.532 Evaluation procedures.
121a.533 Placement procedures.
121a.534 Reevaluation.

LEAST RESTRICTIVE ENVIRONMENT

121a.550 General.
121a.551 Continuum of alternative placements.
121a.552 Placements.
121a.553 Nonacademic settings.
121a.554 Children in public or private institutions.
121a.555 Technical assistance and training activities.
121a.556 Monitoring activities.

CONFIDENTIALITY OF INFORMATION

121a.560 Definitions.
121a.561 Notice to parents.
121a.562 Access rights.
121a.563 Record of access.
121a.564 Records on more than one child.
121a.565 List of types and locations of information.
121a.566 Fees.
121a.567 Amendment of records at parent's request.
121a.568 Opportunity for a hearing.
121a.569 Result of hearing.
121a.570 Hearing procedures.
121a.571 Consent.
121a.572 Safeguards.
121a.573 Destruction of information.
121a.574 Children's rights.
121a.575 Enforcement.
121a.576 Office of Education.

OFFICE OF EDUCATION PROCEDURES

121a.580 Opportunity for a hearing.
121a.581 Hearing panel.
121a.582 Hearing procedures.
121a.583 Initial decision; final decision.
121a.589 Waiver of requirement regarding supplementing and supplanting with Part B funds.
121a.590 Withholding payments.
121a.591 Reinstating payments.
121a.592 Public notice by State and local educational agencies.
121a.593 Judicial review of Commissioner's final action on annual program plan.

Subpart F—State Administration

STATE EDUCATIONAL AGENCY RESPONSIBILITIES: GENERAL

121a.600 Responsibility for all educational programs.
121a.601 Monitoring and evaluation activities.
121a.602 Adoption of complaint procedures.

USE OF FUNDS

121a.620 Federal funds for State administration.
121a.621 Allowable costs.

STATE ADVISORY PANEL

121a.650 Establishment.
121a.651 Membership.
121a.652 Advisory panel—functions.
121a.653 Advisory panel—procedures.

Subpart G—Allocation of Funds; Reports

ALLOCATIONS

121a.700 Special definition of the term State.
121a.701 State entitlement; formula.
121a.702 Limitations and exclusions.
121a.703 Ratable reductions.
121a.704 Hold harmless provision.
121a.705 Within-State distribution: fiscal year 1978.
121a.706 Within-State distribution: fiscal year 1979 and after.
121a.707 Local educational agency entitlement; formula.
121a.708 Reallocation of local educational agency funds.
121a.709 Payments to Secretary of Interior.
121a.710 Entitlements to jurisdictions.

REPORTS

121a.750 Annual report of children served—report requirement.
121a.751 Annual report of children served—information required in the report.
121a.752 Annual report of children served—certification.
121a.753 Annual report of children served—criteria for counting children.
121a.754 Annual report of children served—other responsibilities of the State educational agency.

APPENDICES

Appendix A—Analysis of Final Regulation. (45 CFR Part 121a.) Under Part B of the Education of the Handicapped Act.
Appendix B—Index to Part 121a.

AUTHORITY: Part B of the Education of the Handicapped Act, Pub. L. 91-230, Title VI, as amended, 89 Stat. 776-794 (20 U.S.C. 1411-1420), unless otherwise noted.

Subpart A—General

PURPOSE, APPLICABILITY, AND GENERAL PROVISIONS REGULATIONS

§ 121a.1 Purpose.

The purpose of this part is:

(a) To insure that all handicapped children have available to them a free appropriate public education which in-

cludes special education and related services to meet their unique needs,

(b) To insure that the rights of handicapped children and their parents are protected,

(c) To assist States and localities to provide for the education of all handicapped children, and

(d) To assess and insure the effectiveness of efforts to educate those children.

(20 U.S.C. 1401 Note.)

§ 121a.2 Applicability to State, local, and private agencies.

(a) *States.* This part applies to each State which receives payments under Part B of the Education of the Handicapped Act.

(b) *Public agencies within the State.* The annual program plan is submitted by the State educational agency on behalf of the State as a whole. Therefore, the provisions of this part apply to all political subdivisions of the State that are involved in the education of handicapped children. These would include: (1) The State educational agency, (2) local educational agencies and intermediate educational units, (3) other State agencies and schools (such as Departments of Mental Health and Welfare and State schools for the deaf or blind), and (4) State correctional facilities.

(c) *Private schools and facilities.* Each public agency in the State is responsible for insuring that the rights and protections under this part are given to children referred to or placed in private schools and facilities by that public agency.

(See §§ 121a.400–121a.403.)

(20 U.S.C. 1412(1), (6); 1413(a); 1413(a)(4)(B).)

Comment. The requirements of this part are binding on each public agency that has direct or delegated authority to provide special education and related services in a State that receives funds under Part B of the Act, regardless of whether that agency is receiving funds under Part B.

§ 121a.3 General provisions regulations.

Assistance under Part B of the Act is subject to Parts 100, 100b, 100c, and 121 of this chapter, which include definitions and requirements relating to fiscal, administrative, property management, and other matters.

(20 U.S.C. 1417(b).)

DEFINITIONS

Comment. Definitions of terms that are used throughout these regulations are included in this subpart. Other terms are defined in the specific subparts in which they are used. Below is a list of those terms and the specific sections and subparts in which they are defined:

Consent (Section 121a.500 of Subpart E)
Destruction (Section 121a.560 of Subpart E)
Direct services (Section 121a.370(b)(1) of Subpart C)
Evaluation (Section 121a.500 of Subpart E)
First priority children (Section 121a.320(a) of Subpart C)
Independent educational evaluation (Section 121a.503 of Subpart E)
Individualized education program (Section 121a.340 of Subpart C)
Participating agency (Section 121a.560 of Subpart E)
Personally identifiable (Section 121a.500 of Subpart E)
Private school handicapped children (Section 121a.450 of Subpart D)
Public expense (Section 121a.503 of Subpart E)
Second priority children (Section 121a.320(b) of Subpart C)
Special definition of "State" (Section 121a.700 of Subpart G)
Support services (Section 121a.370(b)(2) of Subpart C)

§ 121a.4 Free appropriate public education.

As used in this part, the term "free appropriate public education" means special education and related services which:

(a) Are provided at public expense, under public supervision and direction, and without charge,

(b) Meet the standards of the State educational agency, including the requirements of this part,

(c) Include preschool, elementary school, or secondary school education in the State involved, and

(d) Are provided in conformity with an individualized education program which meets the requirements under §§ 121a.340–121a.349 of Subpart C.

(20 U.S.C. 1401(18).)

§ 121a.5 Handicapped children.

(a) As used in this part, the term "handicapped children" means those children evaluated in accordance with §§ 121a.530–121a.534 as being mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, other health impaired, deaf-blind, multi-handicapped, or as having specific learning disabilities, who because of those impairments need special education and related services.

(b) The terms used in this definition are defined as follows:

(1) "Deaf" means a hearing impairment which is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, which adversely affects educational performance.

(2) "Deaf-blind" means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for deaf or blind children.

(3) "Hard of hearing" means a hearing impairment, whether permanent or fluctuating, which adversely affects a child's educational performance but which is not included under the definition of "deaf" in this section.

(4) "Mentally retarded" means significantly subaverage general intellectual functioning existing concurrently with deficits in adaptive behavior and manifested during the developmental period, which adversely affects a child's educational performance.

(5) "Multihandicapped" means concomitant impairments (such as mentally retarded-blind, mentally retarded-orthopedically impaired, etc.), the combination of which causes such severe educational problems that they cannot be accommodated in special education programs solely for one of the impairments. The term does not include deaf-blind children.

(6) "Orthopedically impaired" means a severe orthopedic impairment which adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., clubfoot, absence of some member, etc.), impairments caused by disease (e.g. poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns which cause contractures).

(7) "Other health impaired" means limited strength, vitality or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes, which adversely affects a child's educational performance.

(8) "Seriously emotionally disturbed" is defined as follows:

(i) The term means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree, which adversely affects educational performance:

(A) An inability to learn which cannot be explained by intellectual, sensory, or health factors;

(B) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;

(C) Inappropriate types of behavior or feelings under normal circumstances;

(D) A general pervasive mood of unhappiness or depression; or

(E) A tendency to develop physical symptoms or fears associated with personal or school problems.

(ii) The term includes children who are schizophrenic or autistic. The term does not include children who are socially maladjusted, unless it is determined that they are seriously emotionally disturbed.

(9) "Specific learning disability" means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations. The term includes such conditions as perceptual handicaps, brain injury, minimal brain disfunction, dyslexia, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, or of environmental, cultural, or economic disadvantage.

(10) "Speech impaired" means a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, which adversely affects a child's educational performance.

(11) "Visually handicapped" means a visual impairment which, even with correction, adversely affects a child's educational performance. The term includes both partially seeing and blind children.

(20 U.S.C. 1401(1), (15).)

§ 121a.6 Include.

As used in this part, the term "include" means that the items named are not all of the possible items that are covered, whether like or unlike the ones named.

(20 U.S.C. 1417(b).)

§ 121a.7 Intermediate educational unit.

As used in this part, the term "intermediate educational unit" means any public authority, other than a local educational agency, which:

(a) Is under the general supervision of a State educational agency;

(b) Is established by State law for the purpose of providing free public education on a regional basis; and

(c) Provides special education and related services to handicapped children within that State.

(20 U.S.C. 1401(22).)

§ 121a.8 Local educational agency.

(a) As used in this part, the term "local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as are recognized in a State as an administrative agency for its public elementary or secondary schools. Such term also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school.

(b) For the purposes of this part, the term "local educational agency" also includes intermediate educational units.

(20 U.S.C. 1401(8).)

§ 121a.9 Native language.

As used in this part, the term "native language" has the meaning given that term by section 703(a)(2) of the Bilingual Education Act, which provides as follows:

The term "native language", when used with reference to a person of limited English-speaking ability, means the language normally used by that person, or in the case of a child, the language normally used by the parents of the child.

(20 U.S.C. 880b–1(a)(2); 1401(21).)

Comment. Section 602(21) of the Education of the Handicapped Act states that the term "native language" has the same meaning as the definition from the Bilingual Education Act. (The term is used in the prior notice and evaluation sections under § 121a.505(b)(2) and § 121a.532(a)(1) of Subpart E.) In using the term, the Act does not prevent the following means of communication:

(1) In all direct contact with a child (including evaluation of the child), communication would be in the language normally used by the child and not that of the parents, if there is a difference between the two.

(2) If a person is deaf or blind, or has no written language, the mode of communication would be that normally used by the person (such as sign language, braille, or oral communication).

§ 121a.10 Parent.

As used in this part, the term "parent" means a parent, a guardian, a person acting as a parent of a child, or a surrogate parent who has been appointed in accordance with § 121a.514. The term does not include the State if the child is a ward of the State.

(20 U.S.C. 1415.)

Comment. The term "parent" is defined to include persons acting in the place of a parent, such as a grandmother or stepparent with whom a child lives, as well as persons who are legally responsible for a child's welfare.

§ 121a.11 Public agency.

As used in this part, the term "public agency" includes the State educational agency, local educational agencies, intermediate educational units, and any other political subdivisions of the State which are responsible for providing education to handicapped children.

(20 U.S.C. 1412(2)(B); 1412(6); 1413(a).)

§ 121a.12 Qualified.

As used in this part, the term "qualified" means that a person has met State educational agency approved or recognized certification, licensing, registration, or other comparable requirements which apply to the area in which he or she is providing special education or related services.

(20 U.S.C. 1417(b).)

§ 121a.13 Related services.

(a) As used in this part, the term "related services" means transportation and such developmental, corrective, and other supportive services as are required to assist a handicapped child to benefit from special education, and includes speech pathology and audiology, psychological services, physical and occupational therapy, recreation, early identification and assessment of disabilities in children, counseling services, and medical services for diagnostic or evaluation purposes. The term also includes school health services, social work services in schools, and parent counseling and training.

(b) The terms used in this definition are defined as follows:

(1) "Audiology" includes:

(i) Identification of children with hearing loss;

(ii) Determination of the range, nature, and degree of hearing loss, including referral for medical or other professional attention for the habilitation of hearing;

(iii) Provision of habilitative activities, such as language habilitation, auditory training, speech reading (lip-reading), hearing evaluation, and speech conservation;

(iv) Creation and administration of programs for prevention of hearing loss;

(v) Counseling and guidance of pupils, parents, and teachers regarding hearing loss; and

(vi) Determination of the child's need for group and individual amplification, selecting and fitting an appropriate aid, and evaluating the effectiveness of amplification.

(2) "Counseling services" means services provided by qualified social workers, psychologists, guidance counselors, or other qualified personnel.

(3) "Early identification" means the implementation of a formal plan for identifying a disability as early as possible in a child's life.

(4) "Medical services" means services provided by a licensed physician to determine a child's medically related handicapping condition which results in the child's need for special education and related services.

(5) "Occupational therapy" includes:

(i) Improving, developing or restoring functions impaired or lost through illness, injury, or deprivation;

(ii) Improving ability to perform tasks for independent functioning when functions are impaired or lost; and

(iii) Preventing, through early intervention, initial or further impairment or loss of function.

(6) "Parent counseling and training" means assisting parents in understanding the special needs of their child and providing parents with information about child development.

(7) "Physical therapy" means services provided by a qualified physical therapist.

(8) "Psychological services" include:

(i) Administering psychological and educational tests, and other assessment procedures;

(ii) Interpreting assessment results;

(iii) Obtaining, integrating, and interpreting information about child behavior and conditions relating to learning.

(iv) Consulting with other staff members in planning school programs to meet the special needs of children as indicated by psychological tests, interviews, and behavioral evaluations; and

(v) Planning and managing a program of psychological services, including psychological counseling for children and parents.

(9) "Recreation" includes:

(i) Assessment of leisure function;

(ii) Therapeutic recreation services;

(iii) Recreation programs in schools and community agencies; and

(iv) Leisure education.

(10) "School health services" means services provided by a qualified school nurse or other qualified person.

(11) "Social work services in schools" include:

(i) Preparing a social or developmental history on a handicapped child;

(ii) Group and individual counseling with the child and family;

(iii) Working with those problems in a child's living situation (home, school, and community) that affect the child's adjustment in school; and

(iv) Mobilizing school and community resources to enable the child to receive maximum benefit from his or her educational program.

(12) "Speech pathology" includes:

(i) Identification of children with speech or language disorders;

(ii) Diagnosis and appraisal of specific speech or language disorders;

(iii) Referral for medical or other professional attention necessary for the habilitation of speech or language disorders;

(iv) Provisions of speech and language services for the habilitation or prevention of communicative disorders; and

(v) Counseling and guidance of parents, children, and teachers regarding speech and language disorders.

(13) "Transportation" includes:

(i) Travel to and from school and between schools,

(ii) Travel in and around school buildings, and

(iii) Specialized equipment (such as special or adapted buses, lifts, and ramps), if required to provide special transportation for a handicapped child.

(20 U.S.C. 1401(17).)

Comment. With respect to related services, the Senate Report states:

The Committee bill provides a definition of "related services," making clear that all such related services may not be required for each individual child and that such term includes early identification and assessment of handicapping conditions and the provision of services to minimize the effects of such conditions.

(Senate Report No. 94-168, p.12 (1975).)

The list of related services is not exhaustive and may include other developmental, corrective, or supportive services (such as artistic and cultural programs, and art, music, and dance therapy), if they are required to assist a handicapped child to benefit from special education.

There are certain kinds of services which might be provided by persons from varying professional backgrounds and with a variety of operational titles, depending upon requirements in individual States. For example, counseling services might be provided by social workers, psychologists, or guidance counselors; and psychological testing might be done by qualified psychological examiners, psychometrists, or psychologists, depending upon State standards.

Each related service defined under this part may include appropriate administrative and supervisory activities that are necessary for program planning, management, and evaluation.

§ 121a.14 Special education.

(a)(1) As used in this part, the term "special education" means specially designed instruction, at no cost to the parent, to meet the unique needs of a handicapped child, including classroom instruction, instruction in physical education, home instruction, and instruction in hospitals and institutions.

(2) The term includes speech pathology, or any other related service, if the service consists of specially designed instruction, at no cost to the parents, to meet the unique needs of a handicapped child, and is considered "special education" rather than a "related service" under State standards.

(3) The term also includes vocational education if it consists of specially designed instruction, at no cost to the parents, to meet the unique needs of a handicapped child.

(b) The terms in this definition are defined as follows:

(1) "At no cost" means that all specially designed instruction is provided without charge, but does not preclude incidental fees which are normally charged to non-handicapped students or their parents as a part of the regular education program.

(2) "Physical education" is defined as follows:

(i) The term means the development of:

(A) Physical and motor fitness;

(B) Fundamental motor skills and patterns; and

(C) Skills in aquatics, dance, and individual and group games and sports (including intramural and lifetime sports).

(ii) The term includes special physical education, adapted physical education, movement education, and motor development.

(20 U.S.C. 1401(16).)

(3) "Vocational education" means organized educational programs which are directly related to the preparation of individuals for paid or unpaid employment, or for additional preparation for a career requiring other than a baccalaureate or advanced degree.

(20 U.S.C. 1401(16).)

Comment. (1) The definition of "special education" is a particularly important one under these regulations, since a child is not handicapped unless he or she needs special education. (See the definition of "handicapped children" in section 121a.5.) The definition of "related services" (section 121a.13) also depends on this definition, since a related service must be necessary for a child to benefit from special education. Therefore, if a child does not need special education, there can be no "related services," and the child (because not "handicapped") is not covered under the Act.

(2) The above definition of vocational education is taken from the Vocational Education Act of 1963, as amended by Pub. L. 94-482. Under that Act, "vocational education" includes industrial arts and consumer and homemaking education programs.

§ 121a.15 State.

As used in this part, the term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virginia Islands, and the Trust Territory of the Pacific Islands.

(20 U.S.C. 1401(6).)

Subpart B—State Annual Program Plans and Local Applications

Annual Program Plans—General

§ 121a.110 Condition of assistance.

In order to receive funds under Part B of the Act for any fiscal year, a State must submit an annual program plan to the Commissioner through its State educational agency.

(20 U.S.C. 1232c(b), 1412, 1413.)

§ 121a.111 Contents of plan.

Each annual program plan must contain the provisions required in this subpart.

(20 U.S.C. 1412, 1413, 1232c(b).)

§ 121a.112 Certification by the State educational agency and attorney general.

Each annual program plan must include:

(a) A certification by the officer of the State educational agency authorized to submit the plan that:

(1) The plan has been adopted by the State educational agency, and

(2) The plan is the basis for the operation and administration of the activities to be carried out in that State under Part B of the Act; and

(b) A certification by the State Attorney General or other authorized State legal officer that:

(1) The State educational agency has authority under State law to submit the plan and to administer or to supervise the administration of the plan, and

(2) All plan provisions are consistent with State law.

(20 U.S.C. 1413(a).)

§ 121a.113 Approval; disapproval.

(a) The Commissioner shall approve any annual program plan which meets the requirements of this part and Subpart B of Part 100b of this chapter.

(b) The Commissioner shall disapprove any annual program plan which does not meet those requirements but may not finally disapprove a plan before giving reasonable notice and an opportunity for a hearing to the State educational agency.

(c) The Commissioner shall use the procedures set forth in §§ 121a.580–121a.583 of Subpart E for a hearing under this section.

(20 U.S.C. 1413(c).)

§ 121a.114 Effective period of annual program plan.

(a) Each annual program plan is effective for a period from the date it becomes effective under § 100b.35 of this chapter through the following June 30.

(b) The Commissioner may extend the effective period of an annual program plan, on the request of a State, if the plan meets the requirements of this part and Part B of the Act.

(20 U.S.C. 1413(a), 1232c(b).)

Annual Program Plans—Contents

§ 121a.120 Public participation.

(a) Each annual program plan must include procedures which insure that the requirements in §§ 121a.280–121a.284 are met.

(b) Each annual program plan must also include the following:

(1) A statement describing the methods used by the State educational agency to provide notice of the public hearings on the annual program plan. The statement must include:

(i) A copy of each news release and advertisement used to provide notice,

(ii) A list of the newspapers and other media in which the State educational agency announced or published the notice, and

(iii) The dates on which the notice was announced or published.

(2) A list of the dates and locations of the public hearings on the annual program plan.

(3) A summary of comments received by the State educational agency and a description of the modifications that the State educational agency has made in the annual program plan as a result of the comments.

(4) A statement describing the methods by which the annual program plan will be made public after its approval by the Commissioner. This statement must include the information required under paragraph (b)(1) of this section.

(20 U.S.C. 1412(7).)

§ 121a.121 Right to a free appropriate public education.

(a) Each annual program plan must include information which shows that the State has in effect a policy which insures that all handicapped children have the right to a free appropriate public education within the age ranges and timelines under § 121a.122.

(b) The information must include a copy of each State statute, court order, State Attorney General opinion, and other State document that shows the source of the policy.

(c) The information must show that the policy:

(1) Applies to all public agencies in the State;

(2) Applies to all handicapped children;

(3) Implements the priorities established under § 121a.127(a)(1) of this subpart; and

(4) Establishes timelines for implementing the policy, in accordance with § 121a.122.

(20 U.S.C. 1412(1)(2)(B), (6); 1413(a)(3).)

§ 121a.122 Timeliness and ages for free appropriate public education.

(a) *General.* Each annual program plan must include in detail the policies and procedures which the State will undertake or has undertaken in order to insure that a free appropriate public education is available for all handicapped children aged three through eighteen within the State not later than September 1, 1978, and for all handicapped children aged three through twenty-one within the State not later than September 1, 1980.

(b) *Documents relating to timelines.* Each annual program plan must include a copy of each statute, court order, attorney general decision, and other State document which demonstrates that the State has established timelines in accordance with paragraph (a) of this section.

(c) *Exception.* The requirement in paragraph (a) of this section does not apply to a State with respect to handicapped children aged three, four, five, eighteen, nineteen, twenty, or twenty-one to the extent that the requirement would be inconsistent with State law or practice, or the order of any court, respecting public education for one or more of those age groups in the State.

(d) *Documents relating to exceptions.* Each annual program plan must:

(1) Describe in detail the extent to which the exception in paragraph (c) of this section applies to the State, and

(2) Include a copy of each State law, court order, and other document which provides a basis for the exception.

(20 U.S.C. 1412(2)(B).)

§ 121a.123 Full educational opportunity goal.

Each annual program plan must include in detail the policies and procedures which the State will undertake, or has undertaken, in order to insure that the State has a goal of providing full educational opportunity to all handicapped children aged birth through twenty-one.

(20 U.S.C. 1412(2)(A).)

§ 121a.124 Full educational opportunity goal—data requirement.

Beginning with school year 1978–1979, each annual program plan must contain the following information:

(a) The estimated number of handicapped children who need special education and related services.

(b) For the current school year:

(1) The number of handicapped children aged birth through two, who are receiving special education and related services; and

(2) The number of handicapped children:

(i) Who are receiving a free appropriate public education,

(ii) Who need, but are not receiving a free appropriate public education,

(iii) Who are enrolled in public and private institutions who are receiving a free appropriate public education, and

(iv) Who are enrolled in public and private institutions and are not receiving a free appropriate public education.

(c) The estimated numbers of handicapped children who are expected to receive special education and related services during the next school year.

(d) A description of the basis used to determine the data required under this section.

(e) The data required by paragraphs (a), (b), and (c) of this section must be provided:

(1) For each disability category (except for children aged birth through two), and

(2) For each of the following age ranges: birth through two, three through five, six through seventeen, and eighteen through twenty-one.

(20 U.S.C. 1412(2)(A).)

Comment. In Part B of the Act, the term "disability" is used interchangeably with "handicapping condition". For consistency in this regulation, a child with a "disability" means a child with one of the impairments listed in the definition of "handicapped children" in § 121a.5, if the child needs special education because of the impairment. In essence, there is a continuum of impairments. When an impairment is of such a nature that the child needs special education, it is referred to as a disability, in these regulations, and the child is a "handicapped" child.

States should note that data required under this section are not to be transmitted to the Commissioner in personally identifiable form. Generally, except for such purposes as monitoring and auditing, neither the States nor the Federal Government should have to collect data under this part in personally identifiable form.

§ 121a.125 Full educational opportunity goal—timetable.

(a) *General requirement.* Each annual program plan must contain a detailed timetable for accomplishing the goal of providing full educational opportunity for all handicapped children.

(b) *Content of timetable.* (1) The timetable must indicate what percent of the total estimated number of handicapped children the State expects to have full educational opportunity in each succeeding school year.

(2) The data required under this paragraph must be provided:

(i) For each disability category (except for children aged birth through two), and

(ii) For each of the following age ranges: birth through two, three through five, six through seventeen, and eighteen through twenty-one.

(20 U.S.C. 1412(2)(A).)

§ 121a.126 Full educational opportunity goal—facilities, personnel, and services.

(a) *General requirement.* Each annual program plan must include a description of the kind and number of facilities, personnel, and services necessary throughout the State to meet the goal of providing full educational opportunity for all handicapped children. The State educational agency shall include the data required under paragraph (b) of this section and whatever additional data are necessary to meet the requirement.

(b) *Statistical description.* Each annual program plan must include the following data:

(1) The number of additional special class teachers, resource room teachers, and itinerant or consultant teachers needed for each disability category and

V 421 363 AUG 23 77 UM

the number of each of these who are currently employed in the State.

(2) The number of other additional personnel needed, and the number currently employed in the State, including school psychologists, school social workers, occupational therapists, physical therapists, home-hospital teachers, speech-language pathologists, audiologists, teacher aides, vocational education teachers, work study coordinators, physical education teachers, therapeutic recreation specialists, diagnostic personnel, supervisors, and other instructional and non-instructional staff.

(3) The total number of personnel reported under paragraph (b) (1) and (2) of this section, and the salary costs of those personnel.

(4) The number and kind of facilities needed for handicapped children and the number and kind currently in use in the State, including regular classes serving handicapped children, self-contained classes on a regular school campus, resource rooms, private special education day schools, public special education day schools, private special education residential schools, public special education residential schools, hospital programs, occupational therapy facilities, physical therapy facilities, public sheltered workshops, private sheltered workshops, and other types of facilities.

(5) The total number of transportation units needed for handicapped children, the number of transportation units designed for handicapped children which are in use in the State, and the number of handicapped children who use these units to benefit from special education.

(c) *Data categories.* The data required under paragraph (b) of this section must be provided as follows:

(1) Estimates for serving all handicapped children who require special education and related services,

(2) Current year data, based on the actual numbers of handicapped children receiving special education and related services (as reported under Subpart G), and

(3) Estimates for the next school year.

(d) *Rationale.* Each annual program plan must include a description of the means used to determine the number and salary costs of personnel.

(20 U.S.C. 1412(2)(A).)

§ 121a.127 Priorities.

(a) *General requirement.* Each annual program plan must include information which shows that:

(1) The State has established priorities which meet the requirements under §§ 121a.320–121a.324 of Subpart C.

(2) The State priorities meet the timelines under § 121a.122 of this subpart, and

(3) The State has made progress in meeting those timelines.

(b) *Child data.* (1) Each annual program plan must show the number of handicapped children known by the State to be in each of the first two priority groups named in §§ 121a.321 of Subpart C:

(1) By disability category, and

(2) By the age ranges in § 121a.124(e)(2) of this subpart.

(c) *Activities and resources.* Each annual program plan must show for each of the first two priority groups:

(1) The programs, services, and activities that are being carried out in the State,

(2) The Federal, State, and local resources that have been committed during the current school year, and

(3) The programs, services, activities, and resources that are to be provided during the next school year.

(20 U.S.C. 1412(3).)

§ 121a.128 Identification, location, and evaluation of handicapped children.

(a) *General requirement.* Each annual program plan must include in detail the policies and procedures which the State will undertake or has undertaken to insure that:

(1) All children who are handicapped, regardless of the severity of their handicap, and who are in need of special education and related services are identified, located, and evaluated; and

(2) A practical method is developed and implemented to determine which children are currently receiving needed special education and related services and which children are not currently receiving needed special education and related services.

(b) *Information.* Each annual program plan must:

(1) Designate the State agency (if other than the State educational agency) responsible for coordinating the planning and implementation of the policies and procedures under paragraph (a) of this section;

(2) Name each agency that participates in the planning and implementation and describe the nature and extent of its participation;

(3) Describe the extent to which:

(i) The activities described in paragraph (a) of this section have been achieved under the current annual program plan, and

(ii) The resources named for these activities in that plan have been used;

(4) Describe each type of activity to be carried out during the next school year, including the role of the agency named under paragraph (b)(1) of this section, timelines for completing those activities, resources that will be used, and expected outcomes;

(5) Describe how the policies and procedures under paragraph (a) of this section will be monitored to insure that the State educational agency obtains:

(i) The number of handicapped children within each disability category that have been identified, located, and evaluated, and

(ii) Information adequate to evaluate the effectiveness of those policies and procedures; and

(6) Describe the method the State uses to determine which children are currently receiving special education and related services and which children are not receiving special education and related services.

(20 U.S.C. 1412(2)(C).)

Comment. The State is responsible for insuring that all handicapped children are identified, located, and evaluated, including children in all public and private agencies and institutions in the State. Collection and use of data are subject to the confidentiality requirements in §§ 121a.560–121a.576.

§ 121a.129 Confidentiality of personally identifiable information.

(a) Each annual program plan must include in detail the policies and procedures which the State will undertake or has undertaken in order to insure the protection of the confidentiality of any personally identifiable information collected, used, or maintained under this part.

(b) The Commissioner shall use the criteria in §§ 121a.560–121a.576 of Subpart E to evaluate the policies and procedures of the State under paragraph (a) of this section.

(20 U.S.C. 1412(2)(D); 1417(c).)

Comment. The confidentiality regulations were published in the FEDERAL REGISTER in final form on February 27, 1976 (41 FR 8603–8610), and met the requirements of Part B of the Act, as amended by Pub. L. 94–142. Those regulations are incorporated in § 121a.560–121a.576 of Subpart E.

§ 121a.130 Individualized education programs.

(a) Each annual program plan must include information which shows that each public agency in the State maintains records of the individualized education program for each handicapped child, and each public agency establishes, reviews, and revises each program as provided in Subpart C.

(b) Each annual program plan must include:

(1) A copy of each State statute, policy, and standard that regulates the manner in which individualized education programs are developed, implemented, reviewed, and revised, and

(2) The procedures which the State educational agency follows in monitoring and evaluating those programs.

(20 U.S.C. 1412(4).)

§ 121a.131 Procedural safeguards.

Each annual program plan must include procedural safeguards which insure that the requirements in §§ 121a.500–121a.514 of Subpart E are met.

(20 U.S.C. 1412(5)(A).)

§ 121a.132 Least restrictive environment.

(a) Each annual program plan must include procedures which insure that the requirements in §§ 121a.550–121a.556 of Subpart E are met.

(b) Each annual program plan must include the following information:

(1) The number of handicapped children in the State, within each disability category, who are participating in regular education programs, consistent with §§ 121a.550–121a.556 of Subpart E.

(2) The number of handicapped children who are in separate classes or separate school facilities, or who are otherwise removed from the regular education environment.

(20 U.S.C. 1412(5)(B).)

§ 121a.133 Protection in evaluation procedures.

Each annual program plan must include procedures which insure that the requirements in §§ 121a.530–121a.534 of Subpart E are met.

(10 U.S.C. 1412(5)(C).)

§ 121a.134 Responsibility of State educational agency for all educational programs.

(a) Each annual program plan must include information which shows that the requirements in § 121a.600 of Subpart F are met.

(b) The information under paragraph (a) of this section must include a copy of each State statute, State regulation, signed agreement between respective agency officials, and any other document that shows compliance with that paragraph.

(20 U.S.C. 1412(6).)

§ 121a.135 Monitoring procedures.

Each annual program plan must include information which shows that the requirements in § 121a.601 and § 121a.602 of Subpart F are met.

(20 U.S.C. 1412(6).)

§ 121a.136 Implementation procedures—State educational agency.

Each annual program plan must describe the procedures the State educational agency follows to inform each public agency of its responsibility for insuring effective implementation of procedural safeguards for the handicapped children served by that public agency.

(20 U.S.C. 1412(6).)

§ 121a.137 Procedures for consultation.

Each annual program plan must include an assurance that in carrying out the requirements of section 612 of the Act, procedures are established for consultation with individuals involved in or concerned with the education of handicapped children, including handicapped individuals and parents of handicapped children.

(20 U.S.C. 1412(7)(A).)

§ 121a.138 Other Federal programs.

Each annual program plan must provide that programs and procedures are established to insure that funds received by the State or any public agency in the State under any other Federal program, including section 121 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 241e–2), section 305(b)(8) of that Act (20 U.S.C. 844a(b)(8)) or Title IV–C of that Act (20 U.S.C. 1831), and section 110(a) of the Vocational Education Act of 1963, under which there is specific authority for assistance for the education of handicapped children, are used by the State, or any public agency in the State, only in a manner consistent with the goal of providing free appropriate public education for all handicapped children, except that nothing in this section limits the specific requirements of the laws governing those Federal programs.

(20 U.S.C. 1413(a)(2).)

§ 121a.139 Comprehensive system of personnel development.

Each annual program plan must include the material required under §§ 121a.380–121a.387 of Subpart C.

(20 U.S.C. 1413(a)(3).)

§ 121a.140 Private schools.

Each annual program plan must include policies and procedures which insure that the requirements of Subpart D are met.

(20 U.S.C. 1413(a)(4).)

§ 121a.141 Recovery of funds for misclassified children.

Each annual program plan must include policies and procedures which insure that the State seeks to recover any funds provided under Part B of the Act for services to a child who is determined to be erroneously classified as eligible to be counted under section 611(a) or (d) of the Act.

(20 U.S.C. 1413(a)(5).)

§ 121a.142 Control of funds and property.

Each annual program plan must provide assurance satisfactory to the Commissioner that the control of funds provided under Part B of the Act, and title to property acquired with those funds, is in a public agency for the uses and purposes provided in this part, and that a public agency administers the funds and property.

(20 U.S.C. 1413(a)(6).)

§ 121a.143 Records.

Each annual program plan must provide for keeping records and affording access to those records, as the Commissioner may find necessary to assure the correctness and verification of reports and of proper disbursement of funds provided under Part B of the Act.

(20 U.S.C. 1413(a)(7)(B).)

§ 121a.144 Hearing on application.

Each annual program plan must include procedures to insure that the State educational agency does not take any final action with respect to an application submitted by a local educational agency before giving the local educational agency reasonable notice and an opportunity for a hearing.

(20 U.S.C. 1413(a)(8).)

§ 121a.145 Prohibition of commingling.

Each annual program plan must provide assurance satisfactory to the Commissioner that funds provided under Part B of the Act are not commingled with State funds.

(20 U.S.C. 1413(a)(9).)

Comment. This assurance is satisfied by the use of a separate accounting system that includes an "audit trail" of the expenditure of the Part B funds. Separate bank accounts are not required. (See 45 CFR 100b, Subpart F (Cash Depositories).)

§ 121a.146 Annual evaluation.

Each annual program plan must include procedures for evaluation at least annually of the effectiveness of programs in meeting the educational needs of handicapped children, including evaluation of individualized education programs.

(20 U.S.C. 1413(a)(11).)

§ 121a.147 State advisory panel.

Each annual program plan must provide that the requirements of §§ 121a.650–121a.653 of Subpart F are met.

(20 U.S.C. 1413(a)(12).)

§ 121a.148 Policies and procedures for use of Part B funds.

Each annual program plan must set forth policies and procedures designed to insure that funds paid to the State under Part B of the Act are spent in accordance with the provisions of Part B, with particular attention given to sections 611(b), 611(c), 611(d), 612(2), and 612(3) of the Act.

(20 U.S.C. 1413(a)(1).)

§ 121a.149 Description of use of Part B funds.

(a) *State allocation.* Each annual program plan must include the following information about the State's use of funds under § 121a.370 of Subpart C and § 121a.620 of Subpart F:

(1) A list of administrative positions, and a description of duties for each person whose salary is paid in whole or in part with those funds.

(2) For each position, the percentage of salary paid with those funds.

(3) A description of each administrative activity the State educational agency will carry out during the next school year with those funds.

(4) A description of each direct service and each support service which the State educational agency will provide during the next school year with those funds, and the activities the State advisory panel will undertake during that period with those funds.

(b) *Local educational agency allocation.* Each annual program plan must include:

(1) An estimate of the number and percent of local educational agencies in the State which will receive an allocation under this part (other than local educational agencies which submit a consolidated application),

V 42 163 AUG 23 77 UM

(2) An estimate of the number of local educational agencies which will receive an allocation under a consolidated application,

(3) An estimate of the number of consolidated applications and the average number of local educational agencies per application, and

(4) A description of direct services the State educational agency will provide under § 121a.360 of Subpart C.

(20 U.S.C. 1232c(b)(1)(B)(ii).)

§ 121a.150 Nondiscrimination and employment of handicapped individuals.

(a) Each annual program plan must include an assurance that the program assisted under Part B of the Act will be operated in compliance with Title 45 of the Code of Federal Regulations Part 84 (Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefitting from Federal Financial Assistance). The State educational agency may incorporate this assurance by reference if it has already been filed with the Department of Health, Education, and Welfare.

(b) The assurance under paragraph (a) of this section covers, among other things, the specific requirement on employment of handicapped individuals under section 606 of the Act, which states:

The Secretary shall assure that each recipient of assistance under this Act shall make positive efforts to employ and advance in employment qualified handicapped individuals in programs assisted under this Act.

(20 U.S.C. 1405; 29 U.S.C. 794.)

§ 121a.151 Additional information if the State educational agency provides direct services.

If a State educational agency provides free appropriate public education for handicapped children or provides them with direct services, its annual program plan must include the information required under §§ 121a.226–121a.228, 121a.231, and 121a.235.

(20 U.S.C. 1413(b).)

LOCAL EDUCATIONAL AGENCY APPLICATIONS—GENERAL

§ 121a.180 Submission of application.

In order to receive payments under Part B of the Act for any fiscal year a local educational agency must submit an application to the State educational agency.

(20 U.S.C. 1414(a).)

§ 121a.181 Responsibilities of State educational agency.

Each State educational agency shall establish the procedures and format which a local educational agency uses in preparing and submitting its application.

(20 U.S.C. 1414(a))

§ 121a.182 The excess cost requirement.

A local educational agency may only use funds under Part B of the Act for the excess costs of providing special education and related services for handicapped children.

(20 U.S.C. 1414(a)(1), (a)(2)(B)(i).)

§ 121a.183 Meeting the excess cost requirement.

(a) A local educational agency meets the excess cost requirement if it has on the average spent at least the amount determined under § 121a.184 for the education of each of its handicapped children. This amount may not include capital outlay or debt service.

(b) Each local educational agency must keep records adequate to show that it has met the excess cost requirement.

(20 U.S.C. 1402(20); 1414(a)(1).)

Comment. The excess cost requirement means that the local educational agency must spend a certain minimum amount for the education of its handicapped children before Part B funds are used. This insures that children served with Part B funds have at least the same average amount spent on them, from sources other than Part B, as do the children in the school district taken as a whole.

The minimum amount that must be spent for the education of handicapped children is computed under a statutory formula. Section 121a.184 implements this formula and gives a step-by-step method to determine the minimum amount. Excess costs are those costs of special education and related services which exceed the minimum amount. Therefore, if a local educational agency can show that it has (on the average) spent the minimum amount for the education of each of its handicapped children, it has met the excess cost requirement, and all additional costs are excess costs. Part B funds can then be used to pay for these additional costs, subject to the other requirements of Part B (priorities, etc.). In the "Comment" under section 121a.184, there is an example of how the minimum amount is computed.

§ 121a.184 Excess costs—computation of minimum amount.

The minimum average amount a local educational agency must spend under § 121a.183 for the education of each of its handicapped children is computed as follows:

(a) Add all expenditures of the local educational agency in the preceding school year, except capital outlay and debt service:

(1) For elementary school students, if the handicapped child is an elementary school student, or

(2) For secondary school students, if the handicapped child is a secondary school student.

(b) From this amount, subtract the total of the following amounts spent for elementary school students or for secondary school students, as the case may be:

(1) Amounts the agency spent in the preceding school year from funds awarded under Part B of the Act and Titles I and VII of the Elementary and Secondary Education Act of 1965, and

(2) Amounts from State and local funds which the agency spent in the preceding school year for:

(i) Programs for handicapped children,

(ii) Programs to meet the special educational needs of educationally deprived children, and

(iii) Programs of bilingual education for children with limited English-speaking ability.

(c) Divide the result under paragraph (b) of this section by the average number of students enrolled in the agency in the preceding school year:

(1) In its elementary schools, if the handicapped child is an elementary school student, or

(2) In its secondary schools, if the handicapped child is a secondary school student.

(20 U.S.C. 1414(a)(1).)

Comment. The following is an example of how a local educational agency might compute the average minimum amount it must spend for the education of each of its handicapped children, under § 121a.183. This example follows the formula in § 121a.184. Under the statute and regulations, the local educational agency must make one computation for handicapped children in its elementary schools and a separate computation for handicapped children in its secondary schools. The computation for handicapped elementary school students would be done as follows:

a. First, the local educational agency must determine its total amount of expenditures for elementary school students from all sources—local, State, and Federal (including Part B)—in the preceding school year. Only capital outlay and debt service are excluded.

Example: A local educational agency spent the following amounts last year for elementary school students (including its handicapped elementary school students):

(1) From local tax funds	$2,750,000
(2) From State funds	7,000,000
(3) From Federal funds	750,000
	10,500,000

Of this total, $500,000 was for capital outlay and debt service relating to the education of elementary school students. This must be subtracted from total expenditures:

	$10,500,000
	−500,000
Total expenditures for elementary school students (less capital outlay and debt service)	=10,000,000

b. Next, the local educational agency must subtract amounts spent for:

(1) Programs for handicapped children;

(2) Programs to meet the special educational needs of educationally deprived children; and

(3) Programs of bilingual education for children with limited English-speaking ability.

These are funds which the local educational agency actually spent, not funds received last year but carried over for the current school year.

Example: The local educational agency spent the following amounts for elementary school students last year:

(1) From funds under Title I of the Elementary and Secondary Education Act of 1965	$300,000
(2) From a special State program for educationally deprived children	200,000
(3) From a grant under Part B	200,000
(4) From State funds for the education of handicapped children	500,000
(5) From a locally-funded program for handicapped children	$250,000
(6) From a grant for a bilingual education program under Title VII of the Elementary and Secondary Education Act of 1965	150,000
Total	1,600,000

(A local educational agency would also include any other funds it spent from Federal, State, or local sources for the three basic purposes: handicapped children, educationally deprived children, and bilingual education for children with limited English-speaking ability.)

This amount is subtracted from the local educational agency's total expenditure for elementary school students computed above:

$10,000,000
−1,600,000
8,400,000

c. The local educational agency next must divide by the average number of students enrolled in the elementary schools of the agency last year (including its handicapped students).

Example: Last year, an average of 7,000 students were enrolled in the agency's elementary schools. This must be divided into the amount computed under the above paragraph:

$8,400,000 / 7,000 students = $1,200/student

This figure is in the minimum amount the local educational agency must spend (on the average) for the education of each of its handicapped students. Funds under Part B may be used only for costs over and above this minimum. In this example, if the local educational agency has 100 handicapped elementary school students, it must keep records adequate to show that it has spent at least $120,000 for the education of those students (100 students times $1,200/student), not including capital outlay and debt service.

This $120,000 may come from any funds except funds under Part B, subject to any legal requirements that govern the use of those other funds.

If the local educational agency has handicapped secondary school students, it must do the same computation for them. However, the amounts used in the computation would be those the local educational agency spent last year for the education of secondary school students, rather than for elementary school students.

§ 121a.185 Computation of excess costs—consolidated application.

The minimum average amount under § 121a.183 where two or more local educational agencies submit a consolidated application, is the average of the combined minimum average amounts determined under § 121a.184 in those agencies for elementary or secondary school students, as the case may be.

(20 U.S.C. 1414(a)(1).)

§ 121a.186 Excess costs—limitation on use of Part B funds.

(a) The excess cost requirement prevents a local educational agency from using funds provided under Part B of the Act to pay for all of the costs directly attributable to the education of a handicapped child, subject to paragraph (b) of this section.

(b) The excess cost requirement does not prevent a local educational agency from using Part B funds to pay for all of the costs directly attributable to the education of a handicapped child in any of the age ranges three, four, five, eighteen, nineteen, twenty, or twenty-one, if no local or State funds are available for non-handicapped children in that age range. However, the local educational agency must comply with the nonsupplanting and other requirements of this part in providing the education and services.

(20 U.S.C. 1402(20); 1414(a)(1).)

§ 121a.190 Consolidated applications.

(a) *Voluntary applications.* Local educational agencies may submit a consolidated application for payments under Part B of the Act.

(b) *Required applications.* A State educational agency may require local educational agencies to submit a consolidated application for payments under Part B of the Act if the State educational agency determines that an individual application submitted by a local educational agency will be disapproved because:

(1) The agency's entitlement is less than the $7,500 minimum required by section 611(c)(4)(A)(i) of the Act (§ 121a.360(a)(1) of Subpart C); or

(2) The agency is unable to establish and maintain programs of sufficient size and scope to effectively meet the educational needs of handicapped children.

(c) *Size and scope of program.* The State educational agency shall establish standards and procedures for determinations under paragraph (b)(2) of this section.

(20 U.S.C. 1414(c)(1).)

§ 121a.191 Payments under consolidated applications.

In any case in which a consolidated application is approved by the State educational agency, the payments to the participating local educational agencies must be equal to the sum of the entitlements of the separate local educational agencies.

(20 U.S.C. 1414(c)(2)(A).)

§ 121a.192 State regulation of consolidated applications.

(a) The State educational agency shall issue regulations with respect to consolidated applications submitted under this part.

(b) The State educational agency's regulations must:

(1) Be consistent with section 612(1)–(7) and section 613(a) of the Act, and

(2) Provide participating local educational agencies with joint responsibilities for implementing programs receiving payments under this part.

(c) If an intermediate educational unit is required under State law to carry out this part, the joint responsibilities given to local educational agencies under paragraph (b)(2) of this section do not apply to the administration and disbursement of any payments received by the intermediate educational unit. Those administrative responsibilities must be carried out exclusively by the intermediate educational unit.

(20 U.S.C. 1414(c)(2)(C).)

§ 121a.193 State educational agency approval; disapproval.

(a) *Approval.* A State educational agency shall approve an application submitted by a local educational agency if the State educational agency determines that the application meets the requirements under §§ 121a.220–121a.240. However, the State educational agency may not approve any application until the Commissioner approves its annual program plan for the school year covered by the application.

(b) *Disapproval.* The State educational agency shall disapprove an application if the State educational agency determines that the application does not meet a requirement under §§ 121a.220–121a.240.

(20 U.S.C. 1414(b)(1).)

(c) In carrying out its functions under this section, each State educational agency shall consider any decision resulting from a hearing under §§ 121a.506–121a.513 of Subpart E which is adverse to the local educational agency involved in the decision.

(20 U.S.C. 1414(b)(3).)

§ 121a.194 Withholding.

(a) If a State educational agency, after giving reasonable notice and an opportunity for a hearing to a local educational agency, decides that the local educational agency in the administration of an application approved by the State educational agency has failed to comply with any requirement in the application, the State educational agency, after giving notice to the local educational agency, shall:

(1) Make no further payments to the local educational agency until the State educational agency is satisfied that there is no longer any failure to comply with the requirement; or

(2) Consider its decision in its review of any application made by the local educational agency under § 121a.180;

(3) Or both.

(b) Any local educational agency receiving a notice from a State educational agency under paragraph (a) of this section is subject to the public notice provision in § 121a.592.

(20 U.S.C. 1414(b)(2).)

LOCAL EDUCATIONAL AGENCY APPLICATIONS—CONTENTS

§ 121a.220 Child identification.

Each application must include procedures which insure that all children residing within the jurisdiction of the local educational agency who are handicapped, regardless of the severity of their handicap, and who are in need of special education and related services are identified, located, and evaluated, including a practical method of determining which children are currently receiving needed

V42N163 AUG 23 77 UM

special education and related services and which children are not currently receiving needed special education and related services.

(20 U.S.C. 1414(a)(1)(A).)

Comment. The local educational agency is responsible for insuring that all handicapped children within its jurisdiction are identified, located, and evaluated, including children in all public and private agencies and institutions within that jurisdiction. Collection and use of data are subject to the confidentiality requirements in §§ 121a.560–121a.576 of Subpart E.

§ 121a.221 Confidentiality of personally identifiable information.

Each application must include policies and procedures which insure that the criteria in §§ 121a.500–121a.574 of Subpart E are met.

(20 U.S.C. 1414(a)(1)(B).)

§ 121a.222 Full educational opportunity goal; timetable.

Each application must: (a) Include a goal of providing full educational opportunity to all handicapped children, aged birth through 21, and

(b) Include a detailed timetable for accomplishing the goal.

(20 U.S.C. 1414(a)(1)(C), (D).)

§ 121a.223 Facilities, personnel, and services.

Each application must provide a description of the kind and number of facilities, personnel, and services necessary to meet the goal in § 121a.222.

(20 U.S.C. 1414(a)(1)(E).)

§ 121a.224 Personnel development.

Each application must include procedures for the implementation and use of the comprehensive system of personnel development established by the State educational agency under § 121a.140.

(20 U.S.C. 1414(a)(1)(C)(i).)

§ 121a.225 Priorities.

Each application must include priorities which meet the requirements of §§ 121a.320–121a.324.

(20 U.S.C. 1414(a)(1)(C)(ii).)

§ 121a.226 Parent involvement.

Each application must include procedures to insure that, in meeting the goal under § 121a.222, the local educational agency makes provision for participation of and consultation with parents or guardians of handicapped children.

(20 U.S.C. 1414(a)(1)(C)(iii).)

§ 121a.227 Participation in regular education programs.

(a) Each application must include procedures to insure that to the maximum extent practicable, and consistent with §§ 121a.550–121a.553 of Subpart E, the local educational agency provides special services to enable handicapped children to participate in regular educational programs.

(b) Each application must describe:

(1) The types of alternative placements that are available for handicapped children, and

(2) The number of handicapped children within each disability category who are served in each type of placement.

(20 U.S.C. 1414(a)(1)(C)(iv).)

§ 121a.228 Public control of funds.

Each application must provide assurance satisfactory to the State educational agency that control of funds provided under Part B of the Act and title to property acquired with those funds, is in a public agency for the uses and purposes under this part, and that a public agency administers the funds and property.

(20 U.S.C. 1414(a)(2)(A).)

§ 121a.229 Excess cost.

Each application must provide assurance satisfactory to the State educational agency that the local educational agency uses funds provided under Part B of the Act only for costs which exceed the amount computed under § 121a.184 and which are directly attributable to the education of handicapped children.

(20 U.S.C. 1414(a)(2)(B).)

§ 121a.230 Nonsupplanting.

(a) Each application must provide assurance satisfactory to the State educational agency that the local educational agency uses funds provided under Part B of the Act to supplement and, to the extent practicable, increase the level of State and local funds expended for the education of handicapped children, and in no case to supplant those State and local funds.

(b) To meet the requirement in paragraph (a) of this section:

(1) The total amount or average per capita amount of State and local school funds budgeted by the local educational agency for expenditures in the current fiscal year for the education of handicapped children must be at least equal to the total amount or average per capita amount of State and local school funds actually expended for the education of handicapped children in the most recent preceding fiscal year for which the information is available. Allowance may be made for:

(i) Decreases in enrollment of handicapped children; and

(ii) Unusually large amounts of funds expended for such long-term purposes as the acquisition of equipment and the construction of school facilities; and

(2) The local educational agency must not use Part B funds to displace State or local funds for any particular cost.

(20 U.S.C. 1414(a)(2)(B).)

Comment. Under statutes such as Title I of the Elementary and Secondary Education Act of 1965, as amended, the requirement is to not supplant funds that "would" have been expended if the Federal funds were not available. The requirement under Part B, however, is to not supplant funds which have been "expended." This use of the past tense suggests that the funds referred to are those which the State or local agency actually spent at some time before the use of the Part B funds. Therefore, in judging compliance with this requirement, the Commissioner looks to see if Part B funds are used for any costs which were previously paid for with State or local funds.

The nonsupplanting requirement prohibits a local educational agency from supplanting State and local funds with Part B funds on either an aggregate basis or for a given expenditure. This means that if an LEA spent $100,000 for special education in FY 1977, it must budget at least $100,000 in FY 1978, unless one of the conditions in § 121a.230(b)(1) applies.

Whether a local educational agency supplants with respect to a particular cost would depend on the circumstances of the expenditure. For example, if a teacher's salary has been switched from local funding to Part B funding, this would appear to be supplanting. However, if that teacher was taking over a different position (such as a resource room teacher, for example), it would not be supplanting. Moreover, it might be important to consider whether the particular action of a local educational agency led to an increase in services for handicapped children over that which previously existed. The intent of the requirement is to insure that Part B funds are used to increase State and local efforts and are not used to take their place. Compliance would be judged with this aim in mind. The supplanting requirement is not intended to inhibit better services to handicapped children.

§ 121a.231 Comparable services.

(a) Each application must provide assurance satisfactory to the State educational agency that the local educational agency meets the requirements of this section.

(b) A local educational agency may not use funds under Part B of the Act to provide services to handicapped children unless the agency uses State and local funds to provide services to those children which, taken as a whole, are at least comparable to services provided to other handicapped children in that local educational agency.

(c) Each local educational agency shall maintain records which show that the agency meets the requirement in paragraph (b) of this section.

(20 U.S.C. 1414(a)(2)(C).)

Comment. Under the "comparability" requirement, if State and local funds are used to provide certain services, those services must be provided with State and local funds to all handicapped children in the local educational agency who need them. Part B funds may then be used to supplement existing services, or to provide additional services to meet special needs. This, of course, is subject to the other requirements of the Act, including the priorities under §§ 121a.320–121a.324.

§ 121a.232 Information—reports.

Each application must provide that the local educational agency furnishes information (which, in the case of reports relating to performance, is in accordance with specific performance criteria developed by the local educational agency and related to program objectives) as may be necessary to enable the State educational agency to perform its duties under this part, including information relating to the educational achievement of handicapped children participating in the local educational agency's programs for handicapped children.

(20 U.S.C. 1414(a)(3)(A).)

§ 121a.233 Records.

Each application must provide that the local educational agency keeps such records, and affords access to those records, as the State educational agency may find necessary to insure the correctness and verification of the information that the local educational agency furnishes under § 121a.232.

(20 U.S.C. 1414(a)(3)(B).)

§ 121a.234 Public participation.

(a) Each application must:

(1) Provide for making the application and all documents related to the application available to parents and the general public; and

(2) Provide that all evaluations and reports required under § 121a.232 are public information.

(b) In implementing the requirement in paragraph (a)(1), the local educational agency shall use methods for public participation within its jurisdiction which are comparable to those required in § 121a.280–121a.284 of this subpart. However, the local educational agency is not required to hold public hearings.

(20 U.S.C. 1414(a)(4).)

§ 121a.235 Individualized education program.

Each application must include procedures to assure that the local educational agency complies with §§ 121a.340–121a.349 of Subpart C.

(20 U.S.C. 1414(a)(5).)

§ 121a.236 Local policies consistent with statute.

Each application must provide assurance satisfactory to the State educational agency that all policies and programs which the local educational agency establishes and administers are consistent with section 612(1)–(7) and section 613(a) of the Act.

(20 U.S.C. 1414(a)(6).)

§ 121a.237 Procedural safeguards.

Each application must provide assurance satisfactory to the State educational agency that the local educational agency has procedural safeguards which meet the requirements of §§ 121a.500–121a.514 of Subpart E.

(20 U.S.C. 1414(a)(7).)

§ 121a.238 Use of Part B funds.

Each application must describe how the local educational agency will use the funds under Part B of the Act during the next school year.

(20 U.S.C. 1414(a).)

§ 121a.239 Nondiscrimination and employment of handicapped individuals.

(a) Each application must include an assurance that the program assisted under Part B of the Act will be operated in compliance with Title 45 of the Code of Federal Regulations Part 84 (Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefitting from Federal Financial Assistance). The local educational agency may incorporate this assurance by reference if it has already been filed with the Department of Health, Education, and Welfare.

(b) The assurance under paragraph (a) of this section covers, among other things, the specific requirement on employment of handicapped individuals under section 606 of the Act, which states:

> The Secretary shall assure that each recipient of assistance under this Act shall make positive efforts to employ and advance in employment qualified handicapped individuals in programs assisted under this Act.

(20 U.S.C. 1405; 29 U.S.C. 794.)

§ 121a.240 Other requirements.

Each local application must include additional procedures and information which the State educational agency may require in order to meet the State annual program plan requirements under §§ 121a.120–121a.151.

(20 U.S.C. 1414(a)(6).)

APPLICATION FROM SECERTARY OF INTERIOR

§ 121a.260 Submission of annual application: approval.

In order to receive payments under this part, the Secretary of Interior shall submit an annual application which:

(a) Meets applicable requirements of section 614(a) of the Act;

(b) Includes monitoring procedures which are consistent with § 121a.601; and

(c) Includes other material as agreed to by the Commissioner and the Secretary of Interior.

(20 U.S.C. 1411(f).)

§ 121a.261 Public participation.

In the development of the application for the Department of Interior, the Secretary of Interior shall provide for public participation consistent with §§ 121a.280–121a.284.

(20 U.S.C. 1411(f).)

§ 121a.262 Use of Part B funds.

(a) The Department of Interior may use five percent of its payments in any fiscal year, or $200,000, whichever is greater, for administrative costs in carrying out the provisions of this Part.

(b) The remainder of the payments to the Secretary of Interior in any fiscal year must be used in accordance with the priorities under §§ 121a.320–121a.324 of Subpart C.

(20 U.S.C. 1411(f).)

§ 121a.263 Applicable regulations.

The Secretary of Interior shall comply with the requirements under Subparts C, E, and F.

(20 U.S.C. 1411(f)(2).)

PUBLIC PARTICIPATION

§ 121a.280 Public hearings before adopting an annual program plan.

(a) Prior to its adoption of an annual program plan, the State educational agency shall:

(1) Make the plan available to the general public,

(2) Hold public hearings, and

(3) Provide an opportunity for comment by the general public on the plan.

(20 U.S.C. 1412(7).)

§ 121a.281 Notice.

(a) The State educational agency shall provide notice to the general public of the public hearings.

(b) The notice must be in sufficient detail to inform the public about:

(1) The purpose and scope of the annual program plan and its relation to Part B of the Education of the Handicapped Act,

(2) The availability of the annual program plan,

(3) The date, time, and location of each public hearing,

(4) The procedures for submitting written comments about the plan, and

(5) The timetable for developing the final plan and submitting it to the Commissioner for approval.

(c) The notice must be published or announced:

(1) In newspapers or other media, or both, with circulation adequate to notify the general public about the hearings, and (2) Enough in advance of the date of the hearings to afford interested parties throughout the State a reasonable opportunity to participate.

(20 U.S.C. 1412(7).)

§ 121a.282 Opportunity to participate: comment period.

(a) The State educational agency shall conduct the public hearings at times and places that afford interested parties throughout the State a reasonable opportunity to participate.

(b) The plan must be available for comment for a period of at least 30 days following the date of the notice under § 121a.281.

(20 U.S.C. 1412(7).)

§ 121a.283 Review of public comments before adopting plan.

Before adopting its annual program plan, the State educational agency shall:

(a) Review and consider all public comments, and

(b) Make any necessary modifications in the plan.

(20 U.S.C. 1412(7).)

§ 121a.284 Publication and availability of approved plan.

After the Commissioner approves an annual program plan, the State educational agency shall give notice in newspapers or other media, or both, that the plan is approved. The notice must name places throughout the State where the plan is available for access by any interested person.

(20 U.S.C. 1412(7).)

Subpart C—Services

Free Appropriate Public Education

§ 121a.300 Timelines for free appropriate public education.

(a) *General.* Each State shall insure that free appropriate public education is available to all handicapped children aged three through eighteen within the State not later than September 1, 1978, and to all handicapped children aged three through twenty-one within the State not later than September 1, 1980.

(b) *Age ranges 3–5 and 18–21.* This paragraph provides rules for applying the requirement in paragraph (a) of this section to handicapped children aged three, four, five, eighteen, nineteen, twenty, and twenty-one:

(1) If State law or a court order requires the State to provide education for handicapped children in any disability category in any of these age groups, the State must make a free appropriate public education available to all handicapped children of the same age who have that disability.

(2) If a public agency provides education to non-handicapped children in any of these age groups, it must make a free appropriate public education available to at least a proportionate number of handicapped children of the same age.

(3) If a public agency provides education to 50 percent or more of its handicapped children in any disability category in any of these age groups, it must make a free appropriate public education available to all of its handicapped children of the same age who have that disability.

(4) If a public agency provides education to a handicapped child in any of these age groups, it must make a free appropriate public education available to that child and provide that child and his or her parents all of the rights under Part B of the Act and this part.

(5) A State is not required to make a free appropriate public education available to a handicapped child in one of these age groups if:

(i) State law expressly prohibits, or does not authorize, the expenditure of public funds to provide education to non-handicapped children in that age group; or

(ii) The requirement is inconsistent with a court order which governs the provision of free public education to handicapped children in that State.

(20 U.S.C. 1412(2)(B); Sen. Rept. No. 94-168 p 19 (1975).)

Comment. 1. The requirement to make free appropriate public education available applies to all handicapped children within the State who are in the age ranges required under section 121a.300 and who need special education and related services. This includes handicapped children already in school and children with less severe handicaps, who are not covered under the priorities under § 121a.321.

2. In order to be in compliance with § 121a.300, each State must insure that the requirement to identify, locate, and evaluate all handicapped children is fully implemented by public agencies throughout the State. This means that before September 1, 1978, every child who has been referred or is on a waiting list for evaluation (including children in school as well as those not receiving an education) must be evaluated in accordance with §§ 121a.530–121a.533 of Subpart E. If, as a result of the evaluation, it is determined that a child needs special education and related services, an individualized education program must be developed for the child by September 1, 1978, and all other applicable requirements of this part must be met.

3. The requirement to identify, locate, and evaluate handicapped children (commonly referred to as the "child find system") was enacted on August 21, 1974, under Pub. L. 93-380. While each State needed time to establish and implement its child find system, the four year period between August 21, 1974, and September 1, 1978, is considered to be sufficient to insure that the system is fully operational and effective on a State-wide basis.

Under the statute, the age range for the child find requirement (0–21) is greater than the mandated age range for providing free appropriate public education (FAPE). One reason for the broader age requirement under "child find" is to enable States to be aware of and plan for younger children who will require special education and related services. It also ties in with the full educational opportunity goal requirement, which has the same age range as child find. Moreover, while a State is not required to provide "FAPE" to handicapped children below the age ranges mandated under § 121a.300, the State may, at its discretion, extend services to those children, subject to the requirements on priorities under §§ 121a.320–121a.324.

§ 121a.301 Free appropriate public education—methods and payments.

(a) Each State may use whatever State, local, Federal, and private sources of support are available in the State to meet the requirements of this part. For example, when it is necessary to place a handicapped child in a residential facility, a State could use joint agreements between the agencies involved for sharing the cost of that placement.

(b) Nothing in this part relieves an insurer or similar third party from an otherwise valid obligation to provide or to pay for services provided to a handicapped child.

(20 U.S.C. 1401(18); 1412(2)(B).)

§ 121a.302 Residential placement.

If placement in a public or private residential program is necessary to provide special education and related services to a handicapped child, the program, including non-medical care and room and board, must be at no cost to the parents of the child.

(20 U.S.C. 1412(2)(B); 1413(a)(4)(B).)

Comment. This requirement applies to placements which are made by public agencies for educational purposes, and includes placements in State-operated schools for the handicapped, such as a State school for the deaf or blind.

§ 121a.303 Proper functioning of hearing aids.

Each public agency shall insure that the hearing aids worn by deaf and hard of hearing children in school are functioning properly.

(20 U.S.C. 1412(2)(B).)

Comment. The report of the House of Representatives on the 1978 appropriation bill includes the following statement regarding hearing aids:

In its report on the 1976 appropriation bill the Committee expressed concern about the condition of hearing aids worn by children in public schools. A study done at the Committee's direction by the Bureau of Education for the Handicapped reveals that up to one-third of the hearing aids are malfunctioning. Obviously, the Committee expects the Office of Education will ensure that hearing impaired school children are receiving adequate professional assessment, follow-up and services.

(House Report No. 95-381, p. 67 (1977).)

§ 121a.304 Full educational opportunity goal.

(a) Each State educational agency shall insure that each public agency establishes and implements a goal of providing full educational opportunity to all handicapped children in the area served by the public agency.

(b) Subject to the priority requirements under §§ 121a.320–121a.324, a State or local educational agency may use Part B funds to provide facilities, personnel, and services necessary to meet the full educational opportunity goal.

(20 U.S.C. 1412(2)(A); 1414(a)(1)(C).)

Comment. In meeting the full educational opportunity goal, the Congress also encouraged local educational agencies to include artistic and cultural activities in programs supported under this part, subject to the priority requirements under §§ 121a.320–121a.324. This point is addressed in the following statements from the Senate Report on Pub. L. 94-142:

The use of the arts as a teaching tool for the handicapped has long been recognized as a viable, effective way not only of teaching special skills, but also of reaching youngsters who had otherwise been unteachable. The Committee envisions that programs under this bill could well include an arts component and, indeed, urges that local educational agencies include the arts in programs for the handicapped funded under this Act. Such a program could cover both appreciation of the arts by the handicapped youngsters, and the utilization of the arts as a teaching tool per se.

Museum settings have often been another effective tool in the teaching of handicapped children. For example, the Brooklyn Museum has been a leader in developing exhibits utilizing the heightened tactile sensory skill of the blind. Therefore, in light of the national policy concerning the use of museums in Federally-supported education programs enunciated in the Education Amendments of 1974, the Committee also urges local educational agencies to include museums in programs for the handicapped funded under this Act.

(Senate Report No. 94-168, p. 13 (1975).)

§ 121a.305 Program options.

Each public agency shall take steps to insure that its handicapped children have available to them the variety of educational programs and services available to non-handicapped children in the area served by the agency, including art, music, industrial arts, consumer and homemaking education, and vocational education.

(20 U.S.C. 1412(2)(A); 1414(a)(1)(C).)

Comment. The above list of program options is not exhaustive, and could include any program or activity in which non-handicapped students participate. Moreover, vocational education programs must be specially designed if necessary to enable a handicapped student to benefit fully from those programs; and the set-aside funds under the Vocational Education Act of 1963, as amended by Pub. L. 94-482, may be used for this purpose. Part B funds may also be used, subject to the priority requirements under §§ 121a.320–121a.324.

§ 121a.306 Nonacademic services.

(a) Each public agency shall take steps to provide nonacademic and extracurricular services and activities in such manner as is necessary to afford handicapped children an equal opportunity for participation in those services and activities.

(b) Nonacademic and extracurricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the public agency, referrals to agencies which provide assistance to handicapped persons, and employment of students, including both employment by the public agency and assistance in making outside employment available.

(20 U.S.C. 1412(2)(A); 1414(a)(1)(C).)

§ 121a.307 Physical education.

(a) *General.* Physical education services, specially designed if necessary, must be made available to every handicapped child receiving a free appropriate public education.

(b) *Regular physical education.* Each handicapped child must be afforded the opportunity to participate in the regular physical education program available to non-handicapped children unless:

(1) The child is enrolled full time in a separate facility; or

(2) The child needs specially designed physical education, as prescribed in the child's individualized education program.

(c) *Special physical education.* If specially designed physical education is prescribed in a child's individualized education program, the public agency responsible for the education of that child shall provide the services directly, or make arrangements for it to be provided through other public or private programs.

(d) *Education in separate facilities.* The public agency responsible for the education of a handicapped child who is enrolled in a separate facility shall insure that the child receives appropriate physical education services in compliance with paragraphs (a) and (c) of this section.

(20 U.S.C. 1401(16); 1412(5)(B); 1414(a)(6).)

Comment. The Report of the House of Representatives on Pub. L. 94-142 includes the following statement regarding physical education:

Special education as set forth in the Committee bill includes instruction in physical education, which is provided as a matter of course to all non-handicapped children enrolled in public elementary and secondary schools. The Committee is concerned that although these services are available to and required of all children in our school systems, they are often viewed as a luxury for handicapped children.

* * * * *

The Committee expects the Commissioner of Education to take whatever action is necessary to assure that physical education services are available to all handicapped children, and has specifically included physical education within the definition of special education to make clear that the Committee expects such services, specially designed where necessary, to be provided as an integral part of the educational program of every handicapped child.

(House Report No. 94-332, p. 9 (1975).)

Priorities in the Use of Part B Funds

§ 121a.320 Definitions of "first priority children" and "second priority children."

For the purposes of §§ 121a.321–121a.324, the term:

(a) "First priority children" means handicapped children who:

(1) Are in an age group for which the State must make available free appropriate public education under § 121a.300; and

(2) Are not receiving any education.

(b) "Second priority children" means handicapped children, within each disability, with the most severe handicaps who are receiving an inadequate education.

(20 U.S.C. 1412(3).)

Comment. After September 1, 1978, there should be no second priority children, since States must insure, as a condition of receiving Part B funds for fiscal year 1979, that all handicapped children will have available a free appropriate public education by that date.

NOTE.—The term "free appropriate public education," as defined in § 121a.4 of Subpart A, means "special education and related services which * * * are provided in conformity with an individualized education program * * *."

New "First priority children" will continue to be found by the State after September 1, 1978 through on-going efforts to identify, locate, and evaluate all handicapped children.

§ 121a.321 Priorities.

(a) Each State and local educational agency shall use funds provided under Part B of the Act in the following order of priorities:

(1) To provide free appropriate public education to first priority children, including the identification, location, and evaluation of first priority children.

(2) To provide free appropriate public education to second priority children, including the identification, location, and evaluation of second priority children.

(3) To meet the other requirements in this part.

(b) The requirements of paragraph (a) of this section do not apply to funds which the State uses for administration under § 121a.620.

(20 U.S.C. 1411(b)(1)(B), (b)(2)(B), (c)(1)(B), (c)(2)(A)(ii).)

(c) State and local educational agencies may not use funds under Part B of the Act for preservice training.

(20 U.S.C. 1413(a)(3); Senate Report No. 94-168, p. 34 (1975).)

Comment. Note that a State educational agency as well as local educational agencies must use Part B funds (except the portion used for State administration) for the priorities. A State may have to set aside a portion of its Part B allotment to be able to serve newly-identified first priority children.

After September 1, 1978, Part B funds may be used:

(1) To continue supporting child identification, location, and evaluation activities;

(2) To provide free appropriate public education to newly identified first priority children;

(3) To meet the full educational opportunities goal required under section 121a.304, including employing additional personnel and providing inservice training, in order to increase the level, intensity and quality of services provided to individual handicapped children; and

(4) To meet the other requirements of Part B.

§ 121a.322 First priority children—school year 1977–1978.

(a) In school year 1977–1978, if a major component of a first priority child's proposed educational program is not available (for example, there is no qualified teacher), the public agency responsible for the child's education shall:

(1) Provide an interim program of services for the child; and

(2) Develop an individualized education program for full implementation no later than September 1, 1978.

(b) A local educational agency may use Part B funds for training or other support services in school year 1977–1978 only if all of its first priority children have available to them at least an interim program of services.

(c) A State educational agency may use Part B funds for training or other support services in school year 1977–1978 only if all first priority children in the State have available to them at least an interim program of services.

(20 U.S.C. 1411(b), (c).)

Comment. This provision is intended to make it clear that a State or local educational agency may not delay placing a previously unserved (first priority) child until it has, for example, implemented an inservice training program. The child must be placed. After the child is in at least an interim program, the State or local educational agency may use Part B funds for training or other support services needed to provide that child with a free appropriate public education.

§ 121a.323 Services to other children.

If a State or a local educational agency is providing free appropriate public education to all of its first priority children,

V42 N163 AUG 23 77 UM

that State or agency may use funds provided under Part B of the Act:

(a) To provide free appropriate public education to handicapped children who are not receiving any education and who are in the age groups not covered under § 121a.300 in that State; or

(b) To provide free appropriate public education to second priority children; or

(c) Both.

(20 U.S.C. 1411(b)(1)(B), (b)(2)(B), (c)(2)(A)(ii).)

§ 121a.321 Application of local educational agency to use funds for the second priority.

A local educational agency may use funds provided under Part B of the Act for second priority children, if it provides assurance satisfactory to the State educational agency in its application (or an amendment to its application):

(a) That all first priority children have a free appropriate public education available to them;

(b) That the local educational agency has a system for the identification, location, and evaluation of handicapped children, as described in its application; and

(c) That whenever a first priority child is identified, located, and evaluated, the local educational agency makes available a free appropriate public education to the child.

(20 U.S.C. 1411 (b)(1)(B), (c)(1)(B); 1414(a)(1)(C)(ii).)

Individualized Education Programs

§ 121a.340 Definition.

As used in this part, the term "individualized education program" means a written statement for a handicapped child that is developed and implemented in accordance with §§ 121a.341–121a.349.

(20 U.S.C. 1401(19).)

§ 121a.341 State educational agency responsibility.

(a) *Public agencies.* The State educational agency shall insure that each public agency develops and implements an individualized education program for each of its handicapped children.

(b) *Private schools and facilities.* The State educational agency shall insure that an individualized education program is developed and implemented for each handicapped child who:

(1) Is placed in or referred to a private school or facility by a public agency; or

(2) Is enrolled in a parochial or other private school and receives special education or related services from a public agency.

(20 U.S.C. 1412 (4), (6); 1413(a)(4).)

Comment: This section applies to all public agencies, including other State agencies (e.g., departments of mental health and welfare), which provide special education to a handicapped child either directly, by contract or through other arrangements. Thus, if a State welfare agency contracts with a private school or facility to provide special education to a handicapped child, that agency would be responsible for insuring that an individualized education program is developed for the child.

§ 121a.342 When individualized education programs must be in effect.

(a) On October 1, 1977, and at the beginning of each school year thereafter, each public agency shall have in effect an individualized education program for every handicapped child who is receiving special education from that agency.

(b) An individualized education program must:

(1) Be in effect before special education and related services are provided to a child; and

(2) Be implemented as soon as possible following the meetings under § 121a.343.

(20 U.S.C. 1412 (2)(B), (4), (6); 1414(a)(5); Pub. L. 94-142, Sec. 8(c) (1975).)

Comment. Under paragraph (b)(2), it is expected that a handicapped child's individualized education program (IEP) will be implemented immediately following the meetings under § 121a.343. An exception to this would be (1) when the meetings occur during the summer or a vacation period, or (2) where there are circumstances which require a short delay (e.g., working out transportation arrangements). However, there can be no undue delay in providing special education and related services to the child.

§ 121a.343 Meetings.

(a) *General.* Each public agency is responsible for initiating and conducting meetings for the purpose of developing, reviewing, and revising a handicapped child's individualized education program.

(b) *Handicapped children currently served.* If the public agency has determined that a handicapped child will receive special education during school year 1977–1978, a meeting must be held early enough to insure that an individualized education program is developed by October 1, 1977.

(c) *Other handicapped children.* For a handicapped child who is not included under paragraph (b) of this action, a meeting must be held within thirty calendar days of a determination that the child needs special education and related services.

(d) *Review.* Each public agency shall initiate and conduct meetings to periodically review each child's individualized education program and if appropriate revise its provisions. A meeting must be held for this purpose at least once a year.

(20 U.S.C. 1412 (2)(B), (4), (6); 1414(a)(5).)

Comment. The dates on which agencies must have individualized education programs (IEPs) in effect are specified in § 121a.342 (October 1, 1977, and the beginning of each school year thereafter). However, except for new handicapped children (i.e., those evaluated and determined to need special education after October 1, 1977), the timing of meetings to develop, review, and revise IEPs is left to the discretion of each agency.

In order to have IEPs in effect by the dates in § 121a.342, agencies could hold meetings at the end of the school year or during the summer preceding those dates. In meeting the October 1, 1977 timeline, meetings could be conducted up through the October 1 date. Thereafter, meetings may be held any time throughout the year, as long as IEPs are in effect at the beginning of each school year.

The statute requires agencies to hold a meeting at least once each year in order to review, and if appropriate revise, each child's IEP. The timing of those meetings could be on the anniversary date of the last IEP meeting on the child, but this is left to the discretion of the agency.

§ 121a.344 Participants in meetings.

(a) *General.* The public agency shall insure that each meeting includes the following participants:

(1) A representative of the public agency, other than the child's teacher, who is qualified to provide, or supervise the provision of, special education.

(2) The child's teacher.

(3) One or both of the child's parents, subject to § 121a.345.

(4) The child, where appropriate.

(5) Other individuals at the discretion of the parent or agency.

(b) *Evaluation personnel.* For a handicapped child who has been evaluated for the first time, the public agency shall insure:

(1) That a member of the evaluation team participates in the meeting; or

(2) That the representative of the public agency, the child's teacher, or some other person is present at the meeting, who is knowledgeable about the evaluation procedures used with the child and is familiar with the results of the evaluation.

(20 U.S.C. 1401(19); 1412 (2)(B), (4), (6); 1414(a)(5).)

Comment. 1. In deciding which teacher will participate in meetings on a child's individualized education program, the agency may wish to consider the following possibilities:

(a) For a handicapped child who is receiving special education, the "teacher" could be the child's special education teacher. If the child's handicap is a speech impairment, the "teacher" could be the speech-language pathologist.

(b) For a handicapped child who is being considered for placement in special education, the "teacher" could be the child's regular teacher, or a teacher qualified to provide education in the type of program in which the child may be placed, or both.

(c) If the child is not in school or has more than one teacher, the agency may designate which teacher will participate in the meeting.

2. Either the teacher or the agency representative should be qualified in the area of the child's suspected disability.

3. For a child whose primary handicap is a speech impairment, the evaluation personnel participating under paragraph (b)(1) of this section would normally be the speech-language pathologist.

§ 121a.345 Parent participation.

(a) Each public agency shall take steps to insure that one or both of the parents of the handicapped child are present at each meeting or are afforded the opportunity to participate, including:

(1) Notifying parents of the meeting early enough to insure that they will have an opportunity to attend; and

(2) Scheduling the meeting at a mutually agreed on time and place.

(b) The notice under paragraph (a)(1) of this section must indicate the purpose, time, and location of the meeting, and who will be in attendance.

(c) If neither parent can attend, the public agency shall use other methods to insure parent participation, including individual or conference telephone calls.

(d) A meeting may be conducted without a parent in attendance if the public agency is unable to convince the parents that they should attend. In this case the public agency must have a record of its attempts to arrange a mutually agreed on time and place such as:

(1) Detailed records of telephone calls made or attempted and the results of those calls.

(2) Copies of correspondence sent to the parents and any responses received, and

(3) Detailed records of visits made to the parent's home or place of employment and the results of those visits.

(e) The public agency shall take whatever action is necessary to insure that the parent understands the proceedings at a meeting, including arranging for an interpreter for parents who are deaf or whose native language is other than English.

(f) The public agency shall give the parent, on request, a copy of the individualized education program.

(20 U.S.C. 1401(19); 1412 (2)(B), (4), (6); 1414(a)(5).)

Comment. The notice in paragraph (a) could also inform parents that they may bring other people to the meeting. As indicated in paragraph (c), the procedure used to notify parents (whether oral or written or both) is left to the discretion of the agency, but the agency must keep a record of its efforts to contact parents.

§ 121a.346 Content of individualized education program.

The individualized education program for each child must include:

(a) A statement of the child's present levels of educational performance;

(b) A statement of annual goals, including short term instructional objectives;

(c) A statement of the specific special education and related services to be provided to the child, and the extent to which the child will be able to participate in regular educational programs;

(d) The projected dates for initiation of services and the anticipated duration of the services; and

(e) Appropriate objective criteria and evaluation procedures and schedules for determining, on at least an annual basis, whether the short term instructional objectives are being achieved.

(20 U.S.C. 1401(19); 1412 (2)(B), (4), (6), 1414(a)(5); Senate Report No. 94-168, p. 11 (1975).)

§ 121a.347 Private school placements.

(a) *Developing individualized education programs.* (1) Before a public agency places a handicapped child in, or refers a child to, a private school or facility, the agency shall initiate and conduct a meeting to develop an individualized education program for the child in accordance with § 121a.343.

(2) The agency shall insure that a representative of the private school facility attends the meeting. If the representative cannot attend, the agency shall use other methods to insure participation by the private school or facility, including individual or conference telephone calls.

(3) The public agency shall also develop an individualized educational program for each handicapped child who was placed in a private school or facility by the agency before the effective date of these regulations.

(b) *Reviewing and revising individualized education programs.* (1) After a handicapped child enters a private school or facility, any meetings to review and revise the child's individualized education program may be initiated and conducted by the private school or facility at the discretion of the public agency.

(2) If the private school or facility initiates and conducts these meetings, the public agency shall insure that the parents and an agency representative:

(i) Are involved in any decision about the child's individualized education program; and

(ii) Agree to any proposed changes in the program before those changes are implemented.

(c) *Responsibility.* Even if a private school or facility implements a child's individualized education program, responsibility for compliance with this part remains with the public agency and the State educational agency.

(20 U.S.C. 1413(a)(4)(B).)

§ 121a.348 Handicapped children in parochial or other private schools.

If a handicapped child is enrolled in a parochial or other private school and receives special education or related services from a public agency, the public agency shall:

(a) Initiate and conduct meetings to develop, review, and revise an individualized education program for the child, in accordance with § 121a.343; and

(b) Insure that a representative of the parochial or other private school attends each meeting. If the representative cannot attend, the agency shall use other methods to insure participation by the private school, including individual or conference telephone calls.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.349 Individualized education program—accountability.

Each public agency must provide special education and related services to a handicapped child in accordance with an individualized education program. However, Part B of the Act does not require that any agency, teacher, or other person be held accountable if a child does not achieve the growth projected in the annual goals and objectives.

(20 U.S.C. 1412(2)(B); 1414(a), (5), (6); Cong. Rec. at H 7152 (daily ed., July 21, 1975).)

Comment. This section is intended to relieve concerns that the individualized education program constitutes a guarantee by the public agency and the teacher that a child will progress at a specified rate. However, this section does not relieve agencies and teachers from making good faith efforts to assist the child in achieving the objectives and goals listed in the individualized education program. Further, the section does not limit a parent's right to complain and ask for revisions of the child's program, or to invoke due process procedures, if the parent feels that these efforts are not being made.

Direct Service by the State Educational Agency

§ 121a.360 Use of local educational agency allocation for direct services.

(a) A State educational agency may not distribute funds to a local educational agency, and shall use those funds to insure the provision of a free appropriate public education to handicapped children residing in the area served by the local educational agency, if the local educational agency, in any fiscal year:

(1) Is entitled to less than $7,500 for that fiscal year (beginning with fiscal year 1979);

(2) Does not submit an application that meets the requirements of §§ 121a.220–121a.240;

(3) Is unable or unwilling to establish and maintain programs of free appropriate public education;

(4) Is unable or unwilling to be consolidated with other local educational agencies in order to establish and maintain those programs; or

(5) Has one or more handicapped children who can best be served by a regional or State center designed to meet the needs of those children.

(b) In meeting the requirements of paragraph (a) of this section, the State educational agency may provide special education and related services directly, by contract, or through other arrangements.

(c) The excess cost requirements under §§ 121a.182–121a.186 do not apply to the State educational agency.

(20 U.S.C. 1411(c)(4); 1413(b); 1414(d).)

Comment. Section 121a.360 is a combination of three provisions in the statute (Sections 611(c)(4), 613(b), and 614(d)). This section focuses mainly on the State's administration and use of local entitlements under Part B.

The State educational agency, as a recipient of Part B funds is responsible for insuring that all public agencies in the State comply with the provisions of the Act regardless of whether they receive Part B funds. If a local educational agency elects not to apply for its Part B entitlement, the State would be required to use those funds to insure that a free appropriate public education (FAPE) is made available to children residing in the area served by that local agency. However, if the local entitlement is not sufficient for this purpose, additional State or local funds would have to be expended in order to insure that "FAPE" and the other requirements of the Act are met.

Moreover, if the local educational agency is the recipient of any other Federal funds, it would have to be in compliance with Subpart D of the regulations for section 504 of the Rehabilitation Act of 1973 (45 CFR Part 84). It should be noted that the term "FAPE" has different meanings under Part B and section 504. For example, under Part

V 42 N 163 AUG 23 77 UM

B, "FAPE" is a statutory term which requires special education and related services to be provided in accordance with an individualized education program (IEP). However, under section 504, each recipient must provide an education which includes services that are "designed to meet individual educational needs of handicapped persons as adequately as the needs of nonhandicapped persons are met • • •" Those regulations state that implementation of an IEP, in accordance with Part B, is one means of meeting the "FAPE" requirement.

§ 121a.361 Nature and location of services.

The State educational agency may provide special education and related services under § 121a.360(a) in the manner and at the location it considers appropriate. However, the manner in which the education and services are provided must be consistent with the requirements of this part (including the least restrictive environment provisions in §§ 121a.550–121a.556 of Subpart E).

(20 U.S.C. 1414(d).)

§ 121a.370 Use of State educational agency allocation for direct and support services.

(a) The State shall use the portion of its allocation it does not use for administration to provide support services and direct services in accordance with the priority requirements under §§ 121a.320–121a.324.

(b) For the purposes of paragraph (a) of this section:

(1) "Direct services" means services provided to a handicapped child by the State directly, by contract, or through other arrangements.

(2) "Support services" includes implementing the comprehensive system of personnel development under §§ 121a.380–121a.388, recruitment and training of hearing officers and surrogate parents, and public information and parent training activities relating to a free appropriate public education for handicapped children.

(20 U.S.C. 1411(b)(2), (c)(2).)

§ 121a.371 State matching.

Beginning with the period July 1, 1978–June 30, 1979, and for each following year, the funds that a State uses for direct and support services under § 121a.370 most be matched on a program basis by the State from funds other than Federal funds. This requirement does not apply to funds that the State uses under § 121a.360.

(20 U.S.C. 1411(c)(2)(B), (c)(4)(B).)

Comment. The requirement in § 121a.371 would be satisfied if the State can document that the amount of State funds expended for each major program area (e.g., the comprehensive system of personnel development) is at least equal to the expenditure of Federal funds in that program area.

§ 121a.372 Applicability of nonsupplanting requirement.

Beginning with funds appropriated for Fiscal Year 1979 and for each following Fiscal Year, the requirement in section 613(a)(9) of the Act, which prohibits supplanting with Federal funds, does not apply to funds that the State uses from its allocation under § 121a.706(a) of Subpart G for administration, direct services, or support services.

(20 U.S.C. 1411(c)(3).)

COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT

§ 121a.380 Scope of system.

Each annual program plan must include a description of programs and procedures for the development and implementation of a comprehensive system of personnel development which includes:

(a) The inservice training of general and special educational instructional, related services, and support personnel;

(b) Procedures to insure that all personnel necessary to carry out the purposes of the Act are qualified (as defined in § 121a.12 of Subpart A) and that activities sufficient to carry out this personnel development plan are scheduled; and

(c) Effective procedures for acquiring and disseminating to teachers and administrators of programs for handicaped children significant information derived from educational research, demonstration, and similar projects, and for adopting, where appropriate, promising educational practices and materials developed through those projects.

(20 U.S.C. 1413(a)(3).)

§ 121a.381 Participation of other agencies and institutions.

(a) The State educational agency must insure that all public and private institutions of higher education, and other agencies and organizations (including representatives of handicapped, parent, and other advocacy organizations) in the State which have an interest in the preparation of personnel for the education of handicapped children, have an opportunity to participate fully in the development, review, and annual updating of the comprehensive system of personnel development.

(b) The annual program plan must describe the nature and extent of participation under paragraph (a) of this section and must describe responsibilities of the State educational agency, local educational agencies, public and private institutions of higher education, and other agencies:

(1) With respect to the comprehensive system as a whole, and

(2) With respect to the personnel development plan under § 121a.383.

(20 U.S.C. 1412(7)(A); 1413(a)(3).)

§ 121a.382 Inservice training.

(a) As used in this section, "inservice training" means any training other than that received by an individual in a full-time program which leads to a degree.

(b) Each annual program plan must provide that the State educational agency:

(1) Conducts an annual needs assessment to determine if a sufficient number of qualified personnel are available in the State; and

(2) Initiates inservice personnel development programs based on the assessed needs of State-wide significance related to the implementation of the Act.

(c) Each annual program plan must include the results of the needs assessment under paragraph (b)(1) of this section, broken out by need for new personnel and need for retrained personnel.

(d) The State educational agency may enter into contracts with institutions of higher education, local educational agencies or other agencies, institutions, or organizations (which may include parent, handicapped, or other advocacy organizations), to carry out:

(1) Experimental or innovative personnel development programs;

(2) Development or modification of instructional materials; and

(3) Dissemination of significant information derived from educational research and demonstration projects.

(e) Each annual program plan must provide that the State educational agency insures that ongoing inservice training programs are available to all personnel who are engaged in the education of handicapped children, and that these programs include:

(1) The use of incentives which insure participation by teachers (such as released time, payment for participation, options for academic credit, salary step credit, certification renewal, or updating professional skills);

(2) The involvement of local staff; and

(3) The use of innovative practices which have been found to be effective.

(f) Each annual program plan must:

(1) Describe the process used in determining the inservice training needs of personnel engaged in the education of handicapped children;

(2) Identify the areas in which training is needed (such as individualized education programs, non-discriminatory testing, least restrictive environment, procedural safeguards, and surrogate parents);

(3) Specify the groups requiring training (such as special teachers, regular teachers, administrators, psychologists, speech-language pathologists, audiologists, physical education teachers, therapeutic recreation specialists, physical therapists, occupational therapists, medical personnel, parents, volunteers, hearing officers, and surrogate parents);

(4) Describe the content and nature of training for each area under paragraph (f)(2) of this section;

(5) Describe how the training will be provided in terms of (i) geographical scope (such as Statewide, regional, or local), and (ii) staff training source (such as college and university staffs, State and local educational agency personnel, and non-agency personnel);

(6) Specify: (i) The funding sources to be used, and

(ii) The time frame for providing it; and

(7) Specify procedures for effective evaluation of the extent to which program objectives are met.

(20 U.S.C. 1413(a)(3).)

§ 121a.383 Personnel development plan.

Each annual program plan must: (a) Include a personnel development plan which provides a structure for personnel planning and focuses on preservice and inservice education needs;

(b) Describe the results of the needs assessment under § 121a.382(b)(1) with respect to identifying needed areas of training, and assigning priorities to those areas; and

(c) Identify the target populations for personnel development, including general education and special education instructional and administrative personnel, support personnel, and other personnel (such as paraprofessionals, parents, surrogate parents, and volunteers).

(20 U.S.C. 1413(a)(3).)

§ 121a.384 Dissemination.

(a) Each annual program plan must include a description of the State's procedures for acquiring, reviewing, and disseminating to general and special educational instructional and support personnel, administrators of programs for handicapped children, and other interested agencies and organizations (including parent, handicapped, and other advocacy organizations) significant information and promising practices derived from educational research, demonstration, and other projects.

(b) Dissemination includes:

(1) Making those personnel, administrators, agencies, and organizations aware of the information and practices;

(2) Training designed to enable the establishment of innovative programs and practices targeted on identified local needs; and

(3) Use of instructional materials and other media for personnel development and instructional programming.

(20 U.S.C. 1413(a)(3).)

§ 121a.385 Adoption of educational practices.

(a) Each annual program plan must provide for a statewide system designed to adopt, where appropriate, promising educational practices and materials proven effective through research and demonstration.

(b) Each annual program plan must provide for thorough reassessment of educational practices used in the State.

(c) Each annual program plan must provide for the identification of State, local, and regional resources (human and material) which will assist in meeting the State's personnel preparation needs.

(20 U.S.C. 1413(a)(3).)

§ 121a.386 Evaluation.

Each annual program plan must include:

(a) Procedures for evaluating the overall effectiveness of:

(1) The comprehensive system of personnel development in meeting the needs for personnel, and

(2) The procedures for administration of the system; and

(b) A description of the monitoring activities that will be undertaken to assure the implementation of the comprehensive system of personnel development.

(20 U.S.C. 1413(a)(3).)

§ 121a.387 Technical assistance to local educational agencies.

Each annual program plan must include a description of technical assistance that the State educational agency gives to local educational agencies in their implementation of the State's comprehensive system of personnel development.

(20 U.S.C. 1413(a)(3).)

Subpart D—Private Schools

HANDICAPPED CHILDREN IN PRIVATE SCHOOLS PLACED OR REFERRED BY PUBLIC AGENCIES

§ 121a.400 Applicability of §§ 121a.401–121a.403.

Sections 121a.401–121a.403 apply only to handicapped children who are or have been placed in or referred to a private school or facility by a public agency as a means of providing special education and related services.

(20 U.S.C. 1413(a)(4)(B).)

§ 121a.401 Responsibility of State educational agency.

Each State educational agency shall insure that a handicapped child who is placed in or referred to a private school or facility by a public agency:

(a) Is provided special education and related services:

(1) In conformance with an individualized education program which meets the requirements under §§ 121a.340–121a.349 of Subpart C;

(2) At no cost to the parents; and

(3) At a school or facility which meets the standards that apply to State and local educational agencies (including the requirements in this part); and

(b) Has all of the rights of a handicapped child who is served by a public agency.

(20 U.S.C. 1413(a)(4)(B).)

§ 121a.402 Implementation by State educational agency.

In implementing § 121a.401, the State educational agency shall:

(a) Monitor compliance through procedures such as written reports, on-site visits, and parent questionnaires;

(b) Disseminate copies of applicable standards to each private school and facility to which a public agency has referred or placed a handicapped child; and

(c) Provide an opportunity for those private schools and facilities to participate in the development and revision of State standards which apply to them.

(20 U.S.C. 1413(a)(4)(B).)

§ 121a.403 Placement of children by parents.

(a) If a handicapped child has available a free appropriate public education and the parents choose to place the child in a private school or facility, the public agency is not required by this part to pay for the child's education at the private school or facility. However, the public agency shall make services available to the child as provided under §§ 121a.450–121a.460.

(b) Disagreements between a parent and a public agency regarding the availability of a program appropriate for the child, and the question of financial responsibility, are subject to the due process procedures under §§ 121a.500–121a.514 of Subpart E.

(20 U.S.C. 1412(2)(B); 1415).)

HANDICAPPED CHILDREN IN PRIVATE SCHOOLS NOT PLACED OR REFERRED BY PUBLIC AGENCIES

§ 121a.450 Applicability of §§ 121a.451–121a.460.

As used in §§ 121a.451–121a.460, "private school handicapped children" means handicapped children enrolled in private schools or facilities other than handicapped children covered under §§ 121a.400–121a.403.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.451 State educational agency responsibility.

The State educational agency shall insure that:

(a) To the extent consistent with their number and location in the State, provision is made for the participation of private school handicapped children in the program assisted or carried out under this part by providing them with special education and related services; and

(b) The other requirements in §§ 121a.452–121a.460 are met.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.452 Local educational agency responsibility.

(a) Each local educational agency shall provide special education and related services designed to meet the needs of private school handicapped children residing in the jurisdiction of the agency.

(b) Each local educational agency shall provide private school handicapped children with genuine opportunities to participate in special education and related services consistent with the number of those children and their needs.

(20 U.S.C. 1413(a)(4)(A); 1414(a)(6).)

§ 121a.453 Determination of needs, number of children, and types of services.

The needs of private school handicapped children, the number of them who will participate under this part, and the types of special education and related services which the local educational agency will provide for them must be determined after consultation with persons knowledgeable of the needs of these

VOL 42 NO 163 AUG 23 77 UM

children, on a basis comparable to that used in providing for the participation under this part of handicapped children enrolled in public schools.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.154 Service arrangements.

Services to private school handicapped children may be provided through such arrangements as dual enrollment, educational radio and television, and the provision of mobile educational services and equipment.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.155 Differences in services to private school handicapped children.

A local educational agency may provide special education and related services to private school handicapped children which are different from the special education and related services it provides to public school children, if:

(a) The differences are necessary to meet the special needs of the private school handicapped children, and

(b) The special education and related services are comparable in quality, scope, and opportunity for participation to those provided to public school children with needs of equal importance.

(20 U.S.C. 1413(a)(4)(a); *Wheeler v Barrera*, 417 U.S. 402 (1974).)

§ 121a.156 Personnel.

(a) Public school personnel may be made available in other than public school facilities only to the extent necessary to provide services required by the handicapped children for whose needs those services were designed, and only when those services are not normally provided by the private school.

(b) Each State or local educational agency providing services to children enrolled in private schools shall maintain continuing administrative control and direction over those services.

(c) The services provided with funds under Part B of the Act for eligible handicapped children enrolled in private schools may not include:

(1) The payment of salaries of teachers or other employees of private schools except for services performed outside their regular hours of duty and under public supervision and control; or

(2) The construction of private school facilities.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.157 Equipment.

(a) Equipment acquired with funds under Part B of the Act may be placed on private school premises for a limited period of time, but the title to and administrative control over all equipment must be retained and exercised by a public agency.

(b) In exercising administrative control, the public agency shall keep records of and account for the equipment, and shall insure that the equipment is used solely for the purposes of the program or project, and remove the equipment from the private school premises if necessary to avoid its being used for other purposes or if it is no longer needed for the purposes of the program or project.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.158 Prohibition of segregation.

Programs or projects carried out in public facilities, and involving joint participation by eligible handicapped children enrolled in private schools and handicapped children enrolled in public schools, may not include classes that are separated on the basis of school enrollment or the religious affiliations of the children.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.159 Funds and property not to benefit private school.

Funds provided under Part B of the Act and property derived from those funds may not inure to the benefit of any private school.

(20 U.S.C. 1413(a)(4)(A).)

§ 121a.160 Existing level of instruction.

Provisions for serving private school handicapped children may not include the financing of the existing level of instruction in the private schools.

(20 U.S.C. 1413(a)(4)(A).)

Subpart E—Procedural Safeguards

Due Process Procedures for Parents and Children

§ 121a.500 Definitions of "consent", "evaluation", and "personally identifiable".

As used in this part: "Consent" means that: (a) The parent has been fully informed of all information relevant to the activity for which consent is sought, in his or her native language, or other mode of communication;

(b) The parent understands and agrees in writing to the carrying out of the activity for which his or her consent is sought, and the consent describes that activity and lists the records (if any) which will be released and to whom; and

(c) The parent understands that the granting of consent is voluntary on the part of the parent and may be revoked at any time.

"Evaluation" means procedures used in accordance with §§ 121a.530–121a.534 to determine whether a child is handicapped and the nature and extent of the special education and related services that the child needs. The term means procedures used selectively with an individual child and does not include basic tests administered to or procedures used with all children in a school, grade, or class.

"Personally identifiable" means that information includes:

(a) The name of the child, the child's parent, or other family member;

(b) The address of the child;

(c) A personal identifier, such as the child's social security number or student number; or

(d) A list of personal characteristics or other information which would make it possible to identify the child with reasonable certainty.

(20 U.S.C. 1413(a)(4)(A).)

(20 U.S.C. 1415, 1417(c).)

§ 121a.501 General responsibility of public agencies.

Each State educational agency shall insure that each public agency establishes and implements procedural safeguards which meet the requirements of §§ 121a.500–121a.514.

(20 U.S.C. 1415(a).)

§ 121a.502 Opportunity to examine records.

The parents of a handicapped child shall be afforded, in accordance with the procedures in §§ 121a.562–121a.569 an opportunity to inspect and review all education records with respect to:

(a) The identification, evaluation, and educational placement of the child, and

(b) The provision of a free appropriate public education to the child.

(20 U.S.C. 1415(b)(1)(A).)

§ 121a.503 Independent educational evaluation.

(a) *General.* (1) The parents of a handicapped child have the right under this part to obtain an independent educational evaluation of the child, subject to paragraphs (b) through (e) of this section.

(2) Each public agency shall provide to parents, on request, information about where an independent educational evaluation may be obtained.

(3) For the purposes of this part:

(i) "Independent educational evaluation" means an evaluation conducted by a qualified examiner who is not employed by the public agency responsible for the education of the child in question.

(ii) "Public expense" means that the public agency either pays for the full cost of the evaluation or insures that the evaluation is otherwise provided at no cost to the parent, consistent with § 121a.301 of Subpart C.

(b) *Parent right to evaluation at public expense.* A parent has the right to an independent educational evaluation at public expense if the parent disagrees with an evaluation obtained by the public agency. However, the public agency may initiate a hearing under § 121a.506 of this subpart to show that its evaluation is appropriate. If the final decision is that the evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at public expense.

(c) *Parent initiated evaluations.* If the parent obtains an independent educational evaluation at private expense, the results of the evaluation:

(1) Must be considered by the public agency in any decision made with respect to the provision of a free appropriate public education to the child, and

(2) May be presented as evidence at a hearing under this subpart regarding that child.

(d) *Requests for evaluations by hearing officers.* If a hearing officer requests an independent educational evaluation as part of a hearing, the cost of the evaluation must be at public expense.

(e) *Agency criteria.* Whenever an independent evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria which the public agency uses when it initiates an evaluation.

(20 U.S.C. 1415(b)(1)(A).)

§ 121a.504 Prior notice; parent consent.

(a) *Notice.* Written notice which meets the requirements under § 121a.505 must be given to the parents of a handicapped child a reasonable time before the public agency:

(1) Proposes to initiate or change the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child, or

(2) Refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child.

(b) *Consent.* (1) Parental consent must be obtained before:

(i) Conducting a preplacement evaluation; and

(ii) Initial placement of a handicapped child in a program providing special education and related services.

(2) Except for preplacement evaluation and initial placement, consent may not be required as a condition of any benefit to the parent or child.

(c) *Procedures where parent refuses consent.* (1) Where State law requires parental consent before a handicapped child is evaluated or initially provided special education and related services, State procedures govern the public agency in overriding a parent's refusal to consent.

(2)(i) Where there is no State law requiring consent before a handicapped child is evaluated or initially provided special education and related services, the public agency may use the hearing procedures in §§ 121a.506–121a.508 to determine if the child may be evaluated or initially provided special education and related services without parental consent.

(ii) If the hearing officer upholds the agency, the agency may evaluate or initially provide special education and related services to the child without the parent's consent, subject to the parent's rights under §§ 121a.510—121a.513.

(20 U.S.C. 1415(b)(1)(C), (D).)

Comment. 1. Any changes in a child's special education program, after the initial placement, are not subject to parental consent under Part B, but are subject to the prior notice requirement in paragraph (a) and the individualized education program requirements in Subpart C.

2. Paragraph (c) means that where State law requires parental consent before evaluation or before special education and related services are initially provided, and the parent refuses (or otherwise withholds) consent, State procedures, such as obtaining a court order authorizing the public agency to conduct the evaluation or provide the education and related services, must be followed.

If, however, there is no legal requirement for consent outside of these regulations, the public agency may use the due process procedures under this subpart to obtain a decision to allow the evaluation or services without parental consent. The agency must notify the parent of its actions, and the parent has appeal rights as well as rights at the hearing itself.

§ 121a.505 Content of notice.

(a) The notice under § 121a.504 must include:

(1) A full explanation of all of the procedural safeguards available to the parents under Subpart E;

(2) A description of the action proposed or refused by the agency, an explanation of why the agency proposes or refuses to take the action, and a description of any options the agency considered and the reasons why those options were rejected;

(3) A description of each evaluation procedure, test, record, or report the agency uses as a basis for the proposal or refusal; and

(4) A description of any other factors which are relevant to the agency's proposal or refusal.

(b) The notice must be:

(1) Written in language understandable to the general public, and

(2) Provided in the native language of the parent or other mode of communication used by the parent, unless it is clearly not feasible to do so.

(c) If the native language or other mode of communication of the parent is not a written language, the State or local educational agency shall take steps to insure:

(1) That the notice is translated orally or by other means to the parent in his or her native language or other mode of communication;

(2) That the parent understands the content of the notice, and

(3) That there is written evidence that the requirements in paragraph (c)(1) and (2) of this section have been met.

(20 U.S.C. 1415(b)(1)(D))

§ 121a.506 Impartial due process hearing.

(a) A parent or a public educational agency may initiate a hearing on any of the matters described in § 121a.504(a)(1) and (2).

(b) The hearing must be conducted by the State educational agency or the public agency directly responsible for the education of the child, as determined under State statute, State regulation, or a written policy of the State educational agency.

(c) The public agency shall inform the parent of any free or low-cost legal and other relevant services available in the area if:

(1) The parent requests the information; or

(2) The parent or the agency initiates a hearing under this section.

(20 U.S.C. 1416(b)(2).)

Comment: Many States have pointed to the success of using mediation as an intervening step prior to conducting a formal due process hearing. Although the process of mediation is not required by the statute or these regulations, an agency may wish to suggest mediation in disputes concerning the identification, evaluation, and educational placement of handicapped children, and the provision of a free appropriate public education to those children. Mediations have been conducted by members of State educational agencies or local educational agency personnel who were not previously involved in the particular case. In many cases, mediation leads to resolution of differences between parents and agencies without the development of an adversarial relationship and with minimal emotional stress. However, mediation may not be used to deny or delay a parent's rights under this subpart.

§ 121a.507 Impartial hearing officer.

(a) A hearing may not be conducted:

(1) By a person who is an employee of a public agency which is involved in the education or care of the child, or

(2) By any person having a personal or professional interest which would conflict with his or her objectivity in the hearing.

(b) A person who otherwise qualifies to conduct a hearing under paragraph (a) of this section is not an employee of the agency solely because he or she is paid by the agency to serve as a hearing officer.

(c) Each public agency shall keep a list of the persons who serve as hearing officers. The list must include a statement of the qualifications of each of those persons.

(20 U.S.C. 1416(b)(2).)

§ 121a.508 Hearing rights.

(a) Any party to a hearing has the right to:

(1) Be accompanied and advised by counsel and by individuals with special knowledge or training with respect to the problems of handicapped children;

(2) Present evidence and confront, cross-examine, and compel the attendance of witnesses;

(3) Prohibit the introduction of any evidence at the hearing that has not been disclosed to that party at least five days before the hearing;

(4) Obtain a written or electronic verbatim record of the hearing;

(5) Obtain written findings of fact and decisions. (The public agency shall transmit those findings and decisions, after deleting any personally identifiable information, to the State advisory panel established under Subpart F).

(b) Parents involved in hearings must be given the right to:

(1) Have the child who is the subject of the hearing present; and

(2) Open the hearing to the public.

(20 U.S.C. 1415(d).)

§ 121a.509 Hearing decision; appeal.

A decision made in a hearing conducted under this subpart is final, unless

a party to the hearing appeals the decision under § 121a.510 or § 121a.511.

(20 U.S.C. 1415(c).)

§ 121a.510 Administrative appeal; impartial review.

(a) If the hearing is conducted by a public agency other than the State educational agency, any party aggrieved by the findings and decision in the hearing may appeal to the State educational agency.

(b) If there is an appeal, the State educational agency shall conduct an impartial review of the hearing. The official conducting the review shall:

(1) Examine the entire hearing record;

(2) Insure that the procedures at the hearing were consistent with the requirements of due process;

(3) Seek additional evidence if necessary. If a hearing is held to receive additional evidence, the rights in § 121a.508 apply;

(4) Afford the parties an opportunity for oral or written argument, or both, at the discretion of the reviewing official;

(5) Make an independent decision on completion of the review; and

(6) Give a copy of written findings and the decision to the parties.

(c) The decision made by the reviewing official is final, unless a party brings a civil action under § 121a.512.

(20 U.S.C. 1415 (c), (d); H. Rep. No. 94-664, at p. 49 (1975).)

Comment. 1. The State educational agency may conduct its review either directly or through another State agency acting on its behalf. However, the State educational agency remains responsible for the final decision on review.

2. All parties have the right to continue to be represented by counsel at the State administrative review level, whether or not the reviewing official determines that a further hearing is necessary. If the reviewing official decides to hold a hearing to receive additional evidence, the other rights in section 121a.508, relating to hearings, also apply.

§ 121a.511 Civil action.

Any party aggrevied by the findings and decision made in a hearing who does not have the right to appeal under § 121a.510 of this subpart, and any party aggrieved by the decision of a reviewing officer under § 121a.510 has the right to bring a civil action under section 615(e)(2) of the Act.

(20 U.S.C. 1415.)

§ 121a.512 Timeliness and convenience of hearings and reviews.

(a) The public agency shall insure that not later than 45 days after the receipt of a request for a hearing:

(1) A final decision is reached in the hearing; and

(2) A copy of the decision is mailed to each of the parties.

(b) The State educational agency shall insure that not later than 30 days after the receipt of a request for a review:

(1) A final decision is reached in the review; and

(2) A copy of the decision is mailed to each of the parties.

(c) A hearing or reviewing officer may grant specific extensions of time beyond the periods set out in paragraphs (a) and (b) of this section at the request of either party.

(d) Each hearing and each review involving oral arguments must be conducted at a time and place which is reasonably convenient to the parents and child involved.

(20 U.S.C. 1415.)

§ 121a.513 Child's status during proceedings.

(a) During the pendency of any administrative or judicial proceeding regarding a complaint, unless the public agency and the parents of the child agree otherwise, the child involved in the complaint must remain in his or her present educational placement.

(b) If the complaint involves an application for initial admission to public school, the child, with the consent of the parents, must be placed in the public school program until the completion of all the proceedings.

(20 U.S.C. 1415(e)(3).)

Comment. Section 121a.513 does not permit a child's placement to be changed during a complaint proceeding, unless the parents and agency agree otherwise. While the placement may not be changed, this does not preclude the agency from using its normal procedures for dealing with children who are endangering themselves or others.

§ 121a.514 Surrogate parents.

(a) *General.* Each public agency shall insure that the rights of a child are protected when:

(1) No parent (as defined in § 121a.10) can be identified;

(2) The public agency, after reasonable efforts, cannot discover the whereabouts of a parent; or

(3) The child is a ward of the State under the laws of that State.

(b) *Duty of public agency.* The duty of a public agency under paragraph (a) of this section includes the assignment of an individual to act as a surrogate for the parents. This must include a method (1) for determining whether a child needs a surrogate parent, and (2) for assigning a surrogate parent to the child.

(c) *Criteria for selection of surrogates.* (1) The public agency may select a surrogate parent in any way permitted under State law.

(2) Public agencies shall insure that a person selected as a surrogate:

(i) Has no interest that conflicts with the interests of the child he or she represents; and

(ii) Has knowledge and skills, that insure adequate representation of the child.

(d) *Non-employee requirement; compensation.* (1) A person assigned as a surrogate may not be an employee of a public agency which is involved in the education or care of the child.

(2) A person who otherwise qualifies to be a surrogate parent under paragraph (c) and (d)(1) of this section, is not an employee of the agency solely because he or she is paid by the agency to serve as a surrogate parent.

(e) *Responsibilities.* The surrogate parent may represent the child in all matters relating to:

(1) The identification, evaluation, and educational placement of the child, and

(2) The provision of a free appropriate public education to the child.

(20 U.S.C. 1415(b)(1)(B).)

PROTECTION IN EVALUATION PROCEDURES

§ 121a.530 General.

(a) Each State educational agency shall insure that each public agency establishes and implements procedures which meet the requirements of §§ 121a.530–121a.534.

(b) Testing and evaluation materials and procedures used for the purposes of evaluation and placement of handicapped children must be selected and administered so as not to be racially or culturally discriminatory.

(20 U.S.C. 1412(5)(C).)

§ 121a.531 Preplacement evaluation.

Before any action is taken with respect to the initial placement of a handicapped child in a special education program, a full and individual evaluation of the child's educational needs must be conducted in accordance with the requirements of § 121a.532.

(20 U.S.C. 1412(5)(C).)

§ 121a.532 Evaluation procedures.

State and local educational agencies shall insure, at a minimum, that:

(a) Tests and other evaluation materials:

(1) Are provided and administered in the child's native language or other mode of communication, unless it is clearly not feasible to do so;

(2) Have been validated for the specific purpose for which they are used; and

(3) Are administered by trained personnel in conformance with the instructions provided by their producer;

(b) Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient;

(c) Tests are selected and administered so as best to ensure that when a test is administered to a child with impaired sensory, manual, or speaking skills, the test results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills (except where those skills are the factors which the test purports to measure);

(d) No single procedure is used as the sole criterion for determining an appropriate educational program for a child; and

(e) The evaluation is made by a multidisciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of suspected disability.

(f) The child is assessed in all areas related to the suspected disability, including, where appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities.

(20 U.S.C. 1412(5)(C).)

Comment. Children who have a speech impairment as their primary handicap may not need a complete battery of assessments (e.g., psychological, physical, or adaptive behavior). However, a qualified speech-language pathologist would (1) evaluate each speech impaired child using procedures that are appropriate for the diagnosis and appraisal of speech and language disorders, and (2) where necessary, make referrals for additional assessments needed to make an appropriate placement decision.

§ 121a.533 Placement procedures.

(a) In interpreting evaluation data and in making placement decisions, each public agency shall:

(1) Draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior;

(2) Insure that information obtained from all of these sources is documented and carefully considered;

(3) Insure that the placement decision is made by a group of persons, including persons knowledgeable about the child, the meaning of the evaluation data, and the placement options; and

(4) Insure that the placement decision is made in conformity with the least restrictive environment rules in §§ 121a.550–121a.554.

(b) If a determination is made that a child is handicapped and needs special education and related services, an individualized education program must be developed for the child in accordance with §§ 121a.340–121a.349 of Subpart C.

(20 U.S.C. 1412(5)(C); 1414(a)(5).)

Comment. Paragraph (a)(1) includes a list of examples of sources that may be used by a public agency in making placement decisions. The agency would not have to use all the sources in every instance. The point of the requirement is to insure that more than one source is used in interpreting evaluation data and in making placement decisions. For example, while all of the named sources would have to be used for a child whose suspected disability is mental retardation, they would not be necessary for certain other handicapped children, such as a child who has a severe articulation disorder as his primary handicap. For such a child, the speech-language pathologist, in complying with the multisource requirement, might use (1) a standardized test of articulation, and (2) observation of the child's articulation behavior in conversational speech.

§ 121a.534 Reevaluation.

Each State and local educational agency shall insure:

(a) That each handicapped child's individualized education program is reviewed in accordance with §§ 121a.340–121a.349 of Subpart C, and

(b) That an evaluation of the child, based on procedures which meet the requirements under § 121a.532, is conducted every three years or more frequently if conditions warrant or if the child's parent or teacher requests an evaluation.

(20 U.S.C. 1412(5)(c).)

LEAST RESTRICTIVE ENVIRONMENT

§ 121a.550 General.

(a) Each State educational agency shall insure that each public agency establishes and implements procedures which meet the requirements of §§ 121a.550–121a.556.

(b) Each public agency shall insure:

(1) That to the maximum extent appropriate, handicapped children, including children in public or private institutions or other care facilities, are educated with children who are not handicapped, and

(2) That special classes, separate schooling or other removal of handicapped children from the regular educational environment occurs only when the nature or severity of the handicap is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

(20 U.S.C. 1412(5)(B); 1414(a)(1)(C)(iv).)

§ 121a.551 Continuum of alternative placements.

(a) Each public agency shall insure that a continuum of alternative placements is available to meet the needs of handicapped children for special education and related services.

(b) The continuum required under paragraph (a) of this section must:

(1) Include the alternative placements listed in the definition of special education under § 121a.13 of Subpart A (instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions), and

(2) Make provision for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with regular class placement.

(20 U.S.C. 1412(5)(B).)

§ 121a.552 Placements.

Each public agency shall insure that:

(a) Each handicapped child's educational placement:

(1) Is determined at least annually,

(2) Is based on his or her individualized education program, and

(3) Is as close as possible to the child's home;

(b) The various alternative placements included under § 121a.551 are available to the extent necessary to implement the individualized education program for each handicapped child;

(c) Unless a handicapped child's individualized education program requires some other arrangement, the child is educated in the school which he or she would attend if not handicapped; and

(d) In selecting the least restrictive environment, consideration is given to any potential harmful effect on the child or on the quality of services which he or she needs.

(20 U.S.C. 1412(5)(B).)

Comment. Section 121a.552 includes some of the main factors which must be considered in determining the extent to which a handicapped child can be educated with children who are not handicapped. The overriding rule in this section is that placement decisions must be made on an individual basis. The section also requires each agency to have various alternative placements available in order to insure that each handicapped child receives an education which is appropriate to his or her individual needs.

The analysis of the regulations for Section 504 of the Rehabilitation Act of 1973 (45 CFR Part 84—Appendix, Paragraph 24) includes several points regarding educational placements of handicapped children which are pertinent to this section:

1. With respect to determining proper placements, the analysis states: "* * * it should be stressed that, where a handicapped child is so disruptive in a regular classroom that the education of other students is significantly impaired, the needs of the handicapped child cannot be met in that environment. Therefore regular placement would not be appropriate to his or her needs * * *."

2. With respect to placing a handicapped child in an alternate setting, the analysis states that among the factors to be considered in placing a child is the need to place the child as close to home as possible. Recipients are required to take this factor into account in making placement decisions. The parent's right to challenge the placement of their child extends not only to placement in special classes or separate schools, but also to placement in a distant school, particularly in a residential program. An equally appropriate education program may exist closer to home; and this issue may be raised by the parent under the due process provisions of this subpart.

§ 121a.553 Nonacademic settings.

In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals, recess periods, and the services and activities set forth in § 121a.306 of Subpart C, each public agency shall insure that each handicapped child participates with nonhandicapped children in those services and activities to the maximum extent appropriate to the needs of that child.

(20 U.S.C. 1412(5)(B).)

Comment. Section 121a.553 is taken from a new requirement in the final regulations for Section 504 of the Rehabilitation Act of 1973. With respect to this requirement, the analysis of the Section 504 Regulations includes the following statement: "[A new paragraph] specifies that handicapped children must also be provided nonacademic services in as integrated a setting as possible. This requirement is especially important for children whose educational needs necessitate their being solely with other handicapped children during most of each day. To the maximum extent appropriate, children in residential settings are also to be provided

V42N163 AUG 23 77 UM

opportunities for participation with other children." (45 CFR Part 84—Appendix, Paragraph 24.)

§ 121a.554 Children in public or private institutions.

Each State educational agency shall make arrangements with public and private institutions (such as a memorandum of agreement or special implementation procedures) as may be necessary to insure that § 121a.550 is effectively implemented.

(20 U.S.C. 1412(5)(B).)

Comment. Under section 612(5)(B) of the statute, the requirement to educate handicapped children with nonhandicapped children also applies to children in public and private institutions or other care facilities. Each State educational agency must insure that each applicable agency and institution in the State implements this requirement. Regardless of other reasons for institutional placement, no child in an institution who is capable of education in a regular public school setting may be denied access to an education in that setting.

§ 121a.555 Technical assistance and training activities.

Each State educational agency shall carry out activities to insure that teachers and administrators in all public agencies:

(a) Are fully informed about their responsibilities for implementing § 121a.550, and

(b) Are provided with technical assistance and training necessary to assist them in this effort.

(20 U.S.C. 1412(5)(B).)

§ 121a.556 Monitoring activities.

(a) The State educational agency shall carry out activities to insure that § 121a.550 is implemented by each public agency.

(b) If there is evidence that a public agency makes placements that are inconsistent with § 121a.550 of this subpart, the State educational agency:

(1) Shall review the public agency's justification for its actions, and

(2) Shall assist in planning and implementing any necessary corrective action.

(20 U.S.C. 1412(5)(B).)

CONFIDENTIALITY OF INFORMATION

§ 121a.560 Definitions.

As used in this subpart:

"Destruction" means physical destruction or removal of personal identifiers from information so that the information is no longer personally identifiable.

"Education records" means the type of records covered under the definition of "education records" in Part 99 of this title (the regulations implementing the Family Educational Rights and Privacy Act of 1974).

"Participating agency" means any agency or institution which collects, maintains, or uses personally identifiable information, or from which information is obtained, under this part.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.561 Notice to parents.

(a) The State educational agency shall give notice which is adequate to fully inform parents about the requirements under § 121a.128 of Subpart B, including:

(1) A description of the extent to which the notice is given in the native languages of the various population groups in the State;

(2) A description of the children on whom personally identifiable information is maintained, the types of information sought, the methods the State intends to use in gathering the information (including the sources from whom information is gathered), and the uses to be made of the information;

(3) A summary of the policies and procedures which participating agencies must follow regarding storage, disclosure to third parties, retention, and destruction of personally identifiable information; and

(4) A description of all of the rights of parents and children regarding this information, including the rights under section 438 of the General Education Provisions Act and Part 99 of this title (the Family Educational Rights and Privacy Act of 1974, and implementing regulations).

(b) Before any major identification, location, or evaluation activity, the notice must be published or announced in newspapers or other media, or both, with circulation adequate to notify parents throughout the State of the activity.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.562 Access rights.

(a) Each participating agency shall permit parents to inspect and review any education records relating to their children which are collected, maintained, or used by the agency under this part. The agency shall comply with a request without unnecessary delay and before any meeting regarding an individualized education program or hearing relating to the identification, evaluation, or placement of the child, and in no case more than 45 days after the request has been made.

(b) The right to inspect and review education records under this section includes:

(1) The right to a response from the participating agency to reasonable requests for explanations and interpretations of the records;

(2) The right to request that the agency provide copies of the records containing the information if failure to provide those copies would effectively prevent the parent from exercising the right to inspect and review the records; and

(3) The right to have a representative of the parent inspect and review the records.

(c) An agency may presume that the parent has authority to inspect and review records relating to his or her child unless the agency has been advised that the parent does not have the authority under applicable State law governing such matters as guardianship, separation, and divorce.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.563 Record of access.

Each participating agency shall keep a record of parties obtaining access to education records collected, maintained, or used under this part (except access by parents and authorized employees of the participating agency), including the name of the party, the date access was given, and the purpose for which the party is authorized to use the records.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.564 Records on more than one child.

If any education record includes information on more than one child, the parents of those children shall have the right to inspect and review only the information relating to their child or to be informed of that specific information.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.565 List of types and locations of information.

Each participating agency shall provide parents on request a list of the types and locations of education records collected, maintained, or used by the agency.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.566 Fees.

(a) A participating education agency may charge a fee for copies of records which are made for parents under this part if the fee does not effectively prevent the parents from exercising their right to inspect and review those records.

(b) A participating agency may not charge a fee to search for or to retrieve information under this part.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.567 Amendment of records at parent's request.

(a) A parent who believes that information in education records collected, maintained, or used under this part is inaccurate or misleading or violates the privacy or other rights of the child, may request the participating agency which maintains the information to amend the information.

(b) The agency shall decide whether to amend the information in accordance with the request within a reasonable period of time of receipt of the request.

(c) If the agency decides to refuse to amend the information in accordance with the request it shall inform the parent of the refusal, and advise the parent of the right to a hearing under § 121a.568.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.568 Opportunity for a hearing.

The agency shall, on request, provide an opportunity for a hearing to challenge information in education records to insure that it is not inaccurate, misleading,

or otherwise in violation of the privacy or other rights of the child.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.569 Result of hearing.

(a) If, as a result of the hearing, the agency decides that the information is inaccurate, misleading or otherwise in violation of the privacy or other rights of the child, it shall amend the information accordingly and so inform the parent in writing.

(b) If, as a result of the hearing, the agency decides that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the child, it shall inform the parent of the right to place in the records it maintains on the child a statement commenting on the information or setting forth any reasons for disagreeing with the decision of the agency.

(c) Any explanation placed in the records of the child under this section must:

(1) Be maintained by the agency as part of the records of the child as long as the record or contested portion is maintained by the agency; and

(2) If the records of the child or the contested portion is disclosed by the agency to any party, the explanation must also be disclosed to the party.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.570 Hearing procedures.

A hearing held under § 121a.568 of this subpart must be conducted according to the procedures under § 99.22 of this title.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.571 Consent.

(a) Parental consent must be obtained before personally identifiable information is:

(1) Disclosed to anyone other than officials of participating agencies collecting or using the information under this part, subject to paragraph (b) of this section; or

(2) Used for any purpose other than meeting a requirement under this part.

(b) An educational agency or institution subject to Part 99 of this title may not release information from education records to participating agencies without parental consent unless authorized to do so under Part 99 of this title.

(c) The State educational agency shall include policies and procedures in its annual program plan which are used in the event that a parent refuses to provide consent under this section.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.572 Safeguards.

(a) Each participating agency shall protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages.

(b) One official at each participating agency shall assume responsibility for insuring the confidentiality of any personally identifiable information.

(c) All persons collecting or using personally identifiable information must receive training or instruction regarding the State's policies and procedures under § 121a.129 of Subpart B and Part 99 of this title.

(d) Each participating agency shall maintain, for public inspection, a current listing of the names and positions of those employees within the agency who may have access to personally identifiable information.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.573 Destruction of information.

(a) The public agency shall inform parents when personally identifiable information collected, maintained, or used under this part is no longer needed to provide educational services to the child.

(b) The information must be destroyed at the request of the parents. However, a permanent record of a student's name, address, and phone number, his or her grades, attendance record, classes attended, grade level completed, and year completed may be maintained without time limitation.

(20 U.S.C. 1412(2)(D); 1417(c).)

Comment. Under section 121a.573, the personally identifiable information on a handicapped child may be retained permanently unless the parents request that it be destroyed. Destruction of records is the best protection against improper and unauthorized disclosure. However, the records may be needed for other purposes. In informing parents about their rights under this section, the agency should remind them that the records may be needed by the child or the parents for social security benefits or other purposes. If the parents request that the information be destroyed, the agency may retain the information in pargraph (b).

§ 121a.574 Children's rights.

The State educational agency shall include policies and procedures in its annual program plan regarding the extent to which children are afforded rights of privacy similar to those afforded to parents, taking into consideration the age of the child and type or severity of disability.

(20 U.S.C. 1412(2)(D); 1417(c).)

Comment. Note that under the regulations for the Family Educational Rights and Privacy Act (45 CFR 99.4(a)), the rights of parents regarding education records are transferred to the student at age 18

§ 121a.575 Enforcement.

The State educational agency shall describe in its annual program plan the policies and procedures, including sanctions, which the State uses to insure that its policies and procedures are followed and that the requirements of the Act and the regulations in this part are met.

(20 U.S.C. 1412(2)(D); 1417(c).)

§ 121a.576 Office of Education.

If the Office of Education or its authorized representatives collect any personally identifiable information regarding handicapped children which is not subject to 5 U.S.C. 552a (The Privacy Act of 1974), the Commissioner shall apply the requirements of 5 U.S.C. section 552a(b)(1)–(2), (4)–(11); (c); (d); (e)(1), (2), (3)(A), (B), and (D), (5)–(10); (h); (m); and (n), and the regulations implementing those provisions in Part 5b of this title.

(20 U.S.C. 1412(2)(D); 1417(c).)

OFFICE OF EDUCATION PROCEDURES

§ 121a.580 Opportunity for a hearing.

The Commissioner gives a State educational agency reasonable notice and an opportunity for a hearing before taking any of the following actions:

(a) Disapproval of a State's annual program plan under § 121a.113 of Subpart B.

(b) Withholding payments from a State under § 121a.590 or under section 434(c) of the General Education Provisions Act.

(c) Waiving the requirement under § 121a.589 of this subpart regarding supplementing and supplanting with funds provided under Part B of the Act.

(20 U.S.C. 1232c(c); 1413(a)(9)(B); 1413(c); 1416.)

§ 121a.581 Hearing panel.

The Commissioner appoints a Hearing Panel consisting of not less than three persons to conduct any hearing under § 121a.530 of this subpart.

(20 U.S.C. 1232c(c); 1413(a)(9)(B); 1413(c); 1416.)

§ 121a.582 Hearing procedures.

(a)(1) If the Hearing Panel determines that oral testimony would not materially assist the resolution of disputed facts, the Panel shall give each party an opportunity for presenting the case:

(i) In whole or in part in writing, or

(ii) In an informal conference before the Hearing Panel.

(2) The Hearing Panel shall give each party:

(i) Notice of the issues to be considered (if this notice has not already been given); and

(ii) An opportunity to be represented by counsel.

(b) If the Hearing Panel determines that oral testimony would materially assist the resolution of disputed facts, the Panel shall give each party, in addition to the requirements under paragraph (a)(2) of this section:

(1) An opportunity to obtain a record of the proceedings;

(2) An opportunity to present witnesses on the party's behalf; and

(3) An opportunity to cross-examine witnesses either orally or with written questions.

(20 U.S.C. 1232c(c); 1413(a)(9)(B); 1413(c); 1416.)

§ 121a.583 Initial decision; final decision.

(a) The Hearing Panel shall prepare an initial written decision which includes findings of fact and the conclusions based on those facts.

(b) The Hearing Panel shall mail a copy of the initial decision to each party (or to the party's counsel) and to the Commissioner, with a notice that each

V 42 163 AUG 23 77 UM

party has an opportunity to submit written comments regarding the decision to the Commissioner within a specified reasonable time.

(c) The initial decision of the Hearing Panel is the final decision of the Commissioner unless, within 25 days after the end of the time for receipt of written comments, the Commissioner informs the Panel in writing that the decision is being reviewed.

(d) Review by the Commissioner is based on the decision, the written record, if any, of the Hearing Panel's proceedings, and written comments or oral arguments by the parties.

(e) No decision under this section becomes final until it is served on the State educational agency or its attorney.

(20 U.S.C. 1232c(c); 1413(a)(9)(b); 1413(c); 1416.)

§ 121a.589 Waiver of requirement regarding supplementing and supplanting with Part B funds.

(a) Under sections 613(a)(9)(B) and 614(a)(2)(B)(ii) of the Act, State and local Educational agencies must insure that Federal funds provided under Part B of the Act are used to supplement the level of State and local funds expended for the education of handicapped children, and in no case to supplant those State and local funds. Beginning with funds appropriated for fiscal year 1979 and for each following fiscal year, the nonsupplanting requirement only applies to funds allocated to local educational agencies. (See § 121a.372.)

(b) If the State provides clear and convincing evidence that all handicapped children have available to them a free appropriate public education, the Commissioner may waive in part the requirement under sections 613(a)(9)(B) and 614(a)(2)(B)(ii) of the Act if the Commissioner concurs with the evidence provided by the State.

(c) If a State wishes to request a waiver, it must inform the Commissioner in writing. The Commissioner then provides the State with a finance and membership report form which provides the basis for the request.

(d) In its request for a waiver, the State shall include the results of a special study made by the State to obtain evidence of the availability of a free appropriate public education to all handicapped children. The special study must include statements by a representative sample of organizations which deal with handicapped children, and parents and teachers of handicapped children, relating to the following areas:

(1) The adequacy and comprehensiveness of the State's system for locating, identifying, and evaluating handicapped children, and

(2) The cost to parents, if any, for education for children enrolled in public and private day schools, and in public and private residential schools and institutions, and

(3) The adequacy of the State's due process procedures.

(e) In its request for a waiver, the State shall include finance data relating to the availability of a free appropriate public education for all handicapped children, including:

(1) The total current expenditures for regular education programs and special education programs by function and by source of funds (State, local, and Federal) for the previous school year, and

(2) The full-time equivalent membership of students enrolled in regular programs and in special programs in the previous school year. .

(f) The Commissioner considers the information which the State provides under paragraph (d) and (e) of this section, along with any additional information he may request, or obtain through on-site reviews of the State's education programs and records, to determine if all children have available to them a free appropriate public education, and if so, the extent of the waiver.

(g) The State may request a hearing under §§ 121a.580–121a.583 with regard to any final action by the Commissioner under this section.

(20 U.S.C. 1411(c)(3); 1413(a)(9)(B).)

§ 121a.590 Withholding payments.

(a) The Commissioner may make the following findings only after reasonable notice and an opportunity for a hearing under §§ 121a.580–121a.583 to the State educational agency involved (and to any local educational agency affected by any failure described in paragraph (a)(2) of this section):

(1) That there has been a failure to comply substantially with the provisions of section 612 and 613 of the Act, or

(2) That in the administration of the annual program plan there is a failure to comply with any provision of this part or with any requirement in the application of a local educational agency approved by the State educational agency under the annual program plan.

(b) After making either of the findings in paragraph (a) of this section, the Commissioner:

(1) Shall, after notifying the State educational agency, withhold any further payments to the State under this part, and

(2) May, after notifying the State educational agency, withhold further payments to the State under the Federal programs referred to in § 121a.139 of Subpart B which are within his jurisdiction, to the extent that funds under those programs are available for the provision of assistance for the education of handicapped children.

(c) If the Commissioner withholds payments under paragraph (b) of this section he may determine:

(1) That withholding is limited to programs or projects under the annual program plan, or portions of it, affected by the failure, or

(2) That the State educational agency must not make further payments under Part B of the Act to specified local educational agencies affected by the failure.

(20 U.S.C. 1416(a).)

§ 121a.591 Reinstating payments.

Until the Commissioner is satisfied that there is no longer any failure to comply with the provisions of this part, as specified in § 121a.590(a):

(a) No further payments shall be made to the State under this part or under the Federal programs specified in section 613(a)(2) of the Act which are within his jurisdiction to the extent that funds under those programs are available for the provision of assistance for the education of handicapped children, or

(b) Payments by the State educational agency under this part shall be limited to local educational agencies whose actions did not cause or were not involved in the failure.

(20 U.S.C. 1416(a).)

§ 121a.592 Public notice by State and local educational agencies.

Any State educational agency and local educational agency which receives a notice under § 121a.590(a) shall by means of a public notice, take any necessary measures to inform the public within the agency's jurisdiction of the pendency of the action.

(20 U.S.C. 1416(a).)

§ 121a.593 Judicial review of Commissioner's final action on annual program plan.

If any State is dissatisfied with the Commissioner's final action with respect to its annual program plan submitted under Subpart B, the State may under section 616(b) of the Act, within sixty days after notice of the action, file a petition for review of that action with the United States Court of Appeals for the circuit in which the State is located.

(20 U.S.C. 1416(b).)

Subpart F—State Administration

State Educational Agency Responsibilities: General

§ 121a.600 Responsibility for all educational programs.

(a) The State educational agency is responsible for insuring:

(1) That the requirements of this part are carried out; and

(2) That each educational program for handicapped children administered within the State, including each program administered by any other public agency:

(i) Is under the general supervision of the persons responsible for educational programs for handicapped children in the State educational agency, and

(ii) Meets education standards of the State educational agency (including the requirements of this part).

(b) The State must comply with paragraph (a) of this section through State statute, State regulation, signed agreement between respective agency officials, or other documents.

(20 U.S.C. 1412(6).)

Comment. The requirement in § 121a.600(a) is taken essentially verbatim from section 612(6) of the statute and reflects the desire of the Congress for a central point of responsibility and accountability in the education of handicapped children within each State. With respect to State educational agency responsibility, the Senate Report on P.L. 94-142 includes the following statements:

This provision is included specifically to assure a single line of responsibility with regard to the education of handicapped children, and to assure that in the implementation of all provisions of this Act and in carrying out the right to education for handicapped children, the State educational agency shall be the responsible agency * * *.

Without this requirement, there is an abdication of responsibility for the education of handicapped children. Presently, in many States, responsibility is divided, depending upon the age of the handicapped child, sources of funding, and type of services delivered. While the Committee understands that different agencies may, in fact, deliver services, the responsibility must remain in a central agency overseeing the education of handicapped children, so that failure to deliver services or the violation of the rights of handicapped children is squarely the responsibility of one agency. (Senate Report No. 94-168, p. 24 (1975))

In meeting the requirements of this section, there are a number of acceptable options which may be adopted, including the following:

(1) Written agreements are developed between respective State agencies concerning State educational agency standards and monitoring. These agreements are binding on the local or regional counterparts of each State agency.

(2) The Governor's Office issues an administrative directive establishing the State educational agency responsibility.

(3) State law, regulation, or policy designates the State educational agency as responsible for establishing standards for all educational programs for the handicapped, and includes responsibility for monitoring.

(4) State law mandates that the State educational agency is responsible for all educational programs.

§ 121a.601 Monitoring and evaluation activities.

Each State educational agency shall:

(a) Undertake monitoring and evaluation activities to insure compliance of all public agencies within the State with the requirements of Subparts C, D, and E.

(b) Develop procedures (including specific timelines) for monitoring and evaluating public agencies involved in that education of handicapped children. These procedures must include:

(1) Collection of data and reports;

(2) Conduct of on-site visits;

(3) Audit of Federal fund utilization; and

(4) Comparison of a sampling of individualized education programs with the programs actually provided.

(20 U.S.C. 1412(6); 1413(a)(11).)

Comment: In carrying out the requirements of paragraph (b) of this section, State educational agencies could include additional procedures, such as involving parents or representatives of parent organizations in on-site visits and other monitoring activities.

§ 121a.602 Adoption of complaint procedures.

(a) Each State educational agency shall adopt effective procedures for reviewing, investigating, and acting on any allegations of substance, which may be made by public agencies, or private individuals, or organizations, of actions taken by any public agency that are contrary to the requirements of this part.

(b) In carrying out the requirements in paragraph (a) of this section, the State educational agency shall:

(1) Designate specific individuals within the agency who are responsible for implementing the requirements;

(2) Provide for negotiations, technical assistance activities, and other remedial action to achieve compliance; and

(3) Provide for the use of sanctions, including the withholding of Part B funds in accordance with § 121a.194

(20 U.S.C. 1412(6).)

Use of Funds

§ 121a.620 Federal funds for State administration.

A State may use five per cent of the total State allotment in any fiscal year under Part B of the Act, or $200,000, whichever is greater, for administrative costs related to carrying out sections 612 and 613 of the Act. However, this amount cannot be greater than the amount which the State may use under § 121a.704 or § 121a.705, as the case may be.

(20 U.S.C. 1411(b), (c).)

§ 121a.621 Allowable costs.

(a) The State educational agency may use funds under § 121a.620 of this Subpart for:

(1) Administration of the annual program plan and for planning at the State level, including planning, or assisting in the planning, of programs or projects for the education of handicapped children;

(2) Approval, supervision, monitoring, and evaluation of the effectiveness of local programs and projects for the education of handicapped children;

(3) Technical assistance to local educational agencies with respect to the requirements of this part;

(4) Leadership services for the program supervision and management of special education activities for handicapped children; and

(5) Other State leadership activities and consultative services.

(b) The State educational agency shall use the remainder of its funds under § 121a.620 in accordance with § 121a.370 of Subpart C.

(20 U.S.C. 1411(b), (c).)

State Advisory Panel

§ 121a.650 Establishment.

(a) Each State shall establish, in accordance with the provisions of this subpart, a State advisory panel on the education of handicapped children.

(b) The advisory panel must be appointed by the Governor or any other official authorized under State law to make those appointments.

(c) If a State has an existing advisory panel that can perform the functions in § 121a.652, the State may modify the existing panel so that it fulfills all of the requirements of this subpart, instead of establishing a new advisory panel.

(20 U.S.C. 1413(a)(12).)

§ 121a.651 Membership.

(a) The membership of the State advisory panel must be composed of persons involved in or concerned with the education of handicapped children. The membership must include at least one person representative of each of the following groups:

(1) Handicapped individuals.

(2) Teachers of handicapped children.

(3) Parents of handicapped children.

(4) State and local educational officials.

(5) Special education program administrators.

(b) The State may expand the advisory panel to include additional persons in the groups listed in paragraph (a) of this section and representatives of other groups not listed.

(20 U.S.C. 1413(a)(12).)

Comment. The membership of the State advisory panel, as listed in paragraphs (a)(1)–(5), is required in section 613(a)(12) of the Act. As indicated in paragraph (b), the composition of the panel and the number of members may be expanded at the discretion of the State. In adding to the membership, consideration could be given to having:

(1) An appropriate balance between professional groups and consumers (i.e., parents, advocates, and handicapped individuals);

(2) Broad representation within the consumer-advocate groups, to insure that the interests and points of view of various parents, advocates and handicapped individuals are appropriately represented;

(3) Broad representation within professional groups (e.g., (a) regular education personnel, (b) special educators, including teachers, teacher trainers, and administrators, who can properly represent various dimensions in the education of handicapped children, and (c) appropriate related services personnel); and

(4) Representatives from other State advisory panels (such as vocational education).

If a State elects to maintain a small advisory panel (e.g., 10–15 members), the panel itself could take steps to insure that it (1) consults with and receives inputs from various consumer and special interest professional groups, and (2) establishes committees for particular short-term purposes composed of representatives from those input groups.

§ 121a.652 Advisory panel functions.

The State advisory panel shall:

(a) Advise the State educational agency of unmet needs within the State in the education of handicapped children;

(b) Comment publicly on the State annual program plan and rules or regulations proposed for issuance by the

V 42 N 163 AUG 23 77 UM

State regarding the education of handicapped children and the procedures for distribution of funds under this part; and

(c) Assist the State in developing and reporting such information and evaluations as may assist the Commissioner in the performance of his responsibilities under section 618.

(20 U.S.C. 1413(a)(12).)

§ 121a.653 Advisory panel procedures.

(a) The advisory panel shall meet as often as necessary to conduct its business.

(b) By July 1 of each year, the advisory panel shall submit an annual report of panel activities and suggestions to the State educational agency. This report must be made available to the public in a manner consistent with other public reporting requirements under this part.

(c) Official minutes must be kept on all panel meetings and shall be made available to the public on request.

(d) All advisory panel meetings and agenda items must be publicly announced prior to the meeting, and meetings must be open to the public.

(e) Interpreters and other necessary services must be provided at panel meetings for panel members or participants. The State may pay for these services from funds under § 121a.620.

(f) The advisory panel shall serve without compensation but the State must reimburse the panel for reasonable and necessary expenses for attending meetings and performing duties. The State may use funds under § 121a.620 for this purpose.

(20 U.S.C. 1413(a)(12).)

Subpart G—Allocation of Funds; Reports

ALLOCATIONS

§ 121a.700 Special definition of the term State.

For the purposes of § 121a.701, § 121a.702, and §§ 121a.704–121a.708, the term "State" does not include Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(20 U.S.C. 1411(a)(2).)

§ 121a.701 State entitlement; formula.

(a) The maximum amount of the grant to which a State is entitled under section 611 of the Act in any fiscal year is equal to the number of handicapped children aged three through 21 in the State who are receiving special education and related services, multiplied by the applicable percentage, under paragraph (b) of this section, of the average per pupil expenditure in public elementary and secondary schools in the United States.

(b) For the purposes of the formula in paragraph (a) of this section, the applicable percentage of the average per pupil expenditure in public elementary and secondary schools in the United States for each fiscal year is:

(1) 1978—5 percent,
(2) 1979—10 percent,
(3) 1980—20 percent,
(4) 1981—30 percent, and
(5) 1982, and for each fiscal year after 1982, 40 percent.

(20 U.S.C. 1411(a)(1).)

(c) For the purposes of this section, the average per pupil expenditure in public elementary and secondary schools in the United States, means the aggregate expenditures during the second fiscal year preceding the fiscal year for which the computation is made (or if satisfactory data for that year are not available at the time of computation, then during the most recent preceding fiscal year for which satisfactory data are available) of all local educational agencies in the United States (which, for the purpose of this section, means the fifty States and the District of Columbia), plus any direct expenditures by the State for operation of those agencies (without regard to the source of funds from which either of those expenditures are made), divided by the aggregate number of children in average daily attendance to whom those agencies provided free public education during that preceding year.

(20 U.S.C. 1411(a)(4).)

§ 121a.702 Limitations and exclusions.

(a) In determining the amount of a grant under § 121a.701 of this subpart, the Commissioner may not count:

(1) Handicapped children in a State to the extent that the number of those children is greater than 12 percent of the number of all children aged five through 17 in the State;

(2) Children with specific learning disabilities to the extent that the number of those children is greater than two percent of the number of all children aged five through 17 in the State; and

(3) Handicapped children who are counted under section 121 of the Elementary and Secondary Education Act of 1965.

(b) For the purposes of paragraph (a) of this section, the number of children aged five through 17 in any State shall be determined by the Commissioner on the basis of the most recent satisfactory data available to him.

(20 U.S.C. 1411(a)(5).)

§ 121a.703 Ratable reductions.

(a) *General.* If the sums appropriated for any fiscal year for making payments to States under section 611 of the Act are not sufficient to pay in full the total amounts to which all States are entitled to receive for that fiscal year, the maximum amount which all States are entitled to receive for that fiscal year shall be ratably reduced. In case additional funds become available for making payments for any fiscal year during which the preceding sentence is applicable, those reduced amounts shall be increased on the same basis they were reduced.

(20 U.S.C. 1411(g)(1).)

(b) *Reporting dates for local educational agencies and reallocations.* (1) In any fiscal year in which the State entitlements have been ratably reduced, and in which additional funds have not been made available to pay in full the total of the amounts under paragraph (a) of this section, the State educational agency shall fix dates before which each local educational agency shall report to the State the amount of funds available to it under this part which it estimates it will expend.

(2) The amounts available under paragraph (a)(1) of this section, or any amount which would be available to any other local educational agency if it were to submit an application meeting the requirements of this part, which the State educational agency determines will not be used for the period of its availability, shall be available for allocation to those local educational agencies, in the manner provided in §121a.707, which the State educational agency determines will need and be able to use additional funds to carry out approved programs.

(20 U.S.C. 1411(g)(2).)

§ 121a.704 Hold harmless provision.

No State shall receive less than the amount it received under Part B of the Act for fiscal year 1977.

(20 U.S.C. 1411(a)(1).)

§ 121a.705 Within-State distribution: fiscal year 1978.

Of the funds received under § 121a.701 of this subpart by any State for fiscal year 1978:

(a) 50 percent may be used by the State in accordance with the provisions of § 121a.620 of Subpart F and § 121a.370 of Subpart C, and

(b) 50 percent shall be distributed to local educational agencies in the State in accordance with § 121a.707.

(20 U.S.C. 1411(b)(1).)

§ 121a.706 Within-State distribution: fiscal year 1979 and after.

Of the funds received under § 121a.701 by any State for fiscal year 1979, and for each fiscal year after fiscal year 1979:

(a) 25 percent may be used by the State in accordance with § 121a.620 of Subpart F and § 121a.370 of Subpart C, and

(b) 75 percent shall be distributed to the local educational agencies in the State in accordance with § 121a.707.

(20 U.S.C. 1411(c)(1).)

§ 121a.707 Local educational agency entitlements; formula.

From the total amount of funds available to all local educational agencies, each local educational agency is entitled to an amount which bears the same ratio to the total amount as the number of handicapped children aged three through 21 in that agency who are receiving special education and related services bears to the aggregate number of handicapped children aged three through 21 receiving special education and related services in all local educational agencies which apply to the State educational agency for funds under Part B of the Act.

(20 U.S.C. 1411(d).)

§ 121a.708 Reallocation of local educational agency funds.

If a State educational agency determines that a local educational agency is adequately providing a free appropriate public education to all handicapped children residing in the area served by the local agency with State and local funds otherwise available to the local agency, the State educational agency may reallocate funds (or portions of those funds which are not required to provide special education and related services) made available to the local agency under § 121a.707, to other local educational agencies within the State which are not adequately providing special education and related services to all handicapped children residing in the areas served by the other local educational agencies.

(20 U.S.C. 1414(e).)

§ 121a.709 Payments to Secretary of Interior.

(a) The Commissioner is authorized to make payments to the Secretary of the Interior according to the need for that assistance for the education of handicapped children on reservations serviced by elementary and secondary schools operated for Indian children by the Department of the Interior.

(b) The amount of those payments for any fiscal year shall not exceed one percent of the aggregate amounts available to all States for that fiscal year under Part B of the Act.

(20 U.S.C. 1411(f)(1).)

§ 121a.710 Entitlements to jurisdictions.

(a) The jurisdictions to which this section applies are Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(b) Each jurisdiction under paragraph (a) of this section is entitled to a grant for the purposes set forth in section 601 (c) of the Act. The amount to which those jurisdictions are so entitled for any fiscal year shall not exceed an amount equal to 1 percent of the aggregate of the amounts available to all States under this part for that fiscal year. Funds appropriated for those jurisdictions shall be allocated proportionately among them on the basis of the number of children aged three through twenty-one in each jurisdiction. However, no jurisdiction shall receive less than $150,000, and other allocations shall be ratably reduced if necessary to insure that each jurisdiction receives at least that amount.

(c) The amount expended for administration by each jurisdiction under this section shall not exceed 5 percent of the amount allotted to the jurisdiction for any fiscal year, or $35,000, whichever is greater.

(20 U.S.C. 1411(e).)

REPORTS

§ 121a.750 Annual report of children served—report requirement.

(a) The State educational agency shall report to the Commissioner no later than April 1 of each year the number of handicapped children aged three through 21 residing in the State who are receiving special education and related services.

(b) The State educational agency shall submit the report on forms provided by the Commissioner.

(20 U.S.C. 1411(a)(3).)

Comment. It is very important to understand that this report and the requirements that relate to it are solely for allocation purposes. The population of children the State may count for allocation purposes may differ from the population of children to whom the State must make available a free appropriate public education. For example, while section 611(a)(5) of the Act limits the number of children who may be counted for allocation purposes to 12 percent of the general school population aged five through seventeen, a State might find that 14 percent (or some other percentage) of its children are handicapped. In that case, the State must make free appropriate public education available to all of those handicapped children.

§ 121a.751 Annual report of children served—information required in the report.

(a) In its report, the State educational agency shall include a table which shows:

(1) The number of handicapped children receiving special education and related services on October 1 and on February 1 of that school year, and the average of the numbers for those two dates;

(2) The number of those handicapped children within each disability category, as defined in the definition of "handicapped children" in § 121a.5 of Subpart A; and

(3) The number of those handicapped children within each of the following age groups:

(i) Three through five;
(ii) Six through seventeen; and
(iii) Eighteen through twenty-one.

(b) A child must be counted as being in the age group corresponding to his or her age on the date of the count: October 1 or February 1, as the case may be.

(c) The State educational agency may not report a child under more than one disability category.

(d) If a handicapped child has more than one disability, the State educational agency shall report that child in accordance with the following procedure:

(1) A child who is both deaf and blind must be reported as "deaf-blind."

(2) A child who has more than one disability (other than a deaf-blind child) must be reported as "multihandicapped."

(20 U.S.C. 1411(a)(3); 1411(a)(5)(A)(ii); 1418(b).)

§ 121a.752 Annual report of children served—certification.

The State educational agency shall include in its report a certification signed by an authorized official of the agency that the information provided is an accurate and unduplicated count of handicapped children receiving special education and related services on the dates in question.

(20 U.S.C. 1411(a)(3); 1417(b).)

§ 121a.753 Annual report of children served—criteria for counting children.

(a) The State educational agency may include handicapped children in its report who are enrolled in a school or program which is operated or supported by a public agency, and which either:

(1) Provides them with both special education and related services; or

(2) Provides them only with special education if they do not need related services to assist them in benefitting from that special education.

(b) The State educational agency may not include handicapped children in its report who:

(1) Are not enrolled in a school or program operated or supported by a public agency;

(2) Are not provided special education that meets State standards;

(3) Are not provided with a related service that they need to assist them in benefitting from special education;

(4) Are counted by a State agency under section 121 of the Elementary and Secondary Education Act of 1965, as amended; or

(5) Are receiving special education funded solely by the Federal Government. However, the State may count children covered under § 121a. 186(b) of Subpart B.

(20 U.S.C. 1411(a)(3); 1417(b).)

Comment. 1. Under paragraph (a), the State may count handicapped children in a Head Start or other preschool program operated or supported by a public agency if those children are provided special education that meets State standards.

2. "Special education," by statutory definition, must be at no cost to parents. As of September 1, 1978, under the free appropriate public education requirement, both special education and related services must be at no cost to parents.

There may be some situations, however, where a child receives special education from a public source at no cost, but whose parents pay for the basic or regular education. This child may be counted. The Office of Education expects that there would only be limited situations where special education would be clearly separate from regular education—generally, where speech therapy is the only special education required by the child. For example, the child might be in a regular program in a parochial or other private school but receiving speech therapy in a program funded by the local educational agency. Allowing these children to be counted will provide incentives (in addition to complying with the legal requirement in section 613(a)(4)(A) of the Act regarding private schools) to public agencies to provide services to children in private schools, since funds are generated in part on the basis of the number of children provided special education and related services. Agencies should understand, however, that where a handicapped child is placed in or referred to a public or private school for educational purposes, special education includes the entire educational program provided to the child. In that case, parents may not be charged for any part of the child's education.

A State may not count Indian children on or near reservations and children on military facilities if it provides them no special

V 42163 AUG 23 77 UMI

education. If a State or local educational agency is responsible for serving these children, and does provide them special education and related services, they may be counted.

§ 121a.754 Annual report of children served—other responsibilities of the State educational agency.

In addition to meeting the other requirements in this subpart, the State educational agency shall:

(a) Establish procedures to be used by local educational agencies and other educational institutions in counting the number of handicapped children receiving special education and related services;

(b) Set dates by which those agencies and institutions must report to the State educational agency to insure that the State complies with § 121a.750(a);

(c) Obtain certification from each agency and institution that an unduplicated and accurate count has been made;

(d) Aggregate the data from the count obtained from each agency and institution, and prepare the reports required under this subpart; and

(e) Insure that documentation is maintained which enables the State and the Commissioner to audit the accuracy of the count.

(20 U.S.C. 1411(a)(3); 1417(b).)

Comment. States should note that the data required in the annual report of children served are not to be transmitted to the Commissioner in personally identifiable form. States are encouraged to collect these data in non-personally identifiable form.

APPENDIX A—ANALYSIS OF FINAL REGULATION (45 CFR PART 121a) UNDER PART B OF THE EDUCATION OF THE HANDICAPPED ACT

These regulations set forth requirements to be followed by States and localities if they are to receive funds under Part B of the Education of the Handicapped Act. The regulations cover matters such as the identification, location, and evaluation of handicapped children; the provision of free appropriate public education; the establishment of a full educational opportunity goal; the count of handicapped children for allocation purposes; priorities in the use of Part B funds; the proper use of Part B funds; the development of an individualized education program; the creation of a comprehensive personnel development system; procedural safeguards (e.g. right to notice and conduct of hearings); methods to guarantee public participation; and details about State annual program plans and local educational agency applications.

RELATIONSHIP BETWEEN REGULATIONS UNDER PART B AND REGULATIONS UNDER SECTION 504

The regulations under section 504 of the Rehabilitation Act of 1973 (45 CFR Part 84; published at 42 FR 22675; May 4, 1977) deal with nondiscrimination on the basis of handicap and basically require that recipients of Federal funds provide equal opportunities to handicapped persons (for example, that they meet the needs of handicapped persons to the same extent that the needs of nonhandicapped persons are met). Subpart D of the section 504 regulations ("Preschool, Elementary, and Secondary Education") contains requirements very similar to those in Part B of the Education of the Handicapped Act.

Basically, both require that handicapped persons be provided a free appropriate public education; that handicapped students be educated with nonhandicapped students to the extent appropriate; that educational agencies identify and locate all unserved handicapped children; that evaluation procedures be adopted to insure appropriate classification and educational services; and that procedural safeguards be established.

In several respects, however, the section 504 regulations are broader in coverage than Part B. For example, the definition of "handicapped person" and "qualified handicapped person" under section 504 covers a broader population than the definition of "handicapped children" under Part B. Under the Part B definition, a handicapped child is a child who has one of the impairments listed in the Act, who because of that impairment requires special education and related services. Under section 504, a handicapped person is a person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of that type of impairment, or is regarded as having that impairment (§ 84.3(j)).

The regulations for section 504 also deal with a number of subjects not covered by the Part B regulations (for example, barrier-free facilities and program accessibility; employment; postsecondary education and health, welfare and social services). On the other side, Part B contains a substantial number of administrative requirements not included under section 504 (for example, annual program plans and local applications) and requires more detailed procedures and policies in many instances (such as due process procedures).

In several instances, the section 504 regulations specifically reference where a requirement may be met by complying with a requirement under Part B. For example, § 84.33(b)(2), dealing with appropriate education, cites implementation of an individualized education program as one means of meeting the requirement. Section 84.33(d) has a September 1, 1978 outside date for providing an appropriate education to qualified handicapped persons (conforming to the timelines in Part B). Section 84.35(d) indicates that a reevaluation procedure consistent with the Part B requirements is one means of meeting the reevaluation requirements under section 504. Section 84.36, dealing with due process requirements, indicates that compliance with the procedural safeguards in Part B is one means of meeting those requirements.

It should be noted that the term "free appropriate public education" (FAPE) has different meanings under Part B and section 504. For example, under Part B, "FAPE" is a statutory term which requires special education and related services to be provided in accordance with an individualized education program. However, under section 504, each recipient must provide an education which includes "the provision of regular or special education and related aids and services that (i) are designed to meet individual educational needs of handicapped persons as adequately as the needs of nonhandicapped persons are met * * *"

There is also a major difference between Part B and the section 504 regulations concerning the matter of exclusion of handicapped children from school. As of the effective date of the section 504 regulations (June 3, 1977), exclusion of handicapped children from school constitutes a violation of those requirements. However, under Part B, States are not required to serve all handicapped children aged 3–18 until September 1, 1978. As stated in Appendix A of the section 504 regulations:

The EHA requires a free appropriate education to be provided to handicapped children "no later than September 1, 1978," but section 504 contains no authority for delaying enforcement. To resolve this problem, a new paragraph (d) has been added to § 84.33. Section 84.33(d) requires recipients to achieve full compliance with the free appropriate public education requirements of § 84.33 as expeditiously as possible, but in no event later than September 1, 1978. The provision also makes clear that, as of the effective date of this regulation, no recipient may exclude a qualified handicapped child from its educational program. This provision against exclusion is consistent with the order of providing services set forth in section 612(3) of the EHA, which places the highest priority on providing services to handicapped children who are not receiving an education.

PART 121a—ASSISTANCE TO STATES FOR EDUCATION OF HANDICAPPED CHILDREN

SUBPART A—GENERAL

Subpart A sets forth the purposes and applicability of these regulations and includes definitions of statutory terms (e.g. free appropriate public education, special education, and related services) and other definitions related to those terms.

The following comments were received regarding Subpart A.

APPLICABILITY OF REGULATIONS TO STATE, LOCAL AND PRIVATE AGENCIES (§ 121a.2)

Comment: A commenter felt that the statement regarding the applicability of the regulations was not clear, and should be revised to indicate that the requirements apply to any public agency serving handicapped children, even if the agency does not receive Part B funds.

Response: A definition of "public agency" has been added to the regulations. The definition includes all political subdivisions in the State that are responsible for educating handicapped children. Throughout the regulation, the term "public agency" has been used to make it clear where the requirements do not apply only to State and local educational agencies. In addition, an explanatory comment was added after section 121a.2 to make it clear that the requirements under Part B are binding on each public agency in the State that has direct or delegated authority for the education of handicapped children, regardless of whether that agency receives Part B funds.

DEFINITIONS (§§ 121a.4–121a.15)

Comment: Hundreds of comments were received regarding definitions in the proposed rules. Commenters requested that new definitions be added, or sought changes in existing definitions, especially definitions of various disability categories and the various types of related services. In many instances, revisions were sought to conform to the most recent definitions adopted or used by professional associations.

Response: Definitions of terms used in the regulations are taken from various statutes, Congressional reports, or materials provided by professional associations and other groups. Where appropriate, the Office of Education has attempted to incorporate changes recommended by commenters, and has made other changes to clarify the definitions. In addition, the following new terms were added:

Definitions of "deaf-blind" and "multi-handicapped" were added because these are recognized categories of handicapped children in most States.

A definition of "qualified" was added in order to be able to use a consistent term in

referring to the qualifications of the various personnel.

The definition of "handicapped children" has been modified only by making certain clarifying changes. Although some commenters requested additional changes in the definitions of the various disability categories, it is felt that the definitions in this regulation must closely conform to current usage in the States and professions.

The related services definition was expanded to include "school health services." In addition, changes were made in the definitions of the individual terms included under "related services" (e.g., psychological services and recreation) to conform to recommendations of professional associations.

SUBPART B—STATE ANNUAL PROGRAM PLANS AND LOCAL APPLICATIONS

Subpart B includes the requirements relating to State annual program plans, local educational agency applications, participation by the Bureau of Indian Affairs, and public participation.

Two new sections (sections 121a.150 and 121a.239) have been added to require assurances from the State educational agencies and local educational agencies that the program under Part B will be operated in compliance with the section 504 regulations, including the requirements under section 606 of the Education of the Handicapped Act regarding employment of qualified handicapped individuals in programs assisted under the Act. (The Office for Civil Rights has been delegated authority for enforcing section 606.)

A substantial number of commenters were concerned with the following major issues in this subpart: (1) the amount of data required of State and local educational agencies; (2) the excess costs, nonsupplanting and comparability requirements; and (3) the public participation requirements. In addition, as with other subparts, many commenters objected to statutory requirements and sought interpretations of the statute and regulations.

ANNUAL PROGRAM PLANS

CONDITION OF ASSISTANCE (§ 121a.110)

Section 434(b) of the General Education Provisions Act (GEPA), as amended by Pub. L. 93–380, requires each State to submit (1) a general application containing five assurances, and (2) an annual program plan for each Office of Education program under which funds are provided to local educational agencies through, or under the supervision of, the State educational agency. Under Section 434(b), and the implementing regulations (45 CFR 100b, Subpart B), the general application and an annual program plan take the place of a State plan for Part B (45 CFR 100b.19).

The five assurances required under section 434(b) of the GEPA cover proper administration, fiscal control and accounting, reports, supplanting, and submission of the annual program plan. Where Part B contains plan requirements covering the same subject matters, submission of those plan requirements is satisfied by the State's submission of the general application. They do not have to be submitted as part of the annual plan. The Part B plan provisions which do not have to be submitted in the annual program plan are referenced in 45 CFR § 100b.17(c)(2)(iv). Note that a substantive section on the nonsupplanting requirement for local educational agencies is set out in § 121a.230.

Under 45 CFR 100b.18(c), material may be incorporated by reference in an annual program plan if the material is in a document previously approved by the Commissioner and on file in the Office of Education. This should save some paperwork, particularly in the years after the first annual program plan (for school year 1977–1978) is submitted under these regulations.

The provisions to be included in the annual program plan for Part B are set forth in §§ 121a.120–121a.151 of these regulations (which include the conditions of eligibility and the State plan requirements under sections 612 and 613 of the Act and section 434(b)(1)(B)(ii) of the GEPA (which requires each annual program plan to "set forth a statement describing the purposes for which Federal funds will be expended during the fiscal year for which the annual program plan is submitted")).

APPROVAL; DISAPPROVAL (§ 121a.113)

The following is clarification about the submission of draft annual program plans for review by the Office of Education and how this would affect the issuance of grant award documents:

A State educational agency may elect to send a copy of its proposed annual program plan to the Commissioner for technical assistance purposes at the same time that the plan is being made available for public comment. However, funds cannot be obligated by a State before the date on which its official adopted plan is received in substantially approvable form by the Federal Government. (See 45 CFR 100b.35.)

EXAMPLE: A State educational agency's proposed plan for a particular school year is received by the Bureau of Education for the Handicapped on June 1. Its official plan is received on August 1. When BEH approves the plan (e.g. September 1), the State educational agency will receive a grant award document which will show August 1, as the earliest date of obligation under that plan.

EFFECTIVE PERIOD OF ANNUAL PROGRAM PLAN (§ 121a.114)

The Office of Education is proposing to use the period July 1–June 30 for State annual program plans in those programs where appropriations become available for obligation by the Federal Government each July 1 (the so-called "advance funded" programs). The purpose of this is to meet the statutory requirement for an annual program plan covering a 12-month period and at the same time to conform as closely as possible to the regular school year. However, even if the proposed procedure is adopted, the obligational period of State and local agencies for funds from any fiscal year would not be changed. If a State submits its annual program plan and receives its grant on the earliest possible date (July 1), the funds are available for obligation at the State and local level for 27 months, subject to submission or extension of the annual program plan for the following year. (This period includes the 12-month carryover provision under the Tydings Amendment. See 45 CFR 100b.55 (Obligation by recipients).) For example, if a State received its grant for fiscal year 1978 on July 1, 1977, the funds would be available for obligation at the State and local level from July 1, 1977 through September 30, 1979. The rules which govern when an annual program plan becomes effective, and State and local authority to obligate the Federal funds are located in 45 CFR Part 100b, Subpart B.

PUBLIC PARTICIPATION (§ 121a.120)

Comment: Commenters wanted this section to be expanded to require the States to describe in detail a number of additional specific steps to be taken in complying with the public participation requirements of the Act. For example, they wanted States to develop a roster of interested persons to whom plans and other documents would routinely be sent. The commenters felt that these steps would be necessary to insure full public participation.

Response: Requirements have been added (in §§ 121a.280 et seq.) to spell out in more detail the State's duties regarding public participation in development of the annual program plan (for example, indicating in the notice of public hearings of the plan the timetable for developing the final plan and submitting it to the Commissioner). A requirement has also been added to specify that the plan must be available for comment at least 30 days following the date notice is given.

Another revised section indicates that the public participation requirements for local educational agencies are to be comparable to those required of the State, except that public hearings are not required (§ 121a.234).

FULL EDUCATIONAL OPPORTUNITY GOAL REQUIREMENTS (§§ 121a.124–121a.126)

Comment: Commenters disagreed about the amount of data which should be required under this (and other) sections. Some commenters sought to have the regulations require a substantial amount of additional data (about the population of handicapped children and their placements) on the grounds that it is needed for effective monitoring. Others sought to have the amount of data to be reported substantially reduced as unnecessary and fulfilling no useful purpose.

Response: The final regulations eliminate the data requirements in proposed section 121a.24(a) for school year 1977–1978. Since the funds for FY 1978 became available for obligation by the Federal government on July 1, 1977, the States began submitting annual program plans for school year 1977–1978 before these regulations were published. Therefore, it would be inappropriate to impose a retroactive data requirement. No substantive change has been made in the data requirement for school years 1978–1979 and thereafter. The Office of Education believes that the remaining amount of data sought is necessary and adequate to provide information on what and how children are being served. Additional information may be sought on a case by case basis from each State where necessary to monitor compliance with Part B. In addition, requirements have been added to Subpart F to increase each State's monitoring and enforcement obligations.

Comment: Commenters requested that the data requirements regarding personnel needed to meet the full educational opportunity goal include various other professional groups, such as physical therapists, or use terms currently accepted by the professions, such as "therapeutic recreation specialists" rather than "recreation therapists."

Response: These changes have been made to cover the various personnel who provide special education or related services and to use terms currently recognized by the appropriate professional associations.

LOCAL EDUCATIONAL AGENCY APPLICATIONS

PARENT INVOLVEMENT (§ 121a.226)

Comment: Commenters wanted the regulations to require the establishment of a parent advisory committee in each school district.

Response: No change has been made. Extensive public and parental participation is already required under sections 121a.226 and 121a.234.

V42163 AUG 23 77 UMI

EXCESS COST REQUIREMENTS (§§ 121a.182–121a.186)

Comment: A substantial number of commenters requested clarification and explanation of the excess cost requirement.

Response: The section on excess costs has been broken out into five sections for easier reading. Section 121a.184 specifies that a local educational agency must spend a certain minimum amount for the education of handicapped children before Part B funds may be used. A detailed example of determining the minimum amount follows revised section 121a.184.

NONSUPPLANTING AND COMPARABLE SERVICES (§§ 121a.230–121a.231)

Comment: A substantial number of commenters requested clarification of these requirements. Some commenters proposed detailed procedures and urged that the regulations require the reporting of a substantial amount of data to monitor compliance with these requirements. Some commenters felt the comparability requirement should be met by comparing expenses for regular and special education.

Response: These sections have been substantially revised to attempt to explain these requirements. Detailed procedures and reporting requirements are not adopted at this time because local educational agencies are otherwise required to maintain auditable records to document their compliance with these and other requirements.

Regarding nonsupplanting, the regulation provides that the requirement applies to total aggregate funds and particular costs. A local educational agency meets the requirement if (1) the total amount or average per capita amount of State and local school funds budgeted by the local educational agency for expenditures in the current fiscal year for the education of handicapped children is at least equal to the total amount or average per capita amount of State and local school funds actually expended for their education in the most recent preceding fiscal year for which information is available. Allowances may be made for decreases in enrollment of handicapped children and unusually large amounts of funds expended for long-term purposes (construction); and (2) Part B funds are not used to displace State or local funds for any particular cost.

The statutory requirement for comparability is implemented by prohibiting a local educational agency from using funds under Part B to provide services to handicapped children, unless the agency uses State and local funds to provide services to those children which, taken as a whole, are at least comparable to services provided to other handicapped children in that local educational agency. This should insure that handicapped children who receive services with Part B funds are treated equally with handicapped children who do not receive services with Part B funds. It would be too difficult to make an objective comparison between special and regular education. The concern of the commenters who asked for this comparison should be met by the excess cost requirement, which provides that a local educational agency must spend a minimum amount, on the average, for each of its handicapped children.

Comment: Commenters requested that the regulations make it clear that the local applications must meet the requirements imposed on the State in Subpart B.

Response: A section has been added to make it clear that each local application must include additional procedures and other information which the State educational agency may require in order to meet the State annual program plan requirements in Subpart B. The requirement for local educational agencies to be consistent with the annual program plan is set forth in section 121a.236.

APPLICATION FROM SECRETARY OF INTERIOR (§§121a.260–121a.261)

These sections have been rewritten to clarify that the annual application by the Secretary of the Interior for schools operated for Indian children must meet the applicable requirements of section 614(a), include other material as agreed to by the Commissioner and the Secretary of the Interior, and meet monitoring and public participation requirements.

PUBLIC PARTICIPATION

See the comments on Section 121a.120.

SUBPART C—SERVICES

Subpart C contains regulations governing the major service components required under Part B of the Act. These include free appropriate public education, the full educational opportunity goal, priorities in the use of Part B funds, individualized education programs, direct services by the State educational agency, and the State comprehensive system of personnel development.

FREE APPROPRIATE PUBLIC EDUCATION

FREE APPROPRIATE PUBLIC EDUCATION REQUIREMENTS (§§121a.300–121a.303)

Comment: Commenters disagreed with the interpretation of "State law or practice" in the proposed regulations. Some commenters felt the exception to the requirement to make free appropriate public education (FAPE) available to children in the age ranges three through five and 18 through 21 applies only if State law (or a court order) specifically prohibits services, or only if the State's practice is to provide services to less than a majority of the State's handicapped children. Others felt the requirement does not apply to the lower and upper age ranges unless the State is in fact serving all nonhandicapped children in those age ranges.

Response: The requirement has been redrafted to clarify the use of the exception and to insure at a minimum that handicapped children in any of these age ranges are served to the extent nonhandicapped children are served (to be consistent with nondiscrimination requirements under section 504).

Section 121a.300 ("Timeliness for free appropriate public education") breaks "practice" down by individual public agency, disability category, and age group. This revision is designed to maximize the number of handicapped children aged 3–5 and 18–21 who receive services. It should reduce the reluctance of agencies wishing to serve children in those age groups, because services to a few handicapped children will not require services to all handicapped children in all of the disabilities.

Section 121a.300 also includes an amendment designed to insure that each time a public agency elects to serve a handicapped child, the child receives the full range of rights and services, whether or not FAPE is mandated for that age range.

FREE APPROPRIATE PUBLIC EDUCATION METHODS AND PAYMENTS (§ 121a.301–121a.303)

Comment: Commenters disagreed on which agencies or parties should bear the costs of educating a handicapped child, especially room and board costs. Commenters sought clarification of when the costs must be borne by the State or local educational agency.

Response: The proposed regulation on methods and costs for FAPE (proposed § 121a.201) has been redrafted and expanded as follows:

(1) A new paragraph has been added to section 121a.301, which states: "Nothing in this part relieves an insurer or similar third party from an otherwise valid obligation to provide or to pay for services provided to a handicapped child."

(2) Section 121a.302 states that if placement in a public or private residential program is necessary to provide FAPE to a handicapped child, the program (including non-medical care and room and board) must be at no cost to the child's parents.

Both of these changes have been made to conform to the regulations implementing section 504.

Other Changes: A new section 121a.303 has been added regarding the proper functioning of hearing aids. This section is based on a special study conducted by the Office of Education ("The Condition of Hearing Aids as Worn by Children in Public Schools," GPO publication date Summer, 1977).

FULL EDUCATIONAL OPPORTUNITY GOAL (§§ 121a.304–121a.306)

The statutory terms "free appropriate public education" and "full educational opportunity goal" are distinguished in this regulation as follows:

"Free appropriate public education" (FAPE) must (1) be made available to all handicapped children within the mandated time lines and age ranges set forth in the Act, and (2) include special education and related services which are provided in accordance with an individualized education program.

"Full educational opportunity goal" is broader in scope than "FAPE." It is an all-encompassing term, which (1) covers all handicapped children aged birth through twenty-one, (2) includes a basic planning dimension (including making projections of the estimated numbers of handicapped children), (3) permits each agency to establish its own timetable for meeting the goal, and (4) calls for the provision of additional facilities, personnel, and services to further enrich a handicapped child's educational opportunity beyond that mandated under the "FAPE" requirement. The term "goal" means an end to be sought. However, while an agency may never achieve its goal in the absolute sense, it must be committed to implementing this provision, and must be in compliance with the policies and procedures in the Annual Program Plan under this provision. Further, the agency is not relieved from its obligations under the "FAPE" requirement.

The proposed rule on full educational opportunity goal has been revised as follows: Proposed paragraph (a) (Program options) is now § 121a.305 and proposed paragraph (b) (Non-academic services) is now § 121a.306. A new § 121a.304 has been added which (1) requires each State educational agency to insure that each public agency establishes and implements a goal of providing full educational opportunity to all handicapped children, and (2) authorizes State and local educational agencies to use Part B funds to provide the facilities, personnel and services necessary to meet the goal.

A comment has been added following section 121a.304 which points to Congressional interest in having artistic and cultural activities included in programs supported under this part, subject to the priorities.

Comment: Many commenters asked that additional areas be added to the program options requirement (e.g., leisure education, cultural and performing arts, and occupational education). Other commenters requested that the term "consumer and homemaking education" be substituted for "home economics" in order to be consistent with the

vocational education amendments of 1976 (Pub. L. 94–482).

Response: No substantive change was made in this requirement. The program options included are examples and the list is not exhaustive. Under the regulation implementing section 504, any program provided to nonhandicapped students must also be made available to handicapped pupils. The language conforming to the vocational education amendments was added.

Comment: Commenters requested that under the requirement on nonacademic services the term "cocurricular" be substituted for "extra curricular" and that intramural, extramural, and interscholastic athletics be included in order to insure consistent use of terminology as it applies nationally. Another commenter suggested that specific language be included regarding participation of visually handicapped persons.

Response: The suggested terms were not adopted. This section conforms to the language in the final regulations under section 504. Also, the suggested language on visually handicapped was not included. This requirement applies to all handicapped individuals, including those with visual handicaps.

PHYSICAL EDUCATION (§ 121a.307)

Comment: Some commenters felt that the section on physical education (PE) needed to be clarified, particularly the conditions under which a handicapped child would not be required to participate in the regular PE program; (e.g., the child (a) is enrolled full-time in a separate facility, (b) needs specially designed PE, or (c) the parents and agency agree that the child should not participate). The main concern dealt with the parent-agency agreement, because it appeared to provide a loophole in which a child would not be required to participate in any PE activity.

Response: The statement on parent-agency agreement was deleted. With this change, a handicapped child attending a regular school would participate in the regular PE program, unless the child needs specially designed PE as prescribed in his or her individualized education program (IEP). Parent-agency agreement is inherent in the development of a child's IEP. The decision as to whether the child should be in the regular PE program or receive specially designed PE is made in the IEP meeting in which the parent and agency personnel are represented.

It should be noted that every handicapped child would participate in some type of PE activity. Specially designed PE could involve arrangements for a child to participate in some individual sport or physcial activity (e.g., weight lifting, bowling, or an exercise or motor activity program).

Other changes: Proposed section 121a.204 (Incidental use of property) has been deleted.

PRIORITIES IN THE USE OF PART B FUNDS

As part of the provision on free appropriate public education, the law requires each State and local educational agency to establish priorities, first with respect to handicapped children not receiving an education (defined as "first priority children" in the regulations) and second with respect to handicapped children, within each disability, with the most severe handicaps who are receiving an inadequate education (defined as "second priority children"). The law further requires that, except for State administration funds, each State and local educational agency must use its full entitlement under part B "in accordance with the priorities." The regulations which implement these priority requirements are included in sections 121a.320–121a.324.

PRIORITIES (§ 121a.321)

Comment: Many commenters were concerned that first priority expenditures cannot be used for inservice training for personnel who can serve those students, and stated that such inservice training activities may be an essential component toward achieving the first priority.

Response: The proposed rules have been redrafted and expanded in order to address the above concerns. A new section was added to make it clear that an agency may use Part B funds for inservice training concurrently with placing a first priority child in school (in an interim program, if a component of the child's program is missing). However, the provision of inservice training may not be used as a pre-condition for service to the child.

The intent of Congress with respect to the education of first priority children is both long-standing (dating back to Pub. L. 93–380) and very clear, as reflected in the following statements:

(1) The Congress has a responsibility "* * * to see that all persons are assured equal opportunity. For handicapped children, this means, at the very least, that they must be educated * * * These funds must be focused in such a way that we are assured that handicapped children are provided their right to education." (Congressional Record—Senate, June 18, 1975, p. S10969)

(2) "First priority for spending under the legislation is to provide services for handicapped children who are not now being served. The flexible approach in the Conference Report with respect to the current fiscal year, fiscal year 1977 and fiscal year 1978 will allow for concentrations of moneys so that this priority can be met." (Congressional Record—House of Representatives, November 18, 1975, p H12348)

(3) "There are millions of children with handicapping conditions who are receiving no services at all. And since we must have a place to start, it is appropriate that we give priority to those who are receiving no services at all first, and then try to reach those with the most severe handicaps who have traditionally received only minimal attention second." (Congressional Record—Senate, June 18, 1975, p S10961)

Comment: Several commenters requested clarification regarding whether the requirements on the use of funds for priorities apply within or among local educational agencies (e.g., if an agency is serving all of its first priority children, could a State give that agency's entitlement to another agency which is not serving all of its first priority children?).

Response: No change has been made. The statute does not permit the State to take away a local educational agency's Part B funds solely because the local educational agency is serving all of its first priority children. For the limited circumstances where a local educational agency's funds may be reallocated, see section 121a.708.

Other changes: A new paragraph (c) has been added to section 121a.321, which provides that Part B funds cannot be used for preservice training. This addition was made to implement Congressional intent expressed in Senate Report No. 94–168, p. 34 (1975), in which it was stated that funds for preservice training are available under the training program under Part D of the Act, and that Part B funds should not be used for this purpose.

INDIVIDUALIZED EDUCATION PROGRAM

The requirements on individualized education programs (IEPs) in Subpart C have been reorganized and redrafted substantially, based largely on comments received. (These sections have been renumbered, starting with section 121a.340.) A summary of these changes is included below:

(1) A definition of IEP has been added which states that the term "IEP" means a written statement on a handicapped child that is developed and implemented in accordance with sections 121a.341–121a.349 of Subpart C.

(2) The proposed section entitled, "Scope" has been deleted and the substance combined with the section on "State educational agency responsibility."

(3) The proposed section on "Local educational agency responsibility" has been replaced by two new sections ("When IEPs must be in effect" and "Meetings").

(4) The section on "Participants in meetings" has been redrafted to adopt essentially verbatim the language in the Act and to add a new paragraph on participation of evaluation personnel.

(5) The proposed section on "Parent participation" has been amended to include specific provisions regarding notifying parents about the IEP meetings.

(6) The substance under the proposed section on "Content of IEP" has been replaced with the statutory language.

(7) The proposed section on "Private school placements" has been reorganized into two sections to conform to the two groups of private school handicapped children in Subpart D, and has been expanded to spell out in more detail the responsibilities of State and local educational agencies in administering this provision.

(8) A new section was added, entitled, "IEP—accountability."

TIMING OF IEP MEETINGS (§§ 121a.342–121a.343)

Comment: Many commenters felt that the final rules should provide more flexibility to agencies in terms of when IEP meetings are conducted.

Response: The following changes were made in the proposed rules in an attempt to clarify this provision. First, the regulations now specify the dates on which IEP's must be in effect (October 1, 1977, and the beginning of each school year thereafter). Second, except for new handicapped children (those initially evaluated after October 1, 1977), the timing of meetings to develop, review and revise IEPs is left to the discretion of each agency. (For a new handicapped child, a meeting must be held within thirty days of a determination that he or she needs special education.) The regulations are flexible on the schedule to be followed by public agencies in meeting the above dates.

PARTICIPANTS IN IEP MEETINGS (§ 121a.344)

Comment: A number of commenters recommended that personnel from specific disciplines be participants at IEP meetings (e.g., physicians, health care personnel, psychologists, and representatives from other agencies, such as Head Start). Some commenters felt that the meetings should include all direct service personnel who work with a handicapped child. Other commenters suggested cutting back on the number of people who participate.

Response: The final regulations only require the participants listed in the statute, except in the case of a child who has been evaluated for the first time. (NOTE: Participation of evaluation personnel in IEP meetings is covered under the next comment-response sequence.)

Generally, having a large group of people at an IEP meeting may be unproductive and

V42163 AUG 23 77 UMI

very costly, and could essentially defeat the purpose of insuring active, open parent involvement.

While it is necessary to insure that all direct services personnel who work with a handicapped child are informed about and involved in implementing the child's IEP, this does not mean that they should attend the IEP meetings. The mechanism for insuring the involvement of all IEP implementers is left to the discretion of each agency (e.g., the child's teacher, or principal, or supervisor could have that responsibility). However, this is a basic administrative procedure which can be handled outside of the context of the IEP meeting.

The statute does not require all IEP implementers to be involved in the meetings. In fact, the definition of IEP in section 602(19) of the Act includes only four people (e.g., a special education provider or supervisor, the teacher, the parent, and the child, where appropriate). Moreover, it was the intent of Congress that IEP meetings generally be small. This position is reflected in the following statement by Senator Randolph in the June 18, 1975 Congressional Record:

In answer to my colleague, it was the intent, and I believe, I can speak for the subcommittee and the committee in this matter, that these meetings * * * be small meetings; that is, confined to those persons who have, naturally an intense interest in a particular child, i.e., the parent or parents, and in some cases the guardian of the child. Certainly the teacher involved or even more than one teacher would be included. In addition, there should be a representative of the local educational agency who is qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of handicapped children.

These are the persons that we thought might well be included. That is why we have called them "individualized planning conferences". We believe that they are worthwhile, and we discussed this very much as we drafted the legislation.

While very large IEP meetings might generally be inappropriate, there may be specific instances where additional participants are essential. In order to enable other persons to be included, the Office of Education retained a provision from the proposed rules which authorized the attendance of "other participants, at the discretion of the agency or parents."

Comment: Some commenters recommended that members of the evaluation team participate in IEP meetings.

Response: A new paragraph has been added which states, in effect, that an evaluation person must participate in any IEP meetings conducted for handicapped children who have been evaluated for the first time (i.e., the preplacement evaluation required under section 121a.531 of Subpart E). Since the meeting is intended to develop an education program for the child, it is essential that someone at the meeting be familiar with the child's evaluation.

Comment: Several commenters recommended that the representative of the agency be qualified in the disability area in which the IEP is written.

Response: A comment has been added following section 121a.344 which suggests (but does not require) that either the teacher or the agency representative should be qualified in the area of suspected disability. At the time of the meeting, the public agency may not yet have hired a person qualified to provide special education with respect to that suspected disability.

PARENT PARTICIPATION (§ 121a.345)

Comment: Some commenters stated that documenting efforts to involve parents would be difficult and time consuming. One commenter felt it was important to retain the general statement requiring agencies to involve parents, but recommended that the details in the parent participation section be deleted from the final regulation. Another commenter recommended that the section be dropped because it is not required in the law and is "* * * utterly paternalistic. If a local education agency is foolish enough to keep inadequate records on transactions with parents, it alone stands in jeopardy; there is no damage to parents or to handicapped children."

Response: The comments have not been adopted. The Office of Education believes that it is important to retain this section in the final regulations, for the following reasons:

First, the section provides rules that allow agencies to proceed in conducting IEP meetings in cases where parents cannot or will not attend. Without this authorization, the IEP process might come to a halt in some cases, since the law states that an IEP must be developed at a meeting with the parents.

Second, the section is designed to protect agencies by setting the conditions under which they can proceed.

Third, the section is designed to protect the rights of the parents. The Congress intended that IEP meetings be utilized as an extension of the procedural protections guaranteed under Pub. L. 93-380. However, if the regulations provided an authorization for agencies to proceed without the parents, there is a potential problem that the authorization (without documentation) might be inappropriately applied in individual cases, which could result in parents' rights not being protected.

Comment: A few commenters suggested using surrogate parents if a child's parents could not attend an IEP meeting. One commenter recommended adding a provision to enable the parents to designate a person to represent them at a meeting.

Response: The Office of Education elected not to write regulations on either of these suggestions.

First, a surrogate parent is appointed only in accordance with the procedural safeguards in Subpart E. The provision was not meant to apply in situations when parents are unwilling to participate, or when an agency makes unsuccessful efforts to communicate with a known parent. A surrogate parent is appointed only when the parents are unknown, unavailable or the child is a ward of the state. However, a surrogate parent appointed under appropriate circumstances would attend the IEP meetings and represent the child in all matters relating to the provision of a free appropriate public education to the child.

Second, with respect to parent designated representatives, the Office of Education does not feel that any change in the regulation is warranted. Parents unable to attend an IEP meeting, who are interested enough in their child's education to seek a third party representative, would have direct input in developing the child's IEP through individual or conference telephone calls or other methods authorized under paragraph (c) of section 121a.345.

Other changes. A new paragraph (f) has been added to require that parents be given a copy of the IEP on request. This should help to insure that the parents are fully informed of the program for their child, and will assist them in participating in future meetings on the IEP.

CONTENT OF IEP (§ 121a.346)

Comment: Hundreds of commenters responded to this section. Some commenters requested that additional services or other items be added. Other commenters recommended that the section be sharply cut back, because they felt that this went unnecessarily beyond the items listed in the statute. Many of the commenters wanted the specific service areas they represent added to the list of services to be provided in the IEP. Others felt that this went unnecessarily beyond the items listed in the statute.

Response: The Office of Education has elected to amend this section by adopting substantially verbatim the language from section 602(19) of the statute. The regulation retains one clarification from the proposed rules, that the individualized education program must include related services to be provided to the child, as well as special education and the extent to which the child can participate in regular education programs. However, given the controversy over this section and whether it is appropriate to add items not specifically covered in the statute, the Office of Education has decided that some experience operating under the statute would be useful before considering whether further regulations on this point would be appropriate.

IEP—ACCOUNTABILITY (§121a.349)

Comment: In the preamble to the proposed rules, a statement was made that the IEP is not a legally binding document. Many commenters recommended that this statement should be included in the body of the final regulations. Other commenters felt that the statement needed to be clarified.

Response: The Office of Education has added a new section, which states, in effect, that each public agency must provide special education and related services in accordance with a handicapped child's IEP. However, Part B does not require that the agency, the teacher, or other persons be held accountable if the child does not achieve the growth projected in the written statement.

COLLECTIVE BARGAINING

Comment: Numerous commenters recommended that the regulations deal with the fact that the required participation of teachers (and other agency staff) in the meetings to develop IEPs would require modification of collective bargaining agreements. Some commenters urged that the regulations require additional compensation for teachers to participate in these meetings, prescribe or limit any after-school-hours participation, and specify arrangements for relieving teachers from classroom duties for the meetings.

Response: No change has been made in the regulation. The requirement for teacher participation in developing IEPs is statutory. The Commissioner understands that collective bargaining agreements and individual annual contracts for teachers vary greatly among local educational agencies and may or may not deal with additional duties and compensation for after-hour activities. In some instances, especially in urbanized and highly unionized areas, collective bargaining agreements may have to be renegotiated to cover employee participation in IEPs. However, this is an area which is solely within the authority of the public agency and its employees (and their union representative, if any). It would be inappropriate and beyond the scope of the Commissioner's authority to prescribe how this requirement must be met. Where collective bargaining agreements must be modified, the public agency must negotiate the appropriate modifications to comply with the statute. The public agency is also responsible for insuring that the IEP meetings are conducted at a time reasonably convenient to parents. (In some cases this may be during school hours; in others, after hours.) The agency also must make its own arrangements for covering classrooms when teachers are absent.

DIRECT SERVICES BY THE STATE EDUCATIONAL AGENCY

The direct services provision of this subpart includes sections on (1) use of local educational agency (LEA) funds, (2) nature and location of services, (3) use of the State's (SEA's) entitlement, and (4) a State matching requirement.

The section on the use of LEA allocations (renumbered section 121a.360) has been redrafted to combine the proposed paragraphs (a) and (b) into a single paragraph. This paragraph sets out the conditions under which an SEA may use an LEA's entitlement.

A new paragraph (b) has been added to section 121a.360, which states that in meeting the requirements of this section, the SEA may provide special education and related services directly, by contract, or through other arrangements.

A new paragraph (c) has been added, which repeats the statutory provision that the excess cost requirement does not apply to State educational agencies.

Section 121a.360 (Nature and location of services) has been amended to correct an error made in the proposed rule. The proposed regulation stated that the least restrictive environment (LRE) provisions do not apply when the SEA provides direct services. The amended rule now states that the manner in which the education and services are provided must be consistent with the requirements of this part (including the LRE provisions).

The regulation on "State matching" was not substantially changed. However, a comment was added after this section to make it clear that the requirement would be satisfied if the State can document that the amount of State funds expended on each major program area (e.g., the comprehensive system of personnel development) is at least equal to the expenditure of Federal funds in that program area.

Comment: In the preamble to the proposed rules under the direct services provision, a point was made that an LEA would not be in compliance with the section 504 regulations if that agency did not make available a free appropriate public education (FAPE) to all of its handicapped children. A commenter, in responding to this statement, pointed out that the term FAPE has different meanings under section 504 and Pub. L. 94-142; and, therefore, an LEA would not have to meet the requirements of Pub. L. 94-142 in order to be in compliance with section 504.

Response. Under Part B, "FAPE" is a statutory term which requires services to be provided in accordance with an IEP. However, under the section 504 regulations, each recipient must provide an education which includes services that are "designed to meet individual educational needs of handicapped persons as adequately as the needs of nonhandicapped persons are met * * *" Those regulations state that implementation of an IEP, in accordance with Part B, is one means of meeting the "FAPE" requirement. (NOTE.—A more detailed description of the relationship between section 504 and Pub. L. 94-142 is included in this appendix.)

Other changes: A new section 121a.372 has been added to implement section 611(c)(3) of the Act. This section provides that the nonsupplanting requirement does not apply to the State's expenditure of its allocation beginning with funds appropriated for Fiscal Year 1979 and for each following fiscal year.

COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT

GENERAL

The proposed rules in this section created some controversy over the amount of detail contained in the regulations. Comments ranged from requests for more specificity to suggestions that everything be deleted except the statutory language.

The statute is very clear in requiring that a "comprehensive system of personnel development" be implemented in each State. Since this is a broad requirement, challenging each State to reach out to the expansive community of agencies involved in preparing personnel to educate the handicapped, many of which are private and not under the control of the State, it was felt that a regulation was needed that would provide sufficient information for the State and involved agencies to understand their responsibilities in achieving compliance.

SCOPE OF SYSTEM (§ 121a.380)

Comment: A commenter suggested that inservice education be available to all special, regular, and related service personnel.

Response: Paragraph (a) of section 121a.380 was changed to read "the inservice training of general and special educational instructional, related services, and support personnel."

Comment: A commenter suggested that all personnel preparation services be conducted in accredited institutions granting advanced degrees and that "no less than ten percent of the money under this Act be contracted to institutions of higher education." Another commenter recommended the earmarking of a percentage of funds for staff and program development.

Response: No change has been made in the regulations. The Office of Education believes that each State must have maximum latitude in decisions regarding the types of facilities and personnel that are used to implement the comprehensive system of personnel development.

With respect to targeting funds for training, the Office of Education feels that such a step would be inappropriate at this time.

Part B is a unique Federal statute in that it imposes requirements on States which must be implemented, regardless of the amount of Federal funds available. Given the scope and magnitude of the law, the Office of Education believes that each State should have maximum latitude in terms of how its Part B funds are used to implement the various statutory provisions, subject, of course, to the priority requirements in Subpart C.

DEFINITION OF "APPROPRIATELY AND ADEQUATELY PREPARED AND TRAINED" (PROPOSED §121a.261)

A number of comments were received on the definition of "appropriately and adequately prepared and trained" which was in § 121a.261 of the proposed rules. The definition has been deleted in the final regulations. Instead, the term "qualified" is used, as defined in § 121a.12.

Comment: A commenter suggested that nationwide certification requirements be mandated to allow for the mobility of personnel.

Response: No change has been made. The intent of the Act is to insure that all personnel necessary to carry out the purposes of the Act are qualified. The Act does not authorize the establishment of national certification standards.

Comment: A commenter suggested that early childhood be required as an area for certification.

Response: No change has been made. These personnel must be included under the State's comprehensive personnel development system.

Comment: Several commenters expressed the belief that certification should not be required for all personnel directly serving the handicapped, or that such a requirement would result in great expense for the State. Still others felt that competency based systems should be used as opposed to the requirement for certification, registration, or licensing.

Response: The statutory language "appropriately and adequately prepared and trained" has been interpreted, by use of the term "qualified," to mean certification, registration, or licensing. These are commonly accepted procedures for determining if personnel are "appropriately and adequately prepared and trained."

PARTICIPATION OF OTHER AGENCIES AND INSTITUTIONS (§ 121a.381)

The comments on the level and intensity of the "participation" required in this section ranged from the belief expressed that special meetings on components of the state plan are not required in the Act, therefore the "participation" envisioned in section 121a.381 should be eliminated, to the suggested requirement that organizations not only have an opportunity to participate, but that they "must participate." The comprehensive system of personnel development is such a specialized aspect of the Act, necessarily involving agencies not under the jurisdiction of the State that "participation" is fully warranted, though not mandated in the statute. Thus, the regulations set a requirement for the State to insure that those agencies with an interest in the preparation of personnel for the education of the handicapped have an opportunity to participate fully in the development, review, and updating of the system. This is a reasonable requirement, especially considering the critical effect the system will have on those agencies preparing the personnel. Rather than a burden on the State, the "participation" should provide the direct opportunity for the State to encourage the development of quality personnel preparation programs, a factor essential to the provision of a "free appropriate public education."

Comment: Several commenters suggested that "representatives from each group be included in the planning" as well as parents. One commenter suggested that disability categories and groups be listed in the proposed rule.

Response: The regulation has been altered to include representatives of handicapped and parent organizations. This wording should be sufficient to involve all relevant groups.

Comment: A commenter suggested the addition of a subsection (3) to section 121a.381(b) that would require the annual program plan to include a description of agency responsibilities with respect to research and evaluation of exemplary programs that could be implemented in local educational settings.

Response: Sections 121a.385 and 121a.386 have been modified to classify agency responsibilities.

INSERVICE TRAINING (§ 121a.382)

Comment: There were a number of contrasting points of view and suggestions on this section, ranging from requests to mandate greater detail in the proposed rules, to the suggestion that the section be deleted altogether. Those proposing greater detail suggested that specific knowledge and areas of learning be emphasized and that teachers be trained "by having them work one-to-one with specialists" and that "inservice training be mandated at the local level, a county being the largest unit possible, to prevent the State from using the money for ineffectual regional workshops." Also, there were suggestions that where academic credit is to be made available that this be done

V 42163 AUG 23 77 UMI

only in institutions of higher education with State approved programs.

On the other extreme there were suggestions that this section "exceeds statutory requirements" and "federal rules should not say how a task is accomplished" and "(state) provides adequate training and inservice and does not need more obstacles and regulations."

Response: The statute clearly requires inservice education as a central part of the comprehensive system of personnel development and it is appropriate for the rules to detail the nature and extent of the inservice education that is required. This has been accomplished through the outlining of procedures which define inservice education, its parameters, and relationship to required needs assessments. However, the rules do not define the specific nature of the training to be accomplished. Thus, the rules have been designed to outline the foundation for an adequate program of inservice education, without stifling the creativity of State and local personnel in their efforts to plan and implement such a system.

Comment: A commenter suggested that the statement "in cooperation with institutions of higher education" be inserted in section 121a.383(b)(1).

Response: No change has been made. However, involvement of institutions of higher education is required under § 121a.381(a).

Comment: A number of commenters suggested the addition of specific disciplines and professionals to this section, constituting an itemized list of personnel to be trained or involved in the review of training needs.

Response: No change has been made. The State's plan must include all personnel who need training.

Comment: Several commenters suggested wording changes designed to clarify the text of the proposed rule on inservice training.

Response: Changes were made where necessary to bring the regulation into conformity with current usage.

Comment: There were a number of suggestions concerning the financial arrangements for conducting inservice training. Some commenters advocated the funding of parent groups to conduct inservice training. Others suggested financial support for trainees involved in their programs. One commenter urged that the rule allow for contracting with other than non-profit organizations. One suggested contracts with institutions of higher education to carry out personnel development programs. Another suggested incentives for teacher participation, including released time and college credit. One suggested that inservice be provided during contract time, not involving extra hours.

Response: No substantive changes have been made. All of the suggestions in the above comments are authorized under these regulations.

PERSONNEL DEVELOPMENT PLAN (§ 121a.383)

Comment: Several commenters asked for special attention to physical education and service delivery models which take into account problems of rural families.

Response: No change has been made. Specialized needs in physical education and the unique aspects of providing services in rural settings should be addressed as appropriate in the needs assessment and plan.

Comment: One commenter objected to including preservice training under this section.

Response: No change has been made. The term "inservice" education is used in the Act. However, since the Act clearly requires that a "comprehensive system of personnel development" be developed, such a system must include the consideration of preservice training.

NOTE.—The data required in sections 121a.124 and 121a.126 of Subpart B on the numbers of handicapped children and the kind and number of personnel needed will serve as the uniform data base within the State for the personnel development system under § 121a.383 of this subpart. The data may also be used by institutions of higher education and other nonprofit educational training agencies in submitting personnel preparation applications under Part D of the Act. Section 121f.9 of the regulations under Part D (45 CFR 121f.9) provides as follows:

§ 121f.9 *State personnel needs.*

Each application shall include (a) a statement by the State educational agency of personnel needs for education of the handicapped and a statement by the applicant of how the proposed program relates to those stated needs, and (b) a description of the ways in which the recipient's program goals and objectives relate to the purposes of Part D of the Act.

(20 U.S.C. 1431, 1432, 1434)

DISSEMINATION (§121a.384)

Comment: One commenter suggested that "teachers organizations" be specified as recipients of information.

Responses: No change has been made. Teacher organizations are included under the phrase "other interested agencies and organizations."

SUBPART D—PRIVATE SCHOOLS

The proposed rules created a certain amount of confusion among commenters in distinguishing between handicapped children placed in or referred to private schools by the State or by local educational agencies and handicapped children whose parents choose to educate them in private schools. The major difference between these two groups of children is in who bears the cost of the private school.

A free appropriate public education must be made available to each handicapped child by the public agencies of the State. Subject to the requirements on least restrictive environment, this could include placement in or referral to a private school or facility. Such a placement or referral must be at no cost to the parent.

On the other hand, even if a free appropriate public education is available, the parent may choose not to accept it. The parent may choose to send the child to a private school rather than take advantage of the free public education. If this happens, the Act does not require the State or local educational agency to bear the cost of the private school. For children placed in private schools by their parents, the State and its local educational agencies have a different duty. They must design their program so that handicapped children in those private schools can participate in special education and related services offered by the local educational agencies if the parents of those children so desire.

The regulations have been reorganized to make these distinctions clearer. The first set of sections (121a.400–121a.403) now cover children placed in or referred to private schools or facilities by a public agency in order to provide them with special education or related services. (These sections replace sections 121a.320–121a.323 of the proposed rules.)

Since the "State" includes all of its political subdivisions, the term "public agency" is used, as elsewhere in the regulations, to mean all of the political subdivisions of the State which are responsible for providing special education or related services to handicapped children.

The second set of sections (121a.450–121a.460) apply to handicapped children enrolled in private schools or facilities but who are not placed or referred there by a public agency to receive special education or related services. (These sections replace sections 121a.300–121a.306 of the proposed rules.)

The following comments were made regarding proposed Subpart D. Comments which asked for changes not authorized under the statute are not summarized. (Commenters who are concerned about the cost of room and board as a "related service" are referred to section 121a.302 and the discussion of that section in this preamble.) The comments are arranged in order of the final rules.

RESPONSIBILITY OF STATE EDUCATIONAL AGENCY (§ 121a.401)

Comment: A commenter asked that paragraph (a)(3) be deleted, which required that the special education given to a handicapped child placed by a public agency must meet the education standards of the State educational agency (SEA). The commenter stated that otherwise there would be conflicts between the SEA's standards and those of other agencies, in the day care area, for example.

Response. Paragraph (a)(3) cannot be deleted, since it is derived from a statutory requirement. However, it has been revised by using the language of the statute. This will broaden the types of standards that the SEA may apply, and therefore avoid conflict with other mandatory standards. Of course, those standards cannot override the provisions in Part B of the Act.

Comment: A commenter asked that provision be made for interstate referrals to private schools and communication among States regarding those referrals.

Response. No change has been made in the regulation. Referrals between States are to be handled under existing procedures. Unless a problem develops in this area that seriously interferes with the rights of handicapped children or their parents under Part B, the Office of Education is reluctant to regulate the mechanisms by which the States arrange to provide services.

IMPLEMENTATION BY SEA (§121a.402)

Comment: A commenter suggested that the State educational agency insure the monitoring of private schools, dissemination of standards to them, and involving them in developing State standards, rather than the State educational agency doing it directly.

Response: No change has been made. The statute places direct responsibility on the State educational agency to administer and monitor the requirements under Part B. While the State educational agency in many areas need only insure that the Part B requirements are met, monitoring must be done by the agency itself. Dissemination of standards could be done in a variety of ways. Involvement in development of State standards would have to be done directly by the State educational agency if it is the agency that develops those standards.

PLACEMENT OF CHILDREN BY PARENTS (§ 121a.403)

Comment: Commenters were concerned with the effect of this section on the rights of handicapped children in private schools and felt that the section was worded in a manner that would limit those rights.

Response: The section has been revised to make it clear that a free appropriate public education (FAPE) must be made available to

each handicapped child. This would include the development of an individualized education program and placement in the least restrictive environment. Free appropriate public education must be made available at no cost to the parents. If the parents felt that services were not adequate, they may have a due process hearing to show that more or better services must be provided to give their child FAPE. However, if the parents choose not to educate their child in the public school system, they are not required to do so. In that case, the relevant public agency has the remaining duty of offering special education and related services under sections 121a.450–121a.460, but does not have the duty of insuring that the private school meets the requirements of Part B (unless other handicapped children have been placed in or referred to that private school by the agency), or of paying for the cost of the private school. Language has been added to clarify the public agency's duties under sections 121a.450–121a.460.

Other changes: Proposed section 121a.323 (Placements in another State) has been deleted. It would have required private schools to meet the standards of both the sending and receiving States. This would have been an unreasonable burden on the receiving State to enforce.

HANDICAPPED CHILDREN IN PRIVATE SCHOOLS NOT PLACED OR REFERRED BY PUBLIC AGENCIES (§§ 121a.450–121a.460)

Comments: A number of commenters felt that clarification was needed in these sections. There was also some concern expressed regarding the State's legal authority to provide services to children enrolled in private schools.

Response: The regulations have been amended to conform more closely to those under Title I of the Elementary and Secondary Education Act of 1965 (education of educationally deprived children) (45 CFR, Section 116a.23). As under Title I, a balance is drawn between the statutory requirement to provide services, and the constitutional necessity of avoiding excessive entanglements between public agencies and church-related institutions. It is also important for the Office of Education to have a uniform policy regarding services to private school children under all Federal education programs it administers. The amendments to the proposed rules should serve all of these purposes.

SUBPART E—PROCEDURAL SAFEGUARDS

This subpart implements the procedural safeguards set forth in the Act, including due process procedures for parents and children, protection in evaluation procedures, least restrictive environment, confidentiality of information, and procedures of the Office of Education.

A substantial number of detailed comments were received on these sections. Many concerned the statute rather than the regulations or did not state what changes in the regulations were desired. Others requested revisions which did not appear to involve substantive changes. Some comments sought substantially more detailed specification of due process rights while others indicated that the statute itself was so detailed in the due process area that the regulations should not go beyond the statute.

As stated earlier in this preamble, the Office of Education's position, while incorporating a number of the suggestions in the final regulations, is still to adopt minimum regulations in this area at this time, review experience under the regulations, and then made a determination as to whether more detailed regulations are required.

DUE PROCESS PROCEDURES FOR PARENTS AND CHILDREN

DEFINITIONS (§ 121a.500)

Comment: Commenters recommended that the phrase "unless it is clearly not feasible to do so" be deleted from the definition of consent and that additions be made to make it clear that consent may be revoked and may not be made a precondition to the child's right to participate in basic educational programs. The effect of deleting the phrase would be to require that a consent is not valid unless the parent is informed in every case of the information relevant to the consent.

Response: The phrase has been deleted. The deletion of the phrase will help to assure an informed consent in every case, regardless of the parent's language or other mode of communication. A phrase has been added to make it clear that parents have the right to revoke consent. A separate section 121a.504 states that consent may not improperly be made a precondition of services. While public agencies must obtain consent for preplacement evaluations or for initial placement, a public agency may not coerce parents to consent by withholding or threatening to withhold other regular education services or extracurricular activities unless the parent consents.

Comment: Several commenters requested changes in the definition of "evaluation" to indicate that an evaluation must be conducted by qualified personnel, that the findings must be reduced to writing, and that it must take into accouut the child's assets as well as deficits.

Response: No change has been made. The suggestion reagarding qualified personnel is covered under section 121a.532. The Office of Education expects that evaluations will be in writing and that a child's assets will be considered. If a problem develops in this area, the Office of Education will reconsider the necessity for further regulations.

GENERAL RESPONSIBILITY OF PUBLIC AGENCIES (§ 121a.501)

Comment: Commenters suggested that parents have the right to complain and that agencies should be required to respond to them outside of the context of a hearing.

Response: No change has been made in the regulation. However, agencies should certainly seek to respond to complaints by informal discussions and negotiations. A comment section has been added which notes that mediation may be useful in some instances. In any case, negotiations may not delay a hearing if a parent has requested it.

INDEPENDENT EDUCATIONAL EVALUATION (§ 121a.503)

Comment: Commenters disagreed as to whether the parent's right to an independent evaluation should be broadened or narrowed.

Response: The section has been rewritten to require public agencies to provide parents information, upon request, of where an independent educational evaluation may be obtained. Also, "public expense" has been defined. However, the interpretation in the proposed regulations is retained. The evaluation must be at public expense if the parent disagrees with the evaluation by the public agency, unless the public agency initiates a hearing to show that its evaluation is appropriate. If upheld, the expense of the independent evaluation does not have to be borne by the agency. The independent evaluation must be considered in any hearing.

There are several competing interests which the regulation seeks to balance. The statutory right of the parent to an independent educational evaluation must be preserved. On the other hand, the public agencies should not be asked to bear the costs of unreasonably expensive independent evaluations. Also, for the independent evaluation to be useful, it must meet the same criteria as evaluations conducted by public agencies under this part.

PRIOR NOTICE; PARENT CONSENT AND CONTENT OF NOTICE (§§ 121a.504–121a.505)

Comment: Commenters sought further specificity as to the detail of information provided to parents in the notice. Other commenters felt that the requirements were too demanding. Some commenters asked that consent be required for preplacement evaluation and prior notice for reevaluation; and that consent be extended to include permission for placement. Other commenters sought to delete the consent requirement on the grounds that educational judgments should be final.

Response: The basic notice requirements in sections 121a.504 and 121a.505 were not changed. However, the following changes were made in the consent requirements:

(1) Consent was expanded to include permission for initial placement of a handicapped child in a special education program. Many commenters had requested this addition; and the Office of Education agrees that this requirement is as essential as consent for preplacement evaluation.

(2) The proposed consent rule was changed from consent for all evaluations to consent for the initial or preplacement evaluation. This change is essentially consistent with the section 504 final regulations (45 CFR Part 84, § 84.35(a)). The Office of Education agrees with commenters that there is no need to require consent for reevaluation. If a handicapped child is initially placed in accordance with section 121a.504, and if his or her individualized education program is annually reviewed in accordance with section 121a.343 of Subpart C, a requirement is not necessary. However, prior notice would have to be provided.

Comment: Commenters were especially concerned that clarification be added regarding procedures for overriding parents' refusal to consent.

Response: A subsection has been added to set out procedures for dealing with parental refusal to consent (see section 121a.504(c) and the comment following that section).

The procedures are designed not to interfere with existing State laws which may require consent. Where State law does not require consent, the parent is afforded a due process hearing under this Part. These rules should provide protection to the parent, the child, and the public agency.

IMPARTIAL DUE PROCESS HEARING (§ 121a.506)

Comment: A commenter asked that the regulations specify that the public agency must pay for the hearing.

Response: The change requested by the commenter has not been made. Since the statute requires that the public agency must afford parents an opportunity for a hearing, the agency must bear the cost of the hearing, except for paying for parents' representatives and witnesses. However, section 121a.506 has been amended to require agencies to provide parents with information about free or low-cost legal and other relevant services that are available.

IMPARTIAL HEARING OFFICER (§ 121a.507)

Comment: Commenters sought to have three-person panels, including parents, serve as the hearing officials. Some sought to allow and others sought not to allow school board officials from serving as hearing officials. Com-

V 42163 AUG 23 77 UMI

menters also asked that lists of hearing officers be required, including their qualifications.

Response: A requirement has been added that each public agency keep a list of persons who serve as hearing officers and a statement of their qualifications. This should help to ensure that the requirement for impartiality is met. No other substantive change has been made. A three-person panel could be used under the existing rules, as long as the conditions of impartiality are met. However, a parent of the child in question and school board officials are disqualified under section 121a.508.

HEARING RIGHTS (§ 121a.508)

Comment: Commenters disagreed as to whether hearing rights set forth in the proposed rules should be expanded or restricted. Among the additional rights sought were the right to compel the attendance of witnesses, prohibit the introduction of evidence not disclosed prior to the hearing, allow the child to be present and the hearing to be open to the public at the parents' discretion, and to specify whether the record of the hearing must be free or at reasonable cost.

Response: The section has been revised to add rights for any party to prohibit the introduction of evidence not previously disclosed to the other party and for the child to be present and the hearing to be open to the public. The purpose of hearings under this part is to ensure that handicapped children are provided free appropriate public education. Opening up the hearing and the evidence that may be presented should serve to insure that the result of a hearing will be in the best interests of the child. No provision has been added relating to cost. However, it is expected that a copy of any decision would be provided to the parent at no cost.

HEARING DECISION; APPEAL (§ 121a.509)

Comment: A commenter sought to add a requirement that specifies that the hearing officer has the power to order any educational program for the child and that his or her power not be limited to accepting or rejecting the program by the public agency or parent.

Response: No change is necessary. The hearing officer has the function to decide what placement is appropriate, if that is the subject of the hearing.

ADMINISTRATIVE APPEAL; IMPARTIAL REVIEW (§ 121a.510)

Comment: Commenters disagreed on whether to reduce or expand the requirements in this section. Some commenters wanted short, specific timelines set out for various actions and specification of the rights that apply at the review level.

Response: The section has been revised to specify other duties and powers of the reviewing official, in addition to those already set out. For example, the official may seek additional evidence if necessary, including holding a new hearing and affording the parties an opportunity for written as well as oral argument (at the reviewing official's discretion). The reviewing official must give a copy of the written findings and decision to the parties. These duties and powers are regarded as necessary to insure that a full review will be conducted and that all parties will be informed of the result of the review. Revisions to timelines for any hearing or review are set out in section 121a.512.

CIVIL ACTION (§ 121a.511)

Comment: Commenters wanted the regulations revised to allow for direct appeal to the courts without first using administrative hearing and review procedures if those procedures would be futile, the timeliness or adequacy of the administrative proceedings are being challenged, or a class action is involved. Commenters cited language in the Congressional Record in support of this interpretation (121 Cong. Rec. S20433 daily ed., November 19, 1975).

Response: No change has been made. The legislative history cited is nongermane as it was made in reference to the Senate Bill (S. 6) which did not contain the final statutory provision on civil actions. The provision on civil action was added as a Conference substitute. The issue of exhaustion of remedies will be up to the courts to resolve.

TIMELINESS AND CONVENIENCE OF HEARINGS AND REVIEWS (§ 121a.512)

Comment: Commenters wanted clarification of the 45-day time limit for commencing and completing a hearing and review set out in the proposed regulations. They disagreed on whether the time should be shortened or lengthened.

Response: The section has been revised to set a 45 day time limit for a hearing and a 30 day limit for a State level review. In both instances, a decision must be reached and mailed to each of the parties within the time limits set. A hearing or reviewing officer may grant specific extensions, at his or her discretion, at the request of either party. The Office of Education believes reasonable outside time limits must be set to insure resolution of any dispute quickly so that the child's special education may proceed. Discretion for specific extensions is consistent with normal judicial and administrative practice.

CHILD'S STATUS DURING PROCEEDINGS (§ 121a.513)

Comment: Commenters suggested a provision be added to allow change of placement for health or safety reasons. One commenter requested that the regulations indicate that suspension not be considered a change in placement. Another commenter wanted more specificity to make it clear that where an initial placement is involved, the child be placed in the regular education program or, if the parents agree, in an interim special placement.

Response: A comment has been added to make it clear that this section would not preclude a public agency from using its regular procedures for dealing with emergencies.

SURROGATE PARENTS (§ 121a.514)

Comment: Commenters requested that the regulations clarify when surrogates may be appointed. One reason given was to insure that agencies do not attempt to appoint surrogates when parents are uncooperative or nonresponsive.

Response: The section has been revised to make it clear that the requirements for appointing surrogates apply only when no parent can be identified, the agency after reasonable efforts cannot discover the whereabouts of a parent, or the child is a ward of the State. Agencies are not allowed to appoint surrogates when parents are uncooperative or nonresponsive.

Comment: Commenters requested that the regulations further specify procedures to be used for the appointment of surrogates, including administrative proceedings with notice to interested parties and the right of interested parties to seek a review of the decision.

Response: No change has been made. State procedures for the appointment of surrogates will be followed. Disagreements about the choice of surrogates may be the subject of a due process hearing under section 121a.506.

Comment: A number of commenters suggested that the regulations provide more detail about the qualifications of the surrogates (for example, requiring training and a commitment to becoming acquainted with the child).

Response: No change has been made. The Office of Education believes these concerns are covered by section 121a.514(c)(2) which requires that the surrogate have knowledge and skills that insure adequate representation of the child.

Comment: A number of commenters were concerned about the legal liability of surrogates. Some commenters wanted the regulations to protect surrogates from any legal liability.

Response: No change has been made. The legal liability of surrogates will be determined under State law relating to such matters as breach of fiduciary duty, negligence, and conflict of interest. The Federal government has no authority to limit legal liability.

Comment: A number of commenters sought clarification regarding which agency employees could serve as surrogates. For example, one commenter wanted the regulations to indicate whether the head of a State institution could serve as the surrogate.

Response: The regulation has been reworded to make it clear that no employee of any agency involved in the education or care of the child may serve as the surrogate parent.

PROTECTION IN EVALUATION PROCEDURES

Section 612(5)(C) of the Act requires States to establish non-discriminatory testing procedures for use in the evaluation and placement of handicapped children. The requirements for public agencies to follow in carrying out this provision are set forth in sections 121a.530–121a.534 of Subpart E. (These section numbers have been changed to correspond with other number changes in Subpart E.)

The evaluation procedures in the proposed rules have been changed to conform to the corresponding requirements in the final regulations for section 504 of the Rehabilitation Act of 1973 (45 CFR Part 84, § 84.35) and in response to other comments received. (Many of the comments dealing with the language and substance of the proposed evaluation procedures are covered by the above conforming changes.) A summary of the changes in these procedures is included below:

(1) Proposed section 121a.431 ("Evaluation; change in placement") has been replaced with new section 121a.531 ("Preplacement evaluation"). This corresponds to section 84.35(a) of Part 84.

(2) Proposed section 121a.432 ("Evaluation procedures") has been divided into two sections (section 121a.532 "Evaluation procedures" and section 121a.533, "Placement procedures"). The new section on evaluation procedures (a) incorporates essentially verbatim the language of section 84.35(b) of Part 84, (b) adds two additional requirements from section 612(5)(C) of the Act which are not in Part 84 (e.g., the provision on native language, and the requirement that "No single procedure is used as the sole criterion for determining an appropriate educational program for a child"), and (c) requires that the evaluation be made by a "multidisciplinary team • • • including at least one teacher or other specialist with knowledge in the area of identified disability • • •"

(3) The new section on placement procedures incorporates essentially verbatim the language in section 84.35(c) of Part 84. In addition, the section ties the development of an individualized education program to the placement procedures.

The following additional comments were made regarding evaluation procedures:

Comment: Several commenters felt that the regulations should require State and local educational agencies to develop procedures for the conduct of evaluations. This would make it possible to determine the adequacy of the evaluations and to insure uniformity in basic procedures.

Response: A paragraph was added to section 121a.530 (General) which requires the State educational agency to insure that each public agency establishes and implements evaluation—placement procedures.

Comment: Several commenters felt that timelines should be set for implementing the evaluation process (e.g., for initial referral to evaluation and placement).

Response: No change has been made. The Office of Education has elected to impose very few absolute timelines in the regulations for this part, because of the potential administrative and legal problems they can cause. Imposing timelines can actually delay the provision of a service (for example, if the time periods are regarded as both minimum and maximum times for implementing a procedure).

A child should be evaluated as soon as possible following referral. Any undue delay in providing the evaluation would raise the question of the State and local educational agencies' compliance with sections 121a.128 and 121a.220 (identification and evaluation of all handicapped children).

Comment: Some commenters requested clarification regarding whether a reevaluation is needed, as required by proposed section 121a.431(a)(2), if the parents and agency agree that the child should be transferred from a special education program to a full time regular class placement.

Response: This specific section has been deleted in the final regulations. However, any changes in a child's placement (including a transfer to a regular class) would not be made until after a meeting is held to review the child's individualized education program in accordance with the requirements under sections 121a.340–121a.349 of Subpart C. If the parents and agency agree that the child no longer needs special education, a reevaluation would not be necessary. Section 121a.531 requires an evaluation before initial placement only. Reevaluations are covered under section 121a.534.

LEAST RESTRICTIVE ENVIRONMENT

Section 612(5)(B) of the Act requires States to establish policies and procedures to insure that "to the maximum extent appropriate, handicapped children • • • are educated with nonhandicapped children • • •." The regulations for implementing this provision are set out in sections 121a.550–121a.556 of Subpart E.

A new paragraph was added to section 121a.550 which requires the State to insure that all public agencies establish and implement procedures in accordance with the requirements of this subpart. In addition, a new section, entitled "Nonacademic settings" was added. This section is taken from a new requirement in the section 504 regulations (45 CFR Part 84, § 84.34).

GENERAL (§ 121a.550)

Comment: A number of commenters requested that provisions be made for special support in the regular classroom in order to accommodate handicapped children (e.g., including reducing the pupil-teacher ratio and assigning aides to the room).

Response: No change was made, since the statute already authorizes the use of supplementary aids and services as a means of enabling a handicapped child to be educated with nonhandicapped children.

CONTINUUM OF ALTERNATIVE PLACEMENTS (§ 121a.551)

Comment: Many commenters responded to this requirement. Some felt that terms other than "continuum" should be used (e.g., "range of programs" and "variety of services"). A large number of commenters felt that "continuum" carried negative connotations (e.g., statements were made that the concept undermines the ideals of Pub. L. 94–142, that it implies best-to-worst, etc.). Other commenters felt that it discriminated against residential or private schools, and suggested that efforts be made to counteract this bias.

Response: No change has been made in this section. The term "continuum," as with "least restrictive environment" (LRE), is commonly used by agencies, advocates, and parents. However, there is nothing to prohibit an agency from using terms such as those included above in administering these provisions.

As with "LRE," the term that is used is not as important as the basic provision and how that provision is implemented. The purpose of a continuum is to be able to accommodate to differences between handicapped children in terms of the degree of special assistance they need to receive a free appropriate public education. This matter was dealt with directly in the June 26, 1975 Report of the House of Representatives on HR 7217 (H. Rept. No. 94-332, p. 9):

The Committee understands the importance of providing educational services to each handicapped child according to his or her individual needs. These needs may entail instruction to be given in varying environments, i.e., hospital, home, school or institution. The Committee urges that where possible and where most beneficial to the child, special educational services be provided in a classroom situation. An optimal situation, of course, would be one in which the child is placed in a regular classroom. The Committee recognizes that this is not always the most beneficial place of instruction. No child should be denied an educational opportunity; therefore, H.R. 7217 expands special educational services to be provided in hospitals, in the home, and in institutions.

When it is clear that, because of the nature or severity of a child's handicap, the child must be educated in a setting other than the regular class, it is appropriate to implement such a placement. However, the LRE provision is also designed as a rights provision to protect against indiscriminate placement of a child in a separate facility solely because the child is handicapped and not because special education is needed in that type of setting.

Even with respect to severely handicapped children, it may be possible to meet the "regular education setting" goal by having a separate class or separate wing in a regular school building.

PLACEMENTS (§ 121a.552)

Comment: Many commenters were concerned that there may be an overzealous implementation of the LRE provision without regard to the needs of individual handicapped or nonhandicapped children.

Response: No substantive change has been made in this section, because the Office of Education feels that the section includes necessary safeguards to insure protection against the above concerns. With respect to those concerns, the overriding rule is that each child's placement must be determined annually and be based on his or her individualized education program.

With respect to concerns about the harmful effect of placing handicapped children in regular classes, the analysis of the section 504 regulations indicates: "• • • it should be stressed that, where a handicapped child is so disruptive in a regular classroom that the education of other students is significantly impaired, the needs of the handicapped child cannot be met in that environment. Therefore regular placement would not be appropriate to his or her needs • • •" (45 CFR Part 84—Appendix, paragraph 24)

Comment: A commenter requested that a new provision be added which requires State and local educational agencies to utilize community-based early childhood development programs for 3–5 year old handicapped children. The main intent of the new provision is "aimed solely at assuring maximum appropriate mainstreaming."

Response: No change was made in the section. The existing provisions are considered to be adequate to cover the intent of this request.

CONFIDENTIALITY OF INFORMATION

NOTICE TO PARENTS (§ 121a.561)

Comment: Commenters asked that the detailed content of the notice requirements be deleted as excessive.

Response: No change has been made. The Office of Education believes the provisions require that States provide necessary information to inform parents about the type of information collected about handicapped children to meet the requirements of this part.

ACCESS RIGHTS (§ 121a.562)

Comment: Commenters requested that this section be expanded to require that access to records be given in no case less than five days prior to meetings to develop individualized education programs or any hearing and to permit authorized representatives of the parent to inspect the record. A commenter felt the 45-day outside time limitation could be misinterpreted to mean an agency need not comply at all after 45 days from the date of the request.

Response: Language has been added to make it clear that an agency must comply with a request for access before any meeting regarding an individualized education program. This will help insure that interested parents are able to familiarize themselves with their child's records prior to any meeting and be able to participate more knowledgeably. The prohibition against unnecessary delay places an obligation on the agency to make the records available in a timely manner so that the Office of Education does not believe it is necessary to specify a specific time limitation. Section 121a.562 has been amended to give parents the right to have an authorized representative inspect their child's education records.

The 45-day time limitation is not subject to the misinterpretation the commenter fears. This language is from the Family Educational Rights and Privacy Act, section 438 of the General Education Provisions Act (specifically section 432(a)(1)(A)), to which these regulations are tied (by statute).

FEES (§ 121a.566)

Comment: A commenter felt the first copy of a record should be given free upon request from the parents.

Response: No change has been made. The prohibition against charging a fee if it would effectively prevent the parents from inspecting and reviewing the record is based on a requirement in the Family Educational Rights and Privacy Act, to which these regulations are limited by statute (section 612

V 42163 AUG 23 77 UMI

(2)(C)). Agencies may of course adopt policies of making copies available free of charge and are encouraged to do so.

HEARING PROCEDURES (§ 121a.570)

Comment: A commenter requested clarification of who conducts a hearing.

Response: The section states that the procedures under § 99.22 (the hearing procedures in the regulations for the Family Educational Rights and Privacy Act) be used. Section 99.22(b) states the hearing may be conducted by any party, including an official of the educational agency or institution, who does not have a direct interest in the outcome of the hearing.

CONSENT (§ 121a.571)

Comment: Commenters requested that "advanced students," "persons acting as practicum advisors," and researchers be given access to records without consent.

Response: No change has been made. The Family Educational Rights and Privacy Act specifically lists parties and conditions where records may be released without parental consent.

SAFEGUARDS (§ 121a.572)

Comment: A commenter requested a list of positions rather than a list of names of employees who may have access to personally identifiable information.

Response: The requirement has been modified to require a list of names and positions to more fully inform parents and the public of the categories of individuals given access to data as well as the specific individuals who may have access.

DESTRUCTION OF INFORMATION (§ 121a.573)

Comment: A number of commenters were concerned about the destruction requirements. The principle concern was that detailed records might be needed by the handicapped individuals to show proof of need for further services from other agencies. One recommendation was that the parent and child be notified of the existence of the records at the time of graduation and informed that they would be destroyed only upon request of the parent or child. Another commenter suggested that records be maintained, but that parents be given the option to have them destroyed.

Response: The requirement has been revised to permit the parents to request that the information be destroyed and to require the public agency to inform the parents of the destruction option and their right to have the records destroyed upon request. The notice would normally be given at the time a child graduates or otherwise leaves the agency. The purpose of the destruction option is to insure that nonessential records about a child's behavior, performance, and abilities, which may possibly by stigmatizing and are highly personal, are not kept after they are no longer needed for educational purposes. Destruction of these records is the best protection against improper or unauthorized disclosures. However, the handicapped child or his or her parents may need certain records for other purposes (such as proof of eligibility for benefits).

Comment: Commenters asked that notice be given to a child who has reached the age of majority.

Response: No change has been made. Section 121a.574 requires the State educational agency to have policies and procedures regarding children's privacy rights. Where education records are maintained by an agency covered under the Family Educational Rights and Privacy Act, these rights must include transfer of the rights of parents to the child when he or she reaches 18 or the postsecondary education level.

Other Changes: The regulations have been revised to make it clear that the records covered under this Act are the same as the type of records covered under the Family Educational Rights and Privacy Act. Consistency in coverage is necessary to avoid undue administrative burdens on public agencies covered by both laws.

OFFICE OF EDUCATION PROCEDURES

General: The requirements in these sections largely repeated the statute. Perhaps for this reason, few comments were received on the Office of Education procedures.

WAIVER OF REQUIREMENT REGARDING SUPPLEMENTING AND SUPPLANTING WITH PART B FUNDS (§ 121a.589)

Comment: A commenter requested that the special study to determine if a waiver of the requirement should be granted include a review of whether grievance procedures are operational. Other commenters disagreed on the need for this study.

Response: A requirement has been added to have the study cover the adequacy of the State's due process procedures, as this is an important part of insuring that grievances are heard and to determine if parents and other parties are satisfied with the adequacy of the State's programs for handicapped children.

WITHHOLDING PAYMENTS (§ 121a.590)

Comment: Commenters asked for definitions of "substantial compliance" and "failure to comply." Commenters also urged that the Office of Education, the Office for Civil Rights, and Departmental audit officials apply the same criteria.

Response: No change has been made. The Office of Education believes these terms will have to be defined on a case-by-case basis.

The Office of Education and the Office for Civil Rights will coordinate and cooperate in enforcing requirements under this Part and Part 84 (the regulations for section 504 of the Rehabilitation Act of 1973) where identical requirements are involved. The Office of Education will make every effort to insure that auditing officials understand and apply any criteria used by program officials.

SUBPART F—STATE ADMINISTRATION

This subpart has been expanded with requirements set out under the major headings: State Educational Agency Responsibilities, Use of Funds, and State Advisory Panel.

STATE EDUCATIONAL AGENCY RESPONSIBILITIES

Provisions on State educational agency responsibilities have been redrafted (and relocated from proposed section 121a.34) in response to comments, to better summarize general administrative and supervisory responsibilities in section 612(6) and other sections of the Act. A section on complaint procedures, which was included in previous regulations for Part B (prior section 121a.14) and inadvertently not included in the proposed regulations has been added.

Comment: Commenters requested addition of a new section on State educational agencies' responsibilities for monitoring, evaluation, and enforcement activities to insure compliance throughout the State with the requirements of this part. The commenters made specific suggestions for implementing such a section, including collection of data, conduct of on-site visits, audit of fund utilization, comparison of written individualized education programs with programs actually provided, meetings with parents and parent groups, public hearings, development of detailed criteria for evaluating program quality and effectiveness, and detailed procedures for enforcing requirements against noncomplying agencies.

Response: A new section has been added to require each State educational agency to develop procedures and specific timelines for monitoring and evaluating public agencies involved in the education of handicapped children. These are minimal requirements. Adoption of the other suggestions made by the commenters is encouraged but not required.

ALLOWABLE COSTS (§ 121a.621)

Comment: A number of commenters requested that the limitation on State administrative funds be raised and that provisions be added to allow local educational agencies to use funds for administrative costs.

Response: No change has been made on the State limit as it is a statutory limitation.

Comment: Commenters requested that the regulations require each State educational agency to use its funds for specific purposes. One recommendaiton was that ten percent of the administrative funds be used to train persons in local communities to assist and represent parents and to prepare and disseminate to parents information about their rights under these regulations. Another was that they be used to disseminate instructional material.

Response: No change has been made. The Office of Education does not believe it is appropriate to dictate to States how to use their limited administrative funds.

STATE ADVISORY PANEL

ESTABLISHMENT (§ 121a.650)

Comment: One commenter recommended that local panels be required.

Response: No change has been made. The statute only requires a State advisory panel. A State may, of course, decide to establish local panels.

MEMBERSHIP (§ 121a.651)

Comment: A substantial number of commenters requested additions to the list of representatives to be included on the panel, including professional groups, legal advocacy groups, and employees of State and local agencies. Some commenters recommended that handicapped individuals or their parents make up specific percentages of the panel.

Response: A provision has been added to make it clear that a State may expand the advisory panel to include additional persons in the groups listed (which are statutory) and representatives of other groups. The Office of Education does not believe it is appropriate to prescribe specific percentages, as the States should have some discretion to determine the proper mix of representatives. A comment has been added to indicate factors a State may consider in determining balanced membership of the panel.

ADVISORY FUNCTIONS AND ADVISORY PANEL PROCEDURES (§§ 121a.652—121a.653)

Comment: Commenters recommended that the regulations indicate that the panel must comment publicly on the State annual program plan as well as on any rules and regulations regarding education of handicapped children, review annual evaluations, and act as ombudspersons to hear complaints.

Response: A change has been made to require the panel to comment on the annual program plan. The annual program plan is an extremely important document and this addition makes it clear that the advisory panel must be involved in reviewing it. The other recommendations are legitimate activities but not ones the Federal government believes should be required by these regulations at this time.

Comment: Commenters requested that the regulations provide that panel members be reimbursed for reasonable and necessary expenses for attending meetings and performing duties.

Response: This change has been made. It is reasonable to require reimbursement for expenses so that persons will be able to participate without financial sacrifice.

SUBPART G—ALLOCATIONS OF FUNDS: REPORTS

ALLOCATIONS

This major section of Subpart G is entirely statutory; therefore, there are no comments of substance on which to respond.

REPORTS—ANNUAL REPORT OF CHILDREN SERVED (§§ 121a.750–121a.754)

The following comments were received regarding the annual report by the States of the number of children receiving special education and related services. This report is the basis for each State's allocation of funds under Part B, and serves as a mechanism for the Commissioner to meet some of his reporting requirements to Congress under section 618 of the Act. Some commenters recommended changes that would require amendment of the Act. These have not been summarized except where further explanation seemed to be useful.

AMOUNT OF INFORMATION REQUIRED IN THE REPORT

Comment: Commenters varied in their views on what information should be included in the report. It was suggested that additional information be collected for compliance purposes. Objections were made to the requirement for reporting information by disability category, and for reporting the 0-2 year old population. On the other hand, some commenters recommended that additional categories be added to the report, particularly for deaf-blind children and for multihandicapped children.

Response: Two categories of handicapped children have been added to the report—one for multihandicapped children and one for deaf-blind children. These terms are defined in section 121a.5 of Subpart A. No other changes have been made on the amount of information to be reported.

The additional categories should help to insure that no handicapped child is counted more than once, since the States will not have to decide in which of two or more disability categories to count a multihandicapped child. The changes conform to existing reporting requirements used by the States.

The annual report of children served is not a compliance document. It is only used to determine each State's allocation and to assist the Commissioner in meeting his reporting requirements to the Congress under section 616. Under section 611 of the Act, allocations are based on the number of handicapped children in each State receiving special education and related services. Compliance with requirements such as "least restrictive environment" will be achieved through other mechanisms, including the State's annual program plan, the local educational agency's application, and monitoring by the State educational agency and the Office of Education.

As explained in the preamble to the proposed rules published in the FEDERAL REGISTER on September 8, 1976, the report requirements are the minimum needed by the Commissioner to carry out the Act. (See 41 FR 37814.) While the Commissioner is concerned about the possible harmful effects of "labeling" children, the Act requires that the Commissioner report a substantial amount of information, to Congress by disability category. For this reason, and for the other reasons stated in the September 8, 1976, FEDERAL REGISTER, there appears to be no workable alternative to retaining the categories in the States' annual reports. The various disability categories, as well as the requirements to use them in the Commissioner's reports to the Congress, are statutory.

WHO MAY BE COUNTED

Comment: Commenters disagreed as to whether handicapped children should be counted if their special education is paid for solely from private sources or solely from Federal funds (such as children living on military bases). Some thought that only publicly-funded special education should qualify, while others argued that since all children have a right to a free appropriate public education the source of funding (other than the parent) should not matter.

Response: Section 121a.753 has been amended to provide that handicapped children (including such children in Head Start or other preschool programs) may be counted only if they (1) are enrolled in a school or program which is operated or supported by a public agency, and (2) receive special education that meets State standards.

A State may not count a child whose special education is paid for solely by the Federal government, unless the child is in one of the age groups 3–5 or 18–21, and there are no local or State funds available for nonhandicapped children in that age group.

Children funded solely by the Federal government would include Indian children whose special education is paid for solely by the Federal government, as well as children on military bases whose education is paid for solely with Federal funds. This rule is consistent with the requirement that a free appropriate public education (FAPE) be made available by the State to each handicapped child. Parents are not required to take advantage of FAPE. If they choose to educate their child outside of the public school system, even though FAPE is available, the State has discharged its responsibility. However, by the same token, the child should not be counted by the State for its allocation if the child is not being provided special education at public expense. The same reasoning applies to Indian children and other children who receive their special education from the Federal government. The rule should serve as an encouragement to States to provide services to all handicapped children, however, since any child provided special education from State or local funds may be counted.

Comment: Two other provisions in the regulations were objected to by commenters. The first of these provided that handicapped children "enrolled" in schools to receive special education could be counted as receiving special education. These commenters felt that enrollment did not guarantee actual receipt of services. The second provision stated, in essence, that a child who receives special education may be counted, but not a child who receives only "related services." This was viewed as an overly restrictive reading of the Act.

Response: No change has been made in the regulations. While no system is perfect, enrollment is a legitimate way of determining the number of handicapped children receiving special education on October 1 and on February 1, the two dates on which the Act requires the count of children served. It would not be practical to make an actual head count of children in classrooms and other facilities where services are provided.

With respect to children who only receive "related services," this is governed by statutory language. "Related services" are only those "required to assist a handicapped child to benefit from special education." (Section 602(17) of the Act.) If a child does not need special education, there can be no "related services," as that term is defined in the Act. However, section 121a.14 permits a State to define certain services as "special education," if those services are "specially designed instruction to meet the unique needs of a handicapped child." (This is taken from the definition of "special education" in section 602(16) of the Act.)

REALLOCATION OF LOCAL EDUCATIONAL AGENCY FUNDS (§ 121a.708)

Comment: Commenters requested criteria be added for when funds may be reallocated.

Response: No criteria have been added as determinations will be made on a case-by-case basis.

APPENDIX B—INDEX TO PART 121a

ADMINISTRATION

See: Monitoring.
Annual program plan requirements—§§ 121a.112; 121a.134; 121a.138; 121a.141; 121a.142; 121a.145.
Certification of State authority—§ 121a.112.
Direct Service by State educational agency—§ 121a.360.
Local application requirements—§§ 121a.228; 121a.236; 121a.240.
Local education agency definition—§ 121a.8.
State administration—Subpart F.

ADVISORY PANEL (STATE)

Annual program plan requirement—§ 121a.147.
General requirements—§§ 121a.650–121a.653.

ALLOCATIONS

Annual program plan condition of assistance—§ 121a.110.
Application by local agency condition of assistance—§ 121a.180.
Consolidated applications—§ 121a.191.
Count of children—See Reports.
Interior Department for Indian children:—§ 121a.709.
Local agency allocation—See Reports.
Formula—§§ 121a.705–121a.707.
Reallocation—§ 121a.708.
Use by the State—§ 121a.360.
Outlying areas—§ 121a.710.
Recovery for misclassified children—§ 121a.141.
State allocation:
Formula—§§ 121a.701–121a.703; 121a.705–121a.706.
Hold harmless—§ 121a.704.
Use for administration—§§ 121a.620–121a.621.
Use of—See other headings.
Withholding—See: Hearings.
From the local agency—§ 121a.194.
From the State—§§ 121a.590–121a.593.

ANNUAL PROGRAM PLAN

Approval; disapproval—§ 121a.113.
Certifications—§ 121a.112.
Condition of assistance to State—§ 121a.110.
Contents—§§ 121a.111; 121a.112; 121a.120–121a.151.
Effective period—§ 121a.114.
General requirements—§§ 121a.110–121a.114.
Public participation—See: Public Participation.
Submission by State—§ 121a.110.

APPLICABILITY OF REGULATIONS—§ 121a.2

APPLICATION BY LOCAL AGENCY

Annual program plan requirement—§ 121a.144.
Approval or disapproval by State educational agency—§§ 121a.193; 121a.360.

V42163 AUG 23 77 UMI

Second priority children—amendment of application—§ 121a.324.
Submission by local agency—§ 121a.180.
Condition of assistance to local agency—§ 121a.180.
Consolidated application—§§ 121a.190–121a.192.
Content—§§ 121a.220–121a.240.
Excess costs—See: Excess Costs.
Public participation—See Public Participation.

AUDITS

See: Monitoring.

COMPLAINTS

State educational agency procedures—§ 121a.602.
See: Hearings.

COMPARABLE SERVICES

Local application requirement—§ 121a.231.

CONSENT

Defined—§ 121a.500.
Disclosure of information—§ 121a.571.
Initial placement—§ 121a.504(b).
Placement status during a proceeding—§ 121a.513.
Preplacement evaluation of child—§ 121a.504(b).

CONFIDENTIALITY OF INFORMATION

Annual program plan requirement—§ 121a.129.
Definitions—§ 121a.560.
General requirements—§§ 121a.560–121a.572.
Local application requirements—§ 121a.221.

CONSOLIDATED APPLICATIONS

See: Application of local agency.

COUNT OF CHILDREN

Annual report of children served—§§ 121a.750–121a.754.
Allocations:
State entitlement—§§ 121a.701–121a.702.
Local educational agency entitlement—§ 121a.707.
Outlying areas entitlements—§ 121a.710.

DEFINITIONS—§§ 121a.4, 121m.15

DUE PROCESS

See: Confidentiality of Information.
Evaluation.
Hearings.
Notice.
Procedures for parents and children—§§ 121a.500–121a.514.

Physical Education.
Special Education.
Related Services.

EVALUATION

Advisory panel function—§ 121a.652.
Annual program plan requirements—§§ 121a.128; 121a.133; 121a.146.
Education programs—§ 121a.146.
Handicapped children:
Consent required for—§ 121a.504.
Defined—§ 121a.500.
Hearings—See Hearings.
Independent educational evaluation—§ 121a.503.
Information on achievement—§ 121a232.
Notice required—§§ 121a.504–121a.505.
Protection—§§ 121a.129, 121a.133, 121a.221, 121a.530–121a.534.
State responsibility—§ 121a.128.
Hearing aids—§ 121a.303.
Individualized education programs—§ 121a.146.
Personnel development—§ 121a.386.
Private school children service needs—§ 121a.453.
State educational agency activities—§§ 121a.146; 121a.601.
Training—See: Personnel development, this heading.

EXCESS COSTS

Generally—§§ 121a.182–121a.186.
Local application requirement—§ 121a.229.
Not applicable to State educational agency—§ 121a.360.

FREE APPROPRIATE PUBLIC EDUCATION

See: Individualized Education Programs.
Related Services.
Special Education.

Withholding payments from a State—§ 121a.590.

IDENTIFICATION, LOCATION, EVALUATION

See: Evaluations.
Annual program plan requirement—§ 121a.128.
Local application requirement—§ 121a.220.
Private school children—§ 121a.453.

INDIAN CHILDREN

Application from Secretary of Interior—§§ 121a.260–121a.263.
Count—§§ 121a.753.
Payments to Secretary of Interior—§ 121a.709.

INDIVIDUALIZED EDUCATION PROGRAM

Accountability—§ 121a.349.
Annual program plan requirement—§ 121a.130.
Content—§ 121a.346.
Defined—§ 121a.340.
Effective dates—§ 121a.342.
First priority children—§ 121a.322.
Free appropriate public education definition—§ 121a.4.
General requirements—§§ 121a.340–121a.349.
Least restrictive environment—§ 121a.552.
Local application requirement—§ 121a.235.
Meetings—§§ 121a.343–121a.345.
Parent participation—§ 121a.344.
Placement—§§ 121a.533; 121a.552.
Private school children—§§ 121a.347–121a.348; 121a.401.
Reevaluation—§ 121a.534.

LEAST RESTRICTIVE ENVIRONMENT

Annual program plan requirement—§ 121a.132.
General requirements—§§ 121a.550–121a.556.
Local application requirement—§ 121a.227.
Nature and location of State services—§ 121a.361.
Nonacademic services and settings—§§ 121a.306; 121a.553.
Physical education—§ 121a.307.
Placement decisions—§§ 121a.513; 121a.533.
Program options—§ 121a.305.

MATCHING—§ 121a.371

MONITORING

Annual program plan requirements—§§ 121a.128(b)(5); 121a.130(b)(2); 121a.135.
Auditing count of children served—§ 121a.754.
Confidentiality of information—§ 121.575.
Identification, location, evaluation—§ 121a.128(b)(5).
Individualized education programs—§ 121a.130(b)(2).
Least restrictive environment—§ 121a.556.
Private school children—§ 121a.402(a).
State educational agency responsibility—§ 121a.601.

NONDISCRIMINATION

Annual program requirement—§ 121a.150.
Evaluation materials and procedures—§ 121a.530.
Local application requirement—§ 121a.239.
Nonacademic services—§ 121a.306.
Private school children—§ 121a.458.
Program options—§ 121a.305.
Testing materials and procedures—§ 121a.530.

NOTICE

Confidentiality of information—§§ 121a.561, 121a.573.
Individualized education program meeting—§ 121a.345.
Intitiation or change of identification, evaluation, placement, or free appropriate public education—§§ 121a.504–121a.505.
Notice of opportunity for a hearing—See: Hearings.
Notice of procedural safeguards—§ 121a.505.
Public notice of withholding payments—§ 121a.592.

PERSONNEL DEVELOPMENT

Annual program plan requirement—§ 121a.139.
Comprehensive system of personnel development—§§ 121a.380–121a.387.
Included in State support services—§ 121a.370.
Least restrictive environment—§ 121a.555.
Local application requirement—§ 121a.224.
Personnel needs—§§ 121a.126; 121a.223.
Preservice training—§ 121a.321.

Trained personnel for evaluation materials—§ 121a.532.
Training regarding confidentiality of information—§ 121a.572.
Use of Part B funds for training—§§ 121a.321, 121a.322.

PHYSICAL EDUCATION

Included in special education—§ 121a.14.
Required—§ 121a.307.

PLACEMENTS

See: Evaluation.
Least Restrictive Environment.
Private schools.

PRIORITIES

See: Evaluation.
Indentification, Location, Evaluation.
Annual program plan requirement—§ 121a.127.
Definitions:
First priority children—§ 121a.320(a).

5. A new Part 121m is added to read as follows:

PART 121m—INCENTIVE GRANTS

Sec.
121m. 1 Scope; purpose.
121m. 2 General provisions regulations.
121m. 3 Eligibility.
121m. 4 Application.
121m. 5 Application contents.
121m. 6 Amount of grant.
121m. 7 Participation by children not counted under Part B of the Act.
121m. 8 Excess costs.
121m. 9 Administration.
121m. 10 Annual evaluation report.

AUTHORITY: Sec. 619 of Pub. L. 91–230, as amended, 89 Stat. 793 (20 U.S.C. 1419), unless otherwise noted.

§ 121m.1 Scope; purpose.

(a) This part applies to assistance under section 619 of the Act.

(b) The Commissioner awards a grant to each State which provides special education and related services to handicapped children ages three, four, or five.

(c) The State shall use funds provided under this part to give special education and related services to handicapped children in the age groups named in paragraph (b) of this section.

(d) The terms "special education" and "related services" have the meanings defined in § 121a.12 and § 121a.13 of this chapter.

(20 U.S.C. 1419(c).)

§ 121m.2 General provisions regulations.

Assistance under this part is subject to the requirements in Parts 100, 100b, 100c, and 121 of this chapter (including definitions and fiscal, administrative, property management, and other matters).

(20 U.S.C. 1419.)

§ 121m.3 Eligibility.

A State is eligible to receive a grant if:

(a) The Commissioner has approved its annual program plan under Part 121a of this chapter; and

(b) The State provides special education and related services to any handicapped children aged three, four, or five.

(20 U.S.C. 1419(a).)

§ 121m.4 Application.

To receive funds under this part, a State must submit an application to the Commissioner through its State educational agency.

(20 U.S.C. 1419(b).)

§ 121m.5 Application contents.

An application must include the following material:

(a) A description of the State's goals and objectives for meeting the educational needs of handicapped children ages three through five. These goals and objectives must be consistent with the State's full educational opportunity goal under § 121a.123 of this chapter.

(b) A description of the objectives to be supported by the grant in sufficient

V 42163 AUG 23 77 UMI

detail to determine what will be achieved with the grant.

(c) A description of the activities to be supported by the grant. The activities must be related to the objectives under paragraph (b) of this section and must be described in sufficient detail to determine how the grant will be used.

(d) A description of the impact the proposed activities will have on handicapped children ages three through five. This description must include evidence that the proposed activities are of sufficient size, scope, and quality to warrant the amount of the expenditure. The application must indicate the number of children to be served and the number of handicapped children who will be benefitted indirectly. If children are to be benefitted indirectly, there must be a rationale that demonstrates the benefit.

(e) The number of local educational agencies or intermediate educational units, and the number and names of other agencies which will provide contractual services under the grant, the activities they will carry out, and the reasons for selecting these agencies.

(f) The dollar amounts that will be spent for each major activity described.

(g) A description of the procedures the State will use to evaluate the extent to which the activities met the objectives described under paragraph (b) of this section.

(20 U.S.C. 1419(b).)

§ 121m.6 Amount of grant.

(a) The amount of a grant is $300 multiplied by the average number of children ages three through five counted during the current school year under §§ 121a.750–121a.754 of this chapter.

(b) If appropriated funds are less than enough to pay in full the grants under this part, the amount of each grant is ratably reduced.

(20 U.S.C. 1419(a), (d).)

§ 121m.7 Allowable expenditures.

(a) The State educational agency may use funds under this part to give special education and related services to handicapped children ages three through five who are not counted under §§ 121a.750–121a.754 of this chapter if the State educational agency insures that those children have all of the rights afforded under part 121a of this chapter.

(b) The State educational agency may use up to five percent of its grant for the costs of administering the funds provided under this part.

(20 U.S.C. 1419(c).)

Comment. In carrying out the provisions of this part some activities are considered particularly appropriate for the use of these funds: (1) Providing parents with child development information; (2) assisting parents in the understanding of the special needs of their handicapped child; (3) providing parent counseling and parent training, where appropriate, to enable parents to work more effectively with their children; (4) providing essential diagnosis and assessment; (5) providing transportation essential to the delivery of services; (6) providing speech therapy, occupational therapy, or physical therapy.

§ 121m.8 Excess costs.

(a) If local or State funds are available to pay for the education of nonhandicapped children of the same age as the handicapped children served with funds under this part, funds equal to that amount must also be made available for these handicapped children.

(b) If no local or State funds are available for nonhandicapped children of the same age, funds under this part may be used to pay for all of the costs directly attributable to the education of the handicapped children.

(20 U.S.C. 1419(c).)

§ 121m.9 Administration.

(a) The State educational agency shall administer the funds provided under this part.

(b) The State educational agency may use the funds itself, or may contract with local educational agencies, intermediate educational units, or other agencies.

(20 U.S.C. 1419(a).)

§ 121m.10 Annual evaluation report.

(a) Within 90 days after the end of the grant period, the State educational agency shall submit a report to the Commissioner on the activities carried out under this part during that period.

(b) The report must contain:

(1) The results of the evaluation under § 121m.5(g), and

(2) In brief narrative form, the impact that these funds have had on the State's educational services to handicapped children ages three, four, and five.

(20 U.S.C. 1419(c).)

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

MEDICAL DEVICES

Establishment Registration and Premarket Notification Procedures

V 42 163 AUG 23 77 UMI

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER H—MEDICAL DEVICES

[Docket No. 76N-0355]

ESTABLISHMENT REGISTRATION AND PREMARKET NOTIFICATION PROCEDURES

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The agency is issuing final regulations setting forth procedures for the registration of establishments in which devices intended for human use are produced. These regulations also establish requirements governing the form and manner in which premarket notification submissions are to be sent to the Food and Drug Administration (FDA), at least 90 days in advance, by any person who proposes to begin commercial distribution of a device intended for human use in interstate commerce. The Medical Device Amendments of 1976 have provided the agency with the authority to promulgate such regulations to ensure the safety and effectiveness of medical devices for humans.

The agency also is establishing rules governing the availability to the public of premarket notification submissions. The existence of a submission and its contents will generally be available to the public upon request, but the regulations provide an exception allowing the existence and contents of certain submissions to be considered confidential commercial information. However, the Commissioner announces his intention to consider further revisions in the regulation when he publishes proposed regulations concerning FDA's handling of public information requests involving new drug applications and related industry submissions to FDA.

EFFECTIVE DATE: September 22, 1977.

FOR FURTHER INFORMATION CONTACT:

FOR THE ESTABLISHMENT REGISTRATION PROVISIONS

Thomas V. Kelley, Bureau of Medical Devices (HFK-124), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Ave., Silver Spring, MD 20910 (301-427-7190).

FOR PREMARKET NOTIFICATION PROCEDURES

Robert S. Kennedy, Bureau of Medical Devices (HFK-1), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Ave., Silver Spring, MD 20910 (301-427-7900).

SUPPLEMENTARY INFORMATION: The proposed regulations on which these final regulations are based were published in the FEDERAL REGISTER of September 3, 1976 (41 FR 37458). Interested persons were given until November 2, 1976 to comment.

Forty-seven comments were received on the proposal. The issues most often raised by these comments concerned the exemptions from registration, the requirements for submitting a premarket notification when a change or modification is made to a device already on the market, the FDA review of premarket notification submissions, and the confidentiality of premarket notification submissions.

In general, the final regulation has been adopted as proposed although several changes have been made in response to the comments and to clarify the language of the regulation.

ESTABLISHMENT REGISTRATION

1. Definitions of "act" and "distributor" are being added for clarity to § 807.3 of the final regulation. The Commissioner of Food and Drugs is also adding a new paragraph (h) to this section which states that the terms defined in section 201 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321) shall have the same meaning in these registration regulations.

2. Three comments asserted that if the definition of "commercial distribution" was adopted as proposed in § 807.3 (a), multinational corporations would be required to file a premarket notification submission for an intraorganizational shipment between a foreign subsidiary and a domestic parent. The comments indicated that premarket notification in such a situation would not serve any useful purpose since the device will not go "on the market" at that point, and also indicated that a second premarket notification would be required when the device is about to be marketed by the parent company. It was therefore suggested that the words "registered domestic" should be deleted from the definition of "commercial distribution" to clarify that premarket notification is not required for such intraorganizational shipments.

The Commissioner agrees that premarket notification is not required when a device is to be shipped from a foreign subsidiary to a domestic parent establishment and there is no distribution outside the company. It is necessary, however, that FDA be notified at least 90 days before the device is distributed and held or offered for sale within the United States. Therefore, as suggested by the comments, the phrase "registered domestic" has been deleted from the definition of commercial distribution in the final regulation.

Two comments also suggested that the shipment of a device for display as a work-in-process or as an engineering prototype at a scientific exhibit should not be considered "commercial distribution" of a device. These comments noted that such shipments are useful to manufacturers and the scientific community and present no danger to the public health.

The Commissioner notes that the definition of "commercial distribution" applies only to a device that is "held or offered for sale." If a device is shipped merely for display as a work-in-process or as an engineering prototype at a scientific exhibit and is not held or offered for sale, it will not be considered to be in "commercial distribution."

3. One comment questioned whether the term "establishment" in proposed § 807.3(b) (redesignated § 807.3(c)) is synonymous with the terms "division" or "owner or operator." Another comment questioned whether a division of a company would be an "owner or operator" where such a division has more than one operating facility.

The Commissioner notes that an "establishment" within the meaning of new § 807.3(c) is a place of business at which a device is processed, whereas an "owner or operator" within the meaning of new § 807.3(f) is the person or organization directly responsible for the activities of an establishment. Therefore, the terms "establishment" and "owner or operator" are not synonymous. A division may be either an "establishment" or an "owner or operator" depending upon which definition applies.

4. One comment objected that proposed § 807.20 would require a manufacturer of a device "intended for human use" to register. This comment asserted that the phrase "intended for human use" is too broad and would include devices not within the scope of the act. The comment suggested that this phrase should be changed to "device as defined in section 201(h) of the act."

The Commissioner notes that the definition of device in section 201(h) of the act includes devices other than those intended for human use. However, the registration provisions of section 510 of the act (21 U.S.C. 360) and Part 807 apply only to devices intended for human use and not to devices intended for veterinary use. In all other respects the term "device" as used in the regulation is intended to carry the meaning conveyed in section 201(h) of the act. Therefore, the phrase "intended for human use" has been retained in the final regulation.

5. One comment objected to the fact that under proposed § 807.20(a) registration is required for any person who initiates specifications for a device that is to be manufactured for him for subsequent commercial distribution. It was argued that section 510 of the act requires the registration of any establishment engaged in the manufacture, preparation, propagation, compounding, or processing of a device, and that the initiation of specifications is not within any of these processes.

The Commissioner believes that a person initiating specifications for a device to be manufactured for him for commercial distribution would be engaged both in the manufacture and in the propagation of a device and therefore should register with FDA. The initiation of specifications is a process that often occurs within the manufacturing establishment as part of the manufacturing process. A device may be manufactured exactly according to specifications and still be defective if the specifications are

faulty; for that reason, the regulation requires registration.

The Commissioner notes, however, that the requirement to register applies only if the person initiating specifications has the device manufactured for him for commercial distribution and the device is marketed under the name of the person initiating the specifications. The Commissioner believes that a person who has a device marketed under his name is engaged in the propagation of a device. The requirement to register does not apply when the person initiating the specifications is in a consulting capacity or transfers the rights to manufacture and to distribute the device to other persons. To reflect this position, the regulation has been changed in §§ 807.3(d)(3) and 807.20(a)(1) to provide that a person initiating specifications is required to register only if the device is to be put in commercial distribution by him.

6. One comment suggested that proposed § 807.20(a) be clarified so that only one establishment of a company would be required to register for each device and the manufacturer could determine which location would be the most appropriate one to register.

The suggestion has not been adopted. A device may be processed wholly or in part at more than one establishment. For the purposes of inspection, the Commissioner should be aware of all establishments at which a device is manufactured, prepared, propagated, compounded, or processed, and therefore all such establishments must be registered.

7. Various comments addressed the time periods allowed for establishment registration under proposed § 807.21. This section provided that an establishment register within 15 days of receiving Form FD-2891 (Initial Registration of Device Establishment) if the establishment were currently engaged in an operation requiring registration. One comment suggested that this period be changed to 30 days and another suggested that it should be 60 days. Proposed § 807.21 also provided that an establishment register within 5 days after submitting a premarket notification if it had not been previously engaged in an operation requiring registration. One comment suggested that this period be changed to 15 days; another suggested that it should be 30 days.

All these comments argued that the longer time periods are necessary so that the registration form can go through the approval process within the business organization.

The Commissioner agrees with these comments, and the time frames for registration have been changed in the final regulation. He also notes that in 1976 FDA mailed registration forms to all human medical device establishments of which it had knowledge. Many establishments completed and returned these registration forms, while other establishments did not register, awaiting these final regulations. The Food and Drug Administration does not plan another mass mailing of registration forms, but will send individual forms to establishments that request them. The requirement that establishments currently engaged in an operation requiring registration must register within 15 days after receiving Form FD-2891 has been deleted from the final regulation as unnecessary. Establishments currently engaged in an operation requiring registration that have not yet registered must register within 30 days after the effective date of this regulation.

The Commissioner has also determined that it is inappropriate to require an establishment not currently engaged in an operation requiring registration to register within 5 days after submitting a premarket modification. If the Commissioner determines that the device is not substantially equivalent to one already on the market and therefore premarket approval is required, the owner or operator may decide that it is not economically feasible to market the device. This would result in an establishment being registered that is not engaged in the medical device business. As a result, the final regulation requires the owner or operator to register within 30 days after entering into an operation requiring registration.

8. One comment suggested that Form FD-2891 (Initial Registration of Device Establishment) provide a space for designation of the person(s) to whom copies of correspondence should be sent. The comment stated that if a subcontract-manufacturer registers, there should be an official means of notifying the responsible manufacturer.

The Commissioner notes that under these regulations copies of all correspondence will be sent to the official correspondent as listed on Form FD-2891. The official correspondent is responsible for notifying the proper persons within the establishment, and, when desired by those persons, those with whom a contractual relationship exists.

9. Five comments argued that the 5-day period allowed for submission of amendments to the establishment registration under proposed § 807.26 is too short to allow for preparation within the company and for mailing time. Two of the comments suggested that the period should be 15 days; three comments suggested that 30 days should be allowed for submission of amendments.

The Commissioner agrees that 5 days may not be a sufficient time for submission of amendments to the registration form. The final regulation therefore allows 30 days for submission of an amendment after the change in registration information occurs.

10. One comment referring to proposed § 807.37 asserted that the establishment registration forms should not be made available for public inspection since the listing of device activities on them could be used to the disadvantage of the person submitting the registration forms.

Section 510(f) of the act requires the Commissioner to make available for public inspection any registration submitted pursuant to section 510. Accordingly, such information will be made available as required under the act. The Commissioner advises, however, that he does not believe that the registration forms require the submission of any trade secret information or any information that truly could be considered to be of a confidential commercial character.

11. Two comments sought clarification of the meaning of the word "requested" in proposed § 807.40 in reference to registration procedures for foreign device establishments. These comments asserted that if foreign manufacturers were not required to register it would give them an unfair competitive advantage over domestic manufacturers.

Section 510(i) of the act provides that foreign device establishments "shall be permitted" to register according to regulations to be promulgated by the Commissioner. The Commissioner therefore cannot as a matter of law require foreign device establishments to register. However, foreign device establishments will be required to list their devices with FDA in accordance with device-listing regulations that will be published in the FEDERAL REGISTER as a proposal in the near future.

Under section 801(a) of the act, the Commissioner is required to furnish the Secretary of the Treasury a list of foreign establishments registered pursuant to subsection 510(i). If a foreign manufacturer does not register under subsection 510(i) of the act or does not provide product-listing information under subsection 510(j) of the act, the device is required to be sampled by the Secretary of the Treasury for examination by FDA upon importation or an offer of importation into the United States.

12. One comment objected to the exemption in proposed § 807.65(d) for licensed practitioners who manufacture or alter devices solely for use in their practice. The comment stated that users who alter in vitro diagnostic products can create serious problems since such devices are no longer reporting results as labeled by the manufacturer.

The Commissioner advises that § 807.65(d) is intended to exempt licensed practitioners who manufacture, alter, or use devices to meet the needs of a particular patient; however, exemption from registration does not relieve such persons from their obligation to comply with other provisions of the act or regulations. The Commissioner believes that the problem of improper device use can be regulated more appropriately under the investigational device exemption authority of section 520(g) of the act (21 U.S.C. 360j(g)) and restricted device authority under section 520(e) of the act (21 U.S.C. 360j(e)). The comment is therefore rejected. The Commissioner recognizes that clinical laboratories, included in proposed § 807.65(d), generally provide a service resulting from the use of a device. He has therefore deleted reference to it in § 807.65(d), but has in-

V 42163 AUG 23 77 UMI

corporated this exemption into new § 807.65(i).

13. One comment objected that proposed § 807.65(d) exempted from registration only licensed practitioners who alter devices. The comment noted that opticians are only licensed in 19 States and that no distinction should be made between licensed and unlicensed opticians where licensing is not available.

The Commissioner advises that opticians are specifically exempted in new § 807.65(i). The Commissioner intends this exemption to apply to any optician who meets the requirements to practice in the State in which he is practicing, whether or not there is a State licensing requirement.

14. One comment agreed that dental laboratories should be exempted from registration, but noted that in proposed § 807.65(i) they are exempted as persons who dispense devices to the ultimate consumer. The comment indicated that dental laboratories are forbidden by the Federal Denture Act of 1948 (18 U.S.C. 1821) to dispense devices to the ultimate consumer.

The final regulation has been rephrased to state that persons who dispense devices to the ultimate consumer or whose major responsibility is to render a service necessary to provide a consumer with a device are exempt from registration. In addition, the Commissioner is adding to the list of examples in § 807.65(i) assemblers of diagnostic X-ray systems. While such assemblers are exempt from registration, they continue to be subject to the assembler certification (reports of assembly) requirements in 21 CFR 1020.30(d).

15. One comment suggested that proposed § 807.65(i) be clarified to indicate that opticians who own and operate full-service laboratories should be exempted from establishment registration. These opticians perform functions such as processing, surfacing, edging, finishing, heat-treating, tempering, and assembling previously manufactured lenses or frames. The comment noted that these are the ordinary functions of opticians and it is therefore presumed that it was intended that opticians who perform these functions be exempted. Another comment noted that individuals and establishments that perform the same functions as full service optical laboratories are exempted by proposed §§ 807.65(d) (licensed ophthalmologists and optometrists) and 807.65(i) (opticians). Additionally, two comments stated that the regulation should exempt all establishments engaged in the production of eyeglasses, except manufacturers of lens blanks and frames, since optometrists, opticians, and optical laboratories are not engaged in any process which involves a risk to the public health.

The Commissioner agrees with these comments, but does not believe that a change in the final regulation is necessary to reflect this position. While ophthalmologists, optometrists, and opticians are listed as examples of the types of individuals who are not required to register, the Commissioner believes that full service laboratories and similar establishments are exempted from registration. However, manufacturers of lens blanks and frames are not exempted and must register.

16. Comments suggested that proposed § 807.65 be clarified to indicate that a private labeler, who obtains a device from a manufacturer with the label already applied and who does not repackage or otherwise alter the container or label, is exempted from registration.

Paragraph (e) of this section provides an exemption for a pharmacy or similar retail establishment that purchases a device for subsequent distribution under its own name. The Commissioner intends this exemption to apply to a person who obtains a device from a manufacturer with the label already applied and who does not repackage the device or alter the container or label. The Commissioner believes that no change is necessary in the final regulation to reflect this position.

PREMARKET NOTIFICATION PROCEDURES

17. Comments asserted that FDA should not require a premarket notification submission when a person intends to reintroduce into commercial distribution a device that had once been in commercial distribution but had been subsequently discontinued. The comments stated that there is no legal or factual basis for such a requirement. One comment stated that there is nothing in the legislative history of section 510(k) of the act to substantiate the view that a discontinuance of commercial distribution before May 28, 1976, means that the device should not be considered to have been on the market prior to May 28, 1976. Another comment indicated that the House Report stated that section 510(k) of the act was "designed to insure that manufacturers do not intentionally circumvent the automatic classification of 'new' devices" (Medical Device Amendments of 1976, February 29, 1976, H.R. 94–853 at 37) and argued that this purpose would not be served by requiring a premarket notification submission for the reintroduction of a device on the market prior to May 28, 1976. An additional comment noted that no practical purpose would be served by this requirement since FDA would be notified of the reintroduction of any device under the device listing procedures of section 510(j) of the act.

The Commissioner generally agrees that it is not necessary to require a premarket notification submission for the resumption of commercial distribution of a device that was on the market and was later discontinued by the manufacturer. The owner or operator will, however, be required to report under the device listing regulations the resumption of commercial distribution of a device. The device listing regulations will be published in the FEDERAL REGISTER in the near future.

The owner or operator would not be circumventing the automatic classification of "new" devices if the device had previously been in commercial distribution and had been classified. The Commissioner cautions, however, that if the device in question has been changed or modified to the extent that a premarket notification would be required under the criteria of proposed § 807.81(a)(3), a premarket notification submission would then be required.

18. Numerous comments requested clarification or changes in proposed § 807.81(a)(3) with reference to situations requiring a premarket notification submission when a change or modification is to be made to a device already in commercial distribution. These comments stated that: (1) There is no need to require a premarket notification submission when a proposed change will increase the safety or effectiveness of the device. (2) Not every change in design, material, chemical composition, energy source, and manufacturing process is a significant change affecting the safety or effectiveness of the device and therefore a premarket notification submission should not be required for every such change. Instead, the regulation should identify what types of changes are significant enough to require a premarket notification submission. (3) The Food and Drug Administration should not require a premarket notification submission for every change in manufacturing process since too many such changes are made on a regular basis.

The Commissioner believes that FDA should be aware of and determine whether or not a change will increase the safety or effectiveness of the device. Proposed § 807.81(a)(3)(i), therefore, has been changed in the final regulation to require that a premarket notification be submitted only for changes that could significantly affect safety or effectiveness whether or not the manufacturer believes that it will increase or decrease safety or effectiveness.

The Commissioner did not intend that the owner or operator should submit a premarket notification for every change in design, material, chemical composition, energy source, or manufacturing process. This list was only intended as an example of some types of changes that often affect safety or effectiveness. The manufacturer is required to submit a premarket notification only if the change could significantly affect the safety or effectiveness of the device whether or not it is a change of one of the types given as examples. A change has been made in new § 807.81(a)(3) to indicate that premarket notification is required only if the change or modification could significantly affect the safety or effectiveness of the device or if there is a major change or modification in the intended use of the device.

Under the act, the burden is on the manufacturer to determine whether a premarket notification should be submitted for a change or modification in a device. The Commissioner believes that the manufacturer is the person best qualified to make this determination. If appropriate, FDA will notify the manufacturer that the premarket notification that was submitted need not have been submitted so that he may be aware that premarket notification is not required in such a situation. From such experiences, FDA may eventually draw some guidelines as to when a premarket notification submission is not required.

A question has been raised whether a premarket notification is required when a Firm B purchases the product line of a Company A, including the manufacturing facility for that product. The Commissioner believes that a premarket notification would not be required in that situation unless the devise has been changed or modified to the extent that the provisions of § 807.81(a)(3) would apply. Section 510(k) of the act would not apply to this situation because Firm B would not be proposing "to begin the introduction or delivery for introduction into interstate commerce for commercial distribution" of a device. Rather, Firm B would be marketing the device in place of Company A.

In such instances, FDA will be notified of a change in ownership by other means. Under new § 807.26, the owner or operator must report a change in individual ownership or corporate or partnership structure within 30 days of the change. The owner or operator will also be required to report a change in ownership under the device-listing procedures to be published as proposed regulations in the FEDERAL REGISTER in the near future.

19. A comment objected that, under proposed § 807.85, the exemption from premarket notification to be granted to custom device manufacturers would not not be allowed if the device is offered through advertising by the manufacturer importer, or distributor. The comment noted that the dissemination of this information is essential to the medical community in obtaining the medical devices needed to treat all patients.

The prohibition of advertising in § 807.85 is intended to apply only to the advertising of a particular device. It does not prohibit the custom device manufacturer from advertising that he manufactures custom devices of a particular generic type. The exemption for manufacturers of custom devices is intended to apply to only those who are customizing devices to fit the needs of a particular patient so that they will not be required to file a premarket notification for each particular device. This reasoning does not apply if the manufacturer, through advertising, is generally offering a particular device for sale. If the device is widely offered through advertising, it could not be considered a custom device.

20. The Commissioner is adding to new § 807.85 exemptions from premarket notification for a distributor who places a device in commercial distribution for the first time under his own name and for a repackager who places his own name on a device, neither of whom otherwise changes the labeling or affects the device. The exemption applies if the device was in commercial distribution before May 28, 1976, the date of enactment of the Medical Device Amendments of 1976, and is being classified. If a premarket notification was submitted by another person, another premarket notification would be a duplication and would not be necessary.

21. One comment suggested that FDA exempt from the premarket notification requirements a device that has been changed by the manufacturer if (1) the device has the intended purpose of only performing in vitro diagnostic tests; (2) the change is intended to improve the device; and (3) the change does not require a change in labeling.

The Commission disagrees with the suggestion. A change can be made to an in vitro diagnostic product which does not require a change in labeling but that is significant enough to affect the safety and effectiveness of the device. Premarket notification must be required for such a change.

22. The Commissioner has also added to new § 807.87(a) a requirement that a premarket notification submission contain the classification name of the device, if known. This name is the one used by the classification panels in the classification process under section 513 of the act. Use of the classification name will be discussed further in the preamble to the proposed device-listing regulations, which will be published in the FEDERAL REGISTER in the near future. The Food and Drug Administration will furnish a list of classification names with the device-listing forms or upon request.

The Commissioner has added to new § 807.87(b) a requirement that a premarket notification submission contain the establishment registration number, if any, of the owner or operator submitting the premarket notification. This is to be used to identify registered manufacturers. The Food and Drug Administration will provide any person who does not supply an establishment registration number in the premarket notification with appropriate instructions on establishment registration.

The Commissioner has also added to new § 807.87(e) a requirement that a premarket notification include photographs or engineering drawings where applicable. Photographs or drawings should be submitted when they will aid in understanding the operation of the device.

23. One comment noted that proposed § 807.87(c) (redesignated § 807.87(d)) required that a premarket notification submission contain a statement of the action taken to comply with the premarket approval requirements of section 515 of the act, even though under proposed § 807.81(b) a premarket notification submission is not required when a premarket approval application has been submitted for the device.

The Commissioner agrees with this comment. If a premarket approval application has been submitted, a premarket notification submission would not be required since FDA would already be advised of the intent to market. Accordingly, the requirement has been deleted from the final regulation.

24. One comment objected that under proposed § 807.87 too much information is required to be included in a premarket notification submission. The comment asserted that section 510(k) of the act was intended to require notification only and not "mini-premarket approval."

The requirements of section 510(k) of the act are intended not only to notify FDA that a device is about to be marketed but primarily to enable FDA to determine whether the device is substantially equivalent to one already in commercial distribution. The information required by § 807.87 is necessary to carry out this purpose and is not intended to be a "mini-premarket approval application."

25. Several comments asserted that FDA has no authority for the requirement in proposed § 807.87(d) (redesignated § 807.87(e)) that representative advertisements be included in the premarket notification submission; the comments stated that under section 510(j)(1)(B) of the act, FDA may only require the submission of advertisements for restricted devices. One comment noted that advertisements may not yet be available 90 days before the marketing date.

The limiting procedures of section 510(j)(1)(B) of the act apply only to the listing of devices and therefore do not limit the authority of the Commissioner to require the submission of advertising with premarket notifications under section 510(k) of the act. Section 510(k) provides that premarket notification shall be submitted in such form and manner as the Commissioner shall by regulations prescribe. The Commissioner is of the opinion that this is authority for requiring the submission of representative advertisements. The submission of advertisements is necessary to show the uses for which a device is being promoted so as to determine whether the device is substantially equivalent to a device already in commercial distribution.

26. Several comments addressed proposed § 807.87(e) (redesignated § 807.87(f)) which requires the inclusion of a statement in the premarket notification submission indicating how a device is or is not substantially equivalent to a device already in commercial distribution and data to support that statement. One comment suggested that data to support the statement should be required only if necessary since, in many cases, it will be obvious if a device is substantially equivalent. Three comments suggested that FDA define more clearly the type of data needed to support a statement that a device is substantially equivalent. Also, one comment stated that it is not appropriate to require that supporting data be included in a premarket notification submission since section 510(k) of the act is a notification provision and not a premarket approval provision.

It has been pointed out above that submission of certain information is necessary to carry out the purpose of section 510(k) of the act. From the information submitted pursuant to section 510(k) of the act, the Commissioner must

V 42163 AUG 23 77 UMI

be able to determine whether the device is substantially equivalent to one already in commercial distribution. The type of data needed to support a claim that one device is substantially equivalent to another will vary widely depending on the type of device. The Commissioner cannot make a more specific statement as to the type of information required. The information that is necessary must be determined on an individual basis. The manufacturer is best qualified to determine the type of information that should be submitted to demonstrate that his device is substantially equivalent to another device that was on the market on May 28, 1976 or is equivalent to a device that has been classified into class I or II.

The amount of data needed to support a claim of substantial equivalence also will vary widely. In some instances, the data needed to support claims of substantial equivalence will be minimal. The Commissioner therefore rejects the comments suggesting that supporting data only be required if necessary.

27. One comment objected that under proposed § 807.87(g) (redesignated § 807.87(h)), the owner or operator would have to wait an additional 90 days to market the device after submitting a new or amended premarket notification submission, when the Commissioner determines that the original submission was insufficient. The comment asserted that section 510(k) of the act does not provide for the approval or disapproval of a premarket notification submission and also does not contain any provisions that would allow the agency to keep a device off the market more than 90 days after the original filing of the premarket notification submission. One comment suggested that if the additional information requested for a premarket notification submission is submitted within 45 days of the original intended market date, the owner or operator should be allowed to market the device on the original date.

Several comments objected to the basic concept under proposed § 807.87(g) (now § 807.87(h)) that allows the Commissioner to request additional information from the owner or operator when there is insufficient information in the original premarket notification submission to determine whether the device is substantially equivalent to one already in commercial distribution. (Proposed § 807.87(g) also required that the requested information be submitted at least 90 days before the owner or operator intended to market the device.) Five comments noted that the preamble to the proposed regulation stated that the Commissioner would notify the owner or operator within 30 days if the information contained in the premarket notification submission was insufficient, but that no such statement was included in the regulation. Another comment stated that the regulation should require that FDA specify in its notification to the owner or operator exactly what information is lacking in the premarket notification submission.

As noted above, section 510(k) of the act is more than a notification provision. The Commissioner must determine whether the device about to be marketed is substantially equivalent to one already in commercial distribution. To this end, section 510(k) of the act provides that the notification shall be made in such form and manner as the Commissioner shall prescribe. The Commissioner therefore has the authority to reject a notification which does not meet the prescribed form or one which does not contain adequate information.

In most cases, the Commissioner will make any necessary request for additional information within 30 days after the original submission. However, in certain cases, the Commissioner may have to request additional information after the initial 30-day period. The Commissioner must retain this option to ensure that he obtains the information that is necessary to make a proper decision on a premarket notification. Therefore, the Commissioner rejects the comment that suggested that the regulation should require the Commissioner to request any necessary additional information within 30 days after the initial submission.

After the Commissioner requests additional information and the information is submitted, the amended premarket notification will receive expedited review and FDA will generally respond to it in far less than 90 days. However, in certain cases, the additional information may be substantial and a 90-day period may be needed to review this information. The Commissioner therefore rejects any suggestion that FDA should allow the device to be marketed less than 90 days after the submission of the additional information.

If possible the Commissioner will notify the person submitting the premarket notification of the specific information required to complete the submission. However, in some cases, this may not be possible. The Commissioner believes that the manufacturer is best qualified to show whether his product is substantially equivalent to one already on the market. The Commissioner therefore rejects the suggestion that the regulation require the Commissioner to specify exactly what information is lacking in a premarket notification submission. However, the Commissioner will provide this information to the applicant, where appropriate.

The Commissioner is adding a requirement to new § 807.87(h) stating that, if the additional information is not submitted within 30 days after it is requested, the Commissioner will consider the premarket notification submission to be withdrawn. In such cases, the device cannot be marketed unless (1) a new premarket notification is submitted and the device is declared substantially equivalent, or (2) the device is classified in class I or II pursuant to a petition filed under section 513(f)(2) of the act, or (3) the device is the subject of an approved premarket approval application under section 515 of the act.

28. The Commissioner has revised § 807.95(a) to clarify that in all cases the existence of a premarket notification submission is to be available for public disclosure upon request when a device is marketed or the manufacturer or distributor discloses his intent to market the device. This is true whether any period for confidentiality that FDA granted the notification has expired and whether the premarket notification was submitted before or after the effective date of these regulations.

The proposal did not address the possibility that the person submitting a premarket notification submission might disclose his intent to market the device, not did the proposal indicate whether FDA would respond to public information requests about whether there had been a submission for an already marketed or advertised product. The agency has no grounds for withholding information that would reveal the intent to market a device when the person submitting the premarket notification submission has revealed these marketing plans, or when marketing has already occurred. There may be instances in which a manufacturer seeks to discover whether a competitor has violated the act, by determining whether there is a premarket notification submission for a device. However, the fact that a manufacturer has not submitted such a notification is not confidential commercial information that is exempt from disclosure, however useful or interesting it might be. Handling of public information requests for premarket notification submissions is facilitated when those requests are accompanied by evidence that there has been public disclosure of the intent to market a device, or that marketing is begun, or when FDA has obtained such evidence from other sources.

The Commissioner also has clarified in § 807.95(c) the duration of confidentiality for premarket notification submissions in the three situations where submissions may be granted confidential treatment for more than 90 days. Of course, none of these provisions for continued confidentiality apply once the device is marketed or the person who submitted the premarket notification has revealed the intent to market the device.

First, if the Commissioner requests additional information regarding the device under § 807.87(h), the existence of the submissions will not be disclosed until 90 days after the agency's receipt of a complete premarket notification submission.

Second, if the Commissioner determines that the device is a class III device, it cannot be marketed without premarket approval or reclassification. When the Commissioner makes this determination, the existence of the submission will not be disclosed unless a petition for reclassification is submitted under section 513(f) of the act and its existence can be disclosed under proposed § 860.5(d). Proposed § 860.5(d) is a provision of the agency's classification regulations to be published in the FEDERAL REGISTER in the near future, and is consistent with the requirements in section 513(f)(2) of the act that FDA provide opportunity for public participation in reclassification of new devices and in section 520(c) of the act that FDA not rely on trade secrets or other confidential commercial information as the basis for reclassifying a class III device. Future FDA regulations will address the confidentiality of intent to market a device when an application for premarket approval of a device is submitted under section 515 of the act. The Commissioner believes that it will be very unlikely that the intent to market a device that is the subject of such an application would in fact be confidential, because the sponsor would almost invariably have had to reveal its marketing plans to some persons outside the company and because of the statutory requirement for advisory committee review.

Third, if the person requests, and FDA agrees, that the intent to market a device be held in confidence for more than 90 days because the person has reason to believe that the actual marketing of the device may be delayed, the Commissioner will not disclose the existence of the submission until FDA receives the required notification that the device has been put on the market or that the intent to market the device has been disclosed.

Once FDA can disclose the fact that a premarket notification submission exists, the contents of the submission (other than information protected under § 807.95(d)) will be available for public disclosure.

29. Several comments asserted that the intent to market a device should be kept confidential without the owner or operator having to request confidentiality as required by proposed § 807.95(a). The Commissioner believes that it is appropriate to require the person submitting the premarket notification submission to request that it be kept confidential. The intent to market a device will in many cases be known to persons outside the company, and the Commissioner believes that information concerning a premarket notification submission, including its existence, should be available for public disclosure, upon request, unless the person submitting it shows that the intent to market the device is confidential commercial information.

The Commissioner has revised § 807.95 to require a person submitting a certification of confidentiality to include a statement that the person understands that the submission to the government of false information is prohibited by 18 U.S.C. 1001 and 21 U.S.C. 331(q). This change underlies the importance of submitting truthful requests for confidential treatment of premarket notification submissions and thus discourages indiscriminate claims of confidentiality. The Commissioner also is requiring the person submitting the request for confidentiality to agree to notify FDA immediately if the person discloses the intent to market the device to anyone, except employees of or paid consultants to the establishment, or individuals in an advertising or law firm pursuant to commercial arrangements with appropriate safeguards for confidentiality.

30. Another comment stated that the intent to market a device should be kept confidential until the owner or operator notifies FDA of the actual marketing of the device.

The regulations have retained the provision that the existence of the premarket notification submission, and thus the contents other than trade secrets, will be kept confidential for 90 days when the person submitting it demonstrates to the agency's satisfaction that the intent to market the device is confidential. The agency believes this approach is more workable in most cases than that suggested by the comment. However, under § 807.95(b)(1)(iii) the Commissioner will keep the intent to market a device confidential until actual marketing of the device begins when this is expected to occur more than 90 days after the premarket notification if the person submitting it convinces FDA that the notification should be kept confidential until actual marketing begins and agrees to comply with certain specified conditions, including a requirement to notify the Commissioner when the device is marketed or when the person reveals the intent to market the device.

31. Other comments opposed the conditions placed on persons seeking to protect the confidentiality of a premarket notification submission. Several comments objected to the fact that proposed § 807.95 required the owner or operator to certify that he has not released the information to individuals outside the company who are not paid consultants. These comments pointed out that the owner or operator may have to release the information to investigators and scientists who are not paid. The comments also stated that the intent to market a device should be kept confidential by FDA if the intent to market is made known to individuals not in the employ of the owner or operator but who are in a confidential relationship with him and if the manufacturer has taken reasonable steps to protect the confidentiality of the information. One comment stated that the intent to market a device may necessarily be released on a confidential basis to advertising personnel and others who do not fall within the category of employees of the establishment under proposed § 807.95(a)(1) but should nevertheless be kept confidential.

The Commissioner agrees that a discussion with individuals in an advertising firm or a law firm should not be regarded as a breach of confidentiality of the intent to market a device and has revised the regulation accordingly.

32. One comment stated that material dealing with comparative literature and data to support a claim of substantial equivalence should be exempt from disclosure because it could be relevant in the event there is litigation involving patent infringement.

Under § 807.95(d), data and information submitted pursuant to the premarket notification regulations that are trade secret information shall be held as confidential. The Commissioner cannot, however, make a broad statement that all material dealing with comparative literature and data to support substantial equivalence will be considered confidential. The possibility that such information could be relevant in litigation involving patent infringement does not provide FDA with grounds for withholding the information under any exemption to the Freedom of Information Act. Although evidence that a competitor infringed a patent may be commercially useful information, it is not confidential commercial information that is entitled to confidentiality. The Commissioner notes, however, that a determination of substantial equivalence under the Federal Food, Drug, and Cosmetic Act relates to the fact that the product can lawfully be marketed without premarket approval or reclassification. This determination is not intended to have any bearing whatever on the resolution of patent infringement suits.

33. The Commissioner cautions that FDA may in the future propose revisions in the policy set forth in § 807.95. FDA currently is reviewing the procedures by which it handles requests for disclosure of information concerning the existence of a variety of submissions that are made to it, including new drug applications, new animal drug applications, and device premarket approval applications. The agency may revise its current procedures so as to acknowledge in all cases the existence of these pending submissions. Because the proper method of handling requests for data and information on device premarket notification submissions involves many of the same issues that are involved in requests for information on new drug applications and similar applications, § 807.95 may eventually be revised in future regulations in light of the agency's decisions on how all such related submissions should be handled.

The Commissioner has had to decide how to handle public information requests for premarket notification submissions received before the effective date of these regulations. Freedom of information requests have been received for such premarket notification submissions review by FDA. There is no question about the agency's handling of these requests where FDA knows, either from the public information requests or from other sources, that the device has been put on the market or the intent to do so has been disclosed: The existence of the notification and its contents, other than any bona fide trade secrets, are disclosable. More difficult questions arise in situations in which FDA simply does not know whether a device that was the subject of a submission has been put on the market or the intent to do so has been disclosed. Therefore, as discussed below, FDA is requiring, by October 25, 1977, submission of justification for continued confidential treatment for most premarket approval notifications re-

V 42163 AUG 23 77 UMI

ceived before the effective date of the regulation.

The following describes how FDA is dealing with requests concerning premarket notification submissions received before September 22, 1977, the effective date of the regulations:

a. The existence of the premarket notification submission and its contents, other than bona fide trade secrets, shall be available for public disclosure if the device has been marketed or if the intent to market the device has been disclosed.

b. During the 90 days after the submission of a premarket notification submission, FDA will treat the existence of the submission and its contents as confidential unless the agency has information that the device has been marketed or the intent to market the device has been disclosed.

c. If the submission indicated that marketing was not expected for more than 90 days, and requested confidential treatment until marketing began, and included an agreement to notify FDA when marketing began, FDA will treat the existence of the submission and its contents as confidential unless the agency has information that the device has been marketed or the intent to do so has been disclosed. If much time has elapsed since the expiration of the 90-day notification period, FDA will make reasonable efforts to determine whether a device which was the subject of a submission has been put on the market or the intent to market the device has been disclosed.

d. Any premarket notification submission received before the effective date of the regulations shall be available for public disclosure 90 days after its receipt by FDA except to the extent that the person who submitted the submission demonstrates by October 21, 1977, that the existence of the submission and its contents are still entitled to confidentiality. Where the FDA receives a public information request for a submission more than 90 days after the submission's receipt, but before October 21, 1977, FDA will make reasonable efforts to determine whether the device has been put on the market or the intent to market the device has been disclosed. A person who seeks to demonstrate that the existence of a submission is still confidential should submit the necessary documentation to the Food and Drug Administration, Bureau of Medical Devices (HFK-20), 8757 Georgia Ave., Silver Spring, Md. 20910. This documentation should indicate whether the device has not been marketed or the intent to do has not been disclosed except to employees of or paid consultants to the establishment, or to individuals in an advertising or law firm pursuant to commercial arrangements with appropriate safeguards for secrecy.

e. Where a public information request is made concerning a premarket notification submission and there is no submission or there is a submission whose existence is confidential under b, c, or d above, FDA will respond to the request by indicating that no submission described in the request has been received that is disclosable, and that FDA cannot indicate whether a submission has been received.

f. To determine whether the intent to market a device has been disclosed, FDA is applying the rules in § 807.95.

Therefore, under the Federal Food, Drug and Cosmetic Act (secs. 301(p), 501, 502, 510, 701(a), 52 Stat. 1049–1051 as amended, 1055, 86 Stat. 562, 90 Stat. 576–580 (21 U.S.C. 331(p), 351, 352, 360, 371(a))) and under authority delegated to him (21 CFR 5.1), the Commissioner is amending Chapter I of Title 21 of the Code of Federal Regulations as follows:

PART 20—PUBLIC INFORMATION

1. By amending § 20.100 by redesignating paragraph (c)(28) as paragraph (c)(29). As revised, paragraph (c)(28) and (29) reads as follows:

§ 20.100 Applicability; cross reference to other regulations.

* * * * *

(c) * * *

(28) Device premarket notification submissions, in § 807.95 of this chapter.

(29) Electronic product information, in §§ 1002.4 and 1002.42 of this chapter.

2. By revising § 20.116 to read as follows:

§ 20.116 Drug and device listing information.

Information submitted to the Food and Drug Administration pursuant to section 510 (a)–(j) of the act shall be subject only to the special disclosure provisions established in §§ 207.37 and 807.37 of this chapter.

PART 25—ENVIRONMENTAL IMPACT CONSIDERATIONS

3. By amending § 25.1 in paragraph (d), by revising paragraph (d)(4) and (5) and adding new paragraph (d)(6), to read as follows:

§ 25.1 Applicability.

* * * * *

(d) * * *

(4) Issuance or amendment of food standards;

(5) Investigational new drug applications and investigational new animal drug applications, unless the agency notifies the applicant that one is required; and

(6) Device premarket notifications submissions.

* * * * *

PART 807—ESTABLISHMENT REGISTRATION FOR MANUFACTURERS OF DEVICES

4. By adding new Part 807 to read as follows:

Subpart A—General Provisions

Sec.
807.3 Definitions.

Subpart B—Procedures for Domestic Device Establishments

807.20 Who must register.
807.21 Times for establishment registration.
807.22 How and where to register establishments.
807.25 Information required or requested for establishment registration.
807.26 Amendments to establishment registration.
807.35 Notification of registrant.
807.37 Inspection of establishment registrations.
807.39 Misbranding by reference to establishment registration or to registration number.

Subpart C—Registration Procedures for Foreign Device Establishments

807.40 Establishment registration for foreign manufacturers of devices.

Subpart D—Exemptions

Sec.
807.65 Exemption for device establishments.

Subpart E—Premarket Notification Procedures

807.81 When a premarket notification submission is required.
807.85 Exemption from premarket notification.
807.87 Information required in a premarket notification submission.
807.90 Format of a premarket notification submission.
807.95 Confidentiality of information.
807.97 Misbranding by reference to premarket notification.

AUTHORITY: Secs. 301(p), 501, 502, 510, 701(a), 52 Stat. 1049–1051 as amended, 1055, 76 Stat. 794 as amended, 86 Stat. 562 as amended, 90 Stat. 576–580 (21 U.S.C. 331(p), 351, 352, 360, 371(a)).

Subpart A—General Provisions

§ 807.3 Definitions.

(a) "Act" means the Federal Food, Drug, and Cosmetic Act.

(b) "Commercial distribution" means any distribution of a device intended for human use which is held or offered for sale but does not include the following:

(1) Internal or interplant transfer of a device between establishments within the same parent, subsidiary, and/or affiliate company;

(2) Any distribution of a device intended for human use which has in effect an approved exemption for investigational use pursuant to section 520(g) of the act and Part 812 of this chapter; or

(3) Any distribution of a device, before the effective date of Part 812 of this chapter, that was not introduced or delivered for introduction into interstate commerce for commercial distribution before May 28, 1976, and that is classified into class III under section 513(f) of the act: *Provided*, That the device is intended solely for investigational use, and under section 501(f)(2)(A) of the act the device is not required to have an approved premarket approval application as provided in section 515 of the act.

(c) "Establishment" means a place of business under one management at one general physical location at which a device is manufactured, assembled, or otherwise processed.

(d) "Manufacture, preparation, propagation, compounding, assembly, or processing" of a device means the making by chemical, physical, biological, or other procedures of any article that meets the definition of device in section 201(h) of the act. These terms include the following activities:

(1) Repackaging or otherwise changing the container, wrapper, or labeling of any device package in furtherance of the distribution of the device from the original place of manufacture to the person who makes final delivery or sale to the ultimate consumer;

(2) Initial distribution of imported devices; or

(3) Initiation of specifications for devices that are manufactured by a second party for subsequent commercial distribution by the person initiating specifications.

(e) "Official correspondent" means the person designated by the owner or operator of an establishment as responsible for the following:

(1) The annual registration of the establishment;

(2) Contact with the Food and Drug Administration for device listing;

(3) Maintenance and submission of a current list of officers and directors to the Food and Drug Administration upon the request of the Commissioner; and

(4) The receipt of pertinent correspondence from the Food and Drug Administration directed to and involving the owner or operator and or any of the firm's establishments.

(f) "Owner or operator" means the corporation, subsidiary, affiliated company, partnership, or proprietor directly responsible for the activities of the registering establishment.

(g) "Distributor" means any person who furthers the marketing of a device from the original place of manufacture to the person who makes final delivery or sale to the ultimate consumer or user but who does not repackage or otherwise change the container, wrapper, or labeling of the device or device package.

(h) Any term defined in section 201 of the act shall have that meaning.

Subpart B—Procedures for Domestic Device Establishments

§ 807.20 Who must register.

(a) Any owner or operator of an establishment not exempt under section 510(g) of the act or Subpart D of this part who is engaged in the manufacture, preparation, propagation, compounding, assembly, or processing of a device intended for human use is required to register. The term device includes all in vitro diagnostic products and in vitro diagnostic biological products not subject to licensing under section 351 of the Public Health Service Act. Such owner or operator is required to register his name, places of business, and all such establishments whether or not the output of such establishments enter interstate commerce. The registration requirements shall pertain to any person who:

(1) Initiates or develops specifications for a device that is to be manufactured by a second party for commercial distribution by the person initiating specifications;

(2) Manufactures for commercial distribution a device either for himself or for another person;

(3) Repackages or relabels a device;

(4) Initially distributes a device imported into the United States; or

(5) Manufactures components or accessories which are ready to be used for any intended health-related purpose and are packaged or labeled for commercial distribution for such health-related purpose, e.g., blood filters, hemodialysis tubing, or devices which of necessity must be further processed by a licensed practitioner or other qualified person to meet the needs of a particular patient, e.g., a manufacturer of ophthalmic lens blanks.

(b) No registration fee is required. Registration does not constitute an admission of agreement or determination that a product is a "device" within the meaning of section 201(h) of the act.

§ 807.21 Times for establishment registration.

The owner or operator of an establishment entering into, or currently engaged in, an operation defined in § 807.3(c) and not currently registered shall register the establishment by September 22, 1977. The owner or operator of an establishment who has not previously entered into an operation defined in § 807.3(c) shall register within 30 days after entering into such an operation. Owners or operators of all establishments shall update their registration information annually between November 15 and December 31.

§ 807.22 How and where to register establishments.

The first registration of a device establishment shall be on Form FD–2891 (Initial Registration of Device Establishment). Forms are obtainable on request from the Department of Health, Education, and Welfare, Food and Drug Administration, Bureau of Medical Devices (HFK–124), 8757 Georgia Ave., Silver Spring, MD 20910, or from the Food and Drug Administration district offices. Subsequent annual registration shall be accomplished on Form FD–2891(a) (Registration of Device Establishment) which will be furnished by the Food and Drug Administration before November 15 of each year to establishments whose registration for that year was validated pursuant to § 807.35(a). The completed form shall be mailed to the above address before December 31 of that year.

§ 807.25 Information required or requested for establishment registration.

(a) Form FD–2891 and Form FD–2891(a) are the approved forms for initially providing the information required by the act and for providing annual registration, respectively. The required information includes the name and street address of the device establishment, including post office ZIP Code, all trade names used by the establishment, and the business trading name of the owner or operator of such establishment.

(b) The owner or operator shall identify the device activities of the establishment such as manufacturing, repackaging, or distributing of imported devices and identify any other FDA registries in which the establishment is registered.

(c) Each owner or operator is required to maintain a listing of all officers, directors, and partners for each establishment he registers and to furnish this information to the Food and Drug Administration upon request.

(d) Each owner or operator shall provide the name of an official correspondent who will serve as a point of contact between the Food and Drug Administration and the establishment for matters relating to the registration of device establishments and the listing of device products. All future correspondence relating to registration, including requests for the names of partners, officers, and directors, will be directed to this official correspondent. In the event no person is designated by the owner or operator, the owner or operator of the establishment will be the official correspondent.

(e) The designation of an official correspondent does not in any manner affect the liability of the owner or operator of the establishment or any other individual under section 301(p) or any other provision of the act.

§ 807.26 Amendments to establishment registration.

Changes in individual ownership, corporate or partnership structure, or location of an operation defined in § 807.3(c) shall be submitted on Form FD–2891(a). This information shall be submitted within 30 days of such changes. Changes in the names of officers and or directors of the corporation(s) shall be filed with the establishment's official correspondent and shall be provided to the Food and Drug Administration upon receipt of a written request for this information.

§ 807.35 Notification of registrant.

(a) The Commissioner will provide to the official correspondent, at the address listed on the form, a validated copy of Form FD–2891 or Form FD–2891(a) (whichever is applicable) as evidence of registration. A permanent registration number will be assigned to each device establishment registered in accordance with these regulations.

(b) Owners and operators of device establishments who also manufacture or process blood or drug products at the same establishment shall also register with the Bureau of Biologics and Bureau of Drugs, as appropriate. Blood products shall be listed with the Bureau of Biologics, Food and Drug Administration, pursuant to Part 607 of this chapter; drug products shall be listed with the Bureau of Drugs, Food and Drug Administration, pursuant to Part 207 of this chapter.

(c) Although establishment registration is required to engage in the device activities described in § 807.20, validation of registration in itself does not establish that the holder of the registration is legally qualified to deal in such devices and does not represent a determination by the Food and Drug Administration as to the status of any device.

§ 807.37 Inspection of establishment registrations.

A copy of the Form FD–2891 and FD–2891(a), filed by the registrant, will be available for inspection pursuant to § 510(f) of the act, at the Department of Health, Education, and Welfare, Food and Drug Administration, Bureau of Medical Devices (HFK–124), 8757 Georgia Ave., Silver Spring, MD 20910. In addition, there will be available for inspection at each of the Food and Drug Administration district offices the same information for firms within the geographical area of such district office.

V 42163 AUG 23 77 UMI

Upon request and receipt of a self-addressed stamped envelope, verification of registration number or location of a registered establishment will be provided.

§ 807.39 Misbranding by reference to establishment registration or to registration number.

Registration of a device establishment or assignment of a registration number does not in any way denote approval of the establishment or its products. Any representation that creates an impression of official approval because of registration or possession of a registration number is misleading and constitutes misbranding.

Subpart C—Registration Procedures for Foreign Device Establishments

§ 807.40 Establishment registration for foreign manufacturers of devices.

Foreign device establishments that export devices into the United States are requested to register in accordance with the procedures of Subpart B of this part, unless exempt under Subpart D of this part.

Subpart D—Exemptions

§ 807.65 Exemptions for device establishments.

The following classes of persons are exempt from registration in accordance with § 807.20 under the provisions of section 510(g) (1), (2), and (3) of the act, or because the Commissioner has found, under section 510(g) (4) of the act, that such registration is not necessary for the protection of the public health:

(a) A manufacturer of raw materials or components to be used in the manufacture or assembly of a device who would otherwise not be required to register under the provisions of this part.

(b) A manufacturer of devices to be used solely for veterinary purposes.

(c) A manufacturer of general purpose articles such as chemical reagents or laboratory equipment whose uses are generally known by persons trained in their use and which are not labeled or promoted for medical uses.

(d) Licensed practitioners, including physicians, dentists, and optometrists, who manufacture or otherwise alter devices solely for use in their practice.

(e) Pharmacies, surgical supply outlets, or other similar retail establishments dispensing or selling devices in the regular course of business at the retail level. This exemption also applies to a pharmacy or other similar retail establishment that purchases a device for subsequent distribution under its own name, e.g., a properly labeled health aid such as an elastic bandage or crutch, indicating "distributed by" or "manufactured for" followed by the name of the pharmacy.

(f) Persons who manufacture, prepare, propagate, compound, or process devices solely for use in research, teaching, or analysis and do not introduce such devices into commercial distribution.

(g) Persons who handle devices but make no revisions to such devices or their immediate containers, such as wholesalers or warehousers.

(h) Carriers by reason of their receipt, carriage, holding or delivery of devices in the usual course of business as carriers.

(i) Persons who dispense devices to the ultimate consumer or whose major responsibility is to render a service necessary to provide the consumer (i.e., patient, physician, layman, etc.) with a device or the benefits to be derived from the use of a device; for example, a hearing aid dispenser, optician, clinical laboratory, assembler of diagnostic X-ray systems, and personnel from a hospital, clinic, dental laboratory, orthotic or prosthetic retail facility, whose primary responsibility to the ultimate consumer is to dispense or provide a service through the use of a previously manufactured device.

Subpart E—Premarket Notification Procedures

§ 807.81 When a premarket notification submission is required.

Except as provided in paragraph (b) of this section, each person who is required to register his establishment pursuant to § 807.20 must submit a premarket notification submission to the Food and Drug Administration at least 90 days before he proposes to begin the introduction or delivery for introduction into interstate commerce for commercial distribution of a device intended for human use which meets any of the following criteria:

(1) The device is being introduced into commercial distribution for the first time; that is the device is not of the same type as, or is not substantially equivalent to, (i) a device in commercial distribution before May 28, 1976, or (ii) a device introduced for commercial distribution after May 28, 1976, that has subsequently been reclassified into class I or II.

(2) The device is being introduced into commercial distribution for the first time by a person required to register, whether or not the device meets the criteria in paragraph (a) (1) of this section.

(3) The device is one that the person currently has in commercial distribution or is reintroducing into commercial distribution, but that is about to be significantly changed or modified in design, components, method of manufacture, or intended use. The following constitute significant changes or modifications that require a premarket notification:

(i) A change or modification in the device that could significantly affect the safety or effectiveness of the device, e.g., a significant change or modification in design, material, chemical composition, energy source, or manufacturing process.

(ii) A major change or modification in the intended use of the device.

(b) A premarket notification under this subpart is not required for a device for which a premarket approval application under section 515 of the act, or for which a petition to reclassify under section 513(f) (2) of the act, is pending before the Food and Drug Administration.

(c) In addition to complying with the requirements of this part, owners or operators of device establishments that manufacture radiation-emitting electronic products, as defined in § 1000.3 of this chapter, shall comply with the reporting requirements of Part 1002 of this chapter.

§ 807.85 Exemption from premarket notification.

(a) A device is exempt from the premarket notification requirements of this subpart if the device intended for introduction into commercial distribution is not generally available in finished form for purchase and is not offered through labeling or advertising by the manufacturer, importer, or distributor thereof for commercial distribution, and the device meets one of the following conditions:

(1) It is intended for use by a patient named in the order of the physician or dentist (or other specially qualified person); or

(2) It is intended solely for use by a physician or dentist (or other specially qualified person) and is not generally available to, or generally used by, other physicians or dentists (or other specially qualified persons).

(b) A distributor who places a device into commercial distribution for the first time under his own name and a repackager who places his own name on a device and does not change any other labeling or otherwise affect the device shall be exempted from the premarket notification requirements of this subpart if:

(1) The device was in commercial distribution before May 28, 1976; or

(2) A premarket notification submission was filed by another person.

§ 807.87 Information required in a premarket notification submission.

Each premarket notification submission shall contain the following information:

(a) The device name, including both the trade or proprietary name and the common or usual name or classification name of the device.

(b) The establishment registration number, if applicable, of the owner or operator submitting the premarket notification submission.

(c) The class in which the device has been put under section 513 of the act and, if known, its appropriate panel; or, if the owner or operator determines that the device has not been classified under such section, a statement of that determination and the basis for the person's determination that the device is not so classified.

(d) Action taken by the person required to register to comply with the requirements of the act under section 514 for performance standards.

(e) Proposed labels, labeling, and advertisements sufficient to describe the device, its intended use, and the directions for its use. Where applicable, photographs or engineering drawings should be supplied.

(f) A statement indicating the device is similar to and/or different from other products of comparable type in commercial distribution, accompanied by data to support the statement. This information may include an identification of similar products, materials, design and considerations, energy expected to be used or delivered by the device, and a description of the operational principles of the device.

(g) Where a person required to register intends to introduce into commercial distribution a device that has undergone a significant change or modification that could significantly affect the safety or effectiveness of the device, or the device is to be marketed for a new or different indication for use, the premarket notification submission must include appropriate supporting data to show that the manufacturer has considered what consequences and effects the change or modification or new use might have on the safety and effectiveness of the device.

(h) Any additional information regarding the device requested by the Commissioner that is necessary for the Commissioner to make a finding as to whether or not the device is substantially equivalent to a device in commercial distribution. A request for additional information will advise the owner or operator that there is insufficient information contained in the original premarket notification submission for the Commissioner to make this determination and that the owner or operator may either submit the requested data or a new premarket notification containing the requested information at least 90 days before the owner or operator intends to market the device, or submit a premarket approval application in accordance with section 515 of the act. If the additional information is not submitted within 30 days following the date of the request, the Commissioner will consider the premarket notification to be withdrawn.

§ 807.90 Format of a premarket notification submission.

Each premarket notification submission pursuant to this part shall be submitted in accordance with this section. Each submission shall:

(a) Be addressed to the Food and Drug Administration, Bureau of Medical Devices (HFK-20), 8757 Georgia Ave., Silver Spring, Md. 20910. All inquiries regarding a premarket notification submission should be in writing and sent to the above address.

(b) Be bound into a volume or volumes, where necessary.

(c) Be submitted in duplicate on standard size paper, including the original and two copies of the cover letter.

(d) Be submitted separately for each product the manufacturer intends to market.

(e) Designated "510(k) Notification" in the cover letter.

§ 807.95 Confidentiality of information.

(a) The Food and Drug Administration will disclose publicly whether there exists a premarket notification submission under this part:

(1) Where the device is on the market, i.e., introduced or delivered for introduction into interstate commerce for commercial distribution;

(2) Where the person submitting the premarket notification submission has disclosed, through advertising or any other manner, his intent to market the device to scientists, market analysts, exporters, or other individuals who are not employees of, or paid consultants to, the establishment and who are not in an advertising or law firm pursuant to commercial arrangements with appropriate safeguards for secrecy; or

(3) Where the device is not on the market and the intent to market the device has not been so disclosed, except where the submission is subject to an exception under paragraph (b) or (c) of this section.

(b) The Food and Drug Administration will not disclose publicly the existence of a premarket notification submission for a device that is not on the market and where the intent to market the device has not been disclosed for 90 days from the date of receipt of the submission, if:

(1) The person submitting the premarket notification submission requests in the submission that the Food and Drug Administration hold as confidential commercial information the intent to market the device and submits a written certification to the Commissioner:

(i) That the person considers his intent to market the device to be confidential commercial information;

(ii) That neither the person nor, to the best of his knowledge, anyone else, has disclosed through advertising or any other manner, his intent to market the device to scientists, market analysts, exporters, or other individuals, except employees of, or paid consultants to, the establishment or individuals in an advertising or law firm pursuant to commercial arrangements with appropriate safeguards for secrecy;

(iii) That the person will immediately notify the Food and Drug Administration if he discloses the intent to market the device to anyone, except employees of, or paid consultants to, the establishment or individuals in an advertising or law firm pursuant to commercial arrangements with appropriate safeguards for secrecy;

(iv) That the person has taken precautions to protect the confidentiality of the intent to market the device; and

(v) That the person understands that the submission to the government of false information is prohibited by 18 U.S.C. 1001 and 21 U.S.C. 331(q); and

(2) The Commissioner agrees that the intent to market the device is confidential commercial information.

(c) Where the Commissioner determines that the person has complied with the procedures described in paragraph (b) of this section with respect to a device that is not on the market and where the intent to market the device has not been disclosed, and the Commissioner agrees that the intent to market the device is confidential commercial information, the Commissioner will not disclose the existence of the submission for 90 days from the date of its receipt by the agency. In addition, the Commissioner will continue not to disclose the existence of such a submission for the device for an additional time when any of the following occurs:

(1) The Commissioner requests in writing additional information regarding the device pursuant to § 807.87(g), in which case the Commissioner will not disclose the existence of the submission until 90 days after the Food and Drug Administration's receipt of a complete premarket notification submission;

(2) The Commissioner determines that the device intended to be introduced is a class III device and cannot be marketed without premarket approval or reclassification, in which case the Commissioner will not disclose the existence of the submission unless a petition for reclassification is submitted under section 513(f)(2) of the act and its existence can be disclosed under § 860.5(d) of this chapter; or

(3) The person has requested in the premarket notification submission that the Commissioner protect the confidentiality of the intent to market a device for more than 90 days from the date of receipt of the premarket notification submission by the Food and Drug Administration, and the Commissioner determines that the person has reason to believe that the actual introduction of the device to the market may take longer than 90 days, and the person agrees in a written certification to provide the Commissioner with written notification immediately if the device is put on the market or the intent to market is disclosed. In this case the Commissioner will not disclose the existence of the submission until the Food and Drug Administration's receipt of notification by the person that the device has been put on the market or that the intent to market the device has been disclosed.

(d) Data or information submitted with, or incorporated by reference in, a premarket notification submission (other than safety and effectiveness data that have not been disclosed to the public) shall be available for disclosure by the Food and Drug Administration when the intent to market the device is no longer confidential in accordance with this section, unless exempt from public disclosure in accordance with Part 20 of this chapter. Upon final classification, data and information relating to safety and effectiveness of a device classified in class I (general controls) or class II (performance standards) shall be available for public disclosure. Data and information relating to safety and effectiveness of a device classified in class III

V 4216 3 AUG 23 77 UMI V

(premarket approval) that have not been released to the public shall be retained as confidential unless such data and information become available for release to the public under § 860.5(d) or other provisions of this chapter.

§ 807.97 Misbranding by reference to premarket notification.

Submission of a premarket notification in accordance with this subpart, and a subsequent determination by the Commissioner that the device intended for introduction into commercial distribution is substantially equivalent to a device in commercial distribution before May 28, 1976, or is substantially equivalent to a device introduced into commercial distribution after May 28, 1976, that has subsequently been reclassified into class I or II, does not in any way denote official approval of the device. Any representation that creates an impression of official approval of a device because of complying with the premarket notification regulations is misleading and constitutes misbranding.

PART 809—IN VITRO DIAGNOSTIC PRODUCTS FOR HUMAN USE

§ 809.20 [Amended]

2. In Part 809, § 809.20 *General requirements for manufacturers and producers of in vitro diagnostic products* is amended by deleting paragraph (a) and designating it "reserved."

Effective date: This regulation shall be effective September 22, 1977.

(Secs. 301(p), 501, 502, 510, 701(a), 52 Stat. 1049–1051 as amended, 1055, 76 Stat. 794 as amended, 88 Stat. 562 as amended, 90 Stat. 576–580 (21 U.S.C. 331(p), 351, 352, 360, 371 (a)).)

Dated: August 12, 1977.

DONALD KENNEDY,
Commissioner of Food and Drugs.

NATIONAL FIRE CODES

Proposed Revision of Fire Safety Standards

federal register

V42163 AUG 23 77 UMI

GENERAL SERVICES ADMINISTRATION

Office of the Federal Register

NATIONAL FIRE CODES

Proposed Revision of Standards

AGENCY: Office of the Federal Register, GSA.

ACTION: Notice and invitation for comment.

SUMMARY: The Office of the Federal Register is publishing these proposed changes to the fire safety standards developed by the National Fire Protection Association to inform the general public and invite comments from interested persons. The standards are frequently used as the basis for Federal Regulations concerning fire safety and are published in the public interest.

DATES: Comments due on or before November 7, 1977. Annual Meeting: May 15–18, 1978.

ADDRESS: Assistant Vice President of Standards, 470 Atlantic Avenue, Boston, Massachusetts 02210.

FOR FURTHER INFORMATION CONTACT:

Martha Girard, 202–523–5240.

SUPPLEMENTARY INFORMATION: Standards developed by the technical committees of the National Fire Protection Association (NFPA) have been used by various Federal agencies as the basis for Federal regulations. Often, this has been accomplished through incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. The NFPA standards are known collectively as the National Fire Codes.

Revisions of existing standards and adoption of new standards are reported by the technical committees at the NFPA's Fall meeting in November or at the Annual Meeting in May of each year. The NFPA invites public comment on its technical committee reports.

Action at the NFPA Annual Meeting in May, 1978 is being proposed on the NFPA standards listed below:

NFPA 1978 annual meeting technical committee reports

	Title	Type of action
NFPA No.:		
10	Installation, maintenance and use of portable fire extinguishers.	O-P
11	Foam extinguishing systems.	O-P
13E	Fire department operations in properties protected by sprinkler and standpipe systems.	O-P
14	Installation of standpipe and hose systems.	O-P
20	Installation of centrifugal fire pumps.	O-P
56A	Use of inhalation anesthetics.	O-C
72E	Automatic fire detectors.	O-P
74	Installation, maintenance and use of household fire warning equipment.	O-P
85B	Prevention of furnace explosions in natural gas-fire multiple burner boiler-furnaces.	O-P
85D	Prevention of furnace explosions in fuel oil-fired multiple burner boiler-furnaces.	O-P
85E	Prevention of furnace explosions in pulverized coal-fired multiple burner boiler-furnaces.	O-P
85F (formerly NFPA 60).	Installation and operation of pulverized fuel systems.	O-C
85G	Prevention of furnace explosions in multiple burner, boiler-furnaces.	N-O
253	Radiant panel fire test for floor covering.	N-O
254	Chamber method of fire test for floor covering.	N-O
302	Motor craft (pleasure and commercial).	O-C
505	Powered industrial trucks including type designations and areas of use.	O-P
512	Truck fire protection.	O-P
518	Motor freight terminals.	O-P
604	Salvaging operations.	W
1141	Fire prevention and protection measures in planned building groups.	N-O
1221 (formerly NFPA 73).	Installation, maintenance and use of public fire service communications.	O-P

TYPES OF ACTION

Proposed action on official documents
- O-P—Partial Amendments
- O-C—Complete Revision
- O-T—Tentative Revision

Proposed action on new documents
- N-T—Tentative Adoption
- N-O—Official Adoption

Proposed action on tentative documents
- T-P—Partial Amendments
- T-C—Complete Revision
- T-O—Official Adoption

Other proposed action
- R—Reconfirmation
- W—Withdrawal

Single copies of the 1978 Annual Technical Committee Reports are available at no charge from the National Fire Protection Association. Publications Department, 470 Atlantic Avenue, Boston, Mass. 02210. The Reports will be mailed during the week of August 29, 1977.

Interested persons may participate in these revisions by submitting written data, views, or arguments to the Assistant Vice President-Standards, NFPA, 470 Atlantic Avenue, Boston, Mass 02210. Commenters should use the forms provided for comments in the Technical Committee Reports. Each person submitting a comment should include his name and address, identify the notice, and give reasons for any recommendations. Comments received on or before November 7, 1977 will be considered by the NFPA before final action is taken on the proposals.

Copies of all written comments received and the disposition of those comments by the NFPA committees will be published as the technical Committee Documentation by March 20, 1978, prior to the Annual Meeting. A copy of the Technical Committee Documentation will be sent automatically to each commenter. Action on the Technical Committee Reports (adoption or rejection) will be taken at the Annual Meeting, May 15 through 18, 1978, at the Disneyland Hotel, Anaheim, California, by NFPA members who are members of record 30 (thirty) days prior to that meeting.

Copies of the Technical Committee Reports and Technical Committee Documentation, when published, will also be available for review at the Office of the Federal Register, 1100 L Street NW., Washington, D.C.

FRED J. EMERY,
Director, Office of the Federal Register.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

■

ACCRUAL OF BOND DISCOUNT AND ACQUISITION OF NATIONAL BANK STOCK BY EMPLOYEE BENEFIT TRUST

Interpretive Rulings Rescinded

V42163 AUG 23 77 UMI

Title 12—Banks and Banking

CHAPTER I—COMPTROLLER OF THE CURRENCY, DEPARTMENT OF THE TREASURY

PART 7—INTERPRETIVE RULINGS

Acquisition of National Bank Stock by Bank's Employee Benefit Trust

AGENCY: Comptroller of the Currency.

ACTION: Rescission of rule.

SUMMARY: The Comptroller's interpretive ruling (12 CFR 7.7595) concerning the acquisition of national bank stock by an employee profit sharing or pension trust of the same bank is being rescinded because it no longer accurately states the conditions under which such stock may be purchased.

EFFECTIVE DATE: August 23, 1977.

FOR FURTHER INFORMATION CONTACT:

Dean E. Miller, Deputy Comptroller for Trust Operations, Comptroller of the Currency, Washington, D.C. 20219 (202–447–1731).

SUPPLEMENTARY INFORMATION: The Comptroller has determined that 12 CFR 7.7595, an interpretive ruling concerning the acquisition of national bank stock by the bank's own employee profit sharing or pension trust, no longer accurately describes the conditions under which such stock may be purchased. Further, the requirement that national banks report such acquisitions has proven to be of minimal assistance in viewing the condition of the respective trust departments and is therefore being discontinued. The legality of such acquisitions has been and will continue to be the subject of review by the Comptroller's examining personnel.

DRAFTING INFORMATION

The principal drafters of this document were Dean E. Miller, Deputy Comptroller for Trust Operations and Richard H. Neiman, Staff Attorney.

RESCISSION OF RULING

§ 7.7595 [Rescinded]

Accordingly, 12 CFR Part 7 is amended by rescinding § 7.7595.

Dated: August 12, 1977.

JOHN G. HEIMANN,
Comptroller of the Currency.

[FR Doc.77-24311 Filed 8-22-77;8:45 am]

PART 7—INTERPRETIVE RULINGS

Reporting of Bond Discount

AGENCY: Comptroller of the Currency.

ACTION: Rescission of rule.

SUMMARY: This amendment rescinds 12 CFR 7.7550, an interpretive ruling permitting banks the option to accrue bond discount. The ruling is being rescinded because it has been superseded by the "Instructions for the Preparation of Consolidated Reports of Condition and Reports of Income by National Banking Associations", revised March, 1976, which eliminates the option as to banks with resources in excess of $25 million.

EFFECTIVE DATE: August 23, 1977.

FOR FURTHER INFORMATION CONTACT:

Gary M. Eiserman, Senior Accountant, Securities Disclosure Division, Office of the Comptroller of the Currency, Washington, D.C. 20219. 202–447–1954.

SUPPLEMENTARY INFORMATION: The Comptroller is rescinding 12 CFR 7.7550, an interpretive ruling permitting banks the option to report bond discount either on the accrual or cash basis of accounting. The ruling has been superseded by the "Instructions for the Preparation of Consolidated Reports of Condition and Reports of Income by National Banking Associations" which was revised in March, 1976. The "Instructions" eliminate, as to banks with resources exceeding $25 million, the option contained in 12 CFR 7.7550 and require that such discount be accrued. However, the "Instructions" retain the option as to banks with resources of less than $25 million and permit them to report bond discount either on the accrual or cash basis of accounting.

DRAFTING INFORMATION

The principal drafters of this document were Gary M. Eiserman, Senior Accountant and Richard H. Neiman, Staff Attorney.

RESCISSION OF RULING

§ 7.7550 [Rescinded]

In consideration of the foregoing, 12 CFR Part 7 is amended by rescinding § 7.7550.

Dated: August 11, 1977.

JOHN G. HEIMANN,
Comptroller of the Currency.

STATE AND FEDERAL CONFLICT OF INTEREST PROVISIONS

Proposed Rules

V42163 AUG 23 77 UMI V

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

[30 CFR Parts 2170 and 2171]

STATE AND FEDERAL CONFLICT OF INTEREST PROVISIONS

Proposed Rules

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule.

SUMMARY: The proposed regulations in Part 2170 establish the conflict of interest provisions applicable to employees of the State regulatory authority performing any function or duty under the Surface Mining Control and Reclamation Act of 1977 in order for the State to be eligible for reimbursements or grants under the Act. The proposed regulations in Part 2171 establish the conflict of interest provisions which Federal employees performing any function or duty under the Act must meet in order to be in compliance with the Act. These regulations are intended to provide the methods by which conflict of interest situations involving employees performing under the Act can be identified and remedied.

DATES: Comments must be received before September 23, 1977.

ADDRESS: Comments should be addressed to: Director, Office of Surface Mining Reclamation and Enforcement, United States Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Gene Fredriksen or Gabe Paone, Office of Audit and Investigation, U.S. Department of the Interior, Washington, D.C. 20240, AC 202 343-5916.

SUPPLEMENTARY INFORMATION: Section 201(f) and 517(g) of the Act make it a crime for employees performing any function or duty under the Act to knowingly have a direct or indirect financial interest in any coal mining operation. The Act further directs the Secretary to publish regulations which establish methods for monitoring and enforcing the prohibition, including provisions for the filing and review of financial interest statements.

The Secretary proposes these regulations recognizing the clear Congressional intent that affected employees maintain the highest standards of honesty, integrity and impartiality to avoid even the appearance of conflict of interest.

The concept that affected employees would simply certify that they did not have a direct or indirect financial interest in any coal mining operations was discarded as legally insufficient to sustain criminal prosecutions. Instead, covered employees are required to submit a detailed statement of employment and financial interests to appropriate officials for review. Based on the criteria in these regulations, the reviewing official will determine whether a conflict of interest exists and what the proper remedial action should be.

The direct or indirect financial interests of an employee's spouse, minor child, or other relatives who are full-time members of the employee's home are considered to be the financial interests of the employee. Disclosure of these interests will bring to the review's attention any direct or indirect financial interests in coal mining operations which the employee may be deriving from interests of other close family members and relatives. Disclosure will also preclude employees from transferring prohibited financial interests to close family members or relatives in order to avoid the provisions in the Act.

In keeping with the legislative intent and at the suggestion of several States, the proposed regulations place as much responsibility as possible upon the individual States. States are responsible for resolving employee conflict of interest situations, for initiating action to impose the penalties of the Act within their existing laws, regulations and personnel programs in order to meet the requirements of the Act. Care has been taken to specifically separate the responsibilities of the Federal Government from those of the individual States and to guard against the imposition of excessive Federal requirements upon the States.

The same high standards applicable to covered employees of the State agencies apply to covered employees of the Federal Government under the separate regulations in Part 2171. With regard to covered employees of other Federal agencies, it is proposed that each agency have as much latitude as possible in resolving conflict of interest situations and in enforcing the conflict of interest requirements within these regulations. Other Federal agencies implementation must be consistent with the regulations developed for employees of the Department of the Interior.

DRAFTING INFORMATION

These regulations were prepared by: Gene Fredriksen and Gabe Paone under the general supervision of Paul Reeves, Office of Surface Mining Task Force, Department of the Interior.

Interested persons may submit written comments on the proposed regulations to the Director, Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, D.C. 20240, no later than September 23, 1977.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring the preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: August 17, 1977.

ROBERT HERBST,
Acting Secretary of the Interior.

It is proposed to Amend Title 30 by adding Chapter VII, Office of Surface Mining Reclamation and Enforcement. It is proposed to add Parts 2170 and 2171, Conflict of Interest, to Title 30, Chapter VII, to read as follows:

PART 2170—CONFLICT OF INTEREST PROVISIONS FOR STATE EMPLOYEES

Sec.
2170.1 Purpose.
2170.2 Objectives.
2170.3 Authority.
2170.4 Responsibility.
2170.5 Definitions.
2170.6 Penalties.
2170.11 Who shall file.
2170.13 When to file.
2170.15 Where to file.
2170.17 What to report.
2170.19 Resolving conflicts of interest.
2170.21 Appeals procedures.

AUTHORITY: Public Law 95-87, Section 517(g).

§ 2170.1 Purpose.

This part sets forth the minimum conflict of interest policies and procedures that States must establish and use in order to be eligible for reimbursement of costs of enforcing and administering the initial regulatory program under Section 502, or for grants for developing, administering and enforcing a state regulatory program under Section 705, or to assume primary regulatory authority under Section 503 of the Act (Pub. L. 95-87). Compliance with the policies and procedures in this part will satisfy the requirements of Section 517(g) of the Act. Section 517(g) prohibits certain employees of the State Regulatory Authority from having any direct or indirect financial interest in any underground or surface coal mining operation. The regulations in this part are applicable to employees of the State Regulatory Authority as defined in § 2170.5.

§ 2170.2 Objectives.

The objectives of this part are:

(a) To ensure that the States adopt a standard program for implementing the conflict of interest provisions in Section 517(g) of the Act.

(b) To establish methods which will ensure, as required by Section 517(g) of the Act, that each employee of the State Regulatory Authority who performs any function or duty under the Act does not have a direct or indirect financial interest in any underground or surface coal mining operation.

(c) To establish the methods by which the monitoring, enforcing and reporting responsibilities of the Secretary of the Interior as stated in Section 517(g) will be accomplished.

§ 2170.3 Authority.

(a) The Secretary of the Interior is authorized by Public Law 95-87 to:

(1) Establish the methods by which he and State officials will monitor and enforce the provisions contained in subsection 517(g) of the Act;

(2) Establish appropriate provisions for employees of the State Regulatory Authority who perform any function or duty under the Act to file a statement and supplements thereto concern any financial interest which may be affected by subsection 517(g), and

(3) Report annually to the Congress, actions taken and not taken during the preceding calendar year under subsection 517(g) of the Act.

(b) The Governor of the State, the Head of the State Regulatory Authority, or such other State official designated by State law, is authorized to expand the provisions in this part in order to meet the particular needs within the State.

(c) The Office of Audit and Investigation, U.S. Department of the Interior is authorized to conduct on behalf of the Secretary periodic audits related to the provisions contained in Section 517(g) of the Act and related to the provisions in this Part. These audits will be conducted on a cyclical basis or upon request of the Secretary or the Director.

§ 2170.4 Responsibility.

(a) The Head of each State Regulatory Authority shall:

(1) Provide advice, assistance, and guidance to all State employees required to file statements pursuant to § 2170.11 of this part;

(2) Promptly review the statement of employment and financial interests and supplements, if any, filed by each employee, to determine if the employee has correctly identified those listed employment and financial interests which constitute a direct or indirect financial interest in an underground or surface coal mining operation;

(3) Resolve conflict of interest situations by ordering or initiating remedial action or by reporting the violations to the Director who is responsible for initiating action to impose the penalties of the Act;

(4) Certify on each statement that review has been made, that conflicts of interest or prohibited holdings have been resolved, and that no conflicts of interest exist;

(5) Submit to the Director such statistics and information he or she may request to enable prepartion of the required annual report to Congress;

(6) Submit to the Director the initial listing and the subsequent annual listings of positions as required by § 2170.11 (b), (c) and (d) of this part;

(7) Furnish a blank statement by December 15 of each year, to each State employee required to file a statement, and

(8) Inform annually each State employee required to file a statement with the Head of the State Regulatory Authority, or such other official designated by State law or regulation, of the name, address, and telephone number of the person whom they may contact for advice and counseling.

(b) The Director, Office of Surface Mining Reclamation and Enforcement, shall:

(1) Provide advice, assistance, and counseling to the Heads of all State Regulatory Authorities concerning conflict of interest matters;

(2) Promptly review the statement of employment and financial interests and supplements, if any, filed by each Head of the State Regulatory Authority. The Director will review the statement to determine if the Head of the State Regulatory Authority has correctly identified those listed employment and financial interests which constitute a direct or indirect financial interest in an underground or surface coal mining operation;

(3) Recommend to the State Attorney General, or such other State official designated by State law or the Governor of the State, the remedial action to be ordered or initiated, recommend to the Secretary that action be taken to impose the penalties of the Act, or recommend to the Secretary that other appropriate action be taken with respect to reimbursements, grants, or state programs;

(4) Certify on each statement filed by the Head of the State Regulatory Authority that the State has completed the review of the statement, that conflicts of interest have been resolved, and that no conflicts of interest exist;

(5) Monitor the conflict of interest program by using reports requested from Heads of State Regulatory Authorities and by using periodic audits performed by the Office of Audit and Investigation, U.S. Department of the Interior.

(6) Prepare for the Secretary of the Interior a consolidated report to the Congress as part of the annual report submitted under Section 706 of the Act, on the actions taken and not taken during the preceding calendar year under Section 517(g);

(7) Designate if so desired other qualified Office of Surface Mining Reclamation and Enforcement employees as Assistant Conflict of Interest Counselors to assist with the operational duties associated with filing and reviewing the statements from the Heads of each State Regulatory Authority;

(8) Furnish a blank statement by December 15 of each year, to the Head of each State Regulatory Authority, and

(9) Inform annually, the Head of each State Regulatory Authority of the requirement to file his or her statement with the Director and supply the name, address, and telephone number of the person whom they may contact for advice and counseling.

(c) State Regulatory Authority employees shall:

(1) Maintain especially high standards of impartiality by avoiding employment situations with or investments in business entities involved with coal mining operations;

(2) File a fully completed statement of employment and financial interests 120 days after these regulations become effective or upon entrance to duty, and annually thereafter on February 1 of each year;

(3) Comply with directives issued by persons responsible for approving each statement and comply with directives issued by those persons responsible for ordering remedial action.

§ 2170.5 Definitions.

Act. Means the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87.

Coal Mining Operation. Means the business of developing, producing, preparing or loading bituminous coal, subbituminous coal, anthracite or lignite or of reclaiming the areas upon which such activities occur.

Conflict. Means a situation where an employee's public duty is or will be affected by his or her direct or indirect financial interest, such as when the employee owns or has an interest in a company, land or other entity engaged in underground or surface coal mining operations which is or will be affected by operations or decisions he or she makes or in which he or she is involved.

Direct or Indirect Financial Interest. Means ownership or part ownership by an employee in his or her own name, or in the name of another person where the employee still reaps benefits of lands, stocks, bonds, debentures, warrants, partnership shares, or other holdings and, means any other situation where the employee may benefit from his or another person's holding in or salary from coal mining operations. Direct or indirect financial interests include employment pensions, creditor, real property and other financial relationships of the employee and his or her spouse, minor child, and other relatives, including in-laws, who live in the employee's home.

Director. Means the Director of the Office of Surface Mining Reclamation and Enforcement within the U.S. Department of the Interior.

Employee. Means any person employed by the State Regulatory Authority who performs any function or duty under the Act. State officials may through State law or regulations expand this definition to meet their program needs.

Office. Means the Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior.

Secretary. Means the Secretary of the U.S. Department of the Interior.

State Regulatory Authority. Means that office in each State which has primary responsibility at the State level for administering this Act. Until an office is established under the provisions of Section 503 or Section 504 of the Act, this term shall refer to those existing State offices having primary jurisdiction for regulating, enforcing, and inspecting any surface coal mining and reclamation operations within the State during the interim period between the effective date of the Act and the establishment of the State Regulatory Authority under Section 503 or Section 504.

§ 2170.6 Penalties.

(a) Criminal penalties are imposed by Section 517(g) of the Surface Mining Control and Reclamation Act of 1977, Pub. L. 95-87. Section 517(g) prohibits each employee of the State Regulatory Authority who performs any function or duty under the Act from having a direct or indirect financial interest in any underground or surface coal mining operation. The Act provides that whoever knowingly violates the provisions of subsection 517(g) shall, upon conviction, be

V 42163 AUG 23 77 UMI

punished by a fine of not more than $2,500, or by imprisonment of not more than one year, or by both.

(b) Regulatory penalties are imposed by this part. The provisions in Section 517(g) of the Act make compliance with the conflict of interest requirements a condition of employment for employees of the State Regulatory Authority who perform any functions or duties under the Act. Accordingly, an employee who fails to file the required statement will be considered in violation of the intended employment provisions of Section 517(g) and will be subject to removal from his or her position.

§ 2170.11 Who shall file.

(a) The Act applies to each State Regulatory Authority employee performing any function or duty under the Act. Each employee shall file a statement of employment and financial interests, including a certification that he or she is aware that he or she has no direct or indirect financial interest in any underground or surface coal mining operation and that he or she is in compliance with these requirements except as disclosed on the statement. Employees who occupy a position which has been determined by the Head of the State Regulatory Authority not to involve performance of any function or duty under the Act or who are no longer employed by the State Regulatory Authority at the time a filing is due, are not required to file a statement.

(b) The Head of each State Regulatory Authority shall prepare a list of those positions within the State Regulatory Authority that do not involve performance of any functions or duties under the Act. Only those employees who occupy a listed position will be exempted from the filing requirements of Section 517(g) of the Act.

(c) The Head of each State Regulatory Authority shall prepare and submit to the Director, an initial listing of positions that do not involve performance of any functions or duties under the Act within 60 days of the effective date of these regulations.

(d) The Head of each State Regulatory Authority shall annually review and update this listing. For monitoring and reporting reasons, the listing must be submitted to the Director and must contain a written justification for inclusion of the positions listed. Proposed revisions or a certification that revision is not required shall be submitted to the Director by no later than September 30 of each year. The Secretary, the Director, or the Head of the State Regulatory Authority may revise the listing by the addition or deletion of positions at any time they determine such revisions are required to carry out the purpose of the law or the regulations of this part. Additions to and deletions from the listing of positions are effective upon notification to the incumbents of the positions added or deleted.

§ 2170.13 When to file.

(a) Employees performing functions or duties under the Act shall file:

(1) Within 120 days of the effective date of these regulations, and

(2) Annually on February 1 of each year.

(b) New employees hired, appointed, or transferred to perform functions or duties under the Act will be required to file:

(1) At the time of entrance to duty, and

(2) Annually on February 1 of each year.

(c) Employees are not required to file an annual statement on February 1 if they filed their initial statement within two months prior to February 1. For example, an employee entering duty on December 1, 1978 would file a statement on that date. Because December 1 is within two months of February 1 the employee would not be required to file his next annual statement until February 1, 1980.

§ 2170.15 Where to file.

(a) The Head of the State Regulatory Authority shall file his statement with the Director. All other employees, as provided in § 2170.11, shall file their statement with the Head of the State Regulatory Authority or such other official as may be designated by State law or regulation.

§ 2170.17 What to report.

(a) Each employee shall report all information required on the statement of employment and financial interests of the employee, his or her spouse, minor children, or other relatives who are full-time residents of the employee's home. The report shall be on OSM Form 2170–1 as provided by the Office. The statement consists of three major parts, (1) A listing of all direct and indirect employment, security, real property and creditor financial interests held during the course of the preceding year, (2) certification that none of the listed financial interests represent a direct or indirect financial interest in an underground or surface coal mining operation except as specifically identified and described by the employee as part of the certificate, and (3) a certification by the reviewer that the form was reviewed and that no conflicts of interest exist.

(b) Listing of all financial interests. The statement will set forth the following information regarding any financial interest:

(1) *Employment.* Any continuing financial interests in business entities and nonprofit organizations through a pension or retirement plan, shared income, salary or other income arrangement as a result of prior or current employment. The employee, his or her spouse or other resident relative is not required to report a retirement plan from which he or she will receive a guaranteed income. A guaranteed income is one which is unlikely to be changed as a result of actions taken by the State Regulatory Authority.

(2) *Securities.* Any financial interest in business entities and nonprofit organizations through ownership of stock, stock options, bonds, securities or other arrangements including trusts. An employee is not required to report holdings in widely diversified mutual funds, investment clubs or regulated investment companies not specializing in underground and surface coal mining operations.

(3) *Real Property.* Ownership, lease, royalty or other interests or rights in lands or minerals. Employees are not required to report lands developed and occupied for a personal residence.

(4) *Creditors.* Debts owed to business entities and nonprofit organizations. Employees are not required to report debts owed to financial institutions (banks, savings and loan, credit unions, and the like) which are chartered to provide commercial or personal credit. Also, excluded are charge accounts and similar short term debts for current and ordinary household and living expenses.

(c) Employee certification, and, if applicable, a listing of exceptions.

(1) The statement will provide for a signed certification by the employee that to the best of his or her knowledge, (i) none of the listed financial interests represent an interest in an underground or surface coal mining operation except as specifically identified and described by the employee as part of the certificate, and (ii) the information shown on the statement is true, correct, and complete.

(2) (i) The following examples of financial interests would be prohibited financial interests because they represent an interest in an underground or surface coal mining operation and would be shown as exceptions on the employee certification:

(A) Companies which operate coal mines regardless of the nature of their major business, (i.e. public utilities, steel companies, etc.),

(B) Spouse's employment with a company engaged in coal mining operations, such as described in the preceding example.

(C) Outside employment such as part time or consultant work done for a coal mining operations company,

(D) Payments received for easements to or from coal mine operation sites,

(E) Retirement benefits which are not or will not be guaranteed,

(F) Ownership or use of lands associated with active coal mining operations.

(ii) These examples are not all-inclusive and are presented to give guidance to employees required to file a statement. An employee is expected to (A) Have complete knowledge of his or her personal involvement in business enterprises such as a sole proprietorship and partnership, his or her outside employment and the outside employment of the spouse and other covered relatives, and (B) be aware of the information contained in the annual financial statements or other corporate or business reports routinely circulated to investors or routinely made available to the public.

(3) The exceptions shown in the certification must provide enough information for the Head of the State Regulatory Authority to determine the existence of a direct or indirect financial interest. Accordingly, the exceptions should: (i) List the prohibited financial interests;

(ii) Show the number of shares or the estimated value of the prohibited financial interests;

(iii) Explain in some detail those other prohibited financial interest situations such as spouse's employment with mining operations, inherited mineral rights attached to land currently being mined, etc., and

(iv) Include any information which the employee believes should be considered in determining whether or not a conflict exists which must be corrected.

(4) Employees are cautioned to give serious consideration to their direct and indirect financial interests before signing the statement of certification. Signing the certification without listing known prohibited financial interests may be cause for imposing the penalties prescribed in § 2170.6(a).

§ 2170.19 Resolving conflicts of interest.

(a) Actions to be taken by the Head of the State Regulatory Authority:

(1) Remedial action to effect resolution. If an employee has a prohibited direct or indirect financial interest, the Head of the State Regulatory Authority shall promptly advise the employee that remedial action which will resolve the conflict of interest is required within 90 days.

(2) Remedial action may include: (i) Reassignment of the employee to another job where no such conflict would exist;

(ii) Divestiture of the financial interest which creates the conflict; or

(iii) Other appropriate action which either eliminates the direct or indirect financal interest or eliminates the situation which creates the conflict.

(3) Reports of non-compliance. If 30 days after an employee is notified to take remedial action that employee is not in compliance with the requirements of the Act and these regulations, the Head of the State Regulatory Authority shall report the facts of the situation to the Director who shall determine whether action to impose the penalties prescribed by the Act should be initiated. The report to the Director shall include the original or a certified true copy of the employee's statement and any other information pertinent to the Director's determination, including a statement of actions being taken at the time the report is made.

(b) Actions to be taken by the Director:

(1) Remedial action to effect resolution. Violations of the regulations in this part by the Head of a State Regulatory Authority, will be cause for remedial action by the Governor of the State or other appropriate State official based on recommendations from the Director on behalf of the Secretary. The Governor or other appropriate State official shall promptly advise the Head of the State Regulatory Authority that remedial action which will resolve the conflict of interest is required within 90 days.

(2) Remedial action should be consistent with the procedures prescribed for other State employees by § 2170.19(a)(2).

(3) Reports of non-compliance. (i) If 90 days after the Head of a State Regulatory Authority is notified to take remedial action the Governor or other appropriate State official notifies the Director that the Head of the State Regulatory Authority is not in compliance with the Act and these regulations, the Director shall report the facts of the situation to the Secretary who shall determine whether action to impose the penalties prescribed by the Act, or to impose the eligibility restrictions prescribed by § 2170.1 should be initiated.

(ii) Within 30 days of receipt of a non-compliance report from the Head of a Regulatory Authority under § 2170.19(a)(2), the Director shall notify the Head of the State Regulatory Authority and the employee involved of additional action to be taken. Actions which the Director may take include but are not limited to the granting of additional time for resolution or the initiation of action to impose the penalties prescribed by the Act.

§ 2170.21 Appeals procedures.

Employees have the right to appeal an order for remedial action under § 2170.19, and shall have 30 days to exercise this right before disciplinary action is initiated.

(a) Employees other than the Head of the State Regulatory Authority, may file their appeal, in writing, through established procedures within their particular State.

(b) The Head of the State Regulatory Authority may file his appeal, in writing, with the Director who will refer it to the Appeals Board within the Department of the Interior.

PART 2171—CONFLICT OF INTEREST PROVISION FOR FEDERAL EMPLOYEES

Sec.

2171.1 Purpose.
2171.2 Objectives.
2171.3 Definitions.
2171.4 Authority.
2171.5 Responsibility.
2171.6 Penalties.
2171.11 Who shall file.
2171.13 When to file.
2171.15 Where to file.
2171.17 What to report.
2171.19 Resolving conflicts of interest.
2171.21 Appeals procedures.

AUTHORITY: Pub Law 95-87, Section 201(f).

§ 2171.1 Purpose.

This part sets forth the minimum conflict of interest policies and procedures to be followed by Federal employees to satisfy the requirements of section 201(f) of the Act. The requirements of this part are in addition to Executive Order 11222 of May 8, 1965, and other applicable regulations related to conflict of interest. Section 201(f) prohibits certain Federal employees from having any direct or indirect financial interest in underground or surface coal mining operations. The regulations of this part are applicable to Federal employees as defined in § 2171.3.

§ 2171.2 Objectives.

The objectives of this part are: (a) To ensure that affected Federal agencies adopt a standard program for implementing the conflict of interest provisions in section 201(f) of the Act.

(b) To establish methods which will ensure, as required by section 201(f) of the Act, that each Federal employee who performs any function or duty under the Act does not have a direct or indirect financial interest in an underground or surface coal mining operation.

(c) To establish the methods by which the monitoring enforcing and reporting responsibilities of the Director and the Secretary of the Interior under Section 201(f) will be accomplished.

§ 2171.3 Definitions.

Act, means the Surface Mining Control and Reclamation Act of 1977, Public Law 95–87.

Coal mining operation, means the business of developing, producing, preparing or loading bituminous coal, subbituminous coal, anthracite or lignite or of reclaiming the areas upon which such activities occur.

Conflict, means a situation where an employee's public duty is or will be affected by his or her direct or indirect financial interest, such as when the employee owns or has an interest in a company, land, or other entity, engaged in underground or surface coal mining operations which is or will be affected by operations or decisions he or she makes or in which he or she is involved.

Direct or indirect financial interest, means ownership or part ownership by an employee in his or her own name or in the name of another person where the employee still reaps benefits, of lands, stocks, bonds, debentures, warrants, partnership shares or other holdings and means any other situation where the employee may benefit from his or another person's holding in or salary from coal mining operations. Direct or indirect financial interests includes employment, pensions, creditor, real property and other financial relationships of the employee and his or her spouse, minor child and other relatives, including in-laws who live in the employee's home.

Director, means the Director or Acting Director of the Office of Surface Mining Reclamation and Enforcement, United States Department of the Interior.

Employee, means any person employed by the Office of Surface Mining Reclamation and Enforcement within the Department of the Interior and any other person employed by the Federal government who performs duties under the Act without regard to the duration or nature of his or her appointment.

Office, means the Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior.

Other Federal agency, means any executive Federal agency or office or part thereof not a part of the Department of the Interior, and includes, but is not

V 42163 AUG 23 77 UMI

limited to, the following agencies: The Department of Agriculture, the Department of Justice, the Corps of Engineers, the Environmental Protection Agency, the Council on Environmental Quality and the Energy Research and Development Administration.

Secretary, means the Secretary of the United States Department of the Interior.

§ 2171.4 Authority.

(a) The Director is authorized by Public Law 95-87 to:

(1) Establish the methods by which the provisions in Section 201(f) of the Act will be monitored and enforced.

(2) Establish appropriate provisions for all employees who perform any function or duty under the Act to file a statement and supplements thereto concerning their financial interests which may be affected by Section 201(f) and

(3) Report annually to the Congress on actions taken and not taken during the preceding calendar year under subsection 201(f) of the Act.

(b) Other Federal agencies with employees who perform functions or duties under the Act may adopt conflict of interest regulations pursuant to the Act which are consistent with the requirements in this Part. If any such agency does not adopt regulations pursuant to this part, that agency shall enter into a memorandum of understanding with the Director, to have the employees of that agency who perform functions or duties under the Act file their statements with the Director. The Director will review statements filed with him, applying the regulations of the Department of the Interior. Where the Director determines that remedial action is necessary, he will refer the case to the employing agency with a recommendation as to the action to be taken.

(c) The Office of Audit and Investigation within the U.S. Department of the Interior is authorized to conduct or arrange for the conduct of periodic audits related to the provisions contained in Section 201(f) of the Act and related to the provisions in this Part. These audits will be conducted on a cyclical basis or upon request of the Secretary of the Interior or Director.

§ 2171.5 Responsibility.

(a) The Director, the Head of each other Federal Agency, and the Head of each other bureau or office within the Department of the Interior, have the following common responsibilities concerning employees within their organizations performing any functions or duties under the Act, and shall:

(1) Provide advice, assistance and counseling to employees concerning conflict of interest matters related to the Act;

(2) Promptly review the statement of employment and financial interests and supplements, if any, filed by each employee to determine if the employee has correctly identified those listed employment and financial interest in an underground or surface coal mining operation;

(3) Certify on each statement filed by an employee that the review of the statement is completed, that conflicts of interest if any, have been resolved, and that no conflicts of interest exist;

(4) Resolve conflict of interest situations by promptly notifying and ordering the employee to take remedial action within 90 days, or by initiating action to impose the penalties of the Act;

(5) Furnish a blank statement by December 15 of each year to each employee required to file a statement within his or her employing organization;

(6) Inform annually each employee requiredd to file a statement within his or her employing organization of the name, address, and telephone number of the person whom they may contact for advice and counseling.

(b) In addition to the common responsibilities in § 2171.5(a) the Director shall:

(1) Monitor the conflict of interest program by using reports requested from the Heads of other Federal agencies, from the Heads of other bureaus and offices within the Department of the Interior, and by using periodic audits performed by the U.S. Department of the Interior, Office of Audit and Investigation.

(2) Prepare for the Secretary a consolidated report to the Congress as part of the annual report submitted under Section 706 of the Act, on the actions taken and not take nunder Section 201(f) during the preceding calendar year;

(3) Refer recommendations to officials of other Federal Agencies concerning those cases requiring remedial action for employees of the other Federal Agency who filed with the Director because that other Federal Agency did not choose to adopt its own conflict of interest regulations pursuant to the Act;

(4) Report to the Solicitor, U.S. Department of the Interior, through the Office of Audit and Investigation, U.S. Department of the Interior, cases of knowing violations of the provisions in Section 201(f). The Solicitor will transfer such reports to the U.S. Department of Justice;

(5) Designate, if so desired, other qualified Office employees as assistant conflict of interest counselors to assist with the operational duties associated with filing and reviewing financial statements;

(6) Furnish an adequate supply of blank statements to the Heads of those other Federal agencies which decide to have their employees file with the Director, and

(7) Submit to the Department of the Interior Ethics Counselor such statistics and information he may request in accordance with 43 CFR 20.735-17 as adopted.

(c) In addition to the common responsibilities in § 2171.5(a), the Head of each other Federal Agency with employees performing any functions or duties under the Act shall:

(1) Decide whether to adopt independent procedures for the filing and review of statements or to enter into a memorandum of understanding with the Director that the Department of the Interior will provide and review the statements and recommend any necessary remedial action to the Head of the employing agency;

(2) Submit to the Director such statistics and information the Director may request to enable preparation of the required annual report to the Congress, and to ensure uniform application of the provision in Section 201(f) of the Act, and

(3) Report to the Director cases of knowing violations of the provisions in Section 201(f). The Director will transmit the report to the Office of Audit and Investigation and to the Solicitor in the Department of the Interior. The Solicitor will transfer such reports to the U.S. Department of Justice;

(d) In addition to the common responsibilities in § 2171.5(a), the Heads of other Interior Department bureau or offices with employees performing any functions or duties under the Act shall:

(1) Submit to the Director such statistics and information the Director may request to enable preparation of the required annual report to Congress, and to ensure uniform application of provisions in Section 201(f) of the Act;

(2) Submit to the Department of the Interior Ethics Counselor such statistics and information he may request in accordance with 43 CFR 20.735-17 as adopted, and

(3) Report to the Director cases of knowing violations of the provisions in Section 201(f).

(e) Employees shall:

(1) Maintain especially high standards of impartiality by avoiding employment situations with or investments in business entities involved with coal mining operations;

(2) File a fully completed statement of employment and financial interests 120 days after these regulations become effective or upon entrance to duty, and annually thereafter on February 1 of each year, and

(3) Comply with directives issued by persons responsible for approving each statement and comply with directives issued by those persons responsible for ordering remedial action.

§ 2171.6 Penalties.

(a) Criminal penalties are imposed by Section 201(f) of the Surface Mining Control and Reclamation Act, Public Law 95-87, which prohibits each employee of the Office or any other Federal employee who performs any function or duty under the Act from having a direct or indirect financial interest in underground or surface coal mining operations. The Act provides that whoever knowingly violates the provisions of subsection 201(f) shall, upon conviction, be punished by a fine of not more than $2,500, or by imprisonment for not more than one year, or both.

(b) Regulatory penalties are imposed by this part. The provisions in Section 201(f) of the Act make compliance with the conflict of interest requirements a condition of employment for all Office employees and for other employees of the Federal government who perform any functions or duties under the Act. Accordingly, an employee who fails to file the required statement will be considered in violation of the intended employment provisions of Section 201(f) and will be subject to removal from his or her position.

§ 2171.11 Who shall file.

(a) Every employee in the Office is required to file a statement of employment and financial interests.

(b) Any other Federal employee who performs any function or duty under the Act is required to file a statement of employment and financial interests. The Head of each other Federal agency and the Heads of other Interior bureaus and offices, shall prepare and submit a report within 60 days of the effective date of these regulations, either listing the Federal positions identified as performing functions or duties under the Act, or listing the organizational unit within the organization showing the total number of employees within the unit who must file a statement. Revision to the listing or certification that revision is not required shall be submitted to the Director by no later than September 30 of each year. The Secretary, the Director, or the Heads of the other affected Federal organizations may revise the list by the addition or deletion of positions at any time such revisions are required to carry out the purpose of the law or regulations of this Part. Additions to or deletions from the list of positions are effective upon notification to the incumbents.

§ 2171.13 When to file.

(a) Employees currently performing functions or duties under the Act will be required to file:

(1) Within 120 days of the effective date of these regulations, and

(2) Annually on February 1 of each year.

(b) New employees hired, appointed, or transferred to perform functions or duties under the Act will be required to file:

(1) At the time of entrance on duty, and

(2) Annually on February 1 of each year.

(c) Employees are not required to file an annual statement if they have filed an initial statement within two months prior to February 1. For example, an employee entering duty on December 1, 1978 would file a statement on that date. Because December 1 is within two months of February 1 the employee would not be required to file his next annual statement until February 1, 1980.

§ 2171.15 Where to file.

(a) Each Office employee shall file his or her statement of employment and financial interests with the Director.

(b) Each Department of the Interior employee, who is not an Office employee but does perform any function or duty under the Act, shall file a statement of employment and financial interests with their appropriate Ethics Counselor as identified in 43 CFR 20.735-22(c).

(c) Each employee of an other Federal agency who performs a function or duty under the Act shall file a statement of employment and financial interests with the official designated by the Head of the other Federal agency.

§ 2171.17 What to report.

(a) Each employee shall report all information required on the statement of employment and financial interest of the employee, his or her spouse, minor children, or other relatives who are full-time residents of the employee's home. The report shall be on a form provided by the Office. The statement consists of three major parts, (1) a listing of all direct and indirect employment, security, real property and creditor financial interests held during the course of the preceding year, (2) an employee signed certification that none of the listed financial interests represent a direct or indirect financial interest in an underground or surface coal mining operation except as specifically identified and described by the employee as part of the certificate, and (3) a certification by the reviewer that the form was reviewed and that no conflicts of interest exist.

(b) Listing of all financial interests. The statement will set forth the following information regarding any financial interest:

(1) *Employment.* Any continuing financial interests in business entities and nonprofit organizations through a pension or retirement plan, shared income, salary or other income arrangement as a result of prior or current employment. The employee, his or her spouse or other resident relative is not required to report a retirement plan from which he or she will receive a guaranteed income. A guaranteed income is one which is unlikely to be changed as a result of actions taken by the Federal government under the Act.

(2) *Securities.* Any financial interest in business entities and nonprofit organizations through ownership of stock, stock options, bonds, securities or other arrangements including trusts. An employee is not required to report holdings in widely diversified mutual funds, investment clubs or regulated investment companies not specializing in underground and surface coal mining operations.

(3) *Real Property.* Ownership, lease, royalty or other interests or rights in lands or minerals. Employees are not required to report lands developed and occupied for a personal residence.

(4) *Creditors.* Debts owed to business entities and non-profit organizations. Employees are not required to report debts owed to financial institutions (banks, savings and loan, credit unions, and the like) which are chartered to provide commercial or personal credit. Also excluded are charge accounts and similar short term debts for current and ordinary household and living expenses.

(c) Employee certification, and, if applicable, a listing of exceptions.

(1) The statement will provide for a signed certification by the employee that to the best of his or her knowledge, (i) none of the listed financial interests represent an interest in an underground or surface coal mining operation except as specifically identified and described by the employee as part of the certificate, and (ii) the information shown on the statement is true, correct, and complete.

(2) (i) The following examples of financial interests would be prohibited financial interests because they represent an interest in an underground or surface coal mining operation and would be shown as exceptions on the employee certification:

(A) Companies which operate coal mines regardless of the nature of their major business, (i.e. public utilities, steel companies etc.)

(B) Spouse's employment with a company engaged in coal mining operations, such as described in the preceding example,

(C) Outside employment such as part time or consultant work done for a coal mining operations company,

(D) Payments received for easements to or from coal mine operation sites,

(E) Retirement benefits which are not or will not be guaranteed, and

(F) Ownership or use of lands associated with active coal mining operations.

(ii) These examples are not all-inclusive and are presented to give guidance to employees required to file a statement. An employee is expected to (A) have complete knowledge of his or her personal involvement in business enterprise such as a sole proprietorship and partnership, his or her outside employment and the outside employment of the spouse and other covered relatives, and (B) be aware of the information contained in the annual financial statements or other corporate or business reports routinuely circulated to investors or routinely made available to the public.

(3) The exceptions shown in the certification must provide enough information for the Director, the Head of an other Federal agency, or the Head of another Interior Department bureau or office to determine the existence of a direct or indirect financial interest. Accordingly, the exceptions should:

(i) List the prohibited financial interests;

(ii) Show the number of shares or the estimated value of the prohibited financial interests;

V 42 163 AUG 23 77 UMI V

(iii) Explain in some detail those other prohibited financial interest situations such as spouse's employment with mining operations, inherited mineral rights attached to land currently being mined, etc., and

(iv) Include any information which the employee believes should be considered in determining whether or not a conflict exists which must be corrected.

(4) Employees are cautioned to give serious consideration to their direct and indirect financial interests before signing the statement or certification. Signing the certification without listing known prohibited financial interests may be cause for imposing the penalties prescribed in § 2171.6(a).

§ 2171.19 Resolving conflicts of interest.

Actions to be taken by the Director, the Heads of other Federal agencies, and the Heads of other affected Interior Department bureau and offices include:

(a) Remedial action to effect resolution. If an employee has a prohibited direct or indirect financial interests, the Head of the organizational entity (Department, bureau, office etc.) where the employee works shall promptly advise the employee that remedial action which will resolve the conflict of interest is required within 90 days.

(b) Remedial action may include: (1) Reassignment of the employee to another job where no conflict of interest would exist, (2) Divestiture of the financial interests which creates the conflict, or (3) Other appropriate action which either eliminates the direct or indirect financial interest or eliminates the situation which creates the conflict.

(c) Reports of non-compliance. If 90 days after an employee is notified to take remedial action that employee is not in compliance with the requirements of the Act and these regulations, the official, other than the Director, who ordered the remedial action shall report the facts of the situation to the Director who shall determine whether action to impose the penalties prescribed by the Act should be initiated. The reports to the Director shall include the original or a certified true copy of the employee's statement and any other information pertinent to the Director's determination, including a statement of actions being taken at the time the report is made. Within 30 days of receipt of a non-compliance report, the Director shall notify the Head of the employing organization and the employee involved of additional action to be taken. Actions which the Director may take include but are not limited to the granting of additional time for resolution or the initiation of action to impose the penalties prescribed by the Act.

§ 2171.21 Appeals procedures.

Employees have the right to appeal an order for remedial action under § 2171.19, and shall have 30 days to exercise this right before disciplinary action is initiated.

(a) Office employees and other Department of the Interior employees may file their appeal, in writing, in accordance with the provisions in 43 CFR 20.735-25(b).

(b) Employees of other Federal agencies may file their appeal, in writing, in accordance with the established procedures of their employing agency.

LONGSHOREMEN'S AND HARBOR WORKERS' COMPENSATION ACT AND RELATED STATUTES

Referral of Claims Under Longshoremen's Act for Formal Hearings and Approval of Fees for Legal Services Rendered Claimants

V 42 163 AUG 23 77 UM

Title 20—Employees' Benefits

CHAPTER VI—EMPLOYMENT STANDARDS ADMINISTRATION, DEPARTMENT OF LABOR

SUBCHAPTER A—LONGSHOREMEN'S AND HARBOR WORKERS' COMPENSATION ACT AND RELATED STATUTES

PART 702—ADMINISTRATION AND PROCEDURES

Referral of Claims Under Longshoremen's Act for Formal Hearings and Approval of Fees for Legal Services Rendered Claimants

AGENCY: Department of Labor.

ACTION: Final rules.

SUMMARY: The rules prescribe guidelines for preparation and submission for approval of applications for fees for legal services rendered to claimants in claims arising under the Longshoremen's and Harbor Workers' Compensation Act and its extensions. The rules also prescribe new procedures for referring such claimants to administrative law judges for formal hearings and for adjudicating claims after referral. In response to a demonstrated need, the rules are intended to promote uniformity in fee application and approval and to diminish the time between referral of a claim for formal hearing and the filing of a decision disposing of the claim.

DATES: Effective date: September 22, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. George M. Lilly, Counsel for Longshore Programs, Office of the Solicitor, Suite N-2716, New DOL Building, 200 Constitution Avenue NW., Washington, D.C. 20210, Tel.: 202-523-7651.

SUPPLEMENTARY INFORMATION: The Secretary of Labor is authorized by statute (33 U.S.C. 939(a)) to make rules and regulations to administer the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 901-950) and its extensions, the District of Columbia Workmen's Compensation Act (66 D.C. Code 501-502), the Defense Base Act (42 U.S.C. 1651-1654), the Outer Continental Shelf Lands Act (43 U.S.C. 1331-1343), and the Nonappropriated Fund Instrumentalities Act (5 U.S.C. 8171-8173). On March 15, 1977, pusuant to this authority, the Department of Labor published proposed rules (42 FR 14284-85) to revise the present guidelines (20 CFR 702.132) for securing approval (see 33 U.S.C. 928) of fees for legal services rendered to claimants with respect to claims arising under the Longshoremen's and Harbor Workers' Compensation Act and its extensions and to revise the present procedures (20 CFR 702.316, 702.317, 702.331, 702.335, 702.336, 702.337, 702.341, 702.343, 702.347) for referring such claims to the Office of Administrative Law Judges, Department of Labor, for formal hearings and for adjudicating claims after referral. At the same time, the Department invited comment on the proposed rulemaking, and twenty-five letters containing or enclosing comments have been received. The comments have been studied thoroughly. As a result, the Department has decided to revise the present regulations, but also to incorporate many of the suggestions implied or expressed in the comments. Nevertheless, many suggestions have not been followed, in many cases because they are beyond the scope of the rules to be revised, and some doubts raised by the comments and shared by the Department have not been resolved by the final rules published here, primarily because it is the opinion of the drafters that they will be resolved more effectively in practice than they could be by the adoption of additional formal rules.

DISCUSSION OF MAJOR COMMENTS AND CHANGES

§ 702.32: FEES FOR SERVICES

Several commenting parties suggested that the proposed rule lacks sufficient detail to promote uniformity in general and compliance at all levels in particular with rulings of several United States courts of appeals as to fee applications submitted for services performed before those courts.[1] The drafters agree, and the final rule is more specific and consistent with the courts' guidelines.

Several other suggestions for additional uniformity have, however, been rejected. The suggestion that an upper limit on fees is necessary for actuarial purposes has been rejected because the statutory requirement that fees be "reasonable" (see 33 U.S.C. 928) cannot be satisfied in all cases consistently with such a regulatory limitation. Likewise, the suggestions that a standard fee application form be adopted and that uniform times for filing the application and for responding to it be specified have been rejected because additional forms are to be avoided if at all possible, and a uniform time for fee applications is necessary to accelerate adjudication on the merits and might interfere with the performance of useful but unexpected services—for example, seeking reconsideration.

Several commenting parties suggested that consideration of the amount of benefits involved when the fee is to be assessed against the employer is unfair, because the employer's attorney is not paid according to the benefits involved. In fact, a reasonable hourly rate remains the touchstone of fee approval. Moreover, the employer's attorney or any attorney billing at a "normal" rate is customarily compensated without regard to wins or losses and before all appeals are exhausted. In fact another commenting party suggested adoption of some system of conditional payment of claimant's attorney's fee at each level where he or she is successful; such a scheme is, however, beyond the scope of the Department's rulemaking authority (see 33 U.S.C. 928(a)), and the suggestion must be rejected.

One commenter's suggestion that the rule's final sentence, regarding fee-setting contracts, be revised to eliminate the confusing reference to "a contingent basis" has been adopted, since fee approval is contingent upon success, and, to some extent, the amount approved is contingent upon the amount of benefits awarded.

Finally, the suggestion that the rules expressly require that fee applications and responses be served on the other parties has been adopted. It was initially omitted only because it seems required by professional ethics in any event.[2]

§ 702.316: CONCLUSION OF CONFERENCE: NO AGREEMENT ON ALL MATTERS WITH RESPECT TO THE CLAIM

Most commenting parties objected to the proposed rule, particularly in conjunction with §§ 702.317, 702.331, and 702.336, and the common theme of the objections is that the proposed rules in combination merely translate, and even magnify, delay at the formal hearing into delay before the deputy commissioner. The purpose of the proposed rules is to ensure that the case is ripe for formal adjudication by the time the hearing is held, but the drafters agree that delay before the deputy commissioner is a problem which may be aggravated by even the final rules; however, the problem is an administrative one which cannot be solved by rulemaking. Many specific objections have nevertheless persuaded the drafters to revise the final rules substantially.

Several commenters questioned whether the deputy commissioner's memorandum of conference was to be included among the items transmitted to the Office of the Chief Administrative Law Judge, and § 702.317(c) has been revised to make it more clear (see § 702.331) that the memorandum is not to be included.

One commenting party suggested that the memorandum of conference should state the positions of the parties as well as the deputy commissioner's findings and reasoning in support of his or her recommendations. Although the final rule is more specific as to the contents of the memorandum, it does not require a statement of the parties' positions because, in the view of the drafters, litigative formalization of the parties' positions should await their preparation of pre-hearing statement forms (see § 702.317 and comments concerning it).

[1] *See Aguas Stevedoring Co. v. Bryant*, 544 F.2d 812 (5th Cir. 1977); *Todd Shipyards Corp. v. Director, Office of Workers' Compensation Programs*, 545 F.2d 1176 (9th Cir. 1976); *Atlantic & Gulf Stevedores, Inc. v. Director, Office of Workers' Compensation Programs*, 542 F.2d 602 (3d Cir. 1976). Additionally, the Ninth Circuit case forbids award of a fee against an employer for services rendered by a non-attorney unless he or she is assisting an attorney, and by adoption of this rule and Department acquiesces in all circuits at all levels.

[2] See, e.g., ABA Code of Professional Responsibility, Canon No. 7, Disciplinary Rule 7-110(B).

Another commenter read this section effectively to forbid submission of current medical reports at the formal hearing. This result was never intended. However, for the sake of clarity, in the final rule the last sentence of the proposed rule has been eliminated, and the first sentence now specifies merely that the deputy commissioner shall evaluate the evidence "available to him or her" before preparing the memorandum of conference.

Several commenting parties complained that the informal conferences and related procedures are often used merely for delay and suggested express adoption of an accelerated referral procedure for a claimant who is seriously disabled and receiving no benefits. One commenter suggested that the deputy commissioner be required to issue the memorandum of conference within fourteen days of the conference in all cases. For the present, such suggestions have been rejected because the drafters believe that accelerated handling of special cases can be accomplished individually within the framework of the final rules.

At the other end of the spectrum, a few commenting parties urged adoption of formal evidentiary and discovery procedures and restoration of some enforcement powers before the deputy commissioner in order to encourage intelligent settlements and avoid dilatory hearing requests. This suggestion has been rejected for several reasons, of which the most forceful is that it is inconsistent with the 1972 amendments to the Longshoremen's Act (see 33 U.S.C. 919(d)); furthermore, the drafters believe that requiring preparation of the pre-hearing statement form (see § 702.317) before referral will accomplish the same purpose as well.

One commenter suggested that the rule expressly provide that referral on the merits should not be delayed pending administrative response to the deputy commissioner's recommendation regarding relief from the special fund (see 33 U.S.C. 908(f), 944). This suggestion has been rejected for the present because the problem it addresses appears to be atypical and capable of resolution on an individual basis.

Other changes are in style only.

§ 702.317: PREPARATION AND TRANSFER OF THE CASE FOR HEARING

Voluminous and diffuse comments regarding this section were received, and they do not lend themselves to easy summarization. The following three paragraphs are intended to answer most of them, and the remainder of this discussion addresses particular comments and changes.

The drafters do not intend the final rules to encourage the parties to adopt a litigative posture before it becomes clear that the case will be transferred for formal hearing. Experience has shown that in most areas claimants are rarely represented by attorneys at informal conferences but usually are so represented at hearings. Thus under the final rule it is contemplated, although of course not mandated, that attorneys will become involved once it becomes necessary to fill out pre-hearing statement forms. Furthermore, discovery in the modern sense, as contemplated by the Federal Rules of Civil Procedure, does not exist under the Longshoremen's and Harbor Workers' Compensation Act: 33 U.S.C. 924 authorizes depositions and interrogatories only for the purpose of taking testimony (see discussion of § 702.341), and the parties are expected to discover the facts informally in proceedings before the deputy commissioner. When necessary, however, compelled production of evidence pursuant to 33 U.S.C. 927(a) is expected to commence at approximately the same time the parties are furnished pre-hearing statement forms. Thus at least twenty-one days, which may be enlarged by the deputy commissioner "for good cause" (see § 702.317(b)), plus at least thirty days, according to the final rules (see § 702.335, § 702.337(b)), are available for the limited pre-hearing discovery authorized by the statute. "Post-hearing" procedures, however, are not allowed except by the device of extending the time for official termination of the hearing in "exceptional cases" in the discretion of the Chief Administrative Law Judge or the administrative law judge assigned to the case (see § 702.347(b)).

Secondly, the deputy commissioner's transmittal of evidence (see § 702.317(c), § 702.331) is simply for the convenience of the parties and is not intended to accomplish the evidence's admission: evidence transmitted because one party intends to submit it must still be offered and may still be objected to by another party at the hearing. Furthermore, neither the transmitted evidence nor the pre-hearing statement form is intended to prohibit submission of new evidence at the hearing. And as the final rules make clear, pre-transferal re-evaluation by the deputy commissioner is required only when an issue arises that has never been brought to his or her attention or when important evidence has been unreasonably withheld; moreover, although the final rules require that the deputy commissioner's re-evaluation be reflected in a new *memorandum* of conference (see § 702.317(d)), whether an additional conference should be held is a matter for the deputy commissioner's judgment (*cf.* § 702.316). Thus, any delay incident to re-evaluation should ordinarily be minimal. Simply, the parties are expected to raise all known issues and reveal all known facts material to those issues. However, once the case has been transferred for a formal hearing, remand by the administrative law judge is contemplated only when a new issue arises from new evidence so important that it is likely to resolve the entire case informally[1] (see § 702.336(a)). That a claim for permanent partial disability has, since transferal, ripened into a claim for permanent total disability by reason of the claimant's discharge by the employer, to use one commenter's example, does not ensure remand; although it presents a new issue arising from new evidence, the evidence is presumably not likely to resolve the entire case by persuading the employer to pay benefits for permanent total disability on the deputy commissioner's recommendation. Whenever doubtful, the point may of course be argued before the administrative law judge.

It follows from the discussion above that a party's failure to fill out a pre-hearing statement form does not preclude his or her submission of evidence at the hearing (for procedure, see 20 CFR 702.319) and does not render remand permissible unless his or her position at the hearing raises an issue not included in the pre-hearing statement form or forms that are prepared and transmitted. Thus, any party can prevent remand by including all potential issues in his or her pre-hearing statement form, regardless of what the other parties do and regardless of what evidence is disclosed on the forms. On the other hand, if no party prepares a pre-hearing statement form, all issues and evidence will be new to the administrative law judge, since under the new rules the deputy commissioner no longer prepares "a separate memorandum" of facts and issues in dispute (see 20 CFR 702.317), and remand will be permissible if the evidence proffered is likely to resolve the entire case informally. In sum, the new rules are intended to encourage informal resolution of claims and discourage tactical surprise at formal hearings, but under no circumstances do they bar anyone, including an intervenor, from submitting evidence at the hearing.

Several commenting parties asked the reason for limiting the evidence transmitted to medical evidence and transmitting all of it without regard to its continued materiality, and the final language of § 702.317(c) and § 702.331(a) provides instead that all available evidence (already submitted to the deputy commissioner: see 20 CFR 702.319), which the parties intend to submit (indicated on the pre-hearing statement form) shall be transmitted.

A few commenters questioned the evidentiary status, propriety, and other aspects of the deputy commissioner's statement explaining the absence of a party's pre-hearing statement form (see § 702.317(e)). The statement is intended merely as an indication to the administrative law judge that the form's absence is not a clerical mistake, and the statement's preparation will therefore not be burdensome. Furthermore, the statement itself will not be prejudicial, but a party's failure to prepare (or even to prepare fully) a pre-hearing statement form, regardless of the deputy commissioner's statement, will presumably be relevant if, for example, the same party moves for remand, continuance, or other time-consuming relief. Addi-

[1] Under the proposed rule, the case could be remanded for likely resolution of a particular issue, but objection to that feature was very strong, and it has been changed in the final rule. The policy the drafters seek to effectuate is that a serious effort should be made to resolve all issues informally.

V 42163 AUG 23 77 UM V

tionally, at some point dilatory tactics and failure to comply with the rules give rise to the sanctions contained in 33 U.S.C. 926 (costs of proceedings) and 33 U.S.C. 927(b) (contempt).

Several parties questioned whether the deputy commissioners' memorandum of conference was to be transmitted, and the final rule specifies that it shall not be (cf. 20 CFR 702.317).

§ 702.331: FORMAL HEARINGS; TO WHOM PAID; INITIATING

The language describing the evidence to be transmitted has been changed; see discussion of § 702.317.

§ 702.335: FORMAL HEARINGS; NOTICE

Commenting parties were unanimous in urging that ten days is inadequate notice, and the final rule guarantees thirty days, a rough average of the suggestions. One commenter suggested, however, that the ten-day period be retained as to cases where the claimant is seriously disabled and receiving no benefits (cf. discussion of § 702.316), but since, as a practical matter, the guaranteed notice period will seldom affect the time between informal conference and formal hearing, and so many commenters wanted a guaranteed period for discovery (see discussion of § 702.316), the suggestion has not been adopted. In practice, a statement on a party's pre-hearing statement form explaining the need for a speedy hearing should do more towards accelerating the process than any special provision in the rules. Similarly, several commenting parties questioned when discovery was intended to take place, and this question is answered in the discussion of § 702.317.

A couple of commenters asked why parties are not consulted, at least on the West Coast where the Office of Administrative Law Judges is decentralized, before the Chief Administrative Law Judge sets a hearing date. In fact, sometimes they are consulted, generally by means of a calendar call, and the extent to which they are depends on particularized administrative factors that cannot be controlled by rulemaking. However, since the new rules (see § 702.337(b)) are more restrictive than the current rules (see 20 CFR 702.337) regarding the granting of continuances, the drafters contemplate that a greater effort will be made to accommodate the parties. Again, inclusion of a range of convenient hearing dates on the pre-hearing statement form should prove helpful in practice.

One commenting party questioned why the requirement that the notice of hearing specify the time and place of the hearing had been deleted; it was deleted because it seems implicit in the concept of "notice" of "scheduling," but the final rule restores it explicitly.

§ 702.336: FORMAL HEARINGS; NEW ISSUES

Most commenting parties objected to the proposed remand provisions, and, as explained in the discussion of § 702.317, they have been modified. The final rule provides for remand only when a new issue arises from new evidence likely to resolve the entire case. Additionally, the provision that the administrative law judge may consult with the deputy commissioner regarding the advisability of remand has been deleted, and argument on the point, if needed, is therefore left to the parties. Several commenters found any remand without the consent of all parties objectionable, but it is difficult to imagine circumstances such that an administrative law judge could be persuaded that the new evidence will resolve the entire case notwithstanding that one party vigorously opposes remand.

Several commenting parties suggested that granting settlement-approval authority to the administrative law judges was preferable to providing for remand when informal resolution was likely, but the suggestion has not been adopted. In view of the drafters, approval of a settlement is properly an administrative rather than judicial function, since to satisfy the statutory condition that a settlement be "for the best interests of an injured employee" (33 U.S.C. 908(i)) requires resort to administrative experience in the local area and informal investigation of factors outside the record (see also 20 CFR 702.241(d)).

The typographical error according to which the proposed § 702.336(a) would replace the entire present 20 CFR 702.336 has been corrected.

§ 702.337: FORMAL HEARINGS; CHANGE OF TIME OR PLACE FOR HEARINGS; POSTPONEMENTS

Most commenting parties suggested that the "extreme hardship" standard for continuances in combination with the ten-day guaranteed notice period was unreasonably strict, and both have been changed (see discussion of § 702.335). As several commenters suggested, the final rule now expressly provides that a previously scheduled judicial proceeding is an adequate reason for granting a continuance. However, the final rule also changes the time when a request for a continuance must be received by the Chief Administrative Law Judge from five until ten days before the scheduled date.

A couple of commenting parties questioned whether the requirement that the hearing be held near the claimant's residence was fair to employers and witnesses in areas of the country where many employees travel more than seventy-five miles to work. Since, however, such unfairness in any particular case can be "shown" as "good cause" for holding the hearing elsewhere and can often be mitigated for witnesses by means of depositions, the proposed rule has not been changed in this regard. Another commenter questioned whether the seventy-five-mile rule might be detrimental to the claimant in practice by further complicating, and thereby prolonging, the Office of Administrative Law Judges' scheduling. The drafters agree that the rule may occasionally produce this result, but in such a case, when time appears more important than distance, the claimant is free to waive the privilege, for example, by a statement on his or her pre-hearing statement form (cf. discussion of § 702.335).

§ 702.341: FORMAL HEARINGS; DEPOSITIONS; INTERROGATORIES

A few commenters objected to deposition or interrogation of a party unrepresented by counsel, and although the final rule meets the objection, a few cautionary words are in order. This rule is derived from 33 U.S.C. 924, the language of which has been in force since the original enactment of the Longshoremen's Act in 1927. The statutory provision does not authorize discovery in the modern sense, but merely the taking of testimony of a witness. Thus deposition or interrogation of a witness is only permissible as a substitute for live testimony should it be unavailable when the hearing is held, and deposition or interrogation of a party will only rarely be appropriate.

In the same vein, several commenting parties urged precise definition of where a case is "pending." This language also survives from the original Longshoremen's Act, according to which it was clear that a case was pending where the deputy commissioner sat, and there is nothing in the present Act in derogation of this construction. Thus, unless it has been transferred to a different district pursuant to 33 U.S.C. 919(g) and 20 CFR 702.104, a case is "pending" where the claim was filed, which, according to 33 U.S.C. 913(a) and 20 CFR 702.212, is "in the compensation district in which the injury or death occurred."

Finally, many commenters objected to continued adoption of the "rules of practice" of the Federal district court of the district where the case is pending, and urged adoption of the Federal Rules of Civil Procedure. Again the objectionable phrase is lifted from 33 U.S.C. 924, and survives from a time when there were no Federal Rules of Civil Procedure,[4] discovery as we now know it did not exist, and the "rules of practice" were essentially state rules followed pursuant to the Conformity Act.[5] Although it is highly doubtful that the statutory language can be read to have contemplated the revolution in federal practice effected by the Federal Rules,[6] it would surely exalt form over substance to require compliance with archaic district rules; accordingly the drafters have, subject to the limitation discussed above that depositions and interrogatories may only be used for testimony, adopted the Federal Rules.

§ 702.343: FORMAL HEARINGS; ORAL ARGUMENT AND WRITTEN ALLEGATIONS

All commenting parties but one objected to the proposed rule's elimination of post-hearing briefing at the request of a party. Most suggested that any delay caused by such briefing could be eliminated less restrictively by adoption of a short time limit for the brief's submission, combined with a more restrictive standard for enlargement. The drafters agree, and the final rule restores the privilege of filing a post-hearing brief to any party. However, the privilege is conditioned upon specification on the record of the novel or difficult issue or issues that cannot be adequately addressed in oral summation, and all briefs filed are limited to the specified issue or issues. Furthermore, the fifteen-day period for submission of the briefs commences at the conclusion of the hearing and not upon receipt of the transcript. However, the standard for enlargement no longer mentions receipt of the transcript, and in a proper case—if, for example, the administrative law judge intends to wait for the transcript so that a short enlargement beyond its receipt will not delay his or her decision—the administrative law judge may grant such an enlargement if he or she is persuaded that the brief will be "helpful."

§ 702.347: FORMAL HEARINGS; TERMINATION

The comments received concerning this section are addressed in the discussion of § 702.343, and the only changes made in the final rule are in style.

OTHER COMMENTS

Two commenters urged that approval of a settlement by the deputy commissioner be mandatory when the claimant is represented by counsel, but the suggestion is plainly inconsistent with any reasonable construction of 33 U.S.C. 908(i).

One commenter suggested that the Department's goal should be for the administrative law judge to issue the decision at the conclusion of the hearing, and, under the final rules, this will sometimes be possible. Another commenter suggested that the rules require the administrative law judge to issue his or her decision within a specified number of days after the hearing. This is already provided for in 33 U.S.C. 919(c), and although the provision has never been effective in light of case law holding its terms directory rather than mandatory (see also 20 CFR 702.347), under the new § 702.347, it is anticipated that cases ordinarily will be decided within twenty days of the hearing.

One commenting party suggested that the impact of the economic disparity between the claimant and the employer should be lessened by providing that the employer pay, even to an unsuccessful claimant, all expenses incurred by the claimant in attending or being represented at depositions requested by the employer. The suggestion has been rejected because in the view of the drafters it goes beyond anything provided for by statutory terms.

Finally, one commenter suggested that benefits under the Longshoremen's Act are unjustly disproportionate to benefits provided by state compensation law and that the federal benefits should be lowered accordingly. Whatever merit this suggestion may have, however, it cannot be adopted by rulemaking.

This document was prepared under the supervision of Laurie M. Streeter, Association Solicitor for Employee Benefits, in cooperation with the Chief Administrative Law Judge.

Accordingly, 20 CFR Part 702 is amended as follows:

1. Section 702.132 is revised to read as follows:

§ 702.132 Fees for services.

An attorney seeking a fee for services performed on behalf of a claimant with respect to claims filed under the Act shall make application therefor to the deputy commissioner, administrative law judge, Board, or court, as the case may be, before whom the services were performed (See 33 U.S.C. 928(c)). The application shall be filed and served upon the other parties within the time limits specified by such deputy commissioner, administrative law judge, Board, or court. The application shall be supported by a complete statement of the extent and character of the necessary work done, described with particularity as to the professional status (e.g., attorney, paralegal, law clerk, or other person assisting an attorney) of each person performing such work, the normal billing rate for each such person, and the hours devoted by each such persons to each category of work. Any fee approved shall be reasonably commensurate with the necessary work done and shall take into account the quality of the representation, the complexity of the legal issues involved, and the amount of benefits awarded, and when the fee is to be assessed against the claimant, shall also take into account the financial circumstances of the claimant. No contract pertaining to the amount of a fee shall be recognized.

2. Section 702.316 is revised to read as follows:

§ 702.316 Conclusion of conference; no agreement on all matters with respect to the claim.

When it becomes apparent during the course of the informal conference that agreement on all issues cannot be reached, the deputy commissioner shall bring the conference to a close, shall evaluate all evidence available to him or her, and after such evaluation shall prepare a memorandum of conference setting forth all outstanding issues, such facts or allegations as appear material and his or her recommendations and rationale for resolution of such issues. Copies of this memorandum shall then be sent by certified mail to each of the parties or their representatives, who shall then have 14 days within which to signify in writing to the deputy commissioner whether they agree or disagree with his or her recommendations. If they agree, the deputy commissioner shall proceed as in § 702.315(a). If they disagree (Caution: See § 702.134), then the deputy commissioner may schedule such further conference or conferences as, in his or her opinion, may bring about agreement; if he or she is satisfied that any further conference would be unproductive, or if any party has requested a hearing, the deputy commissioner shall prepare the case for transfer to the Office of the Chief Administrative Law Judge (See § 702.317, §§ 702.331–.351).

3. Section 702.317 is revised to read as follows:

§ 702.317 Preparation and transfer of the case for hearing.

A case is prepared for transfer in the following manner:

(a) The deputy commissioner shall furnish each of the parties or their representatives with a copy of a pre-hearing statement form.

(b) Each party shall, within 21 days after receipt of such form, complete it and return it to the deputy commissioner and serve copies on all other parties. Extensions of time for good cause may be granted by the deputy commissioner.

(c) Upon receipt of the completed forms, the deputy commissioner, after checking them for completeness and after any further conferences that, in his or her opinion, are warranted, shall transmit them to the Office of the Chief Administrative Law Judge by letter of transmittal together with all available evidence which the parties intend to submit at the hearing (exclusive of X-rays, slides and other materials not suitable for mailing which may be offered into evidence at the time of hearing); the materials transmitted shall not include any recommendations expressed or memoranda prepared by the deputy commissioner pursuant to § 702.316.

(d) If the completed pre-hearing statement forms raise new or additional issues not previously considered by the deputy commissioner or indicate that material evidence will be submitted that could reasonably have been made available to the deputy commissioner before he or she prepared the last memorandum of conference, the deputy commissioner shall transfer the case to the Office of the Chief Administrative Law Judge only after having considered such issues or evaluated such evidence or both and having issued an additional memorandum of conference in conformance with § 702.316.

(e) If a party fails to complete or return his or her pre-hearing statement form within the time allowed, the deputy commissioner may, at his or her discretion, transmit the case without that party's form. However, such transmittal shall include a statement from the deputy commissioner setting forth the circumstances causing the failure to include the form, and such party's failure to submit a pre-hearing statement form may, subject to rebuttal at the formal hearing, be considered by the administrative law judge, to the extent intransigence is relevant, in subsequent rulings on motions which may be made in the course of the formal hearing.

4. Section 702.331 is revised to read as follows:

V42N163 AUG 23 77 UM

§ 702.331 Formal hearings; procedure initiating.

Formal hearings are initiated by transmitting to the Office of the Chief Administrative Law Judge the pre-hearing statement forms, the available evidence which the parties intend to submit at the formal hearing, and the letter of transmittal from the deputy commissioner as provided in § 702.316 and § 702.317.

5. Section 702.335 is revised to read as follows:

§ 702.335 Formal hearings; notice.

On a form prescribed for this purpose the Office of the Chief Administrative Law Judge shall notify the parties (See § 702.333) of the place and time of the formal hearing not less than 30 days in advance thereof.

6. Section 702.336(a) is revised to read as follows:

§ 702.336 Formal hearings; new issues.

(a) If, during the course of the formal hearing, the evidence presented warrants consideration of an issue or issues not previously considered, the hearing may be expanded to include the new issue. If in the opinion of the administrative law judge the new issue requires additional time for preparation, the parties shall be given a reasonable time within which to prepare for it. If the new issue arises from evidence that has not been considered by the deputy commissioner, and such evidence is likely to resolve the case without the need for a formal hearing, the administrative law judge may remand the case to the deputy commissioner for his or her evaluation and recommendation pursuant to § 702.316.

* * * * *

7. Section 702.337 is revised to read as follows:

§ 702.337 Formal hearings; change of time or place for hearings; postponements.

(a) Except for good cause shown, hearings shall be held at convenient locations not more than 75 miles from the claimant's residence.

(b) Once a formal hearing has been scheduled, continuances shall not be granted except in cases of extreme hardship or where attendance of a party or his or her representative is mandated at a previously scheduled judicial proceeding. Unless the ground for the request arises thereafter, requests for continuances must be received by the Chief Administrative Law Judge at least 10 days before the scheduled hearing date, must be served upon the other parties and must specify the extreme hardship or previously scheduled judicial proceeding claimed.

(c) The Chief Administrative Law Judge or the administrative law judge assigned to the case may change the time and place of the hearing, or temporarily adjourn a hearing, on his own motion or for good cause shown by a party. The parties shall be given not less than 10 days' notice of the new time and place of the hearing, unless they agree to such change without notice.

8. Section 702.341 is revised to read as follows:

§ 702.341 Formal hearings; depositions; interrogatories.

The testimony of any witness, including any party represented by counsel, may be taken by deposition or interrogatory according to the Federal Rules of Civil Procedure as supplemented by local rules of practice for the federal district court for the judicial district in which the case is pending. However, such depositions or interrogatories must be completed within reasonable times to be fixed by the Chief Administrative Law Judge or the administrative law judge assigned to the case.

9. Section 702.343 is revised to read as follows:

§ 702.343 Formal hearings; oral argument and written allegations.

Any party upon request shall be allowed a reasonable time for presentation of oral argument and shall be permitted to file a pre-hearing brief or other written statement of fact or law. A copy of any such pre-hearing brief or other written statement shall be filed with the Chief Administrative Law Judge or the administrative law judge assigned to the case before or during the proceeding at which evidence is submitted to the administrative law judge and shall be served upon each other party. Post-hearing briefs will not be permitted except at the request of the administrative law judge or upon averment on the record of a party that the case presents a specific novel or difficult legal or factual issue (or issues) that cannot be adequately addressed in oral summation. When permitted, any such brief shall be limited to the issue or issues specified by the administrative law judge or by the party in his or her averment and shall be due from any party desiring to address such issue or issues within 15 days of the conclusion of the proceeding at which evidence is submitted to the administrative law judge. Enlargement of the time for filing such briefs shall be granted only if the administrative law judge is persuaded that the brief will be helpful to him or her and that the enlargement granted will not delay decision of the case.

10. Section 702.347 is revised to read as follows:

§ 702.347 Formal hearings; termination.

(a) Formal hearings are normally terminated upon the conclusion of the proceeding at which evidence is submitted to the administrative law judge.

(b) In exceptional cases the Chief Administrative Law Judge or the administrative law judge assigned to the case may, in his or her discretion, extend the time for official termination of the hearing.

(33 U.S.C. 939)

Dated: August 19, 1977.

RAY MARSHALL,
Secretary of Labor.

PART VIII

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

■

FAIR MARKET RENTS FOR SECTION 8 AND SECTION 23 EXISTING HOUSING

Amendment of Schedule B

Title 24—Housing and Urban Development

CHAPTER VIII—LOW INCOME PUBLIC HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-77-311]

PART 803—SECTION 23 HOUSING ASSISTANCE PAYMENTS PROGRAM

PART 888—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—FAIR MARKET RENTS AND CONTRACT RENT AUTOMATIC ANNUAL ADJUSTMENT FACTORS

Amendment of Schedule B—Section 8 Existing Housing and Section 23 Existing Housing

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Final rule.

SUMMARY: HUD is amending for certain market areas the Schedule that sets forth the Fair Market Rents for the Section 23 and Section 8 Housing Assistance Payments Programs for Existing Housing. Fair Market Rents for these market areas have been recalculated in response to comments received from HUD field offices and the general public on the schedule published for comment on May 4.

EFFECTIVE DATE: August 23, 1977.

FOR FURTHER INFORMATION CONTACT:

Bernard Horn, Acting Director, Office of Economic and Market Analysis, PD&R, HUD, Washington, D.C. 20410, 202-755-5816.

SUPPLEMENTARY INFORMATION: HUD gave notice on May 4, 1977, at 42 FR 22704 that it was proposing to amend Title 24 of the Code of Federal Regulations by revising Part 803, Schedule B and Part 888, Schedule B. The comment period closed May 18, 1977.

By the deadline, the Department had received 189 comments from the general public and HUD field offices in response to the May 4 publication. Most of the comments requested increases in the schedules.

To avoid delay in providing needed rent increases while the comments were being considered, HUD published the proposed schedule for effect on July 1 at 42 FR 33921-34066 without change. In the preamble to the July 1 publication, however, HUD announced that additional amendments to the schedule would be made once all comments received were analyzed. All comments have been carefully considered and the data submitted has been verified with our field offices. Additional amendments are now being published for effect.

NOTE.—A Finding of Inapplicability regarding the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours at the office of the Rules Docket Clerk, Office of the Secretary, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with Executive Order 11821.

Accordingly, Title 24, Part 888, Schedule B and Part 803, Schedule B are revised for the specified market areas as set forth below.

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)).)

Issued at Washington, D.C., August 12, 1977.

LAWRENCE B. SIMONS,
Assistant Secretary for Housing—Federal Housing Commissioner.

SCHEDULE B—FAIR MARKET RENTS FOR EXISTING HOUSING (INCLUDING HOUSING FINANCE AND DEVELOPMENT AGENCIES PROGRAM)

NOTE.—The Fair Market Rents for five and six bedroom units are calculated as follows: (1) Five bedrooms—150 percent of two bedroom Fair Market Rent; (2) Six bedrooms—175 percent of two bedroom Fair Market Rent.

WEDNESDAY, AUGUST 24, 1977

highlights

NOTICE TO FEDERAL AGENCIES

Beginning October 1, 1977, Federal agencies must reimburse the Government Printing Office (GPO) for the cost of printing documents in the *Federal Register* and Code of *Federal Regulations*.

The Legislative Branch Appropriations Act, 1978 (Public Law 95–94, August 5, 1977) amended the Federal Register Act to require Federal agencies to reimburse the Government Printing Office for the cost of printing, binding, and distributing the *Federal Register* and Code of *Federal Regulations*. The pertinent provisions of Public Law 95–94 amending 44 U.S.C. 1509 are contained in Appendix A to this document.

FEDERAL REGISTER

In order to make certain that statutory requirements for publication in the *Federal Register* can be met on and after October 1, 1977 agencies must submit a Printing and Binding Requisition (Standard Form 1) before September 15 to the following address:

Superintendent of Planning Service
Room C830
Government Printing Office
Washington, DC 20401

CODE OF FEDERAL REGULATIONS

Every agency that has rules in the Code of *Federal Regulations* must submit a second Printing and Binding Requisition (Standard Form 1) to the Superintendent of Planning Service at the above address.

COMPUTATION OF COSTS-BILLING: FISCAL YEARS 1978, 1979

For fiscal year 1978 agencies will be charged $285 for each page of printed matter they publish in the *Federal Register* and $50 for each page in the Code of *Federal Regulations*. Fractions of pages published in the *Federal Register* will be counted on a column basis with a minimum charge of one column ($95). GPO will bill each agency monthly for the material the agency has printed in the previous month. Billing for the Code of *Federal Regulations* will be on an as printed basis.

For budget planning purposes, agencies are advised that current estimates for printing services in Fiscal Year 1979 are as follows: Federal Register $300 per page; Code of Federal Regulations $55 per page.

These prices cover the costs of composition, printing, binding and distribution.

V 42 164 AUG 24 77 UM

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington. D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

INFORMATION AND ASSISTANCE

For information and assistance in filling out the Printing and Binding Requisition (Standard Form 1) and in computing your projected printing costs, call:

Mr. William Rose (202)275–2867.

APPENDIX A

[Public Law 95–94 Approved Aug. 5, 1977]

* * * * *

"§ 1509. Costs of publication, etc.

"(a) The cost of printing, reprinting, wrapping, binding, and distributing the Federal Register and the Code of Federal Regulations, and, except as provided in subsection (b), other expenses incurred by the Government Printing Office in carrying out the duties placed upon it by this chapter shall be charged to the revolving fund provided in section 309. Reimbursements for such costs and expenses shall be made by the Federal agencies and credited, together with all receipts, as provided in section 309(b)."

* * * * *

(b) The amendments made by subsection (a) shall take effect on October 1, 1977.

* * * * *

"THE FEDERAL REGISTER—WHAT IT IS AND HOW TO USE IT"

Workshops include a brief history of the FEDERAL REGISTER, the difference between legislation and regulations, the relationship of the FEDERAL REGISTER to the Code of Federal Regulations, the elements of a typical FEDERAL REGISTER document, and an introduction to the finding aids.

list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

presidential documents

Title 3—The President

Memorandum of August 11, 1977

Determination under Section 103(d)(3) of the Agricultural Trade Development and Assistance Act of 1954, as amended (Public Law 480) Portugal

[Presidential Determination No. 77–18]

Memorandum for the Secretary of State, the Secretary of Agriculture

THE WHITE HOUSE,
Washington, August 11, 1977.

Pursuant to the authority vested in me under the Agricultural Trade Development and Assistance Act of 1954, as amended (hereinafter "the Act"), I hereby:

Determine that for Portugal the waiver of the exclusion provided for by Section 103(d)(3) of the Act, for the purpose of selling up to $20 million worth of agricultural commodities under Title I during Fiscal Year 1977 in addition to the $50 million worth which have already been authorized, is in the national interest of the United States, and I do waive that exclusion.

Jimmy Carter

STATEMENT OF REASONS THAT A WAIVER UNDER SECTION 103(d)(3) OF THE AGRICULTURAL TRADE DEVELOPMENT AND ASSISTANCE ACT OF 1954, AS AMENDED (PUBLIC LAW 480), IS IN THE NATIONAL INTEREST

In response to current Portuguese import needs, the Executive Branch proposes to agree to finance the export to that country of up to $20 million of agricultural commodities in fiscal year 1977 under Title I of the Agricultural Trade Development and Assistance Act of 1954, as amended (P.L. 480) in addition to the $50 million worth which have already been authorized.

After almost fifty years of authoritarian rule, a popularly elected Portuguese government took office on August 1, 1976. The United States strongly supports the restoration of democracy to Portugal. However, beset by enormous economic problems, exacerbated by the influx of over half a million refugees, Portugal needs urgent economic assistance. Concessional sales of agricultural commodities to Portugal constitute a tangible demonstration of our willingness to help provide this assistance.

Portuguese nationalized firms export to Cuba. Therefore, in order to enter into an agreement with the Government of Portugal for such a sale under Title I, it is necessary that the President determine that the waiver of the exclusion from eligibility for concessional sales under Title I of P.L. 480 is in the national interest of the United States. Section 103(d)(3) of P.L. 480 excludes from eligibility for concessional sales under Title I any country which sells or furnishes or permits ships or aircraft under its registry to transport to or from Cuba or North Vietnam any equipment, materials, or commodities, so long as those countries are governed by Communist regimes. However, under Section 103(d)(3), the President is authorized to waive this exclusion if he determines that such a waiver is in the national interest.

The considerations noted above make the proposed sale of agricultural commodities to Portugal and the necessary waiver important to the national interest of the United States.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Community Services Administration

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: The Position of Staff Assistant, Office of Policy, Planning, and Evaluation, is excepted under Schedule C because it is confidential in nature.

EFFECTIVE DATE: August 24, 1977.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202–632–4533.

Accordingly, 5 CFR 213.3373(j)(2) is added as set out below:

§ 213.3373 Community Services Administration.

* * * * * * *

(j) *Office of Policy, Planning, and Evaluation.* * * *

(2) One Staff Assistant

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954–1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.77-24604 Filed 8-23-77;8:45 am]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 946—IRISH POTATOES GROWN IN WASHINGTON

Expenses and Rate of Assessment

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation authorizes expenses of $16,650 and establishes a rate of assessment of $0.001 per hundredweight of potatoes for the functioning of the Washington Potato Committee. The regulation enables the committee to collect assessments from first handlers on all assessable potatoes handled and to use the resulting funds for its expenses.

EFFECTIVE DATE: July 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, D.C. 20250, telephone 202–447–3545.

SUPPLEMENTARY INFORMATION: Marketing Agreement No. 113 and Order No. 946, both as amended, regulate the handling of Irish potatoes grown in the State of Washington. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The State of Washington Potato Committee, established under the order, is responsible for its local administration.

Notice was published in the August 1, 1977, FEDERAL REGISTER (42 FR 38913) inviting written comments by August 17, 1977. None was received.

Findings. After consideration of all relevant matters, including the proposals in the notice, it is found that the following expenses and rate of assessment should be approved.

It is further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because this part requires that the rate of assessment for a particular fiscal period shall apply to all assessable potatoes from the beginning of such period.

The regulation is as follows:

§ 946.230 Expenses and rate of assessment..

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1978, by the State of Washington Potato Committee for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate will amount to $16,650.

(b) The rate of assessment to be paid by each handler in accordance with this part shall be one-tenth cent ($0.001) per hundredweight, or equivalent quantity, of potatoes handled by him as the first handler thereof during the fiscal period, except potatoes for canning, freezing, and "other processing" as defined in the act shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve to the extent authorized in § 946.42(a).

(d) The terms used in this section have the same meaning as when used in the marketing agreement and this part.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).)

Dated: August 19, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 14—Aeronautics and Space

CHAPTER V—NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

PART 1241—CONTRACT APPEALS

Subpart 1241.1—General Procedures

AGENCY: National Aeronautics and Space Administration.

ACTION: Final Rules.

SUMMARY: These rules of procedure for the adjudication of contract appeals before the NASA Board of Contract Appeals adopt in major part the Uniform Rules of Practice for Boards of Contract Appeals, as proposed by the National Conference of Boards of Contract Appeals Members. The purpose of the uniform rules is to promote greater uniformity in Government procurement policies, practices and procedures.

EFFECTIVE DATE: August 26, 1977.

FOR FURTHER INFORMATION CONTACT:

Frederick J. Lees, Chairman, Board of Contract Appeals. Telephone 202–755–8405, National Aeronautics and Space Administration, Washington, D.C. 20546.

SUPPLEMENTARY INFORMATION: On June 22, 1977, NASA published proposed rules (42 FR 31605–31609) to revise its rules of procedure for the adjudication of contract appeals before the NASA Board of Contract Appeals. Interested persons were given until July 22, 1977 to submit comments or suggestions. No such comments or suggestions were received. Therefore, the proposed rules are hereby adopted without change and are set forth below.

1. Subpart 1241.1 in revised in its entirety as follows:

Subpart 1241.1—General Procedures

Sec.

1241.10 Scope.

PREFACE TO THE RULES

1241.11 Authority and jurisdiction of the Board.

1241.12 Location and organization of the Board.

Sec.
1241.13 Decisions on questions of law.
1241.14 Board of contract appeals procedure.

PRELIMINARY PROCEDURES

1241.101 Appeals, how taken.
1241.102 Notice of appeal, contents of.
1241.103 Forwarding of appeals.
1241.104 Preparation, contents, organization, forwarding and status of appeal file.
1241.105 Dismissal for lack of jurisdiction.
1241.106 Pleadings.
1241.107 Amendments of pleadings or record.
1241.108 Hearing election.
1241.109 Prehearing briefs.
1241.110 Prehearing or presubmission conference.
1241.111 Submission without a hearing.
1241.112 Optional accelerated procedure.
1241.113 Settling the record.
1241.114 Discovery—depositions.
1241.115 Interrogatories to parties, admission of facts, and production and inspection of documents.
1241.116 Service of papers.

HEARINGS

1241.117 Where and when held.
1241.118 Notice of hearings.
1241.119 Unexcused absence of a party.
1241.120 Nature of hearings.

MOTION FOR RECONSIDERATION

1241.129 Motion for reconsideration.

DISMISSALS

1241.130 Dismissal without prejudice.
1241.131 Dismissal for failure to prosecute.

EX PARTE COMMUNICATIONS

1241.132 Ex parte communications.

SANCTIONS

1241.133 Sanctions.

AUTHORITY: 42 U.S.C. 2473(b)(1).

Subpart 1241.1—General Procedures

§ 1241.10 Scope.

This Subpart 1241.1 prescribes the procedures for the adjudication of appeals before the NASA Board of Contract Appeals (hereinafter referred to as "the Board") arising from NASA contracts.

PREFACE TO THE RULES

§ 1241.11 Authority and jurisdiction of the Board.

(a) The Board, constituted under the provisions of Subpart 1209.1 of this chapter, is authorized to hear, consider and determine appeals from decisions of contracting officers arising under contracts which contain provisions requiring the determination of appeals by the Administrator or his duly authorized representative or board. In addition, the Board may perform other quasi-judicial duties as assigned by the Administrator. The Board has authority to determine appeals falling within the scope of its jurisdiction as fully and finally as might the Administrator.

(b) Under § 1209.102(b) of this chapter, the Board is granted the authority to issue its rules of procedure.

§ 1241.12 Location and organization of the Board.

(a) The Board is located in Washington, D.C., and its mailing address is The Board of Contract Appeals, National Aeronautics and Space Administration, Washington, D.C. 20546.

(b) The Board consists of a Chairman and two other members, all of whom shall be attorneys at law duly licensed by any state or the District of Columbia, and who have significant experience in Government procurement law. In general, the appeals are assigned to a panel of at least two members of the Board. If a panel of two members is unable to agree upon a decision, the Chairman may assign a third member to consider the appeal. The Chairman is designated as Chief Administrative Judge and the other Board members are designated as Administrative Judges.

§ 1241.13 Decisions on questions of law.

When an appeal is taken pursuant to a Disputes clause in a contract which limits appeals to disputes concerning questions of fact, the Board may, in its discretion, hear, consider, and decide all questions of law necessary for the complete adjudication of the issue. In the consideration of an appeal should it appear that a claim is involved which is not cognizable under the terms of the contract, the Board may make findings of fact with respect to such a claim without expressing an opinion on the question of liability.

§ 1241.14 Board of contract appeals procedure.

(a) *Rules.* Appeals referred to the Board are handled in accordance with the rules of the Board.

(b) *Administration and interpretation of rules.* Emphasis is placed upon the sound administration of these rules in specific cases, because it is impracticable to articulate a rule to fit every possible circumstance which may be encountered. These rules will be interpreted so as to secure a just and inexpensive determination of appeals without unnecessary delay.

(c) *Preliminary procedures.* Preliminary procedures are available to encourage full disclosure of relevant and material facts, and to discourage unwarranted surprise.

(d) *Time, computation, and extensions.* (1) All time limitations specified for various procedural actions are computed as maximums, and are not to be fully exhausted if the action described can be accomplished in a lesser period. These time limitations are similarly eligible for extension in appropriate circumstances, on good cause shown.

(2) Except as otherwise provided by law, in computing any period of time prescribed by these rules or by any order of the Board, the day of the event from which the designated period of time begins to run shall not be included, but the last day of the period shall be included unless it is a Saturday, Sunday, or a legal holiday, in which event the period shall run to the end of the next business day.

(3) Requests for extensions of time from either party shall be made in writing and stating good cause therefor.

PRELIMINARY PROCEDURES

§ 1241.101 Appeals, how taken.

Notice of an appeal must be in writing and the original, together with two copies, may be filed with the contracting officer from whose decision the appeal is taken. The notice of appeal must be mailed or otherwise filed within the time specified therefor in the contract or allowed by applicable provision of directive or law.

§ 1241.102 Notice of appeal, contents of.

A notice of appeal should indicate that an appeal is thereby intended, and should identify the contract (by number), and the final decision of the contracting officer from which the appeal is taken. The notice of appeal should be signed personally by the appellant (the contractor making the appeal), or by an officer of the appellant corporation or member of the appellant firm, or by the contractor's duly authorized representative or attorney. The complaint referred to in § 1241.106 may be filed with the notice of appeal, or the appellant may designate the notice of appeal as a complaint, if it otherwise fulfills the requirements of a complaint.

§ 1241.103 Forwarding of appeals.

When a notice of appeal in any form has been received by the contracting officer, he shall endorse thereon the date of mailing (or date of receipt, if otherwise conveyed) and within 10 days shall forward said notice of appeal to the Board. Following receipt by the Board of the original notice of an appeal (whether through the contracting officer or otherwise), the contractor and contracting officer will be promptly advised of its receipt and the contractor will be furnished a copy of these rules.

§ 1241.104 Preparation, contents, organization, forwarding and status of appeal file.

(a) *Duties of Contracting Officer.* Within 30 days of receipt of an appeal, or advice that an appeal has been filed, the contracting officer shall assemble and transmit to the Board an appeal file consisting of all documents pertinent to the appeal, including:

(1) The decision and findings of fact from which appeal is taken;

(2) The contract including specifications and pertinent amendments, plans and drawings;

(3) All correspondence between the parties pertinent to the appeal, including the letter or letters of claim in response to which decision was issued;

(4) Transcripts of any testimony taken during the course of proceedings, and affidavits or statements of any witnesses on the matter in dispute made prior to the filing of the notice of appeal with the Board; and

(5) Any additional information considered pertinent.

Within the same time specified above, the contracting officer shall furnish the appellant a copy of each document he transmits to the Board, except those stated in § 1241.104(a)(2), as to which a list furnished appellant indicating specific contractual documents transmitted will suffice, and those stated in § 1241.104(d).

(b) *Duties of the appellant.* Within 30 days after receipt of a copy of the appeal file assembled by the contracting officer, the appellant shall supplement the same by transmitting to the Board any documents not contained therein which he considers pertinent to the appeal, and furnishing two copies of such documents to the Government trial attorney.

(c) *Organization of the appeal file.* Documents in the appeal file may be originals or legible fascimile or authenticated copies thereof, and shall be arranged in chronological order where practicable, numbered sequentially, tabbed, and indexed to identify the contents of the file.

(d) *Lengthy documents.* The Board may waive the requirement of furnishing to the other party copies of bulky, lengthy, or out-of-size documents in the appeal file when a party has shown that doing so would impose an undue burden. At the time a party files with the Board a document as to which such a waiver has been granted, he shall notify the other party that the same or a copy is available for inspection at the offices of the Board or of the party filing same.

(e) *Status of documents in appeal file.* Documents contained in the appeal file are considered, without further action by the parties, as part of the record upon which the Board will render its decision, unless a party objects to the consideration of a particular document in advance of hearing or of settling the record in the event there is no hearing on the appeal. If objection to a document is made, the Board will rule upon it admissibility into the record as evidence in accordance with §§ 1241.113 and 1241.120.

§ 1241.105 Dismissal for lack of jurisdiction.

Any motion addressed to the jurisdiction of the Board shall be promptly filed. Hearing on the motion shall be afforded on application of either party, unless the Board determines that its decision on the motion will be deferred pending hearing on both the merits and the motion. The Board shall have the right at any time and on its own motion to raise the issue of its jurisdiction to proceed with a particular case, and shall do so by an appropriate order, affording the parties an opportunity to be heard thereon.

§ 1241.106 Pleadings.

(a) *Appellant.* Within 30 days after receipt of notice of docketing of the appeal, the appellant shall file with the Board an original and two copies of a complaint setting forth simple, concise and direct statements of each of his claims, alleging the basis, with appropriate reference to contract provisions, for each claim, and the dollar amount claimed. This pleading shall fulfill the generally recognized requirements of a complaint, although no particular form or formality is required. Upon receipt thereof, the Board shall serve a copy upon the respondent. Should the complaint not be received within 30 days, appellant's claim and appeal may, if in the opinion of the Board the issues before the Board are sufficiently defined, be deemed to set forth his complaint and the respondent shall be so notified.

(b) *Respondent.* Within 30 days from receipt of said complaint, or the aforesaid notice from the Board, respondent shall prepare and file with the Board an original and two copies of an answer thereto, setting forth simple, concise, and direct statements of respondent's defenses to each claim asserted by appellant. This pleading shall fulfill the generally recognized requirements of an answer, and shall set forth any affirmative defenses or counter-claims as appropriate. Upon receipt thereof, the Board shall serve a copy upon appellant. Should the answer not be received within 30 days, the Board may, in its discretion, enter a general denial on behalf of the Government, and the appellant shall be so notified.

§ 1241.107 Amendments of pleadings or record.

The Board upon its own initiative or upon application by a party may, in its discretion, order a party to make a more definite statement of the complaint or answer, or to reply to an answer. The Board may, in its discretion, and within the proper scope of the appeal, permit either party to amend his pleading upon conditions just to both parties. When issues within the proper scope of the appeal, but not raised by the pleadings or the documentation described in § 1241.104, are tried by express or implied consent of the parties, or by permission of the Board, they shall be treated in all respects as if they had been raised therein. In such instances, motions to amend the pleadings to conform to the proof may be entered, but are not required. If evidence is objected to at a hearing on the ground that it is not within the issues raised by the pleadings or the § 1241.104 documentation (which shall be deemed part of the pleadings for this purpose), it may be admitted within the proper scope of the appeal, provided, however, that the objecting party may be granted a continuance if necessary to enable him to meet such evidence.

§ 1241.108 Hearing election.

Upon receipt of respondent's answer or the notice referred to in the last sentence of § 1241.106(b), appellant shall advise whether he desires a hearing as prescribed in §§ 1241.117 through 1241.125, or whether, in the alternative, he elects to submit his case on the record without a hearing, as prescribed in § 1241.111. In appropriate cases, the appellant shall also elect whether he desires the optional accelerated procedure prescribed in § 1241.112.

§ 1241.109 Prehearing briefs.

Based on an examination of the documentation described in § 1241.104, the pleadings, and a determination of whether the arguments and authorities addressed to the issues are adequately set forth therein, the Board may, in its discretion, require the parties to submit prehearing briefs in any case in which a hearing has been elected pursuant to § 1241.108. In the absence of a Board requirement therefor, either party may, in its discretion and upon appropriate and sufficient notice to the other party, furnish a prehearing brief to the Board. In any case where a prehearing brief is submitted, it shall be furnished so as to be received by the Board at least 15 days prior to the date set for hearing, and a copy shall simultaneously be furnished to the other party as previously arranged.

§ 1241.110 Prehearing or presubmission conference.

(a) Whether the case is to be submitted pursuant to § 1241.111, or heard pursuant to § 1241.117 through § 1241.125, the Board may upon its own initiative or upon the application of either party, call upon the parties to appear before an Administrative Judge for a conference to consider:

(1) The simplification or clarification of the issues;

(2) The possibility of obtaining stipulations, admissions, agreements on documents, understandings on matters already of record, or similar agreements which will avoid unnecessary proof;

(3) The limitation of the number of expert witnesses, or avoidance of similar cumulative evidence; if the case is to be heard;

(4) The possibility of agreement disposing of all or any of the issues in dispute; and

(5) Such other matters as may aid in the disposition of the appeal.

(b) *Conference record.* The results of the conference shall be reduced to writing by the Board member within 5 calendar days after the close of the conference. Copies shall be duly served on the parties who may, within 10 calendar days from receipt of the written record, file objection, comment, request for correction, or other motion pertaining to that record of prehearing conference. The record of prehearing conference, together with any objection, comment, request for correction, or other motion made by the parties shall become a part of the Board record.

§ 1241.111 Submission without a hearing.

Either party may elect to waive a hearing and to submit his case upon the record before the Board, as settled pursuant to § 1241.113. Submission of a case without hearing does not relieve the par-

V 42 164 AUG 24 77 UM

ties from the necessity of proving the facts supporting their allegations or defenses. Affidavits, depositions, admissions, answers to interrogatories, and stipulations may be employed to supplement other documentary evidence in the Board record. The Board may permit such submission to be supplemented by oral argument (transcribed, if requested), and by briefs arranged in accordance with § 1241.123.

§ 1241.112 Optional accelerated procedure.

(a) In appeals involving $25,000 or less, either party may elect, in his notice of appeal, complaint, answer, or by separate correspondence or statement prior to commencement of hearing or settlement of the record, to have the appeal processed under a shortened and accelerated procedure. For application of this rule the amount in controversy will be determined by the sum of the amounts claimed by either party against the other in the appeal proceeding. If no specific amount of claim is stated, a case will be considered to fall within this rule if the sum of the amounts which each party represents in writing that it could recover as a result of a Board decision favorable to it does not exceed $25,000. Upon such election, a case shall then be processed under this rule unless the other party objects and shows good cause why the substantive nature of the dispute requires processing under the Board's regular procedures and the Board sustains such objection. In cases proceeding under this rule, parties are encouraged, to the extent possible consistent with adequate presentation of their factual and legal positions, to waive pleadings, discovery, and briefs.

(b) Written decision by the Board in cases proceeding under this rule normally will be short and contain summary findings of fact and conclusions only. The Board will endeavor to render such decisions within 30 days after the appeal is ready for decision.

(c) Except as herein modified, these rules otherwise apply in all respects.

§ 1241.113 Settling the record.

(a) The record upon which the Board's decision will be rendered consists of the appeal file described in § 1241.104 and, to the extent the following items have been filed, pleadings, prehearing conference memoranda or orders, prehearing briefs, depositions or interrogatories received in evidence, admissions, stipulations, transcripts of conferences and hearings, hearing exhibits, posthearing briefs, and documents which the Board has specifically designated be made a part of the record. The record will at all reasonable times be available for inspection by the parties at the office of the Board.

(b) Except as the Board may otherwise order in its discretion, no proof shall be received in evidence after completion of an oral hearing or, in cases submitted on the record, after notification by the Board that the case is ready for decision.

(c) The weight to be attached to any evidence of record will rest within the sound discretion of the Board. The Board may in any case require either party, with appropriate notice to the other party, to submit additional evidence on any matter relevant to the appeal.

§ 1241.114 Discovery—depositions.

(a) *General policy and protective orders.* The parties are encouraged to engage in voluntary discovery procedures. In connection with any deposition or other discovery procedure, the Board may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, and those orders may include limitations on the scope, method, time and place for discovery, and provisions for protecting the secrecy of confidential information or documents.

(b) *When depositions permitted.* After an appeal has been docketed and complaint filed, the parties may mutually agree to, or the Board may, upon application of either party and for good cause shown, order the taking of testimony of any person by deposition upon oral examination or written interrogatories before any officer authorized to administer oaths at the place of examination, for use as evidence or for purpose of discovery. The application for order shall specify whether the purpose of the deposition is discovery or for use as evidence.

(c) *Orders on depositions.* The time, place, and manner of taking depositions shall be as mutually agreed by the parties, or failing such agreement, governed by order of the Board.

(d) *Use as evidence.* No testimony taken by depositions shall be considered as part of the evidence in the hearing of an appeal unless and until such testimony is offered and received in evidence at such hearing. It will not ordinarily be received in evidence if the deponent is present and can testify personally at the hearing. In such instances, however, the deposition may be used to contradict or impeach the testimony of the witness given at the hearing. In cases submitted on the record, the Board may, in its discretion, receive depositions as evidence in supplementation of that record.

(e) *Expenses.* Each party shall bear its own expenses associated with the taking of any deposition.

§ 1241.115 Interrogatories to parties, admission of facts, and production and inspection of documents.

(a) *Interrogatories to parties.* After an appeal has been filed with the Board, a party may serve on the other party written interrogatories to be answered separately in writing, signed under oath and returned within 30 days. Upon timely objection by the party, the Board will determine the extent to which the interrogatories will be permitted.

(b) *Admission of facts.* After an appeal has been filed with the Board, a party may serve upon the other party a request for the admission of specified facts. Within 30 days after service, the party served shall answer each requested fact or file objections thereto. The factual propositions set out in the request shall be deemed admitted upon the failure of a party to respond to the request for admission.

(c) *Production and inspection of documents.* Upon motion of any party showing good cause therefor, and upon notice, the Board may order the other party to produce and permit the inspection and copying or photographing of any designated documents or objects, not privileged, specifically identified, and their relevance and materiality to the cause or causes in issue explained, which are reasonably calculated to lead to the discovery of admissible evidence. If the parties cannot themselves agree thereon, the Board shall specify just terms and conditions in making the inspection and taking the copies and photographs.

§ 1241.116 Service of papers.

Papers shall be served personally or by mailing the same, addressed to the party upon whom service is to be made. Copies of complaints, answers, and simultaneous briefs shall be filed directly with the Board. The party filing any other paper with the Board shall send a copy thereof to the opposing party, noting on the paper filed with the Board, or on the letter transmitting the same, that a copy has been so furnished.

HEARINGS

§ 1241.117 Where and when held.

Hearings will ordinarily be held in the Washington, D.C., area, except that upon request seasonably made and upon good cause shown, the Board may set the hearing at another location. Hearings will be scheduled at the discretion of the Board with due consideration to the regular order of appeals and other pertinent factors. On request or motion by either party and upon good cause shown, the Board may, in its discretion, advance a hearing.

§ 1241.118 Notice of hearings.

The parties shall be given at least 15 days notice of the time and place set for hearings. In scheduling hearings, the Board will give due regard to the desires of the parties and to the requirement for just and inexpensive determination of appeals without unnecessary delay. Notices of hearing shall be promptly acknowledged by the parties.

§ 1241.119 Unexcused absence of a party.

The unexcused absence of a party at the time and place set for hearing will not be occasion for delay. In the event of such absence, the hearing will proceed and the case will be regarded as submitted by the absent party as provided in § 1241.111.

§ 1241.120 Nature of hearings.

Hearings shall be as informal as may be reasonable and appropriate under the circumstances. Appellant and respondent may offer at a hearing on the merits such relevant evidence as they deem appropriate and as would be admissible under the generally accepted rules of evidence applied in the courts of the United States in nonjury trials, subject, however, to the sound discretion of the presiding member in supervising the extent and manner of presentation of such evidence. In general, admissibility will hinge on relevancy and materiality. Letters or copies thereof, affidavits, or other evidence not ordinarily admissible under the generally accepted rules of evidence, may be admitted in the discretion of the presiding member. The weight to be attached to evidence presented in any particular form will be within the discretion of the Board, taking into consideration all the circumstances of the particular case. Stipulations of fact agreed upon by the parties may be regarded and used as evidence at the hearing. The parties may stipulate the testimony that would be given by a witness if the witness were present. The Board may in any case require evidence in addition to that offered by the parties.

§ 1241.121 Examination of witnesses.

Witnesses before the Board will be examined orally under oath or affirmation, unless the facts are stipulated, or the Board member shall otherwise order. If the testimony of a witness is not given under oath or affirmation, the Board shall warn the witness that his statements may be subject to the provisions of Title 18, United States Code, Sections 287 and 1001, and any other provisions of law imposing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof.

§ 1241.122 Copies of papers.

When books, records, papers, or documents have been received in evidence, a true copy thereof or of such part thereof as may be material or relevant may be substituted therefor, during the hearing or at the conclusion thereof.

§ 1241.123 Posthearing briefs.

Posthearing briefs may be submitted upon such terms as may be agreed upon by the parties and the presiding member at the conclusion of the hearing. Ordinarily, they will be simultaneous briefs, exchanged within 30 days after receipt of transcript.

§ 1241.124 Transcript of proceedings.

Testimony and argument at hearings shall be reported verbatim, unless the Board otherwise orders. Transcripts or copies of the proceedings shall be supplied to the parties at such rates as may be fixed by contract with the reporter.

§ 1241.125 Withdrawal of exhibits.

After a decision has become final the Board may, upon request, and after notice to the other party, in its discretion, permit the withdrawal of original exhibits, or any part thereof, by the party entitled thereto. The substitution of true copies of exhibits or any part thereof may be required by the Board on its discretion as a condition of granting permission for such withdrawal.

REPRESENTATION

§ 1241.126 The appellant.

An individual appellant may appear before the Board in person, a corporation by an officer thereof, a partnership or joint venture by a member thereof, or any of these by an attorney at law duly licensed in any state, commonwealth, territory, or in the District of Columbia. An attorney representing an appellant shall file a written notice of apperance with the Board.

§ 1241.127 The respondent.

Government counsel may, in accordance with their authority, represent the interest of the Government before the Board. They shall file notices of appearance with the Board, and notice thereof will be given appellant or his attorney in the form specified by the Board from time to time. Whenever at any time it appears that appellant and the Government counsel are in agreement as to disposition of the controversy, the Board may suspend further processing of the appeal: *Provided, however,* That if the Board is advised thereafter by either party that the controversy has not been disposed of by agreement, the case shall be restored to the Board's calendar without loss of position.

DECISIONS

§ 1241.128 Decisions.

Decisions of the Board will be made in writing and copies thereof will be forwarded simultaneously to both parties. Decisions of the Board will be made solely upon the record, as described in § 1241.113. The rules of the Board, all final orders and decisions, and other records of, or before, the Board shall be available for inspection at its offices to the extent permitted by, and subject to the exemptions of, 5 U.S.C. 552.

MOTION FOR RECONSIDERATION

§ 1241.129 Motion for reconsideration.

A motion for reconsideration, if filed by either party, shall set forth specifically the ground or grounds relied upon to sustain the motion, and shall be filed within 30 days from the date of the receipt of a copy of the decision of the Board by the party filing the motion.

DISMISSALS

§ 1241.130 Dismissal without prejudice.

In certain cases, appeals docketed before the Board are required to be placed in a suspense status and the Board is unable to proceed with disposition thereof for reasons not within the control of the Board. In any such case where the suspension has continued, or it appears that it will continue, for an inordinate length of time, the Board may, in its discretion, dismiss such appeals from its docket without prejudice to their restoration when the cause of suspension has been removed. Unless either party or the Board acts within three years to reinstate any appeal dismissed without prejudice, the dismissal shall be deemed with prejudice.

§ 1241.131 Dismissal for failure to prosecute.

Whenever a record discloses the failure of either party to file documents required by these rules, respond to notices or correspondence from the Board, comply with orders of the Board, or otherwise indicates an intention not to continue the prosecution or defense of an appeal, the Board may issue an order requiring the offending party to show cause why the appeal should not be either dismissed or granted, as appropriate. If the offending party shall fail to show such cause, the Board may take such action as it deems reasonable and proper under the circumstances.

EX PARTE COMMUNICATIONS

§ 1241.132 Ex parte communications.

No member of the Board or of the Board's staff shall entertain, nor shall any person directly or indirectly involved in an appeal submit to the Board or the Board's staff, off the record, any evidence, explanation, analysis, or advice, whether written or oral, regarding any matter at issue in an appeal. This provision does not apply to consultation among Board members nor to ex parte communications concerning the Board's administrative functions or procedures.

SANCTIONS

§ 1241.133 Sanctions.

If any party fails or refuses to obey an order issued by the Board, the Board may make such order in regard to the failure as it considers necessary to the just and expeditious conduct of the appeal.

Effective date. August 26, 1977.

FREDERICK J. LEES,
Chairman,
Board of Contract Appeals.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 77-206]

PART 12—SPECIAL CLASSES OF MERCHANDISE

Importation of Certain Pre-Columbian Art

AGENCY: United States Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This rule adds Ecuador to the list of countries whose pre-Columbian monumental or architectural sculpture or murals are subject to certain restrictions upon importation into the United States. This action is being taken because Ecuador subjects these articles to export control.

EFFECTIVE DATE: August 24, 1977.

FOR FURTHER INFORMATION CONTACT:

Richard M. Belanger, Attorney, Regulations and Legal Publications Division, United States Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-8237.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Sections 12.105 through 12.109 of the Customs Regulations (19 CFR 12.105-12.109) set forth regulations for the importation into the United States of pre-Columbian monumental or architectural sculpture or murals.

Pub. L. 92-587 (19 U.S.C. 2095) defines the term "pre-Columbian monumental or architectural sculpture or mural" to include, among other things, any stone carving or wall art which is the product of a pre-Columbian Indian culture of Mexico, Central or South America, or the Caribbean Islands, and which is subject to export control by the country of origin.

Section 12.105(a) of the Customs Regulations specifies countries of origin by applying the term "pre-Columbian monumental or architectural sculpture or mural" to certain specified articles of a pre-Columbian Indian culture of Bolivia, British Honduras, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Mexico, Panama, Peru, or Venezuela. Information has now been received from the Department of State that Ecuador also subjects these articles to export control. Therefore, Ecuador is added to the list of countries whose pre-Columbian monumental or architectural sculpture or murals are subject to certain restrictions upon importation into the United States.

Because this amendment merely implements a statutory requirement, notice and public procedure thereon is found to be unnecessary and good cause exists for dispensing with the delayed effective date provisions of 5 U.S.C. 553.

DRAFTING INFORMATION

The principal author of this document was Richard M. Belanger, Attorney, Regulations and Legal Publications Division of the Office of Regulations and Rulings, United States Customs Service. However, personnel from other offices of the Customs Service participated in developing the document, both on matters of substance and style.

AMENDMENTS TO THE REGULATIONS

Accordingly, § 12.105 of the Customs Regulations (19 CFR 12.105) is amended in the following manner:

§ 12.105 [Amended]

Paragraph (a) of § 12.105 is amended by inserting "Ecuador," between "Dominican Republic," and "El Salvador".

(R.S. 251, as amended, sec. 624, 46 Stat. 759, sec. 204, 86 Stat. 1295 (19 U.S.C. 66, 1624, 2094)).

ROBERT E. CHASEN,
Commissioner of Customs.

Approved: August 3, 1977.

BETTE B. ANDERSON,
Under Secretary of the Treasury.

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER E—SECURITY

PART 852—MOTOR VEHICLE TRAFFIC SUPERVISION

AGENCY: Department of the Air Force, DOD.

ACTION: Final rule.

SUMMARY: The Department of the Air Force is adding a new Part 852 to Title 32 CFR regarding motor vehicle traffic supervision on Keesler Air Force Base, Mississippi. It was found that, since the Mississippi Rules of the Road may not apply within the confines of Keesler Air Force Base, establishment of traffic rules for the base is necessary. This new rule is intended to result in a clearer understanding by visitors to the base and explicit procedures for disposition of Keesler traffic offenders.

EFFECTIVE DATE: September 23, 1977.

FOR FURTHER INFORMATION CONTACT:

Colonel Robert G. Smith, Staff Judge Advocate, Keesler Law Center, Keesler Air Force Base, Mississippi 39534. (601-377-2329).

SUPPLEMENTARY INFORMATION: This rule is issued under the authority of 10 U.S.C. 8012 and 50 U.S.C. 797.

This new part establishes procedures for the registration, operation, and parking of motor vehicles, bicycles, boats, trailers, and similar towed items. It implements provisions of AFR 125-14, Motor Vehicle Traffic Supervision, and 125-15, Motor Vehicle Registration and Related Requirements, and applies to persons operating, registering, or parking any of the aforementioned items on Keesler Air Force Base, including housing areas and annexes. This rule also applies to tenants. It is applicable to both military and civilian personnel.

The new Part 852 will read as follows:

Sec.
852.1 Purpose.
852.2 Definitions.
852.3 Obedience and effect of traffic regulations.
852.4 Traffic signs, signals and markings.
852.5 General rules and restrictions.
852.6 Maximum speed limits.
852.7 Driving on right side of roadway; overtaking and passing; and following.
852.8 Turning and signaling.
852.9 Right-of-way.
852.10 Parking.
852.11 Operator's responsibility.
852.12 Rules for bicycle operators.
852.13 Pedestrian rights and duties to conform with the Mississippi Uniform Vehicle Code.
852.14 Off-limit areas on Keesler Air Force Base.
852.15 Prohibited areas of Keesler AFB.

AUTHORITY: 10 U.S.C. 8012; 50 U.S.C. 797.

§ 852.1 Purpose.

This Part establishes procedures for the registration, operation, and parking of motor vehicles, bicycles, boats, trailers, and similar towed items. It implements provisions of AFR 125-14, Motor Vehicle Traffic Supervision, and AFR 125-15, Motor Vehicle Registration and Related Requirements, and applies to persons operating, registering, or parking any of the aforementioned items on Keesler Air Force Base, including housing areas and annexes. This part also applies to tenants. It is applicable to both military and civilian personnel. Violations of the provisions of this part may be cause for disciplinary action by military authorities for violation of Article 92, UCMJ, and by appropriate civilian and/or federal authorities.

§ 852.2 Definitions.

(a) "Vehicle" means every device, in, upon, or by which any person or property is or may be transported or drawn upon a roadway, except devices moved by human power or used exclusively upon stationary rails or tracks.

(b) "Motor Vehicle" means every vehicle which is self-propelled and every vehicle which is propelled by electric power obtained from overhead trolley wires, but not operated upon rails.

(c) "Motorcycle" means every motor vehicle rated at 1 or more horsepower, having a saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground but excluding a tractor.

(d) "Fractional Horsepower Cycle" means every motor vehicle rated under 1 horsepower having a saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground but excluding a tractor.

(e) "Authorized Emergency Vehicle" means every vehicle authorized to be such by the Base Commander. The squadrons authorized emergency vehicles are: Security Police, Fire Department, Hospital, and Disaster Preparedness.

(f) "School Bus" means every motor vehicle owned by a public or government agency and operated for the transportation of children to or from school, or privately owned and operated for compensation for the transportation of children to or from school.

(g) "Law Enforcement Officer" means every Security Policeman authorized to direct or regulate traffic or to make apprehensions/detentions for violations.

(h) "Driver" means every person who drives or is in actual physical control of a vehicle.

(i) "Owner" means any person who holds the legal title of a vehicle; in the event a vehicle is the subject of an agreement for the conditional sale or lease thereof with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee or lessee, or in the event a mortgagor of a vehicle is entitled to possession then such conditional vendee or lessee or mortgagor shall be deemed the owner for the purpose of this regulation.

(j) "Person" means every natural person, firm, co-partnership, association or corporation.

(k) "Pedestrian" means any person afoot.

(l) "Traffic" means pedestrians, ridden or herded animals, vehicles, streetcars, and any other conveyances either singly or together while using any street or roadway for purposes of travel.

(m) "Street or Roadway" means any way or place of whatever nature designed and used for purposes of vehicular traffic.

(n) "Laned Roadway" means any roadway which is divided into three or more clearly marked lanes for vehicular traffic.

(o) "Sidewalk" means any way or place adjacent to a roadway and intended for the use of pedestrians.

(p) "Driveway" means every roadway or street designed specifically for access to a particular building or group of buildings.

(q) "Through Street or Roadway" means every street or roadway or portion thereof at the entrances to which vehicular traffic from intersecting streets or roadways is required by law to stop before entering or crossing the same.

(r) "Crosswalk" means that portion of a roadway or street ordinarily included within the prolongation or connection of the lateral lines of sidewalks at intersections, or any portion of a roadway or street distinctly indicated for pedestrian crossing by lines or other markings on the surface.

(s) "Intersection" means the area embraced within the prolongation or connection of the lateral curb lines, or, if none, then the lateral boundary lines of the roadways which join one another at or approximately at, right angles, or the area within which vehicles traveling upon different roadways joining at any other angle may come in conflict.

(t) "Official Traffic Control Devices" means all signs, signals, markings, and devices not inconsistent with this regulation placed or erected by authority of the Base Commander for the purpose of regulating, warning, or guiding traffic.

(u) "Official Traffic Control Signal" means any device, whether manually, electrically, or mechanically operated, by which traffic is alternately directed to stop and to proceed.

(v) "Right-of-Way" means the privilege of the immediate use of the highway.

(w) "Stop", when required, means the complete cessation from movement.

(x) "Stop, Stopping or Standing", when prohibited, means any stopping or standing of a vehicle, whether occupied or not, except when necessary to avoid conflict with other traffic or in compliance with the directions of a Security Policeman or of a traffic control sign or signal.

(y) "Park", when prohibited, means the standing of a vehicle, whether occupied or not, otherwise than temporarily for the purpose of and while actually engaged in loading or unloading.

§ 852.3 Obedience and effect of traffic regulations.

(a) It is unlawful and, unless otherwise declared in this part with respect to particular offenses, it is a misdemeanor for any person to do any act forbidden by this part or to fail to perform any act required in this part, and upon conviction thereof said person shall be liable to a fine of not to exceed $5,000, or to imprisonment for not more than one year, or both.

(b) No person shall willfully fail or refuse to comply with any lawful order or direction of any Security Policeman invested by law with authority to direct, control, or regulate traffic.

§ 852.4 Traffic signs, signals and markings.

(a) The Uniform System of Traffic Control Devices adopted by the Commissioner of Public Safety for the State of Mississippi in accordance with Section 63-3-301 of the Mississippi Code of 1972 is hereby adopted as the system of traffic control devices for use upon Keesler Air Force Base.

(b) The Base Commander or his designee shall place and maintain such traffic control devices upon all base streets and roadways as he shall deem necessary to indicate and to carry out the provisions of this part, or to regulate, warn or guide traffic.

(c) Whenever traffic is controlled by traffic control signals exhibiting difference colored lights successively one at a time, only the following colors shall be used, and said lights shall indicate as follows:

(1) *Green alone.* (i) Vehicular traffic facing the signal may proceed straight through or turn right or left, unless a sign at such place prohibits either such turn. However, vehicular traffic shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection at the time such signal is exhibited.

(ii) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

(2) *Yellow alone when shown following the green signal.* (i) Vehicular traffic facing the signal shall stop before entering the nearest crosswalk at the intersection, but if such stop cannot be made in safety, a vehicle may be driven cautiously through the intersection.

(ii) Pedestrians facing such signal are thereby advised that there is insufficient time to cross the roadway, and any pedestrian then starting to cross shall yield the right-of-way to all vehicles.

(3) *Red alone.* (i) Vehicular traffic facing the signal shall stop before entering the nearest crosswalk at an intersection or at such other point as may be indicated by a clearly visible line and shall remain standing until green is shown alone.

(ii) No pedestrian facing such signal shall enter the roadway unless he can do so safely and without interfering with any vehicular traffic.

(iii) After coming to a complete stop, a vehicle may turn right only if turn can be made with reasonable safety to both crossing vehicles and pedestrians and if turn is not prohibited by a sign.

(4) *Red with green arrow.* (i) Vehicular traffic facing such signal may cautiously enter the intersection only to make movement indicated by such arrow, but shall not interfere with other traffic or endanger pedestrians lawfully within a crosswalk.

(ii) No pedestrian facing such signal shall enter the roadway unless he can do so safely and without interfering with any vehicular traffic.

(d) Whenever flashing red or yellow signals are used they shall require obedience by vehicular traffic as follows:

(1) *Flashing red.* When a red lens is illuminated by rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at the limit line when marked, and the right to proceed shall be subject to the rules applicable after making a stop at a stop-sign. (2) *Flashing yellow.* When a yellow lens is illuminated by rapid intermittent flashes, drivers of vehicles may proceed through the intersection or pass such signal only with caution.

(e) No driver of a vehicle shall disobey the instructions of any official traffic control device placed in accordance with the provisions of this part, unless at the time otherwise directed by a Security Policeman.

(f) The driver of an authorized emergency vehicle when responding to an emergency call, upon approaching a red or stop signal or any stop-sign, shall slow down, as necessary for safety, but may proceed cautiously past such red or stop-sign or signal. At other times drivers of authorized emergency vehicles shall stop in obedience to a stop-sign or signal.

§ 852.5 General rules and restrictions.

(a) No person will:

(1) Place, maintain, or display any unauthorized signs, signals, markings, or devices that are similar, purport to be, or are an imitation of an official traffic control device, sign or signal. Persons will not erect signs, devices, etc., that interfere with, hide, or reduce the effectiveness of any traffic control sign, signal, or other device, or block the view of drivers and become a hazard. Dempsey dumpster containers will not be placed within 20 feet of an intersection.

(2) Attempt to or alter, deface, knock down, damage or remove any traffic control device, or official inscription, shield, or insignia or other parts thereof without lawful authority.

(b) The driver will:

(1) Drive at a speed that is safe and prudent with regard to actual existing conditions.

(2) Have his vehicle under control at all times to avoid endangering or colliding with another person, vehicle, or other property.

(3) Drive at a reduced speed when approaching or going around a curb, entering or crossing an intersection, or when a hazard exists due to pedestrians, other traffic, or road/weather conditions.

§ 852.6 Maximum speed limits.

Except as in § 852.5(b)(1), the following are the maximum speed limits and apply to all vehicles except emergency vehicles responding to emergency calls:

(a) Base streets and roadways—25 mph unless otherwise posted.

(b) Driveways and parking lot areas—10 mph.

(c) Family housing area—20 mph unless otherwise posted.

§ 852.7 Driving on right side of roadway; overtaking and passing; and following.

(a) Upon all roadways of sufficient width a vehicle shall be driven on the right half of the roadway, except as follows:

(1) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement.

(2) When the right half of a roadway is closed to traffic while under construction or repair.

(3) Upon a roadway divided into three marked lanes for traffic under the rules applicable thereon.

(4) Upon a roadway designated and signed-posted for one-way traffic.

(b) Whenever roadway has been divided into three or more clearly marked lanes for traffic, the following rules in addition to all others consistent herein shall apply:

(1) A vehicle shall be driven as nearly as practical entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(2) A vehicle shall not be driven in the center lane upon a roadway which is divided into three lanes except when:

(i) Overtaking and passing another vehicle when the roadway is clearly visible and such center lane is clear of traffic within a safe distance.

(ii) Such vehicle is in preparation for a left turn.

(iii) Such center lane is at the time allocated exclusively to traffic moving in the direction such vehicle is proceeding and is sign-posted to give notice of such allocation.

(3) Official signs may be erected directing slow moving traffic to use a designated lane or allowing specified lanes to traffic moving in the same direction, and drivers of vehicles shall obey the directions of every such sign.

(c) Upon a roadway designated and sign-posted for one-way traffic, a vehicle shall be driven only in the direction designated; and a vehicle passing around a rotary traffic island shall be driven only to the right of such island.

(d) Drivers of vehicles proceeding in opposite directions shall pass each other to the right. Upon roadways having width for not more than one lane of traffic in each direction, each driver shall give to the other at least one-half of the main travel portion of the roadway as nearly as possible.

(e) The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions and special rules otherwise provided in this article.

(1) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(2) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

(f) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event, the overtaking vehicle must return to the right-hand side of the roadway before coming within 100 feet of any vehicle approaching from the opposite direction.

(1) No vehicle shall, in overtaking and passing another vehicle or at any other time, be driven to the left side of the roadway under the following conditions:

(i) When approaching the crest of a grade or upon a curve in the highway where the driver's view along the highway is obstructed.

(ii) When approaching within 100 feet of or traversing any intersection or railroad grade crossing.

(iii) When official signs are in place directing that traffic keep to the right, or a distinctive centerline is marked, which distinctive line also directs traffic as declared in the sign manual adopted by the Mississippi State Highway Commission and by reference by Keesler Air Force Base.

(g) The driver of a vehicle:

(1) May overtake and pass upon the right of another vehicle which is making or about to make a left turn.

(2) May overtake and, allowing sufficient clearance, pass another vehicle proceeding in the same direction either on the left or right on a roadway with unobstructed pavement of sufficient width for four or more lines of moving traffic when such movement can be made in safety. No person shall drive off the pavement or upon the shoulder of the roadway overtaking or passing on the right.

(3) On a roadway or street upon meeting or overtaking any school bus which has stopped on the roadway or street for the purpose of receiving or discharging children shall come to a complete stop and shall not proceed until the children have crossed the street or roadway and the school bus has proceeded in the direction it was going.

(4) This section shall be applicable only in the event the school bus shall bear upon the front and rear thereon a plainly visible sign containing the words "School Bus" in letters not less than four inches in height which can be removed or covered when the vehicle is not in use as a school bus.

(h) It shall be unlawful for a driver of any truck or other vehicle to drive in or near the center of any roadway for a distance of more than 200 yards, or at any time to refuse to turn to the right in order that a driver desiring to pass said truck or other vehicle, may drive at a higher legal rate of speed.

(i) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and condition of the roadway.

§ 852.8 Turning and signaling.

(a) The driver of a vehicle intending to turn at an intersection shall do so as follows:

(1) Both the approach for a right turn and the turn itself shall be made as close as practical to the right-hand curb or edge of the roadway.

(2) The approach for a left turn shall be made in that portion of the right half of the roadway nearest the centerline thereof, and after entering the intersection, the left turn shall be made so as to leave the intersection to the right of the centerline of the roadway being entered.

(3) The approach for a left turn from a two-way street onto a one-way street shall be made in that portion of the right half of the roadway nearest the centerline thereof and by passing to the right of such centerline where it enters the intersection. A left turn from a one-way street into a two-way street shall be made by passing to the right of the centerline of the street being entered upon leaving the intersection. When markers, buttons, or signs are placed within or adjacent to intersections, and thereby require and direct that a different course from that specified in this section be traveled by vehicles turning at an intersection; no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such markers, buttons, or signs.

(b) No vehicle shall be turned so as to proceed in the opposite direction (U-Turn) except at intersections on double-lane drives separated by median islands and only when such turn can be made in complete safety and without obstructing traffic.

(c) No person shall turn a vehicle from a direct course upon a roadway or street unless and until such movement can be made with reasonable safety, and then only after giving a clearly audible signal by sounding the horn, if any pedestrian may be affected by such movement or after giving an appropriate signal in the manner provided in this part, in the event any other vehicle may be affected by such movement.

(d) A signal of intention to turn right or left shall be given continuously for a reasonable distance before turning.

(e) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided in this regulation to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

(f) Signals required in this part shall be given either by means of the hand and arm or by a signal lamp or device of a type approved by the Mississippi Department of Public Safety. When a vehicle is so constructed or loaded that a hand and arm signal would not be visible both to the front and rear of such vehicle, then said signals must be given by such a lamp or device.

(g) All signals given by hand and arm shall be given from the left side of the vehicle in the following manner, and such signal shall indicate as follows:

(1) Left turn—Hand and arm extended horizontally.

(2) Right turn—Hand and arm extended upward or moved with a sweeping motion from the rear to the front.

(3) Stop or decrease speed—Hand and arm extended downward.

§ 852.9 Right-of-way.

(a) Except as may otherwise be provided in this part, the driver of a vehicle approaching an intersection shall yield the right-of-way to a vehicle which has entered the intersection from a different roadway. Except as may otherwise be provided in this part, when two vehicles enter an intersection from different roadways at the same time, the driver of the vehicle on the left shall yield the right-of-way to the vehicle on the right.

(b) The driver of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard. However, said driver, having so yielded and having given a signal when and as required, may make such left turn, and the drivers of all other vehicles approaching the intersection from said opposite direction shall yield the right-of-way to the vehicle making the left turn.

(c) The driver of a vehicle shall stop as required by this part at the entrance to a through street or roadway and shall yield the right-of-way to other vehicles which have entered the intersection from said through street or roadway as to constitute an immediate hazard. However, said driver having so yielded may proceed, and the drivers of all other vehicles approaching the intersection on said through street or roadway shall yield the right-of-way to the vehicle so proceeding into or across the through street or roadway.

(d) The driver of a vehicle shall likewise stop in obedience to a stop-sign as required by this part at an intersection where a stop-sign is erected at one or more entrances thereto, although not a part of a through street, and shall proceed cautiously, yielding to vehicles not so obliged to stop which are within the intersection or approaching so closely as to constitute an immediate hazard, but may then proceed.

(e) The driver of a vehicle about to cross or enter a street or roadway from a driveway shall yield the right-of-way to all vehicles approaching on said street or roadway.

(f) Upon the immediate approach of an authorized emergency vehicle, when the driver is giving audible signal by siren, exhaust whistle, or bell, the driver of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to, and as close as possible to, the right-hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by Security Policeman.

(g) Marching formations have the right-of-way over all except emergency vehicles on official call. Road guards will control vehicle traffic for marching formations. Vehicles traveling in the same direction as the troop formation will not approach the formation closer than 50 feet and will not pass the formation unless signalled to do so by personnel in charge. Vehicles traveling in the opposite direction may pass the formation at a speed not to exceed 10 mph.

(h) Vehicles will yield the right-of-way to pedestrians crossing a roadway within a marked crosswalk or at any intersection. When a vehicle has yielded to a pedestrian, vehicles approaching from the front or rear will not pass the stopped vehicle.

(i) Golf cart operators will stop the cart, look in both directions, assure he has proper clearance, and use extreme caution when attempting to cross a roadway. Golf cart operators will yield to all traffic.

§ 852.10 Parking.

Authorized parking is designated by painted white lines or signs. Yellow or red lines indicate no parking areas.

(a) Vehicles will park within the marked area of the parking space.

(b) Crossing the approaching traffic lane for the purpose of parking in an angle/parallel parking slot intended for approaching traffic is prohibited.

(c) Backing into or pulling through parking spaces, other than parallel parking spaces, to park or change directions is prohibited except for authorized emergency vehicles.

(d) No person will leave a vehicle unattended with the engine running. He will lock the ignition and remove the key; if on a grade, he will set the emergency brake and turn the wheels to prevent the vehicle from rolling.

(e) Reserve parking spaces for handicapped personnel will be based upon a doctor's statement attesting to disability and be approved by the Traffic Coordinating Committee (TCC). The TCC may designate general handicapped parking spaces at service facilities.

(f) The TCC will review and approve requests for parking spaces for government vehicles in work functional areas, loading zones, and time parking spaces for customers.

(g) The TCC will plan, develop, coordinate, and monitor parking and traffic control. Requests for reserved parking spaces must be reviewed by the TCC who will approve/disapprove each request and furnish a reply to the agency/individual concerned.

(h) Car-Pool parking: Car-pool parking areas reserved for personnel with bona fide car-pool cards. Display cards inside of windshield.

(1) Squadrons will obtain car-pool cards from SPAR and complete KTTC Form 23, Car-Pool Application (original and one copy). Forward original to SPA and file copies numerically within the squadron. When individuals are reassigned/discharged, return car-pool card and KTTC Form 23 to SPA.

(2) Individuals will obtain car-pool cards from squadron orderly room.

(i) The BX and Commissary parking lots are restricted to two-hour customer parking.

(j) Parking (other than four-wheeled vehicles):

(1) Two-wheel vehicles will not use regular parking spaces unless two-wheeled parking spaces have not been provided. Additionally, two-wheel vehicles may park at the end of angle parking rows within the lines.

(2) Boats, trailers, and campers, 18 feet in length or less, may be parker in carports, driveways, or patios. Those exceeding 18 feet in length, or those less than 18 feet without previously mentioned facilities, will be parked in designated base storage areas, except for loading/unloading (not to exceed 48 hours) at which time they may park in housing areas.

(3) Boats, trailers, or campers will not be parked in the streets next to curbs, except for loading/unloading. They will never be parked on the grass.

(4) Personnel will not block up trailers parked in housing areas or install in a permanent or semipermanent manner.

(5) Secure any of the above or any other towed item so that no safety hazard is present.

(6) The parking facility for the above is available for base personnel on a "first-come, first-serve" basis. Individuals are responsible for the maintenance (cutting grass, policing area, etc.) of their assigned slot. Upon reassignment, separation, trade or sale, etc., individual is responsible to clear his assigned slot through SPAP. Failure to comply with any provisions of this paragraph will result in terminating the assigned slot. Further, items stored within this area that give appearance of not being used or moved within 120 days will be considered abandoned and will be disposed of in accordance with directives of this installation.

(7) Storage of POVs in the above parking area is prohibited. (Abandoned vehicles may be stored in this area at the direction of the Chief, Security Police).

(k) Stopping or parking a vehicle on any of the following areas is prohibited except when necessary to avoid conflict with other traffic or in compliance with directions of a security policeman or traffic control device:

(1) In nondesignated areas.

(2) On sidewalks.

(3) On grass or shoulders of roadway.

(4) In front of a driveway or service drive.

(5) Within 10 feet of a hanger or maintenance dock.

V 42164 AUG 24 77 UM

(6) On a crosswalk or within 20 feet of a crosswalk at an intersection.

(7) Within an intersection.

(8) Within 15 feet of a fire hydrant or building, except when otherwise designated.

(9) On the left side of roadway, except on one-way streets. (This does not apply in housing areas).

(10) Adjacent to a yellow curb.

(11) Any place where prohibited by official signs.

§ 852.11 Operator's responsibility.

(a) Persons of any age that are not appropriately licensed will not operate any motor vehicle.

(b) Persons will not knowingly cause or permit a person without a license or under the influence of alcohol or drugs to operate a vehicle.

(c) Persons will not move a vehicle until it can be done with reasonable safety. Start in such a manner as to prevent spinning of wheels, throwing of gravel, or excessive revving of the engine.

(d) No driver will, other than the driver of an official vehicle responding to an alarm, follow any fire vehicle closer than 500 feet, nor stop or park within one block of the fire vehicle when it is being operated in response to an alarm. Drivers will not drive across an unprotected fire hose without the consent of the fire official in charge.

(e) Personnel will not operate privately owned vehicles on the ramp in front of Base Operations or any other portion of the flight line normally used for the movement or parking of aircraft.

(f) Drivers will, when necessary to insure safe operation, give audible warning with their horn. They will not use horn otherwise.

(g) Vehicles will not transport more passengers than the manufacturer's designated capacity.

(h) Do not affix a decal, inspection sticker, or similar item to the windshield or window so as to obstruct the vision of the driver.

(i) Do not throw litter from any vehicle.

(j) Emergency red or blue lights will not be installed or used on any privately owned vehicle without writen approval from the Base Commander.

(k) No operator will allow his vehicle to tow or push, or to be towed or pushed by, another vehicle except by use of a properly secured A-frame tow bar.

(l) The wearing of stero headphones, headsets, earphones, or any other item (except for hearing aids used to improve hearing) which would interfere with normal hearing of a motor vehicle operator, is prohibited.

(m) Viewing television by the motor vehicle operator is prohibited.

(n) Use headlights during inclement weather, limited visibility, and hours of darkness.

(o) Children under 10 years of age will not remain unattended in any vehicle.

(p) Inoperative vehicles will not be on base more than 24 hours except in the Hobby Shop.

(q) Modification of vehicles "lift and/or drop" that exceeds three inches in length (front or rear) is prohibited. Violations will be determined by a measurement of either bumper (bottom) to ground level. At no time will the gasoline tank be exposed by virtue of lift/drop modifications.

(r) Safety belt use is mandatory for all military personnel and civilian employees while operating or riding in vehicles on base. Off base, in all vehicles being used on government business, i.e., change of station, TDY, etc., IAW AFR 127–5.

(s) Major vehicle maintenance on base streets and parking lots is prohibited.

(t) Operation of Two and Three-Wheeled Motor Vehicles:

(1) Persons attached or assigned to KAFB operating such motor vehicles will: (i) Wear an approved safety helmet and shatterproof eye protection (applies to riders also). Ref: AFR 127–5.

(ii) Operate vehicle with lights on at all times.

(iii) Not carry passengers unless the vehicle is specifically designed to carry more than one person.

(2) Visitors and personnel with unregistered two and three-wheeled motor vehicles will comply with § 852.11(t). Assigned/attached personnel will comply with the 72-hour registration requirement as outlined in AFR 125–14.

(3) Fractional Horsepower cycles will not be registered on Keesler AFB, however, the wearing of an approved safety helmet and shatterproof eye protection are required. Ref: AFR 125–14, ATC Sup 1, para 3–2b.

(u) Defective Vehicles: Security Police will issue traffic citations to persons operating a defective motor vehicle in violation of the Mississippi Highway Patrol Inspection Station Regulation.

§ 852.12 Rules for bicycle operators.

Bicycle operators will:

(a) Obey all traffic signs and regulations.

(b) Keep to the right side of the roadway.

(c) Ride single file and at a safe distance behind the vehicle ahead.

(d) Stop to assure safe clearance before riding out of driveways, alleys, or from behind parked cars.

(e) Dismount and walk bicycle across heavily traveled roadways.

(f) Signal intention to turn.

(g) Carry parcels and books in a basket or luggage carrier.

(h) Never ride two on a bicycle; passengers interfere with vision and control.

(i) Never hitch onto other vehicles.

(j) Not stunt on streets and highways.

(k) Have a white light on front and red light or reflector on rear of bicycle and wear white or light-colored clothing at night. Ref: AFR 127–101, 4 Sep 74, and Change 1, 13 Jun 75, Paras 13–14f(1).

(l) Keep bicycle in good condition.

(m) Park bicycle in a safe and proper place, standing upright.

(n) If children under 10 years of age, not ride bicycles on Ploesti Drive unless accompanied by adults.

§ 852.13 Pedestrian rights and duties to conform with the Mississippi Uniform Vehicle Code.

(a) Pedestrians crossing between intersections will yield the right-of-way to vehicles and cross with caution. Pedestrians will comply with traffic control signals and not step, walk, or run suddenly from the curb or other places of safety into the path of a vehicle that is so close that it is impossible for the driver to yield safely; will not walk upon or adjacent to a roadway where sidewalks are provided. When sidewalks are not provided, walk only on the left side of the roadway or road shoulder approaching traffic and cross streets at crosswalks or intersections when within 25 yards.

(b) Hitchhiking is prohibited.

(c) Pedestrians will not cross between or through units of marching troops after the column has started moving.

(d) All pedestrians must use the sidewalk along the roadway of Ploesti Drive to and from the Triangle Area to Gate No. 7. Pedestrians will not cross any portion of the runway due to the landing and takeoff of aircraft. The runway and the clear zone at the ends of the runway approach are part of the airdrome controlled area as established under AFR 125–37.

(e) Pedestrians will not wear radio headsets while traversing the thoroughfares of Keesler AFB.

§ 852.14 Off limit areas of Keesler AFB.

The following areas are off limits to dependents and military personnel (except in the performance of duties) on Keesler AFB, including annexes and noncontiguous housing areas:

(a) Construction sites, trenches, and excavation work in progress.

(b) Water towers, radar, radio masts and antennas; elevated platforms; utility poles and junction cabinets above, on, and below ground level.

(c) Rock, shell, sand piles, and other construction materials stacked in open storage areas.

(d) Emergency operation areas of police and fire service.

(e) All sites posted "Off Limits" by authority of the Base Commander or Base Civil Engineer.

(f) Fuels Storage Area and Liquid Oxygen (LOX) Storage Area.

§ 852.15 Prohibited areas of Keesler AFB.

Entrance into the following areas without the Commander's consent is prohibited:

Area	Acreage	Jurisdiction
Main base	1,229.88	Exclusive.
Bay Ridge	68.20	Exclusive (east 14.35 acres). Proprietary (west 53.85 acres).
Oak Park	63.57	Exclusive.
Falcon Park	64.39	Do.
Shadow Lawn	20.45	Do.
Harrison Court	43.64	Do.
Annex 1 (Thrower Park).	57.38	Exclusive (east 40 acres) Proprietary (west 17.38 acres).
Maltby Hall	24.50	Proprietary.
Radio Beacon (north Biloxi).	12.00	Exclusive.
Small arms range	1,938.00	Concurrent (1,574 acres under permit).
Track K–1 (adjoins Falcon Park).	23.20	Exclusive.
Tract K–2 (adjoins Bay Ridge).	6.30	Do.

CHAPTER 7—AGENCY FOR INTERNATIONAL DEVELOPMENT, DEPARTMENT OF STATE

[AIDPR Notice 77–8]

PART 7–7—CONTRACT CLAUSES

Mandatory Use of Visa Application Form DSP 66A by AID Participants, Correction

AGENCY: Agency for International Development, State.

ACTION: Correction to Interim Procurement Instruction.

SUMMARY: This rule amends AID Procurement regulation by correcting an erroneously numbered Section in AIDPR 77–7.

EFFECTIVE DATE: Effective as of July 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. V. Henry Walker, CM/SD/POL Agency for International Development, Department of State, Washington, D.C. Telephone: 703–235–9107.

SUPPLEMENTARY INFORMATION: This AIDPR Notice 77–8 amends Title 41 CFR, Chapter 7, AID Procurement Regulations to correct the numbering of a section in AIDPR Notice 77–7.

In AIDPR Notice 77–7, FR Doc. 77–15698, published at page 28540, June 3, 1977, make the following changes:

1. In amendatory paragraph 3 on page 28540, the reference to § 7–7.5003–5 should be changed to read § 7–7.5003–6.

2. Also on page 28540, the section heading which begins *§ 7–7.5003–5 Mandatory use . . .* should be changed to read as set forth below:

§ 7–7.5003–6 Mandatory use of visa eligibility Form DSP 66A by participants.

AUTHORITY: 41 CFR 7–1.104–4. (42 FR 28540).

Dated: August 12, 1977.

JOHN F. OWENS,
Deputy Assistant Administrator for Program and Management Services.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. MC–19 (Sub.-No. 30)]

PART 1100—GENERAL RULES OF PRACTICE

SUBCHAPTER D—TARIFFS AND SCHEDULES

PART 1307—FREIGHT RATE TARIFFS, SCHEDULES AND CLASSIFICATIONS OF MOTOR CARRIERS

Special Procedures for Tariffs Governing Rates and Charges on Household Goods

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: Modifies the Commission's rules of practice applicable to proposed rate changes on household goods, to allow more time for interested parties to voice their views and to expedite Commission action thereon.

EFFECTIVE DATE: September 26, 1977.

FOR FURTHER INFORMATION CONTACT:

Janice M. Rosenak, Deputy Director, or Harvey Gobetz, Assistant Deputy Director, Section of Rates, Office of Proceedings, Interstate Commerce Commission, Washington, D.C. 10423 (202–275–7693).

SUPPLEMENTARY INFORMATION: The Interstate Commerce Commission in the above-entitled proceeding has modified its general rules of practice by adding to rule 40(b) (49 CFR 1100.40(b)) the provision that protests and requests for suspension of tariffs applicable to household goods, when published for the account of household goods carriers on no less than 45 days' notice, shall reach the Commission no later than 27 days before the effective dates of these tariffs; by adding to rule 40(f) (49 CFR 1100.40(f)) the provision that a reply to protest against such a 45-day-notice tariff shall be filed with the Commission not more than 5 days after the protest is filed; by adding a new subsection rule 40(h) (49 CFR 1100.40(h)), announcing that the Suspension and Fourth Section Board will act on such protests no later than 18 days before the effective dates; by adding to rule 200(c) (49 CFR 1100.200(c)) the provision that when the Suspension and Fourth Section Board has declined to suspend such a tariff any petition for reconsideration shall be filed within 2 work days after the Board has acted; and by adding a new rule 200(d) (49 CFR 1100.200(d)) providing that the designated appellate division will act on such petitions for reconsideration no later than 2 work days after they are filed. Appropriate additions are made to 49 CFR 1307.26(a) and 1307.44(d) to indicate in title pages and letters of transmittal, respecively, that they re-

V 42 16 4 AUG 24 77 UM

late to tariffs published on not less than 45 days' notice.

These rules are issued under the authority of 49 U.S.C. 304(a)(1), 316(b) and 316(g), and 5 U.S.C. 553 and 559. Notice of proposed rulemaking was given by publication in the FEDERAL REGISTER on November 30, 1976 (41 FR 52501).

Issued in Washington, D.C. July 20, 1977.

H. G. HOMME, JR.,
Acting Secretary.

Accordingly, the proposed modifications are as follows:

1. Rules 40 (b), (f) and (h), 49 CFR 1100.40 is amended by:

(a) In paragraph (b), change the period at the end of the second sentence to a semicolon and insert the following as set forth below;

(b) In paragraph (f), change the period at the end of the sentence to a semicolon and add the following as set forth below;

(c) Add a new paragraph (h) to read as set forth below.

As amended, § 1100.40 (b), (f), and (h) reads as follows:

§ 1100.40 Protests against applications. (Rule 40)

* * * * * * *

(b) * * * *Provided, however,* That protests against and requests for suspension of tariffs applicable on household goods as defined in 49 CFR 1056.1(a), when published for the account of household goods carriers as defined in 49 CFR 1040.2(b) on not less than 45 days' notice, shall reach the Commission no later than 27 days before the effective dates of the tariffs, schedules, or parts thereof to which they refer. * * *

* * * * * * *

(f) * * * *Provided, however,* That a reply to protest against a tariff applicable on household goods as defined in 49 CFR 1056.1(a), when published for the account of household goods as defined in 49 CFR 1040.2(b) on not less than 45 days' notice, shall be filed with the Commission not more than 5 days after the protest is filed.

* * * * * * *

(h) Except in extraordinary circumstances, the Suspension and Fourth Section Board will act on protests against or requests for suspension of tariffs applicable on household goods as defined in 49 CFR 1056.1(a), when published for the account of household goods carriers as defined in 49 CFR 1040.2(b) on not less than 45 days' notice, no later than 18 days before the effective dates of the tariffs, schedules, or parts thereof to which they refer.

2. Rules 200 (c) and (d), 49 CFR 1100.200 is amended as follows: In paragraph (c), change the period at the end of the first sentence to a semicolon and insert the following and add a new paragraph (d). As amended, § 1100.200 (c) and (d) reads as follows:

§ 1100.200 Special rules of practice governing procedures in certain suspension and fourth-section matters. (Rule 200).

* * * * * * *

(c) * * * *Provided, however,* That when the Suspension and Fourth Section Board has declined to suspend a proposed tariff or schedule applicable on household goods as defined in 49 CFR 1056.1(a) published for the account of a household goods carrier as defined in 49 CFR 1040.2(b) on not less than 45 days' notice, such petition shall be filed within 2 work days after the Suspension and Fourth Section Board has acted. * * *

(d) When the Suspension and Fourth Section Board has declined to suspend a proposed tariff or schedule applicable on household goods as defined in 49 CFR 1056.1(a) published for the account of a household goods carrier as defined in 49 CFR 1040.2(b) on not less than 45 day's notice, the designated appellate division will, except in extraordinary circumstances, act on petitions for reconsideration no later than 2 work days after the petition is filed.

3. In 49 CFR 1307.26 *Title page,* add a new paragraph (a)(10) to read as follows:

§ 1307.26 Title page.

(a) * * *

(10) in addition to the requirements of this section, the title page of publications containing rates on household goods as defined in 49 CFR 1056.1(a) when published for the account of household goods carriers as defined in 49 CFR 1040.2(b) on not less than 45 days' notice must show the following notation:

This tariff (or supplement or loose leaf amendment) is published on not less than 45 days' notice within the meaning of 49 CFR 1100.40 (b), (f), and (h), and 49 CFR 1100.200 (c) and (d).

4. In 49 CFR 1307.44, *Filing and posting tariffs,* add a new paragraph (d)(4) to read as follows:

§ 1307.44 Filing and posting tariffs.

* * * * * * *

(d) * * *

(4) when a tariff, supplement or loose leaf amendment containing rates on household goods as defined in 49 CFR 1056.1(a) is published for the account of household goods carriers as defined in 49 CFR 1040.2(b) on not less than 45 days' notice, the letter shall bear the following notation:

This tariff (or supplement or loose leaf amendment) is published on not less than 45 days' notice within the meaning of 49 CFR 1100.40 (b), (f), and (h), and 49 CFR 1100.200 (c) and (d).

* * * * * * *

[7 CFR Part 917]

FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Proposed Extension of Grade, Size, and Container Requirements

Correction

In FR Doc. 77-22781, appearing on page 39989 in the issue for Monday, August 8, 1977, in § 917.445(a)(4), between the sixth and seventh lines, insert the following line: "(ii) such pears are packed fairly tight;". The seventh line which now begins with "(ii)" should begin with "(iii)".

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 571]

[No. 77-500]

INVESTMENT IN STATE HOUSING CORPORATIONS

Insurance of Accounts

AUGUST 18, 1977.

AGENCY: Federal Home Loan Bank Board.

ACTION: Proposed rule.

SUMMARY: The Federal Home Loan Bank Board's present Statement of Policy concerning investment in "state housing corporations" by institutions insured by the Federal Savings and Loan Insurance Corporation provides that certain private corporations and agencies are considered "state housing corporations". The Board proposes to restrict investment under this Statement of Policy to investment in public corporations and agencies, because it believes, based on further consideration of the statute which the Statement of Policy implements, that private corporations are not "state housing corporations" within the meaning and purpose of the statute.

DATES: Comments must be received by September 24, 1977.

ADDRESS: Send comments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, N.W., Washington, D.C. 20552. Comments available for public inspection at this address.

FOR FURTHER INFORMATION CONTACT:

Harry W. Quillian, Associate General Counsel, Federal Home Loan Bank Board (202-376-3556) at the above address.

SUPPLEMENTARY INFORMATION: Section 5 of Pub. L. 93-100 provides for investment by insured institutions in "state housing corporations", which are defined, in paragraph (e)(3) of that section, as corporations "* * * established by a State for the limited purpose of providing housing and incidental services, particularly for families of low or moderate income." The Board's Statement of Policy set forth at § 571.8 of the rules and regulations for Insurance of Accounts (12 CFR 571.8) sets out the Board's expectations regarding such investment by insured institutions. Section 571.8 states that the Board believes that such investment is meant to be restricted to investment in public corporations and agencies, and in private corporations and agencies (whose objectives and purposes are primarily of a civic or community nature and seem socially desirable to the savings and loan association's board of directors), which corporations and agencies were established to provide housing and incidental services, particularly for families of low or moderate income.

After reconsideration of the authority provided by 5, and particularly the paragraph (e)(3) definition, it is the Board's view that investment in private organizations is not appropriate under that section. The Board believes that investment under authority of § 5 should be restricted to investment in public corporations and agencies which were established under the laws of the state in which the corporation will carry on its operations and which were established to provide housing and incidental services particularly for families of low or moderate income. This proposed restriction of the Board's view, as stated in § 571.8, of the scope of authorized investment under § 5 will not, however, apply to investment prior to August 24, 1977.

Accordingly, the Board hereby proposes to amend § 571.8, to read as follows:

§ 571.8 Investment in state housing corporations.

Sections 545.6-25 and 563.9-5 of this chapter authorize investment by Federal associations, and regulate investment by state-chartered insured institutions, in state housing corporations pursuant to section 5 of Pub. L. 93-100. A "state housing corporation" is defined in section 5(e)(3) of that law as "a corporation established by a State for the limited purpose of providing housing and incidental services, particularly for families of low or moderate income." The Federal Home Loan Bank Board believes the investment authority thereby provided is meant to be restricted to investment in public corporations and agencies which were established under the laws of the State in which the corporation will carry on its operation, and which corporations and agencies were established to provide housing and incidental services, particularly for families of low or moderate income. Although such investments may bear investment risks which are greater than usual, the Board further believes that they constitute a worthy effort and therefore holds that investments made pursuant to §§ 545.6-25 and 563.9-5 will not be subject to adverse comment on the quality oft heir investment grade by the Office of Examinations and Supervision, in the absence of default of such investments.

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. §§ 1725, 1726, 1730). Reorg. Plan No. 3 of 1947 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

J. J. FINN,
Secretary.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 241, 245, 246]

[EDR-331A; Docket No. 31205]

MODEL CORPORATE DISCLOSURE REGULATIONS

Supplemental Advance Notice of Proposed Rulemaking

AUGUST 19, 1977.

AGENCY: Civil Aeronautics Board.

ACTION: Supplemental advance notice of proposed rulemaking.

SUMMARY: This notice extends for 30 days the filing date for comments and reply comments in a rulemaking proceeding concerning Model Corporate Disclosure Regulations developed by the Interagency Steering Committee on Uniform Corporate Reporting. The extension for the Comment due date was requested by the Air Transport Association (ATA).

DATES: Comments: September 21, 1977. Reply comments: October 6, 1977.

ADDRESSES: Comments should be sent to: Docket 31205, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. Comments may be examined at the Docket Section, Civil Aeronautics Board, Room 711, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., as soon as they are received.

FOR FURTHER INFORMATION CONTACT:

V 42 164 AUG 24 77 UM

Stephen L. Babcock, Rules Division, Civil Aeronautics Board, 1825 Connecticut Avenue NW., Washington, D.C. 20428 (202-673-5442).

SUPPLEMENTARY INFORMATION: By Advance Notice of Proposed Rulemaking EDR-331, 42 FR 39115, August 2, 1977, the Board gave notice that it desired to solicit public views on whether it can and should adopt the Model Corporate Disclosure Regulations developed by the Interagency Steering Committee on Uniform Corporate Reporting.

In a letter dated August 12, 1977, the counsel for ATA requested an extension of 30 days for the filing of comments in response to EDR-331. In support of the request, counsel stated that additional time is required to arrange coordination among ATA members and to submit the specific information requested by the Board.

Upon consideration of the foregoing, the undersigned finds that good cause has been shown for the granting of the requested extension. It does not appear that this extension will prejudice any party to the proceeding.

Accordingly, pursuant to authority delegated in § 385.20(d) of the Board's Organization Regulations (14 CFR 385.20 (d)), the time for filing comments is extended to September 21, 1977, and the time for filing reply comments to October 6, 1977.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743 (49 U.S.C. 1324).)

SIMON J. EILENBERG,
Associate General Counsel,
Rules Division.

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[File No. 772 3003]

CITY STORES CO.

Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent order, among other things, would require a New York City retail department store chain to cease imposing unauthorized collection fees on delinquent charge accounts; and to provide such disclosures and refunds as are set forth in the order.

DATE: Comments must be received on or before October 21, 1977.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th and Pennsylvania Ave., N.W., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

Paul R. Peterson, Director, Cleveland Regional Office, Federal Trade Commission, 1339 Federal Office Bldg., 1240 East Ninth St., Cleveland, Ohio 44199, 216-522-4207.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the FTC Act, 38 Stat. 721; 15 U.S.C. 46 and § 2.34 of the Commission's Rules of Practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b)(14) of the Commission's Rules of Practice (16 CFR 4.9(b)(14)).

UNITED STATES OF AMERICA BEFORE FEDERAL TRADE COMMISSION

FILE NO. 772 3003 AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

In the matter of City Stores Company, a corporation.

The Federal Trade Commission having initiated an investigation of certain acts and practices of City Stores Company, a corporation, and it now appearing that City Stores Company, a corporation, hereinafter sometimes referred to as proposed respondent, is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated.

It is hereby agreed by and between City Stores Company, by its duly authorized officer, and its attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent City Stores Company is a corporation organized, existing and doing business under and by virtue of the laws of the State of Delaware, with its office and principal place of business located at 500 Fifth Avenue, New York, New York.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives: a. Any further procedural steps;

b. The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

c. All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the official record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released; and such acceptance may be withdrawn by the Commission if comments or views submitted to the Commission disclose facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of Section 2.34 of the Commission's Rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding, and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Mailing of the complaint and decision containing the agreed-to order to proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby, and it understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied in the amount provided by law for each violation of the order after it becomes final.

ORDER

It is ordered that the respondent, City Stores Company, a corporation, and its successors and assigns, and its officers, representatives, agents and employees, directly or through any corporation, subsidiary, division or other device, in connection with the handling of customer charge accounts, in or affecting commerce, as "commerce" is defined in the Federal Trade Commision Act, do forthwith cease and desist from:

1. Except as otherwise authorized by law, imposing any fee or penalty on accounts which respondent deems to be uncollectable, or with respect to which delinquency collection procedures have been instituted (as "uncollectable" and "delinquency" are used in Section 226.7(b) of Regulation Z (12 C.F.R. 226) of the Truth In Lending Act (Pub. L. 90-321, 15 U.S.C. 1601, et sq.)), which is not set forth in the Retail Installment Credit Agreement or other agreement with the customer. (Such unauthorized fee or penalty is referred to herein as an "unauthorized collection fee")

2. Failing to send the disclosures and make the refunds required by this Order.

It is further ordered that, with respect to each unauthorized collection fee in excess of one dollar ($1.00) which respondent has at any time heretofore imposed on a customer and which has been collected from any such customer on or after February 4, 1974, or which is collected at any time subsequent thereto:

1. Respondent shall refund to each such customer the full amount of such fee:

(i) within sixty (60) days of the date this Order becomes final, respecting all fees heretofore collected (unless such fee has previously been refunded); and

(ii) within 30 days after receipt, respecting any such fees which may be collected subsequent to the date of this Order; and

2. Respondent shall make a clear and conspicuous disclosure which shall state:

REFUND

The enclosed check represents a refund of a collection fee which you paid as part of a previous bill. Since our account agreement with you does not provide for such a charge we are refunding the amount of the collection fee.

Each refund shall be given to the customer either in person or by mail, and shall be in the form of a check payable to the order of the customer. The check shall be sent to the last known address shown in respondent's records for said customer. If any such check is returned to respondent with a notification to the effect that the customer to whom it was mailed is not located at the address to which it was sent, respondent shall remail the check, with an address correction request, to the Post Office unless respondent has already done so. If the check or statement which has been remailed is returned to respondent and the amount to be refunded exceeds fifteen dollars ($15.00), respondent shall obtain from a credit bureau the most current address available for the customer in the credit bureau's files by means of an in-file report or other credit bureau report. If the customer is not located by the preceding methods, resondent shall thereafter be relieved of any further obligation to send any additional notice and/or any refund with respect to the collection fee in question; provided, however, that in the event said customer should subsequently request such refund, respondent shall, within thirty (30) days from the date of such request, provide the disclosures and refund the collection fee in accordance with the provisions of this Order.

It is further ordered that respondent shall, upon request, produce for the purpose of examination and copying by representatives of the Federal Trade Commission, all records pertinent to disclosures and refunds made pursuant to this Order.

It is further ordered that respondent shall forthwith distribute a copy of this Order to each of its operating divisions and subsidiaries.

It is further ordered that respondent notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the Order.

It is further ordered that respondent shall, within sixty (60) days after the service upon it of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this Order.

ANALYSIS OF PROPOSED CONSENT ORDER

CITY STORES COMPANY
FILE NO. 772 3003

The Federal Trade Commission has accepted an agreed-to order from City Stores Company. The proposed consent order has been placed on the public record for sixty (60) days for the reception of views and comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the consent order in light of the comments received, and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The complaint alleges that City Stores Company added a 20 percent collection fee to delinquent charge accounts when those accounts were referred to a collection agency by Franklin Simon or Lit Brothers division. This collection fee was imposed contrary to the terms of the charge agreement with the customer. The charge agreement requires the customer to pay an attorney's fee when the account is referred for collection to an independent attorney. There is no mention of any collection fee in the charge agreement.

The order requires the company to return to customers unauthorized collection fees which total over $81,000. Any fee collected on or after February 4, 1974, will be refunded within 60 days of the order. Any outstanding fee collected after the date of the order will be refunded within 30 days.

A consumer disclosure will accompany each refund. The disclosure will inform the customer that the refund check represents a collection fee which has been paid by the customer, but which was not part of the charge agreement with customer or otherwise ordered by a court.

Other important order provisions prohibit all divisions of City Stores from imposing a fee or penalty on delinquent accounts in the future, unless the fee is set forth in the customer charge agreement.

The purpose of this analysis is to facilitate public comment on the consent order and is not intended to constitute an official interpretation of the order or to modify in any way the terms of the order.

CAROL M. THOMAS,
Secretary.

MOBILE HOME SALES AND SERVICE

Change of Dates for Washington, D.C. Hearing and Related Filing Requirements Concerning Proposed Trade Regulation Rule

AGENCY: FEDERAL TRADE COMMISSION

ACTION: Notice of Change of Date for Washington Hearing and Related Filing Requirements

SUMMARY: The Federal Trade Commission hereby gives notice that the date for commencing the Washington, D.C. public hearing is being changed from September 12, 1977 to October 11, 1977. The dates for filing word-for-word statements, outlines and exhibits and written comments are also being extended and the location of the hearing is being changed.

DATES: Hearing Date: October 11, 1977. Materials required for oral presentation must be filed by September 19, 1977. Written comments must be filed by September 7, 1977.

ADDRESSES: Send word-for-word statements, comprehensive outlines and exhibits to Charles A. Taylor, III, Attorney, Federal Trade Commission, Pennsylvania Avenue at 6th Street, NW., Washington, D.C. 20580 and send written comments to Raymond L. Rhine, Presiding Officer, Federal Trade Commission, Washington, D.C. 20580.

Hearing address: Room 2008, New Executive Office Building, on 17th Street between Pennsylvania Avenue NW. and H Street NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Charles A. Taylor, III, 202-523-3660, Federal Trade Commission, Pennsylvania Avenue at 6th Street, NW., Washington, D.C. 20580.

SUPPLEMENTARY INFORMATION: On May 23, 1977, the Presiding Officer published in the FEDERAL REGISTER (42 FR 26398) a Final Notice of Proposed Rulemaking concerning Mobile Home Sales and Service. The Notice included a schedule of dates for submission of word-for-word statements, outlines, written comments, and exhibits and for commencement of the public hearings in Washington, D.C.

As published in such Final Notice, the closing date set for the submission of word-for-word statements, comprehensive outlines and exhibits for the hearings in Washington was August 22, 1977 and the date for the submission of written comments was later established by Commission Notice (42 FR 38390, July 28, 1977) as August 29, 1977.

The closing date for the submission of word-for-word statements, comprehensive outlines and exhibits for the Washington hearings has been extended to September 19, 1977. The closing date for the submission of written comments and available exhibits has been extended to September 7, 1977.

The date for the Washington, D.C. hearings to commence is now October 11, 1977. Therefore, the public hearing will commence on October 11, 1977, at 9:30 a.m., in Washington, D.C., Room 2008, New Executive Office Building, on 17th Street between Pennsylvania Avenue NW. and H Street, NW.

Persons wishing to make an oral presentation at the hearing must inform Mr. Charles A. Taylor, III, Federal Trade Commission, 6th and Pennsylvania Avenue, NW., Washington, D.C. 20580 and furnish the required word-for-word statements, comprehensive outlines and exhibits no later than September 19, 1977. Persons desiring to file written comments and available exhibits must send them to Raymond L. Rhine, Presiding Officer, Federal Trade Commission, Washington, D.C. 20580 no later than September 7, 1977.

The other provisions of the Presiding Officer's Final Notice of May 23, 1977 in Sections A and C remain the same and the instructions and requirements set forth therein shall be observed. The dates for the hearing and the filing requirements in connection with the San Francisco hearing remain the same.

Issued: August 19, 1977.

RAYMOND L. RHINE,
Presiding Officer.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[24 CFR Parts 203 and 204]

[Docket No. R-77-461]

OFFICE OF ASSISTANT SECRETARY FOR HOUSING—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION)

Mutual Mortgage Insurance and Insured Home Improvement Loans, Coinsurance

AGENCY: Department of Housing and Urban Development.

ACTION: Proposed rules.

SUMMARY: These proposed rules will amend 24 CFR Parts 203 and 204 so as to limit that portion of an insurance benefit payment which relates to reimbursement of the mortgagee for hazard insurance payments to an amount which does not exceed a "reasonable rate" as defined by 24 CFR 203.379(b)(3).

DATES: Comments must be received on or before September 22, 1977.

ADDRESSES: Comments should be addressed to the Rules Docket Clerk, Office of the Secretary, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. Communications should have reference to the above docket number and title.

FOR FURTHER INFORMATION CONTACT:

Julius Williams, Director, Single-Family Housing Division, Office of Loan Management, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5752.

SUPPLEMENTARY INFORMATION: The proposed amendment conforms with administrative practice in processing claims where hazard insurance has been obtained at more than a reasonable rate. See Handbook 4191.1 REV, Administration of Insured Home Mortgages, paragraph 29, and recently amended 24 CFR § 203.379, published at 41 FR 49730 dated November 10, 1976, which prevents mortgagees from requiring mortgagors to pay premiums for hazard insurance at more than reasonable rates.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours in the Office of the Rules Docket Clerk, Office of the Secretary, Room 5218, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410.

It is hereby certified that the economic and inflationary impact of these proposed rules have been carefully evaluated in accordance with Executive Order No. 11821.

Accordingly, the Department proposes to amend Chapter II of Title 24 CFR as follows:

1. Amend § 203.402(c) to read as follows:

§ 203.402 Items included in payment-conveyed properties.

* * * * *

(c) Hazard insurance premiums on the mortgaged property not in excess of a "reasonable rate" as defined in § 203.379(b)(3);

* * * * *

2. Amend § 204.322(c) to read as follows:

§ 204.322 Items included in payment.

* * * * *

(c) Hazard insurance premiums on the mortgaged property not in excess of a "reasonable rate" as defined in § 203.379(b)(3), prorated to the date of disposition of the property:

* * * * *

Issued in Washington, D.C., on August 12, 1977.

MORTON BARUCH,
General Deputy Assistant Secretary for Housing.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 11]

LAW AND ORDER ON INDIAN RESERVATIONS

Law Enforcement Standards

AUGUST 18, 1977.

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Proposed rulemaking.

SUMMARY: This action is needed because there have been recurrent reports that complaints of civil rights violations by Indian police are not fully and thoroughly investigated. The purpose of this action is to assure that the proper investigating authorities are promptly informed of such complaints.

DATES: Comments must be received on October 25, 1977.

ADDRESSES: Written comments should be directed to: Director, Office of Indian Services, Bureau of Indian Affairs, 18th and C Streets.

FOR FURTHER INFORMATION CONTACT:

Eugene F. Suarez, Sr., Chief, Division of Law Enforcement Services, Office of Indian Services, Bureau of Indian Affairs, Department of the Interior, Washington, D.C. 20245. Telephone: 202-343-5786.

SUPPLEMENTARY INFORMATION: The new paragraph (n) provides procedures for the prompt reporting of allegations that police officers have violated the civil rights of any person to the Federal Bureau of Investigation. Allegations against Bureau of Indian Affairs employees must also be reported to the Office of Audit and Investigation of the Department of the Interior. Allegations against employees of tribal contractors must be reported to the top BIA law enforcement officer at the Agency. If there is no BIA officer at the Agency, the allegation must be reported to the Area Special Officer.

The primary author of this document is: David C. Etheridge, Attorney, Division of Indian Affairs, Office of the Solicitor, Department of the Interior, Washington, D.C. 20240, 202-343-6967.

This proposed rule making is being published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

It is proposed to add a paragraph (n) to § 11.304 of Subchapter B, Chapter I, of Title 25 of the Code of Federal Regulations. This revision is proposed under the authority contained in 5 U.S.C. 301, 25 U.S.C. 2, and Section 102 of Title I of the Indian Self-Determination and Education Assistance Act (Pub. L. 93-638, 88 Stat. 2203).

It is proposed to amend Section 11.304 by adding paragraph (n) to read as follows:

§ 11.304 Minimum standards for police program.

(n) (1) When a law enforcement officer receives an oral or written allegation that a law enforcement officer employed by a program funded by the Bureau of Indian Affairs has violated the civil rights of any person, the officer receiving the allegation shall prepare a written report of the allegation and transmit it through the chain of command to the chief enforcement officer.

(2) Upon being notified of the allegation, the chief law enforcement officer shall take the following actions:

(i) Notify the Federal Bureau of Investigation, and the Agency's Superintendent or Contracting Officer's Representative.

(ii) If the officer against whom the allegation is made is an employee of the Bureau of Indian Affairs, prepare a memorandum to the Superintendent, who shall, through the Area Director and the Commissioner of Indian Affairs, transmit to the Director, Office of Audit and Investigation, a request that the allegation be investigated to determine whether any administrative action is warranted. The memorandum shall be transmitted through the Superintendent and the Area Director.

(iii) If the officer against whom the allegation is made is an employee of a tribal contractor, notify the top Bureau of Indian Affairs law enforcement officer assigned to the agency. If there is no Bureau of Indian Affairs law enforcement officer at the Agency, the Superintendent and the Area Special Officer shall be notified.

(3) If the chief law enforcement officer is accused of a civil rights violation, the report of the allegation shall be transmitted directly to the Agency Superintendent, who shall take the actions required by subparagraph (2) of this section. If there is no Agency Superintendent, the report of the allegation shall be transmitted directly to the Area Director, who shall take the actions required by subparagraph (2) of this section.

(4) As soon as all actions required by paragraphs (1), (2), and (3) of this Section have been completed, a copy of all documents concerning the allegation shall be transmitted to the Chief, Division of Law Enforcement Services, in the Central Office.

RAYMOND V. BUTLER,
Acting Deputy Commissioner of Indian Affairs.

[FR Doc.77-24498 Filed 8-23-77;8:45 am]

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Parts 171, 177, 182, and 183]

INDIAN MINING REGULATIONS

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Extension of comment period; withdrawal of certain proposed rules; and announcement of meetings.

SUMMARY: The Bureau of Indian Affairs is extending the comment period on certain parts of proposed rules for mining on Indian lands. Also, a proposed subpart providing for operating and reclamation standards is being withdrawn in light of recent enactment of comprehensive legislation governing the regulation of surface mining operations on both public and Indian lands.

This document also announces meetings for discussion with tribes and Indian organizations on the proposed rules for Indian mineral development contracts.

DATES: Comment period is extended to September 2, 1977.

Meetings for discussion with tribes and Indian organizations on the proposed rules for Indian mineral development contracts will be held in the following locations:

Oklahoma City, Okla.—August 30, 1977.
Billings, Mont.—September 13, 1977.
Aberdeen, S. Dak.—September 15, 1977.
Phoenix, Ariz.—September 23, 1977.
Albuquerque, N. Mex.—September 26, 1977.
Window Rock, Navajo Nation—September 28, 1977.

ADDRESSES: Comments should be sent to: Commissioner of Indian Affairs—Code 202 Bureau of Indian Affairs, Washington, D.C. 20245.

For addresses and instructions for meetings with tribes and Indian organizations, see "Supplementary Information" below.

FOR FURTHER INFORMATION, CONTACT:

David C. Harrison, 202-343-8018.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the period for written comments on certain proposed rules for Mining on Indian Lands, published in the Federal Register on April 5, 1977 (42 FR 18083), is extended to September 2, 1977. This extension is applicable to proposed Parts 171, 177 (Subpart A only), and 182 of 25 CFR. The extension does not apply to proposed Part 183, governing oil and gas leasing of Osage lands.

Proposed Subpart B of Part 177, which provides for operating and reclamation standards for coal operations on Indian lands, is hereby withdrawn in light of the recent enactment of comprehensive legislation governing the regulation of surface mining operations on both public and Indian lands. It is anticipated that the Interior Department will publish proposed rulemaking designed to implement the new law.

Meetings for discussion with tribes and Indian organizations on the proposed rules for Indian mineral development contracts will be held in the following locations:

Oklahoma City, Okla.—August 30, 1977.
Billings, Mont.—September 13, 1977.
Aberdeen, S. Dak.—September 15, 1977.
Phoenix, Ariz.—September 23, 1977.
Albuquerque, N.M.—September 26, 1977.
Window Rock, Navajo Nation—September 28, 1977.

The purpose of these meetings is to provide a forum for discussion and explanation of the proposed regulations and the issues raised in the written comments on them. Panelists will come from among those employees of the Interior Department who have been involved in drafting of the proposed regulatory scheme. Persons attending a meeting who wish to address some issue raised by the regulations should submit two copies of a written statement at least one week prior to that meeting. One copy should be sent to: Commissioner of Indian Affairs, Bureau of Indian Affairs, Code 202, 1951 Constitution Avenue NW., Washington, D.C. 20245, Attn: David C. Harrison.

The other copy should be submitted to the local Area Director of the Bureau of Indian Affairs at one of the following addresses:

Oklahoma City: Area Director, Anadarko Area Office, Bureau of Indian Affairs, Federal Building, P.O. Box 368, Anadarko, Okla. 73005, Attn: Realty Officer; or

Area Director, Muskogee Area Office, Bureau of Indian Affairs, Federal Building, Muskogee, Okla. 74401, Attn: Realty Officer.

Billings: Area Director, Billings Area Office, Bureau of Indian Affairs, 316 N. 26th Street, Billings, Mont. 59101, Attn: Realty Officer.

Aberdeen: Area Director, Aberdeen Area Office, Bureau of Indian Affairs, Federal Building, 115 4th Avenue SE., Aberdeen, S. Dak. 57401, Attn: Realty Officer.

Phoenix: Area Director, Phoenix Area Office, Bureau of Indian Affairs, 124 W. Thomas Road, P.O. Box 7007, Phoenix, Ariz. 85011, Attn: Realty Officer.

Albuquerque: Area Director, Albuquerque Area Office, Bureau of Indian Affairs, 5301 Central Avenue NE., P.O. Box 8327, Albuquerque, N. Mex. 87107, Attn: Realty Officer.

Window Rock: Area Director, Navajo Area Office, Bureau of Indian Affairs, Window Rock, Ariz. 86515, Attn: Realty Officer.

Oral comments at the meetings must be limited to 15 minutes. The meetings will begin at 9 a.m. For additional information on these meetings please contact the local Area Director. The specific location for each meeting will be set by the Area Director at least two weeks prior to the meeting.

RAYMOND V. BUTLER,
Acting Deputy Commissioner of Indian Affairs.

POSTAL SERVICE

[39 CFR Parts 241, 245, 246, 247, 248, 265]

DISCONTINUANCE OF POST OFFICE

Procedural Regulations

AGENCY: United States Postal Service.

ACTION: Proposed rule.

SUMMARY: These proposed regulations would revise the Postal Service procedures for considering whether to discontinue a post office, to bring the procedures into line with new statutory provisions that recently became effective. The new statute and proposed rules are intended to assure, first, that decision-making about the continuation of a post office takes into account all relevant factors; and second, that customers of the post office under review have an opportunity to participate in the decisionmaking process.

DATES: Written comments must be received on or before September 23, 1977.

ADDRESSES: Address comments to Assistant General Counsel, Legislative Division, U.S. Postal Service, 475 L'Enfant Plaza West, SW., Washington, D.C. 20260.

FOR FURTHER INFORMATION CONTACT:

W. Allen Sanders (202-245-4636).

SUPPLEMENTARY INFORMATION: Pub. L. 94-421 enacted a new provision, 39 U.S.C. 404(b) (effective March 15, 1977), which establishes standards and procedures for the consideration of post office closings and consolidations. Present Postal Service regulations dealing with the discontinuance[1] of a post office have not yet been revised to reflect the statutory changes. See Regional Instruction, Discontinuance and Consolidation of Post Offices, Filing No. 361.2, dated November 20, 1975; Amendment No. 1, dated January 15, 1976; Amendment No. 2 dated March 25, 1976. The proposed rule is intended to bring Postal Service regulations into conformity with the statute, in a codified form that will be readily available to the public. When a final rule is adopted, the 1975 Regional Instruction and subsequent amendments will be revoked. No post office will be closed until the final rule has been adopted and its procedures are followed.

The Postal Service wishes to emphasize that the adoption of the proposed new

[1] Section 404(b) covers both "closing" and "consolidation". Under the proposed rule, the term "discontinuance" is used to include both closings and consolidations. In Postal Service usage, a "consolidation" combines two or more independent post offices by replacing at least one of them with a different kind of facility (a community post office, station, or branch) that is operated as an affiliate of one of the other post offices. A consolidation thus does not result in depriving the affected community of its own postal facility, and may or may not result in closing the facility that has served as the community's independent post office, since the same facility may or may not serve as the new affiliate facility.

V 42 16 4 AUG 24 77 UM

rule will not signal the beginning of a campaign to close large numbers of post offices. It will simply bring postal regulations up to date. The new law contemplates that in some circumstances, the continuation of an existing post office may not be warrantd. The proposed rule will provide necessary guidance to postal managers and to the public in such a case, to help them apply the criteria and follow the procedures outlined by new section 404(b).

The requirements of section 404(b) may be grouped in three categories. First, the section establishes criteria which must form the basis for assessing whether or not a post office should be discontinued. Second, it establishes procedures to be followed by the Postal Service in making such an assessment, including ample opportunity for public comment on the proposed action. These first two requirements would be implemented by the proposed rule. Third, section 404(b) provides for the affected customers' right of appeal of a Postal Service determination to the Postal Rate Commission. The Commission is authorized to set aside any determination found to be arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law; without observance of procedure required by law; or unsupported by substantial evidence on the record. The Commission has already established procedures for the implementation of this provision. See Subpart H, Part 3001 of Title 39, CFR, as added by 42 FR 10989–10994 (February 25, 1977).

The criteria to be considered in determining whether to discontinue a post office include the effect on the community and on the post office's employees, the requirement to maintain effective and regular postal services, the potential savings, and any other relevant factors identified by the Postal Service. In recent years, many of the reservations that have been expressed about discontinuing small post offices, even when substantial savings would be realized and as good or better service would be provided, have focused on the potential adverse effect on the continued identity of a small community, particularly where the demographic changes that make the office seem unnecessary already have led other institutions to abandon the community. In recent years, the Postal Service has attempted to mitigate potential effects of this kind, where possible, by establishing a category of contract postal facility known as a "community post office", which preserves the community name in the name of the postal facility and in the mailing address of the community residents served by the facility.

The present proposed rule, §§ 247.4 through 247.8, would go beyond previous policy, to enable the continuation of the community address in almost all cases when a post office is discontinued. Whenever the discontinuance is accomplished by consolidation—that is, when an independent post office is replaced by an affiliate facility still in the community—the replacement facility will preserve the name of the discontinued post office. In addition, when a post office is simply closed, without being replaced by another type of postal facility in the community, the community's name will still be permitted to be used in the mailing address of the affected customers in most cases, along with the ZIP Code of the post office from which delivery is provided after the change. The only exception will be the unusual case when delivery can suitably be provided to the community only from several different offices with different ZIP Codes. In such a case, using the community name would not enable the Postal Service to route the mail properly if the mailer neglects to include the applicable ZIP Code in the address, as still too frequently happens. Finally, the names of all discontinued post offices would continue to appear in an appropriate fashion in published Postal Service directories. We believe that these adjustments would provide a significant step toward helping to preserve a community's identity despite discontinuance of the post office, where the discontinuance is warranted considering all relevant factors.

Proposed §§ 247.9 through 247.24 provide step-by-step procedures for considering whether a particular post office should be discontinued. Consideration would be begun by local postal management (the Sectional Center Manager). As provided by § 247.13, notice of the proposed action would be posted in the affected office. The notice would include a full explanation of the reasons for the proposed action, including an application of all of the required statutory criteria. Copies of the proposal and a blank comment form would be distributed at the post office. The administrative record upon which the proposal is based would be available for public examination in the affected post office. Additional actions to enhance customer participation, suited to the local context, would be encouraged. Postal customers would have 60 days to provide views and information, which would become part of the record for decision. If after taking customer comments into account, the local manager decided to continue with the proposal, he would have to revise his written explanation to reflect consideration of the information and arguments received from the customers. Thereafter, the matter would be reviewed at higher levels within the Postal Service. If the final determination is to proceed with the discontinuance, the decision would have to be explained in writing and made available in the affected post office. For a period of 30 days, any customer would be entitled to file an appeal to the Postal Rate Commission. The post office could not be discontinued until at least 60 days after the Postal Service's written determination is made available.

Certain supplementary changes are also proposed. Conforming amendments would revise the caption of § 241.1 and would delete present § 241.1(c). Proposed new Part 248 would make it clear that an emergency suspension of post office operations for reasons of necessity—as in the case of a loss of quarters—would be temporary only, and that the provisions of Part 247 would apply to the discontinuance of such a post office as to any other. A proposed amendment to § 245.6(a)(2) would provide for the preservation of final written determinations to discontinue a post office, with supporting record, as a public record available for inspection.

Accordingly, although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking, 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed amendments to Title 39, CFR.

PART 241—ESTABLISHMENT AND CLASSIFICATION

1. Part 241 is amended by revising the caption as set forth above.

§ 241.1 [Amended]

2. Paragraph (c) of § 241.1 is deleted.

PART 245—[RESERVED]

PART 246—[RESERVED]

3. Parts 245 and 246 are reserved

PART 247—DISCONTINUANCE OF POST OFFICE

4. New Part 247 is added as follows:

Subpart A—Introduction

Sec.
247.1 Coverage.
247.2 Requirements of law.
247.3 Additional requirements of this part.

Subpart B—Policy on Preservation of the Community Address

247.4 General
247.5 Assignment of ZIP Code.
247.6 Post office name in address.
247.7 Name of facility established by consolidation.
247.8 Listing of discontinued post office.

Subpart C—Initial Investigation and Proposal by Local Management

247.9 General).
247.10 Consolidation.
247.11 Consultation with postmasters of affected offices.
247.12 Preparation of written Proposal to Discontinue Post Office.

Subpart D—Notice, Public Comment, and Administrative Record

247.13 Posting and availability of proposal and comment form.
247.14 Other steps.
247.15 Administrative record.

Subpart E—Consideration of Public Comment and Final Local Recommendation

247.16 Analysis of comments.
247.17 Evaluation of proposal in light of comments.

Subpart F—Final Determination

247.18 Standard of review.
247.19 Review by district and regional management.

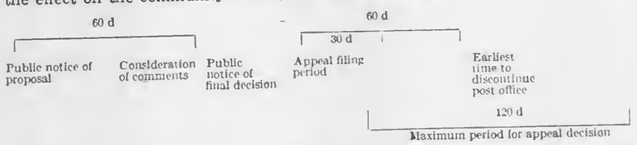
Subpart G—Notice and Implementation of Final Determination

Sec.
247.21 Notice of final determination to discontinue post office.
247.22 Implementation of determinations not appealed.
247.23 Actions during appeal.
247.24 Actions following appeal decision.

AUTHORITY: 39 U.S.C. 101(b), 401, 403(b), 404.

Subpart A—Introduction



§ 247.1 Coverage.

This part establishes the rules which govern the Postal Service's consideration of whether an existing post office should be discontinued. The rules cover any proposal to replace a post office with a community post office, station, or branch through consolidation with another post office, as well as any proposal to discontinue a post office without providing a replacement facility.

§ 247.2 Requirements of law.

By law 39 U.S.C. 404(b)), any decision to discontinue a post office must be based on certain specific criteria. These include the effect on the community served, the effect on employees, the maintenance of effective and regular services, and the economic savings. In addition, certain mandatory procedures apply. These include providing 60 days' public notice of a proposed action in order to enable the public to evaluate the proposal and provide comments. In addition, any final determination to close an office, after public comments are received and taken into account, must be made in writing and must include findings covering all of the required considerations. The written determination must be made available to the affected customers at least 60 days before the discontinuance takes effect. Within the first 30 days after the written determination is made available, any customer served by the affected post office may appeal the decision to the Postal Rate Commission. The Commission is required by 39 U.S.C. 404(b)(5) to make a determination on the appeal no later than 120 days after receiving the appeal. (See Subpart H of Part 3001 of this title.)

A summary table of the notice and appeal periods under the statute or these regulations follows:

§ 247.3 Additional requirements of this part.

Subpart B of this part establishes specific rules designed to assure that the community's identity as a postal address will be preserved. Subparts C through F of this part provide step by step rules for consideration of a proposed discontinuance and for its implementation if approved. These rules are designed to assure that the reasons which lead postal managers to propose the discontinuance of a particular post office are fully articulated and disclosed at a stage that will enable customer participation to make a helpful contribution toward the final decision.

Subpart B—Policy on Preservation of the Community Address

§ 247.4 General.

One of the most significant contributions that post offices traditionally have provided toward maintaining the identity of small communities has been the maintenance of a common mailing address using the name of the community. In order to avoid or mitigate any negative effect on the continuing identity of a community as a result of the discontinuance of its post office, it is the policy of the Postal Service to maintain the community's separate address to the maximum practical extent, in accordance with this subpart.

§ 247.5 ZIP Code.

The ZIP Code for each address formerly served from the discontinued post office shall be the ZIP Code of the facility providing replacement service to that address. In the case of a consolidation, the ZIP Code provided for the replacement community post office, station, or branch shall be either the ZIP Code originally assigned to the discontinued post office or the ZIP Code of the replacement facility's parent post office, whichever will provide the most expeditious distribution and delivery of mail addressed to the customers of the replacement facility. If the parent post office is a multi-ZIP Code office, the ZIP Code shall be that of the delivery area within which the facility is located.

§ 247.6 Post office name in address.

If all of the delivery addresses using the name of the post office to be discontinued are assigned the same ZIP Code, each customer may continue to use the name of the discontinued post office in his address, instead of changing to the name of the post office from which delivery is provided after the discontinuance.

§ 247.7 Name of facility established by consolidation.

If a post office to be discontinued is to be consolidated with one or more other post offices, by establishing in the place of the discontinued post office a community post office or classified or contract station or branch affiliated with another post office involved in the consolidation, the name of the community post office or classified or contract station or branch shall be the same as the name of the discontinued post office.

§ 247.8 Listing of discontinued post office.

The names of all post offices discontinued after March 14, 1977, shall be listed in an appropriate manner in Publication 26, the Directory of Post Offices, and in Publication 65, the National ZIP Code Directory, for mailing address purposes only. The ZIP Code or ZIP Codes listed for the discontinued office shall be the ZIP Code or ZIP Codes assigned in accordance with § 247.5.

Subpart C—Initial Investigation and Proposal by Local Management

§ 247.9 General.

If a Sectional Center Manager believes that the discontinuance of a post office within his responsibility may be warranted, he may investigate, and if found appropriate, may propose that it be discontinued, applying the standards and following the procedures of this subpart and Subpart D of this part.

§ 247.10 Consolidation.

If the communities served by two or more post offices are being merged into a single incorporated village, town, or city, or if providing a replacement facility is necessary to maintain regular and effective service to the area served by the post office being considered for discontinuance, the proposed action may include a consolidation of post offices to substitute a community post office or a classified or contract station or branch for the discontinued post office.

§ 247.11 Consultation with postmasters of affected offices.

Whether the discontinuance under consideration involves a consolidation or not, the Sectional Center Manager shall consult with the postmaster (or the officer-in-charge if there is a vacancy in the postmaster's position) of the post office being considered for discontinuance, together with the postmaster (or officer-in-charge) of any other post office that would be affected by the change. In addition, the Sectional Center Manager shall encourage these postmasters (or officers-in-charge) to submit their comments and suggestions in writing to be made part of the record for further consideration and review of the proposal.

§ 247.12 Preparation of written Proposal to Discontinue Post Office.

The Sectional Center Manager shall gather all relevant documentation to enable him to decide whether or not the proposed change is justified. Based on this documentation, if the change appears warranted, he shall prepare a written description entitled "Proposal to Discontinue Post Office," which shall provide a description and analysis of the proposal that is sufficient to disclose both to higher management and to the affected community the nature of the changes in service being proposed and the reasons why those changes are justified. The written description must ad-

dress each of the following matters in separate sections:

(a) *Responsiveness to community postal needs.* Whether or not it is proposed to consolidate the affected post office with another post office by establishing a replacement facility, the residents of the community must receive a maximum degree of regular and effective service. The Proposal should contrast the services available before and after the proposed change, should describe how the changes respond to the postal needs of the community, and should highlight any particular aspects of service which might be less advantageous to the persons served as well as those which would be more advantageous.

(b) *General effect on community.* The Proposal must include an analysis of the effect which the proposed discontinuance might have on the general character of the community. The application of the requirements of §§ 247.4 through 247.8 must be discussed and taken into account.

(c) *Effect on employees.* In preparing the Proposal, the Sectional Center Manager shall determine what actions he proposes to comply with the applicable Regional Instructions relating to personnel actions to be taken in connection with the discontinuance and consolidation of post offices. The written Proposal must include a summary of the contemplated effect of the proposed action on the postmaster and any supervisors and other employees of the post office proposed for discontinuance.

(d) *Economic savings.* The Proposal must include an analysis of the economic savings to be gained from the proposed action, including the cost or savings expected from each of the major factors contributing to the overall estimate.

(e) *Other factors.* The Proposal should include an analysis of any other factors that the Sectional Center Manager considers relevant to the need for the proposed change, to be weighed in favor or to be weighed against the proposed action.

(f) *Summary.* The Proposal must include a summary that explains why the proposed action is needed, including an assessment of how the factors supporting the need for the proposed change outweigh any negative factors. In taking competing considerations into account, the need to provide regular and effective service shall be paramount.

(g) *Notices.* The Proposal must include the following notices:

(1) *"Supporting materials.* Copies of all unpublished materials upon which this proposal is based are available for public inspection at the post office during normal office hours."

(2) *"Appeal rights.* A final determination to discontinue this post office may be appealed by any person served by the office to the Postal Rate Commission at 2000 L Street NW., Washington, D.C. 20268, within 30 days after the final written determination is made available to the public."

Subpart D—Notice, Public Comment, and Administrative Record

§ 247.13 Posting and availability of proposal and comment form.

A copy of the Proposal to Discontinue Post Office, together with a signed Invitation for Comments, shall be prominently posted in each post office that would be affected. The Invitation for Comments shall include a request that interested persons provide written comments within 06 days, to a stated address, offering specific opinions and information, favorable or unfavorable, regarding the potential effect of the proposed change on postal services or on the community generally. It shall also indicate that copies of the proposal with attached optional comment forms (see Appendix) are available upon request in the affected post offices and shall provide a name and telephone number to call for further information and questions.

§ 247.14 Other steps.

In addition to providing notice and inviting comment, the Sectional Center Manager should take any other steps that seem needed to make sure that the community understands the nature and implications of the proposed action, such as meeting with community groups and following up on comments received which which seem to be based on incorrect assumptions or information. If oral contacts develop views or information not previously documented, whether favorable or unfavorable to the proposal, he should encourage the person offering the views or information to provide written comments, in order to preserve them for the record.

§ 247.15 Administrative record.

The Sectional Center Manager shall maintain as part of the record for his consideration and for review by higher management all of the unpublished documentation he has gathered concerning the need for the proposed change. The proposal shall be assigned a docket number, which he shall obtain by calling the Regional Director, Customer Services, in his Region. The record shall include a chronological index in which each document contained in the record is identified and numbered as filed. As written communications are received in response to the public notice and invitation for comments, they shall be included in the record. The Sectional Center Manager shall assure that a complete up-to-date copy of the record is available for public inspection during normal office hours at the post office proposed for discontinuance, beginning no later than the date upon which notice is posted under § 247.13, and extending through the comment period. Copies of documents in the record shall be provided upon request and (except for the Proposal and comment form) payment of fees prescribed by § 265.8.

Subpart E—Consideration of Public Comment and Final Local Recommendation

§ 247.16 Analysis of comments.

After waiting not less than 60 days after notice has been posted in accordance with § 247.13, the Sectional Center Manager shall prepare an analysis of the public comments received. Comments subsequently received should also be included in the analysis if possible. The analysis should list and briefly describe each of the points made favorable to the proposal and each of the points made unfavorable to the proposal, and should identify how many comments supported each point listed. It should also identify any points which seem to be irrelevant or based on a misunderstanding of what has been proposed.

§ 247.17 Evaluation of proposal in light of comments.

Upon completion of the analysis, the Sectional Center Manager shall review the Proposal to Discontinue Post Office and re-evaluate all of the tentative conclusions previously made in light of the additional information and public views received.

(a) *Discontinuance not warranted.* If the Sectional Center Manager decides not to proceed with the proposed discontinuance, he shall post, in the post office considered for discontinuance, a notice that the proposed discontinuance has been determined not to be warranted.

(b) *Discontinuance warranted.* If the Sectional Center Manager decides that the proposed discontinuance is justified, he shall revise the appropriate sections of the Proposal to Discontinue Post Office to take into account the comments received from the public. Upon completing the necessary revisions, he shall forward the revised proposal together with the entire record through his District Manager and Regional Postmaster General to the Senior Assistant Postmaster General, Operations Group, for final review. The documents (including customer comments) in the record sent forward must be the originals or certified copies.

Subpart F—Final Determination

§ 247.18 Standard of review.

The District Manager, Regional Postmaster General, and Senior Assistant Postmaster General each shall conduct his review under this subpart on the basis of the administrative record developed by the Sectional Center Manager. The decision of each reviewing authority shall be fully supported in the record. As necessary, each reviewing authority may provide instructions to the Sectional Center Manager, through appropriate channels, to supplement the record.

§ 247.19 Review by district and regional management.

The District Manager shall review the revised Proposal to Discontinue Post Office and may approve it, with or without making revisions, and send it forward with the record to his Regional Postmaster General, or may disapprove it and return it with the record to the Sectional Center Manager with his reasons for disapproval. If the Proposal is returned disapproved, the Sectional Center Manager shall post a notice, in the post office considered for discontinuance, that the proposed discontinuance has been determined not to be warranted. If the District Manager sends it forward, the Regional Postmaster General may approve it, with or without making revisions, and send it forward to the Senior Assistant Postmaster General, Operations Group, or may disapprove it and return it with the record and with his reasons for disapproval, through the District Manager to the Sectional Center Manager for posting of the required notice.

§ 247.20 Final determination by Senior Asssitant Postmaster General, Operations Group.

The Senior Assistant Postmaster General, Operations Group, may approve a revised Proposal forwarded for his review, with or without making further revisions, or may disapprove it and return it with the record and with his reasons for disapproval, through the Regional Postmaster General and the District Manager to the Sectional Center Manager for posting of the notice required in § 247.19. If he approves it, the Proposal (with revisions) shall be retitled the "Determination to Discontinue Post Office", shall be signed by him, and shall constitute the determination and findings of the Postal Service for purposes of 39 U.S.C. 404(b). He shall return a copy through the Regional Postmaster General and the District Manager to the Sectional Center Manager and shall forward a copy with a copy of the record to be placed on public file as provided in § 265.6(a)(2).

Subpart G—Notice and Implementation of Final Determination

§ 247.21 Notice of final determination to discontinue post office.

The Sectional Center Manager shall provide notice of the Determination to Discontinue Post Office by having a copy prominently posted in the affected post office or offices. The date of posting shall be noted on the first page of the posted copy.

§ 247.22 Implementation of determinations not appealed.

If no appeal is filed pursuant to 39 U.S.C. 404(b)(5), the Sectional Center Manager may schedule an appropriate date for implementing the approved discontinuance. However, the post office may not be discontinued sooner than 60 days after the notice required by § 247.21 has been posted.

§ 247.23 Actions during appeal.

(a) *Implementation of discontinuance.* If an appeal is filed, the affected post office may be discontinued, without waiting for final disposition of the appeal, unless otherwise directed by the Senior Assistant Postmaster General, Operations Group, or unless otherwise ordered by the Postal Rate Commission in accordance with law. However, the post office may not be discontinued sooner than 60 days after the notice required by § 247.21 has been posted.

(b) *Display of appeal documents.* The Regional Counsel shall provide the Sectional Center Manager with copies of the Postal Rate Commission's service list and all pleadings, notices, orders, briefs, and opinions filed in the appeal proceeding. The Sectional Center Manager shall assure that a copy of each of these documents is prominently displayed and made available for reading by the public in the post office to be discontinued, or if it has been or is discontinued, in the post office or post offices serving the customers affected. All documents except the Commission's final order and opinion must be displayed until the final order and opinion are issued. The final order and opinion must be displayed for a period of 30 days.

§ 247.24 Actions following appeal decision.

(a) *Determination affirmed.* If the Commission dismisses the appeal or affirms the Postal Service's determination, the Sectional Center Manager may schedule an appropriate date for implementing the approved discontinuance if not previously implemented. However, the post office may not be discontinued sooner than 60 days after the notice required under § 247.21 has been posted.

(b) *Determination returned for further consideration.* If the Commission returns the matter for further consideration, the Senior Postmaster General, Operations Group shall direct either that notice be provided in accordance with § 247.19 that the proposed discontinuance has been determined not to be warranted, or shall direct that the matter be returned to an appropriate stage under these regulations for further consideration according to such instructions as he may provide.

(APPENDIX—PART 245)

UNITED STATES POSTAL SERVICE

DEAR POSTAL CUSTOMER: Attached is a description of a proposal which we are considering to attempt to provide your community's postal service more efficiently and economically, while also providing regular and effective service. Please read the proposal carefully and then let us have your comments and suggestions on the form provided below. Your comments will be carefully considered and will be made a part of a public record. If additional room is required, please attach additional sheets of paper as needed. Return the completed form to_____ by _____.

In considering this proposal, if you have any questions you want to talk about with a postal official, you may call _____ whose telephone number is _____

I. *Effect on Your Postal Service*

Please describe any favorable or unfavorable effects which you believe the proposal would have on the regularity or effectiveness of your postal service.

PART 248—SUSPENSION OF POST OFFICE OPERATIONS

5. New Part 248 is added as follows:

§ 248.1 Emergency suspension.

In emergencies, when it is absolutely necessary to suspend operations of a post office without a full review and evaluation, as in the case of a natural disaster or in the termination of a lease when alternative quarters are not quickly available, the Sectional Center Manager, through the District Manager and the Regional Postmaster General, shall notify the Senior Assistant Postmaster General, Operations Group, by telephone or TWX, of the action taken. In such cases, operations must be restored as soon as possible and the post office may not be discontinued except in full compliance with Part 247 of this chapter.

(39 U.S.C. 401)

PART 265—RELEASE OF INFORMATION

§ 265.2 [Amended]

4. Paragraph (a)(2) of § 265.6 is amended by inserting immediately after "Board of Contract Appeals," the fol-

lowing: "all determinations pursuant to § 245.20 of Title 39, Code of Federal Regulations, to close a post office, together with supporting record,".

An appropriate amendment to title 39, CFR to reflect this change will be published if the proposal is adopted.

(39 U.S.C. 101(b), 401, 403(b), 404)

LOUIS A. COX,
General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 21363; RM-2891]

FM BROADCAST STATION IN COLUMBIA, LA.

Proposed Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rule making.

SUMMARY: Action herein proposes the assignment of a first Class A FM channel to Columbia, La. Petitioner, KCTO Broadcasting Co., states the proposed channel will provide Columbia with its first FM broadcast service.

DATES: Comments must be received on or before October 3, 1977, and reply comments must be received on or before October 25, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau (202-632-7792).

SUPPLEMENTARY INFORMATION:

Adopted: August 16, 1977.

Released: August 22, 1977.

In the matter of Amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Columbia, La.). Docket No. 21363T RM-2891.

1. *Petitioner, proposal and comments.* (a) Petition for rulemaking filed[1] by KCTO Broadcasting Co. ("KCTO"), licensee of daytime-only AM Station KCTO, Columbia, La., proposing the assignment of Channel 276A to Columbia, La., as a first FM assignment to the community. No oppositions to the petition were received.

(b) Channel 276A could be assigned to Columbia without affecting any existing FM assignments, provided the transmitter is located 8.8 kilometers (5.5 miles) west of the community. From such a location, petitioner states, it would be possible to provide the requisite signal level over Columbia.

(c) KCTO states that it will promptly file an application for the channel, if assigned.

2. *Community Data*—(a) *Location.* Columbia, seat of Caldwell Parish, is located approximately 47 kilometers (29 miles) south of Monroe, La.

(b) *Population.* Columbia—1,000; Caldwell Parish—9,354.[2]

(c) *Local Broadcast Service.* Columbia has a daytime—only station, licensed to petitioner.

3. *Economic data.* KCTO states that Columbia is governed by a mayor and city council. The parish derives its income from farming, logging and pulp operations. KCTO also submitted information with respect to education, churches and civic organizations. It has no daily newspaper.

4. In view of the apparent need for a first full-time local broadcast service in Columbia, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules, with regard to Columbia, La., as follows:

City	Channel No.	
	Present	Proposed
Columbia, La.		276A

5. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained below and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 below before a channel will be assigned.

6. Interested parties may file comments on or before October 3, 1977, and reply comments on or before October 25, 1977.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, It is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and Regulations, as set forth in this Notice of Proposed Rule Making.

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of § 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

[Docket No. 21362; RM-2881]

FM BROADCAST STATION, IN LOUISA, VIRGINIA

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rule making.

SUMMARY: Action herein proposes the assignment of a first Class A FM channel to Louisa, Va. Petitioner, Louisa County Broadcasting Co., states that the proposed channel will provide Louisa with its first FM broadcast service.

DATES: Comments must be received by October 3, 1977, and reply comments must be received by October 25, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Louisa, Virginia), Docket No. 21362, RM-2881.

Adopted: August 16, 1977.

Released: August 22, 1977.

1. *Petition, proposal and comments.* (a) Petition for rulemaking,[1] filed April 27, 1977, by Louisa County Broadcasting Co. ("petitioner"), proposing the assignment of Channel 288A to Louisa, Va., as a first FM assignment to that community.

(b) The channel could be assigned in full conformity with the minimum distance separation requirements. There were no oppositions to the proposal.

(c) Petitioner states that, if the channel is asigned, it would file an application to construct a station.

2. *Community data*—(a) *Location.* Louisa, seat of Louisa County, is located approximately 80 kilometers (50 miles) southeast of Richmond, Va., and 40 kilometers (25 miles) west of Charlottesville, Va.

(b) *Population.* Louisa—633; Louisa County—14,004.[2]

(c) *Local Broadcast Service.* There is no local broadcast service in Louisa or Louisa County.

3. *Economic Data.* Petitioner states that Louisa County's economy is based on farming, agriculture and timber production. In support of its proposal, petitioner has submitted population and demographic data and a profile of the local economy. It adds that the proposed station would provide for a first local radio service to Louisa and Louisa County.

4. In view of the apparent need for a local broadcast service in Louisa and Louisa County, we believe that consideration of the proposed FM assignment in a rulemaking proceeding would be in the public interest.

5. Accordingly, it is proposed to amend the FM Table of Assignments, § 73.202 (b) of the Commission's rules, with regard to Louisa, Va., as follows:

City	Channel No.	
	Present	Proposed
Louisa, Va.		288A

6. Authority to institute rule making proceedings, showings required; cut-off procedures; and filing requirements are contained below and are incorporated herein.

[1] Public Notice of the filing of the petition was given on May 9, 1977 (Report No. 1044).

[2] Population figures are taken from the 1970 U.S. Census.

NOTE.—A showing of continuing interest is required by paragraph 2 below before a channel will be assigned.

7. Interested parties may file comments on or before October 3, 1977, and reply comments on or before October 25, 1977.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules. It is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in this *notice of proposed rulemaking.*

2. *Showings required.* Comments are invited on the proposal(s) discussed in this notice of proposed rulemaking. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rulemaking which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in this notice of proposed rulemaking. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's rules and regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 1241 and 1249]

MOTOR CARRIERS OF PASSENGERS AND PROPERTY

Depreciation Policy Disclosure

AGENCY: Interstate Commerce Commission.

ACTION: Advance Notice of Proposed Rulemaking.

SUMMARY: The Bureau of Accounts is considering a revision of reporting requirements for motor carriers of passengers and property. The revision would require disclosure of depreciation policies for several major categories of assets. Our objective is to provide users of financial statements with increased comparability among the reports of different carriers. To further our research, we are requesting comments and suggestions on the proposed disclosures described below. *This discussion is intended solely for comment and does not order changes to the reporting regulations.*

DATE: Comments by September 30, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Ronald Young, Chief, Section of Accounting, Interstate Commerce Commission, Washington, D.C. 20423, Phone No.: 202-275-7448.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The Commission does not presently prescribe depreciation rates for motor carriers, yet depreciation expense can have a significant impact on net income. Thus, we believe motor carriers should be required to disclose depreciation policy in their annual reports. Such disclosure would facilitate general comparison of carriers' financial statements as well as an evaluation of the impact of different depreciation policies on carrier financial statements.

RECOMMENDED DISCLOSURE

We believe motor carriers with $10 million or more of gross operating revenues should disclose their depreciation policies for these major categories of

[1] Public Notice of the filing of the petition was given on May 24, 1977 (Report No. 1048).

[2] Population figures are taken from the 1970 U.S. Census.

V 42 164 AUG 24 77 UM

assets: (1) Structures, (2) Revenue Equipment, and (3) Service Cars and Equipment.

The proposed disclosures would include:

(1) Book cost,
(2) Service life (and how determined),
(3) Net salvage value (and how determined),
(4) A statement as to consistency of application of depreciation policies, and
(5) Percentage of fully depreciated assets in service (which would indicate the reasonableness of depreciation policy).

These disclosures would be included in explanatory notes to annual report schedules.

Issued at Washington, D.C., August 16, 1977.

JOHN A. GRADY,
Director, Bureau of Accounts.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

BUCK CREEK SPECIAL USE ROAD APPLICATION

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a Final Environmental Statement for the Buck Creek Special Use Road Application, Forest Service report number USDA-FS-FES(Adm)R1(11)76-24.

The environmental statement concerns alternatives for road access to Burlington Northern Inc. lands in the Buck Creek and Yellow Mule drainages of the Gallatin National Forest. Approximately 3.4 miles of road will be built across National Forest land to access private lands situated in a checkerboard onwership pattern in Gallatin and Madison Counties, Montana.

This final environmental statement was transmitted to CEQ on August 19, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA Forest Service, South Agriculture Bldg., Rm. 3210, 12th Street and Independence Avenue SW., Washington, D.C. 20013.
USDA Forest Service, Northern Region, Federal Building, Missoula, Mont. 59807.
USDA Forest Service, Gallatin National Forest, Federal Building, Bozeman, Mont. 59715.
USDA Forest Service, Bozeman Ranger District, 234 E. Babcock, Suite D, Bozeman, Mont. 59715.

A limited number of single copies are available upon request to the Forest Supervisor, Gallatin National Forest, P.O. Box 130, Bozeman, Mont. 59715.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

R. MAX PETERSON,
Deputy Chief.

AUGUST 19, 1977.

COMMISSION ON CIVIL RIGHTS

AGE DISCRIMINATION

Hearing

Notice is hereby given pursuant to the provisions of the Civil Rights Act of 1957, as amended, 42 U.S.C. § 1975 et seq. (1976), that the U.S. Commission on Civil Rights will hold a public hearing dealing specifically with the provisions of the Age Discrimination Act of 1975, enacted as part of the Older Americans Amendments of 1975, 42 U.S.C. § 6101 et seq. (1976). The hearings will be held on September 26, 27, and 28, 1977 in the Loy Henderson Conference Room (No. 1309A) at the Department of State, 2201 C Street NW., Washington, D.C. An Executive Session, if appropriate, will be convened on September 26, at the same location as the hearing.

The Commission has been conducting an extensive study of age discrimination in federally assisted programs with emphasis on the following programs and activities: Comprehensive Employment and Training Act Public Service Employment Programs; Community Mental Health Centers; Community Health Centers; Vocational Rehabilitation; Legal Services; Title XX of the Social Security Act; Food Stamps; Medicaid; admissions and financial aid policies and procedures of institutions of higher education; and elementary and secondary education including Adult Basic Education, and Vocational Education.

This represents the last in a series of four public hearings held by the Commission on the issue of age discrimination. The first three were conducted in San Francisco, California; Denver, Colorado; and Miami, Florida.

The purpose of these hearings has been to elicit the views of interested parties, including Federal departments and agencies, on issues relating to age discrimination in programs and activities receiving Federal financial assistance and particularly with respect to the reasonableness of distinguishing on the basis of age among potential participants in, or beneficiaries of, specific federally assisted programs.

The Washington, D.C. hearing is intended specifically to obtain the views of officials from Federal agencies administering programs covered by the Age Discrimination Act, and from national organizations working in areas relevant to the problem of age discrimination, on issues identified in the study and the three previous hearings; on the projected effects of the Act on current program policy and operations; on how the agencies of the Federal Government can effectively implement the intent and provisions of the Act; and on any issues or problems which may arise in light of the current provisions of the Act.

Further information on the hearing may be obtained by contacting Ms. Eileen Bradley, Age Discrimination Study, U.S. Commission on Civil Rights, 1730 K Street NW., Suite 214, Washington, D.C. 20006, 202-634-7138.

Dated at Washigton, D.C., August 18, 1977.

ARTHUR S. FLEMMING,
Chairman.

DEPARTMENT OF COMMERCE

Bureau of the Census

SPECIAL CENSUSES

The Bureau of the Census conducts a program whereby a local or State government can contract with the Bureau to conduct a special census of population. The content of a special census is ordinarily limited to questions on household relationship, age, race, and sex, although additional items may be included at the request and expense of the sponsor. The enumeration in a special census is conducted under the same concepts which govern the decennial census.

Summary results of special censuses are published semiannually in the Current Population Reports—Series P-28, prepared by the Bureau of the Census. For each area which has a special census population of 50,000 or more, a separate publication showing data for that area by age, race, and sex is prepared. If the area has census tracts, these data are shown by tracts.

The data shown in the following table are the results of special censuses conducted since December 31, 1976, for which tabulations were completed between July 1, 1977, and July 31, 1977.

Dated: August 18, 1977.

MANUEL D. PLOTKIN,
Director, Bureau of the Census.

Domestic and International Business Administration

COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. V, 1975), notice is hereby given that a meeting of the Computer Systems Technical Advisory Committee will be held on Thursday, September 8, 1977, at 1:00 pm. in Room 3708, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974 and January 13, 1977, the Assistant Secretary for Administration approved the recharter and extension of the Committee, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production and technology, (C) licensing procedures which may affect the level of export controls applicable to computer systems, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Committee meeting agenda has four parts:

GENERAL SESSION

(1) Opening remarks by the Chairman.

(2) Presentation of papers or comments by the public.

(3) Review of Licensing Procedures Subcommittee recommendations for the clarification and simplification of the Export Administration Regulations.

EXECUTIVE SESSION

(4) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegates of the General Counsel, formally determined on January 27, 1977, pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended by Section 5(c) of the Government In The Sunshine Act, P.L. 94-409, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under Executive Order 11652. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3012, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Divisions, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone A/C 202-377-4196.

The complete Notice of Determination to close portions of the series of meetings of the Computer Systems Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on February 2, 1977 (42 FR 6374).

Dated: August 18, 1977.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, United States Department of Commerce.

National Oceanic and Atmospheric Administration

PACIFIC FISHERY MANAGEMENT COUNCIL AND ITS SCIENTIFIC AND STATISTICAL COMMITTEE

Partially Closed Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C., Appendix I, notice is hereby given of a joint meeting of the Pacific Fishery Management Council, and its Scientific and Statistical Committee.

The Pacific Council established by Section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265) has authority, effective March 1, 1977, over fisheries within the fishery conservation zone off the coasts of California, Oregon, and Washington. The Council will, among other things, prepare and submit to the Secretary of Commerce fishery management plans with respect to the fisheries within its area of authority, prepare comments on applications for foreign fishing, and conduct public hearings.

The Council has established a Scientific and Statistical Committee under Section 302(g) of the Act, to assist the Council in the development and amendment of fishery management plans.

The meetings will be Wednesday, Thursday, and Friday, September 14-16, 1977, at the Cosmopolitan Motor Hotel, located at 1030 Northeast Union, Portland, Oregon 97232.

The Scientific and Statistical Committee will meet in the Hall of Fame Room at 1 p.m. and adjourn about 5 p.m. on September 14, 1977. The Committee will tentatively reconvene, dependent upon Council developments, at 8 am. and adjourn about 5 p.m. on September 15, 1977.

PROPOSED AGENDA

1. Consideration of development of fishery management plans, including the salmon fishery management plan for 1978.

2. Organization of the Council, including fishery advisory panels and management development teams, and operational and procedural matters.

3. Other Committee Business.

This meeting will be open to the public and there will be seating for approximately 30 members of the public, on a first-come, first-served basis.

The Pacific Fishery Management Council will convene in the Capri/Del Rio Room at 8 a.m. and adjourn about 5 p.m. on September 15, 1977, and reconvene at 10 a.m. and adjourn about 5 p.m. on September 16, 1977.

PROPOSED AGENDA

SEPTEMBER 15

1. Organization of the Council, including its staff, advisory panels, and committees, and operational and procedural matters.

2. Consideration of a first draft of the salmon fishery management plan for 1978.

3. Consideration of a report from Council's Subcommittee on Coordination with North Pacific Council.

4. Consideration of a report from Council's Subcommittee on Charters.

SEPTEMBER 16

1. Closed Session to discuss classified material on preparations for and actual negotiations in connection with the International North Pacific Fisheries Commission (INPFC), the International Pacific Halibut Commission (IPHC) and continuing negotiations with the Canadians. (Council only.)

2. Review of communications from other agencies and organizations.

3. Budget and administrative matters.

4. Other Council Business.

A closed session of the Council is planned for the early morning of the last day, September 16, from 8:00 a.m. through 10:00 a.m. to hear Department of State reports and other related Council business on preparations for and actual negotiations in connection with the International North Pacific Fisheries Commission, the International Pacific Halibut Commission, and continuing negotiations with the Canadians, properly classified under Executive Order 11652. Only those Council members having security clearances will be allowed to attend this closed session. The Scientific and Statistical Committee will not attend this session.

After the closed meeting adjourns, a public hearing will be held on September 16, at approximately 10 a.m., at the same location. Interested members of the public are invited to testify at this hearing on matters relating to fishery management plans under development by the Council and other related Council functions.

The Assistant Secretary for Administration, with the concurrence of the General Counsel, formally determined, on August 18, 1977, pursuant to Section 10(d) of the Federal Advisory Committee Act, that the agenda items covered in executive session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because these items will be concerned with matters listed in 5 U.S.C. 552b(c)(1), i.e., it is specifically required by E.O. 11652 that they be kept secret in the interest of national security. (A copy of the determination is available for public inspection and copying.)

The meeting will be open to the public (except the closed session of the Council) and there will be seating for approximately 100 members of the public available on a first-come, first-served basis.

Members of the public having an interest in specific items for discussion are also advised that agenda changes are, at times, made prior to the meetings. To receive information on changes, if any, made to the agenda, interested members of the public should contact on or about September 6, 1977:

Mr. Lorry M. Nakatsu, Executive Director, Pacific Fishery Management Council, 526 S.W. Mill Street, Second Floor, Portland, Oregon 97201, (503) 221-6352.

At the discretion of the Council and its Committee, interested members of the public may be permitted to speak at times which will allow the orderly conduct of Council business. Interested members of the public who wish to submit written comments should do so by addressing Mr. Lorry M. Nakatsu at the above address. The public is permitted to file written statements at any time before or after the meeting. However, to receive due consideration and facilitate inclusion in the record of the meeting, typewritten statements which relate to the agenda items should be received no later than ten (10) days after the close of the joint meeting.

Dated: August 19, 1977.

WINFRED H. MEIBOHM,
Associate Director, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

TAKING OF MARINE MAMMALS INCIDENTAL TO TUNA PURSE SEINING OPERATIONS

DEIS Correction Notice

A draft environmental impact statement (DEIS) was submitted to the Council on Environmental Quality on August 12, 1977, by the National Marine Fisheries Service concerning the promulgation of regulations and proposed issuance of permits to commercial fishermen allowing the taking of marine mammals in the course of yellowfin tuna purse seining operations from 1978 through 1980. It has come to our attention that the charts comprising Figures 3, 4, and 5 (pages 32, 34, and 36 respectively) of the DEIS, which depict the known ranges of the major porpoise stocks and species involved, are incorrect. The charts published in the DEIS are working drafts which include unsubstantiated porpoise sighting data. The population estimates published in the proposed 1978 to 1980 regulations (42 FR 37217-37224) were not based on the porpoise stocks distributions shown in the published DEIS figures, rather they were based on the confirmed porpoise stock distributions published in the "Report of the Workshop on Stock Assessment of Porpoises Involved in the Eastern Pacific Yellowfin

Tuna Fishery" (SWFC Admin. Report No. LJ-76-29). The recent increase in the estimate of the whitebelly spinner stock size was based on late-1976 sighting data from within the range established by the workshop.

The corrected DEIS Figures 3, 4, and 5 have been forwarded to CEQ and to all individuals who received the original DEIS. All questions concerning these corrections should be directed to:

William P. Jensen, Marine Mammal Program Manager, National Marine Fisheries Service, 3300 Whitehaven Street NW., Washington, D.C. 20235; Telephone 202-634-7461.

Dated: August 19, 1977.

WINFRED H. MEIBOHM,
Acting Deputy Director, National Marine Fisheries Service.

FEDERAL COMMUNICATIONS COMMISSION

FM AND TV TRANSLATOR APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Adopted: August 16, 1977.

Released: August 19, 1977.

Notice is hereby given pursuant to Sections 1.572(c) and 1.573(d) of the Commission's Rules, that on October 14, 1977, the TV and FM translator applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to Section 1.227 (b)(1) and Section 1.519(b) of the Commission's Rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on October 13, 1977, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and submitted for filing at the offices of the Commission in Washington, D.C., by the close of business on October 13, 1977.

The attention of any party in interest desiring to file pleadings concerning any pending TV and FM translator application, pursuant to Section 309(d)(1) of the Communications Act of 1934, as amended, is directed to Section 1.580(i) of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

BPTTV-5852 (K10HE), Buford and Upper White River Rural Area, Colorado, Rio Blanco County TV Association. Req: Increase output power to 10 watts, change primary TV station to KOA-TV, Channel 4, Denver, Colorado.

BPTTV-5854 (new), Salida and Buena Vista, Colorado, Chaffee County TV Translator Association. Req: Channel 4, 66-72 MHz, 10 watts. Primary: KWGN-TV, Denver, Colorado.

BPTTV-5855 (new), McDermitt, Nevada, Quinn River Television Maintenance District. Req: Channel 12, 204-210 MHz, 1 watt. Primary: KOLO-TV, Reno, Nevada.

BPTTV-5856 (new), Aromas, California, Monterey County Supt., of Schools. Req: Channel 13, 210-216 MHz, 1 watt. Primary: KQED-TV, San Francisco, California.

BPTTV-5857 (new), Tununak, Alaska, Bethel Broadcasting, Inc. Req: Channel 2, 54-60 MHz, 10 watts. Primary: KYUK-TV, Bethel, Alaska.

BPTTV-5858 (new), Kwiguk, Alaska, Bethel Broadcasting, Inc. Req: Channel 2, 54-60 MHz, 10 watts. Primary: KYUK-TV, Bethel, Alaska.

BPTTV-5859 (new), Kotlik, Alaska, Bethel Broadcasting, Inc. Req: Channel 7, 174-180 MHz, 1 watt. Primary: KYUK-TV, Bethel, Alaska.

BPTTV-5860 (new), Alukanuk, Alaska, Bethel Broadcasting, Inc. Req: Channel 10, 192-198 MHz, 10 watts. Primary: KYUK-TV, Bethel, Alaska.

BPTTV-5861 (new), Relay to Alukanuk, Kwiguk & Kotlik, Alaska, Bethel Broadcasting, Inc. Req: Channel 13, 210-216 MHz, 5 watts. Primary: KYUK-TV, Bethel, Alaska.

BPTT-2948 (new), Hugo, Oklahoma, Oklahoma Educational Television Authority. Req: Channel 15, 476-482 MHz, 1,000 watts. Primary: KETA-TV, Eufaula, Oklahoma.

BPTT-2949 (new), Idabel, Oklahoma, Oklahoma Educational Television Authority. Req: Channel 63, 764-770 MHz, 100 watts. Primary: KETA-TV, Eufaula, Oklahoma.

BPTT-3223 (new), Falls City, Nebraska, Nebraska Educational Television Commission. Req: Channel 24, 530-536 MHz, 1,000 watts. Primary: KUON-TV, Lincoln, Nebraska.

BPTT-3285 (new), Mullin, Texas, Pompey Mountain Broadcasting, Inc. Req: Channel 67, 788-794 MHz, 100 watts. Primary: KTVT-TV, Fort Worth, Texas.

BPTT-3292 (new), Woodland & Kamas, Utah, Summit County. Req: Channel 48, 674-680 MHz, 100 watts. Primary: KUT—TV, Salt Lake City, Utah.

BPTT-3293 (new), Woodland & Kamas, Utah, Summit County. Req: Channel 50, 686-692 MHz, 100 watts. Primary: KTVX-TV, Salt Lake City, Utah.

BPTT-3294 (new), Woodland & Kamas, Utah, Summit County. Req: Channel 52, 698-704 MHz, 100 watts. Primary: KSL-TV, Salt Lake City, Utah.

BPTT-3295 (new), Woodland & Kamas, Utah, Summit County. Req: Channel 54, 710-716 MHz, 100 watts. Primary: KUED-TV, Salt Lake City, Utah.

BPTT-3296 (new), White River Area (East-West) & Piceance Creek Area, Colorado, Rio Blanco County TV Association. Req: Channel 57, 728-734 MHz, 100 watts. Primary: KOA-TV, Denver, Colorado.

BPTT-3297 (new), Piceance Creek Rural Area (Central), Colorado, Rio Blanco County TV Association. Req: Channel 64, 770-776 MHz, 20 Watts. Primary: KBTV-TV, Denver, Colorado.

BPTT-3298 (new), Wilson Creek & Meeker Including White River Rural Area, Colorado, Rio Blanco County TV Association. Req: Channel 66, 782-788 MHz, 100 watts. Primary: KBTV-TV, Denver, Colorado.

BPTT-3299 (new), Piceance Creek Rural Area (Central), Colorado, Rio Blanco County TV Association. Req: Channel 67, 788-794 MHz, 20 watts. Primary: KOA-TV, Denver, Colorado.

BPTT-3300 (New), White River Area (East-West) & Piceance Creek Area, Colorado, Rio Blanco County TV Association. Req: Channel 69, 800-806 MHz, 100 watts. Primary: KBTV-TV, Denver, Colorado.

BPTT-3301 (new), Bear Creek, Pennsylvania, Scranton Broadcasters, Inc. Req: Channel 63, 764-770 MHz, 100 watts. Primary: WDAU-TV, Scranton, Pennsylvania.

BPPT-3311 (new), Arrey & Derry, New Mexico, New Mexico Broadcasting, Co. (NSL). Req: Channel 67, 788-794 MHz,10 watts. Primary: KGGM-TV, Albuquerque, New Mexico.

BPTT-3151 (new), Deming, New Mexico, New Mexico Broadcasting, Co. Req: Channel 57, 728-734 MHz, 10 watts. Primary: KGGM-TV, Albuquerque, New Mexico.

The following entry appeared on the Public Notice (Mimeo No. 82462) released May 26, 1977, listing translator applications which would be considered as ready and available for processing on July 18, 1977.

BPTTV-5813 (new), Phoenix, Arizona, Bouse Booster Club, Inc. Req: Channel 4, 66-72 MHz, 1 watt. Primary: KOOL-TV, Phoenix, Arizona.

The entry is corrected to read as follows:

BPTTV-5813 (new), Bouse Arizona, Bouse Booster Club, Inc. Req: Channel 4, 66-72 MHz, 1 watt. Primary: KOOL-TV, Phoenix, Arizona.

[FR Doc.77-24455 Filed 8-23-77;8:45 am]

[Docket Nos. 21367 and 21368; File Nos. 21249-CD-P-75 and 21578-CD-P-75]

MEDICAL BUREAU, INC. AND METROTEC, INC.

Designation of Applications for Consolidated Hearing on Stated Issues; Memorandum Opinion and Order

Adopted August 15, 1977.

Released August 23, 1977.

In re application of the Medical-Dental Bureau, Inc., for a construction permit to establish a new one-way signaling station on frequency 35.22 MHz in the Domestic Public Land Mobile Radio Service at Youngstown, Ohio and Metrotec, Inc., for a construction permit for additional facilities for one-way Station KTS283 to operate on frequency 35.22 MHz in the Domestic Public Land Mobile Radio Service at Youngstown, Ohio.

1. The Commission, by the Chief of the Common Carrier Bureau acting pursuant to delegated authority, has before it an application filed on February 27, 1975[1] by the Medical-Dental Bureau, Inc. (Medical-Dental), File No. 21249-CD-P-75, for a Construction Permit to establish a new one-way signaling station on frequency 35.22 MHz in the Domestic Public Land Mobile Radio Service at Youngstown, Ohio, and an application filed on May 13, 1975 by Metrotec, Inc. (Metrotec), File No. 21578-CD-P-75, for a Construction Permit for additional facilities for one-way Station KTS283 to operate on frequency 35.22 MHz in the Domestic Public Land Mobile Radio Service at Youngstown, Ohio. Petitions to Deny filed by Anserphone, Inc. against both applications have been withdrawn, and the applications are now unopposed.

2. Medical-Dental is the licensee of one-way signaling Station KEK302 which provides tone-only and tone-plus-voice service at Youngstown, Ohio.[2] Pursuant to Section 21.516 of the Commission's Rules,[3] Medical-Dental has submitted a traffic load study setting forth for certain periods the number of calls made per hour and the air time used per hour in connection with the base station facilities of KEK302. The Bureau cannot conclude from this traffic load study that Medical-Dental has adequately demonstrated a need for the requested additional channel. The air time for each paging transmission was calculated at 30 seconds per transmission whether operator dispatched or through an automatic terminal.[4] In any case, the air time figures ranging from nine to 40 minutes are not so compelling as to conclusively demonstrate a need for the requested additional channel. Moreover, Medical-Dental has not presented information as to why its proposed one-way signaling service could not be provided in connection with the base station facilities of Station KLF512, over which it currently provides mobile telephone service in the Youngstown, Ohio area.[5] Accordingly, the Bureau will designate as an issue herein whether Medical-Dental has adequately demonstrated a need for the requested additional channel and whether its proposed one-way signaling service could not be provided in connection with the base station facilities of Station KLF512 at Youngstown, Ohio.

3. Metrotec has caused a survey to be conducted in the Youngstown, Ohio area to determine the need for its proposed one-way signaling service. Metrotec reports requests for 190 paging units. Although this number would appear to be sufficient evidence of substantial unsatisfied need, for other reasons the showing appears deficient under the standards of *Long Island Paging* 30 FCC 2d 405 (1971) and *New York Telephone Company*, 47 FCC 2d 264 (1974), *aff'd sub nom. Pocket Phone Broadcast Service, Inc.* v. *FCC*, 538 F.2d 447 (D.C. Cir. 1976). In particular, there is no description of the methodology employed in the survey, or an indication as to the total number of individuals or businesses contacted or a statement as to whether those contacted were informed of the cost and the reliable service area of its proposed one-way signaling service. Accordingly, the Bureau will designate as an issue herein whether Metrotec has adequately demonstrated a need for its proposed service.

4. Since the above-referenced applications request use of the same frequency, they are electrically mutually exclusive. For this reason, and because the applicants appear to be legally, financially, technically and otherwise qualified to construct and operate the proposed facilities, except to the extent indicated in the following issues, a comparative hearing must be held to determine which applicant, if any, would better serve the public interest. *Ashbacker Radio Corp.* v. *FCC*, 36 U.S. 327 (1945).

5. In view of the foregoing, *It is ordered*, pursuant to Section 309(e) of the Communications Act of 1934, as amended, That the application of The Medical-Dental Bureau, Inc., File No. 21249-CD-P-75 and the application of Metrotec, Inc., File No. 21578-CD-P-75, are designated for hearing in a consolidated proceeding upon the following issues:

(a) To determine in accordance with Sections 21.516 and 21.501(d)(2) of the Commission's Rules the nature and extent of services now rendered by The Medical-Dental Bureau, Inc. and the capacity of its existing facilities;

(b) To determine whether Metrotec, Inc. has adequately demonstrated a public need for its proposed facilities;

(c) To determine on a comparative basis, the nature and extent of service proposed by each applicant, including the rates, charges, maintenance personnel, practices, classifications, regulations, and facilities pertaining thereto;

(d) To determine on a comparative basis, the areas and populations that each applicant will serve within the prospective 43 dbu contours, based upon the standards set forth in Section 21.504(a) of the Commission's Rules,[6] and to determine the need for the proposed services in said areas;

(e) To determine, in light of the evidence adduced pursuant to the foregoing issues, what disposition of the above-referenced applications, would best serve the public interest, convenience and necessity.

6. *It is further ordered*, That the hearing shall be held at the Commission offices in Washington, D.C. at a time and place and before an Administrative Law Judge to be specified in a subsequent Order.

7. *It is further ordered*, That the Chief, Common Carrier Bureau, is made a party to the proceeding.

8. *It is further ordered*, That the applicants may avail themselves of an opportunity to be heard by filing with the Commission pursuant to Section 1.221(c) of the Rules within 20 days of the release date hereof, a written notice stating an intention to appear on the date for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

WALTER R. HINCHMAN,
Chief, Common Carrier Bureau.

[FR Doc.77-24453 Filed 8-23-77;8:45 am]

Noncommercial Educational FM Broadcast Applications Ready and Available for Processing

Adopted: August 17, 1977.

Released: August 18, 1977.

Notice is hereby given, pursuant to Section 1.573(d) of the Commission's Rules, that on September 27, 1977, the

[1] This application apeared on public notice on March 17, 1975.

[2] Although Medical-Dental has termed its application as for a new station, the proposed transmitting location is identical to that for Station KEK302. Accordingly, the Medical-Dental application is in substance a request for an additional channel for Station KEK302.

[3] Section 21.516 requires that "an applicant requesting the assignment of an additional channel or channels at an existing Domestic Public Land Mobile Radio Station (other than control dispatch or repeater), in addition to the information required by other sections of the rules, shall include a showing of the following: * * * (b) Data showing the actual traffic loading on each channel assignment of the present radio systems during the busiest 12-hour periods on three days (within a seven-day period) having normal message traffic not more than 60 days prior to the date of filing. This information should be reported separately for each of the three days selected, which should be identified by dates, and should disclose the following: * * * (4) For systems that provide one-way signaling as a primary service; (i) the number of mobile receivers in operation during the study period, (ii) the number of calls held, (iii) the total holding time; or for systems that do not provide message relay service; (iv) the total number of minutes the channel is utilized for transmission between the base station and the mobile receiver during each hour.

[4] By means of an automatic terminal, a tone-only call can be executed in less than one second. Medical-Dental employs an automatic terminal. The Bureau has not been informed as to what portion of Medical-Dental's calls are tone-only.

[5] Section 21.501(d)(2) of the Commission's Rules provides: "If an applicant for authorization to provide an exclusive one-way signaling service provides or proposes to provide, General or Dispatch service * * * the application for a one-way facility should be supported with full information to show why the proposed signaling service could not be provided in connection with the base station facilities used for such General or Dispatch service."

[6] Section 21.504(a) of the Commission's Rules and Regulations describes a field strength contour of 43 decibels above one microvolt per meter as the limits of the reliable service area for base stations engaged in one-way communications service. Propagation data set forth in Section 21.504(b) are the proper bases for establishing the location of service contours (F50, 50) for the facilities involved in this proceeding.

noncommercial educational FM broadcast applications listed in the attached Appendix, which are being processed expeditiously since they are potentially eligible for funding in this fiscal year from the Department of Health, Education and Welfare, will be considered as ready and available for processing. Pursuant to Section 1.227(b)(1) and Section 1.591(b) of the Commission's Rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on September 26, 1977, which involves a conflict necessitating a hearing with any application on this list, must be substantiaally complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business on September 26, 1977. The attention of prospective applicants is directed to the fact that some contemplated proposals may not be eligible for consideration with an application appearing in the attached Appendix by reason of conflicts between the listed applications and applications appearing in previous notices published pursuant to Section 1.573(d) of the Commission's Rules.

The attention of any party in interest desiring to file pleadings concerning any pending noncommercial educational FM broadcast application, pursuant to Section 309(d)(1) of the Communications Act of 1934, as amended, is directed to Section 1.580(i) of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

PINE MOUNTAIN COMMUNICATIONS, INC. ET AL.

Designation of Applications for Consolidated Hearing on Stated Issues; Memorandum Opinion and Order

In re Applications of Pine Mountain Communications, Inc., Custom Radio, Inc., and Specialized Telephone Service. For Construction Permits to establish new one-way signaling stations, or for additional facilities, to operate on frequency 152.24 MHz in the Domestic Public Land Mobile Radio Service at or near Casper, Wyoming.

Adopted: August 16, 1977.

Released: August 23, 1977.

1. The Commission, by the Chief, Common Carrier Bureau, acting pursuant to delegated authority, has before it the following applications: an application filed May 13, 1976, by Pine Mountain Communications, Inc. (Pine Mountain), File No. 22016-CD-P-76, for a Construction Permit to establish a new one-way station to operate on frequency 152.24 MHz at Casper Mountain near Casper, Wyo.; an application filed May 11, 1976, by Custom Radio, Inc. (Custom), File No. 22022-CD-P-76, for a Construction Permit for a new one-way station to operate on frequency 152.24 MHz at Casper, Wyo.; and an application filed June 25, 1976, by Specialized Telephone Service (Specialized), File No. 22339-CD-P-76, licensee of one-way Station KWH348 currently operating on frequency 158.70 MHz at Casper, Wyo., for a Construction Permit to establish additional facilities to operate on frequency 152.24 MHz. A letter opposition was filed against the Pine Mountain application by Custom. In addition, both Custom and Pine Mountain have filed for our consideration copies of pleadings filed in connection with the Pine Mountain application for two-way mobile telephone service, File No. 22017-CD-P-(3)-76. The applications of Specialized Telephone Service and of Custom Radio, Inc., are unopposed.

2. The above-captioned application of Pine Mountain has been opposed by Custom on the ground of failure to demonstrate state certification as required by section 21.13(f) of the Rules,[1] and on the ground that Pine Mountain's need survey is in part fraudulent. These issues were also raised against Pine Mountain in its application for two-way mobile telephone service, File No. 22017-CD-P-(3)-76. The Bureau has fully discussed these issues in the Memorandum Opinion and Order disposing of that application issued this same day. Accordingly, it is unnecessary to repeat that discussion here. With respect to the state certification issue, however, the Bureau notes that Pine Mountain has submitted a letter from the Wyoming Public Service Commission indicating that its proposed noninterconnected paging service does not require state certification. However, prior to offering an interconnected service the Bureau will require Pine Mountain to obtain state certification.

3. Pine Mountain has requested a waiver of section 21.505 of the Rules[2] to permit operation at a power greater than that authorized by Rule 21.505. Pine Mountain contends the requested waiver is necessary in order for it to provide reliable service to those who have expressed an interest in its proposed service. Pine Mountain has offered meager factual support for this contention, and normally the Bureau would deny the request in such circumstances.[3] However, because the application must be designated for hearing, the Bureau has decided to afford Pine Mountain the opportunity of presenting evidence on this issue. Accordingly, the Bureau will designate as an issue herein Pine Mountain's request for a waiver of Section 21.505 of the Rules.

4. By a Memorandum Opinion and Order issued this same day, Pine Mountain has been granted a Construction Permit to establish facilities to offer two-way mobile telephone service from the same site proposed by the applicant in the instant application. Accordingly, pursuant to section 21.501(d)(2) of the Rules,[4] the Bureau will designate as an issue herein why Pine Mountain's proposed one-way signaling service cannot be provided in connection with the base station facilities of that station.

5. Specialized is currently operating a one-way signaling service over the facilities of station KWH348. The instant application is for an additional channel for this station. By letter dated December 16, 1976, the Bureau requested a traffic load study pursuant to section 21.516 of

[1] Section 21.13(f) of the Rules provides: "Where required by applicable local law, an applicant shall include a copy of the franchise or other authorization issued by appropriate regulatory authorities. If no such local requirement exists, or if Commission authority is a prerequisite for such authorization, a statement to this effect shall be included in the application."

[2] Section 21.505 of the Commission's Rules prescribes required reductions in effective radiated power for antenna heights in excess of 500 feet above average terrain.

[3] The Bureau has denied Pine Mountain's request for a waiver of Section 21.505 in connection with its application for two-way service, File No. 22017-CD-P-(3)-76.

[4] Section 21.505(d)(2) provides: "If an applicant for authorization to provide an exclusive one-way signaling service provides or proposes to provide, General or Dispatch service • • • the application for a one-way facility should be supported with full information to show why the proposed signaling service could not be provided in connection with the base station facilities used for such General or Dspatch service."

the Rules[5] to demonstrate the current usage of station KWH348. In response, Specialized submitted a traffic load study showing the number of calls transmitted each hour of a 12-hour period for three consecutive days. It further stated that it currently has 260 paging units in service and that its channel was becoming congested. The Bureau concludes, however, that Specialized has not sufficiently demonstrated a need for the requested additional channel for station KWH348. Accordingly, the Bureau will designate as an issue herein whether Specialized has adequately demonstrated loading of its existing channel so that grant of an additional channel would be justified.

6. Custom is currently serving 48 paging units, on a secondary basis, on the facilities of its two-way station KOK342. Although it has stated that further paging growth cannot efficiently be accommodated on station KOK342, it has failed to demonstrate pursuant to section 21.501(d)(2) why its proposed paging service cannot be provided in connection with the base station facilities of this station. Accordingly, we shall designate this issue for further exploration at the hearing ordered herein. With respect to this issue, a relevant factor will be the Bureau's grant today of Custom's application, File No. 21879-CD-P-76, for an additional channel for two-way station KOK342.

7. Since the above-referenced applications all request use of the same frequency, they are electrically mutually exclusive. For this reason, and because all three applicants appear to be legally, financially, technically and otherwise qualified to construct and operate the proposed facilities, except to the extent indicated in the following issues, a comparative hearing must be held to determine which applicant, if any, would better serve the public interest. *Ashbacker Radio Corp. v. FCC*, 326 U.S. 327 (1945).

8. In view of the foregoing, *It is ordered*, That pursuant to sections 309(d) and (e) of the Communications Act of 1934, as amended (47 U.S.C. sections 309(d) and (e), the above-captioned applications of Pine Mountain Communications, Inc., Custom Radio, Inc., and Specialized Telephone Service are designated for hearing in a consolidated proceeding upon the following issues:

(a) To determine, in accordance with section 21.516(b) of the Commission's Rules, the nature and extent of services now rendered by Specialized Telephone Service and the capacity of its existing facilities;

(b) To determine, in accordance with section 21.501(d)(2) of the Commission's Rules, the nature and extent of services now rendered by Custom Radio, Inc., and the capacity of its existing facilities including its additional facilities authorized this same day;

(c) To determine, in accordance with section 21.501(d)(2) of the Commission's Rules, the nature and extent of services rendered or to be rendered by Pine Mountain Communications, Inc., and the capacity of its facilities authorized this same day;

(d) To determine whether section 21.505 of the Commission's Rules should be waived to allow operation of the facilities proposed in the application of Pine Mountain Communications, Inc., at a power in excess of that prescribed by section 21.505;

(e) To determine on a comparative basis, the nature and extent of service proposed by each applicant, including the rates, charges, maintenance personnel, practices, classifications, regulations, and facilities pertaining thereto;

(f) To determine on a comparative basis the areas and populations that each applicant will serve within the prospective 43 dbu contours, based upon the standards set forth in section 21.504(a) of the Commission's Rules;[6] and to determine the need for the proposed services in said area;

(g) To determine in light of the evidence adduced pursuant to the foregoing issues what disposition of the above-referenced applications would best serve the public interest, convenience, and necessity.

9. *It is further ordered*, That the hearing shall be held at the Commission offices in Washington, D.C., at a time and place and before an Administrative Law Judge to be specified in a subsequent Order.

10. *It is further ordered*, That the Chief, Common Carrier Bureau, is made a party to the proceeding.

11. *It is further ordered*, That applicants may avail themselves of an opportunity to be heard by filing with the Commission, pursuant to section 1.221(c) of the Rules within 20 days of the release date hereof, a written notice stating an intention to appear on the date for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

WALTER R. HINCHMAN,
Chief, Common Carrier Bureau.

[FR Doc.77-24454 Filed 8-23-77;8:45 am]

[5] Section 21.516 requires: "An applicant requesting the assignment of an additional channel or channels at an existing Domestic Public Land Mobile Radio Station (other than control dispatch or repeater), in addition to the information required by other sections of the rules, shall include a showing of the following: • • • (b) Data showing the actual traffic loading on each channel assignment of the present radio systems during the busiest 12-hour periods on three days (within a seven-day period) having normal message traffic not more than 60 days prior to the date of filing. This information should be reported separately for each of the three days selected, which should be identified by dates, and should disclose the following: • • • (4) For systems that provide one-way signaling as a primary service; (i) the number of mobile receivers in operation during the study period, (ii) the number of calls held, (iii) the total holding time; or for systems that do not provide message relay service; (iv) the total number of minutes the channel is utilized for transmission between the base station and the mobile receiver during each hour."

[6] Section 21.504(a) of the Commission's Rules and Regulations describes a field strength contour of 43 decibles above one microvolt per meter as the limits of the reliable service area for base stations engaged in one-way communications service. Propagation data set forth in section 21.504(b) are the proper bases for establishing the location of service contours (F50, 50) for the facilities involved in this proceeding.

PURAC TASK AREA GROUP ON GENERAL MOBILE RADIO SERVICE

Meeting

In preparation for the next meeting of the Personal Use Radio Advisory Committee (PURAC), the PURAC task area group investigating the General Mobile Radio Service will meet September 9, 1977, at 9 A.M. in Room 7327 of the offices of the Federal Communications Commission at 2025 "M" Street NW., Washington, D.C. 20554 to discuss its fact finding progress for presentation to the full PURAC.

This meeting is open to the public. Individuals interested in the personal radio aspects of the General Mobile Radio Service are invited to attend. For further information, contact the Task Area Coordinator, Corwin Moore, c/o Highway Safety Research Institute, University of Michigan, Huron Parkway and Baxter Road, Ann Arbor, Mich. 48109, 313-763-3232.

FEDERAL ENERGY ADMINISTRATION

ENERGY SUPPLY AND ENVIRONMENTAL COORDINATION ACT

Negative Determination of Environmental Impact; Construction Orders to Certain Powerplants

Pursuant to 10 CFR §§ 208.4(c) and 307.7, the Federal Energy Administration (FEA), hereby gives notice that, in accordance with 10 CFR §§ 307.7(c) and 208.3(a)(4), it has performed an analysis and review of the environmental impact of the issuance to the following powerplants of Notices Effectiveness of construction orders:

Docket No.	Owner	Powerplant no.	Generating station	Location
OFU-031-N	Carolina Power & Light Co.	1	Mayo	Person County, N.C.
OFU-032-N	do	2	do	Do.
OFU-044-N	Louisville Gas & Electric Co.	4	Mill Creek	Louisville, Ky.
OFU-046-N	Montana Power Co.	3	Colstrip	Colstrip, Mont.
OFU-047-N	do	4	do	Do.
OFU-057-N	Sierra Pacific Power Co.	2	North Valmy	Humboldt County, Nev.
OFU-072-N	Wisconsin Electric Power Co.	1	Pleasant Prairie	Pleasant Prairie, Wis.
OFU-073-N	do	2	do	Do.
OCU-087-N	Columbus and Southern Ohio Electric Co.	5	E. M. Poston	Athens, Ohio.
OCU-088-N	do	6	do	Do.
OCU-091-N	Brazos Electric Power Cooperative Inc., and South Texas Electric Cooperative, Inc.	1	San Miguel	South of Christine, Tex.

Docket No.	Owner	Power-plant no.	Generating station	Location
OCU-105-N	Kentucky Utilities Co.	3	Ghent	Ghent, Ky.
OCU-106-N	Lower Colorado River Authority	2	Fayette power project.	LaGrange, Tex.
OCU-118-N	Texas Power & Light Co., Texas Electric Service Co., and Dallas Power & Light Co. (Texas Utilities Generating Co.—agent/operator).	1	Forest Grove	Near Athens, Tex.
OCU-119-N	Texas Power & Light Co. and Aluminum Co. of America (Texas Utilities Generating Co.—agent/operator).	4	Sandow	Near Rockdale, Tex.
OCU-120-N	do	1	Twin Oak	Near Franklin, Tex.
OCU-121-N	do	2	do	Do.
OCU-183-N	Nebraska Public Power District	2	Gerald Gentleman.	Sutherland, Nebr.

On June 30, 1975, September 30, 1976, and February 11, 1977, FEA issued construction orders to the above listed powerplants in the early planning process, which required the powerplants to be designed and constructed so as to be capable of using coal as their primary energy source (40 FR 28436, July 3, 1975; 41 FR 45909, October 18, 1976; and 42 FR 10721, February 23, 1977). The construction orders provided, however, that in accordance with the requirements of 10 CFR Parts 303 and 307, the orders would not become effective until FEA had considered the environmental impact of the orders, pursuant to 10 CFR § 307.7, and until FEA had served the affected powerplants with a Notice of Effectiveness.

On the basis of an analysis and review of the effect on the human environment of issuance of the Notices of Effectiveness, FEA has determined it is clear that issuance of Notices of Effectiveness for construction orders to the above listed powerplants are not "major Federal action[s] significantly affecting the quality of the human environment." Section 102(2)(c) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C). Therefore, pursuant to 10 CFR § 208.4(c) FEA concludes that environmental impact statements are not required.

Additional copies of this Negative Determination and copies of the analyses upon which it is based are available upon request from the FEA National Energy Information Center, Room 1404, Federal Building, 12th Street and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the documents are also available for public review in the FEA Freedom of Information Reading Room, 2107, 12th Street and Pennsylvania Avenue NW., Washington, D.C.

Interested persons are invited to submit data, views, or arguments with respect to the environmental impacts of the Notices of Effectiveness and the associated environmental analyses to Executive Communications, Box OS, Room 3317, Federal Energy Administration, 12th Street and Pennsylvania Avenue NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Negative Determination—Proposed NOE to [powerplant]." Fifteen copies should be submitted on or before September 13, 1977.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C., August 18, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

STRATEGIC PETROLEUM RESERVE

Notice of Availability of the Final Environmental Impact Statement for the Central Rock Mine Storage Site

Pursuant to section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C), the Federal Energy Administration (FEA) has prepared a final environmental impact statement (EIS) on the proposed storage of crude oil at the Central Rock Mine site.

The draft EIS on the Central Rock Mine site was made available to the Council on Environmental Quality and to the public on January 12, 1977. The final Central Rock EIS includes comments received by FEA on the draft EIS and FEA analyses and responses to these comments.

The Central Rock Mine has been proposed as an element of the Strategic Petroleum Reserve. The Reserve (mandated by Part B of Title I, Energy Policy and Conservation Act, 42 U.S.C. 6231–6246) will be created for the storage of crude oil and/or petroleum products for use in the event of a Presidential determination of a severe energy supply interruption or a requirement to meet the obligations of the United States under the International Energy Program.

Single copies of the final Central Rock EIS (FES 76/77–9) may be obtained from the National Energy Information Center, Room 1404, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of this final EIS will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Interested persons are invited to submit data, views, and arguments with respect to this EIS to Executive Communications, Box OT, Room 3317, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on the documents submitted to FEA Executive Communications with the designation "Central Rock Final EIS (FES 76/77–9)." Fifteen copies should be submitted.

All comments should be received by FEA by September 23, 1977, in order to receive full consideration.

Any information or data, submitted in response to the final Central Rock EIS, considered by the person furnishing it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C. August 18, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

STRATEGIC PETROLEUM RESERVE

Notice of Availability of a Supplement to the Final Environmental Impact Statements for the Weeks Island and Cote Blanche Salt Dome Storage Sites

Pursuant to section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C), the Federal Energy Administration (FEA) has prepared a supplement to the environmental impact statements (EIS's) for the Weeks Island and Cote Blanche salt dome sites. The supplement describes the environmental impacts of a proposed change in pipeline siting associated with both storage facilities.

The Weeks Island and Cote Blanche sites have been selected as a key element of the Strategic Petroleum Reserve. The Reserve (mandated by Part B of Title I, Energy Policy and Conservation Act, 42 U.S.C. 6231–6246) will be created for the storage of crude oil and/or petroleum products for use in the event of a Presidential determination of a severe energy supply interruption or a requirement to meet the obligations of the United States under the International Energy Program.

FEA will allow for a minimum of 30 days for interested parties to comment before taking any administrative action with regard to the proposed pipeline alteration. Moreover, FEA will endeavor to comply with any requests (received during the 30-day period) for extensions of the review period up to a maximum of 15 days.

Single copies of the supplement to the Weeks Island EIS (FES 76/77–8) and the Cote Blanche EIS (FES 76/77–7) may be obtained from the National Energy Information Center, Room 1404, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the supplement will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Interested persons are invited to submit data, views or arguments with respect to the supplement to Executive Communications, Box OU, Room 3317, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on the documents submitted to FEA Executive Communications with the designation "Supplement to the Final Environmental Impact Statements for the Weeks Island (FES 76/77–8) and Cote Blanche (FES 76/77–7) Salt Dome Storage Sites." Fifteen copies should be submitted. All comments should be received by FEA by September 23, 1977, in order to receive full consideration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C., August 18, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

FEDERAL MARITIME COMMISSION

MED-GULF CONFERENCE, ET AL.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to Section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before September 13, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the Commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreements Filed by:

Stanley O. Sher, Esquire, Billig, Sher & Jones, P.C., Suite 300, 2033 K Street, N.W., Washington, D.C. 20006.

Agreements Nos. 9522–32, 5660–24, 2846–31, 10261–2, 9548–15 and 8090–15, among the member lines of the above named Mediterranean trade conferences respectively, authorize each of these conferences to share office space, equipment, personnel, administrative and related facilities with other conferences or rate agreements.

By Order of the Federal Maritime Commission.

Dated: August 19, 1977.

JOSEPH C. POLKING,
Acting Secretary.

Notice of Agreement Filed

Notice is hereby given that the following agreements, accompanied by a statement of justification, have been filed with the Commission for approval pursuant to Section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements and the statement of justification at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W. Room 10126; or may inspect the agreements and the statement of justification at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Wade S. Hooker, Jr., Casey, Lane & Mittendorf, 26 Broadway, New York, New York 10004.

Agreement No. 9876–3, among the members of the Associated Latin American Freight Conferences (ALAFC), provides that ALAFC shall appoint a neutral body for self-policing, enforcement and cargo inspection under the terms set forth in the agreement. The neutral body shall perform these functions on behalf of those member conferences which shall adopt the said provisions themselves.

By Order of the Federal Maritime Commission.

Dated: August 19, 1977.

JOSEPH C. POLKING,
Acting Secretary.

[Docket No. R-0091]

PRIVACY ACT OF 1974

Adoption of New System of Records

On March 11, 1977, the Board of Governors of the Federal Reserve System issued a notice for publication in the FEDERAL REGISTER (42 FR 16854) that it proposed to adopt a new system of records entitled, "Municipal Securities Principal and Municipal Securities Representative Records." Interested persons were given until May 2, 1977, to submit comments to the Board on the proposed system of records. The Board did not receive any comments objecting to the system of records and has adopted it without change effective September 15, 1977. The new system of records replaces a system of records identified as "Regulation F Ownership Reports." System identification number BGFRS-17, which was erroneously published as part of the systems of records maintained by the Board on September 15, 1976, 41 FR 39702, but which had been deleted in its entirety on July 23, 1976, 41 FR 30574. The new system of records is adopted as proposed except that "Categories of individuals covered by the system" have been narrowed; and two technical changes have been made in "System location" and "System manager and address." The new system of records as adopted is set forth below.

Board of Governors of the Federal Reserve System, August 8, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

BGFRS-17

System name:

FRB—Municipal Securities Principal and Municipal Securities Representative Records.

System location:

Board of Governors of the Federal Reserve System, 20th and Constitution Avenue NW., Washington, D.C. 20551. Records stored in computerized files are maintained off Board premises at the National Association of Securities Dealers, 1735 K Street NW., Washington, D.C. 20036.

Categories of individuals covered by the system:

Persons who are or seek to be municipal securities principals or municipal securities representatives associated with a municipal securities dealer which is a State member bank of the Federal Reserve System or a subsidiary or a department or division thereof.

Categories of records in the system:

These records may contain identifying information as well as educational, employment, and disciplinary information, and, where applicable, information regarding termination of employment of individuals covered by the system. Identifying information includes name, address, date and place of birth, and may include social security account number.

Authority for maintenance of the system:

Sections 15B, 17, and 23 of the Securities Exchange Act of 1934 (15 U.S.C. §§ 78o-4(c)(5), 78q, and 78w) and section 11(a) of the Federal Reserve Act (12 U.S.C. § 248(a)).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Information in these records may be used:

a. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate governmental authority, whether Federal, State, local, or foreign, or self-regulatory organization, as defined in section 3(a)(26) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(26)).

b. To refer, in the event of litigation, whether civil, criminal, or regulatory in nature, to the appropriate court, magistrate, or administrative law judge.

c. To assist in any proceeding in which the Federal securities or banking laws are in issue or in which the Federal Reserve Board or a past or present member of its staff is a party or otherwise involved in an official capacity.

d. To disclose to a Federal, State, local, or foreign governmental authority or a self-regulatory organization if necessary in order to obtain information relevant to a Federal Reserve Board inquiry concerning a person who is or seeks to be associated with a municipal securities dealer described in Categories of individuals covered by the system as a municipal securities principal or municipal securities representative.

e. To respond to a request from a Federal, State, local, or foreign governmental authority or a self-regulatory organization for information in connection with the issuance of a license or other benefit to the extent that such information is relevant and necessary.

f. To disclose to a Congressional office from the record of an individual in response to an inquiry from the Congressional office made at the request of that individual.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Records are maintained in file folders and on computer discs.

Retrievability:

Records are indexed by name.

Safeguards:

File folders are stored in lockable metal cabinets and computer discs are accessed only by authorized personnel.

Retention and disposal:

Records may be maintained indefinitely.

System manager and address:

Secretary of the Board, Board of Governors, Federal Reserve System, 20th and Constitution, NW., Washington, D.C. 20551.

Notification procedure:

Inquiries, including name and date and place of birth, should be addressed to the System Manager, address above. Inquiriers may be required to include a notarized statement attesting to identity.

Record access procedures:

Same as *Notification* above.

Contesting records procedures:

Same as *Notification* above.

Record source categories:

Individuals on whom the records are maintained as well as municipal securities dealers described in Categories of individuals covered by the system and Federal, State, local, and foreign governmental authorities, and self-regulatory organizations, which regulate the securities industry.

System exempted from certain provisions of the Act:

None.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

NATIONAL ADVISORY COUNCIL FOR CAREER EDUCATION

Meeting

AGENCY: National Advisory Council for Career Education, HEW/OE.

ACTION: Notice.

SUMMARY: This notice sets forth the schedule and proposed agenda of forthcoming meeting of the National Advisory Council for Career Education. It also describes the functions of the Council. Notice of the meeting is required by the Federal Advisory Committee Act. This document is intended to notify the general public of their opportunity to attend.

DATES: September 19–20, 1977; September 19–8:45 a.m.–4 p.m.; September 20–9 a.m.–4 p.m.

ADDRESS: Howard Johnson's Motor Lodge (Near National Airport), 2650 Jefferson Davis Highway, Arlington, Virginia 22202, 703–684–7200.

FOR FURTHER INFORMATION CONTACT:

Dr. Robert D. Bhaerman, Office of Education, Office of Career Education, Room 3100–ROB No. 3, 7th and D Sts. SW., Washington, D.C. 20202. 202–245–2547.

SUPPLEMENTARY INFORMATION: The National Advisory Council for Career Education is established under Section 406 of the Education Amendments of 1974, Pub. L. 93–380, (88 Stat. 552, 553.) The Council is directed to:

Advise the Comissioner of Education on the implementation of Section 406 of the Education Amendments of 1974 and carry out such advisory functions as it deems appropriate, including reviewing the operation of this Section and all other programs of the Division of Education pertaining to the development and implementation of career education, evaluating their effectiveness in meeting the needs of career education throughout the United States, and in determining need for further legislative remedy in order that all citizens may benefit from the purposes of career education as described in Section 406.

The Council with the assistance of the Comissioner conducted a survey and assessment of the current status of career education programs, projects, curricula and materials in the United States and submitted to Congress a report on such survey.

The meeting of the Council shall be open to the public. The meeting on September 19 will begin at 8:45 a.m. and end at 4 p.m. and on September 20 the meeting will begin at 9 a.m. and end at 4 p.m. The meeting will be held at the Howard Johnson's Motor Lodge (Near National Airport), 2650 Jefferson Davis Highway, Arlington, Virginia 22202. 703–684–7200.

This special meeting will bring together the members of the National Advisory Council for Career Education, resource people active in the field, State Coordinators of Career Education, and State Advisory Board Representatives in an effort to explore the many major issues facing Career Education.

The proposed agenda includes:

(1) Discussion of the purpose of this meeting.

(2) Assessment, evaluation and research background presentations: College entrance examination board—assessment program National assessment for educational progress—career and occupational development data. Recommendations from the States (State coordinators of career education and State

V 42 164 AUG 24 77 UM

advisory board members from the fifty States and six Trust Territories).

(3) Legislation—Background presentations: The legislative process: Where have we been? Where are we now? Where do we expect to go?

(4) Future directions—Communications, innovations, and new developments (e.g. experienced base models, training, inservice, adult, and postsecondary programs). Background Presentations: A perspective from the education and work group of the National Institute of Education. Discussion on the issues—Panel of participants from the States.

(5) Business session.

Records shall be kept of all Council proceedings and shall be available 14 days after the meeting for public inspection at the Office of Career Education located at 7th and D Streets SW., Washington, D.C. 20202. The room number is 3100—ROB No. 3.

Signed at Washington, D.C. on August 18, 1977.

JOHN LINDIA,
Delegate, National Advisory. Council for Career Education.

Office of the Secretary

OFFICE OF THE GENERAL COUNSEL

Statement of Organization, Functions, and Delegations of Authority

Part A of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, Office of the Secretary, is amended to reflect certain changes in Chapter AG "Office of the General Counsel". (38 FR 17032, dated 6/28/73, as amended by 38 FR 22667, dated 8/23/73).

The Secretary's reorganization has necessitated certain changes in Office of the General Counsel/client relationships. These changes are reflected in revisions to Section AG-10, *Organization*, Subsection AG-18, *Divisions in the Office of the General Counsel*, and Section AG-20, *Functions*, Subsection AG-22, *Divisions of the Office of the General Counsel*. The revisions are as follows:

Subsec. AG-18. *Divisions in the Office of the General Counsel.*

A. The Divisions in the Office of the General Counsel are:
Business and Administrative Law Division.
Civil Rights Division.
Education Division.
Food and Drug Division.
Legislation Division.
Public Health Division.
Health Care Financing and Human Development Services Division.
Social Security Division.
Inspector General Division.

Subsec. AG-22. Divisions in the Office of the General Counsel.

7. *Health Care Financing and Human Development Services Division.* The Health Care Financing and Human Development Services Division shall provide legal services for programs administered by the Health Care Financing Administration and by the Office of Human Development Services.

8. *Social Security Division.* The Social Security Division shall provide legal services for programs administered by the Social Security Administration and by the Office of Child Support Enforcement.

9. *Inspector General Division.* The Inspector General Division shall provide legal services to the Office of Inspector General.

Dated: August 15, 1977.

JOHN D. YOUNG,
Assistant Secretary for Management and Budget.

NATIONAL COMMISSION FOR THE PROTECTION OF HUMAN SUBJECTS OF BIOMEDICAL AND BEHAVIORAL RESEARCH

Meeting

The National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research will meet on September 9 and 10, 1977, in Conference Room 6, C Wing, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. The meeting will convene at 9:00 a.m. each day and will be open to the public, subject to the limitations of available space. Topics included in the mandate to the Commission under the National Research Act (Pub. L. 93-348), as amended, including research involving the institutionalized mentally infirm, the performance of Institutional Review Boards, the application of research guidelines to the delivery of health services by DHEW, and other matters identified in the legislative mandate to the Commission, will be the agenda for this meeting.

Written materials of any length may be submitted to the Commission at any time. Requests for information should be directed to Ms. Betsy Singer, Information Officer, 301-496-7776, Room 125, Westwood Building, 5333 Westbard Avenue, Bethesda, Maryland 20016.

MICHAEL S. YESLEY,
Staff Director, National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research.

AUGUST 16, 1977.

[FR Doc.77-22446 Filed 8-23-77;8:45 am]

PROTECTION OF PUBLIC HEALTH CARE RECIPIENTS

Public Hearing

Ethical principles and guidelines that should govern the delivery of health services under programs conducted or supported by the Department of Health, Education, and Welfare (DHEW) will be the subject of a public hearing to be held by the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research. The hearing will provide an opportunity for interested members of the public and government officials to present relevant views to the Commission, which is charged under Public Law 93-348 to make recommendations to the Secretary, DHEW, and to report to Congress regarding the protection of patients receiving health services under DHEW programs.

The hearing will be held on October 14, 1977, commencing at nine a.m., in Conference Room 6, C Wing, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. Persons wishing to testify are invited to submit their requests to the Commission in accordance with the directions given below. The hearing will be open to the public, subject to the limitation of available space.

Background information. The Commission for the Protection of Human Subjects was established under Pub. L. 93-348 to identify the basic ethical principles that should underlie the conduct of research involving human subjects, and to recommend guidelines to assure that such principles are followed. The Commission's recommendations are made to the Secretary of Health, Education, and Welfare with respect to research conducted or supported by that department, and to Congress with respect to research not subject to regulation by DHEW. To date, the Commission has issued reports and recommendations on research on the fetus, research involving prisoners, the use of psychosurgery, and disclosure of research information under the Freedom of Information Act. A report on research involving children is in publication and will shortly be available.

In addition to these and other topics relating to the protection of human subjects of research, the Commission is directed to consider the applicability of the ethical principles and guidelines to the protection of patients who receive health services under DHEW programs. Such health programs include services provided by DHEW employees (*e.g.*, Public Health Service hospitals, the Indian Health Service), capacity-building programs (*e.g.*, grant support for health maintenance organizations, community health centers, migrant health centers, family planning services), and programs that pay for services delivered through the private health care system (*e.g.*, Medicare, Medicaid).

To develop guidelines for the protection of human subjects of research, the Commission has considered requirements and conditions in the following areas: assessment of risks and benefits, selection of human subjects, informed consent, and mechanisms to review research. Many of these requirements and conditions implement or derive from such basic ethical principles as beneficence, justice (the equitable distribution of burdens and benefits), and respect for persons. The applicability of such principles, requirements and conditions to the delivery of health services under DHEW programs will be explored in the hearing and thereafter in the Commission's public deliberations that will lead to the adoption of recommendations.

Requests to testify. Each presentation at the hearing will be limited to 10 minutes, followed by a question-and-answer period. Anyone wishing to speak at the hearing must submit his or her statement in writing not later than September 30, 1977. The Commission desires to receive a wide range of views on the subject to be covered at the hearing. Accordingly, the Commission reserves the right to accept for the record, but not for oral presentation, statements that are not relevant to the subject of the hearing or that duplicate previously received statements. Written materials of any length may be submitted for the record or to the Commission at any time. Written statements or requests for information should be directed to Ms. Betsy Singer, Public Information Officer, Westwood Building, Room 125, 5333 Westbard Avenue, Bethesda, Md. 20016 (301/496-7776).

Dated: August 17, 1977.

MICHAEL S. YESLEY,
Staff Director, National Commission for the Protection of Human Subjects of Biomedical and Behavorial Research.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

SISSETON-WAHPETON (DEVILS LAKE) SIOUX

Plan for the Use and Distribution of Sisseton-Wahpeton (Devils Lake) Sioux Judgment Funds in Docket 363, Second Claim, Act of 1904, Before the Indian Claims Commission

AUGUST 17, 1977.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

The Act of October 19, 1973 (Pub. L. 93-134, 87 Stat. 466), requires that a plan be prepared and submitted to Congress for the use or distribution of funds appropriated to pay a judgment of the Indian Claims Commission or Court of Claims to any Indian tribe. Funds were appropriated by the Act of December 18, 1975, 89 Stat. 826, in satisfaction of the award granted to the Sisseton-Wahpeton (Devils Lake) Sioux Tribe in Indian Claims Commission Docket 363, Second Claim, Act of 1904.

The plan for the use and distribution of the funds was submitted to the Congress with a letter dated April 27, 1977, and was received (as recorded in the Congressional Record) by the House of Representatives on May 3, 1977, and as reported by the Senate on May 4, 1977. Neither House of Congress having adopted a resolution disapproving it, the plan became effective on July 23, 1977, as provided by section 5 of the 1973 Act, supra.

The plan reads as follows:

The funds appropriated by the Act of December 18, 1975, 89 Stat. 826, in satisfaction of an award granted to the Sisseton-Wahpeton (Devils Lake) Sioux Tribe in Docket 363, Second Claim, Act of 1904, before the Indian Claims Commission, less attorney fees and litigation expenses, shall be utilized as herein provided.

PER CAPITA PAYMENT ASPECT

The Devils Lake Sioux Tribe's latest approved membership roll shall be brought current, pursuant to the Devils Lake Sioux Tribe's Constitution and Bylaws, to include all eligible members born on or prior to and living on the effective date of this plan.

Subsequent to the preparation and approval of the membership roll referred to above, the Secretary of the Interior (hereinafter 'Secretary') shall make a per capita distribution of eighty (80) percent of the funds, including all interest and investment income accrued on this portion, in a sum as equal as possible, to each Devils Lake Sioux tribal enrollee.

The per capita shares of living competent adults shall be paid directly to them. The per capital shares of legal incompetents shall be handled pursuant to 25 CFR 104.5. The per capita shares of minors shall be handled pursuant to 25 CFR 60.10 (a) and (b) (1) and 104.4, as amended November 5, 1976 (41 FR 48735, 48736). The per capita shares of deceased individual beneficiaries shall be determined and distributed in accordance with 43 CFR, Part 4, Subpart D.

The per capita shares of adults who are determined by the tribal governing body and the Agency Superintendent to be in arrears in debts to the tribe shall be placed in individual Indian money (IIM) accounts. Subsequent to the placement of such shares in IIM accounts, the Agency Superintendent shall have authority to collect all or part of such shares and apply the collections to the payment of the delinquent debts pursuant to 25 CFR 104.9.

PROGRAMMING ASPECTS

1. INDUSTRIAL DEVELOPMENT PROGRAM

Three (3) percent of the funds, including all interest and investment income accrued on this portion and any amounts remaining after the per capita payment provided above, shall be utilized by the Devils Lake Sioux Tribe for the purchase of shares of stock, in the name of the tribe, in the Devils Lake Sioux Manufacturing Corporation.

2. LAND ACQUISITION PROGRAM

Ten (10) percent of the funds, and all interest and investment income accrued on this portion, shall be utilized by the Devils Lake Sioux Tribe on an annual budgetary basis, subject to the approval of the Secretary, for the purchase of land pursuant to the tribe's Land Acquisition Program.

3. SOCIAL, HEALTH, AND ECONOMIC PROGRAMS

Seven (7) percent of the funds, and all interest and investment income accrued on this portion, shall be utilized by the Devils Lake Sioux Tribe on an annual budgetary basis, subject to the approval of the Secretary, for the following:

(a) Activities for elderly persons.
(b) Higher education.
(c) Burial fund.
(d) Small business loans.
(e) Health insurance.
(f) Credit union.
(g) Road construction, maintenance, and equipment purchase.
(h) Business development.
(i) Miscellaneous fund.

Should any funds in any of the three above-cited general program categories not be needed or be found in excess of programing goals in any given annual budget, such funds may be transferred by the tribal governing body, with the approval of the Secretary, to another of the above-cited general program categories, including any specific categories within Social, Health and Economic Programs.

GENERAL PROVISION

Only enrolled members of the Devils Lake Sioux Tribe may benefit from the per capita payment aspect or any other aspect of this plan; lineal descendants of Sisseton or Wahpeton Sioux Indians not enrolled with the Devils Lake Sioux Tribe are not eligible for benefits under this plan.

RAYMOND V. BUTLER,
Acting Deputy Commissioner of Indian Affairs.

T. 11 N., R. 5 E.,
Sec. 14, $NE\frac{1}{4}NW\frac{1}{4}SW\frac{1}{4}$, $W\frac{1}{2}NE\frac{1}{4}SW\frac{1}{4}$ $SW\frac{1}{4}$, $SE\frac{1}{4}NE\frac{1}{4}SW\frac{1}{4}SW\frac{1}{4}$, $SE\frac{1}{4}SW\frac{1}{4}$ $SW\frac{1}{4}$ and $SW\frac{1}{4}SE\frac{1}{4}SW\frac{1}{4}$;
Sec. 23, lot 1 (approximately 10 acres not included in PLO 4757), $N\frac{1}{2}NE\frac{1}{4}NW\frac{1}{4}$ (less approximately 2 acres included in PLO 4757), $E\frac{1}{2}SW\frac{1}{4}NE\frac{1}{4}NW\frac{1}{4}$, $N\frac{1}{2}NE\frac{1}{4}$ $NW\frac{1}{4}NW\frac{1}{4}$, $SE\frac{1}{4}NE\frac{1}{4}NW\frac{1}{4}$, $N\frac{1}{2}NE\frac{1}{4}$ $SE\frac{1}{4}NW\frac{1}{4}$, $N\frac{1}{2}SW\frac{1}{4}NE\frac{1}{4}$ and $N\frac{1}{2}SE\frac{1}{4}$ $NE\frac{1}{4}$ (less approximately 2 acres in PLO 4757).

The area described aggregates 128.50 acres in Bernalillo County, New Mexico.

The applicant desires the land for the enlargement of an existing recreation area in the Cibola National Forest in New Mexico.

A notice of the proposed withdrawal was published in the FEDERAL REGISTER on October 29, 1974, page 38118, FR Doc. 74-25078.

Pursuant to Sec. 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing to the State Director, Bureau of Land Management, Department of the Interior, P.O. Box 1449, Santa Fe, N. Mex. 87501, on or before September 20, 1977. If a public hearing is scheduled, a notice will be published in the FEDERAL REGISTER.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before September 20, 1977.

The above-described national forest land is withdrawn from appropriation under the mining laws, 30 U.S.C. Ch. 2,

V 42164 AUG 24 77 UM

but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture. Current administrative jurisdiction over the segregated land will not be affected by the temporary segregation. In accordance with Section 204(g) of the Federal Land Policy and Management Act of 1976, the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the undersigned, Bureau of Land Management, Department of the Interior, P.O. Box 1449, Sante Fe, N. Mex. 87501.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

INTERNATIONAL TRADE COMMISSION

[AA1921-169-172]

ANIMAL GLUE AND INEDIBLE GELATIN FROM YUGOSLAVIA, SWEDEN, THE NETHERLANDS, AND WEST GERMANY

Corrected Notice of Investigation

Having received advice from the Department of the Treasury on July 29, 1977, that animal glue and inedible gelatin from Yugloslavia, Sweden, the Netherlands, and West Germany (except that produced and sold by Electro Chemische Fabric Kempen G.m.b.H. of West Germany) are being, or are likely to be, sold at less than fair value, the United States International Trade Commission on August 8, 1977, instituted investigations Nos. AA1921-169, 170, 171, and 172, respectively, under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being, or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Notice of the investigation and hearing was published in the FEDERAL REGISTER of August 15, 1977 (42 F.R. 41190).

By order of the Commission.

KENNETH R. MASON,
Secretary.

[Investigation 337-TA-35]

CERTAIN MOLDED GOLF BALLS

Preliminary Conference

Notice is hereby given that a Preliminary Conference will be held in connection with the above styled investigation at 10 a.m. on Wednesday, August 31, 1977 in Room 610 Bicentennial Building, 600 E Street NW., Washington, D.C. Notice of this investigation was published in the FEDERAL REGISTER on July 6, 1977 (42 FR 34558). The purposes of this preliminary conference are to establish a discovery schedule, to discuss the procedures to be followed in pursuing such discovery, to set the dates for the Prehearing Conference, and to resolve any other matters necessary to the conduct of this investigation.

If any questions should arise not covered by these instructions, the parties or their counsel shall call the chambers of the undersigned Presiding Officer.

The Secretary shall serve a copy of this Notice upon all parties of record and shall publish it in the FEDERAL REGISTER.

MYRON R. RENICK,
Presiding Officer.

OFFICE OF THE FEDERAL REGISTER

EDUCATIONAL WORKSHOPS ON HOW TO USE THE FEDERAL REGISTER

St. Louis, Missouri

WHO: Any person who must use the FEDERAL REGISTER publications to keep track and to gain an understanding of Federal regulations.

WHAT: The free public workshops are being presented by the Office of the FEDERAL REGISTER, National Archives and Records Service, General Services Administration. Each workshop will last approximately three hours, will be identical in content, and will cover the following areas:

1. A brief history of the FEDERAL REGISTER system.
2. The difference between legislation and regulations.
3. The relationship of the FEDERAL REGISTER and the Code of Federal Regulations.
4. Important elements of a typical FEDERAL REGISTER document.
5. An introduction to the finding aids of the Office of the Federal Register.

The workshops will not provide a forum for the discussion of substantive questions pertaining to specific agency regulations.

WHY: These workshops are one way of providing the public with access to information about Federal agency actions which directly affect them. They are designed to help the public better use and understand the FEDERAL REGISTER and to seek suggestions on ways to improve FEDERAL REGISTER publications.

WHEN: 9:30 a.m. on September 28 and 29, 1977 (Reservations required).

WHERE: Room 3250, Federal Building, 1520 Market Street, St. Louis, Missouri. Reservations: Delores O'Guin, 314-425-4106.

FRED J. EMERY,
Director of the Federal Register.

AUGUST 18, 1977.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 08/18/77 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received: the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, 202-395-4529, or from the reviewer listed.

NEW FORMS

DEPARTMENT OF AGRICULTURE

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

MERGER AND CONSOLIDATION REGULATIONS

Petition for Reconsideration

AGENCY: Federal Railroad Administration, Department of Transportation.

ACTION: Notice of grant of petition for reconsideration.

SUMMARY: On March 17, 1977, the Association of American Railroads ("AAR") filed a petition for reconsideration of several portions of the Federal Railroad Administration's final regulations covering procedures and format to be observed when filing a proposed transaction for study by the Federal Railroad Administrator ("Administrator") under section 5(3) of the Interstate Commerce Act. The Administrator has decided to grant in part the AAR's petition for reconsideration. A revision of the merger and consolidation regulations will soon be published as a final rule.

Dated: August 18, 1977.

JOHN M. SULLIVAN,
Administrator, Federal Railroad Administration.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 19, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with

Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before September 8, 1977.

FSA No. 43414—*Joint Rail-Water Container Rates—Great Lakes and European Lines, Inc.* Filed by Great Lakes and European Lines, Inc., (No. 4), for itself and interested rail carriers.

Rates on general commodities, between rail terminals at U.S. Pacific Coast seaboard, and ports and terminals in Europe, by way of Chicago, Illinois.

Grounds for relief—Water competition.

Tariffs—Great Lakes and European Lines, Inc., Westbound tariff No. 5, I.C.C. No. 3, F.M.C. No. 5, and Eastbound tariff No. 6, I.C.C. No. 4, F.M.C. No. 6. Rates are published to become effective on September 18, 1977.

FSA No. 43415—*Joint Water-Rail Container Rates—Korea Shipping Corporation, Ltd.* Filed by Korea Shipping Corporation, Ltd., (No. 102), for itself and interested rail carriers. Rates on general commodities, from ports in Japan and Korea, to rail stations on the U.S. Atlantic seaboard, by way of Seattle, Washington.

Grounds for relief—Water competition.

FSA No. 43416—*Joint Water-Rail Container Rates—Orient Overseas Container Line, Inc.* Filed by Orient Overseas Container Line, Inc., (No. 101), for itself and interested rail carriers.

Rates on general commodities, from Hong Kong and ports in Japan, Korea and Taiwan, to rail stations on the U.S. Atlantic and Gulf Coasts, by way of Seattle, Washington.

Grounds for relief—Water competition.

By the Commission.

H. G. Homme, Jr.,
Acting Secretary.

[Notice No. 102]

MOTOR CARRIER TEMPORARY APPLICATIONS

August 11, 1977.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

Motor Carriers of Property

No. MC 20916 (Sub-No. 27TA), filed July 29, 1977. Applicant: JOHN T. SISK, Rt. 2, Box 182–B, Culpeper, Va. 22701. Applicant's representative: Frank B. Hand, Jr., P.O. Drawer C, Berryville, Va. 22611. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Precast concrete and precast concrete products*, from the facilities of Smith Cattleguard, Inc., at Midland, Va., to points in Ill., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Smith Cattleguard, Inc, Midland, Va. Send protests to: W. C. Hersman District Supervisor, Interstate Commerce Commission, 12th and Constitution Avenue NW., Room 1413, Washington, D.C. 20423.

No. MC 44605 (Sub-No. 46TA) (Correction), filed June 28, 1977, published in the Federal Register issue of July 21, 1977, and republished as corrected this issue. Applicant: MILNE TRUCK LINES, INC., 2500 West California Avenue, Salt Lake City, Utah 84104. Applicant's representative: Edward J. Hegarty, 100 Bush Street, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Yucca, Ariz., and Kingman, Ariz., (a) from Yucca over Interstate Highway 40 (U.S. Highway 66) to Kingman and return over the same route, serving all intermediate points, and (2) Between Wickenburg, Ariz., and Las Vegas, Nev., (a) from Wickenburg, over U.S. Highway 93 to Las Vegas and return over the same route, serving all intermediate points in Arizona. Applicant intends to tack this authority with that in their MC–44605 and subs. Applicant also intends to interline with other carriers at Las Vegas, Nev.; Los Angeles, Calif.; and Phoenix, Ariz., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: There are approximately thirty-three statements of support attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Lyle D. Helfer, Interstate Commerce Commission, Bureau of Operations, 5301 Federal Building, 125 South State Street, Salt Lake City, Utah 84138. The purpose of this republication is to indicate (1) that the parenthesis is to close after equipment; and (2) is to indicate paragraph (1)(a) in lieu of paragraph (1)(2).

No. MC 56082 (Sub-No. 72TA), filed July 28, 1977. Applicant: DAVIS & RANDALL, INC., 42 Central Avenue, P.O. Box 390, Fredonia, N.Y. 14063. Applicant's representative: Roy D. Pinsky, 345 South Warren Street, Syracuse, N.Y. 13202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods and preserved foodstuffs*, from Waun, Poynette, Waunakee, New Richmond, Eden, Oakfield, Gillett and Coleman, Wis., to the state of N.Y., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): (1) Friday Canning Company, 660 North Second Street, New Richmond, Wis. 54017. (2) Oconomowoc Canning Company, Box 248, Oconomowoc, Wis. 53066. Send protests to: Interstate Commerce Commission, Bureau of Operations, 910 Federal Building, 111 West Huron Street, Buffalo, N.Y. 14202.

No. MC 96629 (Sub-No. 4 TA) filed July 28, 1977. Applicant: SHIFFLET BROS., INC., P.O. Box 206, Hwy 99E at Sheldon Avenue, Gridley, Calif. 95948. Applicant's representative: Michael J. Stecher, Silver, Rosen, Fischer & Stecher, 256 Montgomery Street, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizers*, in bulk or hopper-type vehicles, from Helm and Bena, Calif., to all points and places in the State of Oregon, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Valley Nitrogen Producers, Inc., P.O. Box 128, Helm, Calif. 93627. Send protests to: A. J. Rodriguez District Supervisor, 211 Main, Suite 500, San Francisco, Calif. 94105.

No. MC 109533 (Sub-No. 95TA), filed July 29, 1977. Applicant: OVERNITE TRANSPORTATION COMPANY, 1000 Semmes Avenue, Richmond, Va. 23224. Applicant's representative: C. H. Swanson, 1000 Semmes Avenue, Richmond, Va. 23224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between plant site of Chattanooga Glass Company at or near Keyser W. Va., as off-route point in connection with carrier's presently authorized operation, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Chattanooga Glass Company, 400 W. 45th Street, Chattanooga, Tenn. Send protests to: Paul D. Collins, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 10–502 Federal Building, 400 North 8th Street, Richmond, Va. 23240.

No. MC 110525 (Sub-No. 1201TA), filed July 29, 1977. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 E. Lancaster Avenue, P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Salt cake*, in bulk, in tank vehicles, from Belvidere, N.J., to Tonawanda and Elmira, N.Y., and West Point, Va., for 180 days. Supporting shipper(s): Prior Chemical Corp., 420 Lexington Avenue, New York, N.Y. 10017. Send protests to: Monica A. Blodgett, Transportation mission, 600 Arch Street, Room portation Assistant, Interstate Commerce Commission, 600 Arch Street, Room 3238, Philadelphia, Pa. 19106.

No. MC 110525 (Sub-No. 1202 TA), filed July 29, 1977. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 E. Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry talc*, in bulk, in tank vehicles, from Johnson, Vt., to New Castle, Del., for 180 days. Supporting shipper(s): Engelhard Minerals & Chemicals Corp. Menlo Park, Edison, N.J. 08817. Send protests to: Monica A. Blodgett, Transportation Assistant, Interstate Commerce Commission, 600 Arch Street, Room 3238, Philadelphia, Pa. 19106.

No. MC 113271 (Sub-No. 39TA), filed July 29, 1977. Applicant: CHEMICAL TRANSPORT, P.O. Box 2644, Great Falls, Mont. 59401. Applicant's representative: Ray F. Koby, 314 Montana Bldg., Great Falls, Mont. 59401. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acid*, in bulk, from East Helena, Mont., to points in Wyoming, Colorado, Idaho, Oregon, North Dakota, Minnesota, Utah and Wash., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Gerald D. Martin District Traffic Manager, Asarco, Incorporated, 405 Montgomery Street, San Francisco, Calif. 94104. Send protests to: Paul J. Labane District Supervisor, Interstate Commerce Commission, 2602 First Avenue North, Billings, Mont. 59101.

No. MC 115821 (Sub-No. 28TA), filed July 29, 1977. Applicant: FRANK BEELMAN, d.b.a. BEELMAN TRUCK CO., St. Libory, Ill. 62282. Applicant's representative: Ernest A. Brooks, II, 1301 Ambassador Bldg., St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Zinc concentrates*, in bulk, in dump vehicles, from the facilities of AMAX Lead Company, a Division of Amax, Inc., at or near Buick (Iron County), Mo., to the facilities of AMAX Zinc Company, Inc., a subsidiary of AMAX, Inc., at Sauget, Ill., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Mr. S. K. Passmore Manager of Rates, AMAX, Inc., AMAX Center, Greenwich, Conn. 06830. Send Protests to: Harold C. Jolliff District Supervisor, Interstate Commerce Commission, P.O. Box 2418, Springfield, Ill. 62705.

No. MC 118130 (Sub-No. 78TA), filed July 29, 1977. Applicant: SOUTH EASTERN XPRESS, INC., P.O. Box 6985, Fort Worth, Tex. 76115. Applicant's representative: Billy R. Reid, P.O. Box 9093, Fort Worth, Tex. 76107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and related advertising materials, and empty returned malt beverage containers*, between Fort Worth, Tex., on the one hand, and, on the other, points in New Mexico and Colo., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper(s): Miller Brewing Company, 4000 West State Street, Milwaukee, Wis. 53208. Send protests to: Robert J. Kirspel District Supervisor, Room 9A27 Federal Bldg., 819 Taylor Street, Fort Worth, Tex. 76102.

Supporting shipper: There are 15 statements of support attached to the application, which may be examined at the Interstate Commerce Commission, in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Donna M. Jones, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, Monterey Building, Suite 101, 8410 N.W. 53rd Terrace, Miami, Fla. 33166.

No. MC 143252 (Sub-No. 1TA), filed August 1, 1977. Applicant: JOHN WILLIAM JIGGETTS, doing business as JIGGETTS CHARTERED BUS SERVICE, P.O. Box 18, Palmer Springs, Va. 23957. Applicant's representative: James H. Walsh, 1400 Ross Building, Richmond, Va. 23219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in special and/or round trip charter operations, beginning and ending in Mecklenburg, Nottaway, Greenville, and Lunenburg Counties, Va., Van and Wareen Counties, N.C., to points in Virginia, North Carolina, Georgia, Florida, Maryland, Delaware, New Jersey, New York, Pennsylvania, Connecticut, Rhode Island, Massachusetts, and the District of Columbia, for 180 days. Supporting shippers: There are eight letters of support to this application, which may be examined at the Interstate Commerce Commission, in Washington, D.C. or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Paul D. Collins, Bureau of Operations, Room 10-502 Federal Bldg., 400 North 8th Street, Richmond, Va. 23240.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[Docket No. AB-36 (Sub-No. 2)]

OREGON SHORT LINE RAILROAD AND THE UNION PACIFIC RAILROAD CO.

Abandonment of Railroad Services

AUGUST 18, 1977.

Findings made that the present and future public convenience and necessity permit abandonment of line by Oregon Short Line Railroad and abandonment of operations by Union Pacific Railroad Company of a portion of Oregon Short Line's line extending from milepost 0.06 near Firth in a northeasterly direction to milepost 17.53 near Ammon, a distance of 17.59 miles, subject to republication and certain conditions, by report and order of the Commission, Division 3, Acting as an Appellate Division, dated July 22, 1977, which modified, in certain respects, the order of the Commission, Review Board Number 5, dated April 27, 1976, which had made similar findings of present and future convenience and necessity, subject to conditions.

The order of the review board had authorized abandonment, subject to the same conditions for the protection of employees as set forth in *Chicago, B&Q R. Co. Abandonment*, 256 I.C.C. 700 (1944), as supplemented by section 405 of the Rail Passenger Service Act (45 U.S.C. 565) and certain other unrelated conditions. By petition filed March 9, 1977, the applicants requested that only those conditions for the protection of employees set out in *Chicago, B&Q R. Co. Abandonment, supra*, be imposed, since section 1a(8) of the Interstate Commerce Act did not require imposition of employee protective conditions established pursuant to section 405 of the Rail Passenger Service Act (RPSA), except in those abandonment proceedings filed subsequent to the Commission's promulgation of new abandonment regulations in Ex Parte No. 274 (Sub-No. 2), *Abandonment of Lines and Discontinuance of Service*, on November 1, 1976.

Initially, the report discussed the amendments of the Interstate Commerce Act (act) enacted in the Rail Revitalization and Regulatory Reform Act of 1976 that related to employee protection. The amendment of section 5(2)(f) of the act and enactment of section 1a(4) relating to employee protection in abandonment proceedings mandate that the arrangements for protection of employees in section 1a and 5 proceedings shall be at least as beneficial to such interests as those established pursuant to section

5(2)(f) of the act and pursuant to section 405 of the RPSA.

The report then outlined the history of employee protection under section 5(2)(f) of the act, and the substantive content of the various arrangements for the protection of employees established pursuant to section 5(2)(f) including the "Oklahoma," "Burlington," and "New Orleans" conditions. Furthermore, an analysis of the arrangements for the protection of employees established pursuant to section 405 of the RPSA, which were approved by the Secretary of Labor on April 17, 1971, was made. It indicated that the level of employee protection contained in this agreement negotiated pursuant to paragraph (a) of section 405 substantially exceeded the level of employee protection established pursuant to section 5(2)(f) in *New Orleans Union Passenger Terminal Case*, 282 I.C.C. 271. Paragraph (b) of section 405 had established certain minimum requirements for arrangements for the protection of employees to be negotiated pursuant to paragraph (a). These included the proviso that employee protection negotiated pursuant to section 405(a) of the RPSA had to be at least as beneficial to employee interests as the arrangements for the protection of employees established pursuant to section 5(2)(f) of the act, i.e., "New Orleans" conditions. The higher level of employee protection negotiated pursuant to section 405(a) made these requirements in paragraph (b) redunant, since as a statutory minimum, section 5(2)(f) protection is encompassed within the protection enacted in and developed pursuant to section 405 of the RPSA. It stated that imposition of 5(2)(f) conditions combined with or supplemented by any section 405 RPSA protection, as required by the act, is also redundant since the amendment of section 5(2)(f) and the enactment of section 1(a)(4) provided that section 405 and the arrangements for employee protection established pursuant to it to be the all encompassing, minimum level of employee protection to be imposed in section 1a and 5 proceedings.

The second section of the report concerned the imposition of appropriate employee protection in those abandonment applications still pending before the Commission which were filed prior to promulgation of the Commission's new abandonment regulations on November 1, 1976. Section 1a(8) of the act requires the imposition of 1a(4) employee protection (i.e. section 405 of the RPSA and the provisions for protection of employees developed pursuant to it) only in those abandonment proceedings filed subsequent to November 1, 1976. It was found that prior to enactment of the Rail Revitalization and Regulatory Reform Act of 1976, imposition of employee protective in abandonment proceedings was not required by statute, but that imposition of such conditions was within the discretion of the Commission, see *I.C.C. v. Railway Labor Executives' Association*, 315 U.S. 373. In the exercise of this discretion the "Burlington" conditions had been imposed in the past. The report concluded that although the employee protection specified in section 1a(4) of the act is not required in abandonment applications filed prior to November 1, 1976, the intent of Congress and a consistent treatment of the employee protection would best be satisfied by the imposition of the employee protective conditions enacted in and developed pursuant to section 405 of the RPSA, in all pending abandonment proceedings, filed prior to November 1, 1976. The report stated that this was clearly within the discretionary power of the Commission as amplified in *I.C.C. v. Railway Labor Executives' Association, supra*.

Because this decision represents a significant policy change and interpretation, all other railroads and employee representatives may have an opportunity to intervene and present argument, if they so desire, by submitting written comments to the Interstate Commerce Commission within 15 days of the date of this notice. Since the Commission is providing an opportunity for interested parties to comment on this decision, it will retain jurisdiction in this proceeding and in other subsequently decided abandonment proceedings which were filed prior to November 1, 1976. At the close of the period specified for comments, we will review the comments received and consider the conditions specified in this report in light of such comments. Carriers may consummate abandonments during this period, but if they do so, they will be deemed to have no objection to the employee protective conditions specified in this report. However, if after comments it is determined that other labor protective conditions are more appropriate for employee protection, then in those proceedings not consummated, we will by our retention of jurisdiction, impose such other labor protective conditions.

H. G. HOMME, Jr.,
Acting Secretary.

3

NATIONAL RAILROAD PASSENGER CORPORATION.

In accordance with rule 4a. of Appendix A of the By-laws of the National Railroad Passenger Corporation, notice is given that the Board of Directors will meet on August 31, 1977.

A. The meeting will be held on Wednesday, August 31, 1977, in the Charles Suite of the Loews L'Enfant Plaza Hotel, 480 L'Enfant Plaza East, Southwest, Washington, D.C. beginning at 9:30 a.m. The portion of the meeting beginning at 9:30 will be closed to the public, during which time the Board will consider agenda items Nos. 1 and 2, as identified below.

B. The meeting will be open to the public beginning at 10 a.m. starting with agenda item No. 3, as identified below.

C. The agenda items to be discussed at the meeting follow:

AGENDA: NATIONAL RAILROAD PASSENGER CORPORATION, MEETING OF THE BOARD OF DIRECTORS—AUGUST 31, 1977

(9:30 a.m.) CLOSED SESSION:
1. Internal Personnel Matters.
2. Fare Increase Strategy.
(10 a.m.) OPEN SESSION:
3. Approval of Minutes of Regular Meeting of July 27, 1977.
4. Commitment Approval Requests:

75–245R	Purchase Teletypewriters.
77–35R	Ticket-by-Mail EDP Equipment.
77–194	Bridge Repairs—Northeast Corridor Spur Lines.
77–204	Pollution Control—Lincoln, Nebraska.
77–208	Omaha Station and Trackage.
77–218	Station Modifications—Charleston, West Virginia.
77–219	Elevator for Handicapped—Penn Station, New York.
77–221	Construct Station—Schenectady, New York.

5. Board Committee Reports:
(A) Track Policy:
(1) Track Policy Final Report.
(B) Northeast Corridor Improvement Project:
(1) Status of Improvement Master Plan.
(2) Status of 1977 Program.
(3) Status of Clean-up Program Contracts.
(4) Status of Woonasquatucket River Bridge.
(5) Labor Situation.
(C) Planning/Equipment:
(1) Baltimore-Washington International Intermodal Facility Status Report.
(2) Route Criteria—Butte and Helena Public Review.
6. President's Reports:
(A) Operations:
(1) National Operations.
(2) Operations Support.
(3) Northeast Corridor Operations.
(B) Marketing.
(C) Government Affairs.
(D) Other.
7. Financial Reports.
8. General Fare Increase.
9. Status of Floridian.
10. New Business.
11. Adjournment.

D. Inquiries regarding the information required to be made available to the public pursuant to Appendix A of the Corporation's By-laws should be directed to the Corporate Secretary at (202) 484–7679.

Dated: August 19, 1977.

ELYSE G. WANDER,
Corporate Secretary.

4

FEDERAL POWER COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: (pub. 8–23–77).

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 10:00 a.m., August 24, 1977.

CHANGE IN THE MEETING: The following item has been added:

Item No. and Docket No. and Company

G–9.—CI77–306, Transco Exploration Company.

KENNETH F. PLUMB,
Secretary.

[S–1161–77 Filed 8–19–77;4:38 pm]

5

SECURITIES AND EXCHANGE COMMISSION.

TIME AND DATE: 7:30 a.m. August 22, 1977; 7:30 a.m., August 23, 1977; 7:30 a.m., August 24, 1977.

PLACE: Room 825, 500 North Capitol Street, Washington, D.C.

STATUS: Closed meetings.

SUBJECT MATTER: Consideration of investigative matter.

Chairman Williams, Commissioners Loomis, Evans, and Pollack voted to close the meetings and determined that no earlier notice thereof was possible.

AUGUST 19, 1977.

[S–1163–77 Filed 8–22–77;9:03 am]

6

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 42 FR 41950 (S–1110–77).

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 9:30 a.m. (Eastern Time), Tuesday, August 23, 1977.

CHANGES IN THE MEETING: Deletion of the following item from the portion open to the public:

Freedom of Information Act Appeal 77–6–FOIA–132.—With the deletion of this item, the status of the meeting is changed and is now closed to the public.

A majority of the entire membership of the Commission determined by recorded vote, on August 19, 1977, that the business of the Commission requires this change and that no earlier announcement was possible.

The vote was as follows:

In favor of change: Eleanor Holmes Norton, Chair; Ethel Bent Walsh, Commissioner; Daniel E. Leach, Commissioner.

Opposed: None.

CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202–634–6748.

This notice issued August 19, 1977.

PART II

COMMODITY FUTURES TRADING COMMISSION

BONA FIDE HEDGING AND RELATED REPORTING REQUIREMENTS

Definition

V42164 AUG 24 77 UM

Title 17—Commodity and Securities Exchanges

CHAPTER I—COMMODITY FUTURES TRADING COMMISSION

PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

Definition of Bona Fide Hedging and Related Reporting Requirements

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rules.

SUMMARY: The Commodity Futures Trading Commission ("the Commission") has reviewed its definition of bona fide hedging and found it is inadequate due to changes in commercial practices and the diverse nature of commodities now under regulation.

The Commission has therefore adopted amendments to its general regulations under the Commodity Exchange Act as amended ("the Act") which would generally broaden the scope of the hedging definition to include current commercial risk shifting practices in the markets now under regulation. The Commission has also recognized the potential for market disruption if certain trading practices are carried out during the delivery period of any future. The definition therefore restricts the classification of certain transactions and positions as bona fide hedging during the last five days of trading. In addition, the Commission has amended its regulations to include reporting requirements for some new types of bona fide hedging which will now be recognized.

The intended effect of this action is to increase commercial utilization of futures markets for the purpose of hedging by allowing additional exemptions from the Commission's limits on transactions and positions. It is also intended to encourage increased commercial participation through recognition of a broad range of current risk shifting uses of futures markets. The new restrictions incorporated in the definition and reporting requirements are intended to limit the potential for market disruption.

EFFECTIVE DATE: October 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Blake Imel, Office of the Chief Economist, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581 (202-254-6124).

SUPPLEMENTARY INFORMATION: Section 4a of the Act authorizes the Commission to establish limits on the trading and positions ("speculative limits") of any person in contracts for future delivery on or subject to the rules of any contract market. As amended by section 404 of the Commodity Futures Trading Commission Act of 1974 ("CFTC Act"), that section further provides that such limits shall not "apply to transactions or positions which are shown to be bona fide hedging transactions or positions" as such terms shall be defined by the Commission. Prior to the enactment of the CFTC Act, the terms bona fide hedging transactions or positions were defined in section 4a(3) of the Act.

In March 1977 the Commission solicited public comment (42 FR 14832, March 16, 1977) on a revision of the definition of "bona fide hedging transactions or positions" provided in § 1.3(z) of its regulations, 17 CFR 1.3(z) (1977). In the same notice the Commission also requested comment on a revision of § 1.48 of its regulations, 17 CFR 1.48 (1977), which specifies certain reporting requirements for persons classifying positions as bona fide hedging of unfilled anticipated requirements and a proposed new § 1.47 which would contain the requirements for classifying certain other positions as bona fide hedging under the revision of § 1.3(z) being proposed at that time.

Major Proposed Amendments

The major amendments to the definition of bona fide hedging and attendant reporting requirements proposed in the Federal Register on March 16, 1977, were as follows:

1. Paragraph (1) of the proposed hedging definition provided a conceptual definition of transactions and positions which the Commission would consider as bona fide hedging under economically appropriate circumstances and subject to other provisions of the regulations.

2. Paragraph (2) of the proposed definition provided a description of specific purchases and sales for future delivery which the Commission considered to be in conformity with the general conceptual definition in proposed paragraph (1). The principal amendments to this provision of the definition which describes specific purchases and sales were as follows:

(a). A general provision for considering as bona fide hedging purchases and sales for future delivery which are offset by positions which are not the same quantity of the same cash commodity ("cross commodity hedging"). Transactions and positions of this nature were not to be considered as bona fide hedging during the five last days of trading in any expiring futures contract.

(b) A provision which restricted or eliminated the extent to which purchases and sales for future delivery would be considered bona fide hedging of unfilled anticipated requirements for manufacturing, processing and feeding or of anticipated production during the five last trading days of any expiring futures contract.

(c) Deletion of references to transactions and positions in commodities where the Commission has no speculative limits currently in effect and to specific transactions and positions which would fall under the proposed general provision for cross commodity hedging.

(d) A provision which excludes all purchases and sales for future delivery by governments or their agents from the enumerated listing. The intended effect was to require governments or their agents to apply for individual approval under the provisions of a new paragraph (3) of the proposed definition and the proposed new § 1.47 of the regulations.

3. Paragraph (3) of the proposed hedging definition provided that for purposes of determining exemptions from the Commission's speculative limits the Commission would recognize as bona fide hedging purchases and sales other than those specifically enumerated in proposed paragraph (2). Proposed paragraph (3) required in effect that any person requesting permission to classify such purchases or sales as hedging must provide the Commission with evidence that such transactions meet the requirements of the general definition in paragraph (1) of proposed § 1.3(z). The purpose of this proposed provision was to provide flexibility in application of the general definition and to avoid an extensive specialized listing of enumerated bona fide hedging transactions and positions in paragraph (2) of the proposed definition.

4. A proposed new § 1.47 set forth the requirements for considering transactions and positions as bona fide hedging pursuant to paragraph (3) of the proposed hedging definition. It required that certain information be provided to the Commission before such purchases or sales for future delivery could exceed the Commission's speculative limits. The Commission would have thirty days to review initial requests and approve the level of purchases and sales specified therein, specify a lower level, or request additional information. The Commission would have ten days to review subsequent applications by the same person.

5. Revisions to § 1.48 were proposed for the purpose of: (a) Conforming reporting requirements to the proposed revisions in the hedging definition and proposed § 1.47, and (b) codifying existing procedures employed under the current regulation.

In response to the request for comment on these proposed revisions or amendments, the Commission received over 20 responses from individuals, firms, exchanges and associations. Most of the comments concerned the proposed hedging definition rather than the proposed new § 1.47 or the proposed revision of § 1.48. Careful consideration has been given to these comments and to the issue of bona fide hedging in general. The following is a discussion of the amendments to these proposed regulations and the more pertinent issues considered by the Commission in adopting the new regulations.

Conceptual Definition of Hedging

One commentator noted that the language in paragraph (1) of the proposed § 1.3(z) does not recognize "balance sheet Ledging." Specifically, while conforming to all other aspects of the proposed general definition such transactions or positions do not represent "a substitute for transactions to be made or positions to be taken at a later time in a physical marketing channel."[1] The Commission has considered this example and found other relatively infrequent but potentially important examples of risk reducing futures transactions which may not conform to this aspect of the proposed general definition. Accordingly, paragraph (1) of the proposed definition has been amended to state that bona fide hedging transactions and positions "*normally* represent a substitute * * *".

The Commission considered other comments concerning the proposed conceptual definition but was not persuaded that this particular proposed provision should be further amended.

Government Hedging

As proposed, the bona fide hedging definition would have required governments or their agents to seek Commission approval of proposed hedging transactions on the part of governments. The Commission received limited comment on this proposal. However, upon further consideration, the Commission has determined not to impose any special requirements on governments' hedging transactions or positions at this time. The Commission believes that this question requires further study, particularly the issue of foreign government participation in the futures markets.

Anticipated Production

The Commission received several comments on the provision in paragraph (2) of the proposed hedging definition which concerns the hedging of up to twelve months' anticipated production (§ 1.3(z)(2)(i)(B)). All but one of these comments were from persons who are processors of agricultural commodities rather than producers. Comments on this provision were not expected from processors since paragraph (2) affects trading in only those commodities for future delivery where the Commission's speculative limits are currently in effect and all such commodities are agriculturally produced. However, agricultural processors such as flour millers noted that the new provision for cross hedging in the proposed regulation creates the possibility of hedging processed agricultural commodities in the futures markets for basic agricultural products. They note however that the cross hedging provision will be of little value unless the bona fide hedging of anticipated non-agricultural production is permitted.

Although the Commission had not considered the particular case, the language of paragraph (2) of the proposed definition would allow sales for future delivery to be offset by up to twelve months' anticipated non-agricultural production. This resulted jointly from the deletion of the word "agricultural" from the provision for the hedging of anticipated production in the current definition,[2] and the proposed general provision for cross hedging. In view of the comments on the hedging of anticipated non-agricultural production, the Commission has not changed the substance of the language in the proposal which would recognize this form of bona fide hedging. However, in an effort to conform the provision for hedging anticipated production to the provision for hedging "unfilled anticipated requirements" (§ 1.3(z)(2)(ii)(C) of the proposal), the language of the proposed § 1.3(z)(2)(i)(B) has been amended to refer to "unsold anticipated production." Unsold anticipated production is computed by deducting any fixed-price sales of anticipated production from total anticipated production.

In addition, due to the possibility of increased utilization of this provision by larger scale producers, such as agricultural processors, the Commission has amended the proposed § 1.48 to include periodic reporting of unsold anticipated production by persons whose offsetting sales for future delivery would be in excess of the Commission's speculative limits.

One commentator stated that the provision for hedging anticipated production should be extended beyond the proposed twelve months in accordance with the longer term leases (twenty-four to thirty-six months) signed by agricultural producers, but also acknowledged the provisions of the proposed definition which might permit case-by-case approval of such hedging. The Commission has considered this statement, which was not supplemented with any data on the extent to which agricultural producers hedge more than twelve months' production, and believes review of individual applications for such hedging is more appropriate than amendment of the enumerated provisions of paragraph (2) of the proposed definition.

Cross Commodity Hedging

Paragraph (2) of the proposed definition included a general provision for cross commodity hedging provided that, among other things, "the value and fluctuations in value of the position for future delivery are substantially related to the value and fluctuations in value of the actual or anticipated cash position." One commentator expressed concern over the concept of "value equivalent" noting that the important consideration for cross hedging should be the relationship between futures and cash price fluctuations on a unit basis. The Commission agrees with this comment and has deleted in § 1.3(z)(3)(iii) of the newly adopted definition that language which equates cash and futures positions in different commodities in terms of value rather than value fluctuations.

Five Day Rule

The Commission received numerous comments on the "five-day rule" for anticipatory hedges and cross commodity hedges in paragraph (2) of the proposed definition. These provisions eliminate or further restrict the extent to which certain transactions or positions may be considered bona fide hedging for the purposes of anticipatory hedging or cross commodity hedging if they are made or held in the five last days of trading in any expiring futures contract. Several commentators expressed the view that the rule was unfair or unneeded. Persons interested in long anticipatory hedging noted that the restriction to less than two months unfilled anticipated requirements may often effectively preclude taking delivery since many firms would already be carrying a long cash position equal to their total requirements for that period of time. Other persons noted that allowing positions equal to unfilled requirements for the current month and the month next proceeding during the last five trading days is to restrictive because the time span between maturing contracts is sometimes as much as three months.

The Commission understands the "five-day rule" will restrict or eliminate the extent to which persons may classify as bona fide hedging certain transactions and positions which are made or held in an expiring contract during the five last days of trading. However, it has not been persuaded by the written commentary that these proposed provisions should be amended or eliminated. With respect to anticipatory hedges of unfilled anticipated requirements the Commission has considered the historically low utilization of this provision in terms of actual positions acquired in the futures market. For cross hedge and short anticipatory hedge positions, the Commission does not believe that persons who do not possess or do not have a commercial need for the commodity for future delivery will normally wish to participate in the delivery process. As a result, the five-day provisions have not been amended. In not amending the five-day rules the Commission notes the following: (1) Positions subject to the five-day rule can still be carried during the five last trading days if they do not exceed the Commission's speculative limits and (2) persons wishing to exceed such limits during the five last trading days may submit materials supporting classi-

[1] One form of balance sheet hedging would involve offsetting net exposure to changes in currency exchange rates for the purpose of stabilizing the domestic dollar accounting value of assets which are held abroad. In the case of depreciable capital assets, such hedging transactions might not represent a substitute for subsequent transactions in a physical marketing channel.

[2] Section 1.3(z)(1) of the current definition allows a person to hedge "with respect to agricultural commodities the amount of such commodity such person is raising, or in good faith intends or expects to raise within the next twelve months (eighteen months for cane sugar) on land which such person owns or leases." In redrafting this concept into the proposed § 1.3(z)(2)(i)(B) the word agricultural was dropped (among other things). This was done in an effort to simplify the language since that paragraph was to apply only to markets with limits currently in effect pursuant to § 4a of the Act. All of these markets are for agriculturally produced commodities.

V 42 164 AUG 24 77 UM

fication of the position as bona fide hedging pursuant to paragraph (3) of the newly-adopted definition.

OTHER COMMENTS ON THE PROPOSED ENUMERATED TRANSACTIONS AND POSITIONS

Several persons pointed out that the specific transactions and positions enumerated as bona fide hedging in paragraph (2) of the proposal would be deficient for certain commodities where the Commission currently has no speculative limits. The Commission is aware of this possibility but, as noted in the March 16, 1977, FEDERAL REGISTER notice containing the proposed hedging definition, the Commission does not believe that it is necessary to enumerate transactions and positions which would be considered bona fide hedging in markets where it currently has no speculative limits.[5]

In this connection, one commentator stated that implications of the definition of bona fide hedging go further than markets where the Commission currently has speculative limits in effect and involve the classification of positions for future delivery on the CFTC series '03 reports[6] and affect the minimum financial requirements for futures commission merchants under § 1.17 of the Commission's regulations, 17 CFR 1.17 (1977). In response to the first comment, the Commission notes its proposal to eventually supplant the series '03 reports with other reports which will not require that positions be classified as either hedging or speculation.[5]

With respect to the second comment, § 1.17 provides that in determining compliance with the minimum financial requirements imposed on futures commission merchants, as they pertain to the definition of adjusted working capital and the computation of safety factors, certain references are made to bona fide hedging transactions and positions as defined in § 1.3(z). In proposing new section 1.3(z), the Commission did not intend to expand the types of bona fide hedging transactions and positions that are to be used in determining compliance with § 1.17. Accordingly, the Commission believes that an amendment to paragraphs (c)(6) and (e) of regulations 1.17 is necessary to apply only to those transactions and positions referred to in the newly adopted bona fide hedging definition that are substantially the same as those contained in the present bona fide hedging definition. The Commission is therefore proposing to amend § 1.17 and to adopt the amendments to become effective concurrently with the adoption of the new bona fide hedging definition. See 42 FR 42765 (1977). However, in view of this comment the Commission intends to study further the relationship between the definition of "bona fide hedging transactions or positions" and the minimum financial requirements in § 1.17 of its regulations.

One commentator objected to the provisions of the proposed enumerated listing in paragraph (2) which continue to permit persons to classify as bona fide hedging any purchase or sale for future delivery which is offset by their gross cash position irrespective of their net cash position (so called "double hedging"). The Commission is not persuaded by this commentator's statement that the provisions of the proposed definition which allow the hedging of gross cash positions operate to the detriment of domestic agricultural producers. In addition, the Commission refers to the numerous written and oral comments it has previously received on the subject of hedging gross positions. In summary, these comments were to the effect that net cash positions do not necessarily measure total risk exposure and in such cases the hedging of gross cash positions does not constitute "double hedging."[6] Accordingly, the Commission has not amended the provisions of the proposed definition which relate to the hedging of gross cash positions.

NON-ENUMERATED TRANSACTIONS AND POSITIONS

One commentator favored the provisions of paragraph (3) of the proposed definition which pertained to Commission approval of non-enumerated transactions and positions, but recommended that "organized exchanges, various trade associations as well as individual firms be permitted right of petition under this category." The Commission has considered this suggestion but did not amend paragraph (3) of the proposed hedging definition or proposed § 1.47 to permit such petition. The Commission believes that the nature of transactions and positions which would be considered as bona fide hedging under paragraph (3) of § 1.3(z) is such that the economic circumstances of each case should be considered individually.[7]

The Commission has amended paragraph (3) of the proposed § 1.3(z) by deleting the references to governments or their agents.

SECTIONS 1.47 AND 1.48

Paragraph (d) of the proposed § 1.47 has been amended to conform its requirements to the language in the newly adopted § 1.3(z)(2)(ii) which concerns cross-hedging. The term "value equivalents" in the proposed § 1.47(d)(1) has been amended to read "value fluctuation equivalents." In addition, the references to governments or their agents have been deleted from proposed section 1.47.

As noted above, the joint effect of deleting the word agricultural from § 1.3(z)(2)(i)(B) of the current hedging definition and the newly adopted provision for cross commodity hedging is that non-agricultural producers will now be allowed to exceed the Commission's speculative limits for the purpose of hedging of up to twelve months' unsold anticipated production. Due to the possibility of increased utilization of this provision by larger scale producers, such as agricultural processors, the Commission has amended section 1.48 to include periodic reporting of unsold anticipated production by persons whose sales for future delivery would be in excess of the Commission's speculative limits. These reporting requirements for unsold anticipated production are similar to those for unfilled anticipated requirements which were contained in the proposed and newly adopted § 1.48.

In consideration of the foregoing, the Commission, pursuant to its authority under §§ 4(a) and 8(a) of the Act, 7 U.S.C. §§ 6(a) and 12(a) (Supp. V, 1975), hereby amends Part 1 of Chapter I of Title 17 of the Code of Federal Regulations by amending §§ 1.3(z) and 1.48 and adopting a new § 1.47 to read as follows:

. . . . .

§ 1.3 Definitions.

. . . . .

(z) *Bona Fide Hedging Transactions and Positions.*

(1) *General Definition.* Bona fide hedging transactions and positions shall mean transactions or positions in a contract for future delivery on any contract market, where such transactions or positions normally represent a substitute for transactions to be made or positions to be taken at a later time in a physical

[5] See 42 FR 14834 (March 16, 1977).

[6] Section 18.00 of the regulations requires that traders who are in reporting status in a commodity for future delivery file CFTC series '03 reports which, among other things, show the total open contracts held or controlled in that commodity and classified as hedging or speculative. A trader is in reporting status if the size of his position in any one future of the commodity exceeds levels specified in § 15.03 of the regulations under the Act.

[5] See 41 FR 3050 (July 23, 1976). Several phases of this plan to make major changes in the Commission's large trader reporting system have already been implemented and others are in the process of being implemented.

[6] These views were received in response to the Commission's August 1975 request for comment on the definition of bona fide hedging (40 FR 30627) and the hearings on the same subject in New York City on January 8 and 9, 1976. They were summarized in the March 1977 FEDERAL REGISTER notice requesting comment on the proposals being discussed here (42 FR 14832, March 16, 1977).

[7] Another commentator stated that no firm should have to seek prior approval under paragraph (3) of the proposed hedging definition as long as the firm determines that the transactions fall within the conceptual definition in paragraph (1). However, this commentator did not provide any suggestions as to the manner in which the Commission would determine compliance with its speculative limits under this suggested arrangement.

marketing channel, and where they are economically appropriate to the reduction of risks in the conduct and management of a commercial enterprise, and where they arise from:

(i) The potential change in the value of assets which a person owns, produces, manufactures, processes, or merchandises or anticipates owning, producing, manufacturing, processing, or merchandising,

(ii) The potential change in the value of liabilities which a person owes or anticipates incurring, or

(iii) The potential change in the value of services which a person provides, purchases or anticipates providing or purchasing.

Notwithstanding the foregoing, no transactions or positions shall be classified as bona fide hedging for purposes of section 4a of the Act unless their purpose is to offset price risks incidental to commercial cash or spot operations and such positions are established and liquidated in an orderly manner in accordance with sound commercial practices and unless the provisions of paragraphs (z) (2) and (3) of this section and sections 1.47 and 1.48 of the regulations have been satisfied.

(2) *Enumerated Hedging Transactions.* The definition of bona fide hedging transactions and positions in paragraph (1) of this section includes, but is not limited to, the following specific transactions and positions:

(i) *Sales* of any commodity for future delivery on a contract market which do not exceed in quantity:

(A) Ownership or fixed-price purchase of the same cash commodity by the same person; and

(B) Twelve months' unsold anticipated production of the same commodity by the same person provided that no such position is maintained in any future during the five last trading days of that future.

(ii) *Purchases* of any commodity for future delivery on a contract market which do not exceed in quantity:

(A) The fixed-price sale of the same cash commodity by the same person;

(B) The quantity equivalet of fixed-price sales of the cash products and by-products of such commodity by the same person; and

(C) Twelve months' unfilled anticipated requirements of the same cash commodity for processing, manufacturing, or feeding by the same person, provided that such transactions and positions in the five last trading days of any one future do not exceed the person's unfilled anticipated requirements of the same cash commodity for that month and for the next succeeding month.

(iii) Sales and purchases for future delivery described in paragraphs z(2)(i) and z(2)(ii) of this section may also be offset other than by the same quantity of the same cash commodity, provided that the fluctuations in value of the position for future delivery are substantially related to the fluctuations in value of the actual or anticipated cash position, and provided that the positions in any one future shall not be maintained during the five last trading days of that future.

(3) *Non-Enumerated cases.* Upon specific request made in accordance with section 1.47 of the regulations, the Commission may recognize transactions and positions other than those enumerated in paragraph (2) of this section as bona fide hedging in such amounts and under such terms and conditions as it may specify in accordance with the provisions of § 1.47. Such transactions and positions may include, but are not limited to, purchases or sales for future delivery on any contract market by an agent who does not own or who has not contracted to sell or purchase the offsetting cash commodity at a fixed price, *provided* that the person is responsible for the merchandising of the cash position which is being offset.

. . . . .

§ 1.17 Requirements for Classification of Purchases or Sales of Contracts for Future Delivery as Bona Fide Hedging under § 1.3(z)(3) of the Regulations.

(a) Any person who wishes to avail himself of the provisions of § 1.3(z)(3) of the regulations and to make purchases or sales of any commodity for future delivery in any commodity in excess of trading and position limits then in effect pursuant to section 4a of the Act shall file statements with the Commission in conformity with the requirements of this section. All or a specified portion of the transactions and positions described in these statements shall not be considered as bona fide hedging if such person is so notified by the Commission:

(1) Within 30 days after the Commission is furnished the information required under paragraph (b) of this section, or

(2) Within 10 days after the Commission is furnished with the information required under paragraph (c) of this section.

The Commission may request the person notified to file specific additional information with the Commission to support a determination that all, or the specified portion, of the transactions and positions be considered as bona fide hedging transactions and positions. In such cases, the Commission shall consider all information so filed and, by notice to such person, shall specify the extent to which the Commission has determined that the transactions and positions may be classified as bona fide hedging. In no case shall transactions and positions described be considered as bona fide hedging if they exceed the levels specified in paragraph (d) of this section.

(b) *Initial Statement.* Initial statements concerning the classification of transactions and positions as bona fide hedging pursuant to § 1.3(z)(3) shall be filed with the Commission at least 30 days in advance of the date that such transactions or positions would be in excess of limits then in effect pursuant to section 4a of the Act. Such statements shall:

(1) Describe the transactions and positions for future delivery and the offsetting cash positions;

(2) Set forth in detail information which will demonstrate that the purchases and sales are economically appropriate to the reduction of risk exposure attendant to the conduct and management of a commercial enterprise;

(3) Contain, and upon request of the Commission be supplemented by, such other information which is necessary to enable the Commission to make a determination whether the particular purchases and sales for future delivery fall within the scope of those described in section 1.3(z)(1) of the regulations;

(4) Include a statement concerning the maximum size of positions for future delivery (both long and short) which will be acquired any time during the next fiscal year or marketing season of the person filing or on whose behalf the filing is made.

(5) In addition: statements filed by an agent, concerning a futures position which would offset a cash position which the agent does not own or has not contracted to buy or sell, shall contain information describing all contractual arrangements between the agent filing and the person who owns the commodity or holds the cash market commitment being offset;

(6) Statements concerning futures positions to be acquired against unsold anticipated production or unfilled anticipated requirements for manufacturing, processing or feeding shall also include the information required under § 1.48 of the regulations.

(c) *Supplemental Reports.* Whenever the purchases or sales which a person wishes to classify as bona fide hedging shall exceed the amount provided in the person's most recent filing pursuant to this section or the amount previously specified by the Commission pursuant to paragraph (a) of this section, such person shall file with the Commission a statement which updates the information provided in the person's most recent filing and provides the reasons for this change at least ten days in advance of the date that person wishes to exceed those amounts.

(d) *Maximum Purchases and Sales.* Purchases and sales for future delivery considered bona fide hedging pursuant to § 1.3(z)(3) of the regulations shall at no time exceed the lesser of:

(1) The value fluctuation equivalent (in terms of the commodity for future delivery) of the current cash position described in the information most recently filed pursuant to this section, or

(2) the maximum level of long or short open positions provided in the information most recently filed pursuant to this section or most recently specified by the Commission pursuant to paragraph (a) of this section.

(e) *Updated Reports.* Reports updating the information required pursuant to this section also shall be filed with the Commission upon specific request.

§ 1.13 Requirements for Classification of Sales or Purchases for Future Delivery as Bona Fide Hedging of Unsold Anticipated Production or Unfilled Anticipated Requirements Under § 1.3(z)(2)(i)(B) or (ii)(C) of the Regulations.

(a) Any person who wishes to avail himself of the provisions of § 1.3(z)(2)(i)(B) or § 1.3(z)(2)(ii)(C) of the regulations and to make sales or purchases for future delivery in any commodity in excess of trading and position limits then in effect pursuant to section 4a of the Act for the purposes of bona fide hedging shall file statements with the Commission in conformity with the requirements of this section. All or a specified portion of the unsold anticipated production or unfilled anticipated requirements described in these statements shall not be considered as offsetting positions for bona fide hedging transactions and positions if such person is so notified by the Commission within ten days after the Commission is furnished with the information required under paragraphs (b) or (c) of this section. The Commission may request the person notified to file specific additional information with the Commission to support a determination that the statement filed accurately reflects unsold anticipated production or unfilled anticipated requirements for manufacturing, processing or feeding. In such cases, the Commission shall consider all additional information so filed and, by notice to such person, shall specify its determination as to what portion of the production or requirements described constitutes unsold anticipated production or unfilled anticipated requirements for the purposes of bona fide hedging. In no case shall such transactions and positions which offset unsold anticipated production or unfilled anticipated requirements be considered bona fide hedging if they exceed the levels specified in paragraph (d) of this section of the regulations.

(b) *Initial Statement.* Initial statements concerning the classification of transactions and positions as bona fide hedging pursuant to section 1.3(z)(2)(i)(B) or 1.3(z)(2)(ii)(C) shall be filed with the Commission at least ten days in advance of the date that such transactions or positions would be in excess of limits then in effect pursuant to section 4a of the Act. Such statements shall set forth in detail for a specified operating period not in excess of one year the person's unsold anticipated production or unfilled anticipated requirements for processing or manufacturing or feeding and explain the method of determination thereof, including, but not limited to, the following information:

(1) For unsold anticipated production:

(i) Annual production of such commodity for the three complete fiscal years preceding the current fiscal year;

(ii) Anticipated production of such commodity for a specified period not in excess of one year;

(iii) Fixed-price forward sales of such commodity;

(iv) Unsold anticipated production of such commodity for a specified period not in excess of one year.

(2) For unfilled anticipated requirements:

(i) Annual requirements of such commodity for processing or manufacturing or feeding for the three complete fiscal years preceding the current fiscal year;

(ii) Anticipated requirements of such commodity for processing or manufacturing or feeding for a specified operating period not in excess of one year;

(iii) Inventory and fixed-price forward purchases of such commodity, including any quantity in process of manufacture and finished goods and byproducts of manufacture or processing (in terms of such commodity);

(iv) Unfilled anticipated requirements of such commodity for processing or manufacturing or feedings for a specified operating period not in excess of one year.

(3) Additional information: Persons hedging unsold anticipated production or unfilled anticipated requirements which are not the same quantity or are not the same commodity as the commodity to be sold or purchased for future delivery shall furnish this information both in terms of the actual commodity produced or used and in terms of the commodity to be sold or purchased for future delivery. In addition, such persons shall explain the method for determining the ratio of conversion between the amount of the actual unsold anticipated production or unfilled anticipated requirements and the amount of commodity to be sold or purchased for future delivery. Persons hedging unfilled annual feeding requirements for livestock and poultry shall provide the number of cattle, hogs, sheep, or poultry expected to be fed during the specified period, not to exceed one year, and the derivation of their annual requirements based upon these numbers. Persons filing as an agent shall furnish this information on the basis of the fiscal or operating year of the person on whose behalf the filing is made.

(c) *Supplemental Reports.* Whenever the sales or purchases which a person wishes to consider as bona fide hedging of unsold anticipated production or unfilled anticipated requirements shall exceed the amounts described by the figures for requirements furnished in the most recent filing pursuant to this section or the amounts determined by the Commission to constitute unsold anticipated production or unfilled anticipated requirements pursuant to paragraph (a) of this section, such person shall file with the Commission a statement which updates the information provided in the person's most recent filing and supplies the reason for this change at least ten days in advance of the date that person wishes to exceed these amounts.

(d) *Maximum Sales and Purchases.* Sales or purchases for future delivery considered as bona fide hedges pursuant to sections 1.3(z)(2)(i)(B) or (ii)(C) shall at no time exceed the lesser of:

(i) A person's unsold anticipated production or unfilled anticipated requirements as described by the information most recently filed pursuant to this section or determined by the Commission pursuant to paragraph (a) of this section, or

(ii) A person's actual unsold anticipated production or current unfilled anticipated requirements for the length of time specified in the information most recently filed pursuant to this section.

(e) *Updated Reports.* Reports updating the information required pursuant to this section shall also be filed with the Commission upon specific request.

* * * * *

The foregoing amendments are adopted effective October 1, 1977.

Issued in Washington, D.C., on August 19, 1977.

For the Commission.

WILLIAM T. BAGLEY,
Chairman, Commodity Futures Trading Commission.

GUIDANCE AND COUNSELING PROGRAM GRANTS

Requirements and Evaluation Criteria

V 42 164 AUG 24 77 UM

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 191—GUIDANCE AND COUNSELING

AGENCY: Office of Education, HEW.

ACTION: Final regulation.

SUMMARY: This document sets forth requirements and evaluation criteria governing the award of grants for guidance and counseling programs in conformance with the Education Amendments of 1976. The regulation makes provisions for grants to provide programs, projects and leadership activities, to increase the coordination of guidance and counseling activities, and to improve the qualifications of guidance and counseling personnel.

EFFECTIVE DATE: Pursuant to section 431(d) of the General Education Provisions Act, as amended (20 U.S.C. 1232 (d)), this regulation has been transmitted to the Congress concurrently with its publication in the FEDERAL REGISTER. This section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of transmission, subject to the provisions in that section concerning Congressional action and adjournment.

FOR FURTHER INFORMATION CONTACT:

Dr. Donald Twiford, Guidance and Counseling Program, U.S. Office of Education, 400 Maryland Avenue, S.W., Regional Office Building No. 3, Room 3608, Washington, D.C. 20202, telephone 202–245–2243.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Part D of Title III of the Education Amendments of 1976 (Pub. L. 94–482) authorizes three new guidance and counseling initiatives described below with the intent of (1) providing programs, projects and leadership activities by States in guidance and counseling for FY 1977, (2) increasing the coordination of guidance and counseling activities at the Federal, State, and local levels, and (3) improving the qualifications of guidance and counseling personnel, with special emphasis on inservice training which takes educational professionals into the workplaces of business, industry, and the professions.

Subpart B of the regulation governs a program of grants to States in Fiscal Year 1977 for "programs, projects, and leadership activities to expand and strengthen guidance and counseling services in elementary and secondary schools." These grants will be allotted to the States on a formula grant basis, and to Guam, American Samoa, the Virgin Islands, the Trust Territories of the Pacific Islands, schools for Indian children operated by the Department of Interior, and the overseas dependent schools of the Department of Defense on the basis of their respective needs.

Subpart C of the regulation governs a competitive grant program for Fiscal Years 1978 and 1979 to assist State and local educational agencies, institutions of higher education, and private nonprofit organizations in conducting institutes, workshops, and seminars to improve the professional guidance qualifications of teachers, counselors, and supervisory and technical personnel having responsibilities for guidance and counseling, and to improve guidance and counseling supervisory services in State and local educational agencies and nonpublic elementary and secondary school systems.

Subpart D governs a program of grants to be made to States to assist them in carrying out programs to coordinate new and existing programs of guidance and counseling.

No regulations are needed to implement Sec. 343 of Pub. L. 94–482, which provides for the establishment or designation of an administrative unit within the Office of Education to (1) provide information regarding guidance and counseling activities to Federal, State, and local governments, (2) advise the Commissioner on coordinating guidance and counseling at the Federal level and, where feasible, at the State and local levels, and (3) administer the programs under this part.

CITATIONS OF LEGAL AUTHORITY

As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232(a)), a citation of statutory or other legal authority for each section of the regulation has been placed in parentheses on the line following the text of the section. References to "Sec." in the citations of authority following provisions of the regulation refer to sections of the Education Amendments of 1976, Pub. L. 94–482. If the citation uses the word, "interprets," the regulation provisions include an interpretation of the cited statutory provision. If the citation uses the word, "implements," the regulation provisions include rules considered necessary to implement the statute.

PUBLIC RESPONSE TO THE PROPOSED REGULATION

Approximately thirty written comments were received within the comment period on the notice of proposed rulemaking which was published in the FEDERAL REGISTER on May 20, 1977 (42 FR 25881). Comments were received from universities or colleges, State educational agencies, local educational agencies, and private associations or institutions.

The overall reaction to the regulation was supportive. The following specific comments were made. After a summary of each comment, a response is set forth stating changes which have been made in the regulation or the reasons why no change is considered appropriate. The comments appear in the order of the sections of the final regulation.

SUMMARY OF COMMENTS AND RESPONSE

GENERAL

Eligibility

Comment. A number of respondents made suggestions or raised questions with respect to eligibility for awards. Several asked if community colleges were eligible for awards, and one respondent urged that postsecondary level counselors in community and junior colleges be eligible to receive training, and that funds be earmarked for them. Another respondent recommended that counselors and teachers in nonprofit, nonschool agencies serving out-of-school youth or adults be eligible to receive training. Two respondents expressed concern that higher education would not benefit to any significant degree from the program due to a lack of receptivity to higher education programs by State educational agencies. One of these respondents recommended that higher education be allocated a minimum amount of funds under subpart C of the regulation, and that institutions of higher education be made eligible to receive funds under subparts B and D.

Several respondents addressed cooperative arrangements between applicants. One asked if local educational agencies could form a consortium and submit a project for several local educational agencies. Another of these respondents proposed that the regulation encourage cooperative arrangements in programs of training and State level coordination among new and developing guidance and counseling associations organized specifically to serve particular ethnic groups. One respondent strongly urged that nonprofit organizations qualified to serve Hispanic students and other minority groups be eligible for grants.

Response. No change has been made in the regulation. The statute provides that those awards described in subpart C of the regulation may be made to State and local educational agencies, institutions of higher education, and private nonprofit organizations. Community colleges would be eligible for grants under subpart C of the regulation if they are institutions of higher education, as defined by the regulation, or private nonprofit organizations. It is also possible that particular community colleges may qualify as "local educational agencies" if they can establish that they are public authorities legally constituted within a State for administrative control or direction of, or to perform a service function for, public elementary or secondary schools.

While many community colleges will be eligible for funding under these provisions, they may not be funded to train their own teachers and counselors at the postsecondary level. The statute for the program is expressly designed to strengthen guidance and counseling services in elementary and secondary schools (Sec. 342(b)(1), Pub. L. 94–482), and the Office of Education interprets the statutory authorization for training programs to be for teachers and guidance

counselors at the elementary and secondary school level (Sec. 344(a), Pub. L. 94–482). While not specifically defined in the authorizing statute, the term "secondary school" has been defined in both the Elementary and Secondary Education Act of 1965, as amended (Sec. 801 (h)), and the Higher Education Act of 1965, as amended (Sec. 1201(d)), not to include education beyond grade 12. The Office of Education believes these provisions reflect Congress general understanding of the term "secondary school" not to include education beyond grade 12. The Office of Education concludes that postsecondary level teachers and counselors in community and junior colleges are ineligible under the statute to receive training.

The statute also limits eligibility for training to teachers and counselors in State and local educational agencies and nonpublic school systems. Teachers and counselors in private nonschool agencies who work with out-of-school youth would not be eligible to participate. Teachers and counselors in private organizations would be eligible only if the organizations are elementary or secondary school systems, as defined in § 191.12.

Institutions of higher education are eligible to compete for awards under subpart C on the same basis as other eligible applicants. The statute authorizes a competitive grant program with a number of types of eligible applicants, and the Office of Education believes that it would be inappropriate to earmark funds specifically for institutions of higher education. Applications from these institutions will be evaluated in terms of their quality against the published criteria on the same basis as applications from other eligible applicants.

Under § 191.32 of the regulation, State educational agencies are given an opportunity to offer comments on these applications, but the State agencies are not given authority to disapprove the applications. Also, an amendment has been added to § 191.32 to clarify that comments by the State educational agencies will be taken into account by the Office of Education only to the extent that they bear upon the published requirements and evaluation criteria.

Under sections 342(b) and 344(b) of the statute, grants may be made only to "States." In implementing these provisions, the regulation provides that grants under subparts B and D of the regulation will be made only to that State agency which is vested with the direct and primary responsibility for State supervision of programs of guidance and counseling at the elementary and secondary school levels. In most cases this is likely to be the State educational agency, although it is possible that a State university could be vested with that responsibility under State law.

Local educational agencies and other eligible applicants can join together to apply for a grant under subpart C. The application can be filed jointly in the name of several eligible applicants under 45 CFR § 100a.19. Also, local educational agencies or other eligible applicants may form a consortium which is itself a private nonprofit organization eligible for an award. In this case, the application may also be filed in the name of the consortium.

The regulation does encourage appropriate cooperative arrangements in carrying out projects under subparts C and D. Section 191.31(c)(2)(ii) requires applications to provide evidence of cooperation with other appropriate organizations and groups, and § 191.33(b)(5) assigns evaluation points to this factor. Comparable provisions apply to the State coordination program in subpart D (§§ 191.44(b)(1)(iv) and 191.45(b)(7)). However, it should be noted, in response to the comment on this issue, that private, nonprofit organizations would not be eligible to receive awards for State-level activities under subparts B and D.

Nonprofit organizations focused on specific target populations such as the Hispanic are eligible to apply under subpart C, and the Office of Education hopes to receive many such applications of high quality. However, as indicated above with reference to community colleges, the projects would have to be to train counselors and teachers or improve supervisory services in elementary and secondary schools. A nonprofit organization could not, under the statute, be funded to carry out direct guidance and counseling services for students.

Grievance procedures

Comment. One respondent recommended that grievance procedures be established whereby counselors may challenge State agencies which they believe are expending Federal funds earmarked for vocational or general guidance in a manner contrary to legislative intent.

Response. No change has been made in the regulation. Any citizen who believes that a grantee is spending Federal funds in violation of the Federal statute or regulation may so notify the responsible Office of Education administrative office. With respect to the program under this regulation, that office will be the administrative unit established or designated under Sec. 343 of Pub. L. 94–482. Any such allegations will be pursued. If enforcement remedies are called for, there are a number of possible options for the Office of Education, including suspension and termination of grants and audit exceptions. It does not appear that formal grievance procedures need to be established by the regulation.

Administrative unit

Comment. Comments were received with reference to the administrative unit for guidance and counseling provided for in Sec. 343(a) of the Act, including comments on the qualifications of staff, and that staff represent different geographic regions of the country.

Response. No regulation is needed to implement this section of the law. The issues raised by these comments are not appropriate areas for formulating rules to govern applicants and grantees. The comments will be considered in taking administrative steps to carry out this section of the law.

Comment. In order that counselors may know about regulations and information issued from the Office of Education, one respondent proposed that it be mandatory for the State educational agency to notify and leave open for comment any directions or information from the Office of Education.

Response. Full communication between the State and local educational levels is to be encouraged, and it is hoped that State educational agencies will make every effort to communicate relevant Office of Education information to local educational agencies and other institutions involved in guidance and counseling. However, this is not considered an appropriate program area for imposing mandatory requirements.

Sex bias

Comment. The National Advisory Council on Women's Educational Programs, which was created by the Women's Educational Equity Act of 1974 to advise the Department of Health, Education, and Welfare on the improvement of educational equity for women, recommended a number of specific amendments to the regulation to highlight the critical importance to guidance and counseling of an awareness of sex bias and stereotyping. The Council recommended that subpart B of the regulation be amended to require attention by award recipients to the special needs of women and minority groups and to overcoming sex stereotyping and bias. With respect to subpact C, the Council suggested a number of changes to highlight the possible focus of projects on the needs of women and on sex stereotyping. It also recommended that each application be required to include a description of how the need for reducing sex and race stereotyping will be met. The Council cited findings of a study on sex discrimination in guidance and counseling which it has carried out to support its recommendations. The Council urged that, unless professionals receive more training as to the effects of sex stereotyping and an awareness of attitudes, the usefulness of an increased awareness of occupational pursuits will be limited.

Another respondent, on the other hand, questioned the appropriateness of § 191.31(c) requiring an applicant to include in the application a statement that the special needs of handicapped children and the need for reducing sex and race stereotyping have been considered in developing the plan for the project. The respondent indicated that these statements are not required by the Act.

Response. The comments of the National Advisory Council on Women's Educational Programs are well taken respecting the critical importance of addressing sex and race stereotyping to strengthen guidance and counseling

V 42164 AUG 24 77 UM V

services. However, the Council's recommendations on subpart B of the regulation have not been adopted because States are entitled to the funds under this program under a statutory formula for activities described in the statute. In the absence of any statutory provision related to sex and race stereotyping, it is not appropriate in the subpart B program that these matters be the subject of regulations.

Nevertheless, the key recommendations of the Council with respect to the subpart C program have been implemented through changes in § 191.29 and § 191.31. Under the proposed § 191.31, every subpart C application was required to indicate that the special needs of handicapped students and the need for reducing sex and race stereotyping had been considered in the development of the project plan. As amended, § 191.31 also requires in each application a description of project activities or methods to be used to meet these needs.

This does not mean that the special needs of handicapped students and the need for reducing sex and race stereotyping must be the central focus of each project. However, each project must include activities or methods to meet these needs. The Office of Education shares the concern of the National Advisory Council on Women's Educational Programs that, unless these problems are addressed in each project, there is the danger that projects which are otherwise of high quality from a programmatic and technical standpoint may not have a positive impact on guidance and counseling.

Although the subject requirement is not contained in the authorizing statute, the Congress has recognized the importance of these needs generally, and, with particular reference to guidance and counseling, in the legislative history and in express provisions of civil rights enforcement and related asssitance statutes. Regulations implementing Title IX of the Education Amendments of 1972 already set forth specific provisions forbidding discrimination by recipients of Federal financial assistance on the basis of sex in the counseling or guidance of students or applicants for admission (45 CFR § 86.36). The subject requirement in this regulation enables the Office of Education to ensure that it does not fund guidance and counseling projects which include sex biased materials or activities.

SUBPART A—GENERAL

§ 191.12 *Definitions.*

Comment. Three respondents objected to the definition of "nonpublic elementary and secondary school systems" in § 191.12(h) to mean two or more schools joined together in a common education program under central administrative control or direction. The respondents pointed out that the definition would have the anomalous result that a particular private school could be funded under § 191.27, but that the school could not serve its own guidance and counseling personnel unless it happened to be part of a larger system. This would exclude the staffs of many independent private schools from receiving the program benefits. The respondents argued that such a restrictive reading of the term "systems" in the statute would detract from the broad purpose of the statute to improve guidance and counseling services in the Nation's schools, both public and private. They recommended that the definition be changed to include an independent private school which meets State licensing or compulsory school attendance requirements.

Response. The comments are well taken. The regulation has been amended in accordance with the comments.

Comment. One respondent recommended that the words "elementary" and "secondary" be deleted from the definition of "local educational agency" so that special orientation and nongraded school districts are eligible. The respondent suggested that a comparable change be made for the definition of "student," with respect to which an age range of 5 to 21 would be preferable. The respondent also recommended that reference to political or geographical subdivisions be dropped to allow an LEA without either as a base to be eligible.

Response. No change has been made in the regulation. While the term "local educational agency" is not defined in the authorizing statute, the regulation adopts the standard definition of the term used by the Congress in the Elementary and Secondary Education Act and Higher Education Act. The Office of Education believes that Congress intends the term to be defined in this way absent particular statutory language to change the definition for specific programs. However, this does not necessarily mean that special or nongraded school districts are ineligible. "Elementary" and "secondary" schools are defined in the regulation as schools which provide elementary or secondary education, respectively, under State law, except that they do not include any education provided beyond grade 12. Therefore, a public authority providing an ungraded program could be a local educational agency, subject to the grade 12 limitation, if it were considered for purposes of State law to be providing elementary or secondary education.

The definition of "student" is provided merely to clarify that, when that term is used in the regulation, it refers to elementary and secondary school students to be served by teachers and counselors rather than to the counselors or teachers who may receive training.

The definition of "local educational agency" already meets the respondent's concern regarding references to political subdivisions. In addition to language in the definition relating to political subdivisions, the last sentence of the definition provides that the term "local educational agency • • • also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school."

Comment. It was suggested by one respondent that the explanation of "educational accountability" be moved to § 191.12, the definitions section.

Response. The only place the concept of "educational accountability" is used in the regulation is in § 191.30(a)(2). It is therefore more convenient for readers of the regulation to have the concept explained there.

SUBPART B—STRENGTHENING GUIDANCE AND COUNSELING SERVICE

§ 191.17 *Eligibility.*

Comment. One respondent stated that in all States, the State educational agency has the responsibility for administering elementary and secondary education programs. The respondent recommended that §§ 191.17(b) and 191.42 be amended to provide that the State educational agency is the only agency eligible to apply for and receive funds for the State under subparts B and D of the regulation.

Response. No change has been made in the regulation. These sections of the regulation provide that the grant will be made to that State agency which is vested with the direct and primary responsibility for State supervision of programs of guidance and counseling at the elementary and secondary school levels. The Office of Education believes that in most, and perhaps all, cases, this will be the State educational agency. However, unlike most education statutory provisions providing aid to States (including Section 344(a) of the Act) which specify that awards are to be made to the State educational agency, Sections 342 and 344(b) of the Act provide that grants are to be made to the "States." It therefore would be inappropriate to mandate by regulation for these programs (subparts B and D of the regulation) that grants must go to the State educational agency. If a particular State decided to vest primary responsibility for guidance and counseling at the elementary and secondary levels in an agency other than the State educational agency, the Office of Education could not, under the statute, refuse to make the award to such other agency.

§ 191.18 *Description of program staff.*

Comment. One respondent recommended that the required description of staff under § 191.18(e) be general rather than specific in nature. The respondent's concern apparently was that great detail not be required on the staff.

Response. The regulation has been modified to reflect the suggested change.

§ 191.19 *Distribution of funds.*

Comment. One respondent objected to § 191.19 of the regulation which makes provision for the Commissioner first to make allotments to Guam, American Samoa, the Virgin Islands, and the Trust Territories of the Pacific Islands on the basis of need, and to the Departments of Defense and Interior based on amounts necessary to carry out authorized programs and projects, with the remaining

amounts to be allotted to the States on the basis of the school-age population. The respondent's view was that all funds should be allotted equitably among all eligible applicants on the basis of the number of children aged five to seventeen.

Response. No change has been made in the regulation. The Act requires the Commissioner to allot funds to Guam, American Samoa, the Virgin Islands, and the Trust Territories of the Pacific Islands, "according to their respective needs," and to the Department of Defense (for children and teachers in the overseas department schools), and the Department of Interior (for children and teachers in elementary and secondary schools operated for Indian children by the Department of Interior) "amounts necessary for the programs, projects, and activities" so authorized. The only practicable way to make these allotments is to make them before allotting to the States according to the statutory formula. In any event, the regulation essentially meets the respondent's concern by providing that the determination of needs in these outlying areas and departmental schools is made with reference to the number of children aged five to seventeen in these jurisdictions or schools.

SUBPART C—IMPROVING GUIDANCE QUALIFICATIONS OF PERSONNEL AND IMPROVING SUPERVISORY SERVICES

§ 191.28 *Eligible participants.*

Comment. One respondent recommended that students, representatives from business, industry, and other professions, administrators, and parents be made eligible participants.

Response. No change has been made in the regulation. The Act specifies that grants are "to improve the professional guidance qualifications of teachers and counselors • • • and to provide training for supervisory and technical personnel • • •" Therefore, administrators with responsibilities for guidance and counseling would be eligible to receive training, but students, parents and representatives from business and industry, the professions, and other occupational pursuits may not participate as trainees. However, the participation of such individuals as resource persons in training activities, as indicated in § 191.29(a)(2), is permissible.

§ 191.29 *Projects for training.*

Comment. One respondent believed that there was a heavy emphasis in the regulation on career and vocational counseling and recommended that a more evenhanded approach be taken toward all areas of guidance and counseling.

Response. No change has been made in the regulation. The emphasis upon career and vocational counseling is derived from the governing statute. For example, Sec. 341 of the Act provides: "The Congress finds that • • • increased and improved preparation of educational professionals is needed in guidance and counseling • • • with special emphasis on in-service training which takes educational professionals into workplaces of business and industry, the professions, and other occupational pursuits • • •" It should be noted, however, that while § 191.29 cites two major emphases which an applicant may choose to address which are work oriented, there is no requirement that the project address "career and vocational counseling." Projects may deal with any area of training for improving guidance and counseling qualifications which the applicant determines is a priority need.

Comment. One respondent noted that § 191.29 of the proposed regulation gave emphasis to the "world of work" but did not make mandatory such involvement. One respondent recommended that each proposal be reviewed locally by persons from business, industry, the professions, and other occupational pursuits, and that such reviews be included in the proposals when submitted for funding, and another respondent similarly suggested that letters of assurance be provided from these persons to assure their involvement and coordination. The respondent's recommendation was based on concern that projects might not respond to local needs and might duplicate existing resources. Two respondents requested clarification in the regulation that projects other than those described in § 191.29(a)(2) could be funded.

Response. Section 191.29(a)(2) has been amended to clarify that projects related to the world of work are not the only types of training projects which can be funded. However, projects related to the world of work receive extra points under the application review criteria, consistent with the focus of the authorizing statute on these projects (§ 191.33(h) and (l)). The regulation in effect already addresses the concern that representatives of occupational pursuits be involved in reviewing and carrying out the project. The application requirements and review criteria contain provisions relating to evidence of commitments from outside organizations, groups, or individuals to cooperate in the implementation of the proposed activities, including any evidence of involvement with persons from business and industry, the professions, and other occupational pursuits and evidence of cooperation with other agencies and organizations which are involved in providing guidance and counseling services (§§ 191.31(c)(2)(ii) and 191.33(b)(5)).

§ 191.30 *Supervisory services projects.*

Comment. One respondent suggested that § 191.30(a)(2) be broadened to permit the development of exemplary models of supervisory practices.

Response. The regulation already does this. No change is needed.

§ 191.31 *Application requirements.*

Comment. One respondent questioned the inclusion of a comprehensive needs assessment and procedures for carrying it out (set forth in § 191.31(c)(1)(i) as required in the operational plan). This was interpreted by the respondent to require a needs assessment carried out specifically for the purpose of this program. It was indicated that the time required would diminish the amount of staff time available for service delivery.

Response. The regulation has been changed to clarify that the required needs description may be based on a previously conducted needs assessment or other appropriate means for determining needs. A new comprehensive needs assessment is not required.

Comment. One respondent in commenting on § 191.31(c)(1) noted that items (i) through (iii), and items (v) and (ix) are commonly accepted components of an application but that items (vi) through (viii) require detail that cannot be justified in an application to the Federal Government. The respondent also felt that § 191.31(c)(2)(i), (ii), and (iii) called for unnecessary detail. The respondent suggested that these requirements and corresponding criteria in § 191.33 be deleted.

Response. No change has been made in the regulation. It is not necessary that the application go into extensive detail regarding the subject items. However, the Office of Education believes that it needs information responding to each of these items if it is adequately to review applications and make competitive judgments between them.

The subject requirements and criteria relate to fundamental project elements, such as whom the project will serve and their eligibility under the regulation, project milestones, staff positions, and evidence of necessary commitments from other organizations. Absent this information, the Office of Education's basis for review of applications would be significantly impaired.

§ 191.32 *State review of application.*

Comment. A respondent expressed concern that State comments submitted under § 191.32 might be arbitrary, based on personal biases, or related to factors extrinsic to the program.

Response. Section 191.32 has been changed to clarify that comments by State educational agencies will be considered by the Office of Education only to the extent that they relate to the published requirements and criteria.

§ 191.33 *Application review criteria.*

Comment. One respondent took exception to § 191.33(h) which awards a maximum of 5 points to an application which has potential for contributing to the alleviation of unemployment among youth through interrelationships with business and industry, the professions, and other occupational pursuits. The respondent stated that this criterion is not mandated by the statute. It suggested that the criterion be omitted, or that it be broadened to serve as a general category under which points would be awarded if the application were directed toward resolving a pressing societal

V 42 164 AUG 24 77 UM

and/or developmental problem of children and/or youth.

Response. No change has been made in the regulation. The statute is silent on the evaluation criteria to be used by the Office of Education in selecting the highest quality applications under Section 344(a) (subpart C of the regulation). It is incumbent upon the Office of Education to establish criteria designed to result in the selection of those applications which best carry out the statutory purposes. Youth unemployment is not expressly mentioned in the statute, but the statute does give special emphasis to the relationship between guidance and counseling and the world of work. The alleviation of youth unemployment is an implicit and important element of this. It is appropriate in terms of the statutory purposes that, if two applications are otherwise equally rated, the one which holds promise of alleviating youth unemployment is funded first. If the criteria were broadened to include any pressing societal or developmental problem of children or youth, it would become so general that it would provide no guidance to applicants or application reviewers.

§ 191.35 *Allowable costs.*

Comment. Concern was expressed by two respondents that the regulation was unduly restrictive in limiting the allowability of instructional materials under § 191.35(b). Another respondent recommended that no payment should be made to business, industry, or other professions other than per diem costs.

Response. The regulation has been amended to make instructional materials generally allowable in accordance with these comments. With respect to payments to business, industry, and other professions the regulation is already consistent with the concern expressed. It permits only per diem expenses, travel, and incidental costs. It does not permit stipends or other compensation to participants.

Comment. One respondent noted that it should not be necessary to have the Commissioner's specific approval for payment of substitute teachers if the application proposes a budget for substitute teacher pay and the application is approved.

Response. Due to the expected limited amount of funds to be appropriated to carry out this part, the Commissioner will carefully evaluate the amount of money which an applicant intends to use for substitute teachers. The Commissioner does intend that an application approved by the Commissioner, which includes in its budget the amount of the award which will be used for substitutes, satisfies the approval requirement of § 191.35(c). However, if a grantee decides after approval of the application to use its money for substitutes or to use a greater amount than indicated in the application, such action must be approved by the Commissioner. The regulation has been amended to clarify the requirements of § 191.35(c).

Comment. One respondent found that it was unclear as to whether professional or consultative services in the conduct of a workshop is an allowable cost under § 191.35(d)(2). This respondent also urged that representatives of occupational pursuits should receive remuneration for their services in addition to payment for travel, meals, and lodging.

Response. There has been no change in the regulation. Due to the expected limited nature of the funds for programs under this part, it has been determined that representatives of occupational pursuits will receive payment only for their travel, meals, and lodging. Also, the Commissioner wishes to encourage voluntary participation of business, industry, and the professions to assist counselors in achieving a better understanding of the world of work.

Subject to these restrictions, the grantee may enter into service contracts to carry out the workshops and institutes to be funded under this subpart, in accordance with § 100a.30 of the General Education Provisions Regulations (GEPR) and subpart I of Part 100a of GEPR.

SUBPART D—COORDINATING GUIDANCE AND COUNSELING PROGRAMS

Distribution of funds

Comment. Two comments suggested that a formula be established for the distribution of funds between the activities authorized under Sections 344(a) and 344(b) of the authorizing statute (subparts C and D of the regulation), and further suggested that no more than one-third of the funds be allocated to Section 344(a).

Response. No change has been made in the regulation. The distribution of funds between these separate activities is likely to be resolved in the budgetary process. It is possible that Congress will include directives on the distribution in appropriating funds for the program. It, therefore, is inappropriate to provide by regulation for a distribution. The respondents' comments will be considered in preparing budget recommendations.

§ 191.43 *Activities.*

Comment. One respondent urged that a subsection F should be added to this section to allow the use of funds for reviewing applications submitted to a State agency for comments in accordance with § 191.32, State Review of Applications.

Response. One of the major focuses of programs and activities to be carried out under this part is to improve coordination of guidance and counseling programs at the State and local levels. For this reason, § 191.32 of subpart C of the regulation provides an opportunity for State comments on all applications. The Commissioner agrees that activities for which funds may be used under subpart D may include review of subpart C applications, and the regulation has been amended to reflect this change.

OTHER INFORMATION

Sections 191.37 and 191.49 have been added to provide that an award will not be made under subparts C and D if the applicant lacks the capacity successfully to carry out the project. Other technical and typographical changes have been made in the final regulation.

The Office of Education has determined that this document does not contain a proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

(Catalog of Federal Domestic Assistance No. 13.577 Guidance and Counseling Program.)

Dated: July 22, 1977.

ERNEST L. BOYER,
Commissioner of Education.

Approved: August 16, 1977.

HALE CHAMPION,
Acting Secretary of Health, Education, and Welfare.

AUTHORITY: Secs. 341–44, Pub. L. 94-482 (20 U.S.C. 2531–34).

Subpart A—General

§ 191.10 Scope.

(a) The regulations in this part govern the award of grants with funds appropriated pursuant to Part D of Title III of the Education Amendments of 1976, Pub. L. 94-482.

(b) The award of grants under this part is subject to applicable provisions contained in subchapter A of this chapter (relating to fiscal, administrative, property management, and other matters, 45 CFR Parts 100, 100a) except that application requirements set forth in § 100a.16 and evaluation criteria set forth in § 100a.26(b) do not apply to awards under this part.

(Sec. 341, 20 U.S.C. 2531, 1221c.)

§ 191.11 Purpose.

The purpose of this part is through Federal financial assistance, to:

(a) Provide programs, projects, and leadership activities by the State to expand and strengthen counseling and guidance services in elementary and secondary schools.

(Sec. 342(b)(1), 20 U.S.C. 2532(b)(1).)

(b) Improve the professional guidance qualifications of teachers and counselors.

(Sec. 344(a), 20 U.S.C. 2534(a).)

(c) Provide training for supervisory and technical personnel having responsibilities for guidance and counseling.

(Sec. 344(a), 20 U.S.C. 2534(a).)

(d) Improve guidance and counseling supervisory services; and

(Sec. 344(a), 20 U.S.C. 2534(a).)

(e) Coordinate new and existing programs of guidance and counseling in the States.

(Sec. 344(b), 20 U.S.C. 2534(b).)

§ 191.12 Definitions.

As used in this part:

(a) "Guidance" means a program provided by or under the leadership and supervision of, professional counselors, involving teachers and resource personnel, to assist elementary and secondary school students in their educational, vocational, and personal-social development. A program of guidance services includes, but is not limited to, counseling, information, placement, appraisal, and follow-up and research.

(Interprets Sec. 341, 20 U.S.C. 2531.)

(b) "Counseling" is one of the basic components which constitute a program of school guidance services, and means a process conducted by a professional counselor in face-to-face or group settings to assist the student for the purpose of resolving or better understanding a problem, or planning and carrying out a course of action.

(Interprets Sec. 341, 20 U.S.C. 2531.)

(c) "Elementary school" means a day or residential school which provides elementary education, as determined under State law, and "Elementary school level" means the educational level at which elementary education is provided under State law.

(Interprets Secs. 342, 344, 20 U.S.C. 2532, 2534.)

(d) "Inservice training" means institutes, workshops, or seminars to improve guidance qualifications of teachers, counselors, and guidance supervisory and technical personnel in State and local educational agencies or nonpublic elementary and secondary school systems during their time of service.

(Interprets Sec. 344(a), 20 U.S.C. 2531(a).)

(e) "Institution of higher education" means an institution in any State which (1) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (2) is legally authorized within such State to provide a program of education beyond secondary education, (3) provides an educational program for which it awards a bachelor's degree or provides not less than a two-year program which is acceptable for full credit toward such a degree, (4) is a public or other nonprofit institution, and (5) is accredited by a nationally recognized accrediting agency or association or, if not so accredited, (i) is an institution with respect to which the Commissioner has determined that there is satisfactory assurance, considering the resources available to the institution, the period of time, if any, during which it has operated, the effort it is making to meet accreditation standards, and the purpose for which this determination is being made, that the institution will meet the accreditation standards of such an agency or association within a reasonable time, or (ii) is an institution whose credits are accepted, on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited. Such term also includes any school which provides not less than a one-year program of training to prepare students for gainful employment in a recognized occupation and which meets the provisions of subparagraphs (1), (2), (4), and (5).

(Interprets Sec. 344(a), 20 U.S.C. 2534(a).)

(f) "Local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of or to perform a service function for public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or a combination of school districts or counties recognized in a State as an administrative agency for its public elementary or secondary schools. This term also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school.

(Interprets Sec. 344(a), 20 U.S.C. 2534(a).)

(g) "Nonprofit organization" means an organization owned and operated by one or more nonprofit corporations or associations no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(Interprets Sec. 344(a), 20 U.S.C. 2534 a).)

(h) "Nonpublic elementary and secondary school system" means one or more nonprofit elementary or secondary schools operated or controlled by other than a public authority, and which is licensed or approved by the State in which it is located or attendance at which satisfies applicable State compulsory school attendance laws.

(Interprets Sec. 344(a), 20 U.S.C. 2534(a).)

(i) "Secondary school" means a day or residential school which provides secondary education as determined under State law except that it does not include any education provided beyond grade 12, and "Secondary school level" means the educational level (not beyond grade 12) at which secondary education is provided as determined under State law.

(Interprets Sec. 342, 344, 20 U.S.C. 2532.

(j) "State" includes, in addition to the several States of the Union, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(Interprets Secs. 342, 344, 20 U.S.C. 2532, 2534.)

(k) "Students" refers to elementary or secondary school students and not teachers, counselors, supervisors, and technical personnel who are participants in institutes, workshops, and seminars.

(Implements Sec. 344(a), 20 U.S.C. 2534(a).)

(l) "Supervisory services" means those activities which are specifically designed to improve programs of guidance and counseling, and which are carried out by professional guidance personnel who have responsibilities within State and local educational agencies and nonpublic school systems for directing and coordinating the guidance and counseling efforts of staff members in the respective agencies or school systems.

(Interprets Sec. 344(a), 20 U.S.C. 2534(a).)

(m) "State educational agency" means the State board of education or other State agency or officer primarily responsible for State supervision of public elementary and secondary schools, or if there is no such officer or agency, an officer or agency designated by the Governor or by State law.

(Interprets Sec. 344(a), 20 U.S.C. 2534(a).)

§§ 191.13—191.14 [Reserved]

Subpart B—Strengthening Guidance and Counseling Services

§ 191.15 Scope.

This subpart applies to the program of guidance and counseling for which grants are authorized by Section 342(b) of Part D of Title III of Pub. L. 94-482. This program is authorized for fiscal year 1977.

(Sec. 342, 20 U.S.C. 2532.)

V 42 164 AUG 24 77 UM

§ 191.16 Purpose.

The purpose of the program authorized by this subpart is to provide for programs, projects, and leadership activities designed to expand and strengthen guidance and counseling services in elementary and secondary schools through grants (a) to States and (b) to other recipients set forth in § 191.17(a).

(Sec. 342, 20 U.S.C. 2532.)

§ 191.17 Eligible recipients.

(a) Eligible recipients under this subpart include: (1) the States, (2) the Department of the Interior (for children and teachers in elementary and secondary schools operated for Indian children in the Department of Interior), and (3) the Department of Defense (for children and teachers in the overseas dependent schools of the Department of Defense).

(b) A grant to a State under this subpart will be made to that State agency which is vested with the direct and primary responsibility for State supervision of programs of guidance and counseling at the elementary and secondary school levels.

(Implements Sec. 342, 20 U.S.C. 2532.)

§ 191.18 Required application.

Any State or other eligible applicant under § 191.17 desiring to receive funds for the purpose of this subpart shall, as a condition to the receipt of these funds, file an application with the Commissioner providing the following information:

(a) With respect to an application from a State, documentation that the applicant agency is the appropriate grant recipient under § 191.7;

(b) The needs to be met by the proposed activity;

(c) Objectives which are clearly related to the purposes of this program and capable of being attained by the proposed activities;

(d) A description of the activities to be carried out with these funds which satisfies the Commissioner (1) that these activities are designed to achieve the stated objectives, and (2) that funds will be used only to carry out the purposes of this subpart;

(e) A general description of the program staff and other resources to carry out the activities;

(f) Provision for such methods of administration as are necessary for the proper and efficient administration of the proposed project; and

(g) Provisions for such fiscal control and fund accounting procedures and reports as may be required pursuant to applicable provisions of Part 100a of this chapter.

(Implements Sec. 342, 20 U.S.C. 2532, 1232c (b) 1221e-3(a)(1).)

§ 191.19 Distribution of funds.

(a) From sums appropriated for purposes of this subpart, the Commissioner will first allot amounts to Guam, American Samoa, the Virgin Islands, and the Trust Territories of the Pacific according to their respective needs. The Commissioner generally bases a determination of these needs on the number of children aged five to seventeen inclusive in each jurisdiction.

(b) The amounts allotted to the Department of Defense (for children and teachers in the overseas dependent schools of the Department of Defense) and to the Department of the Interior (for children and teachers in the elementary and secondary schools operated for Indian children in the Department of the Interior) are based upon the amounts necessary for the programs, projects, and activities authorized under this subpart. These amounts are to be determined with reference to the number of children aged five to seventeen inclusive in these schools.

(c) After the amounts under paragraphs (a) and (b) have been allotted, the Commissioner allots to each State, other than Guam, American Samoa, the Virgin Islands, and the Trust Territories of the Pacific, from those amounts that remain, in accordance with Section 342(b)(3)(B) of the Act, an amount which bears the same ratio to those remaining amounts as the number of children in that State, aged five to seventeen inclusive, bears to the total number of children in all these States.

(Implements Sec. 342, 20 U.S.C. 2532.)

§ 191.20 Allowable costs.

The Commissioner determines allowable costs pursuant to this subpart in accordance with principles set forth in Appendix B of Subchapter A of this chapter (Office of Education General Provisions Regulations).

(20 U.S.C. 1221c.)

§§ 191.21—191.24 [Reserved]

Subpart C—Improving Guidance Qualifications of Personnel and Improving Supervisory Services

§ 191.25 Scope.

(a) This subpart applies to the award of grants under the program of guidance and counseling authorized by section 344(a) of Part D of Title III of Pub. L. 94-482.

(b) The award of any contracts under Section 344(a) will be made in accordance with applicable procurement regulations in 41 CFR Chapters I and 3 and the provisions of specific requests for proposals, and will not be subject to the provisions of this subpart.

(Sec. 344(a), 20 U.S.C. 2534(a).)

§ 191.26 Purpose.

(a) The purpose of this subpart is (1) to improve the professional guidance qualifications of teachers, counselors, supervisory personnel, and technical personnel through inservice training to enable them more effectively to carry out their specific current roles, and (2) to improve supervisory services in the field of guidance and counseling;

(b)(1) Two kinds of projects will be funded under this subpart:

(i) Inservice training projects described in § 191.29; and

(ii) Projects to improve supervisory services described in § 191.30.

(2) An applicant may propose a single project with activities described under both of these sections.

(Interprets Sec. 344(a), 20 U.S.C. 2534(a).)

§ 191.27 Eligible applicants.

The following agencies and organizations are eligible for grants under this subpart: (a) State educational agencies; (b) Local educational agencies; (c) Institutions of higher education; and (d) Private nonprofit organizations.

(Sec. 344(a), 20 U.S.C. 2534(a).)

§ 191.28 Eligible participants.

The following persons are eligible to participate as trainees in training programs funded under § 191.29:

(a) Teachers and counselors in State and local educational agencies;

(b) Teachers and counselors in nonpublic elementary and secondary school systems;

(c) Supervisory and technical personnel in State and local educational agencies with responsibilities for guidance and counseling; and

(d) Supervisory and technical personnel in nonpublic elementary and secondary school systems with responsibilities for guidance and counseling.

(Sec. 344(a), 20 U.S.C. 2534(a).)

§ 191.29 Projects for training.

(a) *Nature of project.* (1) The projects funded under this section support inservice training programs in the form of institutes, workshops, and seminars to improve the professional guidance qualifications of teachers, counselors, and supervisory and technical personnel in their current roles, for the purpose of improving the guidance and counseling program provided to students in elementary and secondary schools.

(2) Two major emphases (among others) which an applicant may choose to address in these projects are:

(i) To increase the understanding of teachers and counselors about the world of business, industry, professions, and other occupational pursuits through exposure to these areas; and

(ii) To provide for increased use of men and women experienced in business, industry, the professions, and other occupational pursuits in guidance and counseling programs, by (A) bringing these persons into the schools as counselors and advisors for students; and (B) bringing students into the workplace for observation and participation to acquaint them with the nature of the work. The applicant may choose to emphasize non-traditional career alternatives for members of both sexes.

(3) To receive assistance under this part, an inservice training project must:

(i) Be designed on the basis of a needs assessment for a specific group of trainees; and

(ii) Serve as a resource for contributing to improved programs of guidance and counseling services within the schools served by the trained counselors or teachers. (For example, a counselor, as a participant in an institute provided by a grant recipient, could spend one day a week in industry so that, upon completion, the counselor would be more aware of the opportunities and requirements of different occupations and would thus be able to provide a better program of guidance and counseling services.)

(4) Applicants may wish to propose specific training activities designed to demonstrate exemplary ways of involving persons from business and industry, the professions, and other occupational pursuits in guidance and counseling programs.

(5) Inservice training programs supported under this subpart must be short-term, with no program exceeding a year for each group of trainees. Normally, a workshop, institute, or seminar conducted on a daily basis may not exceed a three-month period for each group of trainees. However, training may be carried out on a more extended, but periodic basis, e.g., 1 to 6 hours a week, but for a period not to exceed a year.

(Implements Secs. 341, 344(a), 20 U.S.C. 2531, 2534(a).)

(b) *Types of activities.* Projects designed for training purposes may include, among other training activities, one or more of the following:

(1) Inservice training programs which involve counselors and teachers in demonstration models which bring individuals with experience in occupational pursuits into schools as counselors or advisors for students, and which bring students into work-places to acquaint students with the nature of the work;

(2) In service training programs for teachers and guidance counselors in State and local educational agencies and non-public elementary and secondary school systems so that they can obtain experience in business and industry, the professions, and other occupational pursuits. (These programs may include individual and group experiences in observing or participating in various occupational pursuits); and

(3) Training of supervisory and technical personnel designed to improve the supervisory knowledge and skills, including effective management and administrative procedures, of persons assigned to guidance and counseling programs. As used in this subparagraph, "supervisory and technical personnel" means professional guidance staff who have designated responsibilities within State and local educational agencies or nonpublic school systems for directing and coordinating the efforts of staff working in guidance programs in the respective agencies or school systems, or for providing technical assistance in such areas of specialty as elementary school guidance, student appraisal, career development, occupational information, counseling, techniques, and group procedures, to improve the quality of services within guidance and counseling programs.

(Implements Secs. 341, 344(a), 20 U.S.C. 2531, 2534(a).)

§ 191.30 Projects for improving supervisory services.

(a) *Nature of projects.* (1) Projects under this section are designed to improve supervisory services of guidance and counseling in State and local educational agencies and nonpublic school systems, as opposed to concentrating on personnel qualifications of supervisory personnel.

(2) The Commissioner encourages the submission of projects providing for exemplary supervisory practices which may serve as models for replication by other State and local educational agencies and nonpublic school systems. Exemplary approaches to accountability in terms of evaluating guidance outcomes is an example of a type of project which has potential for improving supervisory services. (Educational accountability includes a process of establishing objectives, delineating tasks and activities, and having personnel who are held responsible for accomplishing the objectives.)

(b) *Types of activities.* Activities designed to improve supervisory services in the field of guidance and counseling in State and local educational agencies and nonpublic elementary and secondary school systems may include, but are not limited to, one or more of the following:

(1) Expanding and coordinating supervisory services in guidance and counseling programs;

(2) Providing or increasing technical or consultative assistance to guidance and counseling personnel;

(3) Implementing or improving accountability through:

(i) Assessment of students' needs for guidance;

(ii) Planning and implementing guidance objectives; and

(iii) Evaluating guidance outcomes;

(4) Planning and preparing guidance and counseling materials and information; and

(5) Demonstrating successful supervisory practices in guidance and counseling.

(Implements Secs. 341, 344(a), 20 U.S.C. 2531, 2534(a).)

§ 191.31 Content of application.

An eligible applicant which seeks to receive a grant under this subpart shall file an application which must include:

(a) A cover sheet(s) which includes the following:

(1) The identification of the purpose and the type of activity such as training or improved supervisory services to which the application is addressed; and

(2) A brief abstract of the proposed project;

(b) A copy of the letter of transmittal of the application which was submitted to the appropriate State educational agency for the purpose of State review and comment as provided under § 191-32; and

(c) An operational plan describing in detail how the applicant proposes to achieve the purpose(s) identified in the application.

(1) This plan must include, but need not be limited to:

(i) A description of the needs of prospective participants for the project, in relation to the needs of students served by these participants, and a description of how the needs were determined;

(ii) Objectives which are related to the purposes of this subpart;

(iii) A description of project activities and information on the size, scope, and duration of the proposed project;

(iv) A statement that the special needs of handicapped students and the need for reducing race and sex stereotyping have been considered in the development of the plan and a description of project activities or methods to be used to meet these needs;

(v) An evaluation design;

(vi) Milestones and dates for the completion of project activities;

(vii) Identification of all proposed staff positions, and a description of the duties and qualifications required for these positions;

(viii) An estimated cost for each of the program activities;

(ix) A description of the resources available to the applicant to carry out the proposed project; and

(x) A description of any activities to be contracted.

(2) If the applicant proposes to improve the professional guidance qualifications of personnel, in addition to the other information required by this section, the following information must be included in the operational plan:

(i) A description of the target population, methods, and criteria to be used in selecting participants, including information to establish the eligibility of the participants under § 191.28;

(ii) Evidence of any commitment already received from outside organizations, groups, or individuals to cooperate in the implementation of the proposed activities, including any evidence of involvement with persons from business and industry, the professions, and other occupational pursuits and evidence of cooperation with other agencies and organizations which are involved in providing guidance and counseling services; and

(iii) In cases where an applicant proposes to train personnel who are not in their employ, a copy of the training agreement between the applicant and the agency or organization where the prospective trainees are located.

(3) The applicant is encouraged to respond in the operational plan to each criterion in § 191.33. Except with respect to paragraph (f) of § 191.33, if the plan does not provide information responsive to a particular criterion, this will deny the applicant the opportunity to receive points for that criterion.

(Implements Sec. 344(a), 20 U.S.C. 2534(a).)

V 42164 AUG 24 77 UM V

§ 191.32 State review of application.

(a) Each applicant under this subpart must provide a copy of its application to the State educational agency of each State in which is located the agency or organization to be served under a project for improving supervisory services or where the prospective trainees are employed, as applicable, concurrently with its submission of the application to the Commissioner.

(b) The Commissioner will not approve an application submitted by an applicant unless each appropriate State educational agency under paragraph (a) has been given an opportunity to review and comment on the application.

(c) In reviewing applications, the Commissioner will consider comments submitted by a State educational agency to the extent that they relate to requirements and review criteria in this subpart.

(d) The Commissioner may establish a cut-off date for submission of comments on applications by State educational agencies. If the Commissioner establishes such a date, failure by a State educational agency to submit comments to the Commissioner within the period specified shall be deemed a waiver of the State educational agency's opportunity to comment on that application.

(Implements Secs. 343(a)(3), 344(a), 20 U.S.C. 2533(a)(3), 2534(a).)

§ 191.33 Application review criteria.

Applications submitted under this subpart will be reviewed to determine the extent to which they meet specific program criteria. Each criterion is assigned a maximum score and is weighted in terms of its relative value to the rest of the application criteria. The total number or points for all criteria is 100. The criteria and the maximum point score for each criterion are as follows:

(a) *Need.* Maximum score, 10. The application clearly describes the need, through documented evidence for training and/or improved supervisory services, and the procedures used in determining the need. The need should be based on the guidance needs of students in the location where trainees are employed.

(b) *Objectives and activities.* Maximum score, 30. The application:

(1) Clearly sets forth objectives which are: designed to meet the purposes of this subpart; sharply defined; clearly stated; capable of being attained; and capable of being measured;

(2) Sets forth activities, tasks, and strategies, which, when implemented, will achieve the stated objectives, including milestones and dates by which to monitor the completion of each of the proposed activities;

(3) Sets forth training or supervisory objectives and activities which respond effectively to the needs of students documented in the needs assessment;

(4) Sets forth project activities which are designed to serve as a resource for improving guidance and counseling services within schools which receive supervisory services, or which are served by teacher and counselor trainees;

(5) Gives evidence, in those applications proposing to provide training, of commitments from outside organizations, groups, or individuals to cooperate in the implementation of proposed activities or in those applications proposing to improve supervisory services, of plans for working with other appropriate units;

(6) Clearly describes the criteria and processes for selecting participants in training activities and clearly describes criteria and processes for developing comprehensive and coordinated guidance programs in activities to improve supervisory services.

(c) *Evaluation plan.* Maximum score, 10. The quality of provisions set forth in the application for evaluating the effectiveness of the project and for determining the extent to which each of the objectives will be achieved.

(d) *Personnel.* Maximum scores, 10. The qualifications and experience of project staff and strength of commitment from individuals and groups whose assistance is needed to accomplish the proposed objectives.

(e) *Budget.* Maximum score, 10. The application gives evidence that the size, scope, and duration of the project are reasonable and that the estimated cost is reasonable in relation to the anticipated results of each of the proposed activities.

(f) *Distribution of projects.* Maximum score, 10. The extent to which approval of the project will contribute to:

(1) An equitable geographic distribution of programs funded under this subpart throughout the United States in both urban and rural areas; and

(2) The funding of a wide variety of projects which collectively can demonstrate diverse approaches to meet effectively the purposes of this subpart.

(g) *Models.* Maximum score, 10. The extent to which approval of the project will contribute to the establishment of a model or models which can be replicated by other agencies or institutions with similar educational needs. In applying this criterion, the Commissioner shall consider (1) the extent to which similar needs to those addressed by the proposed project exist in other agencies or institutions and (2) the design of the proposed project.

(h) *Alleviation of unemployment among youth.* Maximum score, 5. The extent to which approval of the project has potential for contributing to the alleviation of unemployment among youth through interrelationships with business and industry, the professions, and other occupational pursuits.

(i) *World of work.* Maximum score, 5. The project involves inservice training to increase the understanding of teachers and counselors of the world of business, industry, professions, and other occupational pursuits through exposure to these areas, and to provide for increased use of persons employed in business, industry, the professions and other occupational pursuits in the guidance and counseling programs, by bringing these persons into the schools to assist teachers and counselors, and bringing students into the work-place for observation and participation in order to acquaint them with the nature of the work.

(Implements Sec. 344(a), 20 U.S.C. 2534(a).)

§ 191.34 Project duration.

Project awards pursuant to this subpart will be for a grant period of up to one year. If a grantee seeks to receive assistance under this part for an additional period beyond the grant period, it must submit a new application for a new grant award. The new application will be evaluated in competition with applications from other former grantees as well as from applicants which have not previously received assistance under this part.

(Implements Sec. 344(a), 20 U.S.C. 2534(a).)

§ 191.35 Allowable costs.

(a) Allowable costs in grants pursuant to this subpart are determined in accordance with principles set forth in the applicable appendices to Subchapter A of this chapter (Office of Education General Provisions for Programs), subject to the following provisions.

(b) Costs of equipment (other than guidance and counseling materials) are limited and allowed only if essential and reasonable in relation to anticipated results.

(c) Allowable costs may include travel, meals, lodging, guidance and counseling materials and supplies, and other costs incident to trainees' participation in institutes, workshops, and seminars, designed to improve professional guidance qualifications, but shall not include stipends or other forms of compensation. Payment of substitutes for teachers and counselors during the time of their participation in the inservice training is allowable only if specifically provided for in the approved application, or if otherwise approved in writing by the Commissioner.

(d) (1) The costs of bringing representatives of business and industry, the professions, and other occupational pursuits into schools as counselors or advisors to students, and of bringing students into work-places to acquaint them with the nature of the work are allowable program costs only if carried out through workshops, institutes, or seminars and if they serve training purposes for participant counselors and teachers.

(2) Allowable costs of these activities (operated in institute, workshop, or seminar settings) are limited to travel, per diem expenses, and other incidental costs, and do not include stipends or other types of compensation to participant students, trainees, or representatives of occupational pursuits.

(Implements Sec. 344(a), 20 U.S.C. 2534(a), 1221c.)

§ 191.36 Amount of award.

The amount of an award will be affected by the quality of the project pursuant to criteria in § 191.33. It is expected that the amount of an award for inservice training projects as specified in § 191.29 will be relatively small, with most awards within the range of $5,000 or less to $25,000, and normally will not exceed $50,000. Awards for projects to improve supervisory services, as specified in § 191.30, normally will not exceed $100,000. Nothing in this section shall be construed as a limitation on the amount of a particular grant.

(Implements Sec. 344(a), 20 U.S.C. 2534(a).)

§ 191.37 Capacity to carry out the project.

Notwithstanding the specific evaluation criteria in § 191.33, the Commissioner will not fund an application under this subpart unless the Commissioner is satisfied that the applicant has the capacity successfully to carry out the project.

(a) In making this judgment, the Commissioner will consider such factors as:

(1) Both the programmatic and financial management capacities of the applicant organization and its staff;

(2) Past performance by the applicant—

(i) In carrying out any prior grant under this part; or

(ii) In carrying out similar projects—with respect to such matters as achievement of objectives, adherence to the project conditions, programmatic and financial management, and the governing board's assumption of responsibility;

(3) Adequacy of facilities and other resources, including consideration of any litigation or dispute which calls into question the continued availability of the facilities and resources to the applicant; and/or

(4) Consideration of local community factors which may prevent the successful operation of the grant.

(b) If the Commissioner decides not to fund an application based upon this section, the Commissioner will do so only after providing reasonable notice and an opportunity to the applicant to rebut, in writing or in an informal meeting with the responsible officials of the U.S. Office of Education, the basis for the decision.

(Implements Sec. 344(a), 20 U.S.C. 2534(a).)

§§ 191.38—191.39 [Reserved]

Subpart D—Coordinating Guidance and Counseling Programs

§ 191.40 Scope.

This subpart applies to the program of guidance and counseling for which grants are authorized by section 344(b) of Part D of Title III of Pub. L. 94-482.

(Sec. 344(b), 20 U.S.C. 2534(b).)

§ 191.41 Purpose.

The purpose of the program authorized by this subpart is to assist States in coordinating new and existing programs of guidance and counseling in the States, working with the assistance of and in cooperation with the administrative unit within the Office of Education responsible for coordinating and providing information on guidance and counseling under section 343(a), Part D, Title III of Pub. L. 94-482.

(Sec. 343(a)(3), 344(b), 20 U.S.C. 2533(a)(3), 2534(b).)

§ 191.42 Eligible applicants.

Grants under this subpart may be made only to that State agency within each State which is vested with the direct and primary responsibility for State supervision of programs of guidance and counseling at the elementary and secondary school levels.

(Implements Sec. 344(b), 20 U.S.C. 2534(b).)

§ 191.43 Activities.

Coordination of guidance and counseling programs supported under this subpart may include, but is not limited to, the following activities:

(a) Identification of guidance and counseling programs supported jointly or separately by Federal programs, and by State and local programs;

(b) Initiating and conducting a Statewide guidance and counseling needs assessment to determine priorities for program development;

(c) Development of a plan and strategies for implementing these programs in terms of common goals and objectives as determined through the needs assessment;

(d) Planning and conducting appropriate action steps to accomplish goals and objectives such as preparation of position statements, providing for consultative or technical assistance, conducting conferences and workshops, sharing information through appropriate publications and other means, evaluating program outcomes in terms of established objectives, and other related activities necessary for the coordination and improvement of new and existing programs of guidance and counseling in the State;

(e) Participating in the activities of the Office of Education's administrative unit pursuant to section 343(a) of Pub. L. 94-482; and

(f) Commenting on applications under subpart C of this part, as provided for in § 191.32.

(Interprets Sec. 344(b), 20 U.S.C. 2534(b).)

§ 191.44 Required application data.

Each applicant for assistance under this subpart must submit an application which includes:

(a) A cover sheet(s) which includes a brief abstract of the proposed project; and

(b) An operational plan describing in detail how the applicant proposes to achieve the purposes of the program.

(1) The operational plan must include, but need not be limited to:

(i) A description of the needs to be met by the proposed plan, e.g., the need to reduce duplication of efforts in the State in guidance and counseling;

(ii) Objectives which are clearly related to the purposes of this subpart;

(iii) A description of the project activities and information on the proposed size, scope, and duration of the project;

(iv) Plans to include other institutions and agencies in the proposed activities;

(v) An evaluation design;

(vi) Identification of all proposed staff, their duties, and a description of the qualifications possessed by all proposed professional staff;

(vii) An estimated cost for each of the proposed activities;

(viii) Milestones and dates for the completion of each project activity; and

(ix) A description of any activities to be contracted.

(2) Applicants are encouraged to respond in the operational plan to each of the criteria in § 191.45 in the sequence described.

(Implements Sec. 344(b), 20 U.S.C. 2534(b).)

§ 191.45 Review criteria.

(a) Applications submitted under this subpart will be reviewed to determine the extent to which they meet the criteria in this section. Each criterion is assigned a maximum score and is weighted in terms of its relative value to the rest of the criteria. The total number of points for all criteria is 100.

(b) The following criteria will be utilized by the reviewers in reviewing applications:

(1) *Need.* Maximum score, 10. The need for the proposed plan to reduce duplication of efforts in the State in guidance and counseling is clearly established.

(2) *Objectives.* Maximum score, 25. The proposed plan includes sharply defined and clearly stated objectives which are related to the purpose of this subpart and which are capable of being attained by the proposed activities and capable of being measured.

(3) *Activities.* Maximum score, 25. The project activities are designed to achieve each of the proposed objectives, and milestones and dates for completing each project activity are clearly set forth.

(4) *Evaluation.* Maximum score, 10. The quality of the evalution design to determine the attainment of objectives.

(5) *Personnel.* Maximum score, 10. The quality of staff with specified duties and qualifications necessary to achieve objectives.

(6) *Budget.* Maximum score, 10. The estimated cost for each of the proposed activities is reasonable in relation to anticipated results, and the size, scope, and duration of the project is adequate to secure productive results.

(7) *Cooperative arrangements.* Maximum score, 10. The strength and quality of arrangements made by the applicant to work with other appropriate institutions and agencies.

(Implements Sec. 344(b), 20 U.S.C. 2534(b).)

V 42 164 AUG 24 77 UM

§ 191.46 Project duration.

Project awards pursuant to this subpart will be for a grant period of up to one year. If a grantee seeks to receive assistance under this part for an additional period beyond the grant period, a new application for a new grant award must be submitted.

(Implements Sec. 344(b), 20 U.S.C. 2534(b).)

§ 191.47 Project funding.

(a) While there is no formula for the distribution of funds under this subpart, the Commissioner intends to make a grant to all States that meet the requirements in § 191.44 and propose projects of sufficient quality under the criteria set forth in § 191.45.

(b) The size of an award will be affected by the Commissioner's intent to fund all the States in accordance with paragraph (a) of this section and by the scope and quality of the project as measured by criteria set forth in § 191.45.

(Implements Sec. 344(b), 20 U.S.C. 2534(b).)

§ 191.48 Allowable costs.

Allowable costs pursuant to this subpart shall be determined in accordance with principles set forth in appendix B of Subchapter A of this chapter (Office of Education General Provisions Regulations).

(20 U.S.C. 1221c.)

§ 191.49 Capacity to carry out the project.

Notwithstanding the specific evaluation criteria in § 191.45, the Commissioner will not fund an application under this subpart unless the Commissioner is satisfied that the applicant has the capacity successfully to carry out the project.

(a) In making this judgment, the Commissioner will consider such factors as:

(1) Both the programmatic and financial management capacities of the applicant organization and its staff;

(2) Past performance by the applicant—

(i) In carrying out any prior grant under this part; or

(ii) In carrying out similar projects—with respect to such matters as achievement of objectives, adherence to the project conditions, programmatic and financial management, and the governing board's assumption of responsibility;

(3) Adequacy of facilities and other resources, including consideration of any litigation or dispute which calls into question the continued availability of the facilities and resources to the applicant; and/or

(4) Consideration of local community factors which may prevent the successful operation of the grant.

(b) If the Commissioner decides not to fund an application based upon this section, the Commissioner will do so only after providing reasonable notice and an opportunity to the applicant to rebut, in writing or in an informal meeting with the responsible officials of the U.S. Office of Education, the basis for the decision.

(Implements Sec. 344(b), 20 U.S.C. 2534(b).)

PART IV

COMMODITY FUTURES TRADING COMMISSION

■

MINIMUM FINANCIAL REQUIREMENTS FOR FUTURES COMMISSION MERCHANTS

V 42 164 AUG 24 77 UM

COMMODITY FUTURES TRADING COMMISSION

[17 CFR Part 1]

MINIMUM FINANCIAL REQUIREMENTS FOR FUTURES COMMISSION MERCHANTS

AGENCY: Commodity Futures Trading Commission.

ACTION: Proposed Rulemaking.

SUMMARY: The Commodity Futures Trading Commission has adopted an amendment to § 1.3(z) of its regulations which significantly broadens the definition of bona fide hedging. That amendment, however, would result in an unintentional change in the minimum financial requirements for futures commission merchants found in § 1.17 of the regulations since § 1.17 contains references to the definition of bona fide hedging. The Commission is therefore proposing an amendment which would change § 1.17 so that it refers only to those provisions of the newly adopted bona fide hedging definition which are substantially the same as those in the present bona fide hedging definition. The effect of this amendment would be to retain the minimum financial requirements of § 1.17 as they existed prior to the effective date of the amended bona fide hedging definition.

DATES: Comments on this proposed rule change should be submitted by September 8, 1977. Proposed effective date: October 1, 1977.

ADDRESSES: Comments should be sent to: Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, Attention: Secretariat.

FOR FURTHER INFORMATION CONTACT:

John L. Manley, Chief Accountant, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street NW, Washington, D.C. 20581, 202–254–5218.

SUPPLEMENTARY INFORMATION: The Commodity Futures Trading Commission ("Commission") has amended § 1.3(z) of its regulations under the Commodity Exchange Act, as amended ("Act"), effective October 1, 1977. See 42 FR 42747 (1977). The amendment would generally broaden the scope of the definition of bona fide hedging to include current commercial risk-shifting practices in the markets now under regulation. The intended effect of the amendment is to increase commercial utilization of the futures markets for the purposes of hedging by allowing additional exemptions from the Commission's limits on positions and daily trading, and by recognizing a broader range of risk-shifting uses in those markets.

This broadened definition of bona fide hedging would, however, effect an unintentional change in the current minimum financial requirements for futures commission merchants found in § 1.17 of the regulations. In paragraphs (c)(6) and (e) of § 1.17, which relate to the definition of adjusted working capital and the computation of safety factors, references are made to the definition of bona fide hedging contained in § 1.3(z). Since the Commission did not intend to change the current minimum financial requirements when it expanded the concept of bona fide hedging, it believes that an amendment to paragraphs (c)(6) and (e) of § 1.17 is necessary. In order to effectuate the intention of the Commission that the minimum financial requirements of § 1.17 not be substantially affected, it is necessary that § 1.17 be amended to insure that, for purposes of § 1.17, the definition of bona fide hedging be limited to those transactions that qualified as bona fide hedging transactions under § 1.3(z) prior to the amendment.

The proposed amendments will have no substantial effect on the present requirements of § 1.17. All comments on the proposed amendments received by, on or before September 8, 1977 will be considered before final action is taken on the proposals. The Commission considers this to be an appropriate period because of the nature of the proposed amendments. In order that there be no ambiguity or uncertainty in the method by which futures commission merchants are to continue to comply with § 1.17, the Commission intends to adopt the proposed amendments effective October 1, 1977, to coincide with the effective date of the revised bona fide hedging definition.

In consideration of the foregoing, the Commission hereby proposes to amend 17 CFR Part 1 by amending § 1.17 to read as follows:

§ 1.17 Minimum Financial Requirements—Futures Commission Merchants.

(c) * * *

(6) * * *

(iii) In the case of cash commodity inventories that are hedged by those bona fide hedging positions enumerated in paragraphs (2) (i) and (ii) of § 1.3(z), the amount by which the value of such inventories used by the applicant or registrant in computing his working capital, exceeds 95 percent of the market value of such inventories;

* * * * * *

(e) * * * (1) That such safety factor shall not apply to any spread or straddle held for the same account in the same commodity, on the same market, in the same crop year, or to any contract representing those bona fide hedging transactions enumerated in paragraphs (2) (i) and (ii) of § 1.3(z) (however, such factor shall apply to contracts specified in paragraph (2) (ii) (c) of § 1.3(z), representing hedges against unfilled anticipated requirements); nor shall it apply to any contract resulting from a "changer trade" made in accordance with the rules of a contract market which have been submitted to and approved by the Commission, and (2) that in the case of any intermarket or intercrop year spread or straddle, or any intermarket and intercrop year spread or straddle, held for the same account in the same commodity, the safety factor shall be 5 percent of the market value of that side of each such spread or straddle having the greater market value.

CRUDE OIL BUY/SELL PROGRAM

Revision

V 42 164 AUG 24 77 UM

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Revision of Crude Oil Buy/Sell Program

AGENCY: Federal Energy Administration.

ACTION: Final rule.

SUMMARY: This rule amends, effective October 1, 1977, the Mandatory Crude Oil Allocation Program (the "buy/sell program") set forth in 10 CFR 211.65 to limit the scope of the program to those refiner-buyers which have a demonstrated necessity for allocations of crude oil based on lack of access to adequate supplies of domestic and foreign crude oil, and to simplify the administration of the program. The pricing provisions governing buy/sell program sales are expected to be amended pursuant to a final rule to be issued in Sepember 1977.

DATES: Effective October 1, 1977. Further comments due on or before September 9, 1977 (see Supplementary Information).

ADDRESS: Send comments to: Executive Communications, Room 3317, Federal Energy Administration, Box NO, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: On July 18, 1977, FEA issued a notice of proposed rulemaking and public hearing (42 FR 37406, July 21, 1977) to revise the crude oil buy/sell program set forth in 10 CFR 211.65. Under the proposed amendments, the program would be limited to those refiner-buyers that have a demonstrated necessity for allocations of crude oil based on lack of access to adequate supplies of domestic and foreign crude oil. In addition, the proposal modified the pricing provision for sales of allocated crude oil to reflect more accurately the actual market value of crude oil sold under the program and simplified the administration of the program.

DISCUSSION OF COMMENTS

Comments on the proposed amendments to the crude oil buy/sell program were invited through August 8, 1977, and eighteen written comments were received by FEA. The public hearing on the proposal was held on August 9, 1977, and fourteen persons presented oral statements. The oral statements and written comments presented the views of major integrated refiners, large independent refiners, small refiners, and trade associations representing small refiners. FEA believes that the comments received fairly represent the broad range of interests which would be affected by any changes in the buy/sell program.

ELIGIBILITY FOR PROGRAM PARTICIPATION

FEA proposed that program participation would be reduced by elimination of all large independent refiners and small refiners that have had allocations shown on the buy/sell list during the last year but have not exercised their purchase opportunities. In addition, FEA proposed that no refining capacity operational after August 31, 1977 and no reactivated refineries or refining capacity that has not been operated for a period of six months or more would be eligible for an allocation. All other small refiners (including those which had allocations of zero) would be eligible to apply for allocations under the program, and allocations would be granted for specific refineries as to which supplies of domestic crude oil were not sufficient and the required showing of lack of access to imported crude oil had been made.

(a) *General.* Although the majority of the large integrated refiners commenting preferred elimination of the buy/sell program, most of these refiners generally supported FEA's proposal to limit the scope of the program to small refiners that are able to demonstrate a need for allocated crude oil and FEA's proposed criteria for determining buyer eligibility for participation in the program. Many of the large refiners, however, recommended that a revised program should contain a phase-out schedule or termination date as an incentive for small refiners to resolve their supply problems without governmental intervention. Some testimony recommended that buyer eligibility should be further restricted to small refiners that purchased allocated crude oil in at least three of the last four allocation periods. With respect to the proposed eligibility criteria, many large refiners commented that eligible small refiners located at a port or on a navigable inland waterway should be required to demonstrate a commitment to acquiring facilities to receive imported crude oil within a reasonable time period in order to maintain eligibility under the program.

FEA's conclusion from the record in this proceeding is that there is no rationale for providing a termination date for the revised program or for requiring eligible small refiners to acquire access to terminal or storage facilities to receive imported crude oil as a condition of maintaining their eligibility under the program. Since the Emergency Petroleum Allocation Act of 1973, as amended, provides for the expiration of allocation authority over crude oil in 1981, FEA believes that the majority of small refiners have sufficient incentives now to make alternative arrangements for obtaining future supplies of imported crude oil.

Small refiners commenting were generally critical of FEA's proposal to exclude from the program refiners that have not exercised their purchase opportunities during the last year. The principal objections that were raised in opposition to the proposal were that (1) exclusion on this basis would penalize those firms which have made concerted efforts to arrange for supplies of crude oil outside of the program; (2) non-use of the program in the past is not necessarily indicative of future need, particularly in light of the frequently erratic changes in the world crude oil market; (3) lack of past participation by some buyers in the program may have been due in part to sellers' unwillingness to offer a suitable crude oil or because the price for the crude oil made the sale uneconomic for the buyer; and (4) the proposed eligibility system would encourage refiners to make token purchases merely to maintain their eligibility in the program. In addition, small refiners which are dependent upon the Federal royalty oil program administered by the Department of the Interior and upon crude oil produced at Naval Petroleum Reserves for their crude oil supplies expressed concern over the absence of a provision for reentry into the buy/sell program in the event of the termination of these supply sources.

With respect to the proposed criteria for determining access to imported crude oil, many small refiners contended that the criteria are inflexible and thus constitute an inconclusive test of a refiner's access to imported crude oil. Specifically, some small refiners contended that the access test, that excludes refineries with crude oil runs to stills (excluding allocated crude oil) during the period January 1, 1977 through June 30, 1977 comprised of 20 percent or more of imported crude oil, establishes an absolute presumption of future access to foreign crude sources based on past conduct only and that it does not make any provision for changed circumstances that could limit, if not eliminate, a refinery's access to imported crude oil. In addition, some testimony indicated that the 20 percent test does not take into account the fact that a small refiner's dock facilities and storage capacity may make it impossible for it to receive tanker shipments on a regular basis.

On the basis of the evidence presented in the oral testimony and the written comments, FEA has concluded that it should examine further the need for a provision for re-entry into the buy/sell program for small refiners that are not eligible to apply for an allocation because they did not purchase any allocated crude oil during the period September 1976 through August 1977. Accordingly, FEA invites further comments

as to whether a re-entry provision should be added to the revised program adopted today and, if so, the form of such a provision. FEA is particularly interested in receiving comments from small refiners that made no purchases in the period September 1976 through August 1977 but believe they will require allocated oil in the future under the revised program. Comments in this regard should not address the allocation of crude oil during an embargo or a severe general shortage, since other allocation programs would be required to deal with such situations.

With respect to the proposed criteria for determining access to imported crude oil, none of the objections made by small refiners commenting convinced FEA that these should be revised. Specifically, very little evidence was presented which substantiated any conclusion that small refiners which are deemed to have access to imported crude oil and thus are ineligible for allocations would be unable to continue to make alternative arrangements for supplies of imported crude oil sufficient to sustain their operations. In view of the fact that there exists an active commercial international crude oil market involving the major oil companies, medium-size producers and many traders and brokers, FEA believes that small refiners which have secured imported crude oil in the past will continue to be able to make satisfactory arrangements in the future. However, in the event that there are significant changes in the access of a small refiner's refinery to imported crude oil, the amendments adopted today provide that FEA may review the eligibility of that refinery for participation in the program. FEA believes that this review provision should provide sufficient protection for refineries that are initially determined to be ineligible for an allocation.

(b) *Allocations for newly constructed refining capacity.* Large refiners commenting generally supported FEA's proposal to exclude new or expanded refining capacity from the buy sell program and, as to refineries operational prior to September 1, 1977, to permit a maximum possible allocation of 25 percent of the refinery's capacity under the same access criteria as for other refineries. However, the majority of small refiners contended that the proposal was inequitable in that some refiners had relied on the continued existence of the current by/sell program and, in particular, the provisions providing for allocations to future refining capacity in committing funds to the construction of additional refining capacity. In at least one case the proposal, in effect, would have rendered inoperative a decision of the Office of Exceptions and Appeals granting exception relief from the ninety-day requirements of 10 CFR 211.65(b)(1) to a firm which required an advance allocation in order to obtain financing necessary to complete a new refinery. Some testimony indicated that exclusion of newly constructed and expanded refining capacity operational after September 1, 1977 was inconsistent with the provisions of the Emergency Petroleum Allocation Act of 1973, as amended, relating to market entry and expansion of refining facilities by small refiners.

On the basis of the evidence presented in the oral testimony and written comments, FEA has concluded that the proposed provision pertaining to new and expanded refineries should be modified to provide that any small refiner which has made a substantial commitment prior to the issuance of this final rule for the expansion of an existing refinery or construction of a new refinery would be permitted to apply for an allocation for the expanded capacity or new refinery. If the new or expanded refinery is determined not to have access to imported crude oil and thus is eligible for an allocation, the refinery or the expanded portion thereof would be granted a maximum allocation equal to 25 percent of its capacity. The allocation for the new or expanded refining capacity would be in effect for two allocation periods; for subsequent allocation periods, the allocation would be determined in accordance with the allocation formula adopted today.

With respect to small refiners that make a commitment after the issuance of this final rule for new or expanded refining capacity, FEA has determined to solicit further comments as to whether, and under what circumstances, such capacity should be eligible to apply for an allocation under the buy sell program.

(c) *Large independent refiners.* As indicated above, under the proposed revisions to the buy/sell program the so-called large independent refiners would be eliminated from the refiner-buyer category as a result of the proposed amendments to the definitions of "small refiner" and "refiner-buyer". However, these refiners would not be refiner-sellers under the definition of that term in 10 CFR 211.62 if they qualify as independent refiners (as defined in 10 CFR 211.62). In light of these changes, several refiners commented that the so-called large independent refiners should be classified as refiner-sellers unless they were able to demonstrate their status as "independent refiners" as that term is defined in 10 CFR 211.62 and in the Emergency Petroleum Allocation Act of 1973, as amended.

In connection with the implementation of the June 1974 amendments to the buy/sell program, each refiner that claimed to be a small refiner or an independent refiner was required to file an affidavit with FEA setting forth the factual basis for its claim for the purpose of determining its status as a refiner-buyer. In evaluating these affidavits, FEA determined that certain of the independent refiners that are over the 175,000 barrel per day capacity limit qualified as refiner-buyers on the basis of their status as small refiners. Thus, the agency did not specifically rule on their status as independent refiners.

On the basis of the foregoing and the comments received in this proceeding, FEA has determined to adopt an amendment to the definition of "refiner-seller" in 10 CFR 211.62 which in effect freezes the refiner-seller category for the allocation period commencing October 1, 1977. This six-month period will provide any refiner that is not a small refiner by reason in the change in that defined term and which claims to be an independent refiner sufficient time to submit documentation to FEA pursuant to Subpart G of 10 CFR Part 205 to permit the agency to evaluate its status as an independent refiner. If any of these firms is unable to document its claim to the status of an independent refiner, it would become a refiner-seller under this program in the allocation quarter commencing April 1, 1978. The amendments adopted today also exclude from the definition of refiner-sellers refiners that are not small refiners or independent refiners all of the refining capacity of which was constructed after January 1, 1974.

PURCHASE OPPORTUNITIES FOR ELIGIBLE REFINER-BUYERS

Under the proposal, eligible refiner-buyers would be entitled to purchase an amount of crude oil equal to the difference between (A) the crude oil runs to stills for the refiner's own account at the eligible refinery in the corresponding six months of the previous year, including allocated crude oil, and (B) the runs to stills for the six month period immediately preceding the allocation period (determined by using the crude oil runs to stills level for that refinery for the refiner's account in the first four months of that period over the six month period), less the volume of allocated crude oil processed in the refinery.

Most of the large refiners commenting supported FEA's proposed formula for calculating a buyer's purchase opportunity under the program. However, several larger refiners recommended that an allocation ceiling be established for all buyers to encourage them to take appropriate action to maintain their operations in the face of changing supply conditions. Some large refiners also recommended that the formula be modified to preclude buyers from rolling-over unused purchase rights from one period to the next.

Many small refiners contended that the proposed formula for calculating a refiner's purchase opportunity would penalize a refiner which experienced a shutdown or a drop in runs to stills due to inventory drawdown during the corresponding period of the previous year or during the six-month period preceding the allocation period. The proposed formula also was criticized on the ground that it would discourage small refiners from locating sources of crude oil outside the program, since this action would result in a reduced allocation in a succeeding allocation period. In this regard, several small refiners recommended that the formula should contain an automatic

V 42164 AUG 24 77 UM

adjustment mechanism to compensate for unanticipated shortfalls in crude oil supply during an allocation period.

Contrary to the comments of several small refiners, the July 21, 1977 proposal contained a provision for adjustments to allocations to compensate for unusual or non-recurring operating problems. However, in light of the comments in this proceeding, FEA has determined to make provision, in addition to the provision for adjusting allocations to compensate for unusual or nonrecurring operating conditions, for emergency supplemental allocations at any time for eligible refiners that have experienced or will experience shortfalls in supply equal to 25 percent of their nonallocated supply in the preceding six-month period. Emergency supplemental allocations would be available only for supply shortfalls caused by disasters, acts of God, or other events over which the small refiner reasonably had no control. In addition, FEA has concluded that an adjustment to a refiner's purchase opportunity also would be appropriate where a buyer is not able to consummate a directed sale transaction due to the fault of a seller.

However, it is FEA's conclusion from the record in this proceeding that there is insufficient justification for providing an automatic adjustment provision to compensate for unanticipated shortfalls in crude oil supply or for a reduction in runs to stills due to inventory drawdown. FEA continues to believe that the general availability of crude oil in the world market should in most cases permit small refiners to make alternate arrangements for crude oil supply in periods of unanticipated shortfall. FEA is also not persuaded from the evidence presented in this proceeding that the proposed formula would discourage refiners from locating crude oil outside the program.

SALES OBLIGATIONS OF REFINER-SELLERS

The majority of the refiner-sellers commenting opposed FEA's proposal to retain the provision for carryover of sellers' sales obligations on the ground that it adds to the difficulties and uncertainties which the major refiners experience in developing crude oil scheduling. Many large refiners contended that the carryover provision is unfair, particularly where the unsold obligations are due to buyers' refusals to consummate transactions. On the basis of the evidence presented in this proceeding, FEA has determined to modify the carryover provision to provide for a reduction, as explained in more detail below, in the unsold obligations carried over for each refiner-seller.

PRICING OF ALLOCATED CRUDE OIL

Under the proposal, refiner-sellers would determine their weighted average landed cost separately for high sulfur and low sulfur crude oil, defined as crude oil above and below .6 percent sulfur by weight, respectively. The maximum permitted sale price of allocated crude oil would be calculated by applying the current sulfur and gravity differentials of plus or minus three cents per one tenth percent sulfur by weight and three cents per °API against the weighted average landed cost of the category of crude oil in which the actual volume of crude oil sold to a refiner-buyer is included. With respect to transportation expenses recoverable by refiner-sellers, the proposal provided that refiner-buyers would be charged only actual additional transportation costs over and above the average of all transportation costs of imported crude oil included in the calculation of the price of allocated crude oil. Domestic transportation costs included in a refiner-seller's computation of landed costs will not be recoverable as additional expenses.

The majority of refiner-sellers and refiner-buyers commenting in this proceeding generally supported FEA's proposal for the pricing of allocated crude oil. One refiner-seller commented that the proposed pricing method failed to provide a procedure for refiner-sellers which import only high sulfur crude oil and are required to sell domestic low sulfur crude oil, as well as the converse of that situation. FEA is considering allowing refiner-sellers which import only one category of crude oil to use the weighted average landed cost of that category and to apply the current sulfur and gravity differentials provided in 10 CFR 212.94 (b) (3) (4) to determine the price of the crude oil sold under the program. However, FEA specifically invites further comments by the date specified above on an alternative means for calculating a fair market price for allocated crude oil in this type of situation.

Several refiner-sellers recommended that the regulation should provide for a one-month period in which to make the required calculations rather than the proposed three-month period. It is FEA's conclusion from the record that there are no compelling reasons at this time to adopt a one-month period for calculation of prices. However, FEA is interested in receiving further comments on this issue.

With respect to adjustments for transportation expenses, several refiner-sellers recommended that specific recognition should be given to a refiner-seller's transportation expense in replacing domestic crude oil which is sold under the program with imported crude oil and that a refiner-seller should be required to credit a refiner-buyer with transportation expenses saved in moving domestic crude oil to a refiner-buyer's refinery. Several refiner-sellers also recommended that a refiner-seller should be permitted to charge a refiner-buyer the transportation expense to move the domestic crude oil to the refiner-buyer's refinery in addition to the transportation expense incurred in moving replacement foreign crude oil from the port of entry to the refiner-seller's refinery.

On the basis of the comments in this proceeding, FEA has concluded that the proposal for transportation cost adjustments may be unfair, in certain situations, to both refiner-buyers and refiner-sellers. Accordingly, FEA is requesting further comments and recommendations by the date specified above with regard to a regulatory provision that would assure that only actual transportation costs will be charged or incurred in transactions involving allocated crude oil. FEA solicits comments on the most appropriate methods for determining transportation cost adjustments when either a domestic or an imported crude oil is actually delivered to a refiner-buyer. Specifically, FEA solicits comments on the following possible alternative provisions:

1. A refiner-seller would be required to reduce the transportation charge for crude oil sold under the program by an amount equal to its average cost of transporting crude oil from the U.S. Customs border to the seller's refinery and to increase the transportation charge by an amount equal to the cost of transporting domestic crude oil from the lease to the buyer's refinery. For example, if a refiner-seller's average domestic transportation cost for imported crude oil is $0.40 per barrel, and the cost of transporting the domestic crude oil sold to the refiner-buyer from the lease to the buyer's refinery is $0.52 per barrel, then the seller could charge the buyer $0.12 per barrel over the seller's average landed cost for crude oil of that category.

2. A refiner-seller would be required to sell domestic crude oil to a refiner-buyer at the lease at the refiner-seller's average landed cost less the refiner-seller's average domestic transportation cost. The buyer would be required to arrange for the transportation of the crude oil from the lease to its refinery.

3. A refiner-seller would be required to reduce its average landed cost by its actual savings, if any, in moving domestic crude oil from the lease to its own refinery. The domestic crude oil would be sold to the refiner-buyer at the lease at this reduced cost.

4. A refiner-seller would be required to reduce its average landed cost by its average cost of transporting imported crude oil to its refineries from the U.S. Customs border and add actual domestic transportation cost from the point of entry to the point of delivery to the refiner-buyer when imported crude oil is actually delivered to the refiner-buyer.

As indicated above, FEA expects to issue a final rule applicable to the pricing provisions governing the buy sell program in September 1977.

REPORTING REQUIREMENTS

The proposed modification of the present reporting requirements provided for a monthly report for refiner-buyers and refiner-sellers, which would have included the data now reported quarterly, plus information as to actual sales, purchases, crude oil runs to stills

of allocated crude oil, which are not now reported. In addition, FEA requested comments on whether refiners should be required to identify the volumes of differing quality crude oils processed in each of their refineries, which information could assist FEA in evaluating requests for directed sales.

There was considerable opposition to the proposed reporting requirements, the consensus being that they would be unduly burdensome and would serve no useful purpose. The objections convinced FEA that these reporting requirements should not be adopted as proposed. As explained in more detail below, FEA has decided to adopt a semiannual reporting requirement for refiner-buyers participating in the program and an abbreviated monthly reporting requirement for refiner-sellers with respect to crude oil sales under the program.

ALLOCATION PERIOD, DIRECTED SALES, AND CONDITIONS OF SALE

The majority of firms commenting in this proceeding generally supported FEA's proposal to adopt a six-month allocation period in lieu of the present three-month period and to permit refiner-buyers to request a directed sale at any time within the twenty-day period following the publication of the buy/sell notice. Most firms also supported the proposed amendments pertaining to the conditions of sales under the program.

With respect to the proposed directed sales amendment, some large refiners expressed concern that in certain situations their supply-to-capacity ratios for particular refineries could be reduced below the supply-to-capacity ratios of assigned refiner-buyers as a result of directed sales orders. Although FEA has not been persuaded by the evidence to modify the proposed provision to reflect these concerns, the agency will monitor the situation to ensure that refiner-sellers are selected for directed sales in a fair and equitable manner. In this regard, FEA may on occasion request refiner-sellers to provide information regarding their supply-to-capacity ratio at specified refineries which will assist the agency in selecting the most appropriate seller for directed sales.

With respect to the provision relating to the conditions of sale, several refiner-sellers objected to the requirement that the crude oil offered for sale must be "physically capable of being delivered to the refiner-buyer's refinery by transportation methods" normally used "to deliver crude oil to that refinery" (emphasis supplied). These firms contended that the "normally used" language was unduly restrictive since several reasonable alternatitve delivery systems might be available to the refiner-seller. In light of these comments, FEA has determined to eliminate this requirement from the conditions of sale provision adopted today. In lieu of this language, FEA is requiring that the crude oil offered for sale to a refiner-buyer must be "practical for delivery" and "physically capable" of being delivered to the buyer's refinery.

THE AMENDMENTS ADOPTED

Based on its analysis of the material submitted in the public hearing and in the written comments, and upon all other information available to it, FEA has determined to adopt the amendments to the crude oil buy/sell program essentially as proposed, with the modifications discussed below.

1. *Eligibility.* As discussed above, program participation in the revised buy/sell program will be reduced by the elimination of all large independent refiners, as well as small refiners that have had allocations shown on the buy/sell list during the last year but have not exercised their purchase opportunities. All other small refiners (including those which had allocations of zero) will be eligible to apply for allocations under the program, and allocations will be granted for specific refineries as to which the supplies of domestic crude oil are not sufficient and the required showing of lack of access to imported crude oil has been made.

Small refiners with newly constructed refining capacity that have received an allocation under the present buy/sell program for such capacity but have not yet commenced operations will be eligible for an allocation for such capacity. In addition, small refiners that have expended or are irrevocably committed to expend prior to the issuance of this final rule an amount equal to at least twenty percent of the total cost of newly constructed refinery capacity also will be eligible for an allocation for such capacity. The allocations for newly constructed refining capacity will not exceed twenty-five percent of such capacity and will be in effect for a maximum of two complete allocation periods. For subsequent allocation periods, the allocations will be determined in accordance with the formula adopted today for calculating purchase opportunities.

All applications for individual refineries will be evaluated according to the criteria proposed in the July 21, 1977 notice for determining whether or not the refinery has access to imported crude oil.

2. *Purchase opportunities for eligible refiner-buyers.* Under the amendments adopted today, eligible refiner-buyers will be entitled to purchase an amount of crude oil equal to the difference between (A) the crude oil runs to stills for the refiner's own account at the eligible refinery in the corresponding six months of the previous year, including allocated crude oil, and (B) the runs to stills for the six month period immediately preceding the allocation period (determined by using the crude oil runs to stills level for that refinery for the refiner's account in the first four months of that period over the six month period), less the volume of allocated crude oil processed in the refinery.

3. *Review of eligibility for allocations, adjustments to purchase opportunities, and emergency supplemental allocations.* As indicated above, FEA is adopting as proposed the amendment providing for review of an adverse eligibility determination where significant changes in a refinery's access to imported crude oil have occurred. Requests for review of eligibility will not be accepted during an allocation period. FEA also is adopting as proposed the provision providing for adjustment of a refinery's allocation to compensate for reductions in crude oil runs to stills due to unusual or nonrecurring operating conditions. In addition, the adjustment provision will be available to small refiners which experience a reduction in crude oil runs to stills due to an unconsummated directed sale caused by delays of the refiner-seller.

Finally, as discussed above, FEA is adopting a provision for emergency supplemental allocations which would be available to eligible refiner-buyers to compensate for shortfalls in crude oil supply under certain limited circumstances.

4. *Sales obligations of refiner-sellers.* A refiner-seller's sales obligation will continue to be a fixed percentage share of the total amount of crude oil to be allocated to all refiner-buyers in an allocation quarter. The precentage share of each refiner-seller will be its proportional share of the reported refinery capacity of all refiner-sellers as of January 1, 1973. Since the amounts to be allocated to refiner-buyers should under the final rule more accurately reflect their actual purchases, the existing provision for calculating primary and secondary sales obligations for refiner-sellers is being eliminated. With respect to unsold sales obligations, the amount carried over for a refiner-seller will equal the product of its total sales obligation and the largest percentage of a sales obligation sold by any refiner-seller, less the volume of crude oil sold by the refiner-seller. The total sales obligation for each refiner-seller will therefore consist of a share of its unsold sales obligation from the previous allocation period, plus its fixed percentage share of that additional volume of crude oil, if any, necessary to make the total of the sales obligations of all sellers equal to the sum of the quantities of crude oil that all refiner-buyers are eligible to purchase for the allocation period.

5. *Directed sales.* FEA is adopting the procedures proposed for directed sales with the modifications explained above. The procedures adopted today are similar to those under the current program, except that refiner-buyers will be permitted to request directed sales as soon after the publication of a buy/sell list as they could demonstrate their inability to obtain allocated crude oil for their refinery under the program. Refiner-buyers may apply for directed sales at any time within the twenty (20) day period following publication of the list. This change is intended to speed up the directed sales process and to assure that refiner-buyers' allocations would be arranged before the beginning of the allocation period.

6. *Reporting requirements.* The final rule adopted today provides that each

refiner-buyer in the revised buy/sell program will be required to submit to FEA semiannually a report containing the following information for each of its refineries which receives an allocation: (1) Crude oil runs to stills; (2) purchases of allocated crude oil; (3) volume of domestic, imported, and allocated crude oil processed in the refinery; (4) volume of crude oil processed for the account of non-refiners; volume of crude oil processed for the account of the refiner by other refiners; (5) any change in refinery capacity since the previous report; and (6) deliveries of allocated crude oil made by refiner-sellers to each eligible refinery.

Refiner-sellers will be required to file a report with FEA each month summarizing crude oil sales under the program.

Both refiner-sellers and refiner-buyers will be required to notify FEA in writing or by telex of sales under the program within forthy-eight (48) hours after arrangements therefor are completed. This is to enable FEA to complete directed sales in a timely manner. In addition, any refiner-buyer requesting a directed sale will be required to identify the volumes of differing quality crude oils historically processed by the refinery for which the request is made. FEA believes that the reporting requirements adopted today are reasonable and will not impose an unfair burden on either refiner-buyers or refiner-sellers.

7. *Pricing of allocated crude oil.* As indicated above, FEA is soliciting further comments by September 9, 1977 with regard to various issues, including the transportation adjustment provision applicable to the pricing of allocated crude oil. Accordingly, FEA has determined to defer issuance of a final pricing rule governing sales of allocated crude oil until late September 1977.

8. *Allocation period and buy/sell notice.* The allocation period adopted hereby is a six-month calendar period in lieu of the three-month allocation period under the present regulations. FEA believes the longer allocation period will simplify the administration of the program and add a greater degree of certainty for both refiner-buyers and refiner-sellers. The first allocation period will commence October 1, 1977.

On August 8, 1977 (42 FR 40448, August 10, 1977) FEA issued a proposed special rule for the appendix to Subpart C of Part 211 which would suspend the allocation quarter that would otherwise commence September 1, 1977 under the present regulations and would permit refiner-buyers that purchased their allocations in the current allocation period to purchase a pro-rata amount thereof in the month of September from the same refiner-sellers from which they purchased crude oil in the current quarter. In the notice FEA requested comments on whether it would be desirable to extend the current allocation period on a pro-rata basis for October, as well as September, to permit the thirty-day period between the publication of the first buy/sell notice and the beginning of the first allocation period under the new program. In the event FEA determines that it is desirable to extend the current allocation period for two months, the revised buy/sell program adopted today would be implemented effective November 1, 1977, rather than October 1, as proposed, and the allocations for the first allocation period would be pro-rated over a five-month allocation period.

The buy/sell notice that specifies the quantities of allocated crude oil each refiner-buyer is eligible to purchase and each refiner-seller is required to sell will be published 30 days prior to the start of each allocation period, rather than 15 days prior to the beginning of an allocation quarter as provided under current regulations. FEA believes that this will make it easier for refiners to arrange purchases and sales of allocated crude oil and for refiner-buyers to apply for directed sales orders from FEA, if required. FEA expects that the buy/sell notice for the first allocation period will be issued on or about September 15, 1977.

PROVISIONS FOR ALLOCATION PERIOD COMMENCING OCTOBER 1, 1977

The amendments adopted hereby are made effective commencing with the allocation period beginning October 1, 1977. Any small refiner that is eligible to apply for an allocation for one or more of its refineries is required to submit an application to FEA no later than August 31, 1977. Separate applications are required for each refinery. Each application should contain full and detailed information necessary for FEA to evaluate the application under § 211.65(a) of the amendments adopted today. Specifically, each application must contain all information specified in § 211.65(a)(4). Data on crude oil runs to stills for the October 1, 1976 through May 31, 1977 period need not be resubmitted. FEA expects to issue decisions and orders on each application no later than October 1, 1977. As indicated above, FEA expects to publish the buy/sell notice for the first allocation period on or about September 15, 1977.

FURTHER COMMENTS SOLICITED

As indicated above, FEA is soliciting further comments from interested parties on various issues, including: (1) Whether the rule adopted today should be modified to permit re-entry into the buy/sell program for small refiners that are not eligible to apply for an allocation and, if so, under what circumstances re-entry should be permitted; (2) whether small refiners that make a commitment after the issuance of this rule for construction of a new refinery or expanded refinery capacity should be permitted to apply for an allocation under the buy/sell program; (3) an appropriate regulatory provision pertaining to transportation expenses recoverable by refiner-sellers which would ensure that the transportation expenses charged are fair to both refiner-buyers and refiner-sellers; and (4) an appropriate pricing provision for sales of allocated crude oil applicable to refiner-sellers which import only high sulfur crude oil (or only low sulfur crude oil) and are required to sell domestic low (or high) sulfur crude oil.

Written comments will be accepted and considered if received by September 9, 1977. Comments should be submitted to Executive Communications, Room 3317, Federal Energy Administration, Box NO, the Federal Buliding, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461. Comments should be identified on the outside of the envelope and on documents submitted with the designation "Crude Oil Buy/Sell Program." Fifteen copies should be submitted. FEA requests that parties submitting comments provide detailed data and, where appropriate, examples, in support of their comments.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-385; Energy Policy and Conservation Act Pub. L. 94-163, as amended Pub. L. 94-385; E.O. 11790, 39 FR 23185.)

In consideration of the foregoing, Part 211 of Chapter II, Title 10, Code of Federal Regulations, is amended as set forth below, effective October 1, 1977, except that the provisions of 10 CFR 211.65(a)(4) amended hereby pertaining to applications for allocations for the allocation period commencing October 1, 1977 are effective immediately.

Issued in Washington, D.C., August 19, 1977.

J. PETER LUEDTKE,
Acting General Counsel.

1. Section 211.62 is amended to delete the definitions of "allocation quarter", "future refining capacity", "new refining capacity" and "refinery capacity"; to revise the definitions of "refiner-buyer," "refiner-seller" and "refining capacity"; and to add, in appropriate alphabetical sequence, a new definition of "allocation period", to read as follows:

§ 211.62 Definitions.

* * * * *

"Allocation period" means a consecutive six-month calendar period commencing either on April 1 or October 1 of each year. The first allocation period shall be the six-month period from October 1, 1977 through March 31, 1978.

* * * * *

"Refiner-buyer" means any small refiner which is determined to be eligible for an allocation of crude oil pursuant to § 211.65 of this subpart.

* * * * *

"Refiner-seller" means a refiner which is not a small refiner or independent refiner as defined in this section: *Provided*, That a refiner which is not a small refiner or an independent refiner, and all of the refining capacity of which has been constructed after January 1, 1974, shall not be classified as a refiner-seller: *And provided further*, That, for the allocation period commencing October 1, 1977, the refiners considered to be refiner-sellers for purposes of § 211.65 of this subpart shall include only those firms classified as refiner-sellers in the allocation quarter commencing June 1, 1977.

* * * * *

"Refining capacity" means, for each refinery, the capacity thereof as certified by the FEA. Any capacity of a refinery which has ceased to be operated continuously in the normal course of business shall be deducted from refining capacity.

* * * * *

"Small refiner" means a refiner, the sum of the capacity of the refineries of which (including the capacity of any person who controls, or is controlled by, or is under common control with such refiner) does not exceed 175,000 barrels per day.

* * * * *

2. Section 211.64 is amended to read as follows:

§ 211.64 Transactions under prior program.

Any agreement for the sale or purchase of crude oil entered into as a result of the provisions of this subpart as in effect immediately prior to October 1, 1977, shall be fully performed nowithstanding any provision of this subpart as in effect on October 1, 1977.

3. Section 211.65 is revised to read as follows:

§ 211.65 Method of allocation.

(a) *Eligibility for allocation.* (1) Any small refiner may apply to FEA for an allocation for one or more of its refineries: *Provided*, That the small refiner (i) purchased crude oil under the provisions of this section during the period September 1, 1976 through August 31, 1977, (ii) was listed on the buy/sell notices during the period September 1, 1976 through August 31, 1977, with an allocation of zero (0) barrels in all four allocation quarters in that period, or (iii) as to small refiners not shown on such buy/sell notices and other small refiners with newly constructed refinery capacity or reactivated refineries or refinery capacity, has completed the process design basis for the refining capacity concerned and has expended or is irrevocably committed to expend prior to August, 1977, an amount equal to at least twenty (20%) percent of the total cost of such refining capacity, in which latter case the FEA may assign such refining capacity a maximum allocation of twenty-five (25%) percent of the capacity. Such allocation will be in effect for a period not to exceed two allocation periods, following which the allocation for such refining capacity shall be calculated in accordance with the provisions of paragraph (b) of this section.

(2) A refinery shall only be eligible for an allocation if it is not deemed to have access to imported crude oil (other than Canadian crude oil).

(3) A refinery shall be deemed to have access to imported crude oil if:

(i) Twenty (20%) percent of its crude oil runs to stills (excluding crude oil purchased pursuant to this section) during the period January 1, 1977 through June 30, 1977 were comprised of imported (other than Canadian) crude oil; or

(ii) It is located at a port or on a navigable inland waterway providing access to imported crude oil, unless the small refiner that owns the refinery can document that it could not receive imported crude oil for one of the following reasons:

(A) The refinery is only accessible by water for a portion of the year, or

(B) The refinery was constructed to process domestic crude oil, and lacks dock and/or storage facilities that would permit it to process imported crude oil; or

(iii) It has direct access to a pipeline that routinely carries imported crude oil (other than Canadian crude oil) to inland refineries, unless the small refiner that owns the refinery can document that it could not receive a sufficient quantity of imported crude oil by pipeline for one of the following reasons:

(A) The refinery's volume of crude oil runs to stills (excluding crude oil processed for other refiners) have decreased by fifteen (15%) percent or more in the six months immediately preceding the refiner's application due to documented pipeline proration.

(B) The required minimum size of pipeline shipments exceeds the refinery's storage capacity, or other available storage in the immediate area, or

(C) The refiner is required to supply pipeline fill in order to use the pipeline, and the minimum pipeline fill requirements are more than one-half of the refinery's storage capacity.

(4) Small refiners eligible under subparagraph (1) of this paragraph to apply for allocations for one or more of their refineries shall submit applications by September 1, 1977 for a determination of the refineries' eligibility for an allocation. Applications shall be addressed to the Program Manager, Crude Oil Allocation, FEA, in accordance with the procedures established in Subpart G of Part 205 of this chapter. Each application shall contain the information (including documentation where appropriate) necessary for the FEA to evaluate the application under the criteria specified in subparagraph (3) of this paragraph and the data on crude oil runs to stills necessary to calculate an allocation under paragraph (b) of this section, including the information specified in § 211.66(d) for the months of June and July 1977. Documentation should include copies of correspondence with pipeline companies, as well as any published requirements of pipeline companies as to required minimum shipments. Separate applications must be submitted for each refinery. The FEA may request additional information if necessary for evaluation of the application and shall notify each applicant of its determination as to eligibility of the refinery or refineries concerned by September 30, 1977.

(b) *Purchase opportunities of refiner-buyers.* (1) In each allocation period, each refiner-buyer shall be entitled to purchase, for each refinery owned by that refiner-buyer that is determined by the FEA not to have access to imported crude oil, an amount of crude oil equal to the difference between the volume of crude oil runs to stills (not including crude oil processed for other refiners) at the eligible refinery in the corresponding period of the previous year (October 1, 1976 through March 31, 1977 for the first allocation period) and the volume of the crude oil runs to stills (not including crude oil processed for other refiners) at the eligible refinery for the six month period immediately preceding the allocation period for which the allocation is being determined (calculated by utilizing the level of the crude oil runs to stills at that refinery in the first four months of the period for the entire six-month period) less the volume of the crude oil runs to stills in the latter six month period attributable to crude oil purchased under this section: *Provided*, That any allocation granted under this paragraph may be adjusted if FEA determines pursuant to paragraph (a) of this section that a refiner-buyer's refinery has access to imported crude oil during certain seasons of the year.

(2) Crude oil allocated under this section shall be processed only at the refinery as to which the allocation was granted, and such crude oil must be processed in that refinery within forty-five days following the close of the allocation period for which that crude oil was allocated.

(3) No allocation shall be made under this section which will result in crude oil supplies in excess of one hundred (100%) percent of refining capacity for any refiner-buyer's refinery.

(4) No refiner-buyer shall purchase under this section, (i) crude oil imported from Canada for processing in any first priority refinery (as defined in Part 214 of this chapter) owned by that refiner-buyer or (ii) domestic crude oil for processing in any such first priority refinery in excess of the average volumes thereof purchased by that refiner-buyer for that refinery in the period September 1, 1976 to August 31, 1977.

(c) *Review of eligibility for allocations, adjustments to purchase opportunities, and emergency supplemental allocations.* (1) Upon application by a small refiner to the FEA no less than 60 days or more than 90 days prior to the beginning of an allocation period, the FEA may: (i) Review the eligibility of a refinery owned by that refiner where significant changes in the refinery's access to imported crude oil have occurred since the refinery was determined by FEA to be ineligible for an allocation; (ii) adjust the allocation as to an eligible refinery to compensate for reductions in crude oil runs to stills due to unusual or nonrecurring operating conditions; or

V 42164 AUG 24 77 UM

(iii) adjust the allocation as to an eligible refinery to compensate for an unconsummated directed sale under paragraph (j) of this section due to documented delays in delivering crude oil to be sold under this section by the refiner-seller during the period September 1, 1976 through August 31, 1977, or an allocation period subsequent to October 1, 1977. Requests for review of eligibility for an allocation or adjustment to an allocation shall be made in accordance with the procedures established in Subpart G of Part 205 of this chapter. The FEA shall make its determinations within forty-five (45) days of the receipt of the application.

(2) Upon application at any time by a refiner-buyer, the FEA may grant an emergency supplemental allocation for one or more of the refiner-buyer's eligible refineries for one or more allocation periods, or for part of an allocation period; *Provided*, That such refiner shall be required to demonstrate that it has incurred or will incur a reduction in its crude oil supply (excluding crude oil allocated under this section or under § 211.63) for the eligible refinery for which an emergency supplemental allocation is sought equal to at least twenty-five (25%) percent of such crude oil supply in the preceding six-month period. In granting a request of a refiner-buyer for an emergency supplemental allocation, the FEA may also direct one or more refiner-sellers to sell a suitable type of crude oil to such refiner-buyer pursuant to paragraph (j) of this section. Requests for an emergency supplemental allocation shall be made in accordance with the procedures established in Subpart G of Part 205 of this chapter. The FEA shall make its determination within ten (10) days of the receipt of the application.

(3) The FEA may at any time, without application by the refiner-buyer concerned, review the eligibility of or allocation as to a refinery. Specifically, the FEA may institute such a review where it believes that significant changes in the supplies of domestic crude oil for any refinery have occurred or because of the need to reconsider the refinery's access to imported crude oil pursuant to paragraph (a)(3) of this section. The FEA may request additional information from the refiner concerned for the purposes of such a review. If appropriate, the FEA may determine that a refinery is ineligible for further allocations or may adjust the allocation of a refinery pursuant to an order issued under Subpart G of Part 205 of this chapter.

(d) *Leased or purchased refineries.* Leased or purchased refineries shall continue to be eligible for allocations on the same basis as in effect for the lessor or the previous owner, as the case may be; *Provided*, That the lessee or new refiner as to the refinery is a small refiner.

(e) *Computation of total allocation obligation.* The sum of the quantities of crude oil that all refiner-buyers are eligible to purchase for delivery during an allocation period shall be the total allocation obligation for refiner-sellers for such allocation period.

(f) *Refiner-sellers' sales obligations*—(1) *Sales obligation of each refiner-seller.* (i) Effective for the allocation period commencing October 1, 1977 and subsequent allocation periods, the FEA shall compute a sales obligation for each refiner-seller as provided in paragraph (f)(2) and (3) of this section. The total of the sales obligations of all refiner-sellers shall be equal to the total allocation obligation for the particular allocation period as computed in paragraph (e) of this section.

(ii) Each refiner-seller shall offer for sale, directly or through exchange, to refiner-buyers during an allocation period a quantity of crude oil equal to that refiner-seller's sales obligation.

(2) *Calculation of sales obligations.* (i) The sales obligation for each refiner-seller shall consist of that refiner-seller's fixed percentage share as calculated under subparagraph (2)(ii) of this paragraph (f) multiplied by the total sales obligation for all refiner-sellers adjusted by any carryovers of unsold sales obligations and FEA approved reductions in sales obligations for sales in excess of sales obligations in previous allocation periods.

(ii) A refiner-seller's fixed percentage share is its proportionate share of the total refining capacity of all refiner-sellers as reported to the Bureau of Mines on January 1, 1973, as certified by the FEA. Changes in refining capacity shall not subject a refiner-seller to any change in its fixed percentage share over the share identified for the first allocation period. No refiner-seller shall be required to sell any of its supplies of crude oil under this section if the sale thereof would effect a reduction in the supplies of crude oil imported from Canada allocated under Part 214 of this chapter to any first priority refinery (as defined in Part 214) owned by that refiner-seller or if the sale thereof would effect a reduction in the supply levels of domestic crude oil for any such first priority refinery, except that such refiner-seller is required to offer for sale under this section the average volumes of domestic crude oil sold under this section in the period September 1, 1976, through August 31, 1977, for use at an eligible first priority refinery owned by a refiner-buyer.

(3) *Carryover of sales obligations.* (i) The volume of each refiner-seller's unsold sales obligation in an allocation period shall be added to that refiner-seller's sales obligation in one or more subsequent allocation periods: *Provided*, That the unsold sales obligations of each refiner-seller so carried over shall not exceed an amount equal to the product of such refiner-seller's sales obligations and the largest percentage of a sales obligation sold by any refiner-seller, less the volume of crude oil sold by such refiner-seller.

(ii) The FEA shall pursuant to paragraph (j)(3) of this section, or may at its discretion in other cases, reduce a refiner-seller's sales obligation in an allocation period for sales in excess of its published sales obligation in a previous allocation period.

(g) *Buy/sell notice.* The buy/sell notice for the allocation period commencing October 1, 1977, shall be issued on or about September 15, 1977. For subsequent allocation periods, the buy sell notice shall be published at least thirty days prior to the beginning of the allocation period. Each buy/sell notice shall list the quantity of crude oil each refiner-buyer is eligible to purchase, the total allocation obligation for all refiner-sellers, the fixed percentage share for each refiner-seller and the quantity of crude oil that each refiner-seller will be obligated to offer for sale to refiner-buyers. Upon publication of the notice, refiner-buyers and refiner-sellers shall negotiate purchases and sales of crude oil allocated pursuant to the notice. All sales, except directed sales pursuant to paragraph (j) of this section, must be contracted for within thirty (30) days after the publication of the buy/sell notice, and all deliveries must be completed within thirty (30) days following the close of the allocation period.

(h) *Sale/purchase transaction report.* Within forty-eight hours of the completion of arrangements therefor, each transaction made to comply with this section shall be reported in writing or by telex by the buyer and seller to the FEA. This report shall identify the refiner-seller, the refiner-buyer, the refineries to which the crude oil is to be delivered, the volumes of crude oil sold or purchased, and the period over which the delivery is expected to take place.

(i) *Conditions of sale.* (1) The terms and conditions of each sale of crude oil, other than the prices, shall be consistent with normal business practices.

(2) The crude oil offered must be suitable for processing in the refiner-buyer's refinery. Crude oil is deemed to be suitable for processing in a refinery if it has historically been processed in the refinery or if it has the same characteristics as crude oil that has historically been processed in the refinery. A refiner-seller may not be required to supply a specific type of crude oil to a refiner-buyer's refinery if the volume of the crude oil that would be sold would account for a greater percentage of the refinery's total crude oil runs to stills in the allocation period concerned than was the case for that type of crude oil during the previous twenty-four month period.

(3) The crude oil offered for sale by a refiner-seller must be practical for delivery to and physically capable of being delivered to the refiner-buyer's refinery. The refiner-seller is responsible for arranging delivery of allocated crude oil to the refiner-buyer's refinery.

(4) All crude oil sold pursuant to this section shall be priced in accordance with the provisions of Part 212 of this chapter.

(5) Exchanges of crude oil may be utilized to comply with the purchase and sale provisions of this section.

(j) *Failure to negotiate transactions.* (1) Each refiner-buyer shall make its best effort to consummate the purchases of crude oil under this subpart from refiner-sellers prior to requesting assistance from the FEA. A refiner-buyer that is able to demonstrate its inability to consummate a sale despite making such effort may request, in accordance with the procedures established under Subpart G of Part 205 of this chapter, that the FEA direct one or more refiner-sellers to sell a suitable type of crude oil to such refiner-buyer. Such a request must be received by the FEA no later than 20 days after the publication of the buy/sell notice for the allocation period for which the assignment of a refiner-seller is requested. Such a request must also document the refiner-buyer's inability to purchase crude oil from refiner-sellers by supplying the following information to the FEA:

(i) Name of the refiner-buyer and of the person authorized to act for the refiner-buyer in transactions under this section.

(ii) Names and locations of the refineries for which crude oil has been sought, the amount of crude oil sought for each refinery, and the technical specifications of crude oil that have historically been processed in each refinery.

(iii) Statement of any restrictions, limitations or constraints on the refiner-buyer's purchases of crude oil, particularly concerning the manner or time of deliveries.

(iv) Names and locations of all refiner-sellers from which crude oil has been sought under the buy-sell notice, the refineries for which crude oil has been sought, and the volume and specifications of the crude oil sought from each refiner-seller.

(v) The response of each refiner-seller to which a request to purchase crude oil has been made, and the name and telephone number of the individual contacted at each such refiner-seller.

(vi) Such other pertinent information as the FEA may request.

(2) Upon receipt of such a request, the FEA may direct one or more refiner-sellers that have not sold their required sales obligations for the allocation period to sell crude oil to the refiner-buyer. If the refiner-buyer declines to purchase the crude oil specified by the FEA, the rights of that refiner-buyer to purchase that volume of crude oil are forfeited during that allocation period: *Provided*, That the refiner-seller or refiner-sellers have fully complied with the provisions of this section.

(3) The FEA may direct refiner-sellers to sell crude oil to refiner-buyers that have been unable to purchase their total allocations for the allocation period. In directing refiner-sellers to make such sales, the FEA shall consider the percentage of each refiner-seller's sales obligations for the allocation period that has been sold, as reported pursuant to paragraph (h) of this section, as well as the refiner-seller or sellers that can best be expected to consummate particular directed sales. If, in the FEA's opinion, a valid directed sale request cannot reasonably be expected to be consummated by a refiner-seller that has not completed all or substantially all of its sales obligation for the allocation period, the FEA may issue one or more directed sales orders that would result in one or more refiner-sellers selling more than their published sales obligations for that allocation period. In such cases, the refiner-seller or sellers will receive a barrel-for-barrel reduction in their sales obligations for the next allocation period pursuant to paragraph (f)(3)(ii) of this section.

4. Section 211.66 is amended by deleting paragraphs (c) and (f) and reserving them for furture use and revising paragraphs (d) and (e) to read as follows:

§ 211.66 Reporting requirements.

* * * * * *

(d) *Refiner-buyers' semiannnual report.* Not later than the tenth (10th) day of the fifth (5th) month of each allocation period (February 10, 1978 for the allocation period commencing October 1, 1977) each refiner-buyer shall file with the FEA a report containing the following information as to the six-month period ending with the last full month prior to which the report is filed:

(i) The volume of the crude oil runs to stills for each of its eligible refineries, by month, identifying the volumes of domestic, imported and allocated crude oils so processed.

(ii) The volume by month of crude oil processed for the account of other refiners in each such refinery, identifying such refiners and the volume processed.

(iii) The volume by month of crude oil processed for the account of non-refiners in each such refinery, identifying such non-refiners and the volume processed.

(iv) The volume of crude oil by month processed for the account of that refiner-buyer by other refiners, identifying such other refiners and the volume processed.

(v) Any change in refinery capacity since the previous report.

(vi) Purchases of allocated crude oil for each eligible refinery.

(vii) Deliveries of allocated crude oil made by refiner-sellers to each eligible refinery.

(e) *Refiner-sellers' monthly report.* Not later than the tenth (10th) day of each month, each refiner-seller shall file with the FEA a report containing the following information with respect to any crude oil delivered to a refiner-buyer under § 211.65 in the month prior to the filing of the report:

(i) The volume of crude oil delivered under § 211.65.

(ii) The name of the refiner-buyer for which and the refinery to which the crude oil was delivered.

(iii) The type of crude oil delivered by name, API gravity, and sulfur content.

(iv) The allocation period for which the crude oil was sold.

CONSUMER PRODUCT SAFETY COMMISSION

■

SELF-PRESSURIZED CONSUMER PRODUCTS CONTAINING CHLOROFLUOROCARBON PROPELLANTS

Labeling and Data Submission Requirements

V 42164 AUG 24 77 UM

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

PART 1401—SELF PRESSURIZED CONSUMER PRODUCTS CONTAINING CHLOROFLUOROCARBONS: REQUIREMENTS TO PROVIDE THE COMMISSION WITH PERFORMANCE AND TECHNICAL DATA; REQUIREMENTS TO NOTIFY CONSUMERS AT POINT OF PURCHASE OF PERFORMANCE AND TECHNICAL DATA

Self-Pressurized Consumer Products Containing Chlorofluorocarbon Propellants: Labeling and Data Submission Requirements

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule.

SUMMARY: This rule requires marketers and importers of self-pressurized consumer products that use a chlorofluorocarbon propellant to label such products with a warning that they contain chlorofluorocarbons that may harm the public health and environment by reducing ozone in the upper atmosphere. The Commission believes this labeling will help reduce unreasonable risks of injury associated with these propellants and assist consumers in evaluating the comparative safety of such products. The rule also requires manufacturers and importers to submit to the Commission certain information about aerosol products that contain chlorofluorocarbon propellants.

EFFECTIVE DATE: The requirements of this regulation become effective February 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles M. Jacobson, Division of Regulatory Management, Compliance and Enforcement Directorate, Consumer Product Safety Commission, Washington, D.C. 20207 (301–492–6400).

SUPPLEMENTARY INFORMATION:

Product Definition

The requirements set forth below in 16 CFR Part 1401 apply to self-pressurized products containing fully halogenated chlorofluoroalkane (chlorofluorocarbon propellants that are also consumer products as defined in section 3(a)(1) of the Consumer Product Safety Act (15 U.S.C. 2052(a)(1)). For the purposes of this regulation, "propellant" is defined as "a liquified or compressed gas in a container, where a purpose of the liquified or compressed gas is to expel material from the container. The material to be expelled may be the propellant itself and/or a material different from the propellant."

Background

Chlorofluorocarbons are used as propellants in self-pressurized (aerosol) containers of a variety of products subject to the Commission's jurisdiction. Scientific research in recent years has indicated that chlorofluorocarbons may pose a risk of depletion of the stratospheric ozone. The stratospheric ozone layer is of great importance in protecting life on earth from short wave ultraviolet rays of the sun. The consequences of ozone reduction include a possibility of a significant increase in human skin cancer and other effects of unknown magnitude on man, animals, and plants. Chlorofluorocarbon release may also cause climatic change, both by reducing stratospheric ozone and by increasing infrared absorption in the atmosphere.

A detailed history of the Commission's consideration of the problem of depletion of the earth's ozone layer from the release of chlorofluorocarbon propellants is set forth in the FEDERAL REGISTER notice which proposed this Part 1401 (42 FR 21807, April 29, 1977).

On November 22, 1976, the Commission granted a petition from the Natural Resources Defense Council (NRDC) to begin regulatory proceedings leading to a ban of certain fluorocarbons in aerosols. The Commission decided that, on the basis of the available information, certain aerosol consumer products with chlorofluorocarbon propellants may present an unreasonable risk of injury to consumers caused by destruction of the stratospheric ozone layer and that no feasible consumer product safety standard could adequately protect the public.

The Commission instructed its staff to prepare a notice proposing a ban of aerosol consumer products containing the compounds dichlorodifluoromethane, trichlorofluoromethane and other fluorocarbon compounds with similar physical and chemical properties as propellants.

In its decision, however, the Commission (CPSC) recognized that the Environmental Protection Agency (EPA), under the Toxic Substances Control Act (15 U.S.C. 2601–2629), planned regulatory action with respect to the non-essential uses of certain fluorocarbon propellants. Therefore, the Commission indicated that if EPA proposed a rule within a reasonable period of time and proceeded with regulatory action which would render Commission action in this area unnecessary, the Commission would consider terminating its proceeding.

The Commission's staff was instructed to cooperate closely with the EPA and the Food and Drug Administration (FDA), which had announced their intention to phase out the non-essential uses of fluorocarbons in products under their jurisdiction. Since that time, the staff has been working closely with the Interagency Chlorofluorocarbon Work Group (a committee including EPA, FDA, and CPSC representatives) to develop the proposed EPA prohibition on the manufacture, processing, and distribution of fully halogenated chlorofluoroalkanes for non-essential aerosol propellant uses.

EPA's proposed ban appeared in the FEDERAL REGISTER of May 13, 1977 (42 FR 24542), as did a complementary proposal by FDA to prohibit the use of certain fluorocarbons as propellants in self-pressurized containers of products subject to the Food, Drug, and Cosmetic Act (42 FR 24536). The ban proposed by EPA would ban chlorofluorocarbon propellants in non-essential consumer and other products where the purpose of the propellant is to expel from the container a liquid or solid material different from the propellant. EPA and FDA have indicated that they will also address in the future those products in which these propellants are used as the active ingredient or as both the active ingredient and the propellant. The Commission has reviewed EPA's proposed ban and has determined that banning action by the Commission is unnecessary at this time.

However, since the proposed EPA ban will not apply to every consumer product containing these propellants, and since the EPA proposal would not prohibit the sale of products subject to the ban that are sold and introduced into commerce by the processor by April 15, 1979, the Commission has decided to require that the aerosol consumer products within its jurisdiction that contain chlorofluorocarbon propellants shall bear a label stating that the product contains a chlorofluorocarbon and that such compounds may harm the public health and environment by reducing ozone in the upper atmosphere. In order to facilitate enforcement of the labeling rule, the Commission is also requiring manufacturers (including importers) to submit to the Commission information about aerosol products that contain chlorofluorocarbons, FDA, on April 29, 1977 (42 FR 22018), issued a final rule requiring that certain self-pressurized containers containing chlorofluorocarbon propellants bear the same label warning that is being required by the Commission. This FDA requirement applies to those finished products that are initially introduced into interstate commerce on or after October 31, 1977.

The CPSC Regulation

The final regulation which the Commission is issuing in this notice applies to self-pressurized consumer products which contain a chlorofluorocarbon propellant, regardless of whether any other material is expelled from the container. The regulation contains a requirement for submission of information concerning these products to the Commission and also contains a requirement that such products shall bear the following identification and warning statement:

WARNING—Contains a chlorofluorocarbon that may harm the public health and environment by reducing ozone in the upper atmosphere.

The warning may appear on a firmly affixed tag, tape, card, or sticker or similar overlabeling attached to the package. It must appear on the label with such prominence and conspicuousness as to render it likely to be read and understood by ordinary individuals under normal conditions of purchase. The warning shall appear on the immediate container of the consumer product and also on any outside container or wrapper

in which the product is normally offered for sale at retail.

The warning and identification statement is required to appear on the finished products that are imported or initially introduced into interstate commerce after February 20, 1978.

In addition, the manufacturers (including importers) of such products are required to submit to the Commission an identification of their specific self-pressurized products that are covered by this rule by type and brands, including identifying features such as package size, package or label design, and production codes. The initial report must be received by the Commission within 30 days after the effective date of Part 1401 (February 20, 1978), concerning all products imported or shipped on and after this date. Additional reports are required when any of the relevant information changes or when the manufacturer ceases distribution of the product in commerce.

As used in this regulation, the term "manufacturer" includes both a person who manufactures the product at the direction of another (such as a contract filler of aerosol products) and the person at whose direction the product is manufactured (such as the marketer of the brand).

For the purposes of Part 1401, the Commission defines the term "initially introduced into interstate commerce" to mean the first shipment of the product into interstate commerce by the firm marketing the product. There must be both physical movement in interstate commerce and passage of title to the product. Thus, mere shipment of a product across state lines from a contract filler to the marketer of the product would not constitute initial introduction into interstate commerce. All products initially introduced into interstate commerce before the effective date may continue to be distributed and sold even though they do not bear the warning statement. A finished product is a product which has been completely manufactured, packaged, and labeled.

The reporting requirement of § 1401.4 applies to "manufacturers," which, as explained above, includes both marketers and contract fillers. The Commission believes that enforcement of the regulation will be facilitated by the receipt of reports from both of these categories of manufacturers. The labeling requirement of § 1401.5, however, applies only to those manufacturers who import or "initially introduce" such products "into interstate commerce." Since, for the purposes of Part 1401, only the marketer can "initially introduce into interstate commerce," a contract filler is not responsible for seeing that labels bear the identification and warning statement.

As originally proposed, Part 1401 would have applied to products "first distributed in commerce" after the effective date. This terminology has been changed to "initially introduced into interstate commerce" in the final rule in order to establish the same criteria as the FDA regulation in this regard.

Reporting Requirement

The Commission is applying to the General Accounting Office (GAO) for clearance of the reporting requirement pursuant to 44 U.S.C. 3512 and 4 CFR Part 4 (Federal Reports Act and implementing regulations). The Commission will publish notice of the GAO's final action on the application.

Comments on the Proposal

The Commission received 15 written communications containing 21 comments on various aspects of the proposed regulation. The commentators included seven individuals, one retail and advertising firm, one refinery corporation, three manufacturers who make products that would be subject to this regulation, a major chemical company and manufacturer, the American Academy of Dermatology, the Chemical Specialties Manufacturers Association, Incorporated (CSMA), and the Natural Resources Defense Council, Inc. An explanation of the subject matter of the comments and the reasons why the Commision has accepted or rejected them is given below.

1. *In support of the regulation.* The largest group of comments that were received, six in all, supported the Commission's proposed regulation.

2. *In favor of a ban.* Four other comments, including two from persons who were also in favor of the Commission's proposed regulation, indicated that the Commission's action did not go far enough and that they wished to ban all products containing chlorofluorocarbon propellants.

The Commission agrees that a ban of non-essential consumer products containing chlorofluorocarbon propellants is desirable. As described above, the Commission has been working closely with the Interagency Chlorofluorocarbon Work Group to help develop a proposed EPA prohibition on the manufacture, processing, and distribution of fully halogenated chlorofluoroalkanes (chlorofluorocarbons) for non-essential aerosol propellant uses. The Commission has reviewed EPA's proposed ban and their statements of intention to regulate other products and has determined that further banning action by the Commission is unnecessary at this time because such would merely duplicate the proposed actions of EPA.

3. *Extend public comment.* One comment requested an extension of the public comment period in order to allow time for "organizing a people's lobby to gather 10 million signatures on a petition demanding an immediate and total ban of all fluorocarbon use."

As explained in paragraph 2 above, agencies of the federal government are already taking action to ban the non-essential uses of chlorofluorocarbon propellants. The Commission has decided that the proposed schedules for these bans are reasonable and that it would be an unnecessary duplication for the Commission to take any banning action at this time. Accordingly, any petition relating to the extent or phasing of these bans should perhaps also be directed to FDA and EPA. The Commission has decided not to extend the period for public comment since the labeling requirement need not be delayed while banning actions are being considered by EPA and FDA.

4. *Indicate if no fluorocarbon.* One comment requested that aerosol products that do not contain a chlorofluorocarbon propellant should be required to have a label stating that fact. The requirement suggested by this comment is much broader than the requirements that were proposed, and consideration of the issues raised by this broader requirement would required a substantial period of time. If it were eventually decided that such a requirement was desirable, the requirement would probably have to be separately proposed or the entire regulation would have to be delayed to allow for its reproposal. The length of time required for this process of considering the additional issues raised by this comment and for reproposing the requirement could easily delay the effective date of this part past the time when EPA's ban will begin to have an effect in the marketplace. Accordingly, the Commission believes that it is not in the public interest to delay the issuance of Part 1401 while the possible ramifications of this suggestion are explored, and the comment is therefore not adopted at this time. The Commission also believes that potential benefit of such a requirement will be considerably reduced when the "pipeline" of unlabeled products is exhausted and consumers may rely on the absence of a chlorofluorocarbon warning on an aerosol consumer product as a sure indication that there is none present as a propellant.

In the proposal, the Commission specifically requested comments on a possible future regulation requiring the identification of all propellants in aerosol consumer products. Although no comments were received in response to this request, the subject matter of the comment discussed in the preceding paragraph will be considered during the consideration of any possible regulation in this area.

5. *The warning would result in too much label information.* One comment stated that requiring a warning label for fluorocarbons in aerosols would create an additional risk "since the essential instructions and cautions for use of the product may be missed in the welter of non-essential information that is competing for the consumer's limited capacity for absorbing information." The comment suggests that the Commission consult some human factor psychologists and run some experiments to measure information loss when the fluorocarbon warning label is added.

The Commission believes that the consumer should be alerted to all the serious

hazards that may be posed by a product and that the warnings on self-pressurized containers are not so numerous that the additional warning would substantially dilute the effectiveness of other warnings that may be required on products to alert consumers to even greater hazards. In addition, the regulation gives the manufacturer a choice in the way (by hang tag or other means) that the chlorofluorocarbon warning is attached to the container (so long as the warning is sufficiently prominent and conspicuous.) Accordingly, the Commission concludes that further consultation or experiments are not necessary.

6. *Make the effective date sooner.* The Natural Resources Defense Council, Inc. (NRDC), commented that it is important that the labeling requirement take effect as soon as possible. They believe that the effective date should not be delayed longer than 90 days.

The effective date proposed for Part 1401 was 180 days after promulgation of the part, with an additional 30 day period for submitting the required data to the Commission. The labeling requirements apply only to those consumer products containing chlorofluorocarbon propellants that were "imported or initially introduced into interstate commerce" on or after the effective date. For the purposes of this regulation, the Commission has defined the phrase "initially introduced into interstate commerce" to mean the first shipment of the product into interstate commerce by the firm marketing the product. There must be both physical movement in interstate commerce and passage of title to the product. Thus, mere shipment of a product across state lines from a contract filler to the marketer of the product would not constitute initial introduction into interstate commerce. Under the Commission's interpretation of "initially introduced into interstate commerce," the delay in the effective date need not take into account time required to clear out the wholesale and retail pipeline, since the regulation applies only to those products "initially introduced into interstate commerce" after the effective date of the regulation. However, the information available to the Commission indicates that an effective date of less than 180 days from the date of this notice could cause a substantial adverse economic effect on marketers who maintain a large inventory compared to their rate of production. Although the Commission would like the regulation to become effective as soon as is reasonably possible, it does not believe that such an adverse effect on these manufacturers is warranted. The 180-day delay in the effective date will allow these manufacturers to reduce their inventory to a reasonable level so that the cost to sticker or relabel the inventory will not be excessive.

7. *Regulation should apply to date of manufacture of product rather than date of distribution.* Whirlpool Corporation, which sells an aerosol deodorizer using chlorofluorocarbon gases as the propellant to expel a deordorizer in connection with a trash compactor that they market, requests that the effective date be specified in relation to the date the product is manufactured, rather than the date of distribution in commerce. They argue that their wholesalers and independent retail outlets would not have time to dispose of their inventories of this aerosol product within 180 days. However, as explained above, the labeling portion of the regulation applies only to products initially introduced into interstate commerce after the effective date and not to products that are initially introduced into interstate commerce before the 180-day period and are subsequently sold by wholesalers and retailers. Accordingly, the change requested in this comment is unnecessary.

8. *Change the reporting requirements.* As proposed, Part 1401 required that data be submitted to the Commission identifying specific self-pressurized products by type and brand, including identifying features. These reports were required within 30 days after the effective date or within 30 days after a new product or new size is imported or first distributed in commerce. As proposed, reports would also have to be resubmitted within 30 days after each subsequent 6 month period. One comment suggests that instead of resubmitting reports every 6 month, resubmissions should be required only when any of the data in the first report changes or when a substitution for chlorofluorocarbon has been made in a product and the warning label is therefore being removed. The Commission agrees that the adoption of this suggestion would lighten the administrative burden on manufacturers, importers, and the Commission, while at the same time accomplishing the intended result. In addition, it would eliminate the necessity of comparing each 6-month report with the last one in order to determine which products have been withdrawn from the market (by inference from the failure to file a subsequent report). Accordingly, § 1401.3 (c) (formerly § 1401.3(b)) has been amended to require that subsequent reports be submitted when there is any change in the information that is required to be reported or if distribution of the product or size is stopped.

9. *Define "propellant."* Two comments (using identical wording) point out that the preamble of the proposed regulation used the terms "self-pressurized consumer products containing a fully halogenated chlorofluoroalkane (chlorofluorocarbon) as a propellant" and "self-pressurized consumer products containing chlorofluorocarbons" synonymously. The Commission agrees that this terminology is confusing, and the statement of the scope in § 1401.1 has been modified to specify that the consumer products referred to are only those in which the chlorofluorocarbon is used as a propellant.

These comments also request that the term "propellant" be defined and suggest adoption of the terminology used in the Food and Drug Administration's labeling regulations (42 FR 22018). The FDA regulations contain the following restriction: "The warning * * * is applicable only to self-pressurized containers that use a chlorofluorocarbon in whole or in part as a propellant to expel from the container liquid or solid material different from the propellant." These comments claimed that in addition to clarifying the Commission's intent, adoption of the FDA propellant definition would achieve uniform interagency regulation, since the definition of "propellant" in EPA's proposed ban contains the same limitation as the FDA definition.

The Commission agrees that the term "propellant" should be specifically defined in order to remove the ambiguities mentioned in these comments. The Commission does not, however, believe that the limitation on the term "propellant" that is contained in the FDA regulation and the EPA proposal should apply to Part 1401. As can be inferred from the use of the broad term "self-pressurized consumer products containing chlorofluorocarbons" in Part 1401 as proposed and from the lack of a discussion of any limitation in the preamble of the proposal, the Commission never intended to limit the applicability of Part 1401 to only those products whose chlorofluorocarbons serve to expel other liquid or solid materials. The Commission believes that even where the self-pressurized container contains only chlorofluorocarbons or where chlorofluorocarbons are the active ingredient, the consumer should be informed of the presence of these chlorofluorocarbons in the product so that he or she may consider this fact in making the purchasing decision.

10. *Exempt "Drain Power."* Glamorene Products Corporation, the makers of "Drain Power", have requested that this product be exempted from the Commission's labeling regulation. "Drain Power" is an aerosol drain opener which injects liquified chlorofluorocarbon 12 (F–12) into the drain pipe. The shock wave caused by the rapid expansion of the propellant travels through the hydrostatic head of water in the drain pipe to dislodge the clog. Glamorene states that the use of this product is safer than the use of the chemical drain openers that have been the major consumer remedy for clogged drains. They state that they have made exhaustive efforts to find an acceptable alternative to F–12 but that they have found nothing that would work without introducing other significantly safety hazards. They note that their product has been exempted from the proposed EPA ban.

The ban proposed by EPA as its initial step in regulating products containing chlorofluorocarbons does not apply to chlorofluorocarbons which are used in aerosols either as the active ingredient or as both the active ingredient and the propellant. This is so the public will not be denied the benefits of such products by means of an overall ban. However, it is conceivable that some such products will be banned by EPA at a later date.

The labeling requirement which is issued by the Commission, however, will not prevent any consumer from utilizing any of the affected products. It does, however, insure that the consumer has access to information that can enable the consumer to make an informed choice of whether to use the product or not. The Commission believes that this choice should be available to consumers, who can weigh the risks involved in a product containing chlorofluorocarbon propellants against the risks involved in the available alternatives. Accordingly, Glamorene's request for an exemption of "Drain Power" from the scope of Part 1401 is denied.

11. *Falcon Safety Products Inc. exemption.* Falcon Safety Products Inc. (Falcon) requested an exemption for the following products manufactured by it that contain fluorocarbons:

(a) A fire detector in which freon (a chlorofluorocarbon) from a pressurized container operates an acoustic device to warn occupants.

(b) A burglar alarm in which an acoustic device is operated by freon from a pressurized container.

(c) A freon-powered horn.

(d) A canister of freon which is directed through a nozzle for cleaning instruments such as cameras, enlargers, and microscopes.

Falcon stated that there is insufficient room on many of these containers for additional instructions. In addition, they said it would be a severe financial hardship to change the dozens of printing plates for their labels. They argue that any labeling requirement instituted before a determination is made by EPA that these products are not "essential" would be arbitrary and unnecessarily harsh.

For the reasons given above in paragraph 10, the Commission does not believe that an exemption for these products is warranted. Since the regulation allows the flexibility to use hang tags, etc., for the required label, the size of the container should not present any difficulties. For this reason, it would also not be necessary to replace the existing label printing plates.

It also does not follow that products that are determined by EPA to be "essential" should not be labeled. Even for those consumer products that are sufficiently "essential" to be exempted from being banned by EPA, the consumer is entitled to exercise his or her right to choose whether to use such a product in view of the risks involved. The Commission believes that a consumer should be able to rely on the absence of a warning label on a consumer product as a sure indication that the product does not contain a chlorofluorocarbon propellant.

12. *Delete warning.* The Chemical Specialities Manufacturers Association, Incorporated (CSMA), suggested that the label should identify the presence of a chlorofluorocarbon but should not warn that it may harm the public health and environment by reducing ozone in the upper atmosphere. They contend that the "hypothesis that certain chlorofluorocarbons may be a threat to the ozone layer has not been proved and many scientists have serious doubts about several aspects of the theory." Therefore, they argue, the benefits of the warning "must be considered wholly speculative." They further argue that even if the theory of ozone depletion is correct, the warning's benefits to public health are "clearly insignificant" because of the brief time the warnings will be available before the EPA ban and because of the "necessarily limited change in consumer purchasing habits it can realistically be expected to induce." They concluded that since the benefits of the warning are either speculative or insignificant, the requirement for warning labeling does not justify the "major unacceptable consequences." These consequences are said to include (1) creating consumer confusion concerning the nature of the risk, (2) promoting unwarranted discriminatory buying among products, and (3) fostering non-uniform state regulation.

In response to the implication that chlorofluorocarbons may not be a threat to the ozone layer, the Commission states that the great weight of current scientific opinion is that continued use of these compounds will result in a depletion of the ozone layer.[1]

Although there is some controversy as to the exact degree of ozone depletion, the Commission concludes that at any level within the range that is currently estimated by National Academy of Sciences' committees and other current researchers, the risk of harm is substantial.

The Commission also believes that providing the identification and warning statement on the containers of these products will substantially reduce the demand for them during the period that these products are available before the proposed EPA ban becomes effective. In addition, a number of products subject to Part 1401 are not affected by the initial phase of EPA regulation.

The Commission also does not agree with the allegation that Part 1401 will result in "major unacceptable consequences." The nature of the risk is stated in the warning statement and should not create consumer confusion. The warning will also enhance the consumer's ability to refrain from buying products containing chlorofluorocarbon propellants, and the Commission feels that the consumer is entirely warranted in making this choice. The Commission does not believe that Part 1401 will foster non-uniform state regulation, and, in fact, believes it will have precisely the opposite effect.

[1] See the following reports, which may be obtained from the National Academy of Sciences, Printing and Publication Office, 2101 Constitution Avenue NW., Washington, D.C. 20418:

(a) Report of the Committee on Impacts of Stratospheric change of the National Academy of Sciences, "Halocarbons: Environmental effects of Chlorofluoromethane Release." ($6.25, Order No. 2529)

(b) Report of the National Academy of Sciences Panel on Atmospheric Chemistry "Halocarbons: Effects on Stratospheric Ozones." ($10.25, Order No. 2532)

Conclusion

After considering the comments that have been received on the proposal and other available information, the Commission finds that the use of chlorofluorocarbons as propellants in self-pressurized consumer products presents an unreasonable risk of injury to the public, and that pursuant to section 27 (e) of the Consumer Product Safety Act, the provisions of proposed Part 1401, modified as discussed above, are necessary and required to carry out the purposes of the Act (1) to protect the public against unreasonable risks of injury associated with consumer products and (2) to assist consumers in evaluating the comparative safety of consumer products.

Therefore, under provisions of the Consumer Product Safety Act (sec. 27 (e), 86 Stat. 1228, 15 U.S.C. 2076(e)), the Commission amends Title 16, Chapter II, of the Code of Federal Regulations by adding to subchapter B a new Part 1401 reading as follows:

Sec.

1401.1 Scope.
1401.2 Purpose.
1401.3 Definitions.
1401.4 Submission of performance and technical data to the Commission.
1401.5 Providing performance and technical data to purchasers by labeling.
1401.6 Effective date.

Authority: Secs. 2(b), 27(e), Pub. L. 92-573, 86 Stat. 1208, 1228 (15 U.S.C. 2051(b), 2076(e)).

§ 1401.1 Scope.

This Part 1401 establishes requirements under section 27(e) of the Consumer Product Safety Act (15 U.S.C. 2076(e)) for marketers and importers of self-pressurized consumer products that contain chlorofluorocarbons as propellants to provide notification of certain performance and technical data to prospective purchasers of such products at the time of original purchase and to the first purchaser of such products for purposes other than resale. The notification shall consist of a label on the product stating that it contains a chlorofluorocarbon that may harm the public health and environment by reducing the ozone in the upper atmosphere. Also, manufacturers and importers must provide the Commission with reports identifying which of the self-pressurized consumer products sold by them contain chlorofluorocarbon propellants.

§ 1401.2 Purpose.

Chlorofluorocarbons are used as propellants in self-pressurized containers of a variety of products subject to the Commission's jurisdiction. Scientific research has indicated that chlorofluorocarbons may pose a risk of depletion of ozone in the stratosphere. The stratospheric ozone shield is of great importance in protecting life on earth from shortwave ultra-

V 42 164 AUG 24 77 UM

violet rays of the sun. Ozone depletion allows more of these rays to reach the earth, and the consequences include a possibility of a significant increase in human skin cancer and other effects of unknown magnitude on man, animals, and plants. Chlorofluorocarbon release may also cause climatic change, both by reducing stratospheric ozone and by increasing infrared absorption in the atmosphere. The Commission believes that the requirements of this Part 1401 will enable consumers to make a conscious choice of whether to use products that contain chlorofluorocarbon propellants. The Commission also believes that these requirements are necessary in order to carry out the purposes of the Consumer Product Safety Act of (a) helping to protect the public against unreasonable risks of injury associated with consumer products and (b) assisting consumers in evaluating the comparative safety of consumer products.

§ 1401.3 Definitions.

For the purposes of this Part 1401:

(a) "Chlorofluorocarbon" means any fully halogenated chlorofluoroalkane.

(b) "Finished product" means a product which has been completely manufactured, packaged, and labeled.

(c) "Initially introduced into interstate commerce" means the first shipment of the product into interstate commerce by the firm marketing the product. There must be both physical movement in interstate commerce and passage of title to the product. Thus, mere shipment of a product across state lines from a contract filler to the marketer of the product would not constitute initial introduction into interstate commerce. All products initially introduced into interstate commerce before the effective date may continue to be distributed and sold even though they do not bear the warning statement.

(d) "Manufacturer" means any person who manufactures or imports a consumer product. The term includes both a person who manufactures the product at the direction of another (such as a contract filler of aerosol products) and the person at whose direction the product is manufactured (such as the marketer of the brand).

(e) "Propellent" means a liquefied or compressed gas in a container, where a purpose of the liquefied or compressed gas is to expel material from the container. The material to be expelled may be the propellant itself and/or a material different from the propellent.

(f) The definitions given in section 3 of the Consumer Product Safety Act (15 U.S.C. 2052) shall, where applicable, apply to this Part 1401.

§ 1401.4 Submission of performance and technical data to the Commission.

(a) All manufacturers, as defined in § 1401.3(d), of self-pressurized consumer products that contain a chlorofluorocarbon as a propellant shall submit to the Commission performance and technical data concerning all such products that they import or ship after February 20, 1978. The data shall consist of an identification of such products by type, brand, and identifying features such as package size, package or label design, and production codes.

(b) If the manufacturer claims confidentiality for any of the information required to be submitted by paragraph (a) of this section, the portions of the material for which confidentiality is claimed must be identified as required by the Commission's regulations under the Freedom of Information Act (16 CFR 5 Part 1015, issued February 22, 1977, at 42 FR 10490).

(c) The data required by paragraphs (a) and (b) of this section shall be submitted in writing to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. The data shall be submitted so that it is received by the Commission by March 22, 1978, or, if a new product or new size is imported or shipped after February 20, 1978, by 30 days after such importation or shipment. The Commission shall also be notified (1) of any change in the information required to be submitted by paragraph (a) of this section or (2) if the manufacturer has stopped shipping the product or size. These reports shall be submitted so that they are received by the Commission within 30 days after the event that requires the report.

§ 1401.5 Providing performance and technical data to purchasers by labeling.

(a) Manufacturers of self-pressurized consumer products containing a chlorofluorocarbon propellant shall provide performance and technical data concerning such products that they import or initially introduce into interstate commerce after February 20, 1978, to prospective purchasers at the time of original purchase and to the first purchaser for purposes other than resale. The data shall consist of the following identification and warning statement: "WARNING—Contains a chlorofluorocarbon that may harm the public health and environment by reducing ozone in the upper atmosphere."

(b) The identification and warning statement required by paragraph (a) of this section shall be in addition to any other required labeling and shall be sufficiently prominent and conspicuous as to be likely to be read and understood by ordinary individuals under normal conditions of purchase. This identification and warning statement shall appear on the immediate container of the product and also on any outside container or wrapper in which the product is normally offered for sale at retail. The identification and warning statement may appear on a firmly affixed tag, tape, card, or sticker or similar overlabeling attached to the package.

§ 1401.6 Effective date.

This part becomes effective February 20, 1978.

Dated: August 19, 1977.

RICHARD E. RAPPS,
Secretary, Consumer Product Safety Commission.

WEDNESDAY, AUGUST 24, 1977

PART VII

FEDERAL ENERGY ADMINISTRATION

DOMESTIC CRUDE OIL ALLOCATION PROGRAM

Entitlement Notice for June 1977

V42164 AUG 24 77 7 UM

FEDERAL ENERGY ADMINISTRATION

DOMESTIC CRUDE OIL ALLOCATION

Entitlement for June 1977

In accordance with the provisions of 10 CFR § 211.67 relating to FEA's domestic crude oil allocation program the monthly notice specified in § 211.67(i) is hereby published.

Based on reports for June 1977 submitted to FEA by refiners and other firms as to crude oil receipts, crude oil runs to stills, eligible product imports and imported naphtha utilized as a petrochemical feedstock in Puerto Rico; application of the entitlement adjustment for residual fuel oil production for sale in the East Coast market provided in § 211.67(d)(4); July 1977 deliveries of crude oil for storage in the Strategic Petroleum Reserve; and application of the entitlement adjustment for small refiners provided in § 211.67(e), the national domestic crude oil supply ratio for June 1977 is calculated to be .272894.

In accordance with § 211.67(b)(2), to calculate the number of barrels of deemed old oil included in a refiner's adjusted crude oil receipts for the month of June 1977, each barrel of old oil is equal to one barrel of deemed old oil and each barrel of upper tier crude oil is equal to .324493 of a barrel of deemed old oil.

The issuance of entitlements for the month June 1977 to refiners and other firms is set forth in the Appendix to this notice. The Appendix lists the name of each refiner or other firm to which entitlements have been issued, the number of barrels of deemed old oil included in each such refiner's adjusted crude oil receipts, the number of entitlements issued to each such refiner or other firm, and the number of entitlements required to be purchased or sold by each such refiner or other firm.

Pursuant to 10 CFR § 211.67(i)(4), FEA hereby fixes the price at which entitlements shall be sold and purchased for the month of June 1977 at $8.65, which is the exact differential as reported for the month of June between the weighted average per barrel costs to refiners of old oil and of imported and exempt domestic crude oil, less the sum of 21 cents.

In accordance with 10 CFR § 211.67 (b), each refiner that has been issued fewer entitlements for the month of June 1977 than the number of barrels of deemed old oil included in its adjusted crude oil receipts is required to purchase a number of entitlements for the month of June 1977 equal to the difference between the number of barrels of deemed old oil included in those receipts and the number of entitlements issued to and retained by that refiner. Refiners which have been issued a number of entitlements for the month of June 1977 in excess of the number of barrels of deemed old oil included in their adjusted crude oil receipts for that month and other firms issued entitlements shall sell such entitlements to refiners required to purchase entitlements. In addition, certain refiners are required to purchase or sell entitlements to effect corrections for reporting errors for the months September 1975 through May 1977 pursuant to 10 CFR § 211.67(j)(1).

The listing of refiners' old oil receipts contained in the Appendix reflects any adjustments made by FEA pursuant to § 211.67(h).

The listing contained in the Appendix identifies in a separate column additional entitlements issued to refiners pursuant to relief granted by FEA's Office of Exceptions and Appeals. Also set forth in this column are the adjustments for relief granted by the Office of Exceptions and Appeals for 1975, which adjustments are being reflected in monthly installments commencing with the September 1976 entitlement notice. The number of installments is dependent on the magnitude of the adjustment to be made. For a full discussion of the issues involved, see Beacon Oil Company, et al, 4 FEA par. 87,024 (November 5, 1976).

For purposes of the adjustments to refiners' crude run volumes under § 211.67 (d)(4), total production of residual fuel oil for sale in the East Coast market (in excess of the first 5,000 barrels per day thereof for each refiner reporting such production) was 9,853,650 barrels for June 1977. For that month, import of residual fuel oil eligible for entitlement issuances totaled 30,285,107 barrels.

The total number of entitlements required to be purchased and sold under this notice is 23,031,329.

Payment for entitlements required to be purchased under 10 CFR §211.67(b) for June 1977 must be made by August 31, 1977.

On or prior to September 10, 1977, each firm which is required to purchase or sell entitlements for the month of June 1977 shall file with FEA the monthly transaction report specified in 10 CFR § 211.66(i) certifying its purchases and sales of entitlements for the month of June. FEA has mailed the monthly transaction report forms for the month of June to reporting firms. FEA requests that firms which have been unable to locate other firms for required entitlement transactions by August 31, 1977 contact FEA at 202-254-6296 to expedite consummation of these transactions. For firms that have failed to consummate required entitlement transactions on or prior to August 31, 1977, FEA may direct sales and purchases of entitlements pursuant to the provisions of 10 CFR § 211.67(k).

This notice is issued pursuant to Subpart G of FEA's regulations governing its administrative procedures and sanctions, 10 CFR Part 205. Any person aggrieved hereby may file an appeal with FEA's Office of Exceptions and Appeals in accordance with Subpart H of 10 CFR Part 205. Any such appeal shall be filed on or before September 23, 1977.

Issued in Washington, D.C. on August 18, 1977.

ERIC J. FYGI,
Acting General Counsel.

* Includes entitlements issued for 330,770 barrels of imported crude oil purchased by the United States Government for storage in the Strategic Petroleum Reserve.

** Reflects adjustments for 1975 exceptions relief as provisionally modified by FEA pending agency review consistent with court order. For discussion, see December entitlement notice, 42 FR 12133 (March 2, 1977).

*** This does not include the purchase obligation stayed by court order in Texas Asphalt & Refinery Co. v. FEA Civ. Action No. 4-75-268 (N.D. Tex., filed October 31, 1975).

PART VIII

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Insurance Administration

NATIONAL FLOOD INSURANCE PROGRAM

List of Communities With Special Hazard Areas

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-3212]

PART 1915—IDENTIFICATION AND MAPPING OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

AGENCY: Federal Insurance Administration.

ACTION: Final rule.

SUMMARY: The purpose of this rule is the identification of communities with areas of special flood or mudslide or erosion hazards as authorized by the National Flood Insurance program. The identification of such areas is to provide guidance so that communities may mitigate hazards and reduce property losses by adopting appropriate flood plain management or other measures to minimize damage caused by floods or other hazards. It will enable communities to guide future construction, where practicable, away from locations which are threatened by flood or other hazards.

DATES: The effective date of identification is the date listed in the eighth column of the table or September 23, 1977, whichever is later.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or Toll Free Line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified plain area having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by Federally regulated, insured, supervised, or approved lending institutions (1) to finance the acquisition of a residential dwelling occupied as a residence prior to March 1, 1976, or one year following identification of the area within which such dwelling is located as an area containing special flood hazards, whichever is later, or made to extend, renew, or increase the financing or refinancing in connection with such a dwelling, (2) to finance the acquisition of a building or structure completed and occupied by a small business concern, as defined by the Secretary, prior to January 1, 1976, (3) any loan or loans, which in the aggregate do not exceed $5,000, to finance improvements to or rehabilitation of a building or structure occupied as a residence prior to January 1, 1976, or (4) any loan or loans, which in the aggregate do not exceed an amount prescribed by the Secretary, to finance nonresidential additions or improvements to be used solely for agricultural purposes on a farm.

This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin 30 days after the date of publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under Section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin 30 days after publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later.

This identification is made in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001-4128).

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas (FHBMs in effect).

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

INFORMATION AND ASSISTANCE

Special Projects	523–5240

HIGHLIGHTS—Continued

HIGHWAY REHABILITATION
DOT/FHWA solicits comments on establishing geometric design standards; comments by 10–25–77 42876

LAND RECLAMATION
Interior/Reclamation proposes regulations concerning acreage limitations and other provisions; comments by 11–23–77 (Part IV of this issue) 43043

TRAFFIC SAFETY
DOT/FHWA proposes to require states to assure safety of motorists, construction workers and pedestrians in construction zones on Federal-aid Highway projects; comments by 10–25–77 42877

EXCISE TAX
Treasury/IRS publishes final regulations pertaining to certain highway motor vehicles 42856

LOW-CARBON FERROCHROMIUM
Commerce/EDA publishes results of investigation 42891

RAILROAD MERGER AND CONSOLIDATION PROCEDURES
DOT/FRA revises rules concerning filing of proposed transactions; effective 8–25–77 (Part II of this issue) 43029

PRIVACY ACT
Interior/Secy amends system of records; comments by 9–25–77 42929

MEETINGS—
DOD/AF: Scientific Advisory Board, 9–12 thru 9–14–77 42893
DOT/CG: Ship Structure Subcommittee, 9–29–77 42937
FAA: Radio Technical Commission for Aeronautics, Special Committee 127—Emergency Locator Transmitters, 9–20 thru 9–22–77 42937
EPA: National Air Pollution Control Techniques Advisory Committee, 9–27 and 9–28–77 42894
State–Federal Water Programs Advisory Committee, 9–13–77 42893
FEA: Gasoline Marketing Advisory Committee, Subcommittee, 9–9–77 42895
HEW/OE: Extension and Continuing Education, National Advisory Council, 9–14 thru 9–16–77 42910
Secy: Postsecondary Education Improvement Fund, Board of Advisors, 9–25 and 9–26–77 42910
Interior/BLM: California Desert Conservation Area Advisory Committee, Public Participation Subcommittee, 9–20–77 42911
GS: Domestic Names Committee, 10–25 and 11–10–77 42928
NPS: Western Regional Advisory Committee, 9–17–77 42928
NASA: Research and Technology Advisory Council, Panel on Aviation Safety and Operating Systems, Ad Hoc Panel on Terminal Configured Vehicles, 9–14 thru 9–16–77 42930
Space Science Steering Committee, Space Telescope Ad Hoc Advisory Subcommittee, 9–19 thru 9–21–77 42930
NFAH/NEA: Theater Research Project, 9–9–77 42932
NSF: Science for Citizens Advisory Committee, 9–15 and 9–16–77 42932
Task Group No. 3, 9–9–77 42932
Science and Technology Policy Office: Working Group on Basic Research in the Defense Department, 9–22 and 9–23–77 42936
State: Shipping Coordinating Committee, Subcommittee on Safety of Life at Sea (2 documents), 9–15 and 9–29–77 42937
Telecommunications Policy Office: Interagency Committee on Rural Telecommunications, 8–25–77 42936
USDA/FS: National Forest Management Committee of Scientists, 9–21 thru 9–23–77 42884

HEARINGS—
ITC: Certain Railway Track Maintenance Equipment from Austria, 10–6–77 42930

Meat import limitation:
Foreign-trade zones, meat processed in ---------- 42841

AIR FORCE DEPARTMENT

Notices

Meetings:
Scientific Advisory Board ---------- 42893

ARTS AND HUMANITIES, NATIONAL FOUNDATION

Notices

Meetings:
Theatre research project consultants ---------- 42932

CIVIL AERONAUTICS BOARD

Notices

Mail rates, domestic service priority and nonpriority ---------- 42886
Hearings, etc.:
Alaska service investigation ---------- 42884
Atlanta-Charleston competitive nonstop investigation ---------- 42884
California - Toronto/Montreal route proceeding et al ---------- 42889
Florida-Atlanta competitive nonstop service case ---------- 42884
Iowa/Illinois-Atlanta route proceeding ---------- 42884
Laker Airways Limited-Skytrain service et al ---------- 42887

COAST GUARD

Notices

Meetings:
Ship Structure Committee et al ---------- 42937

COMMERCE DEPARTMENT

See also Domestic and International Business Administration; Economic Development Administration; Maritime Administration; National Oceanic and Atmospheric Administration.

Notices

Committees; establishment, renewals, etc.:
Coastal Zone Management Advisory Committee ---------- 42892

COMMODITY FUTURES TRADING COMMISSION

Rules

Sunshine Act; implementation; correction ---------- 42851

CUSTOMS SERVICE

Rules

Carnets, E.C.S. (Echantillons Commerciaux—Commercial Samples); nonacceptance for duty-free entry ---------- 42851

DEFENSE DEPARTMENT

See also Air Force Department.

Rules

Nondiscrimination; equal opportunity program; correction ---------- 42857

DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION

Proposed Rules

Energy supplies, domestic, materials and equipment allocation and priority performance under contracts or orders ---------- 43037

ECONOMIC DEVELOPMENT ADMINISTRATION

Notices

Adjustment assistance eligibility, industry producing firm studies:
Low-carbon ferrochromium ---------- 42891

EDUCATION OFFICE

Notices

Applications and proposals, closing dates:
Follow Through program; correction ---------- 42910
Meetings:
Extension and Continuing Education National Advisory Council ---------- 42910

ENVIRONMENTAL PROTECTION AGENCY

Proposed Rules

Air quality implementation plans:
Vapor recovery; gasoline stations, stage II; test methods for mass emission rates ---------- 42879
Toxic substances:
Chlorofluorocarbons used in aerosol propellants; manufacturing, processing, distribution, reporting, etc.; extension of time ---------- 42882
Water pollution control; National discharge elimination system and State program elements:
Operations and procedures improvements; inquiry ---------- 42882

Notices

Air pollution control, new motor vehicles and engines:
Light duty vehicles and trucks; sulfuric acid emissions; measurement procedures, availability ---------- 42893
Meetings:
Air Pollution Control Techniques National Advisory Committee ---------- 42894
State-Federal Water Programs Advisory Committee ---------- 42893

FARMERS HOME ADMINISTRATION

Rules

Drought stricken areas, special assistance; termination provisions ---------- 42843
Title clearance and loan closing:
Profit, limited profit, and nonprofit organizations; use of own attorney ---------- 42843

FEDERAL AVIATION ADMINISTRATION

Rules

Airport aid program:
Advisory circulars ---------- 42849
Airworthiness directives:

Seattle, Port of, et al ---------- 42898

FEDERAL POWER COMMISSION

Notices

Hearings, etc.:
Carnegie Natural Gas Co. (3 documents ---------- 42898, 42899
Carolina Power & Light Co ---------- 42899
Columbia Gas Transmission Corp ---------- 42900
Delmarva Power & Light Co ---------- 42900
El Paso Natural Gas Co ---------- 42900
Energy Reserves Group, Inc ---------- 42901
High Island Offshore System ---------- 42901
Holyoke Water Power Co. et al ---------- 42902
Inexco Oil Co ---------- 42906
Northern States Power Co.; extension of time ---------- 42902
Pacific Power & Light Co ---------- 42902
Phillips Petroleum Co. et al ---------- 42902
Southern California Edison Co. (2 documents) ---------- 42904
Tampa Electric Co. (2 documents) ---------- 42904
Tenneco Atlantic Pipeline Co. et al ---------- 42905
Tenneco InterAmerica Inc. et al ---------- 42905
Texas Oil & Gas Corp. et al ---------- 42906
U-T Offshore System; extension of time ---------- 42906

FEDERAL RAILROAD ADMINISTRATION

Rules

Merger and consolidation procedures ---------- 43029

FEDERAL RESERVE SYSTEM

Rules

Truth-in-lending:
Credit card plans, transaction-by-transaction billing with no finance charge; interpretation ---------- 42843
Official staff interpretations; correction ---------- 42845

Notices

Board actions; applications and reports ---------- 42907
Applications, etc.:
White Cloud Bancshares ---------- 42909

FEDERAL TRADE COMMISSION

Rules

Prohibited trade practices:
CBS, Inc ---------- 42850

Proposed Rules

Textile products and leather wearing apparel; care labeling; report availability ---------- 42875

FISH AND WILDLIFE SERVICE

Rules

Hunting:
Bear River Migratory Bird Refuge, Utah ---------- 42867
Blackbeard Island National Wildlife Refuge, Ga ---------- 42870
Cape Romain National Wildlife Refuge, S.C ---------- 42872
Carolina Sandhills National Wildlife Refuge, S.C ---------- 42871
Chautauqua National Wildlife Refuge, Ill ---------- 42867
Crab Orchard National Wildlife Refuge, Ill ---------- 42868
Hatchie National Wildlife Refuge, Tenn ---------- 42869
Holla Bend National Wildlife Refuge, Ark ---------- 42873
Merritt Island National Wildlife Refuge, Fla ---------- 42872
Ravalli National Wildlife Refuge, Mont ---------- 42867
Santee National Wildlife Refuge, S.C ---------- 42868
Savannah National Wildlife Refuge, Ga ---------- 42871
Seney National Wildlife Refuge, Mich ---------- 42866
Tennessee National Wildlife Refuge, Tenn ---------- 42869
Wassaw National Wildlife Refuge, Ga ---------- 42870

Proposed Rules

Public access, entry, use, and recreation:
Ruby Lake National Wildlife Refuge, Oreg ---------- 42883

FOREST SERVICE

Notices

Meetings:
Scientists Committee, National Forest Management Act ---------- 42884

GEOLOGICAL SURVEY

Notices

Meetings:
Geographic Names Board and Domestic Names Committee ---------- 42928
Outer Continental Shelf; oil and gas lease operations, National orders:
Wells, platforms, structures, and subsea objects, etc ---------- 42912

Title 3—The President

Executive Order 12007 • **August 22, 1977**

Termination of Certain Presidential Advisory Committees

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, and as President of the United States of America, in order to terminate certain advisory committees in accordance with the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), it is hereby ordered as follows:

SECTION 1. (a) The Citizens' Advisory Council on the Status of Women is terminated.

(b) Executive Order No. 11126 of November 1, 1963, as amended by Executive Order No. 11221 of May 6, 1965, is further amended as follows:

(1) Subsection (5) of Section 102 is revoked.

(2) Section 103, in order to delete a reference to the Council, is amended to read as follows:

"Annually the Committee shall transmit a report to the President concerning the status of women."

(3) Part II is revoked.

(4) The second sentence of Section 301, in order to delete references to the Council, is amended to read as follows:

"To the extent practical and to the extent permitted by law (1) all Executive agencies shall cooperate with the Committee and furnish it such information and assistance as may be necessary for the performance of its functions, and (2) the Secretary of Labor shall furnish staff, office space, office facilities and supplies, and other necessary assistance, facilities, and services for the Committee."

SEC. 2. (a) The Citizens' Advisory Committee on Environmental Quality is terminated.

(b) Part II of Executive Order No. 11472 of May 29, 1969, as amended by paragraphs (7) and (8) of Section 4 of Executive Order No. 11514 of March 5, 1970, is revoked.

V 42 N 165 AUG 25 77 UM

SEC. 3. (a) The Advisory Council for Minority Enterprise is terminated.

(b) Section 2 of Executive Order No. 11625 of October 13, 1971, is revoked.

SEC. 4. (a) The Consumer Advisory Council is terminated.

(b) Executive Order No. 11583 of February 24, 1971, is amended as follows:

(1) The second sentence of subsection (b)(1) of Section 2 is amended by deleting "(including the Consumer Advisory Council established in section 5 of this order)".

(2) Section 5 is revoked.

SEC. 5. (a) The President's Advisory Board on International Investment is terminated.

(b) Executive Order No. 11962 of January 19, 1977, is revoked.

SEC. 6. Subsections (a), (g), (i), and (j) of Section 1 of Executive Order No. 11948 of December 20, 1976, which extended the above advisory committees until December 31, 1978, is superseded.

Jimmy Carter

THE WHITE HOUSE,
August 22, 1977.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

SUBTITLE A—OFFICE OF SECRETARY OF AGRICULTURE

PART 16—LIMITATION ON IMPORTS OF MEAT

Section 204 Import Regulations; Regulations Governing Entry of Certain Meat

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Final rule.

SUMMARY: The regulations set forth in this part are revised to delete those regulations no longer in effect. In addition (1) the definition of meat is expanded to include meats processed in Foreign-Trade Zones, territories or possessions of the United States as provided for in the 1977 voluntary restraint agreements, (2) documentation requirements are made applicable to all meat subject to the restrictions in Subpart A and (3) 1977 imports from Costa Rica are limited to no more than 55.6 million pounds of meat.

EFFECTIVE DATE: August 25, 1977. See supplementary information.

FOR FURTHER INFORMATION CONTACT:

John E. Riesz (FAS), 202-447-7198, Dairy, Livestock & Poultry Division, FAS, USDA, Room 6621 South Building, Washington, D.C. 20250.

SUPPLEMENTARY INFORMATION: The regulations set forth in this subpart are to assist in carrying out bilateral agreements with governments of foreign countries pursuant to Section 204 of the Agricultural Act of 1956, as amended limiting the export from the respective countries and the importation into the United States of certain meat.

The meat is that covered by items 106.10 (relating to fresh, chilled, or frozen cattle meat) and 106.20 (relating to fresh, chilled, or frozen meat of goats and sheep (except lambs)) of the Tariff Schedules of the United States and meats which but for processing in Foreign-Trade Zones, territories or possessions of the United States prior to entry, or withdrawal from warehouse for consumption into the United States Customs Territory, would fall within the above descriptions (and items of the Tariff Schedules of the United States) upon such entry or withdrawal from warehouse for consumption.

By E.O. 11539, dated June 30, 1970, the Secretary of Agriculture was authorized with the concurrence of the Secretary of State and the Special Representative for Trade Negotiations, to issue regulations governing the entry or withdrawal from warehouse for consumption in the United States of meat to carry out such bilateral agreements and to request the Commissioner of Customs to implement such action.

The action taken herewith has been determined to involve foreign affairs functions of the United States. Therefore, these regulations fall within the foreign affairs exception to the notice and effective date provisions of 5 U.S.C. 553.

EFFECTIVE DATE

Meat released under the provisions of Section 448(b) of the Tariff Act of 1930 (19 U.S.C. 1448(b) (immediate delivery)) prior to August 25, 1977 shall not be denied entry although the quota for Costa Rica established herein has been filled.

Part 16—Subtitle A of Title 7 of the Code of Federal Regulations, "Limitations on Imports of Meat" is revised to read as follows:

Subpart A—Section 204 Import Regulations

Sec.
16.1 General.
16.2 Definitions.
16.3 Import documentation.
16.4 Transshipment restrictions.
16.5 Quantitative restrictions.

Subpart B—Meat Import Law Regulations [Reserved]

AUTHORITY: Sec. 204, Pub. L. 540, 84th Cong., 70 Stat. 200, as amended, (7 U.S.C. 1854) and Executive Order 11539 (35 FR 10733).

Subpart A—Section 204 Import Regulations

§ 16.1 General.

The regulations set forth in this subpart are issued by the Secretary of Agriculture, with the concurrence of the Secretary of State and Special Representative for Trade Negotiations. The Commissioner of Customs has been requested to take such action as is necessary to implement these regulations.

§ 16.2 Definitions.

The following terms shall have the meaning set forth in this section:

(a) "Meat" means fresh, chilled, or frozen cattle meat (Item 106.10 of the Tariff Schedules of the United States (TSUS)), fresh, chilled, or frozen meat of goats and sheep, except lambs (TSUS 106.20), and meats which but for processing in Foreign-Trade Zones, territories or possessions of the United States prior to entry, or withdrawal from warehouse for consumption into the United States Customs Territory, would fall within the above descriptions (and TSUS items) upon such entry, or withdrawal from warehouse for consumption.

(b) "United States" means the 50 States of the United States, District of Columbia, and Puerto Rico.

§ 16.3 Import documentation.

Meat subject to the restrictions in §§ 16.4 and 16.5 may not be entered into the customs territory of the United States unless there is presented at time of entry documentation establishing (a) that there has been compliance with the applicable conditions of Subpart A and (b) the country from which the meat was exported in the form in which it would fall within the definition of meat in TSUS items 106.10 and 106.20.

§ 16.4 Transhipment restrictions.

During calendar year 1977:

(a) No meat of Australian or New Zealand origin may be entered or withdrawn from warehouse for consumption in the United States unless (1) it is exported into the customs territory of the United States as direct shipments or on a through bill of lading from the country of origin or (2) if processed in Foreign-Trade Zones, territories or possessions of the United States it is exported into the customs territory of the United States as direct shipments or on a through bill of lading from the Foreign-Trade Zone, territory or possession of the United States in which it was processed.

§ 16.5 Quantitative restrictions.

(a) Imports from Costa Rica. During calendar year 1977, no more than 55.6 million pounds of meat, exported from Costa Rica in the form in which it would fall within the definition of meat in TSUS items 106.10 and 106.20, may be entered or withdrawn from warehouse for consumption in the United States, whether such meat was shipped directly or indirectly from Costa Rica to the United States.

(b) [Reserved]

Subpart B—Meat Import Law Regulations [Reserved]

Issued at Washington, D.C. this 22d day of August 1977.

DALE E. HATHAWAY,
Assistant Secretary of Agriculture.

[FR Doc.77-24578 Filed 8-24-77;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 570]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

V 42 165 AUG 25 77 UM

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period Aug. 26–Sept. 1, 1977. This regulation is needed to provide for orderly marketing of fresh Valencia oranges for the regulation period because of the production and marketing situation confronting the orange industry.

EFFECTIVE DATE: August 26, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202–447–3545.

SUPPLEMENTARY INFORMATION: *Findings.* (1) pursuant to the amended marketing agreement and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the amended marketing agreement and order, and upon other available information, it is found that the limitation of handling of Valencia organges, as provided in this regulation will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantities of Valencia oranges that may be marketed from District 1, District 2, or District 3 during the specified week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation for the quantities of Valencia oranges that should be marketed during the specified week. The recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors covered in the order. The committee further reports the fresh market demand for Valencia oranges continues easy.

Average f.o.b. price was $4.59 per carton on 613 cars for the week ended August 18, as compared with $4.51 per carton on 642 cars the previous week.

Track and rolling supplies at 304 cars were down 49 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantities of Valencia oranges which may be handled should be established as provided in this regulation.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because the time intervening between the date when information became available upon which this regulation is based and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient. A reasonable time is permitted for preparation for such effective time; and good cause exists for making the regulation effective as specified. The committee held an open meeting during the current week, after giving due notice, to consider supply and market conditions for Valencia oranges and the need for regulation. Interested persons were afforded an opportunity to submit information and views at this meeting. The recommendation and supporting information for regulation during the period specified were promptly submitted to the Secretary after the meeting was held, and information concerning such provisions and effective time has been provided to handlers of Valencia oranges. It is necessary, to effectuate the declared policy of the act, to make this regulation effective during the period specified. The committee meeting was held on August 23, 1977.

§ 908.870 Valencia Orange Regulation 570.

(a) Order. (1) The quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 26, 1977, through September 1, 1977, are hereby fixed as follows:

(i) District 1: 234,000 cartons;

(ii) District 2: 366,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in the amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: August 24, 1977.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.77-24945 Filed 8-24-77;11:41 am]

PART 909—GRAPEFRUIT GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Expenses, Rate of Assessment, and Carryover of Unexpended Funds

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation authorizes expenses of $129,000 and a rate of assessment of $0.03 per carton of grapefruit handled for the functioning of the Administrative Committee for the 1976–77 fiscal period. The committee is established under a Federal marketing order program regulating the handling of grapefruit grown in Arizona and designated part of California. The regulation approves the collection of assessments by the committee and the use of resulting funds for its expenses.

DATES: Effective for the period September 1, 1976, through August 31, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, telephone 202–447–3545.

SUPPLEMENTARY INFORMATION: On November 16, 1976, notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 50452) regarding proposed expenses, the proposed rate of assessment, and the proposed carryover of unexpended assessment funds under the amended marketing agreement and Order No. 909, as amended (7 CFR Part 909), regulating the handling of grapefruit grown in Arizona and designated part of California. This notice allowed an appropriate time for the submission of written comments pertaining to these proposals. None were submitted. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

After consideration of all relevant matters presented, including the proposals set forth in the notice, which were submitted by the Administrative Committee (established pursuant to the marketing agreement and order), it is hereby found and determined that:

§ 909.215 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Administrative Committee during the period September 1, 1976, through August 31, 1977, will amount to $129,000.

(b) *Rate of assessment.* The rate of assessment for such period, payable by each handler in accordance with § 909.41, is hereby fixed at three cents ($0.03) per carton, or equivalent quantity of grapefruit.

(c) *Operating reserve.* Unexpended assessment funds of approximately $38,969, in excess of expenses incurred during the 1975–76 fiscal period, shall be carried over as a reserve in accordance with the applicable provisions of § 909.42.

It is hereby further found that good cause exists for not postponing the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) provisions of the marketing agreement and this part require that the rate of assessment shall apply to all assessable grapefruit handled during the fiscal period, and (2) the year began on September 1, 1976, and the rate of assessment will automatically apply to all such grapefruit handled during the year.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 19, 1977.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.77-24565 Filed 8-24-77;8:45 am]

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—GENERAL REGULATIONS

[FmHA Instruction 427.1]

PART 1807—TITLE CLEARANCE AND LOAN CLOSING

Methods; Revision

AGENCY: Farmers Home Administration, USDA.

ACTION: Final Rule.

SUMMARY: The Farmers Home Administration (FmHA) revises its regulation to allow profit, limited profit, and nonprofit organization applicants to use their own attorney for title clearance, and loan or transfer closing under certain conditions. The intended effect of this action is to correct an inconsistency within FmHA regulations.

EFFECTIVE DATE: August 25, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Paul R. Conn, Director, Multiple Family Housing Loan Division; Donald Colburn, Multiple Housing Loan Officer, 202–447–7207.

SUPPLEMENTARY INFORMATION: Paragraph (d) of § 1807.1, Part 1807 of Title 7, Code of Federal Regulations (31 FR 14123) is revised to make it consistent with other FmHA regulations, and to reflect an editorial change in the heading of this paragraph (d). It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This amendment, however, is not published for proposed rulemaking since the purpose of the change is to correct an inconsistency within FmHA regulations, therefore, public procedure thereon is unnecessary.

As revised, § 1807.1(d) reads as follows:

§ 1807.1 General.

* * * * *

(d) *Methods of title clearance and closing of transactions.* Title clearance and loan or transfer closing will be handled by title insurance companies approved by the State Director and/or attorneys designated by the State Director with the exception of Rural Rental Housing (RRH) loans to profit, limited profit, and nonprofit organizations who may use their own attorney in accordance with the requirements of § 1822.95(a) of this chapter. When private attorneys are to be used in connection with obtaining title insurance, the State Director may, by a State Supplement, require such services to be performed by designated attorneys if that is acceptable to the title insurance company(s). When the services are available from more than one source, the borrower or seller, or both; or the transferor or transferee, or both; will choose the source to be used.

(1) The services of the Office of the General Counsel (OGC) will be used (i) in any county or area where the State Director is unable to obtain the services of a designated attorney or a title insurance company, or a combination of both; (ii) any exceptional or complex case or situation in which the State Director determines, with the advice of OGC that it would be more reasonable or practical to use OGC's services; (iii) in any case involving a mortgage on a leasehold; and (iv) in all credit sales with or without a subsequent loan or transfer.

(i) When OGC services are to be used on a county or area basis, the State Director, with the advice of OGC, will determine whether the title clearance and closing of the transaction will be accomplished with the assistance of a local attorney, a title insurance company representative or combination thereof, or other method. After such a determination has been made, the State Supplement will specify the county or area involved and the method to be used.

(ii) When OGC services are to be used in an exceptional or complex case or situation, title clearance will be handled in the manner in which OGC determines most appropriate.

* * * * *

(7 U.S.C. 1989; 4 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; Sec. 10 Pub. L. 93–357, 88 Stat. 392; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir., OEO 29 FR 14764, 33 FR 9850.)

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A–107.

Dated: August 3, 1977.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

SUBCHAPTER G—MISCELLANEOUS REGULATIONS

[FmHA Instruction 440.3]

PART 1888—SPECIAL ASSISTANCE TO DROUGHT STRICKEN AREAS

Termination Provisions

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration amends its regulations to limit the requirements that loan and grant funds be obligated by September 30, 1977, to rural communities for water supply assistance. This action is necessary since loan funds made for purposes other than those to rural communities for water supply assistance need not be obligated by September 30, 1977.

EFFECTIVE DATE: August 25, 1977.

FOR FURTHER INFORMATION CONTACT:

James E. Lee, Director, Emergency Loan Division, 202–447–6257.

SUPPLEMENTAL INFORMATION: Part 1888 of Chapter XVIII, Title 7, Code of Federal Regulations (42 FR 19322; 42 FR 23158; 42 FR 37354) Subchapter G, "Miscellaneous Regulations," is amended. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts, shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This amendment, however, is not published for proposed rulemaking since the purpose of the change is to correct the July 21, 1977 (42 FR 37355) amendment of this part; therefore, notice and public procedure thereon are unnecessary. Accordingly, § 1888.17(a) is amended to read as follows:

§ 1888.17 Termination provisions.

(a) Any assistance provided under this regulation must be for an applicant with an application on file on or before September 30, 1977. For assistance provided under § 1888.13 funds must also be obligated on or before September 30, 1977.

* * * * *

(7 U.S.C. 1989; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70.)

NOTE.—The Farmers Home Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A–107.

Dated: August 13, 1977.

GORDON CAVANAUGH,
Administrator,
Farmers Home Administration.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Z; Docket No. R–0094]

PART 226—TRUTH IN LENDING

Application of Certain Requirements to Credit Card Plans Involving Transaction-By-Transaction Billing and Imposition of No Finance Charge

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: This interpretation of Regulation Z indicates the provisions applicable to certain two-party credit card plans in connection with which the card issuers bill their customers in full on a transaction-by-transaction basis, rather than on an account basis using periodic statements, and in connection with which no finance charge is imposed. These credit card issuers are subject to the Act and Regulation Z because the Fair Credit Billing Act amendments adjusted the definition of "creditor" to impose certain requirements upon all card

issuers even though those requirements are generally applicable only to open end creditors. The Board is directed to apply those requirements to such card issuers "to the extent appropriate." This interpretation indicates which of the requirements are appropriate for such card issuers.

EFFECTIVE DATE: August 17, 1977.

FOR FURTHER INFORMATION CONTACT:

D. Edwin Schmelzer, Chief, Fair Credit Practices Section, Division of Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-2412.

DISCUSSION: Section 103(f) of the Truth in Lending Act, as implemented by § 226.2(s) and (x) of Regulation Z, requires all credit card issuers to comply with certain provisions even though those provisions are generally applicable only to creditors of open end credit plans. Certain two-party credit card plans impose no finance charge and bill for payment in full on a transaction-by-transaction basis, rather than on an account basis using periodic statements. This interpretation specifies which sections of the regulation should appropriately be applied to such credit card programs.

The interpretation permits such card issuers to continue sending bills in the form of invoices or other statements to each customer for each transaction in which the card is used. It does not require that the card issuer convert to a periodic billing statement which involves the maintenance of an account for each customer.

The interpretation requires such card issuers, prior to the first transaction in which the card is used, to disclose any charges (other than a finance charge) which relate to the deferral of payment by use of the card, such as a late payment or delinquency charge (§ 226.7(a)(6)). The card issuer is required to make disclosures regarding any security interest which may be retained (§ 226.7(a)(7)). The card issuer is also required to provide the statement of rights and responsibilities under the Fair Credit Billing Act prior to the first use of the card (§ 226.7(a)(9)).

The interpretation does not require a disclosure regarding minimum payments (§ 226.7(a)(8)), since the only types of credit cards considered herein are ones which require payment in full for each transaction at the time of billing.

The interpretation does not require such card issuers to disclose the "previous balance" (§ 226.7(b)(1)(i)), the amounts of "payments" and "credits" (§ 226.7(b)(1)(iii), or the closing date and "new balance" (§ 226.7(b)(1)(ix)) Those disclosures relate mainly to systems which periodically bill their customers on an account basis and do not appear to be germane to the type of system under consideration in this interpretation.

The requirements to provide an identification of each transaction (§ 226.7(b)(1)(ii)) and to provide an address for receipt of billing error inquiries § 226.7(b)(1)(x)) apply to such systems. The interpretation permits the card issuer to comply with those sections by placing the relevant information on the invoice or other statement sent to the customer for each transaction.

The provisions requiring the card issuer to send a periodic statement at least 14 days prior to the end of a "free period" (§ 226.7(b)(2)) are also not applicable to such credit card systems, since there are no finance charges imposed by such credit card systems and, consequently, no "free periods."

The interpretation permits the card issuer to make use of the exceptions from the general requirement that all disclosures appear on the front of the periodic statement (§ 226.7(c)). All references to a "periodic statement" in § 226.7(c) are to be read to indicate the invoice or other statement sent to the customer for each transaction.

This interpretation requires the card issuer to send the statement prescribed by § 226.7(a)(9) to each customer on a semiannual basis (§ 226.7(d)). However, the interpretation permits the card issuer to comply with that section by sending the statement required by § 226.7(a)(9) within the time periods provided in § 226.7(d) (i.e., two times during a 12 month calendar period provided that the statments must not be sent less than five or more than seven months apart in order to be considered "semiannual"), or by sending either the statement prescribed by § 226.7(a)(9) or the statement prescribed by § 226.7(d)(5) with every invoice or other billing statement sent to its customers.

The timing of this disclosure is to be computed without reference to billing cycles and periodic statements, which do not exist in such programs. Consequently, if the card issuer decides to give the statement semiannually instead of with every invoice, this interpretation permits sending the statement only to those customers who receive a transaction invoice during the chosen months.

This interpretation requires the card issuer to notify customers of changes in terms (§ 226.7(f)). However, since there are no billing cycles or periodic statements used in such plans, customers must be notified of changes in the terms of the plan 15 days prior to the date the change is to be instituted, rather than 15 days prior to the first billing cycle in which the change is to take place. Additionally, the interpretation requires advance notice only of those types of changes in terms which, if undertaken by open end creditors generally, would require notice to all customers prior to imposition of the change on the customers' accounts.

The interpretation exempts the affected card issuers from complying with the requirements which call for prompt crediting of payments (§ 226.7(g)), unless the plan includes the possibility of the imposition of a specific charge for late payment, delinquency, or default.

The interpretation applies the provisions regarding crediting and refunding excess payments (§ 226.7(h)) to such credit plans. However, compliance with those requirements may be achieved by such credit card issuers by accounting for the amount received in excess of the required payment by a credit memorandum or other reasonable means rather than by crediting to our account. Since no periodic statement is required for such systems, this interpretation requires the card issuer to notify the customer of the existence of an excess payment, unless a refund is sent within 5 business days of its receipt.

The card issuer is required to comply with all relevant portions of § 226.13, regarding credit card requirements, except § 226.13(k) which is inapplicable to two-party credit card systems generally.

The interpretation requires the card issuer to comply with the error resolution requirements of the regulation (§ 226.14. However, the interpretation provides that all references therein to a "periodic statement" should be read to indicate the invoice or other billing statement for the relevant transaction. All actions referenced in § 226.14 with regard to correcting and adjusting a customer's account are permitted to be taken by issuing a refund or new invoice to the customer, or by other appropriate means consistent with the purposes of the section. Since there are no accounts to be adjusted, and no periodic statement upon which any such adjustments can be reflected, this change in the regulation's requirements with respect to this type of credit card is deemed necessary for the purposes of the Act and regulation.

It should be emphasized that this interpretation applies only to two-party credit card issuers that bill on a transaction-by-transaction basis and impose no finance charge. It applies only in those transactions in which the card issued by that credit card issuer is used. It does not apply to other types of card issuers, such as those that use a cumulative account billing system, even if no finance charge is imposed.

Pursuant to 15 U.S.C. 1602(f) and 15 U.S.C. 1604, the Board hereby adopts the following interpretation of Regulation Z.

§ 226.709 Application of limited requirements to card issuers which bill customers on a transaction-by-transaction basis.

It has come to the Board's attention that certain credit cards are issued, the card issuer and the seller being the same person or related persons, in connection with which no finance charge is imposed and customers are billed in full for each use of the card on a transaction-by-transaction basis by means of an invoice or other statement reflecting each use of the card. No cumulative account which reflects the transactions by each customer during a period of time, such as a month, is maintained.

Section 103(f) of the Act requires all credit card issuers to comply with certain provisions, even though those provisions are generally applicable only to creditors of open end credit plans, and requires the Board to apply these provisions to all card issuers "to the extent appropriate." The question arises as to which of those provisions, as implemented by this Part, appropriately apply to such card issuers.

Such card issuers may bill customers on a transaction-by-transaction basis and need not maintain a cumulative account for each customer for which a periodic statement must be sent.

Prior to the first use of the credit card, the card issuer shall provide the customer with a statement setting forth the disclosures required by § 226.7(a)(9) and, as applicable, § 226.7(a)(6) and § 226.7(a)(7). The disclosure required by § 226.7(a)(6) shall be limited to those charges that are or may be imposed as a result of the deferral of payment by use of the card, such as late payment or delinquency charges. Such card issuers need not provide the disclosure required by § 226.7(a)(8).

The disclosures required by § 226.7(b)(1)(i), (iii) and (ix) need not be given by such credit card issuers. The requirements of § 226.7(b)(1)(ii) and § 226.7(b)(1)(x) are applicable to such card issuers, and compliance may be achieved by placing the required disclosures on the invoice or statement sent to the customer for each transaction. Section 226.7(b)(2) does not apply to these credit card issuers.

The provisions of § 226.7(c), including those which permit certain required disclosures to be made other than on the front of a periodic statement, shall apply. All references to the "periodic statement" in § 226.7(c) shall be read to indicate the invoice or other billing document sent to the customer for each transaction.

The provisions of § 226.7(d) shall apply to such credit card issuers. Compliance therewith may be achieved (1) by mailing or delivering the statement required by § 226.7(a)(9) to each customer who receives a transaction invoice during a one-month period chosen by the card issuer which meets the timing requirements of § 226.7(d)(2), (3), and (4); or (2) by sending either the statement prescribed by § 226.7(a)(9) or the statement prescribed by § 226.7(d)(5) with each invoice sent to a customer.

The provisions of § 226.7(f) apply to these credit card issuers, except that (1) notice of the change in terms shall be given at least 15 days prior to the date upon which the change takes effect, rather than 15 days prior to the beginning date of the billing cycle in which it takes effect, and (2) the card issuer need notify cardholders in advance of only those changes in terms which, if undertaken by creditors of open end credit plans generally, would necessitate notice to all customers prior to imposing the change on their accounts.

The provisions of § 226.7(g) shall apply to such credit card issuers if the credit card plan includes the possible imposition of a specific charge for late payment, default, or delinquency. Otherwise, they do not apply to such credit card issuers.

The provisions of § 226.7(b) shall apply to such credit card issuers, except that all requirements to credit amounts to an account may be complied with by other reasonable means, such as by a credit memorandum. Since no periodic statements are provided or required for the credit card systems subject to this interpretation, a notice of excess payment should be sent to the customer within a reasonable period of time following its occurrence unless a refund of the excess payment is mailed or delivered to the customer within 5 business days of its receipt by the card issuer.

The card issuer shall comply with all the provisions of § 226.13, including § 226.13 (i) and (j) to the extent that they are applicable to the credit card plan, except that § 226.13(k) is inapplicable.

The card issuer shall comply with the provisions of § 226.14, as applicable. All references in § 226.14 to the "periodic statement" shall be read to indicate the invoice or other statement for the relevant transaction. All actions referenced in § 226.14 with regard to correcting and adjusting a customer's account may be taken by issuing a refund or a new invoice, or by other appropriate means consistent with the purposes of the section.

By order of the Board of Governors of the Federal Reserve System, August 17, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

PART 226—TRUTH IN LENDING

Official Staff Interpretations

Correction

In FR Doc. 77-21648, appearing at page 38173 in the issue for Wednesday, July 27, 1977, the following FC numbers should precede the appropriate letters:

1. On page 38174, in the first column, the first letter, which begins "§ 226.15 (a)", should be preceded by "FC-0094";

2. On page 38174, in the first column, the second letter, which begins "§ 226.15 (b)", should be preceded by "FC-0095";

3. On page 38174, in the third column, the third letter, which begins "§ 226.8 (g)", should be preceded by "FC-0096";

4. On page 38175, in the second column, the fourth letter, which begins "§ 226.808", should be preceded by "FC-0097";

5. On page 38176, in the first column, the fifth letter, which begins "§ 226.6(b)", should be preceded by "FC-0098";

6. On page 38176, in the second column, the sixth letter, which begins "§ 226.2 (d)", should be preceded by "FC-0099".

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 77-EA-62, Amdt. 39-3024]

PART 39—AIRWORTHINESS DIRECTIVES

Bendix Ignition Switches

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This rule (AD) amends and revises AD 76-07-12 applicable to Bendix Ignition Switches. The amendment changes the initial compliance time from prior to the next flight to 100 hours in service. It also exempts from the AD those switches which have been properly modified or new switches both of which have been properly marked. This rule results from a need to clarify the rule and exempt approved switches.

EFFECTIVE DATE: August 30, 1977.

ADDRESSES: Bendix Service Bulletins may be acquired from the manufacturer at the Electrical Components Division, Sidney, New York 13838.

FOR FURTHER INFORMATION CONTACT:

W. White, Systems & Equipment Section, AEA-213, Engineering and Manufacturing Branch, Federal Building, J. F. K. International Airport, Jamaica, N.Y. 11430; Tel. 212-995-3372.

SUPPLEMENTARY INFORMATION: Due to response from industry and users, it has become apparent that unnecessary coverage has been included in the rule. The AD was issued originally to preclude switches which remained active when turned off from inadvertently starting the engine on the ground. This amendment will exempt from the rule modified and new switches which have eliminated the deficiency, and requires repetitive inspections for all other switches. In view of the effect on safety, notice and public procedure hereon are impractical and good cause exists for making the rule (AD) effective in less than 30 days.

DRAFTING INFORMATION

The principal authors of this document are W. White, Flight Standards Division, and Thomas C. Halloran, Esq., Office of the Regional Counsel.

It has been determined that the expected impact of the proposed regulation is so minimal that the proposal does not warrant an evaluation.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by amending AD 76-07-12, as follows: BENDIX IGNITION SWITCHES. Applies to all aircraft employing magnetos and using Bendix ignition switches listed in the table below except switches identified by four digit date code (new) adjacent to the model number or a white dot (modified) on the support plate adjacent to the Bendix logo.

Bendix Switches Switch Function.	*Rotary Action, Key or Lever Actuated* Bendix (series) Part Numbers.
Twist-to-Start	10-357XXX, 10-126XXX.
Twist-to-Start/Push-to-Prime.	10-357XXX, 10-126XXX.
Push-to-Start	10-357XXX, 10-126XXX, 10-157XXX.

Compliance required as indicated:

1. For switches subject to this AD, conduct the following checks within the next 100 hours' time in service and each 100 hours thereafter to detect possible switch malfunction:

(a) Observing regular ground run-up procedures, allow the engine to reach operating temperatures and perform a normal magneto check.

(b) With the engine at normal idle, rotate the switch key or lever through the "OFF" detent to the extreme limit of its travel in the "OFF" direction.

(c) If the engine stops firing, this indicates an airworthy switch.

(d) If the engine continues to run with the switch in the extreme "OFF" direction indicating a malfunctioning switch, prior to the next flight accomplish Part III outlined in Bendix Service Bulletin No. 583, dated April 1976, for Repair and Replacement or use an alternate method approved by Chief, Engi-

neering and Manufacturing Branch, Eastern Region.

2. The aircraft may be flown in accordance with FAR 21.197 to a place where these modifications can be accomplished.

3. The checks required by this AD may be performed by the pilot.

4. Upon submission by an operator with substantiating data, an FAA Maintenance Inspector subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA Eastern Region may adjust the compliance times specified in this AD if the request contains substantiating data to justify the increase for the operator:

NOTE.—If the engine continues to run when complying with paragraph 1 and repair or replacement cannot or will not be accomplished immediately, the magneto (primary circuit) should be grounded in accordance with Bendix Service Bulletin No. 583, dated April 1976.

Effective date: This amendment is effective August 30, 1977.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Jamaica, New York, on August 16, 1977.

L. J. CARDINALI,
Acting Director, Eastern Region.

[Docket No. 77-EA-50; Amdt. 39-3023]

PART 39—AIRWORTHINESS DIRECTIVES

Canadair Aircraft

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule (AD) is applicable to Canadair CL-215 type airplanes. It intends to prevent inadvertent opening of the nose landing gear doors during water landing which can result from a deficiency in the hydraulic system.

EFFECTIVE DATE: August 30, 1977.

ADDRESSES: Canadair Service Bulletins may be acquired from the manufacturer, at P.O. Box 6087, Montreal, Canada.

FOR FURTHER INFORMATION CONTACT:

K. Tunjian, Systems & Equipment Section, AEA-213, Engineering and Manufacturing Branch, Federal Building, J. F. K. International Airport, Jamaica, N.Y. 11430, Tel. 212-995-3372.

SUPPLEMENTARY INFORMATION: Due to subsequent research by the manufacturer, it was determined that original rework outlined in Service Bulletin CL-215-176 was not sufficient to eliminate hydraulic pressure surges in the nose landing gear hydraulic system when electric power to the selector valve is interrupted and gear is up. This rule requires additional alterations to the system. There are presently no U.S. registered CL-215 type airplanes; therefore, notice and public procedure hereon are unnecessary and good cause exists for making the rule (AD) effective in less than 30 days.

DRAFTING INFORMATION

The principal authors of this document are K. Tunjian, Flight Standards Division, and Thomas C. Halloran, Esq., Office of the Regional Counsel.

It has been determined that the expected impact of the proposed regulation is so minimal that the proposal does not warrant an evaluation.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended, by issuing a new airworthiness directive, as follows:

CANADAIR: Applies to Canadair Model CL-215 aircraft, S/Ns 1001 through 1030, certificated in all categories. Compliance required prior to issuance of a U.S. airworthiness certificate, unless already accomplished.

To preclude inadvertent opening of the nose landing gear doors when electric power to the nose gear selector valve is interrupted with the landing gear in the "UP" position, accomplish the following:

(a) Incorporate the alteration outlined in Canadair Service Bulletin CL-215-176, dates September 5, 1973, or an equivalent alteration.

(b) Alter the nose landing gear hydraulic system in accordance with the modifications described in Canadair Service Bulletin CL-215-200, dated August 5, 1975, or an equivalent method.

(c) Equivalent alterations or methods of compliance must be approved by the Chief, Engineering and Manufacturing Branch, FAA Eastern Region.

(d) Upon submission of substantiating data by an owner or operator, through an FAA maintenance inspector, the compliance time specified in this AD may be adjusted by the Chief, Engineering and Manufacturing Branch FAA Eastern Region.

Effective date: This amendment is effective August 30, 1977.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Jamaica, N.Y., on August 16, 1977.

L. J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.77-24647 Filed 8-24-77;8:45 am]

[Docket No. 77-EA-3, Amdt. 39-3022]

PART 39—AIRWORTHINESS DIRECTIVES

Martin Aircraft

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule (AD) will update and replace AD 75-26-08 applicable to Martin 404 type airplanes. It will relate some of the calendar time to hours in service and require an initial inspection within a 5-year period or 10,000 hours of the effective date. Inspections pursuant to AD 75-26-08 disclosed cracks and such deficiencies were a product of both calendar time and service time.

EFFECTIVE DATE: August 30, 1977.

FOR FURTHER INFORMATION CONTACT:

L. Lipsius, Airframe Section, AEA-212, Engineering and Manufacturing Branch, Federal Building, J. F. K. International Airport, Jamaica, N.Y. 11430, Tel. 212-995-2875.

SUPPLEMENTARY INFORMATION: The NPRM was published in the FEDERAL REGISTER on June 20, 1977, on page 31171. Interested parties were given 30 days in which to submit comments. There were no comments received. AD 75-26-08 was published in 1975 to require an inspection for corrosion at station 187 of the wings of the Martin 404 type airplane. The inspection was premised in some instances on calendar time only. The proposal will relate the calendar time to service time and also require an inspection for cracks as well as corrosion.

DRAFTING INFORMATION

The principal authors of this document are L. Lipsius, Flight Standards Division, and Thomas C. Halloran, Esq., Office of the Regional Counsel.

It has been determined that the expected impact of the proposed regulation is so minimal that the proposal does not warrant an evaluation.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended, as follows:

1. Revoke AD 75-26-08.

2. Adopt the amendment as published.

Effective date. This amendment is effective August 30, 1977.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1423); Sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of a Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Jamaica, N.Y., on August 16, 1977.

L. J. CARDINALI,
Acting Director, Eastern Region.

MARTIN: Applies to all Martin 404 Aircraft Certificated in all categories.

Compliance required as indicated.

(a) For airplanes without wing spar chord splice joint fittings at wing station 187, accomplish the following:

(1) Within the next three months or 500 hours in service, whichever occurs first, after the effective date of this AD, unless accomplished within five years or 10,000 hours in service preceding the effective date, remove the left and right outer wing panels and visually inspect the wing spar chord splice joints for corrosion at wing station 187.

(2) Repeat the inspection specified in (a) (1) at intervals not to exceed 10,000 hours in service or five years, whichever occurs first, for left wings, and 12,000 hours in service or six years, whichever occurs first, for right wings.

(b) For airplanes with wing splice fittings installed in accordance with STC SA328SO, accomplish the following without wing removal:

(1) Visually inspect the left and right wing panels at wing station 187 for corrosion within the next 12 months or 2000 hours in service, whichever occurs first, after the effective date of this AD, unless accomplished within 48 months or 8000 hours in service preceding the effective date by

(i) Stripping all sealant from the spar splice joints.

(ii) Removing any two vertical large attachment bolts and the two end horizontal tension bolts from each "Hayes" fitting.

(2) Perform a dye pentrant inspection or an FAA approved equivalent inspection for cracks at the same time as the corrosion inspection specified in (b) (1).

(i) At the accessible areas of the spars and

(ii) In the four bolt holes of each "Hayes" fitting as noted in (b) (1) (ii).

(3) Perform the inspection in (b) (1) (ii) which requires removal of the horizontal bolts even though any two vertical large attachment bolts have been removed for bolt hole inspection within the past 48 months or 8,000 hours in service.

(4) Repeat the inspection specified in (b) (1) at intervals not to exceed 10,000 hours in service or five years, whichever occurs first.

(5) Remove both wing outer panels; conduct a corrosion inspection of the wing structure and fittings, and a dye penetrant inspection for cracks on all affected parts at intervals not to exceed 20,000 hours in service or ten years, whichever occurs first, beyond the inspection in (b) (1).

(c) Repair corroded parts before further flight in accordance with an FAA approved repair or replace cracked parts before further flight with serviceable or equivalent parts approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

(d) Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the inspection interval specified in this AD.

[FR Doc.77-24645 Filed 8-24-77;8:45 am]

[Airspace Docket No. 77-SW-34]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone: Cotulla, Texas

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment changes the effective hours of operation of the Cotulla, Tex. (Cotulla Municipal Airport) control zone to coincide with the hours of operation of the Cotulla, Tex. Flight Service Station (FSS). The FSS hours of operation are being reduced from continuous to 0600 to 2200 local time daily. This reduces the availability of special weather observations accordingly and necessitates the change in the control zone hours of operation to conform to the FSS hours of operation.

EFFECTIVE DATE: December 1, 1977.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101; telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: In Subpart F 71.171 (42 FR 355) of FAR Part 71, the Cotulla, Tex. (Cotulla Municipal Airport) control zone is designated as continuous (through the omission of any reference to specific dates and times of operation). This conforms with the FSS hours of operation. Special weather observations are provided by the FSS on a 24-hour basis, which is one of the requirements for a continuous control zone operation.

A traffic survey was completed on January 31, 1977, which indicated insufficient activity to retain the FSS 24-hour operation. On December 1, 1977, the FSS hours of operation will be reduced to 0600 to 2200 local time daily. This will necessitate a change in the control zone hours of operation to 0600 to 2200 local time.

The aforementioned action will reduce the constraints and, in effect, the impact on the user imposed by the control zone operation. Consequently, we have elected to omit circularization of the change for comment.

DRAFTING INFORMATION

The principal authors of this document are John A. Jarrell, Airspace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 355) is amended, effective 0901 GMT, December 1, 1977, as hereinafter set forth.

In Subpart F 71.171 (42 FR 355), the Cotulla, Tex. (Cotulla Municipal Airport) control zone is amended by adding the following sentence:

This control zone is effective during the specific dates and times established in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on August 16, 1977.

PAUL J. BAKER,
Director, Southwest Region.

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Docket No. 17143; Amdt. No. 1087]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

FOR EXAMINATION

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

FOR PURCHASE

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA-430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

BY SUBSCRIPTION

Copies of all SIAPs, mailed weekly, may be ordered from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The current annual subscription price is $150.00; add $30.00 for each additional copy mailed to the same address.

FOR FURTHER INFORMATION CONTACT:

William L. Bersch, Flight Procedures and Airspace Branch (AFS-730), Air-

craft Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone 202-426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 9) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA forms are identified as FAA Forms 8260-3, 8260-4 and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the FEDERAL REGISTER expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The principal authors of this document are Rudolph L. Fioretti, Flight Standards Service, and Richard W. Danforth, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective on the dates specified, as follows:

1. By amending § 97.23 VOR-VOR/DME SIAPs identified as follows:

* * * *Effective October 20, 1977.*

St. Cloud, MN—St. Cloud Municipal, VOR Rwy 31, Amdt. 2
Barre-Montpelier, VT—Edward F. Knapp State, VOR Rwy 35, Amdt. 5

* * * *Effective October 6, 1977.*

Monroeville, AL—Monroe County, VOR Rwy 3, Amdt. 5.
Monroeville, AL—Monroe County, VOR Rwy 21, Amdt. 5.
Selma, Alabama—Selfield, VOR-A, Orig, cancelled.
Wetumpka, Alabama—Wetumpka Muni., VOR Rwy 27, Amdt. 1, cancelled.
Los Angeles, CA—Los Angeles Int'l, VOR Rwy 25L (TAC), Amdt. 9.
Los Angeles, CA—Los Angeles Int'l, VOR Rwy 25R (TAC), Amdt. 9.
Ontario, CA—Ontario Int'l, VOR Rwy 25 (TAC), Amdt. 4.
Oxnard, CA—Oxnard, VOR Rwy 7, Amdt. 7.
Oxnard, CA—Oxnard, VOR Rwy 25, Amdt. 5.
Santa Ana, CA—Orange County Airport, VOR Rwy 19R, Amdt. 15.
Santa Barbara, CA—Santa Barbara Municipal, VOR/DME Rwy 25, Original.
Santa Barbara, CA—Santa Barbara Municipal, VOR Rwy 25, Original, cancelled.
Santa Ynez CA—Santa Ynez, VOR-A, Amdt. 4.
Gunnison, CO—Gunnison County, VOR-A, Amdt. 2.
Miami, FL—Miami International, VOR Rwy 30, Original.
Miami, FL—Miami International, VOR Rwy 30, Amdt. 5, cancelled.
Toccoa, GA—Toccoa, VOR Rwy 20, Amdt. 6.
Valdosta, GA—Valdosta Muni., VOR Rwy 35, Amdt. 24.
Hopedale, MA—Hopedale-Draper, VOR-A, Amdt. 2.
Manistee, MI—Manistee County-Blacker, VOR Rwy 9, Amdt. 3.
Manistee, MI—Manistee County-Blacker, VOR Rwy 27, Amdt. 3.
Pellston, MI—Emmet County, VOR Rwy 23, Amdt. 7.
Pellston, MI—Emmet County, VOR/DME Rwy 5, Amdt. 3.
Traverse City, MI—Cherry Capital, VOR-A, (TAC), Amdt. 12.
Vincentown, NJ—Red Lion, VOR-A, Amdt. 3.
Elmira, NY—Chemung County, VOR Rwy 6, Amdt. 12.
Anderson, SC—Anderson County, VOR Rwy 5, Amdt. 8.
Delta, UT—Delta Municipal, VOR/DME Rwy. 16, Original.
Richmond, VA—Richard Evelyn Byrd Int'l, VOR Rwy 33, Amdt. 14.
Kenmore, WA—Kenmore Air Harbor, VOR-A, Original.
Eau Claire, WI—Eau Claire Municipal, VOR-A, Amdt. 18.
Green Bay, WI—Austin-Straubel Field, VOR Rwy 12, Amdt. 15.
Green Bay, WI—Austin-Straubel Field, VOR/DME Rwy 36(TAC), Original.
Green Bay, WI—Austin-Straubel Field, VORTAC Rwy 36, Amdt. 6, cancelled.
Hartford, WI—Hartford Municipal, VOR-A, Amdt. 2.
Waukesha, WI—Waukesha County, VOR-A, Amdt. 10.

* * * *Effective August 17, 1977.*

Marianna, Fla.—Marianna Muni., VOR-A, Amdt. 9.

2. By amending § 97.25 SDF-LOC-LDA SIAPs identified as follows:

* * * *Effective October 6, 1977.*

Santa Ana, CA—Orange County Airport, LOC Rwy 19R, Amdt. 6.
Santa Ana, CA—Orange County Airport, LOC (BC) Rwy 1L, Amdt. 5.
Escanaba, MI—Delta County, LOC Rwy 9, Original.
Escanaba, MI—Delta County, LOC/DME (BC) Rwy 27, Original.
Eau Claire, WI—Eau Claire Municipal, LOC/DME BC Rwy 4, Amdt. 3.
Green Bay, WI—Austin-Straubel Field, LOC (BC) Rwy 24L, Amdt. 12.

3. By amending § 97.27 NDB/ADF SIAPs identified as follows:

* * * *Effective October 6, 1977.*

Ontario, CA—Ontario Int'l, NDB Rwy 25, Amdt. 27.
Santa Barbara, CA—Santa Barbara Muni., NDB-A, Amdt. 3.
Grayling, MI—Grayling AAF, NDB Rwy 14, Amdt. 1
Pellston, MI—Emmet County, NDB Rwy 32, Amdt. 11
Traverse City, MI—Cherry Capital, NDB Rwy 28, Amdt. 3.
Aitkin, MN—Aitkin Municipal, NDB Rwy 16, Original.
Manteo, NC—Manteo, NDB Rwy 4, Amdt. 1.
Florence, SC—Florence City-County, NDB Rwy 9, Amdt. 7.
Eau Claire, WI—Eau Claire Municipal, NDB Rwy 22, Amdt. 3.
Green Bay, WI—Austin-Straubel Field, NDB Rwy 6R, Amdt. 13.
Hartford, WI—Hartford Municipal, NDB Rwy 11, Amdt. 1.
Watertown, WI—Watertown Municipal, NDB Rwy 23, Amdt. 2.
Waukesha, WI—Waukesha County, NDB Rwy 10, Amdt. 6.

4. By amending § 97.29 ILS-MLS SIAPs identified as follows:

Effective October 6, 1977.

Los Angeles, CA—Los Angeles Int'l, ILS Rwy 24L, Amdt. 11.
Los Angeles, CA—Los Angeles Int'l, ILS Rwy 24R, Amdt. 12.
Los Angeles, CA—Los Angeles Int'l, ILS Rwy 25L, Amdt. 12.
Los Angeles, CA—Los Angeles Int'l, ILS Rwy 25R, Amdt. 12.
Ontario, CA—Ontario Int'l, ILS Rwy 25, Amdt. 28.
Santa Ana, CA—Orange County Airport, ILS Rwy 19R, Amdt. 5.
Santa Barbara, CA—Santa Barbara Municipal, ILS Rwy 7, Amdt. 19.
Valdosta, GA—Valdosta Muni., ILS Rwy 35, Amdt. 2.
Pellston, MI—Emmet County, ILS Rwy 32, Amdt. 2.
Traverse City, MI—Cherry Capital, ILS Rwy 28, Amdt. 4.
Salem, OR—McNary Field, ILS Rwy 31, Amdt. 21.
Coatesville, PA—Chester County G.O. Carlson, MLS Rwy 11 (Interim), Orig.
Florence, SC—Florence City-County, ILS Rwy 9, Amdt. 7.
Richmond, VA—Richard Evelyn Byrd Int'l, ILS Rwy 6, Amdt. 18.
Richmond, VA—Richard Evelyn Byrd Int'l, ILS Rwy 15, Amdt. 1.

Richmond, VA—Richard Evelyn Byrd Int'l, ILS Rwy 33, Amdt. 4.
Eau Claire, WI—Eau Claire Municipal, ILS Rwy 22, Amdt. 3.
Green Bay, WI—Austin-Straubel Field, ILS Rwy 6R, Amdt. 14.

5. By amending § 97.31 RADAR SIAPs identified as follows:

Effective October 6, 1977.

Selma, ALA—Selfield, RADAR-1, Orig., cancelled.
Green Bay, WI—Austin-Straubel Field, RADAR-1, Amdt. 3.

6. By amending § 97.33 RNAV SIAPS identified as follows:

* * * *Effective October 6, 1977.*

Anderson, SC—Anderson County, RNAV Rwy 23, Amdt. 3.
Waukesha, WI—Waukesha County, RNAV Rwy 10, Amdt. 3.

(Secs. 307, 313(a), 601, 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), 1421, and 1510); sec. 6(c). Department of Transportation Act (49 U.S.C. 1655(c)); Delegation: 25 FR 6489 and Paragraph 802 of Order FS P 1100.1, as amended March 9, 1973.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on August 19, 1977.

JAMES M. VINES,
Chief, Aircraft Programs Division.

NOTE.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on May 12, 1969.

[Docket No. 17140; Amdt. No. 152-6]

PART 152—AIRPORT AID PROGRAM CONTENTS

Advisory Circulars

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment is being issued to update the list of advisory circulars which contain certain programming, design, and construction standards for airport development projects submitted for approval under the Airport Aid Program. In addition, the amendment explains where those circulars may be examined and how they may be obtained.

EFFECTIVE DATE: August 25, 1977.

FOR FURTHER INFORMATION CONTACT:

James Burnett, Development Program Division (AAP-600), Program Requirements Branch, 800 Independence Avenue SW., Washington, D.C. 20591, Telephone: (202) 426-3857.

SUPPLEMENTARY INFORMATION: Section 16 of the Airport and Airway Development Act of 1970 (AADA; 49 U.S.C. 1716) sets forth requirements pertaining to the submission and approval of projects for airport development under the AADA. Under paragraph (a) of that section, all proposed airport development must be in accordance with standards established by the Secretary of Transportation, including standards for site location, airport layout, grading, drainage, seeding, paving, lighting, and safety of approaches.

Under § 1.47(f)(1) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.47(f)(1), the Federal Aviation Administrator is delegated authority to carry out the functions vested in the Secretary by the AADA, except sections 3 and 4 thereof. Accordingly, the Administrator of the FAA is responsible for establishing the standards described in section 16(a) of that act.

Some of the guidelines for airport development projects are set forth in advisory circulars. These circulars are listed in Appendix I to Part 152 of the Federal Aviation Regulations. Under § 152.83, the technical guidelines in the advisory circulars are incorporated by reference into Subpart C of Part 152 (Project Programming Standards for Airport Development Projects) and are made mandatory standards.

The advisory circulars listed in Appendix I are revised periodically to reflect new and revised standards. Such standards recently have been established. Therefore, this amendment is necessary to include in Appendix I the advisory circulars containing the new and revised standards, and to delete references to circulars which no longer are current.

As explained in § 152.83(c) of this amendment, copies of the advisory circulars listed in Appendix I may be examined in the Rules Docket, Office of the Chief Counsel, FAA, Washington, D.C., and those circulars may be inspected and copied at any FAA Regional Office or Airports District Office. In addition, copies that are available free of charge may be obtained from any of those offices or from the Department of Transportation, Publications and Forms Section, TAD 443.1, Washington, D.C. 20590. Finally, copies that are for sale may be bought for the price listed from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Finally, section 152.83(b) provides that the Director, Airports Service, is authorized to add to, or delete from, Appendix I any advisory circular or part thereof. This function is currently exercised by the Assistant Administrator, Office of Airports Programs. Accordingly, § 152.83 (b) has been revised to reflect this change.

The principal authors of this document are James Burnett, Office of Airports Programs, and Danvers E. Long, Office of the Chief Counsel.

Since this amendment is editorial in nature and relates to grants made under the Airport Aid Program, I find that notice and public procedure thereon are unnecessary and that good cause exists for making this amendment effective in less than 30 days.

Accordingly, Part 152 of the Federal Aviation Regulations (14 CFR 152) is amended, effective August 25, 1977, as follows:

1. By amending § 152.83 by revising paragraphs (b) and (c) to read as follows:

§ 152.83 Incorporation by reference of technical guidelines in advisory circulars.

* * * * *

(b) *Amendments of Appendix I.* The Assistant Administrator, Office of Airports Programs, may add to, or delete from, Appendix I any advisory circular or part thereof.

(c) *Availability of Advisory Circulars.* The advisory circulars listed in Appendix I may be inspected and copied at any FAA Regional Office or Airports District Office, and copies of those circulars may be examined in the Rules Docket, Office of Chief Counsel, FAA, Washington, D.C. Copies that are available free of charge may be obtained from any of the Regional or Airports District Offices or from the Department of Transportation, Publications and Forms Section, TAD 443.1, Washington, D.C. 20590. Copies of the circulars that are for sale may be bought for the price listed from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

2. By revising Appendix I to read as follows:

APPENDIX I

List of Advisory Circulars Incorporated by § 152.83: (a) *Circulars available free of charge.*

Number and subject

150/5100-12—Electronic Navigational Aids Approved for Funding Under the Airport Development Aid Program (ADAP).
150/5190-3A—Model Airport Hazard Zoning Ordinance.
150/5210-7A—Aircraft Fire and Rescue Communications.
150/5210-10—Airport Fire and Rescue Equipment Building Guide.
150/5300-2C—Airport Design Standards—Site Requirements for Terminal Navigational Facilities.
150/5300-4B—Utility Airports—Air Access to National Transportation.
150/5300-6—Airport Design Standards—General Aviation Airports—Basic and General Transport.
150/5300-8—Planning and Design Criteria for Metropolitan STOL Ports.
150/5320-6B—Airport Pavement Design and Evaluation.
150/5320-10—Environmental Enhancement at Airports—Industrial Waste Treatment.
150/5320-12—Methods for the Design, Construction, and Maintenance of Skid Resistant Airport Pavement Surfaces.
150/5325-2C—Airport Design Standards—Airports Served by Air Carriers—Surface Gradient and Line-of-Sight.
150/5325-4—Runway Length Requirements for Airport Design.
150/5325-6A—Airport Design Standards—Effect and Treatment of Jet Blast.
150/5325-8—Compass Calibration Pad
150/5335-1A—Airport Design Standards—Airports Served by Air Carriers—Taxiways.
150/5335-2—Airport Aprons.
150/5335-3—Airport Design Standards—Airports Served by Air Carriers—Bridges and Tunnels on Airports.

150/5335-4—Airport Design Standards—Airports Served by Air Carriers—Runway Geometrics.
150/5340-1D—Marking of Paved Areas on Airports.
150/5340-4C—Installation Details for Runway Centerline and Touchdown Zone Lighting Systems.
150/5340-5A—Segmented Circle Airport Marker System.
150/5340-8—Airport 51-foot Tubular Beacon Tower.
150/5340-14B—Economy Approach Lighting Aids.
150/5340-17A—Standby Power for Non-FAA Airport Lighting System.
150/5340-18—Taxiway Guidance Sign System.
150/5340-19—Taxiway Centerline Lighting System.
150/5340-20—Installation Details and Maintenance Standards for Reflective Markers for Airport Runway and Taxiway Centerlines.
150/5340-21—Airport Miscellaneous Lighting Visual Aids.
AC/5340-22—Maintenance Guide for Determining Degradation and Cleaning of Centerline and Touchdown Zone Lights.
150/5340-23A—Supplemental Wind Cones.
150/5340-24—Runway and Taxiway Edge Lighting System.
150/5340-25—Visual Approach Slope Indicator (VASI) Systems.
150/5345-1E—Approved Airport Lighting Equipment.
150/5345-2—Specification for L-810 Obstruction Light.
150/5345-3C—Specification for L-821 Panels for Remote Control of Airport Lighting.
150/5345-4—Specification for L-829 Internally Lighted Airport Taxi Guidance Sign.
150/5345-5—Specification for L-847 Circuit Selector Switch, 5,000 Volt 20 Ampere.
150/5345-7C—Specification for L-824 Underground Electrical Cable for Airport Lighting Circuits.
150/5345-10C—Specification for L-828 Constant Current Regulators.
150/5345-11—Specification for L-812 Static Indoor Type Constant Current Regulator Assembly; 4 KW and 7½ KW, With Brightness Control for Remote Operation.
150/5345-12A—Specification for L-801 Beacon.
150/5345-13—Specification for L-841 Auxiliary Relay Cabinet Assembly for Pilot Control of Airport Lighting Circuits.
150/5345-18—Specification for L-811 Static Indoor Type Constant Current Regulator Assembly, 4 KW; With Brightness Control and Runway Selection for Direct Operation.
150/5345-21—Specification for L-813 Static Indoor Type Constant Current Regulator Assembly; 4 KW and 7½ KW; for Remote Operation of Taxiway Lights.
150/5345-26A—Specification for L-823 Plug and Receptacle, Cable Connectors.
150/5345-27A—Specification for L-807 Eight-foot and Twelve-foot Unlighted or Externally Lighted Wind Cone Assemblies.
150/5345-28C—Specification for L-851 Visual Approach Slope Indicators and Accessories.
150/5345-36—Specification for L-808 Lighted Wind Tee.
150/5345-39A—FAA Specification for L-853, Runway and Taxiway Retroreflective Markers.
150/5345-42A—FAA Specification L-857, Airport Light Bases, Transformer Housings, and Junction Boxes.
150/5345-43B—FAA/DOD Specification L-856, High Intensity Obstruction Lighting Systems.
150/5345-44A—Specification for L-858 Retroreflective Taxiway Guidance Sign.
150/5345-45—Lightweight Approach Light Structure.
150/5345-46—Specification for Semiflush Airport Lights.
150/5345-47—Isolation Transformers for Airport Lighting Systems.
150/5345-48—Specification for Runway and Taxiway Edge Lights.
150/5360-6—Airport Terminal Building Development with Federal Participation.
150/5360-7—Planning and Design Considerations for Airport Terminal Building Development.
150/5370-7—Airport Construction Controls to Prevent Air and Water Pollution.
150/5370-9—Slip-Form Paving—Portland Cement Concrete.
150/5370-11—Use of Nondestructive Testing Devices in the Evaluation of Airport Pavements.

(b) *Circulars for Sale.*

150/5320-5B—Airport Drainage; $1.30.
150/5370-10—Standards for Specifying Construction of Airports; $7.25.
150/5390-1A—Heliport Design Guide, $1.50.

(Sec. 16(a), Airport and Airway Development Act of 1970, as amended (49 U.S.C. 1716(a)); § 1.47(f)(1), Regulations of the Office of the Secretary of Transportation (49 CFR 1.47(f)(1)); Sec. 552(a), Administrative Procedure Act (5 U.S.C. 552(a)).)

NOTE: The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on August 12, 1977.

J. W. COCHRAN,
Acting Administrator.

(NOTE.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on July 26, 1977. Referenced materials are on file at the Federal Register library.)

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket C-2896]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

CBS, Inc.

AGENCY: Federal Trade Commission.

ACTION: Order to cease and desist.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires a New York publishing firm to cease mailing and billing for unauthorized magazines; sending collection letters to receivers of unordered magazines; misrepresenting the effects of nonpayment on credit ratings in such letters; and transferring unpaid accounts of recipients of unsolicited magazines to debt collection or consumer reporting agencies. Further, the order requires respondent to make proper restitution to individuals who paid for unordered magazines; and to send correction letters to consumers whose credit standings may have been adversely affected by respondent's actions. Additionally, respondent is required to maintain prescribed records; and to institute an adequate program of continued surveillance to ensure conformance with the terms of the order.

DATES: Complaint and order issued July 21, 1977.[1]

FOR FURTHER INFORMATION CONTACT:

Paul R. Peterson, Director, Cleveland Regional Office, Federal Trade Commission, 1339 Federal Office Bldg., 1240 East 9th St., Cleveland, Ohio 44199, 216-522-4207.

SUPPLEMENTARY INFORMATION: On Tuesday, May 17, 1977, there was published in the FEDERAL REGISTER 42 FR 25335 a proposed consent agreement with analysis In the Matter of CBS, Inc., a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement, in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR, are as follows:

Subpart—Advertising Falsely or Misleadingly: § 13.15 Business status, advantages or connections; 13.15-20 Business methods and policies; 13.15-30 Connections or arrangements with others; 13.15-225 Personnel or staff; § 13.42 Connection of others with goods; § 13.160 Promotional sales plans; § 13.205 Scientific or other relevant facts. Subpart—Coercing and Intimidating: § 13.356 Delinquent debtors. Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements; 13.533-15 Destruction of records and/or data; 13.533-20 Disclosures; 13.533-45 Maintain records; 13.533-55 Refunds, rebates and/or credits; 13.533-60 Release of general, specific, or contractual constrictions, adjustments or actions owed. Subpart—Delaying or Withholding corrections, adjustments or action owed: § 13.675 Delaying or withholding corrections, adjustments or actionsowed. Subpart—Enforcing Dealings or Payments Wrongfully: § 13.1045 Enforcing dealings or payments wrongfully. Subpart—Misrepresenting Oneself and Goods: Business Status, Advantages or Connections: § 13.1370 Business methods, policies, and practices; § 13.1395 Connections and arrangements with others; § 13.1440 Identity; § 13.1520 Personnel or staff; § 13.1675 Law or legal requirements; § 13.1740 Scientific or other relevant facts. Subpart—Neglecting, Unfairly or Deceptively, to Make Material Disclosure: § 13.1855 Identity; § 13.1895 Scientific or other relevant facts. Subpart—Securing Orders by Deception: § 13.2170 Securing orders by deception.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

CAROL M. THOMAS,
Secretary.

End to Acceptance of E.C.S. Carnets

AUGUST 18, 1977.

AGENCY: United States Customs Service, Department of the Treasury.

ACTION: General Notice.

SUMMARY: This notice announces that the Customs Service will not accept E.C.S. (Echantillons Commerciaux—Commercial Samples) carnets issued after August 10, 1977, for the temporary duty-free admission of commercial samples into the United States. A.T.A. (Admission Temporaire—Temporary Admission) carnets will be accepted for that purpose instead of E.C.S. carnets. This action is required because the United States, in accordance with a recommendation of the Customs Cooperation Council, has withdrawn from the convention which provides for the use of E.C.S. carnets.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Jerrald O. Worley, Operations Officer, International Operations Division, U.S. Customs Service, 1301 Constitution Avenue, N.W., Washington, D.C. 20229 (202-566-8607).

SUPPLEMENTARY INFORMATION: A.T.A. and E.C.S. carnets are international Customs documents which facilitate the importation of certain articles by serving simultaneously as an entry document and as a bond for temporary duty-free admission.

On December 3, 1968, the United States agreed to become a party to both the Customs Convention on the E.C.S. Carnets for Commercial Samples (E.C.S. Convention), March 1, 1956, 20 UST 120, TIAS 6632, and the Customs Convention on the A.T.A. Carnet for the Temporary Admission of Goods (A.T.A. Convention), December 6, 1961, 20 UST 58, TIAS 6631. The E.C.S. Convention provides for the use of E.C.S. carnets for the temporary admission of commercial samples only, while the A.T.A. Convention provides for the use of A.T.A. carnets for the temporary admission of commercial samples and professional equipment. The text of the E.C.S. and A.T.A. Conventions was published in T.D. 69-68.

It was generally agreed at the time of the adoption of the A.T.A. Convention that it would eventually replace the E.C.S. Convention. Further, the use of E.C.S. carnets has declined significantly, and all parties to the E.C.S. Convention have become parties to the A.T.A. Convention. Inasmuch as there no longer is a need for E.C.S. carnets, the Customs Cooperation Council in Brussels, Belgium, the administering body for both Conventions, has recommended that all parties withdraw from the E.C.S. Convention. In accordance with that recommendation, the United States on May 11, 1977, notified the Secretary General of the Customs Cooperation Council and the Belgian Ministry of Foreign Affairs of its withdrawal from the E.C.S. Convention effective August 11, 1977.

Accordingly, the United States will not accept E.C.S. carnets that are issued after August 10, 1977, for the temporary admission of commercial samples. A.T.A. carnets will continue to be accepted for the temporary admission of commercial samples and professional equipment.

Appropriate amendments to the Customs Regulations reflecting this new practice will be issued in due course.

G. R. DICKERSON,
Acting Commissioner of Customs.

Title 22—Foreign Relations

CHAPTER I—DEPARTMENT OF STATE

SUBCHAPTER M—INTERNATIONAL TRAFFIC IN ARMS

[Dept. Reg. 108.744]

ADMINISTRATIVE REMEDIES AND PROCEDURES

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: This rule amends the International Traffic in Arms regulations to provide administrative procedures to strengthen the ability of the U.S. Government to control the export of defense articles and services from the United States. This amendment establishes means for imposing civil penalties for violations and for disqualifying from muntions exports persons who jeopardize the integrity of the regulatory system. The procedures are designed to ensure administrative fairness in deciding whether a civil penalty or disqualification is appropriate in each individual case.

EFFECTIVE DATE: September 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Stephen A. Orlins, Office of the Legal Adviser, Department of State, Washington, D.C. 20520 (202-632-0568).

SUPPLEMENTARY INFORMATION: On June 10, 1977, the Department of State published a notice of proposed rulemaking to Parts 123, 124, 127 and 128 of 22 CFR in the FEDERAL REGISTER inviting interested persons to submit comments by July 15, 1977. No comments on the proposed amendments were received; therefore the proposed amendment is adopted as set forth below.

LUCY WILSON BENSON,
Under Secretary for Security Assistance, Science and Technology.

AUGUST 19, 1977.

PART 123—LICENSES FOR UNCLASSIFIED ARMS, AMMUNITION, AND IMPLEMENTS OF WAR

1. Revise § 123.05(a) to read as follows:

§ 123.05 License denial, revocation, suspension or amendment.

(a) Licenses may be denied, revoked, suspended, or amended by the Department of State without prior notice whenever the Department believes such action to be advisable in furtherance of (1) World peace; (2) The security of the United States; (3) The foreign policy of the United States; (4) Whenever the Department believes that 22 U.S.C. 2778 or any regulations contained in this subchapter has been violated; or (5) Whenever the applicant or licensee has

been debarred under § 127.07 or suspended under § 127.08, or whenever an order of debarment or suspension has been made applicable to the applicant or licensee under § 127.09, or whenever a person who has been debarred or suspended has a significant interest in the transaction.

* * * * *

PART 124—MANUFACTURING LICENSE AND TECHNICAL ASSISTANCE AGREEMENTS

2. Part 124 is amended by inserting immediately after § 124.11 a new § 124.12 to read as follows:

§ 124.12 Agreement disapproval and revocation, suspension of amendment of approval.

(a) A manufacturing license or technical assistance agreement may be disapproved, and a previously granted approval of such an agreement may be revoked, suspended or amended by the Department of State without prior notice whenever the Department deems such action to be advisable in furtherance of: (1) World peace; (2) The security of the United States; (3) The foreign policy of the United States; (4) Whenever the Department of State believes that 22 U.S.C. 2778 or any regulation contained in this subchapter, has been violated; or (5) Whenever a party to the agreement has been debarred under § 127.07 of this chapter or suspended under § 127.08 of this chapter or whenever an order of debarment or suspension has been made applicable to such a party under § 127.09 of this chapter, or whenever a person who has been debarred or suspended has a significant interest in the transaction.

(b) Whenever an agreement is disapproved or a previously granted approval of an agreement is revoked, suspended, or amended, the U.S. party will be advised promptly in writing, of the Department's decision. The reasons therefor will be stated as specifically as security and foreign relations considerations permit.

(c) If written request is made within 30 days after service of an adverse decision by the Department of State, the U.S. party will be accorded an opportunity to present additional information and the case will be reviewed by the Department of State.

PART 127—VIOLATIONS, PENALTIES AND ADMINISTRATIVE REMEDIES

3. Part 127 is amended by revising the title to read as set forth above and table of contents to read as follows:

Sec.
- 127.01 Violations in general.
- 127.02 Misrepresentation and concealment of facts.
- 127.03 Penalties for violation.
- 127.04 Penalties for violations relating to Southern Rhodesia.
- 127.05 Authority to district directors of customs.
- 127.06 Seizure and forfeiture in attempts at illegal exports.
- 127.07 Debarment.
- 127.08 Interim suspension.
- 127.09 Applicability of orders.
- 127.10 Civil penalty.

4. Revise § 127.01 to read as follows:

§ 127.01 Violations in general.

(a) It is unlawful to export or attempt to export from the United States any article or technical data for which a license or approval is required by this subchapter without first obtaining the required license or written approval from the Department of State.

(b) No person, with knowledge that another person is then subject to an order of debarment, or interim suspension, directly or indirectly, in any manner or capacity, without prior disclosure of the facts to, and written authorization of the Office of Munitions Control:

(1) May apply for, obtain, or use any export control document as defined in § 127.02(b) by, to, or for such debarred or suspended person; or

(2) May order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in, any transaction which may involve any article or technical data for which a license or approval is required by this subchapter, exported or to be exported from the United States, whereby a debarred or suspended person may obtain any benefit therefrom or have any direct or indirect interest therein.

(c) No person may cause, or aid, abet, counsel, demand, induce, procure, or permit the commission of any act prohibited by, or the omission of any act required by 22 U.S.C. 2778, 22 U.S.C. 2779, or any regulation, license, approval, or order issued thereunder.

5. In § 127.02 paragraphs (a) and (b)(14) are revised to read as follows:

§ 127.02 Misrepresentation and omission of facts.

(a) It is unlawful to use any export or intransit control document containing a false statement or misrepresenting or omitting a material fact for the purpose of exporting any article or technical data for which license approval is required by this subchapter. Any false statement, misrepresentation or omission of material fact in an export or intransit control document will be considered, as made in a matter within the jurisdiction of a department or agency of the United States for the purposes of 18 U.S.C. 1001, 22 U.S.C. 2778 and 22 U.S.C. 2779.

(b) For the purpose of this section, the term export or intransit control document includes the following:

(1) * * *

(14) Any other document used in the regulation or control of articles or technical data for which license or approval is required by this subchapter.

* * * * *

6. Revise § 127.03 to read as follows:

§ 127.03 Criminal penalties.

Any person who willfully—

(a) Violates any provision of section 38 or section 39 of the Arms Export Control Act (22 U.S.C. 2778, 2779), or any rule or regulation issued under either section; or

(b) In a registration, license application or report required by section 38 or section 39 of the Arms Export Control Act (22 U.S.C. 2778, 2779) or by any rule or regulation issued under either section, makes any untrue statement of a material fact or omits a material fact required to be stated therein or necessary to make the statements therein not misleading—

shall, upon conviction, be subject to fine or imprisonment, or both, as prescribed by 22 U.S.C. 2778(c).

7. Part 127 is further amended by adding new §§ 127.07, 127.08, 127.09 and 127.10, reading as follows:

§ 127.07 Debarment.

(a) *Debarment orders.* The Director, Bureau of Politico-Military Affairs, is authorized to debar (prohibit) any person from participating directly or indirectly in the export of articles or technical data for which license or approval is required by this subchapter for any of the causes listed below when to do so is important for the maintenance of the regulatory scheme. The following are cause for debarment.

(1) Conviction of a criminal offense as defined in § 127.03.

(2) The violation of 22 U.S.C. 2778 or of any rule or regulation issued thereunder when such a violation is of such character as to provide a reasonable basis to believe and determine that the violator cannot be relied upon to comply with the statute, rules, or regulations in the future, and when such a violation is established in accordance with §§ 128.02 through 128.16 of this chapter.

(3) The violation of any provision of 22 U.S.C. 2778, or of any rule or regulation issued thereunder when, because it is a second or subsequent violation, it impels the belief that the violator cannot be relied upon to comply with the statute, rules or regulations in the future and when the violations are established in accordance with §§ 128.02 through 128.16 of this chapter.

(4) A decision by the Office of Export Administration, Bureau of East-West Trade of the Department of Commerce, to deny, suspend, or revoke export privileges to the person under 15 CFR 388.1 and the Export Administration Act of 1969 or to exclude the person from practice before the Bureau of East-West Trade under 15 CFR 390.2 and the Export Administration Act of 1969, where the Hearing Commissioner makes a further finding that the facts reasonably impel a decision that they form a reasonable basis for concluding that the person cannot be relied upon to comply in the future with 22 U.S.C. 2778, or with the rules or regulations issued thereunder.

(b) *Motions to vacate or modify.* A person who has been debarred for more

than 12 months may petition the Hearing Commissioner to vacate or modify the order of debarment. The petition must be filed with the Hearing Commissioner, and a copy simultaneously filed with the Office of Munitions Control, Department of State. In his discretion, the Hearing Commissioner may require the submission of evidence and arguments, oral or written or both. The Hearing Commissioner, after considering the motion and any evidence and arguments with respect thereto, shall at the earliest practicable date submit his report and recommendations to the Director, Bureau of Politico-Military Affairs, Department of State. The Director may issue an appropriate order disposing of the motion and the moving party will be informed.

§ 127.08 Interim suspension.

(a) *Interim suspension orders.* The Director of the Office of Munitions Control is authorized to order the interim suspension of any person, prohibiting that person from participating directly or indirectly in the export of any article or technical data for which a license or approval is required by this subchapter, when he believes grounds for debarment as defined in § 127.07 exist, and where and to the extent he finds interim suspension is reasonably necessary to protect world peace or the national security or foreign policy of the United States, pending final disposition of debarment proceedings. The suspended person shall be sent a charging letter as provided in § 128.03 of this chapter. A copy of the interim suspension order will be served upon him in the same manner as provided in § 128.07 of this chapter for service upon him of a charging letter. The interim suspension order may be made effective immediately, without prior notice or hearing. The order will briefly recite the relevant facts, state the grounds for issuance of the order, and describe the nature and duration of the interim suspension. No person may be suspended for a period exceeding 60 days unless proceedings under §§ 128.02 through 128.16 of this chapter or criminal proceedings are initiated before the expiration of that period.

(b) *Motions to vacate or modify.* A motion or petition to vacate or modify an interim suspension order may be filed at any time with the Hearing Commissioner, and a copy shall be filed with the Office of Munitions Control, Department of State. An oral hearing, if requested, will be held before the Hearing Commissioner at the earliest practicable date. The Hearing Commissioner, after considering the assembled record, will submit his report and recommendations to the Director, Bureau of Politico-Military Affairs, Department of State. The Director will issue an appropriate order disposing of the motion or petition and will promptly inform the respondent accordingly.

(c) *Deferment of action on license applications otherwise prohibited.* Except for the particular application or license which is itself the basis of any investigation or proceeding, no license application filed by any person may be returned without action, held without action, or rejected, solely because such person is under investigation, or because proceedings against him are pending, other than in accordance with the terms of an interim suspension order issued under § 127.08(a).

§ 127.09 Applicability of orders.

For the purpose of preventing evasion, orders of the Director, Bureau of Politico-Military Affairs, debarring a person under § 127.07, and orders of the Director, Office of Munitions Control, suspending a person under § 127.08, may be made applicable to any other person who may then or thereafter (during the term of the order) be related by affiliation, ownership, control, position of responsibility, or other commercial connection. Appropriate notice and opportunity to respond to charges will be given.

§ 127.10 Civil penalty.

(a) The Director, Bureau of Politico-Military Affairs, is authorized to impose a civil penalty in an amount not to exceed that authorized by 50 U.S.C. 2405 (c) for each violation of 22 U.S.C. 2778, or any regulation, order, license or approval issued thereunder. This civil penalty may be either in addition to, or in lieu of, any other liability or penalty which may be imposed.

(b) The Office of Munitions Control may make the payment of a civil penalty under this section a prior condition for the issuance, restoration, or continuing validity of any export license.

8. Part 128 is revised to read as follows:

PART 128—ADMINISTRATIVE PROCEDURES

Sec.
- 128.01 Exclusion of functions from Administrative Procedure Act.
- 128.02 Hearing Commissioner.
- 128.03 Institution of administrative proceedings.
- 128.04 Default.
- 128.05 Answer and demand for oral hearing.
- 128.06 Discovery.
- 128.07 Prehearing conference.
- 128.08 Hearings.
- 128.09 Proceedings before and report of Hearing Commissioner.
- 128.10 Disposition of proceedings.
- 128.11 Consent orders.
- 128.12 Rehearings.
- 128.13 Appeals.
- 128.14 Proceedings confidential.
- 128.15 Orders containing probationary periods.
- 128.16 Extension of time.
- 128.17 Availability of orders.

AUTHORITY: Sec. 38, 90 Stat. 744 (22 U.S.C. 2778); sec. 601, as amended, 47 Stat. 417 (31 U.S.C. 686); E.O. 11958, (42 FR 4311, January 18, 1977).

§ 128.01 Exclusion of functions from Administrative Procedure Act.

The functions conferred by Section 38 of the Arms Export Control Act are excluded from 5 U.S.C. §§ 553 and 554.

§ 128.02 Hearing Commissioner.

The Hearing Commissioner referred to herein is the Hearing Commissioner, Bureau of East-West Trade, U.S. Department of Commerce, as provided in 15 CFR 388.2. The Hearing Commissioner is authorized to exercise the powers and perform the duties provided for in §§ 128.03 through 128.16.

§ 128.03 Institution of administrative proceedings.

(a) *Charging letters.* The Director, Office of Munitions Control, with the concurrence of the Office of the Legal Adviser, may initiate debarment proceedings in accordance with § 127.07 of this chapter or civil penalties in accordance with § 127.10 of this chapter. The charging letter will state the essential facts constituting the alleged violation, refer to the regulatory or other provisions involved, and give notice that, if the respondent is found to have committed the alleged violation, he may be prohibited from participating in the export of any article or technical data for which a license or approval is required by this subchapter, or that civil penalties may be imposed. The charging letter will require the respondent to answer the charges within 30 days, as provided in § 128.05(a), and that failure to answer will be taken as an admission of the truth of the charges. It will inform the respondent that he is entitled to an oral hearing if he files a written demand therefor with his answer or within 7 days after service of his answer, and that he may, if he so desires, be represented by counsel of his own choosing. Charging letters may be amended from time to time, upon reasonable notice.

(b) *Service.* A charging letter is served upon a respondent: (1) If he is a resident of the United States, when mailed in a wrapper addressed to him at his last known address, or when left with him or his agent or employee, or when left at his dwelling with some person of suitable age and discretion than residing therein; or (2) if he is a non-resident of the United States, when served upon him by any of the foregoing means, or if such method of service is not practicable or appropriate by reason of arrangements or understandings between the U.S. Government and the government of the country wherein the respondent resides, when it is tendered for service on him to an official of the government of the country wherein he resides.

§ 128.04 Default.

(a) *Failure to answer.* If the respondent fails to answer the charging letter he may be held in default and the case shall be referred to the Hearing Commissioner for consideration in a manner as he may consider appropriate. Any order issued shall have the same effect as an order issued following the disposition of contested charges.

(b) *Petition to set aside defaults.* Any respondent against whom a default order has been issued may apply, upon good cause shown, together with evidentiary data in support thereof, to set aside his default and vacate the order entered thereon. The petition shall be submitted in duplicate to the Director, Bureau of Politico-Military Affairs, U.S. Department of State, 2201 C Street, NW., Washington, D.C. 20520. The Director will refer

the petition to the Hearing Commissioner for consideration and recommendation. The Hearing Commissioner will consider the application and may order a hearing and/or require the respondent to submit further evidence in support of his petition. The filing of a petition to set aside a default does not in any manner affect an order entered upon default and such order continues in full force and effect unless a further order is made modifying or terminating it.

§ 128.05 Answer and demand for oral hearing.

(a) *When to answer.* The respondent is required to answer the charging letter within 30 days after service.

(b) *Contents of answer.* An answer must be responsive to the charging letter and must fully set forth the nature of the respondent's defense or defenses. In his answer, respondent must admit or deny specifically each separate allegation of the charging letter, unless the respondent is without knowledge, in which case, his answer shall so state and the statement shall operate as a denial. Failure to deny or controvert any particular allegation will be deemed an admission thereof. The answer may set forth such additional or new matter as respondent believes supports a defense or claim of mitigation. Any defense or partial defense not specifically set forth in an answer shall be deemed, waived, and evidence offered thereon by the respondent at a hearing may be refused except upon good cause shown. If the respondent does not demand an oral hearing, he shall transmit, within 7 days after the service of his answer, original or photocopies of all correspondence, papers, records, affidavits, and other documentary or written evidence having any bearing upon or connection with the matters in issue and, if any such materials be in a language other than English, translations into English shall be submitted at the same time.

(c) *Submission of answer.* The answer, written demand for oral hearing, if any, and supporting evidence required by § 128.05(b) shall be in duplicate and mailed or delivered to the Hearing Commissioner, Bureau of East-West Trade, U.S. Department of Commerce, Washington, D.C. 20230. A copy shall be simultaneously served on the Director, Office of Munitions Control, Department of State, Washington, D.C. 20520.

§ 128.06 Discovery.

(a) *Discovery by the respondent.* The respondent, through the Hearing Commissioner, may request from the Office of Munitions Control any relevant information, not privileged, that may be necessary or helpful in preparing a defense. The Office of Munitions Control may supply summaries in place of original documents or may withhold information from discovery if the interests of national security so require, or if necessary to comply with any statute, executive order or regulation requiring that information not be disclosed. The respondent may request the Hearing Commissioner to request any relevant information, books, records, or other evidence, from any other person or government agency so long as the request is reasonable in scope and not unduly burdensome.

(b) *Discovery by the Office of Munitions Control.* The Office of Munitions Control or the Hearing Commissioner may request from the respondent admissions of facts, answers to interrogatories, the production of books, records, or other relevant evidence, so long as the request is relevant and material, reasonable in scope and not unduly burdensome.

(c) *Subpoenas.* At the request of any party, the Hearing Commissioner may issue subpoenas, returnable before him, requiring the attendance of witnesses and the production of books, records and other documentary or physical evidence determined by the Hearing Commissioner to be relevant and material to the proceedings, reasonable in scope and not unduly burdensome.

(d) *Enforcement of discovery rights.* If the Office of Munitions Control fails to provide the respondent with adequate information to prepare a defense, the Hearing Commissioner may dismiss the charges of his own motion or on motion of the respondent. If the respondent fails to respond with reasonable diligence to the requests for discovery by the Office of Munitions Control or the Hearing Commissioner, the Commissioner, on his own motion or motion of the Office of Munitions Control, and upon such notice to the respondent as the Hearing Commissioner may direct, may strike respondent's answer and declare him in default, or make any other ruling which he deems necessary and just under the circumstances. If a third party fails to respond to requests for information, the Hearing Commissioner shall consider whether the evidence sought is necessary to a fair hearing, and if it is so necessary that a fair hearing may not be held without it, he shall dismiss the charges.

§ 128.07 Prehearing conference.

(a) The Hearing Commissioner may, upon his own motion or upon motion of any party, request the parties or their counsel to a prehearing conference to consider (1) simplification of issues; (2) the necessity or desirability of amendments to pleadings; (3) obtaining stipulations of fact and of documents to avoid unnecessary proof; or (4) such other matter as may expedite the disposition of the proceeding. The Hearing Commissioner will prepare a summary of the action agreed upon or taken at the conference, and will incorporate therein any written stipulations or agreements made by the parties. The conference proceedings may be recorded magnetically or taken by a reporter and transcribed, and filed with the Hearing Commissioner.

(b) If a conference is impracticable, the Hearing Commissioner may request the parties to correspond with him to achieve the purposes of a conference. The Hearing Commissioner shall prepare a summary of action taken as in the case of a conference.

§ 128.08 Hearings.

(a) A respondent who had not filed a timely written answer is not entitled to a hearing, and the case may be considered by the Hearing Commissioner as provided in § 128.04(a). If an answer is filed, but no oral hearing demanded, the Hearing Commissioner may proceed to consider the case upon the written pleadings and evidence available, and he may provide for the making of the record in such manner as he deems appropriate. If respondent answers and demands an oral hearing, the Hearing Commissioner, upon due notice, shall set the case for hearing, unless a respondent has raised in his answer no issues of material fact to be determined. If respondent fails to appear at a scheduled hearing, the hearing nevertheless may proceed in his absence, and respondent's failure to appear will not affect the validity of the hearing or any proceedings or action thereafter.

(b) Hearings will be conducted by the Hearing Commissioner in a fair and impartial manner. The rules of evidence prevailing in courts of law do not apply, but all evidentiary material relevant and material to the inquiry will be received and given appropriate weight. Diligent effort shall be made to declassify or to secure unclassified summaries or extracts of classified materials, when not contrary to any statute or security regulation. The Hearing Commissioner will compare an unclassified summary or extract with the related classified materials. If he finds that the summary or extract is supported by the classified materials and omits only so much as remains classified, he may admit the unclassified summary or extract as part of the record, to the extent such summary or extract is relevant and material. The respondent may submit evidence in explanation or contradiction thereof. The respondent is not entitled to inspect classified materials.

(c) The Hearing Commissioner may administer oaths and affirmations. Respondent may be represented by counsel. Unless otherwise agreed by the parties and the Hearing Commissioner, the proceeding will be taken by a reporter or by magnetic recording, transcribed, and filed with the Hearing Commissioner. Respondent may examine the transcript and may obtain a copy upon payment of proper costs.

§ 128.09 Proceedings before and report of Hearing Commissioner.

(a) The Hearing Commissioner may conform any part of the proceedings before him to the Federal Rules of Civil Procedure. The record may be made available in any other proceeding involving the same respondent.

(b) The Hearing Commissioner, after considering the record, will prepare a written report. The report will include findings of fact, findings of law, a finding whether a law or regulation has been violated, and the Hearing Commissioner's recommendations and shall be transmitted to the Director, Bureau of Politico-Military Affairs, Department of State.

§ 128.10 Disposition of proceeding.

Where the evidence is not sufficient to support the charges, the Director, Office of Munitions Control, or the Hearing Commissioner, will dismiss the charges. Where the Hearing Commissioner finds that a violation has been committed, his recommendation shall be advisory only, and the Director, Bureau of Politico-Military Affairs will review the record, consider the report of the Hearing Commissioner, and make appropriate disposition of the case. He may issue an order debarring the respondent from participating in the export of articles or technical data on the U.S. Munitions List as provided in § 127.07 of this chapter, or imposing a civil penalty as provided in § 127.10 of this chapter, or take such other action as he deems appropriate. Any debarment order will be effective for the period of time specified therein and may contain such additional terms and conditions as are deemed appropriate. A copy of the order together with a copy of the Hearing Commissioner's report will be served upon the respondent.

§ 128.11 Consent orders.

The Office of Munitions Control, and the respondent may, by agreement, submit to the Hearing Commissioner a proposal for the issuance of a consent order. The Hearing Commissioner will review the facts of the case and the proposal and may conduct conferences with the parties and may require the presentation of evidence in the case. If he does not approve the proposal, he will notify the parties and the case will proceed as though no consent proposal had been made. If he approves the proposal, he will report the facts of the case with his recommendations to the Director, Bureau of Politico-Military Affairs. If the Director does not approve the proposal, the case will proceed as though no consent proposal had been made. If he approves the proposal, the Director may issue an appropriate order.

§ 128.12 Rehearings

The Hearing Commissioner may grant a rehearing or reopen a proceeding at any time for the purpose of hearing any relevant and material evidence which was not known or obtainable at the time of the original hearing. A request for rehearing or reopening must contain a summary of such evidence, and must explain the reasons why it could not have been presented at the original hearing. The Hearing Commissioner will advise the parties of any further hearing, and will conduct such hearing and submit his report and recommendations in the same manner as provided for the original proceeding as described in § 128.10.

§ 128.13 Appeals.

(a) *Filing of appeals.* An appeal must be in writing, addressed to and filed with the Appeals Board, U.S. Department of Commerce, Washington, D.C. 20230. An appeal from a final order denying export privileges or imposing civil penalties must be filed within 30 days after receipt of a copy of the order.

(b) *Grounds and conditions for appeal.* The respondent may appeal from a debarment or from the imposition of a civil penalty upon the ground (1) that the findings of violation are not supported by any substantial evidence, (2) that prejudicial error of law was committed, or (3) that the provisions of the order are arbitrary, capricious, or an abuse of discretion. The appeal must specify upon which of these grounds the appeal is based and must indicate from which provisions of the order the appeal is taken. An appeal from an order issued upon default will not be entertained if the respondent has failed to seek relief as provided in § 128.04(b).

(c) *Matters considered on appeal.* An appeal will be considered upon the basis of the assembled record, consisting of, but not limited to the charging letter, respondent's answer, the transcript or magnetic recording of the hearing before the Hearing Commissioner, the report of the Hearing Commissioner, the order of the Director, Bureau of Politico-Military Affairs, and any other relevant documents involved in the proceedings before the Hearing Commissioner. The Appeals Board may direct a rehearing and reopening before the Hearing Commissioner if it finds that the record is insufficient or that new evidence is relevant and material to the issues and was not known and was not available to the respondent at the time of the original hearing. The Appeals Board may order oral argument before it, but shall not consider facts or arguments relating to the policy embodied in rules or regulations alleged to have been violated.

(d) *Effect of appeals.* The taking of an appeal will not stay the operation of any order.

(e) *Preparation of appeals.* (1) *General requirements.* An appeal shall be clearly marked "Ref: Appeals Board for the U.S. Department of Commerce, Washington, D.C. 20230," and shall be in letter form. The appeal and accompanying material should be filed in duplicate, unless otherwise indicated, and a copy simultaneously served on the Director, Office of Munitions Control, Department of State, Washington, D.C. 20520. If the submission of two copies of all accompanying documents or exhibits would place an undue burden on the petitioner, waiver of this rule may be requested at the time the request is filed.

(2) *Oral presentation.* The Appeals Board may grant the appellant an opportunity for oral argument. The Appeals Board will set the time and place for oral argument and will notify the parties, ordinarily at least 10 days before the date set.

(3) *Records.* Records on appeal will be made available for inspection and copying by the appellant or his duly authorized representative, upon written application. The application should be made to the Appeals Board, U.S. Department of Commerce, Washington, D.C. 20230. It must identify the material or information to be inspected or copied, and the purposes for which it is sought.

(f) *Decisions.* All appeals will be considered and decided within a reasonable time after they are filed. An appeal may be granted or denied, in whole or in part, or dismissed at the request of the appellant. The decision of the Appeals Board will be final.

§ 128.14 Proceedings confidential.

Proceedings under this Part are confidential, excepting any orders issued therein. Reports of the Hearing Commissioner and copies of transcripts or recordings of hearings will be available to parties and, to the extent of their own testimony, to witnesses. All records are available to any U.S. Government agency showing a proper interest therein.

§ 128.15 Orders containing probationary periods.

(a) *Revocation of probationary periods.* A debarment or interim suspension order may set a probationary period during which the order may be held in abeyance for all or part of the debarment or suspension period, subject to conditions stated therein. The Director, Office of Munitions Control, without notice to any person to be affected thereby, may apply to the Hearing Commissioner for an order revoking probation when it appears the conditions of the probation have been breached. The facts in support of the application will be presented to the Hearing Commissioner who will report thereon, and make a recommendation to the Director, Bureau of Politico-Military Affairs. The Director, Bureau of Politico-Military Affairs will make a determination whether to revoke probation and will issue an appropriate order.

(b) *Hearing.*—(1) *Objections upon notice.* Any person affected by an application upon notice to revoke probation, within the time specified in the notice, may file objections with the Hearing Commissioner.

(2) *Objections to order without notice.* Any person adversely affected by an order revoking probation without notice may request that the order be set aside by filing his objections thereto with the Hearing Commissioner. The request will not stay the effective date of the order or revocation.

(3) *Requiremen's for filing objection.* Objections filed with the Hearing Commissioner must be submitted in writing and in duplicate, and a copy must be simultaneously served on the Office of Munitions Control, Department of State. Denials and admissions, as well as the facts of any mitigating circumstances, which the person affected intends to present must be set forth in or accompany the letter of objection and must be supported by evidence. A request for an oral hearing may be made at the time of filing objections.

(4) *Determination.* The application and objections thereto will be referred to the Hearing Commissioner. An oral hearing, if requested, will be conducted at an early convenient date, unless the objections filed raise no issues of material fact to be determined. The Hearing

Commissioner will report the facts and make a recommendation to the Director, Bureau of Politico-Military Affairs, who will determine whether the application should be granted or denied and will issue an appropriate order. A copy of the order and of the Hearing Commissioner's report will be furnished to any person affected thereby.

(c) *Effect of revocation on other actions.* The revocation of a probationary period will not preclude any other action concerning a further violation, even where revocation is based on the further violation.

§ 128.16 Extension of time.

The Hearing Commissioner, for good cause shown, may extend the time within which to prepare and submit an answer to a charging letter or do any other act required by this Part 128.

§ 128.17 Availability of orders.

All debarment orders, orders imposing civil penalties, probationary periods, and interim suspension orders are available for public inspection in the Public Reading Room of the Department of State.

NOTE: The recordkeeping and reporting requirements contained in Subchapter M have been approved by the Office of Management and Budget in accordance with 44 U.S.C. 3509.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES

[T.D. 7505]

PART 41—EXCISE TAX ON USE OF CERTAIN HIGHWAY MOTOR VEHICLES

Extension of Highway Motor Vehicle Use Tax

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document provides final regulations relating to the excise tax imposed on the use of certain highway motor vehicles on public highways in the United States. Changes to the applicable tax law were made by the Act of May 5, 1976. These regulations affect all who are subject to the tax and provide them with the guidance needed to comply with the law.

DATE: The regulations are effective immediately.

FOR FURTHER INFORMATION CONTACT:

Mark L. Yecies of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3328).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains amendments to the Highway Motor Vehicle Use Tax Regulations (26 CFR Part 41), relating to the tax imposed by subchapter D of chapter 36 of the Internal Revenue Code of 1954 and to certain related administrative provisions of subtitle F of the Internal Revenue Code. Sections 303(a)(7) through (10) of the Act of May 5, 1976 (Pub. L. 94-280, 90 Stat. 456), extended the imposition of the highway motor vehicle use tax until September 30, 1979. The amendments contained in this document conform the regulations to these sections. In addition, the amendments revise the regulations to provide that they will continue to apply without need of further amendment if the highway motor vehicle use tax is extended beyond September 30, 1979.

DRAFTING INFORMATION

The principal author of this regulation was Mark L. Yecies of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

Accordingly, 26 CFR Part 41 is amended as follows:

Paragraph 1. Section 41.0-3 is amended to read as follows:

§ 41.0-3 Scope of regulations.

The regulations in this part apply to the use of certain highway motor vehicles on the public highways in the United States after June 30, 1956, and before the date the tax imposed by section 4481(a) ceases to apply.

§ 41.4481 [Deleted]

Par. 2. Section 41.4481 is deleted.

Par. 3. Section 41.4481-1 is amended as follows:

(1) Paragraph (b) is amended by deleting "1977" each time it appears and inserting in lieu thereof "1979", and by adding, as the last sentence, a flush sentence as set forth below. (2) Paragraph (c)(1) is amended by deleting "as shown" and inserting in lieu thereof "as provided". (3) Paragraph (c)(2) is amended by deleting everything after the second sentence. (4) Paragraph (d) is amended by deleting, "or, if computed by alternative method, 30×25 cents×11" from the parenthetical clause in the last sentence of example (2).

§ 41.4481-1 Imposition of tax.

* * * * * *

(b) *Rate of tax.* * * * In the event the tax imposed by section 4481(a) is extended to apply to use after September 30, 1979, the rate of tax in effect for taxable periods beginning after June 30, 1979, shall be as provided in section 4481(a).

* * * * * *

§ 41.4482(a) [Deleted]

Par. 4. Section 41.4482(a) is deleted.

§ 41.4482(b) [Deleted]

Par. 5. Section 41.4482(b) is deleted.

§ 41.4482(c) [Deleted]

Par. 6. Section 41.4482(c) is deleted.

Par. 7. Paragraph (b) of § 41.4482 (c)-1 is amended by deleting "1977" each time it appears and inserting in lieu thereof "1979", and by adding, as the last sentence, a sentence to read as follows:

§ 41.4482(c)-1 Definition of State, taxable period and use.

* * * * * *

(b) *Taxable period.* * * * In the event the tax imposed by section 4481(a) is extended to apply to use after September 30, 1979, the term "taxable period" shall means (1) any one-year period beginning with July 1 and ending with the following June 30 during which the tax applies, and (2) the period, if any, less than one year in length beginning with July 1 and ending with the date the tax ceases to apply.

* * * * * *

§ 41.6156 [Deleted]

Par. 8. Section 41.6156 is deleted.

Par. 9. Paragraph (f) of § 41.6156-1 is amended to read as follows:

§ 41.6156-1 Installment payments of tax on use of highway motor vehicles.

* * * * * *

(f) *Liabilities to which election does not apply.* The privilege to pay tax in installments provided by section 6156, shall not apply to any liability for tax incurred in

(1) Any taxable period ending prior to July 1, 1961, and

(2) April, May, or June of any taxable period one year in length, or

(3) July, August, or September of a taxable period less than one year in length.

* * * * * *

The amendments made by this Treasury decision are technical amendments designed to conform the regulations to the extension of the highway motor vehicle use tax until September 30, 1979, by sections 303(a)(7) through (10) of the Act of May 5, 1976 (Pub. L. 94-280, 90 Stat. 456). For this reason, it is unnecessary to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved: August 18, 1977.

LAURENCE N. WOODWORTH,
Assistant Secretary of the Treasury.

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

SUBCHAPTER M—MISCELLANEOUS

PART 191—THE DEPARTMENT OF DEFENSE EQUAL OPPORTUNITY PROGRAM

Reissuance of the Department of Defense, Equal Opportunity Program

Correction

In FR Doc. 77-14667 appearing at page 26422 in the issue for Tuesday, May 24, 1977, the FR page number in the last line of the summary paragraph in the middle column, page 26422, now reading "(35 FR 1976)", should read "(35 FR 19576)".

Title 41—Public Contracts and Property Management

CHAPTER 114—DEPARTMENT OF THE INTERIOR

PART 114-60—PERSONAL PROPERTY MANAGEMENT

Identification

AGENCY: Office of the Secretary, Interior.

ACTION: Final regulations.

SUMMARY: This document corrects a number of citations so they will be current, and deletes material containing inapplicable references. It also clarifies the meaning of the term "other agreements" as used in the property management standards for grants, and adds information about an OMB waiver to the requirement for including the copyright provision in certain grant agreements.

DATE: This amendment is effective immediately.

FOR FURTHER INFORMATION CONTACT:

James O. Wyatt, Chief, Division of Property Management, Office of Administrative and Management Policy, Department of the Interior, Washington, D.C. 20240, telephone No. 202-343-3185.

SUPPLEMENTARY INFORMATION: Because this amendment relates only to internal Departmental procedures, the proposed rulemaking procedures are inapplicable. The primary author of this document is Charles H. Young, Property Management Officer, Office of Administrative and Management Policy, telephone No. 202-343-3185.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

AUGUST 17, 1977.

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and 40 U.S.C. 486(c), Chapter 114, Title 41 of the Code of Federal Regulations is amended as set forth below.

Subpart 114-60.3—Identification of Personal Property

§ 114-60.300 [Amended]

Section 114-60.300 is amended by revising the IPMR reference in the second line to read as follows: "(see IPMR 114-60.100)."

Section 114-60.303 is amended by deleting paragraphs (b) and (c), and paragraph (d) is renumbered (b) to read as follows:

§ 114-60.303 Items requiring special identification.

* * * * * *

(b) *Livestock.* Livestock shall be branded or marked in some acceptable manner to indicate Government ownership.

§ 114-60.901 [Amended]

Section 114-60.901(b)(1) is amended by revising the IPMR reference so the second line will read as follows: "(as defined in IPMR 114-43.001-50) to"

§ 114-60.902 [Amended]

Section 114-60.902(a)(2) is amended by changing the reference in the fifth line from 395 DM 4 to read 485 DM 4.

Section 114-60.1002(a) is amended by adding the following subparagraphs to read as follows:

§ 114-60.1002 Educational institution.

* * * * * *

(a) * * *

(1) As used in this subpart, the term "grant" means money or property provided in lieu of money paid or furnished by the Federal Government to recipients under programs that provide financial assistance or that provide support or stimulation to accomplish a public purpose. The term "other agreements" does not include contracts which are required to be entered into and administered under procurement laws and regulations (see paragraph 6 of OMB Circular No. A-110).

(2) The Office of Management and Budget has granted a waiver to the copyright provision set forth in sec. 8.b., Attachment N, OMB Circular No. A-110. This waiver permits agencies not to require inclusion of this provision when the grants or other agreements are for the purpose of educating or training students in a particular career field or specialized area.

* * * * * *

[FR Doc.77-24543 Filed 8-24-77;8:45 am]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 101—PROFESSIONAL STANDARDS REVIEW

Professional Standards Review Areas

AGENCY: Health Care Financing Administration, (HCFA), HEW.

ACTION: Final regulation.

SUMMARY: This regulation redesignates Professional Standards Review Areas in Ohio. Area VI is redesignated to include only counties of Summit and Portage, and a new Area XIII is established to include the counties of Stark, Trumbull, Mahoning, and Columbiana. As a result of the redesignation, Area VI will be congruent with Health Service Area VIII and both Areas VI and XIII will better coincide with the local medical service areas in northeastern Ohio.

EFFECTIVE DATE: These regulations are effective August 25, 1977.

FOR FURTHER INFORMATION CONTACT:

Al Salazar, Room 13A-19, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-6477.

SUPPLEMENTARY INFORMATION: On March 30, 1977, the Department published a Notice of Proposed Rulemaking in the FEDERAL REGISTER (42 FR 16839) to redesignate PSRO Area VI in Ohio to include only the counties of Summit and Portage and to establish a new PSRO Area XIII composed of Stark, Trumbull, Mahoning, and Columbiana Counties. Interested persons were invited to submit written comments, suggestions, or objections on or before May 15, 1977.

One comment was received. It suggested that Ashtabula County be added and Stark County deleted from the proposed new area XIII. The inclusion of Ashtabula in Area XIII would not, in our view, result in a PSRO Area which better coincides with the local medical service areas. Neither the Ohio State Medical Association medical service areas nor the Standard Metropolitan Statistical areas for northeastern Ohio combine Ashtabula County with the counties of Trumbull, Mahoning, and Columbiana. Furthermore, residents of the counties of Trumbull, Mahoning, and Columbiana generally seek their secondary medical care in Youngstown located in Mahoning County. Finally, although the suggested change would make the new Area XIII congruent with the Ohio Health Service Area X, established under the National Health Planning and Resources Development Act of 1974 (Pub. L. 93-641) it would also, by adding Stark County to Area VI, make the proposed Area VI less congruent with Health Service Area VIII. For these reasons, the suggestion was rejected, and the proposed redesignation is adopted.

Accordingly, 42 CFR 101.39 is amended to read as follows:

§ 101.39 Ohio.

Ohio. Thirteen Professional Standards Review Organization Areas are designated in Ohio composed of the following counties:

	AREA I
Butler	Clermont
Warren	Brown
Clinton	Highland
Hamilton	Adams
	AREA II
Darke	Clark
Shelby	Preble
Champaign	Montgomery
Miami	Green
	AREA III
Van Wert	Hardin
Allen	Logan
Hancock	Wyandot
Seneca	Crawford
Mercer	Marion
Auglaize	
	AREA IV
Williams	Henry
Fulton	Wood
Lucas	Sandusky
Ottawa	Paulding
Defiance	Putnam
	AREA V
Lake	Ashtabula
Geauga	
	AREA VI
Summit	Portage
	AREA VII
Coshocton	Harrison
Tuscarawas	Belmont
Carroll	Monroe
Jefferson	
	AREA VIII
Licking	Morgan
Muskingum	Noble
Guernsey	Athens
Fairfield	Washington
Perry	
	AREA IX
Hocking	Jackson
Vinton	Gallia
Meigs	Scioto
Pike	Lawrence
	AREA X
Morrow	Franklin
Knox	Fayette
Union	Pickaway
Delaware	Ross
Madison	
	AREA XI
Erie	Richland
Lorain	Ashland
Huron	Wayne
Medina	Holmes
	AREA XII
Cuyahoga	
	AREA XIII
Stark	Mahoning
Trumbull	Columbiana

AUTHORITY: Section 1102, Social Security Act, 49 Stat. 647 (42 U.S.C. 1302); Section 1152, Social Security Act, 86 Stat. 1430 (42 U.S.C. 1320c–1).

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 as amended by Executive Order 11949 and OMB Circular A–107.

Dated: July 21, 1977.

ROBERT A. DERZON,
Administrator, Health Care Financing Administration.

Approved: August 19, 1977.

HALE CHAMPION,
Acting Secretary.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19897; RM–2020; RM–2064; RM–2113; RM–2177; RM–2226; RM–2264; RM–2288; RM–2299; RM–2305; RM–2313; RM–2381; RM–2404; RM–2487; RM–2527]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Batesville, Cherokee Village, Dumas, Lonoke, Malvern, Morrilton, Mountain View, Ozark, Russellville, Sheridan and Van Buren, Arkansas

AGENCY: Federal Communications Commission.

ACTION: Report and Order.

SUMMARY: This action assigns first FM channels to 10 communities in Arkansas and deletes one FM channel from another Arkansas community. In making these assignments, we placed primary importance on providing for as much first FM service and first local service as possible. Certain proposals requesting additional channels at Little Rock and Pine Bluff, Arkansas, were denied due to conflicts with more favorable proposals and a failure in some cases on the part of proponents to offer reimbursement for necessary channel changes.

EFFECTIVE DATE: October 3, 1977.

ADDRESSES: Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mark N. Lipp, Broadcast Bureau, 202–632–7792.

SUPPLEMENTARY INFORMATION: Proposals for FM assignments at Fayetteville and Springdale, Arkansas, are held pending further data in a separately released Request for Supplemental Information, adopted August 19, 1977, released August 24, 1977.

In the matter of amendment of § 73.–202(b), Table of Assignments, FM Broadcast Stations. (*Little Rock, Benton, Batesville and Mountain View, Arkansas. Also Cherokee Village, Dardanelle, Dumas,* Fayetteville, *Lonoke, Malvern, Morrilton, Ozark,*[1] *Pine Bluff, Russellville, Sheridan,* Springdale,[1] *and Van Buren, Arkansas, and Neosho, Missouri*) First report and order (40 FR 34614).

Adopted: August 16, 1977.

Released: August 24, 1977.

By the Chief, Broadcast Bureau:

1. The Commission here considers the proposals and counterproposals for amending the FM Table of Assignments which were consolidated and advanced for public comment in the Notice of Proposed Rule Making, released November 27, 1973 (38 FR 32945) and in the Further Notice of Proposed Rule Making and Order to Show Cause,[2] released on April 24, 1975 (40 FR 18452). The petitioning parties and other proponents of the plans advanced for consideration are identified in Apendix A. All parties filing comments or reply comments in response to the Notices are listed in Appendix B. Pertinent data on available local radio services and on population (based on 970 U.S. Census reports) for the communities and their respective counties are given in Appendix C.

2. There are certain late filings to be considered for acceptance before discussing the merits of the proposals before us. The late filing of initial comments by Arkansas Television Company (licensee of KTHV, TV Channel 11, Little Rock) and of reply comments by it and Betty Wetenkamp (the Cherokee Village proponent) will be accepted. The late reply comments contain no new arguments which could prejudice other parties, and they are of assistance in analysis of this proceeding. Arkansas Television Company's late filed initial comments can also be accepted. The time of filing did not delay the proceeding since an extension of time had previously been given to file reply comments. However, a letter from Kermit Richardson (KBOK-Malvern Broadcasting Company, licensee of KBOK(AM), Malvern, Arkansas) cannot be accepted because it was filed almost a year late and, as a result, other interested parties did not have any opportunity to respond.

3. Before turning to the specific proposals, one preliminary matter requires consideration. Arkansas Television Company, licensee of TV Station KTHV (Channel 11), Little Rock, contends that certain assignments proposed in this proceeding could cause second harmonic interference to the reception of its station in parts of its coverage area. It requests that any such assignments not be made, and it lists twelve communities where it says the potential for interference exists. However, foreclosing otherwise warranted assignments on this basis is inappropriate and would be in conflict with the Commission's policy in such potential interference cases as stated in the Public Notice of September 1, 1967

[1] These communities have been added to the caption.

[2] The Order to Show Cause was served upon Snider Corporation, Licensee of FM Station KKYK, Channel 279, Little Rock, Arkansas, in regard to the proposed modification of its license to specify Channel 282 at Little Rock.

(FCC 67–1012). The FM permittees would be called upon to follow a procedure which is outlined in the Public Notice in order to reduce or eliminate interference problems. See also Brazil and Rockville, Indiana, 43 F.C.C 2d 650 (1973).

4. The initial Notice dealt only with the proposals of the petitioning parties for Little Rock, Benton, Mountain View, and Batesville, Arkansas. Based upon the proposals of these petitioners, the Notice invited comments on one proposal and five alternative plans involving assignments for these communities.

5. The Further Notice consolidated for consideration these proposals with other conflicting and interrelated proposals for a number of other Arkansas communities as well as a proposal for Neosho, Missouri. At that point, the proposals before the Commission were as follows:

City	Channel No.	
	Present	Proposed
Batesville, Ark		224A, 228A, 240A, 277 or [1] 268.
Benton, Ark	296A	226 or 269A.
Cherokee Village, Ark		265A or 296A.
Dardanelle, Ark	272A	271.
Dumas, Ark		296A.
Fayetteville, Ark	221A, 280A	221A, 281, 300.
Little Rock, Ark	231, 239, 253, 279	231, 239, 253, 282, and 226 or 285.
Lonoke, Ark		292A.
Malvern, Ark	269A	226.
Morrilton, Ark		269A or 278.
Mountain View, Ark		224A, 249A or [1] 277.
Pine Bluff, Ark	222, 235	222, 235, 257A or 295.
Russellville, Ark		242, 265A.
Sheridan, Ark		272A or 276A.
Van Buren, Ark		244A.
Neosho, Mo		257A or 300.

[1] Only 1 FM channel was proposed to be assigned to Batesville and to Mountain View from those suggested.

6. Additional counterproposals were advanced by commenting parties in response to the *Further Notice*, including the following:

(a) A proposal by Johnson Communications, Inc., the licensee of Station KCIZ(FM) (Channel 285A), Springdale, Ark., to substitute Class C Channel 300 for Channel 285A at Springdale, and to reassign Channel 285A to Van Buren, Arkansas, as a counterproposal to the Fayetteville and Neosho Channel 300 proposals.

(b) A proposal by Charles R. Crisler,[3] Greenwood, Arkansas, to assign Channel 272A to Van Buren is advanced as an alternative to a previous Van Buren Channel 244A proposal. Crisler states that he prefers Channel 272A because it would allow a transmitter site within the city. In addition, he notes that the assignment would have little or no preclusive effect upon other possible assignments. This Van Buren Channel 272A proposal would conflict with the Dardanelle Channel 271 proposal of Central Arkansas.

(c) A proposal by Crawford Broadcasters to assign Channel 237A to Van Buren by substituting Channel 292A for Channel 237A (unused) at Paris, Arkansas, as a preferred alternative to their initial Van Buren Channel 244A proposal. They prefer Channel 237A because it would allow use of a site closer to Van Buren than would Channel 244A.

(d) A proposal by Valley Communications, Inc., licensee of daytime-only AM Station KZRK, Ozark, to assign Channel 244A, Channel 269A or Channel 292A to Ozark, Arkansas, for a first FM assignment. The Channel 244A proposal (which Valley prefers) would conflict with the Van Buren Channel 244A proposal and the Russellville Channel 242 proposal. Its alternative Channel 269A proposal for Ozark would conflict with the Dardanelle Channel 271 proposal of Central Arkansas. Valley's alternative Channel 292A proposal for Ozark is free from any conflict.

(e) Comprehensive assignment plans to resolve conflicts among the proposals previously advanced are offered by Central Arkansas Broadcasting Company ("Central Arkansas") (proponent of the substitution of Channel 271 for Channel 272A, upon which it operates Station KWKK at Dardanelle), and by KCLA, Inc., licensee of AM Station KCLA, Pine Bluff (proponent of the Pine Bluff Channel 295 and Channel 278 proposals herein). The new Central Arkansas plan and the four alternative plans put forward for consideration by KCLA are set out in Appendix A. These plans will be discussed later as they relate to the specific communities.

7. Because of the need for additional information, the portion of this proceeding involving the communities of Fayetteville and Springdale, Arkansas, has been severed for additional consideration in a *Request for Supplemental Information* to be issued separately.[4] Therefore, no discussion of the proposals for those communities appears herein.

DECISION

8. While it has not been possible with the available FM channels to satisfy all the assignment requests that have been made for the above communities, we have considered all the requests and have compiled and considered numerous plans. We have been guided by the Commission's well settled policies and priorities in the assignment process and in doing so have sought to offer service to unserved and underserved areas where possible, to provide a first local service to as many communities as possible, and to assign additional channels where available to communities already having local service, while seeking to avoid intermixture of classes of channels. Pursuant to these principles, the following assignments have been made herein and a discussion of the reasons for these decisions will follow: first FM assignments will be made at Batesville (Channel 226), Cherokee Village (Channel 265A), Dumas (Channel 296A), Lonoke (Channel 292A), Morilton (Channel 269A), Mountain View (Channel 277), Ozark (Channel 244A), Russellville (Channel 265A), Sheridan (Channel 272A), and Van Buren (Channel 272A), all in Arkansas. All of these new assignments can be made in conformity with mileage spacing requirements and, with the exception of the Morrilton Channel 269A assignment requiring the deletion of the same channel at Malvern, can be made without changing any existing assignment or station. In addition, we are not ordering any change in the existing FM assignments at Little Rock or Dardanelle, as had been requested and we are denying requests made for additional Little Rock and Pine Bluff Class C assignments. A discussion of each decision, by community, follows:

9. *Little Rock.* Little Rock, the capital of and largest city in Arkansas, has a population of 123,483.[5] It has six AM and four FM stations and receives additional service from three AM stations—two at North Little Rock, Arkansas, and one at Jacksonville, Arkansas. A Class C FM station at Jacksonville also provides service. It would be consistent with our population criteria (which permits four to six assignments to communities with populations of 100,000 to 250,000[6]) to assign a fifth Class C channel to Little Rock and interest has been demonstrated by Carroll D. Caldwell and Arkansas Media Ventures for Channels 295 and 226. The Channel 295 proposal, advanced by Caldwell, would require the substitution of Channel 226 for Channel 296A at Benton. The Channel 226 proposal would require substitution of Channel 282 for Channel 279, occupied by Station KKYK (FM), at Little Rock.

10. The value of either of these alternatives would be to increase the number and diversity of radio outlets and services in Little Rock. However, it is unlikely that either proposal would serve any significant population now without a first or second FM or aural service since three of the Little Rock stations are operating with power greater than 75 kilowatts and with antenna heights greater than 153 meters (500 feet). Also, given certain shortcomings in both of these proposals, as the following discussion will indicate, adoption of either is undesirable.

11. The Little Rock Channel 295 proposal would preclude the assignment of Channel 292A to Lonoke, located approximately 32 kilometers (20 miles) east of Little Rock, and of Channel 296A to Dumas, located approximately 121 kil-

[3] Crisler has advised the Commission by letter of November 12, 1975, that he is no longer interested in an FM station at Van Buren. However, since the record indicates another expression of interest (Crawford County Broadcasters), this proposal will also be considered.

[4] Previously there had been a conflicting proposal for Neosho, Missouri, but as discussed in paragraph 34, that proposal has been dismissed.

[5] All population data has been taken from the 1970 U.S. Census.

[6] See *Third Report, Memorandum Opinion and Order*, 40 F.C.C. 747, and 754 (1963).

ometers (75 miles) southeast of Little Rock. There is interest and demand for first local FM assignments at both of these communities and no other FM channels are available without other changes in the Table of Assignments. Dumas has a daytime-only AM station and Lonoke has no broadcast stations. While Lonoke and Dumas are small communities, it appears that FM assignments could be activated promptly to serve the needs of those communities for first local FM and fulltime aural services, respectively. Information showing a need for local service at these communities was previously set forth in the Further Notice and need not be repeated here. First assignments to Lonoke or Dumas must take precedence over providing Little Rock with a fifth FM assignment and an eleventh local radio service.

12. Another problem with the Little Rock Channel 295 proposal is that it would require deletion of Channel 296A at Benton for which an application is pending. Although part of the Little Rock SMSA, Benton (pop. 16,499) is located some 32 kilometers (20 miles) southwest of Little Rock in Saline County, and is presently dependent upon two daytime-only AM stations for local service. Caldwell has proposed the substitution of Channel 226 at Benton, but the applicant for Channel 296A, Samuel Preston Bridges of Bridges Broadcasting Service opposes such a replacement. He contends that a Class A operation is more economically feasible and appropriate at Benton. Bridges states that he would not be interested in establishing a station on Channel 226 because of the more restrictive requirements as to site [7] and the greater, he says prohibitive, costs of construction and operation of a Class C station. He was joined by the Mayor of Benton and Judge H. W. Green of Saline County in letters to the Commission which express doubt that anyone would undertake to establish a station on Channel 226 if assigned to Benton because of the costs of a Class C operation. They urge that to replace the Benton Class A assignment with Channel 226 would create a situation that could keep Benton from having a needed FM outlet for a first fulltime local radio service in the foreseeable future. In addition, a previously suggested alternative, Channel 269A as a substitute for Channel 296A would preclude the assignment of Channel 269A as a first FM channel to Morrilton as proposed and is therefore unsatisfactory as a solution.

13. The alternate Little Rock Channel 226 proposal, advanced in the assignment plans for Dardanelle (Central Arkansas) and Pine Bluff (KCLA, Inc.), would require the substitution of Channel 282 for Channel 279 at Little Rock in order to comply with the Commission's rule designed to avoid the creation of intermediate frequency (IF) interference.[8] This proposed substitution for Station KKYK, however, would permit first FM assignments to Morrilton (Channel 278) and to Sheridan (Channel 276A) for which there is interest and demand. Snider contends that a frequency change for its Little Rock Channel 279 station would cost in excess of $192,000; that failure to receive full reimbursement for conversion costs would bankrupt it; that the public interest would be adversely affected by loss or curtailment of its network and SCA services; and that it could not undertake the conversion without simultaneous reimbursement. The *Further Notice* asked interested parties to state their willingness to reimburse Snider for its necessary conversion costs. However, proponents at Little Rock, Sheridan, and Morrilton were silent as to their willingness to reimburse.

14. In view of this failure on the part of the proponents to commit themselves to reimbursement,[9] we conclude that it is not in the public interest to make this fifth FM assignment at Little Rock. Little Rock has ten local radio services available to it from its four Class C FM stations and six AM stations (four fulltime), and it receives four additional radio services from other nearby stations. We believe that Little Rock, even considering its size, is reasonably well served by existing broadcast facilities. Moreover, the record furnishes no basis for concluding that there are special circumstances supporting a fifth Little Rock FM assignment, such as service to unserved or underserved areas.[10] Moreover, the additional service to Little Rock would be possible only by precluding the assignment of a first local service to other communities (Channel 295) or by imposing a reimbursement condition that has not been shown to be within the means of those parties expressing an interest in a new Little Rock station (Channel 226). With all of these points in mind, we shall not assign either of the channels requested at Little Rock.

15. *Pine Bluff.* KCLA, Inc., licensee of Class IV AM Station KCLA, Pine Bluff, seeks a third Class C assignment to Pine Bluff for which it has stated it would apply. The *Further Notice* set forth KCLA's initial proposal to assign Channel 295 to Pine Bluff by substituting Channel 269A for unoccupied Channel 296A at Benton, and by deleting or changing the unoccupied Channel 269A assignment at Malvern. This proposal conflicted with the previously discussed Little Rock Channel 295 proposal, the Lonoke Channel 292A proposal and the Dumas Channel 296A proposal. The Benton Channel 269A replacement proposal is also mutually exclusive with the Morrilton Channel 269A proposal. The *Further Notice* invited comments on an alternative proposal to assign Channel 257A to Pine Bluff as a "drop-in," and KCLA and Central Arkansas have proposed two more assignment possibilities for Pine Bluff. KCLA's alternative Channel 278 proposal also involves the substitution of Channel 282 for Channel 279 at Little Rock (licensed to KKYK). Central Arkansas revised plan proposes the assignment of Channel 268 to Pine Bluff by substituting Channel 296A for occupied Channel 269A (WJBI) at Clarksdale, Mississippi, and by deleting Channel 269A from Malvern without replacement.[11]

16. Relevant demographic data supporting the addition of a third Class C channel is adequately set forth in the *Further Notice* and will not be repeated here. KCLA indicates in its reply comments that it does not favor the Pine Bluff Channel 268 proposal requiring the Clarksdale Channel 269A station to change frequency because it would involve "very expensive reimbursement." KCLA disputes the Little Rock licensee's estimate of conversion costs, but does not say whether it is willing and able to reimburse either the Little Rock or the Clarksdale licensee. As for the Pine Bluff Class A proposal, KCLA considers it unlikely that any such assignment would be activated, if made, due to the competition from existing Class C stations there.

17. In reply comments, Superior, the Clarksdale FM licensee, states that Station WJBI now enjoys a position midpoint on the FM frequency dial which would be lost if its frequency were changed. It contends that as a result it would be surrounded on the dial by high-power FM stations that could make tuning difficult and that this could have a serious adverse economic effect upon its

[7] A transmitter site for the Benton channel would have to be located approximately 21 kilometers (13 miles) to the south or west to meet spacing requirements. Bridges could not use his AM transmitter site for an FM station with this restriction imposed.

[8] See Section 73.207(a) (Note) which requires a Class A and a Class C channel (53 or 54 channels removed) to be spaced at least 48 kilometers (30 miles) apart.

[9] It is well settled Commission policy that an existing station is entitled to be reimbursed from the benefitting permittees or licensees for the reasonable and necessary expenses incurred in changing its operating frequency when the change makes possible a requested new assignment or assignments. See *e.g., Circleville, Ohio*, 8 F.C.C. 2d 159 (1967); *Lake City, S.C.*, 47 F.C.C. 2d 1067 (1974); *Atlanta, Ga.*, 49 F.C.C. 2d 1270 (1974), and other decisions cited therein. This reimbursement policy has also been extended by the Commission's recent decision in the case of *Forest Lake-Brainerd, Minn.*, 61 F.C.C. 2d 113 (1976), to include reimbursement for necessary costs incurred to continue operation of a Subsidiary Communications (SCA) service.

[10] Caldwell argues that Little Rock needs a local radio outlet with a quality religious programming format and Arkansas Media Ventures argues that Little Rock needs a first Black-owned radio station to serve the needs and interests of its Black residents (25 percent of the population of Little Rock and 18.5 percent of its SMSA). However, we have consistently held that these considerations are not ones we can take into account in the assignment process where there is no way to adjudge which the successful applicant might be or what programming it would present.

[11] As indicated in Appendix A hereto, where all of the KCLA and Central Arkansas alternative assignment plans are set out, KCLA also advanced an alternative fourth plan which is technically defective and cannot be considered.

station. Nevertheless, Superior requests reimbursement if Station WJBI is required to change its operating frequency. Also, as previously discussed in the Little Rock section paragraph 13, *supra*, Snider, the Little Rock licensee, also opposes its proposed frequency change and requests reimbursement.

18. KCLA's comments include Roanoke Rapids coverage showings for its alternative Pine Bluff Channel 295 and Channel 278 proposals, based on assumed facilities with power of 75 kilowatts and antenna height of 153 meters (500 feet). These showings indicate that a Pine Bluff Channel 295 operation would provide a first FM service to an area of 354 sq. kilometers (136 sq. miles) with a population of 1,718 and a second FM service to an area of 541 sq. kilometers (208 sq. miles) with a population of 8,964. A Pine Bluff Channel 278 operation would provide a first FM service to an area of 47 sq. kilometers (18 sq. miles) with a population of 523 and a second FM service to an area of 406 sq. kilometers (156 sq. miles) with a population of 6,455. However, analysis of KCLA's map indicates that the coverage for Channel 295 at Pine Bluff is incorrectly shown, since the contours of three of the Little Rock stations and of the Jacksonville FM station are not drawn to extend as far on its Channel 295 map as on its Channel 278 map. Also neither of its coverage showings for Channel 295 and Channel 278 take into consideration the fact that three of the Little Rock FM stations operate with facilities greater than reasonable operating values (power of 75 kilowatts and antenna height of 153 meters (500 feet) or its equivalent). Consequently, the coverage for a Pine Bluff Channel 295 operation would be much less than KCLA claims. However, the oversight would have but minimal effect on its Pine Bluff Channel 278 coverage showing. No. Roanoke Rapids showing was submitted for the proposed Channel 268 assignment. As for the Class A channel proposal, KCLA correctly concludes that Channel 257A at Pine Bluff would not provide a first or second FM service to any area or population.

19. Although it appears that a need exists at Pine Bluff for a third Class C channel, and that a service to unserved and underserved areas could be provided, none of the proposed channels are acceptable. Channel 295 could not be assigned without precluding opportunity for first FM assignments to Lonoke (Channel 292A) and Dumas (Channel 296A). The switch of Channel 296A with Channel 269A at Benton would preclude Channel 269A as a first FM assignment to Morrilton. Dumas and Morrilton each have a daytime-only AM outlet; Lonoke has none. Meeting the needs of these communities for first fulltime local aural service with the available FM channels would, in our judgment, be more beneficial to the public and would achieve a more efficient and equitable result than an eighth local aural service at Pine Bluff, even taking into account the proposal's potential for serving areas and populations now lacking FM service.[12] We are therefore opposed to the adoption of KCLA's Channel 295 proposal for Pine Bluff.

20. KCLA's alternative Channel 278 proposal for Pine Bluff would require the Little Rock Channel 279 station to change frequency and Central Arkansas' alternative Channel 268 proposal for Pine Bluff would require the Clarksdale Channel 269A station to change frequency. We are of the view that neither of these proposals warrant adopton. Neither assignment could be accomplished without reimbursement to the affected stations and made. Moreover, the *Roanoke Rapids* study for Channel 278 indicated that the service to unserved and underserved areas would be so small as to be insignificant. No showing was made for Channel 268. There is no expression of interest for the assignment of a Class A channel to Pine Bluff, and we would not intermix this community under the circumstances without such interest. Therefore, no changes in the Table will be made with regard to Pine Bluff.

21. *Dardanelle and Russellville.* Dardanelle (pop. 3,297), the seat of Yell County (pop. 14,208), and Russellville (pop. 11,750), the seat of Pope County (pop. 28,607), are located in west central Arkansas, approximately 8 kilometers (5 miles) from each other. Dardanelle has two aural broadcast stations, both licensed to Central Arkansas Broadcasting Company, Inc. ("Central Arkansas"), KCAB(AM), a daytime-only operation, and KWKK (FM) (Channel 272A). Central Arkansas proposes to replace its Dardanelle Class A FM station with Class C Channel 271. This proposal is mutually exclusive with proposals for first FM assignments to Morrilton (Channel 269A), Ozark (Channel 269A), Sheridan (Channel 272A), and Van Buren (Channel 272A).[13] In its assignment plan, Central Arkansas proposed changing the occupied Little Rock Channel 279 assignment to Channel 282 to permit, among other things, the assignment of Class C Channel 278 to Morrilton and Channel 276A to Sheridan to thereby remove the conflicts.[14]

22. Horne Industries, Inc. ("Horne") requests the assignment of Class C Channel 242 to Russellville as a first FM assignment. Russellville is served by Station KARV(AM), a Class IV unlimited-time operation, licensed to Horne. In its comments to the *Further Notice*, it reaffirms its intention to promptly apply for the requested assignment at Russellville if assigned. Horne shows that Channel 242 would meet separation requirements for assignment and would be able to provide a signal of the required strength over Russellville from a transmitter site some 24 kilometers (15 miles) northwest of the city. Horne's Russellville Channel 242 proposal would conflict with Valley Communications' Channel 244A proposal for Ozark. However, Horne states that Valley's alternative Channel 292A proposal for Ozark could be adopted.

23. A proposal by Jerry L. Ragsdale ("Ragsdale") to assign Channel 265A to Russellville (RM–2487) was also advanced along with a commitment to apply for this requested Class A assignment if made, and to build promptly, if authorized. While Ragsdale does not believe a Class C channel would be appropriate for a small community like Russellville, he states that he would nevertheless apply for the Class C channel if assigned. Ragsdale demonstrates that Channel 265A is technically feasible for assignment at Russellville without disturbing existing assignments if used at a transmitter site about three kilometers (2 miles) west of Russellville. This proposal is technically campatible with all other FM assignment proposals advanced herein. Central Arkansas states that it would support Horne's Russellville Class C proposal only if Dardanelle also got a Class C channel and its present Class A station were modified to the Class C channel. Otherwise it would urge the assignment of a Class A channel to Russellville.

24. Small communities like Dardanelle and Russellville normally merit a Class A assignment rather than the wider coverage Class C channels designed for serving larger cities and metropolitan areas. It is also Commission policy to avoid intermixture of classes of FM assignments in the same community or in communities as closely located with respect to each other as Dardanelle and Russellville, in the interest of providing local stations an opportunity to obtain comparable facilities for competition and coverage. With Dardanelle and Russellville so close geographically, a Russellville Class A station could reasonably be expected to provide service to Dardanelle as well as providing Russellville with a first local FM outlet and an improved local nighttime aural

[12] While the KCLA coverage showings for its Channel 295 and Channel 278 alternative proposals for Pine Bluff do not reveal whether any AM service is available in the relatively small areas which could receive a first or second FM service therefrom, it appears likely that at least portions of these areas are served by the Class I–B, 50 kilowatt, AM station at Little Rock (KAAY).

[13] The separation requirement to Channel 269A is 104 kilometers (65 miles) and to Channel 272A, 168 kilometers (105 miles).

[14] The conflicting Ozark Channel 269A and Van Buren Channel 272A proposals were not before Central Arkansas in developing its assignment plans. However, in its reply comments, Central Arkansas urges that its Channel 292A proposal for Ozark be adopted instead of Channel 269A to avoid the conflict with its Dardanelle Channel 271 proposal. It also proposes Channel 244A for a Van Buren assignment in its revised assignment plan, recognizing that it would require site coordination with the proposed Russellville Channel 242 assignment to meet the minimum separation requirement. While the Dardanelle Channel 271 proposal of Central Arkansas does not conflict with the Fayetteville Channel 281 proposal, its plan to substitute Channel 282 for Channel 279 at Little Rock does conflict with the Fayetteville proposal.

service. While Central Arkansas and Horne urge that Class C assignments would better serve the needs of both Russellville and Dardanelle in light of their substantial growth during the 1960–1970 period [15] and their recent and projected further growth, we are satisfied that Class A channels are technically adequate and have sufficient coverage capability to satisfactorily serve these relatively small communities.

25. We realize that a concern about an intermixture situation in the Russellville-Dardanelle area could be avoided by adopting both the Horne and Central Arkansas Class C proposals for these communities. However, the showings offered in support of Class C assignments in terms of service to unserved and underserved areas are insubstantial. In this respect, Horne demonstrates in its corrected engineering analysis that Channel 242 at Russellville, operating with power of 75 kilowatts at 153 meters (500 feet) HAAT, would provide a first FM service to 299 persons in an area of approximately 252 sq. kilometers (97 sq. miles) and a second FM service to 12,715 persons in an area of approximately 3,205 sq. kilometers (1,233 sq. miles). The Central Arkansas analysis shows that a Dardanelle Channel 271 station, operating with power of 100 kilowatts and antenna height of 397 meters (1,300 feet), would provide a first FM service to 1,399 persons in an area of approximately 455 sq. kilometers (175 sq. miles) and a second FM service to 3,673 persons in an area of approximately 2,223 sq. kilometers (855 sq. miles). High priority is given to providing service to unserved and, to a lesser extent, underserved areas, and these points have been decisive factors in justifying Class C FM assignments to communities ordinarily warranting Class A assignments.[16] However, the population which would receive first FM service as shown by Central Arkansas and Horne for Class C operations at either Dardanelle or Russellville is small, and the second service areas, while larger, are of less significance.[17] These do not, in our judgment, warrant making the assignment, especially in light of the losses which would result.

26. The adoption of the Class C proposal for Dardanelle would preclude the assignments of proposed first FM channels to Morrilton, Ozark, Sheridan and/or Van Buren. First local service is an important assignment objective and the submitted Roanoke Rapids showings do not offer a sufficient basis to counterbalance this preclusive impact on other requested assignments. Some of the conflicts could be resolved by site limitations or use of available alternative channels in these communities as suggested by Central Arkansas and Horne. Still, the Central Arkansas Channel 271 proposal at Dardanelle would either preclude first FM assignments at Morrilton (Channel 269A) and Sheridan (Channel 272A) or result in substantial reimbursement costs to the Little Rock Channel 279 licensee if it is changed to allow different Morrilton (Channel 278) and Sheridan (Channel 276A) assignments. In fact, the Morrilton proponent (J. C. Willis) indicates in his comments that, while he would apply for a Class C channel at Morrilton in the absence of any other choice, the costs of a Class C operation would cast a heavy burden on him, and neither he nor the Sheridan petitioner comment on their willingness or ability to share in the reimbursement costs to the Little Rock licensee. Therefore, in view of our assignment criteria and intermixture policy and the lack of any substantial showing of service to unserved and underserved areas, we conclude that the public interest and our FM goals are best served by the assignment of Channel 265A to Russellville, and denial of the Class C proposals for Russellville and Dardanelle.

27. *First Local FM Assignments to Various Communities.* Parties have requested Class A FM channels as first assignments, and have expressed intent to apply for such channels, in the following communities: Batesville, Mountain View, Cherokee Village, Dumas, Lonoke, Morrilton, Sheridan, Van Buren and Ozark, all in Arkansas. Proponents at Batesville and Mountain View said they would prefer Class C assignments but would accept Class A channels. The essential considerations which support the need for first assignments at all of these communities were set forth in the *Further Notice* and will be incorporated herein as findings of fact supporting these assignments. They do not require repetition here. We have decided that all of the above communities should have Class A assignments except Batesville and Mountain View. In the discussion which follows we address the basis for the exceptions and go on to consider the various other proposals including those at Ozark which have not yet been mentioned. Since some of the conflicts affecting the Dumas, Lonoke, Morrilton and Sheridan proposals have already been discussed and resolved, they will not be discussed further. Finally, in order to assign the Morrilton channel, the assignment at Malvern had to be deleted. The reasons for that decision will also follow.

28. *Batesville and Mountain View.* Our disposition of the Little Rock-Benton and Dardanelle proposals removes the conflicts, set out in footnote 2 of the *Further Notice*, with the Batesville and Mountain View proposals.[18] Although the *Further Notice* proposed a Class A assignment for Mountain View and a Class C channel for Batesville, we do have expressions of interest for Class A and Class C channels at both communities and the Notice alternatively proposed Class A and Class C channels at each location.

29. Wide area Class C FM channels are not usually assigned to communities the size of Batesville (7,209) or Mountain View (1,866). However, as we said in the *Notice*, special circumstances may be demonstrated that would merit the consideration of the assignment of at least one Class C channel to such a locality. Mountain View is now without any local aural service, and Batesville's only local aural service is from a Class IV AM station with limited nighttime coverage. While both communities are relatively small and neither are of a size to normally warrant a Class C assignment, the record evidence shows that the assignment of a Class C channel to these communities would bring service to large unserved and underserved rural areas in a mountainous region.

30. Proponents have supplied information to support their respective assignment plans. Both communities are said to be cultural and tourist centers which are showing growth in population and economy. Both communities are county seats, Batesville of Independence County and Mountain View of Stone County in Arkansas. The Commission's study of the engineering data which has been filed has confirmed the following FM service populations for Class C assignments:

City	First FM service	Second FM service
Mountain View	54,122	9,178
Batesville	49,575	18,530

A portion of the first service from one of the communities would become a second FM service if two Class C channels were in operation. Nevertheless, these figures are far in excess of the first and second service that could be offered by a Class A assignment to this area. The study for a Class A station at either community shows the following population figures:

City	First FM service	Second FM service
Mountain View	8,990	
Batesville	20,561	1,135

31. In view of these showings of large first FM service, we shall make Class C assignments to both communities. The assignments of Channel 226 at Batesville and Channel 277 at Mountain View are consistent with our overall plan in this proceeding. A transmitter site restriction of 11 km. (7 mi.) northwest of Batesville which is necessary for the Channel 226 assignment, should not affect the station's ability to provide the required signal to Batesville.

32. *Ozark.* Valley Communications, Inc. ("Valley"), licensee of daytime-only Station KZRK(FM), in seeking the assignment, gives the following information in support. Ozark (pop. 2,529) is the largest city in, and is the seat of Franklin County (pop. 11,301). Valley claims that Ozark has increased in population by over 30% in the last Census decade, and that by 1980 it is predicted to have a population of over 3,000. Valley says Ozark is a farming community and that there are no other stations, besides KZRK(AM), in the county. There is no opposition to this proposal, and based on the record before us, we find that the public interest would be served by the assignment of a first FM channel to Ozark. Channel 244A can be assigned without conflicting with proposals at Van Buren, Russellville and Dardanelle.

33. *Malvern and Morrilton.* The only Class A channel available for assignment to Morrilton is the unused and unapplied for channel presently assigned to Malvern. Also, there are no other channels available for substitution at Malvern if this reassignment is made. A late-filed interest in applying for the channel at its present location in Malvern was submitted in August, 1976, but no application has been filed to date. In comparing the need for FM service at each of the two communities, we find that both are county seats and have a daytime-only AM station. Although Malvern had a 1970 Census population of 8,739, and Morrilton had a 1970 population of 6,814, the population growth rate of Morrilton is significantly greater than that of Malvern. In fact, Malvern's population has decreased from 1960 to 1970 by 8.6%, while Morrilton's population increased over the same period by 13.6%. Malvern has a daily newspaper while both have weekly newspapers. Although there are similarities between the two communities, it must be concluded that the need for an FM channel at Morrilton is greater in light of its population growth rate and its lack of a daily newspaper. Also, while Malvern has had an FM channel since the original FM Table of Assignments was adopted in 1963, no institution of service was ever made and only recently was an interest expressed, at a point too late to be considered in a timely fashion. Even now, no application has yet been received. Under such circumstances, it is our view that interested parties at Morrilton should be given the opportunity to apply for this unused channel.

34. *Neosho, Missouri.* KBTN, Inc., licensee of AM Station KBTN, Neosho, Missouri, proposed the assignment of Channel 300 to Neosho, as a first FM channel. However, KBTN has withdrawn its request because of the Commission's amendment of the multiple ownership provisions of Section 73.240 of the rules, which were effective April 22, 1977 (First Report and Order, 40 R.R. 2d 23) bars overlap of the sort which would occur if it acquired such a station. Since now there is no party expressing interest in an assignment at Neosho, we shall not consider it further in this proceeding, and the proposal will be dismissed.

35. In view of the foregoing and pursuant to authority found in Sections 4(i), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules, *It is ordered*, That, effective October 3, 1977, the FM Table of Assignments (Section 73.202(b) of the Commissions' Rules) is amended with respect to the following cities, as follows:

State/City Arkansas:	*Channel No.*
Batesville	226
Cherokee Village	265A
Dumas	296A
Lonoke	292A
Malvern	----
Morrilton	269A
Mountain View	277
Ozark	244A
Russellville	265A
Sheridan	272A
Van Buren	272A

36. *It is further ordered*, That the petition of Carroll D. Caldwell to assign Channel 295 to iLttle Rock (RM–2020) is denied.

37. *It is further ordered*, That the petition of James A. Peason to assign Channel 224A to Mountain View, Akansas (RM–2064) is denied.

38. *It is further ordered*, That the petition of KCLA, Inc. to assign a Class C channel to Pine Bluff, Arkansas (RM–2313) is denied.

39. *It is further ordered*, That the petition of Central Arkansas Broadcasting Co., Inc., to substitute Channel 271 for Channel 272A at Dardanelle, Arkansas, is denied.

40. *It is further ordered*, That the petition of Horne Industries to assign Channel 242 to Russellville, Arkansas (RM–2288) is denied.

41. *It is further ordered*, That the petition of KBTN, Inc., to assign Channel 300 to Neosho, Missouri (RM–2177) is dismissed.

(Secs. 4, 303, 307, 48 Stat., as amended, 1068, 1082, 1083; 47 U.S.C. 154, 303, 307.)

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

APPENDIX A

The petitioning parties and other proponents of proposals and counterproposals consolidated for consideration in the Notice herein, together with their proposals, are as follows:

RM–2020 (Carroll D. Caldwell)—Channel 295 to Little Rock as a Class C assignment by replacing Channel 296A (application pending) with Channel 226 at Benton.

RM–2064 (James A. Pearson)—Channel 224A to Mountain View as a first FM assignment.

RM–2113 (Joe M. Biard)—Channel 226 to Batesville as a first FM assignment. Also proposed Channel 249A to Mountain View to resolve conflict with Mountain View 224A proposal in RM–2064.

RM–2226 (Preston Grace, Jr.)—Channel 226 to Mountain View as a first FM assignment.

RM–2177 (KBTN, Inc.)—Channel 300 to Neosho, Missouri, as a first FM assignment.

RM–2264 (Vernon B. Fitzhugh)—Channel 300 to Fayetteville as a third FM assignment (first Class C). Also proposed Channel 257A to Neosho to resolve conflict with Neosho Channel 300 prposed in RM–2177.

RM–2288 (Horne Industries, Inc.)—Channel 242 to Russellville as a first FM assignment.

RM–2299 (Kessler Mountain Broadcasting Co., Inc.)—Channel 281 to Fayetteville in place of Channel 280A (KNWA) at Fayetteville.

RM–2305 (J. C. Willis)—Channel 269A to Morrilton as a first FM assignment by substituting Channel 226 for Channel 269A (unused) at Malvern.

RM–2313 (KCLA, Incorporated)—Channel 295 or Channel 298 to Pine Bluff as a third Class C assignment by substituting Channel 269A for Channel 296A at Benton and Channel 257A for Channel 269A at Malvern. (The Channel 298 proposal was not proposed for consideration in the Further Notice herein since it is mutually exclusive with the new Channel 298 assignment recently made to Ruston, Louisiana, in Docket No. 19690, and no public interest justification for considering a change in the new Ruston assignment was shown.)

RM–2381 (William L. Pharis and Bert Denson, d/b/a Crawford County Broadcasters)—Channel 244A to Van Buren as a first FM assignment.

RM–2404 (Lowell Stephen Jumper)—Channel 292A to Lonoke as a first FM assignment.

RM–2487 (Jerry L. Ragsdale)—Channel 265A to Russellville as a first (or second) FM assignment.

RM–2527 (Ralph Sanders)—Channel 272A to Sheridan as a first FM assignment.

Cherokee Village (Betty McCutcheon Wetenkamp)—Channel 296A or Channel 265A to Cherokee Village as a first FM assignment.

Dardanelle (Central Arkansas Broadcasting Company, Inc.)—Channel 271 to Dardanelle in place of Channel 272A (KWKK) as a first Class C assignment. Also advanced following plan to resolve conflicts:
- Dardanelle—Channel 271 for Channel 272A (KWKK).
- Little Rock—Channel 282 for Channel 279 (KKYK) and add Channel 226.
- Pine Bluff—Assign Channel 257A.
- Morrilton—Assign Channel 278.
- Mountain View—Assign Channel 224A.
- Batesville—Assign Channel 298.
- Cherokee Village—Assign Channel 265A.
- Sheridan—Assign Channel 276A.

Dumas (Alan W. Eastham)—Interest expressed in Channel 296A to Dumas as first FM assignment.

Additional proposals, counterproposals and plans advanced in response to Further Notice:

Springdale-Van Buren, Arkansas (Johnson Communications, Inc.)—Channel 300 to Springdale in place of Channel 285A (KCIZ–FM) and Channel 285A to Van Buren as a first FM assignment.

Ozark, Arkansas (Valley Communications, Inc.)—Channels 244A, 269A or 292A to Ozark as a first FM assignment.

Van Buren, Arkansas (Charles R. Crisler)—Alternatively suggests Channel 272A instead of Channel 244A (RM–2381) as a first assignment for Van Buren.

Van Buren-Paris, Arkansas (Crawford County Broadcasters)—Channel 237A to Van Buren as a first FM assignment by substituting Channel 292A for Channel 237A (unused) at Paris. (Preferred to their Van Buren Channel 244A proposal in RM–2381.) They also suggest Channel 285A as a possible assignment for Van Buren if Channel 285A (KCIZ–FM) is replaced with another channel at Springdale. They note that Channel 252A could be used at Springdale.

Revised Assignment Plan Advanced by Central Arkansas Broadcasting Company, Inc.

Channel 268 to Pine Bluff by substituting Channel 296A for Channel 269A (WJBI), Clarksdale, Mississippi, as part of following plan:
- Dardanelle—Assign Channel 271 in place of Channel 272A (KWKK).

[15] The U.S. Census shows that from 1960 to 1970 Dardanelle had a 57.1 percent population increase (from 2,098 to 3,297) and that Russellville had a 31.7 percent population increase (from 8,921 to 11,750).

[16] See *e.g., Lexington, Missouri*, 53 F.C.C. 2d 893 (1975); *Poteau, Oklahoma*, 43 F.C.C. 2d 1130 (1973); and *Clinton, Oklahoma*, 7 F.C.C. 2d 836 (1967).

[17] In addition, the second Class C assignment would offer no first FM service and second FM service only to a small area.

[18] The Commission also proposed alternative assignment plans for Batesville and Mountain View based on the pleadings and conflicts, which assumed the assignment of Channel 295 at Little Rock and the substitution of Channel 226 for Channel 296A at Benton, but those alternatives are mooted by our action today.

Cherokee Village—Assign Channel 265A.
Batesville—Assign Channel 298.
Mountain View—Assign Channel 224A.
Lonoke—Assign Channel 292A.
Russellville—Assign Channel 242.
Van Buren—Assign Channel 244A.
Little Rock—Assign Channel 282 in place of Channel 279 (KKYK) and assign Channel 226.
Morrilton—Assign Channel 278.
Sheridan—Assign Channel 276A.
Pine Bluff—Assign Channel 268.
Malvern—Delete Channel 269A without replacement.
Dumas—Assign Channel 272A.
Clarksdale—Substitute Channel 296A for Channel 269A (WJBI).
McGehee—Assign Channel 276A in place of Channel 272A (unused).

Alternative Assignment Plans Advanced by KCLA, Incorporated.

Plan I—Change Channel 279 (KKYK) to Channel 282 at Little Rock and make assignments as follows:
Benton—No change proposed in Channel 296A assignment.
Dardanelle—No change proposed in Channel 272A assignment.
Dumas—Assign Channel 272A.
Little Rock—Assign Channel 226 and substitute Channel 282 for Channel 279 (KKWK).
Lonoke—Assign Channel 292A.
Malvern—Assign Channel 272A in place of Channel 269A (unused).
Morrilton—Assign Channel 269A.
McGehee—Assign Channel 269A in place of Channel 272A (unused).
Pine Bluff—Assign Channel 278.
Sheridan—Assign Channel 269A.

Plan II—Change Channel 279 (KKYK) to Channel 282 at Little Rock and make the following assignments:
Benton—Assign Channel 226 in place of Channel 296A (unused).
Dumas—Assign Channel 269A.
Dardanelle—No change in Channel 272A assignment proposed.
Little Rock—Assign Channel 282 in place of Channel 279 (KKYK).
Lonoke—Assign Channel 269A.
Malvern—No change proposed in Channel 269A assignment.
Morrilton—Assign Channel 278.
Pine Bluff—Assign Channel 257A or Channel 276A.
Sheridan—Assign Channel 272A.

Plan III—Change Channel 279 (KKYK) to Channel 282 at Little Rock and make the following assignments:
Benton—No change proposed in Channel 296A assignment.
Dumas—Assign Channel 296A.
Dardanelle—No change in Channel 272A assignment proposed.
Little Rock—Assign Channel 226 and assign Channel 282 in place of Channel 279 (KKYK).
Lonoke—Assign Channel 292A.
Malvern—Assign Channel 272A in place of 269A (unused).
Pine Bluff—Assign Channel 278.
Sheridan—Assign Channel 269A.
McGehee—No change proposed in Channel 272A assignment.
Morrilton—Assign Channel 269A.
[1] Plan IV—Change Channel 279 (KKYK) to Channel 278 at Little Rock and make assignments, as follows:
Benton—Substitute Channel 282 for Channel 296A (unused).
Dumas—Assign Channel 276A.
Dardanelle—Assign Channel 299 in place of Channel 272A (KWKK).
Fayetteville—Assign 281 in place of 280A (KNWA) and assign Channel 300.
Little Rock—Assign Channel 278 in place of Channel 279 (KKYK) and assign Channel 226.
Lonoke—Assign Channel 269A.
Malvern—No change proposed in Channel 269A assignment.
Morrilton—Assign Channel 272A.
Pine Bluff—Assign Channel 295.
Sheridan—Assign Channel 272A.

(With the above plans, KCLA suggests 249A or 298 for Batesville; Channel 265A or Channel 296A for Cherokee Village; Channel 300 for Fayetteville—also Channel 281 for Channel 280A at Fayetteville in Plan IV which, as indicated above, is not technically feasible; Channel 224A or Channel 298 for Mountain View; Channel 257A or Channel 300 for Neosho, Missouri; Channel 242 or Channel 265A for Russellville; and Channel 244A for Van Buren.)

[1] Plan IV, which KCLA prefers, is technically defective. Channel 282 could not be used at Benton and Channel 281 at Fayetteville, as proposed, since the required 150-mile separation between these proposed assignments could not be met (15-mile shortage). Also Channel 299 could not be assigned to Dardanelle and Channel 300 to Fayetteville, as proposed, in conformity with the 150-mile separation required (80 mile shortage).

APPENDIX C.—*Population (1970)*

City	County	City	Percent change (1960)	County	Percent change (1960)	AM services	FM assignments
Arkansas:							
Batesville	Independence	7,209	16.1	22,723	13.3	1 (class IV)

Title 49—Transportation

CHAPTER I—MATERIALS TRANSPORTATION BUREAU, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER D—PIPELINE SAFETY

[Amdts. 192-29; 195-12; Docket No. OPSO-38]

PART 192—TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE

PART 195—TRANSPORTATION OF LIQUIDS BY PIPELINE

Longitudinal Seams in Pipe Bends

AGENCY: Materials Transportation Bureau, Department of Transportation.

ACTION: Final rule.

SUMMARY: This amendment permits longitudinal welds in field bends of steel pipe to be placed other than near the neutral axis when an internal bending mandrel is used or when bending pipe of 12 inches or less in outside diameter that has a diameter to wall thickness ratio of less than 70. This amendment permits the utilization of new techniques for bending steel pipe in the field and permits the realization of the attendant safety and economic benefits.

EFFECTIVE DATE: The effective date is October 3, 1977, except that § 192.313 (a)(4)(B) and § 195.212(b)(3)(B) do not become effective until November 3, 1977.

ADDRESS: Any person desiring to comment on Section 192.313(a)(4)(B) or Section 195.212(b)(3)(B) should comment in writing to:
Director, Office of Pipeline Safety Operations, Department of Transportation, 2100 Second Street, S.W., Washington, D.C. 20590.

Comments will be available at Docket Room 6500, 2100 Second Street, S.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Ralph T. Simmons, (202) 426-2392.

SUPPLEMENTARY INFORMATION: The Materials Transportation Bureau (MTB) issued a notice of proposed rulemaking, Notice No. 76-2 (41 FR 46463, October 21, 1976), proposing to amend § 192.313(a)(4) of the Federal gas pipeline safety standards and § 195.212(b)(3) of the Federal liquid pipeline safety standards to permit the field bending of steel pipe with longitudinal welds without placing the longitudinal weld near the neutral axis of the bend if an internal bending mandrel is used. Interested persons were invited to participate in this rulemaking action by submitting written data, views, or arguments not later than November 8, 1976.

There were six persons who responded and submitted written comments to Notice 76-2. Three were from gas distribution companies and three were from trade associations. A discussion of the significant comments and the recommendations of the Technical Pipeline Safety Standards Committee (TPSSC) on the proposed amendment to Part 192 and their disposition in developing the final rules are contained in the following discussion of comments.

DISCUSSION OF COMMENTS

All of the commenters and the TPSSC supported the proposal as published in the Notice. Their reasons were that the improvements in pipe manufacturing methods and construction techniques, particularly with the use of the internal bending mandrel, have made the restriction on location of the longitudinal weld in a bend unnecessary. They concluded that operators and carriers should be allowed to utilize this improved technology that has demonstrated its ability to produce a high quality pipeline and shown the old requirement to be obsolete.

MTB agrees with the commenters and the TPSSC, that operators should be allowed to take full advantage of improved welding and bending technology that is not inconsistent with pipeline safety. After considering all available information, MTB is not aware of any failures in the longitudinal weld seam of pipe caused by bending with the longitudinal weld seam placed other than near the neutral axis. Additionally, MTB is of the opinion that the performance requirements in §§ 192.313 and 195.212 are sufficient to ensure that any pipe with a damaged weld seam would be detected and rejected before being placed in service. The advances in pipe manufacturing and bending methods make the requirement for placing the longitudinal weld in a neutral axis when bending with an internal bending mandrel unnecessary. The relaxation of the requirement would not be inconsistent with pipeline safety. Therefore, the proposed amendments have been adopted in the final rules as §§ 192.313(a)(4)(A) and 195.212(b)(3)(A).

One commenter agreed with the proposal as written, but recommended that MTB continue its investigation to sub-

stantiate the need for the requirement that a longitudinal weld be placed near the neutral axis during bending when an internal bending mandrel is not used. The reason given was that the proposal will provide the operator with a choice of methods for field bending of pipe.

MTB will continue its investigation and welcomes the submission of information from knowledgeable sources. Such information will be considered by MTB for future rulemaking proceedings on pipe bending.

Three commenters and the TPSSC suggested that an internal bending mandrel is inappropriate for bending small pipe, and use of the mandrel should not be adopted as a condition to not placing the longitudinal seam near the neutral axis. Their argument was that for large diameter pipe the requirement for using an internal bending mandrel is not unreasonable because internal bending mandrels are required to obtain acceptable field bends. However, for small diameter pipe, particularly 12 inches and under with a diameter to wall thickness (D/t) ratio of less than 70, internal bending mandrels are not needed to achieve acceptable bends. They further stated that, when using electric resistance welded pipe that has been weathered, cleaned, and coated, it is very difficult to locate the longitudinal weld seam.

After reviewing the comments, the TPSSC's recommendation, and other available information, MTB believes that safe bends in steel pipe 12 inches or less in outside diameter with a D/t ratio of less than 70 can be made without using an internal bending mandrel even though the longitudinal seam is not placed near the neutral axis of the bend. Further, MTB has not received any reports of failure of bent pipe of 12-inch diameter or less with a D/t ratio of less than 70 that can be attributed to the fact that an internal bending mandrel was not used or that the location of the longitudinal weld seam in bending was a contributing factor.

Therefore, in view of the favorable information and the absence of any information to the contrary, MTB is of the opinion that omitting the proposed condition that an internal bending mandrel be used when bending pipe of 12 inches or less in outside diameter with a D/t ratio less than 70 as an alternative to placing the weld seam near the neutral axis is not contrary to the public interest nor inconsistent with pipeline safety.

For the foregoing reasons, MTB has further amended §§ 192.313(a)(4) and 195.212(b)(3) by adding to each section a new subdivision (B) to allow the field bending of small diameter steel pipe with a longitudinal seam without placing the seam near the neutral axis irrespective of whether a bending mandrel is used. MTB is cognizant of the fact that this issue was not specifically addressed in the Notice but feels that it is within the broad scope and intent of the Notice, and therefore it is appropriate to include it in the final rules. However, in keeping with MTB's policy to ensure that the public has full opportunity to participate in the rulemaking process, MTB is delaying the effective date of § 192.313(a)(4)(B) and § 195.212(b)(3)(B) until November 3, 1977 to permit any interested person the opportunity to comment before the rule becomes effective. If no adverse comment is received that raises substantial doubt as to the desirability of the amendment, it will become effective November 3, 1977 as written.

REPORT OF THE TECHNICAL PIPELINE SAFETY STANDARDS COMMITTEE

Section 4(b) of the Natural Gas Pipeline Safety Act of 1968 requires that all proposed standards and amendments to such standards pertaining to gas pipelines be submitted to the Committee and that the Committee be afforded a reasonable opportunity to prepare a report on the technical feasibility, reasonableness, and practicability of each proposal. This amendment to Part 192 was submitted as Item A-2 in a list of two proposed amendments at a meeting in Washington, D.C., on December 16 and 17, 1976. On January 12, 1977, the Committee filed the following favorable report. A minority report was not filed.

This communication is the official report of the Technical Pipeline Safety Standards Committee concerning the Committee's action on two amendments to 49 CFR Part 192 proposed by the Office of Pipeline Safety Operations and other matters which the Committee decided should be brought to the attention of the Department of Transportation.

The following described actions were taken by the Committee at a meeting held in Washington, D.C. on December 16 and 17, 1976.

Item A-2 was a proposal by OPSO to revise § 192.313(a)(4), Bends and elbows. By an affirmative vote of 12-1 the Committee found that the following language for § 192.313(a)(4) is technically feasible, reasonable, and practicable.

. . . . . .

[The language suggested is adopted in the final rule as discussed in the "Discussion of Comments Section" above.]

After additional discussions of agenda Item A-2, by an affirmative vote of 12-1, the Committee further recommended that § 192.313 be further modified to provide that for pipe with a D/t ratio less than 70, the location of the longitudinal seam may be at the discretion of the operator.

PRINCIPAL AUTHORS

Ralph T. Simmons, Regulations Specialist, and Robert L. Beauregard, Attorney, Office of the General Counsel.

In consideration of the foregoing, Parts 192 and 195 of Title 49 of the Code of Federal Regulations are amended as follows:

1. Section 192.313(a)(4) is amended to read as follows:

§ 192.313 Bends and elbows.

(a) * * *

(4) On pipe containing a longitudinal weld, the longitudinal weld must be as near as practicable to the neutral axis of the bend unless—

(i) The bend is made with an internal bending mandrel; or

(ii) The pipe is 12 inches or less in outside diameter with a diameter to wall thickness ratio less than 70.

. . . . . .

(Sec. 3, Pub. L. 90-481, 82 Stat. 721, 49 USC 1672; for offshore gathering lines, Sec. 105, Pub. L. 93-633, 88 Stat. 2157, 49 USC 1804; 40 FR 43901, 49 CFR 1.53.)

2. Section 195.212(b)(3) is amended to read as follows:

§ 195.212 Bending of pipe.

. . . . . .

(b) * * *

(3) On pipe containing a longitudinal weld, the longitudinal weld must be as near as practicable to the neutral axis of the bend unless—

(i) The bend is made with an internal bending mandrel; or

(ii) The pipe is 12 inches or less in outside diameter with a diameter to wall thickness ratio less than 70.

. . . . . .

(Sec. 6, Pub. L. 89-670, 80 Stat. 937, 48 U.S.C. 1655; 18 U.S.C. 831-835; 40 FR 43901, 49 CFR 1.53.)

JOHN J. FEARNSIDES,
Acting Director,
Materials Transportation Bureau.

[FR Doc.77-24303 Filed 8-24-77;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of Seney National Wildlife Refuge, Michigan, to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to hunting of Seney National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: September 15 to November 12, 1977.

FOR FURTHER INFORMATION CONTACT:

John R. Frye, Refuge Manager, Seney National Wildlife Refuge, Seney, Mich. 49883, 906-586-9851.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Public hunting of Woodcock and Wilson's Snipe (Jacksnipe) on the Seney National Wildlife Refuge is permitted only on the area designated as open to hunting. This open area, comprising 33,525 acres, is delineated on maps available at refuge headquarters, Seney, Mich. and from the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Hunting shall be in accordance with all applicable State regulations covering the hunting of Woodcock and Wilson's Snipe (Jacksnipe) subject to the following special conditions:

(1) All motorized conveyances are prohibited from traveling on dikes or off established roads and trails. Motorized Bikes All-Terrain Vehicles and Snowmobiles are not permitted on the refuge.

The provisions of this special regulation supplements the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 12, 1977. The public is invited to offer suggestions at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 17, 1977.

JACK E. HEMPHILL,
Regional Director.

[FR Doc.77-24541 Filed 8-24-77;8:45 am]

PART 32—HUNTING

Opening of Chautauqua National Wildlife Refuge, Illinois, to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to migratory game bird hunting of Chautauqua National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: September 10 through September 18, 1977.

FOR FURTHER INFORMATION CONTACT:

Howard A. Lipke, Refuge Manager, Mark Twain National Wildlife Refuge, P.O. Box 225, Quincy, Ill. 62301, telephone: 217-224-8580.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations: migratory game bird, for individual wildlife refuge areas.

Public hunting of blue-wing, green wing, and cinnamon teal is permitted on the Chautauqua National Wildlife Refuge, Ill., only on the areas designated by signs. These areas comprising 745 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, United States Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Migratory game bird hunting of blue wing, green wing, and cinnamon teal shall be in accordance with all applicable State regulations subject to the following conditions:

(1) Blinds—Temporary blinds of wood or brush may be constructed. Blinds do not become the property of those constructing them and will be available on a daily basis.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 17, 1977.

JACK E. HEMPHILL,
Regional Director.

PART 32—HUNTING

Migratory Game Bird Hunting on Ravalli National Wildlife Refuge, Mont.

AGENCY: Ravalli National Wildlife Refuge, U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Special Regulations, Migratory game birds.

SUMMARY: This document describes the regulations governing migratory game bird hunting on the Ravalli National Wildlife Refuge, North of Stevensville, Mont.

EFFECTIVE DATE: October 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert C. Twist, Refuge Manager, No. 5 Third Street, P.O. Box 257, Stevensville, Montana, 59870, 406-777-5552.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special Regulations: Migratory Game Birds.

MONTANA

RAVALLI NATIONAL WILDLIFE REFUGE

The hunting of ducks, geese, coot and mergansers will be permitted on portions of the Ravilli National Wildlife Refuge during the regular migratory bird hunting season, from October 1, 1977 to January 1, 1978, and shall be in accordance with all applicable State and Federal regulations subject to the following additional special conditions:

1. All hunters must enter public hunting through appropriate check station.

2. All hunters must set blind selection pointer to "taken" upon selecting a blind, and return blind selection pointer to "open" upon leaving hunting area.

3. Placing blind selection pointer to "taken" determines occupant of blind.

4. During periods of high hunter demand, as determined by the Refuge Manager, hunters will be limited to one period only during a day:

Period No. 1; Start of shooting hours to 12:00 Noon.

Period No. 2; 1:00 P.M. until close of shooting hours.

5. Hunters must be within ten feet of designated blind sites while attempting to take and taking of waterfowl game birds.

6. Blind sites will be limited to five hunters each.

7. A designated area will be open to the taking of ducks, geese, coot and mergansers by means of falconry from the opening of the migratory waterfowl season through November 27. No firearms may be carried in this area.

8. The public hunting area will be closed to entry from one hour after sunset until one and one-half hour before sunrise.

9. No fishing equipment of any type will be permitted on the public hunting area.

10. Boats are not permitted.

The hunting area is designated by signs and delineated on maps available at Refuge Headquarters, No. 5 Third Street, Stevensville, Mont., and from the Area Manager, U.S. Fish and Wildlife Service, Room 3035, Federal Building, 316 No. 26th Street, Billings, Mont.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1978.

NOTE.—The U. S. Fish and Wildlife Service had determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

ROBERT C. TWIST,
Refuge Manager,
Ravalli National Wildlife Refuge.

AUGUST 12, 1977.

PART 32—HUNTING

Opening of Bear River Migratory Bird Refuge, Utah to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to hunting of the Bear River Migratory Bird Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreation opportunity to the public.

DATES: *Ducks, coots, mergansers, and whistling swans,* October 1, 1977 through January 1, 1978 inclusive; *Geese,* October 8, 1977 through December 18, 1977 inclusive.

FOR FURTHER INFORMATION CONTACT:

Ned I. Peabody, P.O. Box 459, Brigham City, Utah 84302, Telephone 801-744-2488.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds, for individual wildlife refuge areas.

Public hunting of ducks, geese, coots, mergansers, and whistling swans is permitted on the Bear River Migratory Bird Refuge, Utah, only on the areas designated by signs as being open to hunting. Those areas comprising 12,855 acres, are delineated on maps available at the refuge headquarters, Brigham City, Utah, and from the Area Office, Fish and Wildlife Service, Federal Building, Salt Lake City, Utah 84138. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese, coots, mergansers, and whistling swans subject to the following special regulations:

(1) *Steel Shot.* The exclusive use of steel shot is required on all days in both Hunting Area "A" and Area "B" for the entire season. The possession of lead shot within a refuge hunting area is prohibited, and having lead shot in one's possession will be considered prima facie evidence that the person possessing such shot is engaged in hunting with same; except lead shot may be possessed for transportation through designated travel lanes for use off refuge.

(2) *Hunting Areas.* No hunting is permitted from roadways or within 100 yards of any roadway in Area "A". No hunting is permitted from roadway or adjacent area as posted by signs in Area "B".

(3) *Boat Use.* The use of boats is permitted except that airthrust boats and aircycles may not be used in Unit 2 on weekends and holidays. Airboats may be launched only from designated boat ramps. Boats may be left at designated sites one week prior to and during the hunting season. All boats and trailers must be removed within two weeks after close of the hunting season.

(4) *Parking.* Hunters may park cars only at designated areas within the refuge.

(5) *Hunter Check Station.* All hunters entering Area "A" are required to register at the check station and check out before leaving the refuge. All hunters entering the Perry gate entrance to Area "B" are required to register and check out at the self registration counter provided.

(6) *Routes of Travel.* Travel to open hunting areas is permitted by foot or bicycle over roads between Units 1 and 2 and Units 2 and 3. Travel by boat is permitted from headquarter area boat ramps down canals between Units 1 and 2 and Units 2 and 3, and the main river channel into Unit 2. Vehicles with boats and trailers are permitted to travel dike roads to designated parking and launching sites. Travel by boat to reach lands outside refuge boundary will be permitted only over designated travel lanes through closed areas. Firearms must be unloaded and either cased or broken down when transported by motor vehicle or boat over the above designated travel lanes.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32, and are effective through January 1, 1978. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 18, 1977.

RODNEY F. KREY,
Acting Refuge Manager,
Bear River Migratory Bird Refuge.

PART 32—HUNTING

Opening of Crab Orchard National Wildlife Refuge, Ill. to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to migratory game bird hunting of Crab Orchard National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: September 1, 1977 through January 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Wayne D. Adams, Project Manager, Post Office Box J, Carterville, Ill. 62918, telephone No. 618-997-3344.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds, for individual wildlife refuge areas.

Migratory game bird hunting is permitted on the Crab Orchard National Wildlife Refuge, Illinois, only on the areas designated by signs as being open to hunting. These areas comprising 23,000 acres as Areas I and III are delineated on maps available at the refuge headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, Department of the Interior, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Migratory game bird hunting shall be in accordance with all applicable State of Illinois regulations subject to the following conditions:

1. Only portable or temporary blinds of dead vegetation located in the immediate vicinity of the site may be used for hunting and these must be removed or dismantled at the end of the day's hunt. Permanent blinds and pits and blinds beyond the shoreline of refuge waters may not be constructed, established, occupied or hunted from.

2. Waterfowl hunters using 12 gauge shotguns must use steel shot shells only, and may not possess ammunition containing lead or other toxic shot.

3. Blinds located on Grassy, Orchard, Turkey, and Sawmill Islands will be filled during the goose season by a public drawing prior to each day's hunt. The drawing will be held at 5:00 A.M. each day at refuge sub-headquarters. Hunters may hunt only from the refuge provided blinds on these islands during the goose season.

4. Hunting is prohibited at the Carterville Beach Area during goose season as posted with "No Hunting" signs.

5. Only authorized waterfowl hunting is permitted on the controlled areas of Grassy Point, Carterville Public, and Greenbriar Road Areas from sunrise to 12:00 Noon daily during the goose season. Goose hunting on these areas is subject to the following conditions:

(a) Blinds will be allocated by public drawing conducted daily at 5:00 A.M. at designated locations.

(b) All applicants must be present for the drawing.

(c) Fee is $2 per hunter. Decoys may be rented for $1 per dozen per hunt.

(d) Hunting is permitted only from existing refuge established blinds. This includes lake shorelines.

(e) Two hunters per blind will be allowed.

(f) Shooting hours are sunrise to 12:00 Noon.

(g) Each hunter is permitted a maximum of 10 shells for the day's hunt.

(h) Alcoholic beverages are prohibited while in the field.

(i) Disorderly conduct, high shooting, or unsportsmanlike conduct will result in removal from the area.

(j) Hunters must check out of the area by 12:30 P.M.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comment at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 OMB Circular A-107.

Dated: August 17, 1977.

JACK E. HEMPHILL,
Regional Director.

[FR Doc.77-24617 Filed 8-24-77;8:45 am]

PART 32—HUNTING

Opening of Santee National Wildlife Refuge, S.C. to Hunting

AGENCY: U.S. Fish and Wildlife Service, Interior.

ACTION: Special Regulations.

SUMMARY: The Director has determined that the opening to hunting of Santee National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: Hunt dates: October 1, 3, 4, 7, 8, 12, and 13.

FOR FURTHER INFORMATION CONTACT:

Charles Strickland, Refuge Manager, P.O. Box 158, Summerton, S.C. 29148, telephone 803-478-2217.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Hunting is permitted on the Santee National Wildlife Refuge, S.C., only on the areas designated as being open to hunting. These areas comprising some 3,140 acres are delineated on a map available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Only persons with a valid refuge permit and State hunting license will be allowed on the hunt area.

2. Daily Bag Limit: One either sex white-tailed deer per hunter.

3. Open Season (daylight to 6:00 p.m.): October 1, 3, 4, 7, 8, 12, 13.

4. Only shot guns using slugs and rifles larger than .22 rimfire caliber will be permitted. Buckshot, other shotgun shells and pistols will not be allowed.

5. Each hunter must wear an outer garment containing a minimum of 500 square inches of international orange color above the waistline.

6. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

7. All hunters must check out at the designated entry point and all deer must be checked at the designated check station prior to leaving the refuge.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 18, 1977.

RAY R. VAUGHAN,
Acting Regional Director.

PART 32—HUNTING

Opening of Tennessee National Wildlife Refuge, Tenn., to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to hunting of Tennessee National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable resource, and will provide additional recreational opportunity to the public.

DATES: *Archery hunt for deer,* October 1 and 2, 1977; *Gun hunt for deer,* December 27 and 28, 1977; *Muzzleloader hunt for deer,* December 29 and 30, 1977.

FOR FURTHER INFORMATION CONTACT:

V. L. Childs, Refuge Manager, Tennessee National Wildlife Refuge, P.O. Box 849, Paris, Tenn. 38242, telephone 901-642-2091.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game, for individual wildlife refuge areas.

Hunting is permitted on the Tennessee National Wildlife Refuge, Tennessee, only on the areas designated by signs as being open to hunting. These areas comprising 1,900 acres for archery hunting, 5,075 acres for gun hunting, and 1,900 acres for muzzleloader hunting are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Hunters may take one (1) deer of either sex.

2. Hunt areas cannot be entered until sunrise. Hunters must be out of the area by not later than one-half hour after sunset.

3. All hunters will check in and depart via the refuge check station.

4. No advance scouting for deer on foot is permissible at any time prior to the hunt.

5. Hunters may use vehicles on primary refuge roads only.

6. Organized driving of deer is prohibited.

7. A Federal permit is required for each hunter utilizing the area.

8. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

9. All hunters must wear at least 500 square inches of fluorescent orange material as outer clothing on the upper portion of the body and head.

10. Hunters will be required to furnish survey information concerning the hunt when leaving the area.

11. All applicable Federal laws and regulations shall prevail during the hunt.

12. Legal weapons for the hunts shall be as follows:

(a) Gun Hunt—any centerfire rifle of .24 caliber or larger. Any shotgun of 20 to 10 gauge with single slug. Muzzleloading rifles, longbows, and compound bows. No hand guns.

(b) Muzzleloader Hunt—muzzleloading rifles must be between .40 and .58 caliber.

(c) Archery Hunt—archers may use longbows and compound bows only.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Date: August 18, 1977.

RAY R. VAUGHAN,
Acting Regional Director.

PART 32—HUNTING

Opening of Hatchie National Wildlife Refuge, Tenn. to Public Deer Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to the public for deer hunting of Hatchie National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: November 1-5, 1977.

FOR FURTHER INFORMATION CONTACT:

Dennis B. Jordan, Hatchie National Wildlife Refuge, P.O. Box 187, Brownsville, Tenn. 38012, telephone 901-772-0501.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game hunting; for individual wildlife refuge areas.

Public hunting of deer is permitted on the Hatchie National Wildlife Refuge, Tenn., only on the areas designated by signs as being open to hunting. These areas comprising approximately 3,500 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following conditions:

1. Weapons: Archery equipment as specified by State regulations.

2. Bag Limit: 2 deer of either sex.

3. Hunters must check in and out through refuge checking station.

4. Camping is prohibited.

5. The operation of all motorized vehicles is prohibited in fields and woods and over trails and roads marked "closed". Vehicles may not be parked so as to block any road or thoroughfare.

6. Permanent type tree stands are prohibited. Nails, spikes or other items that permanently damage trees may not be used.

V 42 165 AUG 25 77 UM

7. All tree stands must display the owner's name, address and phone number.

8. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern public hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 18, 1977.

RAY R. VAUGHN,
Acting Regional Director.

PART 32—HUNTING

Opening of Blackbeard Island National Wildlife Refuge, Ga. to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to hunting of Blackbeard Island National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: October 31-November 3, 1977 and December 19-22, 1977.

FOR FURTHER INFORMATION CONTACT:

John P. Davis, P.O. Box 9623, Savannah, Ga. 31402, telephone 912-232-4321, ext. 415.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Hunting is permitted on the Blackbeard Island National Wildlife Refuge, Ga., only on the areas designated as being open to hunting. These areas comprising 4,500 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Entry on the Island will not be permitted more than two days in advance of the opening date of each hunt period. Participants will be confined to the camping area until the morning of the first day of each hunt period, and must be off the island the day following the last day of the hunt period.

2. All camping will be at designated camping areas only. Fires must be confined to the camping area.

3. Deer (either sex) is the only species that may be taken. All State regulations and bag limits will be enforced. A maximum of two deer may be taken.

4. Hunting hours are according to State regulations. Hunters must be on their stands during morning and evening hunt periods to be announced prior to each hunt. No movement during these hours will be tolerated.

5. Hunters under age 18 must be under the close supervision of an adult. For safety reasons the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

6. Blazing, driving spikes, painting, applying tape, or damaging or destroying trees and shrubbery in any manner is prohibited. Deer stands which will damage trees are not permitted.

7. All forms of litter should be placed in trash receptacles for proper disposal.

8. Transportation is not provided to and from the Island or on the Island. Any movement after reaching the Island must, of necessity, be by foot. You are not allowed to leave by boat to go to other parts of the Island.

9. A Federal permit is required. Only hunt participants with proper licenses and permits will be permitted on the refuge to hunt and camp.

10. No firearms are permitted and archery weapons will conform to State regulations.

11. The Blackbeard Island National Wildlife Refuge will be closed to the general public October 29-November 3, 1977 and December 17-22, 1977.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 18, 1977.

PART 32—HUNTING

Opening of Wassaw National Wildlife Refuge, Ga. to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to hunting of Wassaw National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: November 8-11, 1977.

FOR FURTHER INFORMATION CONTACT:

John P. Davis, Refuge Manager, Savannah National Wildlife Refuge Complex, P.O. Box 4623, Savannah, Georgia 31402, telephone (912) 232-4321, ext. 415.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Hunting is permitted on the Wassaw National Wildlife Refuge, Georgia, only on the areas designated as being open to hunting. These areas comprising 2,000 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, 17 Executive Park Drive NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Entry on the refuge will not be permitted more than one day in advance of the opening date of the hunt period. Participants will be confined to the camping area until the morning of the first day of the hunt period, and must be off the island the day following the last day of the hunt period.

2. All camping will be at designated camping areas only Fires must be confined to the camping area.

3. Hunters must check in at the Wassaw Refuge Headquarters and leave their boats at the refuge dock.

4. Deer (either sex) is the only species that may be taken. All State regulations and bag limits will be enforced. A maximum of two deer may be taken.

5. Hunting hours are according to State regulations. During the periods from daylight until 9:30 a.m. and from 3:30 p.m. until sunset each day, hunters must be on their stands. No movement during these hours will be tolerated.

6. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

7. Blazing trees, driving spikes in trees, painting trees, applying tape to trees, or damaging or destroying trees and shrubbery in any manner is prohibited. This also applies to tree stands. Stands which will damage trees are not permitted.

8. All forms of litter should be placed in trash receptacles for proper disposal.

9. Transportation is not provided to and from the Island or on the Islands. Any movement after reaching Wassaw Island must, of necessity, be by foot. You are not allowed to leave by boat to go to the other parts of Wassaw Island.

10. A Federal permit is required. Only hunt participants with proper licenses and permits will be permitted on the refuge to hunt and camp.

11. No firearms are permitted and archery weapons will conform to State regulations.

12. The Wassaw Island National Wildlife Refuge will be closed to the general public November 7-11, 1977.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 18, 1977.

PART 32—HUNTING

Opening of Savannah National Wildlife Refuge, Ga. to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to hunting of Savannah National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: October 3 & 4, 1977.

FOR FURTHER INFORMATION CONTACT:

John P. Davis, Refuge Manager, Savannah National Wildlife Refuge Complex, P.O. Box 9623, Savannah, Georgia 31402, telephone (912) 232-4321, ext. 415.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Hunting is permitted on the Savannah National Wildlife Refuge, Georgia, only on the areas designated as being open to hunting. These areas comprising 3,500 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, 17 Executive Park Drive, NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. Hunting will be permitted only on October 3 and 4, 1977 on the area delineated on refuge map.

2. Participants must check-in and park in designated area prior to hunting. Entry by boat is not permitted.

3. Feral hog is the only species to be taken. A daily bag limit of two (2) will be permitted.

4. Hunting hours will be from sunrise to sunset.

5. No hunters under age 18 will be permitted to participate in the hunt.

6. All forms of litter should be placed in trash receptacles for proper disposal.

7. Transportation is not provided on the refuge. Any movement within the refuge must be by foot.

8. A non-transferable federal permit is required. Only hunt participants with proper South Carolina licenses and refuge permits will be permitted on the refuge to hunt.

9. Only shotguns using number 1 buckshot size will be authorized during the hunt. Weapons must be unloaded and cased except during the daily hunting period.

10. Hunters must wear outer garments containing at least 500 square inches of daylight fluorescent orange-colored material above the waistline.

11. Hunting will not be permitted closer than 100 yards of U.S. Highway No. 17 or the refuge headquarters area.

12. Persons convicted of any wildlife violation or refuge regulations will have this permit suspended.

13. The Savannah National Wildlife Refuge (except for the headquarters area) will be closed to the general public on October 3-4, 1977.

The provisions this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 18, 1977.

PART 32—HUNTING

Opening of Carolina Sandhills National Wildlife Refuge, S.C. to Hunting of Whitetailed Deer

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening for hunting of white-tailed deer of Carolina Sandhills National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: Archery only October 17-22, 1977; Guns only October 31-November 3, 1977, November 7, 14, and 21, 1977.

FOR FURTHER INFORMATION CONTACT:

Marvin T. Hurdle, Carolina Sandhills National Wildlife Refuge, Route 2, Box 130, McBee, South Carolina 29101. Telephone (803-335-8401).

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Public hunting of white-tailed deer is permitted on the Carolina Sandhills National Wildlife Refuge, South Carolina, only on the areas designated by signs as being open to hunting. These areas comprising 96 percent of the refuge are delineated on maps available at the refuge headquarters and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations subject to the following conditions:

(1) Hunters are allowed on the hunting area from 5:30 a.m. until 6:30 p.m. EST. Hunters must enter the hunting area at designated entrance points and must park their vehicles on the hunting area. All hunting paraphernalia including weapons and vehicles are subject to inspection by authorized Fish and Wildlife Service personnel to determine compliance with applicable regulations and laws.

(2) Bag Limits: Archery only—Two (2) of either sex. Gun hunts—October 17-November 3—Two (2) bucks with at least 3" antlers visible above the hairline; November 7, 14, and 21—One (1) of either sex. All deer taken must be checked before leaving the refuge.

(3) Only still hunting is allowed. All bows must have a minimum draw of 45 pounds and arrows must be equipped with sharp broadheads. Only shotguns using slugs and centerfire rifles using soft-nosed ammunition are allowed during gun hunts. All guns must be unloaded and completely encased while being transported over refuge roads.

(4) Stopping, parking, walking, or hunting within 500 feet of the paved auto visitor drive or hunting within 100 fect of any other road or trail open for vehicle travel is prohibited. Hunting is prohibited within 100 feet of any field planted to green browse.

(5) A refuge permit is required for all hunts. Permits are non-transferable. Submission of more than one permit application or applications containing false information is prohibited.

(6) Each hunter under age 18 must be under the close supervision of an adult. In no case should an adult have more than two juveniles under his/her supervision.

(7) Each gun hunter must wear an outer garment containing a minimum of 500 square inches of daylight fluorescent orange colored material above the waistline. Alcoholic beverages are not allowed. It is unlawful to drive a nail or other object into any tree or to hunt from a stand that is permanently attached to a tree.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32.

V 42 N 165 AUG 25 77 UM

The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 18, 1977.

RAY R. VAUGHN,
Acting Regional Director.

PART 32—HUNTING

Opening of Cape Romain National Wildlife Refuge, S.C. to Public Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to archery deer hunting of Cape Romain National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a natural resource, and will provide additional recreational opportunity to the public.

DATES: November 7-12, and December 5-10, 1977.

FOR FURTHER INFORMATION CONTACT:

George R. Garris, Refuge Manager, Cape Romain National Wildlife Refuge, Route 1, Box 191, Awendaw, South Carolina, telephone 803-928-3368.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulation; big game; for individual wildlife refuge areas.

Public hunting of big game on the Bulls Island Unit of the Cape Romain National Wildlife Refuge, Awendaw, S.C., is permitted only on the area designated by signs as open to hunting. This open area, comprising 2,500 acres, is delineated on maps available at the Refuge Headquarters and from the Office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of white-tailed deer, subject to the following special conditions:

(1) The open season for hunting of white-tailed deer (either sex) is November 7-12, 1977 and December 5-10, 1977. Limit is two deer per hunter.

(2) Only archery equipment in accordance with State regulations is permitted. Firearms and ammunitions, motorized equipment, bikes, crossbows, poison arrows, dogs, alcoholic beverages, nails, paint or flagging are not allowed on the Island.

(3) On the area north of Beach Road, hunters must remain on their stands from 30 minutes before sunrise until 9:00 a.m. and from 3:00 p.m. until 30 minutes after sunset. No hunting within 100 feet of the Walking Trail (interpretative foot trail). Areas posted with "Closed" signs may not be entered for any reasons.

(4) Each hunter must obtain a refuge permit upon arrival at Bulls Island and must turn in this permit before leaving the Island. All deer taken must be checked by refuge personnel before leaving the Island.

(5) Only hunters with a valid refuge permit may camp. Camping and fires are restricted to the designated camping area which will be open from 9:00 a.m. on November 6 until 12 noon on November 13 and from 9:00 a.m. on December 4 to 12 noon on December 11, 1977. Hunters are restricted to the camping area at night from 7:00 p.m. until 4:00 a.m.

(6) Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Date: August 18, 1977.

RAY R. VAUGHN,
Acting Regional Director.

PART 32—HUNTING

Opening of Merritt Island National Wildlife Refuge, Fla. to Migratory Bird Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to hunting of Merritt Island National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: In accordance with State (Florida) Waterfowl Season.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, P.O. Box 6504, Titusville, Fla. 32780, telephone 305-867-4820.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory bird hunting; for individual wildlife refuge areas.

Migratory bird hunting is permitted on the Merritt Island National Wildlife Refuge, Florida, only on the areas designated as being open to hunting. These areas comprising 37,500 acres are delineated on maps available at the refuge headquarters and from the office of the Regional Director, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State regulations subject to the following conditions:

1. *Permits.* A Merritt Island NWR Annual Hunting Permit must be obtained and carried by the person to whom it is issued when he is on the Refuge. The permit is free and may be obtained in person or by mail at the refuge headquarters. A daily permit for Areas 1, 2, and 4 are required for all hunters and may be obtained daily at the check station.

2. *Hunting days.* Hunting is permitted only on Sunday, Wednesday, Thursday, Friday, and Saturday weekly except refuge will be closed Christmas Day.

3. *Hunting hours.* Shooting is prohibited at all times except from legal starting time until noon, Titusville local time.

4. *Steel shot.* Only steel shot may be used. Possession of lead or other toxic shot in any gauge on the Refuge is prohibited.

5. *Entry.* Check-stations open at 5 a.m. for check-in. Daily permit will be issued on first-come, first-served basis throughout the season. The following maximum number of permits will be available each day: 75 for Area 1; 200 for Area 2; and 100 for Area 4.

6. *Check-out.* Hunters must turn in daily permits and check-out before 1 p.m. check-station closing time. Failure to do so will cause forfeiture of future hunting privileges.

7. *Hunter Safety Course.* Proof of completion of Florida Game and Fresh Water Fish Commission Hunter Safety Course is required to hunt Areas 1 and 4.

8. *Juveniles.* Hunters under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

9. *Boats.* Air thrust boats are prohibited, but the use of other boats and retrieving dogs is recommended.

10. *Dikes.* Shooting from or within 10 yards of any dike, roadway or railroad fill is prohibited.

11. *Blinds.* Only temporary blinds of native vegetation are permitted except in designated locations in Area 1.

12. *Decoys.* Decoys must be removed daily from the refuge.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 18, 1977.

RAY R. VAUGHN,
Regional Director.

[FR Doc.77-24632 Filed 8-24-77;8:45 am]

PART 32—HUNTING

Opening of Holla Bend National Wildlife Refuge, Ark. to Hunting of White-tailed Deer

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to hunting of Holla Bend National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: October 1 through November 30, 1977.

FOR FURTHER INFORMATION CONTACT:

Paul D. Daly, Refuge Manager, P.O. Box 1043, Russellville, Ark. 72801, telephone 501-968-2800.

SUPPLEMENTARY INFORMATION:

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Public hunting of deer with longbow and arrow on the Holla Bend National Wildlife Refuge is permitted. The hunting area, comprising approximately 6,367 acres, is delineated on a map available at refuge headquarters, P.O. Box 1043, Russellville, Ark. 72801, and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive NE., Atlanta, Ga. 30329. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of white-tailed deer, subject to the following special conditions:

1. Archery only.

2. A special refuge permit is required only on October 1 and 2, 1977.

3. Hunters may not enter the refuge earlier than 2 hours before official sunrise daily.

4. All deer taken must be reported to the refuge check station before leaving the refuge.

5. Only portable tree stands capable of being quickly removed are permitted. Stands must bear the name and address of the owner and must be removed from the refuge by December 5, 1977.

6. Hunters may harvest two deer of either sex.

7. All hunters must register upon entering the refuge each day.

8. Hunters are prohibited from driving vehicles across or otherwise damaging standing crops and may not park their vehicles so as to block any road or thoroughfare.

9. Each hunter under age 18 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile, but in no case should one adult have more than two juveniles under his/her supervision.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Date: August 18, 1977.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 121]

[Docket No. 17142; Notice No. 77-16]

CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

Proposed Aviation Security Regulations: Carriage of Weapons and Escorted Persons

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: This proposal would amend the Federal Aviation Regulations and permit the carriage of persons in the custody of armed escorts only when the escort is a civilian or military law enforcement officer. In addition, this proposal would amend the regulations to prohibit the carriage of a firearm in checked baggage unless it is carried in an appropriate container, require certain kinds of firearms to be carried in locked baggage, require a passenger to declare the presence of a deadly or dangerous weapon in baggage to be checked, and require the certificate holder to obtain a declaration from the passenger that any firearm to be carried in checked baggage is unloaded. These proposed amendments are intended to prescribe safety requirements that administrative experience indicates are appropriate.

DATE: Comments must be received on or before October 11, 1977.

ADDRESSES: Send comment on the proposals to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-24), Docket No. 17142, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert P. Jones, Air Operations Security Division (ACS-100), Civil Aviation Security Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-8409.

SUPPLEMENTARY INFORMATION: All interested persons are invited to participate in this proposed rule making by submitting such written data, views, or arguments as they may desire. Comments relating to the environmental, energy, economic, or inflationary impact that might result from adoption of the proposals contained herein are solicited and should be submitted. Comments should identify this regulatory docket and notice number (Docket No. 17142, Notice No. 77-16) and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before October 11, 1977, will be considered by the Administrator before taking action on the proposed rules. However, interested persons are urged to submit their comments as early as possible to facilitate rapid resolution of any issues raised. Comments received after the above date will be considered, as far as possible, without incurring expense or delay. The proposals contained in this notice may be changed in light of the comments received. All comments received will be available in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rule making will be filed in the public regulatory docket.

Interested persons may examine this notice of proposed rule making in the Rules Docket, AGC-24, Docket No. 17142. Copies of this notice may be obtained by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications should identify the notice number.

The current provisions of § 121.584 apply to the carriage by Part 121 certificate holders of any person in the custody of law enforcement personnel. The FAA believes that safety considerations require an amendment to § 121.584 which would make that section apply to the carriage of any passenger in the custody and control of an armed escort and prohibit their carriage if the armed escort is not a "law enforcement officer." The FAA is of the opinion that safety considerations do not justify requiring compliance with the provisions of § 121.584 when the escort is unarmed, since the decision by the responsible government entity not to use an armed escort indicates that the restrictions of § 121.584 need not be applied. In addition, the FAA believes safety considerations justify limiting the applicability of § 121.584 to scheduled passenger operations conducted by domestic and flag air carriers. However, it should be noted that by virtue of § 121.7, the requirements of proposed § 121.584 would continue to apply to commercial operators engaging in intrastate common carriage operations governed by § 121.7.

Accordingly, this proposal would amend § 121.584 to prohibit a domestic or flag air carrier from carrying any passenger under the custody and control of an armed escort on an airplane in scheduled passenger operations if the armed escort is not a "law enforcement officer." For purposes of clarification, a definition of the term "law enforcement officer" is added to § 121.584 by this proposal. It will be noted that military personnel are included in the definition of the term.

It will also be noted that the proposal would add an express provision to §121.584 to clearly exclude from its applicability the carriage of passengers who are under voluntary protective custody.

Section 121.584 does not currently limit the number of persons a law enforcement officer may have in his custody when those persons are not considered maximum security risk individuals. The FAA believes no more than two of those persons should be in the custody of any one law enforcement officer. Moreover, if an officer is accompanying a person considered in the maximum security risk category, the FAA believes he should not also have under his control any other person. Accordingly, this proposal would add those restrictions to § 121.584.

Finally, this proposal would amend current § 121.584(b) (1) and (2) and require an escorted passenger and his escort to be enplaned before all other passengers and be seated in the rearmost passenger seats only when they are boarded at the airport where the flight originates, since the applicability of current § 121.584(b) (1) has created burdensome passenger seating problems for the carriers when escorted passengers were boarded at enroute stops.

Since all of the foregoing proposals require numerous substantive and clarifying changes to § 121.584, a complete revision of that section is set forth in this proposal.

Section 121.585(b) presently requires a passenger to notify the certificate holder when a weapon is to be carried in checked baggage and whether the weapon is unloaded. Recently, incidents have occurred which indicate that passengers have not given the notification required as to whether a firearm carried in checked baggage is unloaded. To reduce the likelihood of loaded firearms being carried in checked baggage, it is proposed to amended § 121.585(b) to prohibit any passenger from carrying a loaded firearm in checked baggage, to require the passenger to declare the presence of a firearm in baggage to be checked, and to require the certificate holder to obtain a declaration from the passenger that any firearm to be carried in checked baggage is unloaded. The term "declaration" is used in this proposal to conform to the language used in Pub. L. 93-366 and it

may consist of an oral or written statement, whichever the certificate holder deems appropriate. Limiting the provisions of § 121.585(b) to firearms in checked baggage will be consistent with the intent of the law and is justified in the light of experience gained under the current regulation.

Experience indicates that § 121.585(b) also requires an amendment to ensure that firearms to be carried in checked baggage are carried in containers that the certificate holder considers appropriate for their transportation. Accordingly, such a requirement is proposed herein.

In addition, difficulties have been encountered in implementing the requirement in § 121.585(b)(2) that checked baggage containing a weapon must be locked. It is considered advisable that all firearms be carried in locked containers. This is particularly so in the case of handguns, since they are easily concealed, more often used for criminal acts than long-guns, and pose a greater hazard to safety in air commerce. On the other hand, containers for firearms such as shotguns and rifles are frequently not equipped with locking devices and are difficult to lock in any other manner. Furthermore, they are not easily concealed and do not constitute a significant hazard to safety in air commerce. In view of this, it is proposed to amend § 121.585(b) to require checked baggage containing a firearm to be locked only when the firearm is other than a shotgun, rifle, or other firearm normally fired from the shoulder position.

The principal authors of this document are Robert P. Jones, Civil Aviation Security Service and R. G. Leary Office of the Chief Counsel.

Accordingly, the Federal Aviation Administration proposes to amend Part 121 of the Federal Aviation Regulations as follows:

1. By revising § 121.584 to read as follows:

§ 121.584 Carriage of passengers under the control of armed law enforcement officers, other than passengers under voluntary protective escort.

(a) Except as provided in paragraph (e) of this section, no domestic or flag air carrier may knowingly carry a passenger in the custody of an armed escort on an airplane in scheduled passenger operations unless—

(1) The armed escort is a law enforcement officer. For the purpose of this paragraph, "law enforcement officer" means an official or employee (including military personnel) of the United States, of a State or political subdivision of a State, or of a municipality who is required by appropriate authority to maintain custody and control over an individual aboard an airplane;

(2) The air carrier is notified by the responsible government entity at least one hour, or in case of emergency as soon as possible, before departure—

(i) Of the identity of the passenger to be carried and the flight on which it is proposed to carry him; and

(ii) Whether the passenger is considered to be in a maximum risk category or not;

(3) If the passenger is considered to be in a maximum risk category, he is under the control of at least two armed law enforcement officers and no other passengers are under the control of those two law enforcement officers;

(4) No more than one passenger who the certificate holder has been notified is in a maximum risk category is carried on the airplane:

(5) If the passenger is considered to be not in a maximum risk category, he is under the control of at least one armed law enforcement officer. No more than two of these persons may be carried under the control of any one law enforcement officer;

(6) The air carrier is assured, prior to departure, by each law enforcement officer that—

(i) He is equipped with adequate restraining devices to be used in the event restraint of each passenger under his control becomes necessary; and

(ii) Each passenger under his control has been searched and does not have on or about his person or property anything that could be used as a deadly or dangerous weapon;

(7) Each passenger under the control of a law enforcement officer is—

(i) Boarded before any other passengers when boarding at the airport where the flight originates and deplaned at the destination after all other deplaning passengers have deplaned;

(ii) Seated in the rear-most passenger seat when boarding at the airport where the flight originates; and

(iii) Seated in a seat that is neither located in any lounge area, nor located next to or directly across from any exit; and

(8) A law enforcement officer having control of a passenger is seated between the passenger and any aisle.

(b) No air carrier operating an airplane under paragraph (a) of this section may—

(1) Serve food and beverage or provide metal eating utensils, to a passenger under the control of a law enforcement officer while aboard the airplane unless authorized to do so by the law enforcement officer; or

(2) Serve a law enforcement officer or the passenger under his control any alcoholic beverages while aboard the airplane.

(c) Each law enforcement officer carried under the provisions of paragraph (a) of this section shall, at all times, accompany the passenger under his control and keep him under surveillance while aboard the airplane.

(d) No law enforcement officer carried under paragraph (a) of this section or any passenger under his control may drink any alcoholic beverages while aboard the airplane.

(e) This section does not apply to the carriage of passengers under voluntary protective escort.

2. By revising § 121.585(b) to read as follows:

§ 121.585 Carriage of weapons.

* * * * *

(b) No certificate holder may knowingly permit any passenger to carry, nor may any passenger carry, while aboard an aircraft being operated by that certificate holder, in checked baggage, a loaded firearm. No firearm may be carried in checked baggage unless the following conditions are met:

(1) The passenger has declared to the certificate holder before checking the baggage that a firearm is in the baggage; and the certificate holder has obtained from the passenger, before checking the baggage, a declaration that any firearm carried in the baggage is unloaded. The declaration may be oral or written, as the certificate holder considers appropriate.

(2) The firearm is carried in a container the certificate holder considers appropriate for air transportation.

(3) When the firearm is other than a shotgun, rifle, or other firearm normally fired from the shoulder position, the baggage in which it is carried is locked, and only the passenger checking the baggage retains the key.

(4) The baggage containing any firearm is carried in an area other than the flight crew compartment that is inaccessible to passengers.

* * * * * *

(Secs. 313(a), 601, 604, and 902(1) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1424, and 1472; and section 6(c) of the Department of Transportation Act (49 U.S.C 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on August 17, 1977.

RICHARD F. LALLY,
Director,
Civil Aviation Security Service.

FEDERAL TRADE COMMISSION

[16 CFR Part 423]

CARE LABELING OF TEXTILE PRODUCTS AND LEATHER WEARING APPAREL

Publication of Presiding Officer's Report Regarding Proposed Revised Trade Regulation Rule

AGENCY: Federal Trade Commission.

ACTION: Publication of Presiding Officer's Report.

SUMMARY: On August 23, 1976 the Presiding Officer published in the FEDERAL REGISTER (41 FR 35863) final notice of the proposed revised trade regulation rulemaking proceeding. The Presiding Officer's Report, required by the Commission's Rules of Practice for rulemaking (16 CFR 1.13(f)) consisting of his summary, findings and conclusions with regard to the proposed revised rule and to those issues designated by him and

such other findings and conclusions as he saw fit to make, has been made public and placed on Public Record 215–22. When completed, the staff's report of the rulemaking record and its recommendations to the Commission also will be made public and notice thereof published in the FEDERAL REGISTER. The Presiding Officer's Report has not been reviewed or adopted by either the Bureau of Consumer Protection or the Commission itself and its publication should not be interpreted as reflecting the present views of the Commission or any individual Commissioner.

DATES: The sixty-day period which the Rules of Practice for rulemaking (16 CFR 1.13(g)) provide for public comment on both the report by the Presiding Officer and the report of the staff will not commence until the staff's report has been made public and placed on the public record. Therefore, comment on the Presiding Officer's report alone would be considered premature at this time.

FOR FURTHER INFORMATION CONTACT:

John A. Gray, Presiding Officer, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580 (202–724–1167).

Issued: August 25, 1977.

ALBERT H. KRAMER,
Director, Bureau of Consumer Protection.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[23 CFR Part 625]

[FHWA Docket No. 77–4]

DESIGN STANDARDS FOR HIGHWAYS

Advance Notice of Proposed Rulemaking

AGENCY: Federal Highway Administration, Department of Transportation.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Federal Highway Administration (FHWA) solicits suggestions and comments on establishing geometric design standards for resurfacing, restoration, and rehabilitation (R–R–R) projects.

DATES: Comments on this proposal must be submitted by October 25, 1977.

ADDRESSES: Written comments should be sent (preferably in triplicate) to: Federal Highway Administration, Docket No. 77–4, Room 4230, 400 7th Street, SW., Washington, D.C. 20590. All comments and suggestions received will be available for examination at the above address between 7:45 a.m. and 4:15 p.m. EST, Monday–Friday.

FOR FURTHER INFORMATION CONTACT:

Seppo Sillan, Highway Design Division, Office of Engineering, 202–426–0321; T. B. Foote, Office of the Chief Counsel, 202–426–0786, Federal Highway Administration, 400 7th Street, SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. EST, Monday–Friday.

SUPPLEMENTARY INFORMATION: The Federal-Aid Highway Act of 1976 (Pub. L. 94–280) amended Section 101 of Title 23, United States Code, by including in the definition of the term "construction" the words "resurfacing, restoration, and rehabilitation."

The conference report on H.R. 8235 [1] states that the purpose of the addition is:

> The definition is amended, coupled with the Secretary's existing authority on standards, would permit Federal funding of such projects as: Resurfacing or widening and resurfacing of existing rural and urban pavements with or without revision of horizontal or vertical alinement or other geometric features.

The new definition provides greater flexibility in the use of Federal funds for the purpose of obtaining maximum use from the extensive system of existing facilities by improving their serviceability through measures short of complete reconstruction.

Section 109, Title 23, United States Code, provides further that "the Secretary shall not approve plans and specifications for proposed projects on any Federal-aid system if they fail to provide for a facility (1) that will adequately meet the existing and probable future traffic needs and conditions in a manner conducive to safety, durability, and economy of maintenance; (2) that will be designed and constructed in accordance with standards best suited to accomplish the foregoing objectives and to conform to the particular needs of each locality."

There are two phrases in the above quotation that must be kept in mind when considering improvements under the new definition of construction. They are: "* * * conducive to safety * * *" and "* * * particular needs of each locality * * *." The Federal Highway Administration, as well as the States, has an interest and responsibility in maximizing safety within particular funding limitations. While information is available on construction and operating costs and general service benefits, good conclusive data is just not available on the safety sensitivity of individual or interacting geometric design elements. Each State is working from a different base. The individual State systems were constructed at different times and to different standards. The terrain and local conditions influencing social, economic, and environmental impacts are also very different and the variations in impacts are especially significant to R-R-R project design. Therefore, the establishment of national standards is difficult in light of the lack of extensive definitive data on the sensitivity of design criteria in regard to safety, and the vast differences between existing State highway systems and other local conditions.

[1] S. Rep. No. 94–741, 94th Cong., 2d Sess. (1976) at p. 43.

ALTERNATIVES

The Federal Highway Administration proposes to revise the existing Part 625 on Interim Design Standards for Highways, published in the FEDERAL REGISTER at 42 FR 6 (January 3, 1977), to include guidance on geometric design standards for R-R-R type of projects. All suggestions and proposals for establishing such standards are welcome. The following three specific alternatives are offered for comment:

Alternative 1. This "No Change" alternative would provide for continued operation within the provisions of existing Part 625. This provides for exceptions to existing design standards on an individual project basis.

Alternative 2. This alternative would incorporate by reference the American Association of State Highway and Transportation Officials' (AASHTO) "Geometric Design Guide for Resurfacing, Restoration, and Rehabilitation (R-R-R) of Highways and Streets, AASHTO." [2] The criteria in the guide would then be fully acceptable for Federal-aid R-R-R projects other than Interstate.

Alternative 3. Under this alternative the State highway officials and the FHWA Division Administrators would develop individual State criteria by using the "Geometric Design Guide for Resurfacing, Restoration, and Rehabilitation (R-R-R) of Highways and Streets, AASHTO 1977," [3] and other guides, policies, and standards referred to in existing Part 625. Final approval would be by the FHWA on an individual State basis.

The modifications of 23 CFR Part 625, that would be required by each of the alternatives outlined above are presented in Appendix A to this advance notice. It should be noted that other alternatives are also being solicited by this notice and that the text of Part 625 would change accordingly.

The apparent intent of the legislation is to allow Federal funding for projects that are designed to protect previous investments in highways by restoring those highways to their original or better condition without extensive revisions to the geometric features. Legislation also requires that all projects are to meet the traffic and safety needs.

The entire regulation, 23 CFR Part 625, to which this amendment is proposed was published in the FEDERAL REGISTER at 42 FR 6 (January 3, 1977).

NOTE.—The Federal Highway Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A–107.

This advance notice of proposed rulemaking is issued under the authority of 23 U.S.C. 109 and 315 and 49 CFR 1.48(b).

Issued on: August 17, 1977.

WILLIAM M. COX,
Federal Highway Administrator.

APPENDIX A—PROPOSED TEXTS OF THE AMENDMENTS TO 23 CFR PART 625 FOR EACH OF THE ALTERNATIVES SUGGESTED IN THIS ADVANCE NOTICE OF PROPOSED RULEMAKING.

Alternative 1. No change.

Alternative 2. Under this alternate a new paragraph (6) would be added to § 625.3(a). The existing paragraphs (6) through (21) would be renumbered as (7) through (22), respectively.

§ 625.3(a)(6). Geometric Design Guide for Resurfacing, Restoration, and Rehabilitation (R–R–R) of Highways and Streets, AASHTO 1977.

Alternative 3. Under this alternate a new paragraph (b) would be added to § 625.5. The existing paragraphs (b) and (c) would be redesignated as (c) and (d), respectively.

§ 625.5(b). Resurfacing, restoration, and rehabilitation projects on highways other than freeways.

(1) State highway agencies and the FHWA may on an individual State basis reach an agreement that the minimum criteria set forth in section 625.3(a)(1)–(5) of this chapter do not apply to their nonfreeway resurfacing, restoration, and rehabilitation (R–R–R) projects including minor pavement widening and shoulder improvements.

(2) When such agreement is reached, the State highway officials in consultation with the FHWA Division Administrator may develop guidelines which set forth the design criteria and the type of R-R-R nonfreeway projects to which they apply. In developing these guidelines the "Geometric Design Guide for Resurfacing, Restoration, and Rehabilitation (R-R-R) of Highways and Streets, AASHTO 1977," and the criteria set forth in section 625.3(a)(1)–(5) of this chapter should be used.

(3) Upon FHWA approval of a State's guidelines, approval may be given to project plans for the types of projects specified therein if the design conforms to the criteria set forth in the guidelines.

[23 CFR Part 630]

[FHWA Docket No. 76–14]

TRAFFIC SAFETY IN HIGHWAY AND STREET WORK ZONES

Guidelines for Development of Process Management Plans; Proposed Rulemaking

AGENCY: Federal Highway Administration, DOT.

ACTION: Proposed Rule.

SUMMARY: The Federal Highway Administration (FHWA) proposes to issue a rule which could require States to prepare process management plans assuring that adequate consideration is given to the safety of motorists, construction workers and pedestrians in construction zones on Federal-aid highway projects.

DATES: Comments must be received on or before October 25, 1977.

ADDRESS: FHWA Docket No. 76–14, Federal Highway Administration, Room 4230, 400 Seventh Street, SW., Washington, D.C. 20590. All comments and suggestions received will be available for examination at the above address between 7:45 a.m. and 4:15 p.m. ET, Monday through Friday.

FOR FURTHER INFORMATION CONTACT:

Mr. Ken Ziems (202–426–4847), Office of Highway Operations; or Mrs. Kathleen S. Markman (20–426–0790), Office of the Chief Counsel, Federal Highway Administration, 400 Seventh Street SW., Washington, D.C. 20590. Office hours Monday–Friday from 7:45 a.m. to 4:15 p.m. ET.

SUPPLEMENTARY INFORMATION: On September 20, 1976, the FHWA issued a notice of proposed rulemaking requesting suggestions for increasing safety in the construction zones of Federal-aid highways. 41 FR 41712 (September 23, 1976). Comments were received from over 130 State and local agencies, associations, organizations, manufacturers, suppliers, contractors, consultants, and individuals. The principal subjects of the comments are discussed below.

TRAFFIC CONTROL PLANS

The FHWA requested comments on the inclusion in the plans, specifications and estimates (PS&E) for each project of a reasonably specific traffic control plan (TCP) for moving traffic through or around a construction zone in a manner that is conductive to the safety of motorists and workers. One hundred and one replies addressed this question. Fifty-two replies generally supported the concept of requiring a TCP while 49 opposed.

Of those who supported the concept of a TCP, 18 suggested that the need for a TCP should depend on the size and complexity of the project. Eight replies suggested that the contractor develop and submit the TCP. Several parties supporting the concept of a TCP suggested that the traffic control devices be specified as to type and location, that they be made bid items and that monetary arrangements be made for maintaining the devices.

The replies which opposed the need for a TCP did so because they believed that TCP's should be the responsibility of the State, because they believed that a TCP in the Federal requirements would be too restrictive, or because they were afraid that liability for injuries would be shifted from the contractor to the State.

The FHWA proposes to improve construction zone safety by requiring each State to prepare Process Management Plans (PMP) to be followed in that State. The FHWA will not specify the particulars in each PMP but it will review each PMP. This approach is intended to leave substantial responsibility with the States, to provide flexibility for States to carry out both large and small projects, and to prevent Federal requirements from becoming unnecessarily restrictive. The proposed regulations provide for the funding of the necessary traffic control devices.

RESPONSIBLE STAFF PERSONNEL

The FHWA requested comments on the need for a designated individual to assure that the TCP and other safety aspects of the project are effectively administered. Ninety-two parties offered comments on this question. Thirty-two replies generally supported the need for a designated individual and 60 opposed the concept. Most of those opposing the concept stated that the project engineer should be responsible for administering the TCP because of his education, experience and authority to do the job.

The proposed regulation provides the flexibility for determining who should be responsible for traffic control.

SPECIFIC ELEMENTS OF A TCP

In the advance notice of proposed rulemaking, FHWA requested comments on specific elements of a TCP, such as signing, application and removal of pavement markings, etc. Many replies contained specific recommendations. The proposed regulation contains no specific requirements; however, it is anticipated that FHWA's review of each PMP will include a determination that all elements stated in the advance notice have been considered as necessary.

A draft copy of this notice of proposed rulemaking was previously provided to the American Association of State Highway and Transportation Officials and the Center for Auto Safety, and was placed in the public docket (no. 76–14) on July 1, 1977. The draft was provided for informational purposes only; no comments were solicited or received.

NOTE.—The FHWA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Orders 11821 and 11949 and OMB Circular A–107.

In consideration of the foregoing, the Federal Highway Administration proposes to add a new Subpart J to part 630, Chapter I of title 23 Code of Federal Regulations as set forth below.

Issued on August 22, 1977.

WILLIAM M. COX,
Federal Highway Administrator.

PART 630—PRECONSTRUCTION PROCEDURES

Subpart J—Traffic Safety in Highway and Street Work Zones

Sec.

630.1002 Purpose.
630.1004 Background.
630.1006 Definitions.
630.1008 Action.
630.1010 Implementation.
630.1012 Contents of the process management plan.

AUTHORITY: 23 U.S.C. §§ 109(b), 109(d), 315, and 402(a); 23 CFR 1.48 (b).

V42N165 AUG 25 77 UM V

Subpart J—Traffic Safety In Highway and Street Work Zones

§ 630.1002 Purpose.

The purpose of this subpart is to provide to highway agencies and FHWA field offices guidelines for the development of process management plans which will assure that adequate consideration is given to providing for the safety of motorists, construction workers and pedestrians on Federal-aid highway construction projects. These guidelines identify items and set forth minimum requirements which shall be included in the process management plans. The guidelines recognize the unique situation of each State and do not prescribe specific organizations or procedures. While these guidelines are not mandated for use on work not involving Federal-aid funds, highway agencies are encouraged to apply them on all work where significant traffic interference is anticipated.

§ 630.1004 Background.

Part VI of the Manual on Uniform Traffic Control Devices (MUTCD) [1] sets forth basic principles and prescribes standards for the design, application, installation, and maintenance of the various types of traffic control devices for highway and street construction, maintenance operations, and utility work. The Manual cannot address in depth the variety of situations that occur regarding traffic control in work zones. Although agencies responsible for traffic control and work area protection have attempted to develop some guidelines for themselves, a coordinated and comprehensive effort to develop greater uniformity through guidelines and procedures is desirable.

§ 630.1006 Definitions.

(a) Process Management Plan (PMP)—A developed action plan which when put into effect will detail the procedures that a State highway agency utilizes to assure that adequate provisions are made for the safety of motorists, pedestrians, and workmen on Federal-aid highway construction projects.

(b) Traffic Control Plan (TCP)—A detailed plan for handling traffic through a specific highway or street work zone or project. The TCP can vary from a complex plan of numerous requirements for geometrics, signing, work restrictions, and other limitations and provisions to a standard treatment per the MUTCD.

(c) Major Revision—A revision that changes the basic concept or application of the PMP or revises the responsibilities therein. For example, revisions which change the basis on which the complexity of the TCP is predicated, or a change in the basic responsibility for construction zone safety are considered "major."

(d) Minor Revision—A revision that does not change the basic concept of the PMP or revise the responsibilities therein. For example, changes to correct or clarify, to include updated or new reference material, and other similar revisions are considered "minor."

§ 630.1008 Action.

(a) To meet the requirements of these guidelines each State highway agency shall develop a PMP to be followed in providing for and assuring the safety of motorists, pedestrians, and construction workers on Federal-aid highway construction projects.

(b) The PMP shall be consistent with the provisions of the MUTCD.

(c) Within the limits of their resources, FHWA field offices will assist and advise the States in the development of the PMP.

(d) The State shall transmit, under signature of the chief officer of the highway agency, copies of the PMP to the FHWA Division Administrator.

(e) The Division Administrator will review and, where appropriate, recommend approval of the PMP and any major revisions thereto to the Regional Federal Highway Administrator who has final approval authority.

§ 630.1010 Implementation.

(a) The FHWA Division shall review the State's implementation of its PMP at appropriate intervals. The FHWA may take such corrective action as deemed appropriate if the PMP is not being followed or achieving the results intended.

(b) An approved PMP shall have provisions to permit revision or adoption of improved procedures and to meet changing circumstances or assignments of responsibilities.

(c) Major revisions to the PMP will require FHWA approval action as described in § 630.1008. Minor revisions may be approved by the Division Administrator.

§ 630.1012 Contents of the Process Management Plan.

(a) The PMP shall address but not necessarily be limited to the following subject areas.

(1) *Traffic Control Plan (TCP).*—(i) The TCP should be developed in such a manner as to allow for varying degrees of complexity depending upon the project and may range in scope from a very detailed, comprehensive plan designed for a complicated project to a standard plan, scheme, or MUTCD provision for a simple project. A TCP should be included in the PS&E for each proposed project. Detailed TCP's will be required for all Federal-aid freeway and major arterial projects that are to remain open to traffic during construction.

(ii) The scope of the TCP should be determined during the planning and design phases of the project. The PMP guidelines should provide for modifying or altering the TCP to meet unforeseen or changing conditions, and for obtaining timely approvals of any revisions.

(2) *Responsible person.*—(i) The contracting agency shall designate a person at the project level who will have the primary responsibility and sufficient authority for assuring that the TCP and other safety aspects of the contract are effectively administered. The project or resident engineer may have this responsibility. However, on large complex projects, another person should be assigned at the project level to handle traffic control, on a full-time basis, if needed.

(ii) The Division Administrator should be notified who the "responsible person" is to be at the time when "Concurrence in Award" is requested.

(3) *Pay items.*—The PS&E should include unit pay items for providing, installing, moving, replacing, maintaining, and cleaning traffic control devices required by TCP. It is expected that the lump sum method of payment would be used only to cover very small projects, projects of short duration, contingency, and general items.

(4) *Training.*—The State highway agency should train persons responsible for development, design, and implementation of traffic control, particularly those persons responsible for traffic control at the project level. This training should be required and should be updated on a continuing basis.

(5) *Emergency plans.*—The State should develop contingency plans for each project which could be implemented in the event of emergencies, major backups, or disasters. This plan would allow for the movement of police, fire, ambulance, and other emergency vehicles through, across, or around the projects. Contingency plans could not be finalized or developed for all situations. However, the PMP should contain provisions for addressing this area and generally anticipated methods for handling this situation should be outlined at the preconstruction conference.

(6) *Process review and evaluation.*—(i) A review team consisting of State central office design and construction personnel should review randomly selected active projects throughout the State for the purpose of assessing the effectiveness of the PMP. The State may elect to include an FHWA representative as a member of this team. These reviews should be conducted on a continuing basis with the intent that the findings would lead to improvements or modifications in the PMP.

(ii) It is expected that the State highway agency would have district level staff persons with expertise in traffic control who would be available to review project traffic control and offer assistance to the project people on a continuing basis.

(iii) A method to record and analyze accident data should be developed. This information should be provided to and used by appropriate level staff persons as a basis for improving or modifying the PMP. Such construction zone accident data should also be used to continually correct deficiencies which are found to exist on individual projects.

(b) The PMP shall contain guidelines for determining how each area will be handled. The State has the responsibility for developing the guidelines based on the criteria in § 630.1012(a).

[FR Doc.77-24747 Filed 8-24-77;8:45 am]

[1] The MUTCD is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. It is incorporated by reference at 23 CFR 625.3.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 766-6]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Proposal of Emission Test Procedures for Stage II Gasoline Vapor Incinerators

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The proposed regulations for Stage II gasoline vapor control at service stations (FEDERAL REGISTER, Vol. 41, No. 211, November 1, 1976) require that performance tests be conducted on installed vapor control systems. The proposal includes emission test procedures for most types of vapor control systems and associated equipment. However, the proposal does not describe test methods for measuring mass emission rates from gasoline vapor incinerators which are often used as secondary control measures with vacuum-assisted vapor collection systems. Such test methods have now been developed and are being proposed at this time.

DATES: Comments must be received on or before October 11, 1977.

ADDRESS: Comments should be submitted in triplicate to the Emission Standards and Engineering Division, Environmental Protection Agency, Research Triangle Park, North Carolina 27711, Attention: Mr. Don R. Goodwin.

All public comments received may be inspected and copied at the Public Information Reference Unit, Room 2922, 401 M Street, SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Peter Westlin, Emission Standards and Engineering Division, Environmental Protection Agency, Research Triangle Park, North Carolina 27711, Telephone No. 919-541-5276.

SUPPLEMENTARY INFORMATION: Incinerators commonly used for gasoline vapor emission control follow a similar general design. Most vapor control systems store excess vapors in a holding tank, usually the stations' underground supply tanks. Upon a signal that varies with the type of system, the incinerator draws vapors from the holding tank and routes the vapors to the burner units. In a few systems, vapors are routed directly from the dispensing islands to the burner. Ignition of vapors occurs either by electric discharge or via a gas pilot flame. Combustion air is supplied by natural draft in most cases, although a few systems use a forced draft blower for combustion air. Combustion gases exhaust through a metal stack. For safety reasons, the incinerator is somewhat removed from the pumping islands and the traffic lanes of the service station. The roof of the garage building is a common location for these units.

The objectives of the test procedures include the determination of a mass emission rate for hydrocarbons for the vapor incinerator exhausts. The mass emission rate is defined as the mass of hydrocarbons emitted per volume of liquid gasoline transferred at the station. The procedures proposed here also provide a means for calculating a mass control efficiency. Mass control efficiency is the percent reduction of inlet hydrocarbons achieved by the incinerator.

Two test methods are being proposed. The first is a screening method which is relatively simple and which can be used to determine the need for further, more rigorous testing. The assumptions upon which the screening method is based are designed such that any significant inaccuracy in the mass emission rate estimation is in the direction of a positive bias. Thus, the results of a screening method test that show compliance with the regulation would indicate that an incinerator was, indeed, in compliance. Test results showing that the emission standard is exceeded by only a small margin would not necessarily indicate a noncompliance, but rather would serve to indicate the need for a retest with a more rigorous procedure. Test results indicating emissions well above the emission standard would show noncompliance.

The second, more rigorous, compliance test method involves additional measurements and, thus, is more costly and time consuming to apply. However, the results are reliable and accurate.

The screening test procedure requires continuous measurements only of carbon dioxide and hydrocarbon emissions over several burning cycles. These measurements allow a calculation of carbon balance wherein incinerator efficiency is determined using a ratio of carbon in the hydrocarbon emission to the total carbon in the hydrocarbon and carbon dioxide emissions. An estimated correction for carbon dioxide concentrations in ambient air is included. This procedure assumes carbon monoxide concentrations are small relative to carbon dioxide and hydrocarbons. This assumption is true for high efficiency units. For low efficiency units, an increase in the unmeasured carbon monoxide emissions will lead to a slight negative bias in the efficiency calculations and a positive bias in the mass emission rate estimation. The calculation for estimating the mass emission rate is based on an inlet hydrocarbon mass rate of 9.0 grams per gallon (g/gal). The 9.0 g/gal value is based on an excess air return rate at the dispensing islands of 100 percent and a 100 percent saturation of the vapor-air mixture at the burner inlet. Also accounted for in the 9.0 g/gal are possible breathing losses associated with the ingestion of fresh dilution air during liquid dispensing. Depending on the system design, this mass emission rate estimation may overstate the true mass emission rate by a factor of two. The mass emission rate is determined in the method by multiplying the 9.0 g/gal value by one minus the calculated efficiency fraction.

The compliance method expands on the screening method and involves actual measurement of the inlet hydrocarbon mass rate, the gasoline liquid volume dispensed, and carbon monoxide in the outlet gas stream. In order to accurately determine the inlet hydrocarbon mass rate and, thus, an accurate mass emission rate, the measurements for the compliance test method must extend over a continuous period of several days.

All hydrocarbon measurements are made with a flame ionization detector. Limited results from recent field tests of vapor incinerators indicate that the hydrocarbons exhausted are of the types that produce good responses on a flame ionization analyzer (i.e., alkanes, benzene, toluene, and some acetone). Calibration of these instruments for field use is performed with known concentrations of propane in air in the range of concentrations expected.

Recent field tests have supplied information about the concentrations of hydrocarbons found in the vapor-air mixture of the burner inlet gas and the exhaust gases. The range of inlet concentration values is from 20 to 50 percent by volume as propane (13 to 33 percent actual vapor volume). For these high concentrations, modifications to most commonly available hydrocarbon analyzers are necessary. One accepted method of equipment modification is to decrease the size of the sample to the analyzer through the use of a smaller diameter sample capillary. In any case, some modification to the sampling system that allows direct and continuous measurement of hydrocarbon concentrations up to 50 or 60 percent by volume as propane is sufficient.

Concentrations of hydrocarbons in the exhaust gases are in the range of 20 to 10,000 parts per million by volume (ppmv) as propane. The great range of concentration is due to the intermittent burning cycles of the incinerators. At each ignition of the inlet gases, a short duration peak of high concentration hydrocarbons is emitted. After ignition when steadier burning of the vapors occurs, the hydrocarbon concentration returns to a much lower level. In addition, the incinerators often have more than one burning level. A lower level is used for light inlet loads, while a higher burning level is switched on for heavy inlet loading. Because of this variation, it is necessary to continuously measure and record hydrocarbon concentration. Analyses of these data should include peak values, average values, and the respective duration percentages.

The analysis for total gaseous carbon neglects any carbon in the form of soot or smoke in the exhaust gas. However, if soot does exist in the exhaust, this is a clear indication that poor combustion is occurring and the efficiency of the control system will suffer. The system is declared unacceptable if any soot or visible emissions do occur during the test period.

Concentrations of CO_2 will range from 0.2 to 2.5 percent by volume and concentration of CO should be only a few ppmv up to 500 ppmv. Nondispersive infrared analyzers with continuous recorders are accurate for these measurements. Continuous recordings of CO_2 and CO data are necessary to correlate the CO_2 and

V 42 165 AUG 25 77 UM

CO level with the changing hydrocarbon readings. The ambient concentration of CO_2 is measured for the compliance test procedure periodically with the CO_2 analyzer and an average ambient CO_2 level is determined.

Gas volume flow measurements are necessary in the compliance test method in order to establish inlet mass emission rates. Inlet gas volumes can be measured by installing a gas volume meter into the vapor inlet line and recording total volume readings for each burning cycle. Because of the changing burning cycles of these incinerators, the inlet gas volumes will vary over the burning periods. A continuous recording of volume input is necessary in determining flow rates for the different cycles.

For the compliance test procedure, it is necessary to determine the liquid volume dispensed during the test period and be able to relate the hydrocarbon emissions to a specific volume of gasoline. The volume of gasoline dispensed during the test period can be obtained from daily pump readings. It is important to establish a relationship between the period of burning for the incinerator and the volume of liquid dispensed and must be done over an extended test period. This test period should be no less than three working days. Accuracy and precision of this procedure can be high if the measurements are made with high quality, well calibrated instruments. For the mass emission rate calculation, an error in measurement inlet or exhaust hydrocarbon concentration of 10 percent will produce a similar error in $(m/L)_e$. For the control efficiency calculation, an error in measurement produces less of an effect on the resulting calculated efficiency.

MISCELLANEOUS

This action is being proposed under the authority of sections 110, 113, 114, 301(a) of the Clean Air Act, as amended.

(42 U.S.C. 1857c-5, 1857c-8, 1857c-9, 1857g (a).)

NOTE.—The Environmental Protection Agency has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Analysis under Executive Order 11821 and 11949 and OMB Circular A-107.

Dated: August 16, 1977.

DOUGLAS M. COSTLE,
Administrator.

It is proposed to amend Part 52 of Title 40 of the Code of Federal Regulations by adding Test Procedures III and IV to Appendix F as follows:

APPENDIX F—FIELD TEST PROCEDURES FOR STAGE II CONTROL SYSTEMS

* * * * *

III. GASOLINE VAPOR CONTROL INCINERATOR SCREENING TEST METHOD

1. *Principle.* Hydrocarbon and carbon dioxide concentration measurements are made in the exhaust gas. These values are used to calculate an estimated control efficiency and mass emission rate based on a carbon mass balance.

2. *Applicability.* This method is applicable as a periodic screening test of performance for gasoline vapor control incinerators used at service stations equipped for Stage I and Stage II vapor control.

3. *Definitions.*

3.1 Stage I. Underground supply tank refilling operations.

3.2 Stage II. Vehicle refueling operations.

3.3 Vapor Incinerator. A combustion device designed to burn excess gasoline vapors collected during Stage I and/or Stage II operations.

4. *Summary of Method.* This procedure describes test procedures and test conditions to be followed in determining an estimated vapor control efficiency for gasoline vapor control incinerators. The exhaust hydrocarbon concentration is measured with a flame ionization detector and exhaust carbon dioxide concentration is measured with a nondispersive infrared analyzer. Average values obtained from strip chart analyses are used to calculate an estimated combustion efficiency based on a carbon mass balance.

5. *Test Scope and Conditions Applicable to Test.*

5.1 Service Station Status During Test Period. The procedure is designed to measure incinerator control efficiency under service station conditions that are normal for the station under test.

5.1.1 Closing of Dispensing Pumps. All dispensing pumps interconnected with or sharing the control system under test shall remain open as is normal for the service station operation.

5.1.2 Vehicle Refueling. Vehicles shall be refueled as is normal for the period of the test.

5.1.3 Underground Tank Refilling. As underground tank refilling produces vapor volumes drastically different from vehicle refueling operations, no underground tank refilling should be performed during the test period. A separate test period may be set for determining vapor control efficiency during Stage I operations.

5.2 Fuel RVP. The RVP (Reid Vapor Pressure) of the fuel dispensed during the test shall be within the range normal for the geographic location and time of year of the test.

6. *Test Measurements and Equipment.*

6.1 Exhaust Hydrocarbon Concentration. A flame ionization detector calibrated with known concentrations of propane in hydrocarbon free air is used to measure total hydrocarbon concentrations in the exhaust gas. The sampling probe should be of a material unaffected by combustion gases (i.e., stainless steel, glass, etc.). The sample pump should be oil-free and leak-tight. A continuous recorder is required to record real-time output from the hydrocarbon monitor.

6.2 Exhaust Carbon Dioxide Concentration. A nondispersive infrared analyzer calibrated with known quantities of carbon dioxide in air is used to measure carbon dioxide concentrations in the exhaust gas. The criteria that apply to the sample probe, sample pump, and recorder for the hydrocarbon measurement also apply here.

6.3 Calibration and Span. Section 9.0 describes the calibration and span gas requirements for these instruments.

7. *Test Procedure.*

7.1 Visual Inspection. Any visible emissions from vapor incinerators are an indication of poor combustion. Should visible emissions from the exhaust (i.e., soot or smoke) be detected, the control system is unacceptable and the problem must be attended before any further emission testing.

7.2 Sample Location. The sampling point should be located in the exhaust stack downstream of the burner far enough to permit complete mixing of the combustion gases. For most sources, this point is at least eight stack diameters downstream of any interference and two diameters upstream of the stack exit. There are many cases where these conditions cannot be met for these vapor incinerators because of large diameter stacks or other reasons. For the purposes of this screening test procedure, it is sufficient to locate the sampling point at the center of the stack exit. One point sampling is sufficient.

7.3 Monitoring Equipment Set-up. Span and calibrate monitors (hydrocarbon analyzer and nondispersive infrared CO_2 analyzer) according to procedures in Section 9. Connect sampling probes, pumps, and recorders to the monitors and amount sampling probes in the stack.

7.4 Measurements. Mark strip charts at the start of the test period and proceed with hydrocarbon and carbon dioxide measurement for at least three burning cycles of the incinerator. Depending on the design of the system, the total test period will range from 15 to 45 minutes. (NOTE: low volume stations may produce lower excess vapor volumes causing a longer test period.) Sampling for hydrocarbons and carbon dioxide must occur simultaneously and strip chart recordings should correspond as to sample times.

8. *Calculations.*

8.1 Terminology.

CO_2 = Outlet carbon dioxide concentration (ppmv).
HC = Outlet hydrocarbon concentration (ppmv).
$\%E$ = Percent control efficiency (%).
$(m/L)_e$ = Estimated mass emission rate.
100 = Percent correction factor.
3 = Number of carbon atoms in a propane molecule, correction for CO_2 levels.
300 = Average CO_2 levels in ambient area (ppmv).

8.2 Averaging of Recorded Values. The strip chart recording will show variations in hydrocarbon and carbon dioxide concentration during the burning cycles. An average value for each should be calculated from the recorded curves. Averages may be determined using preliminary, triangulation, or integrating techniques.

8.3 Percent Control Efficiency Calculation.

$$\text{Percent } E = 100\left[1 - \frac{HC}{HC + \frac{CO_2 - 300}{3}}\right]$$

8.4 Estimated Mass Emission Rate Calculation.

$$(m/L)_e = 9.0\left[1 - \frac{\text{percent } E}{100}\right]$$

NOTE.—This calculation can be completed for average values obtained during normal vehicle refueling operations or using average values obtained during Stage I operations, if hydrocarbon and carbon dioxide measurements are made accordingly.

9. *Calibration and Specifications.*

9.1 Total Hydrocarbon Analyzers. Flame ionization detectors are acceptable for measurement of exhaust hydrocarbon concentrations. Calibrations should be performed following the manufacturer's instruction for warm-up time and instrument adjustments. Calibration gases should be propane in hydrocarbon-free air of known concentrations prepared gravimetrically with measured mass quantities of 100 percent propane. A calibration curve shall be produced using a minimum of five (5) prepared calibration gases in the range of concentrations expected during testing. The calibration curve shall be used in determining measured levels during testing. The calibration of the instrument need not be performed on the test site, but shall be performed prior to and immediately following the test program. During the test program, the hydrocarbon analyzer shall be spanned on site with zero gas (<3 ppmv C) and with known concentration of propane in hydrocarbon-free air at a level near the highest concentration expected at the test point. The spanning procedure shall be performed at least once prior to the test and at least once following the measurement period.

Conditions in calibration and span gas cylinders must be kept well below critical pressures and temperatures in order to avoid condensation of propane affecting the gas concentrations. A safety factor of two (2) is recommended.

The fuel for a flame ionization analyzer should be a mixture of hydrogen and helium using a 40/60 ratio (H_2/He). A 40/60 mixture of hydrogen and nitrogen (H_2/N_2) may be used as a substitute.

9.2 Carmon Dioxide Analyzers. Nondispersive infrared analyzers are acceptable for measurement of exhaust carbon dioxide concentrations. Calibrations should be performed following the manufacturer's instructions for warm-up time and instrument adjustments. Calibration gases should be known concentrations of carbon dioxide in air. A calibration curve shall be produced using a minimum of five (5) prepared calibration gases in the range of concentrations expected during testing. The calibration curve shall be used in determining measured levels during testing. The calibration of the instrument need not be performed on the test site, but shall be performed prior to and immediately following the test program. During the testing, the analyzer shall be spanned on site with zero gas (<3 ppmv C) and with a known concentration of carbon dioxide in air at a level near the highest concentrations expected at the test point. The spanning procedure shall be performed at least once prior to the test and at least once immediately following the measurement period.

IV. GASOLINE VAPOR CONTROL INCINERATOR COMPLIANCE TEST METHOD

1. *Principle.* Hydrocarbon, carbon dioxide, and carbon monoxide concentrations in the exhaust gases and gas volume and hydrocarbon concentrations in the inlet vapor and ambient carbon dioxide concentrations are measured. These values are used to calculate the incinerator hydrocarbon control efficiency and mass emission rate based on a carbon mass balance.

2. *Applicability.* This method is applicable as a compliance test method of performance for gasoline vapor control incinerators used at service stations equipped for Stage I and Stage II vapor control.

3. *Definitions.*

3.1 Stage I. Underground Supply Tank Refilling Operations.

3.2 Stage II. Vehicle Refueling Operations.

3.3 Vapor Incinerator. A combustion device designed to burn excess gasoline vapors collected during Stage I and/or Stage II operations.

4. *Summary of Method.* This procedure describes test equipment, methods, and test conditions to be followed in determining compliance with the emissions regulation for gasoline vapor control incinerators. The inlet hydrocarbon mass rate is determined from hydrocarbon concentrations and volume measurements along with establishing the gasoline liquid volume dispensed over the test period. Exhaust hydrocarbon, carbon dioxide, and carbon monoxide concentrations are measured over an extended test period of at least three days. An accurate measure of these values over this long period provides for an accurate determination of hydrocarbon mass emission rate.

Hydrocarbon measurements are made with a flame ionization detector calibrated with known concentrations of propane in hydrocarbon-free air. Carbon dioxide and carbon monoxide concentrations are measured with nondispersive infrared analyzers calibrated with known concentrations for the appropriate gas. Continuous recordings of these values are analyzed and used to calculate a combustion efficiency and mass emission rate.

5. *Test Scope and Conditions Applicable to Test.*

5.1 Service Station Status During Test Period. The procedure is designed to measure incinerator control efficiency under service station conditions that are normal for the station under test.

5.1.1 Closing of Dispensing Pumps. All dispensing pumps interconnected with or sharing the control system under test shall remain open as is normal for the service station operation.

5.1.2 Vehicle Refueling. Vehicles shall refuel as is normal for the period of the test.

5.1.3 Underground Tank Refilling. As underground tank refilling produces vapor volumes drastically different from vehicle refueling operations, no underground tank refilling should be performed during the test period. A separate test period may be set for determining vapor control efficiency during Stage I operations.

5.2 Fuel RVP. The RVP (Reid Vapor Pressure) of the fuel dispensed during the test shall be within the range normal for the geographic location and time of year of the test.

6. *Test Measurements and Equipment.*

6.1 Hydrocarbon Concentrations. Flame ionization analyzers calibrated with known concentrations of propane in air are used to measure hydrocarbon concentrations at both the incinerator inlet and exhaust. (A properly calibrated nondispersive infrared hydrocarbon analyzer may be substituted for the inlet hydrocarbon concentration measurements.) A suitable continuous recorder is required to record real-time output from the hydrocarbon monitors.

6.2 Sample Handling Systems. The sample pumps should be properly sized and of a material unaffected by combustion gases or strong hydrocarbon vapors. The sampling probes must also be of suitable material. The sample handling systems should not be manifolded for the different instruments, but each measurement should be from a separate sample system. This requires three sample probes for exhaust measurements which may be gauged for easy probe handling.

Sampling in the exhaust of these vapor incinerators often requires sample traversing as described in EPA Reference Method 1. However, as these measurements must be made continuously over a long period of time and the incinerator burning periods are short, an alternative sampling method is required. It is suggested that the sample probes be constructed of stainless steel tubing and plugged at one end (i.e., the end opposite the sample line connection). Sampling holes are drilled into the tube at the sample traverse point location defined by EPA Reference Method 1. The probes may then be mounted securely in the stack at one stack diameter for a round stack or at the center line of a rectangular stack for continuous sampling of exhaust gases. The probes for all exhaust gas measurements should be identical so that results represent the same stack gases. The inlet hydrocarbon sample probe need be only a simple sample top on the volume meter in the vapor inlet line.

6.3 Carbon Dioxide and Carbon Monoxide Concentrations. Nondispersive infrared analyzer calibrated with known quantities of carbon dioxide or carbon monoxide in air are used to measure carbon dioxide and carbon monoxide in the exhaust gases and the ambient air. The criteria that apply to the sample probes, sample pump, and recorder for the hydrocarbon measurements also apply here.

6.4 Gas Volume Meter. A dry gas volume meter constructed of suitable material and appropriately sized is used to measure inlet gas vapor volume to the vapor incinerator. The meter should be equipped with taps for a thermocouple and a hydrocarbon sample line.

6.5 Calibrations and Span. Section 9.0 describes the calibrations and span gas requirements for these instruments and meter.

7. *Test Procedure.*

7.1 Visual Inspection. Any visible emissions from vapor incinerators are an indication of poor combustion. Should visible emissions from the exhaust (i.e., soot or smoke) be detected, the control system is unacceptable and the problem must be attended before any further emission testing.

7.2 Sample Location. The sampling point should be located in the exhaust stack downstream of the burner far enough to permit complete mixing of the combustion gases. For the most sources, this point is at least eight stack diameters downstream of any interference and two diameters upstream of the stack exit. There are many cases where these conditions cannot be met for these vapor incinerators because of large diameter stacks or other reasons. The sample traverse line should be no less than one stack diameter from the stack exit. The inlet sampling location is in the system inlet line routing gasoline vapors to the burner. Install the gas volume meter into the line so that all vapor passes through the meter. The hydrocarbon sample tap and a thermocouple connection to monitor gas temperature must be installed on the inlet side of the volume meter. Note: If the pressure at the inlet side of the burner is substantially different from atmospheric pressure, this line pressure must also be measured.

7.3 Monitoring Equipment Set-up. Span and calibrate monitors (hydrocarbon analyzers and nondispersive infrared CO_2 and CO analyzers) according to precedures in Section 9. Connect sampling probes, pumps, and recorders to the monitors and mount sampling probes in the stack and at the inlet.

7.4 Measurements. Mark strip charts at the start of the test period and proceed with hydrocarbon, CO_2, and CO measurements for at least three continuous 24-hour periods. For the half-hour periods each day, disconnect the CO_2 monitor and monitor the ambient CO_2 levels. This step requires that the CO_2 instrument be calibrated for the lower concentrations expected at ambient levels.

All sampling of inlet and exhaust gases must occur simultaneously and strip chart recordings are to correspond as to sample times.

7.5 Gasoline Liquid Volume. Record the gasoline liquid dispensed volume for each 24-hour period.

8. *Calculations.* The calculations for the compliance test method necessary to determine a hydrocarbon reduction efficiency and a mass emission rate are shown below. The terminology listed provides a review of the measurements that are necessary.

8.1 Terminology.

CO_e=Carbon monoxide concentration in the exhaust gas (ppmv).
CO_{2a}=Average carbon dioxide concentration in the ambient air (ppmv).
CO_{2e}=Carbon dioxide concentration in the exhaust gas (ppmv).
HC_i=Hydrocarbon concentration in the inlet gas to the burner (ppmv as propane).
HC_e=Hydrocarbon concentration in the exhaust gas (ppmv as propane).
L_d=Gasoline liquid volume dispensed during test period (gallons).
P_i=Static pressure at inlet meter, if measured (mmHg).
T_i=Temperature of gas at inlet meter (°c).
V_i=Inlet gas volume (ft³).
F=Dilution factor (dimensionless).
51.6×10^{-6}=Correction factor for grams of hydrocarbon per gas volume parts per million propane.

$$\left(\frac{g}{(scf)\ (ppmv)}\right).$$

3=Number of carbon atoms per propane molecule.

8.2 Calculate the standard total gas volume (V_s) at the burner inlet for each test day (standard pressure=760.0 mmHg, standard temperature=20°c).

$$V_s=0.3855\,V_i\,\frac{(P_i+760)}{(T_i+273)}$$

Equation 1

8.3 Calculate an average vapor volume to liquid volume (V/L) at the inlet for each test day.

$$(V/L)_i=\frac{V_s\ (scf)}{L_d\ gal}$$ Equation 2

8.4 Determine the average inlet hydrocarbon mass rate $(m/L)_i$ for each test day.

$$(m/L)_i=51.6\times10^{-6}(HC_i)(V/L)_i\ (g/gal)$$

Equation 3

8.5 A carbon dilution factor, F, can be calculated for the incinerator using the inlet and outlet hydrocarbon concentrations, the outlet CO and CO_2 concentrations, and an average ambient CO_2 concentration. The important criterion for this calculation is that all the carbon sources be measured. The values used in the calculation should represent average daily values obtained from strip chart recordings and commonly used integration techniques. Many systems have more than one burning mode of operation. For these it is desirable to have high and low emission levels calculated. This requires that corresponding dilution factors, $(V/L)_i$ values, and $(m/L)_i$ values be calculated for each period in question.

$$F=\frac{HC_i}{HC_e+\frac{CO_{2e}-CO_{2a}+CO_e}{3}}$$

Equation 4

8.6 The mass emission rate $(m/L)_e$ is calculated using the inlet $(m/L)_i$ from Equation 3 and the carbon dilution factor from Equation 4. The exhaust hydrocarbon concentration will vary with time and operation of the system. It is likely that, in addition to an overall average mass emission rate using an average HC_i, several peak values of $(m/L)_e$ will be required as discussed above. If some correlation between HC_i and HC_e occurs over the burning cycle of the system, this calculation should be used to show the change in mass emission rate.

$$(m/L)_e=F\left(\frac{HC_e}{HC_i}\right)(m/L)_i\ (g/gal)$$

Equation 5

8.7 Mass control efficiency (%E) can be calculated for an average value over each test day or for any shorter interval. It represents the reduction of hydrocarbon mass achieved by the incinerator system and this efficiency can vary depending on the burning cycle or the inlet loading.

$$\text{Percent } E=100\left[1-\frac{(F)(HC_e)}{HC_i}\right]$$

Equation 6

9. *Calibrations and Specifications.*

9.1 Total Hydrocarbon Analyzers. Flame ionization detectors or equivalent total hydrocarbon analyzers are acceptable for measurement of exhaust hydrocarbon concentrations. Calibrations should be performed following the manufacturers' instruction for warm-up time and instrument adjustments. Calibration gases should be propane in hydrocarbon-free air of known concentrations prepared gravimetrically with measured mass quantities of 100 percent propane. A calibration curve shall be produced using a minimum of five (5) prepared calibration gases in the range of concentrations expected during testing. The calibration curve shall be used in determining measured levels during testing. The calibration of the instrument need not be performed on the test site, but shall be performed prior to and immediately following the test program. During the test program, the hydrocarbon analyzer shall be spanned on site with zero gas (<3 ppmv C) and with known concentration of propane in hydrocarbon-free air at a level near the highest concentration expected at the test point. The spanning procedure shall be performed at least once prior to each test day, at least twice during each test day, and once following the end of each 24-hour test day.

Conditions in calibration and span gas cylinders must be kept well below critical pressures and temperatures in order to avoid condensation of propane affecting the gas concentration. A safety factor of two (2) is recommended.

The fuel for a flame ionization analyzer should be a mixture of hydrogen and helium using a 40/60 ratio (H_2/He). A 40/60 mixture of hydrogen and nitrogen (H_2/N_2) may be used as a substitute.

9.2 Carbon Dioxide and Carbon Monoxide Analyzers. Nondispersive infrared analyzers are acceptable for measurement of exhaust carbon dioxide and carbon monoxide concentrations. Calibrations should be performed following the manufacturers' instructions for warm-up time and instrument adjustments. Calibration gases should be known concentrations of carbon dioxide in air. A calibration curve shall be produced using a minimum of five (5) prepared calibration gases in the range of concentrations expected during testing. The calibration of the instrument need not be performed on the test site, but shall be performed prior to and immediately following the test program. During the testing, the analyzer shall be spanned on site with zero gas (<3 ppmv C) and with a known concentration of carbon dioxide in air at a level near the highest concentrations expected at the test point. The spanning procedure shall be performed at least once prior to each test day, at least twice during each test day, and once following the end of each 24-hour test day.

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

Intent to Develop Rulemaking

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to develop rulemaking.

SUMMARY: In light of the experience gained by the Environmental Protection Agency and the States in working with the national pollutant discharge elimination system program as established in the regulations, it has been determined that these regulations should be amended to improve the operations and procedures of the NPDES program.

FOR FURTHER INFORMATION CONTACT:

Mr. Frank E. Hall (EN-336), Office of Water Enforcement, Environmental Protection Agency, Washington, D.C. 20460 (202-755-0750).

SUPPLEMENTARY INFORMATION: The Federal Water Pollution Control Act as amended in 1972 (33 U.S.C. 1251 et. seq.) mandated that the Administrator of the Environmental Protection Agency develop regulations for the implementation of the National Pollutant Discharge Elimination System (NPDES). These regulations (40 CFR 123, 124 and 125) were developed and implemented. In light of the experience gained by the Environmental Protection Agency and the States in working with the NPDES program as established in the regulations, it has been determined that these regulations should be amended to improve the operations and procedures of the NPDES program. For example the Agency is considering amending the regulations eliminating NPDES permit application fees, revising application and permit forms, and improving the permit development fact sheets.

The purpose of this notice is to advise interested members of the public (including but not limited to, Federal, State, and local government agencies, industries that are required to participate in the NPDES program or may be interested in the program, consumer, agricultural and public interest groups) of the agency contact point for the amendment of these regulations. The contact person may also be consulted regarding the status of progress of the development of this action. The mailing address and telephone number for this contact person are: Mr. Frank E. Hall (EN-336), Office of Water Enforcement, Environmental Protection Agency, Washington, D.C. 20460 (202-755-0750).

Dated: July 27, 1977.

DOUGLAS M. COSTLE,
Administrator.

FULLY HALOGENATED CHLOROFLUOROALKANES

Deadline of Reply Comment Period

AGENCY: Environmental Protection Agency.

ACTION: Deadline of reply comment period.

SUMMARY: Reply comments on the proposed fully halogenated chlorofluoroalkane regulation are being requested.

This request is made in accordance with the proposed rules for Procedures for Rulemaking under Section 6 of the Toxic Substances Control Act. Reply comments are based on the hearing record, materials that were not and could not reasonably have been available to the commenting party a sufficient time before the main comments were due, and other comments that may be submitted.

DATES: Comments must be postmarked no later than September 16, 1977.

ADDRESSES: Reply comments should be submitted to: U.S. Environmental Protection Agency, Office of Toxic Substances (WH-557), 401 M Street SW., Washington, D.C. 20460, Attn: Joni T. Repasch.

FOR FURTHER INFORMATION CONTACT:

Joni T. Repasch, 202-426-9000.

SUPPLEMENTARY INFORMATION: The legislative part of the informal hearing on the proposed regulation was held August 1, 2, and 3, 1977, at the Washington, D.C., headquarters of the Environmental Protection Agency. No requests for cross-examination were received. Therefore, the informal hearing on this rulemaking closed on August 12, 1977.

Dated: August 19, 1977.

ANDREW W. BREIDENBACH,
Acting Assistant Administrator for Toxic Substances.

RUBY LAKE NATIONAL WILDLIFE REFUGE

Public Entry and Use; Proposed Special Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed special regulations.

SUMMARY: It is proposed that special regulations be established governing boating use at the Ruby Lake National Wildlife Refuge. These regulations are required to resolve the conflict which has developed between boating and primary wildlife objectives. The intended effect is to minimize the adverse impact on the primary wildlife objectives for which the refuge was established.

DATES: Comments must be received on or before: September 25, 1977.

The proposed effective date of these special regulations will be from January 1, 1978 to December 31, 1978.

ADDRESS: Send comments to: Regional Director, U.S. Fish and Wildlife Service, 1500 NE Irving Avenue, Portland, Oreg. 97208.

FOR FURTHER INFORMATION CONTACT:

Patrick O'Halloran, Federal Building, Room E-3911, 2800 Cottage Way, Sacramento, Calif. 95824; telephone 916-484-4664.

SUPPLEMENTARY INFORMATION: The primary author of this document is Lawrence G. Kline, Division of National Wildlife Refuges, U.S. Fish and Wildlife Service, Washington, D.C. 20420.

Current levels of public use on the Ruby Lake Refuge are approaching 50,000 visitors annually. Approximately 30,000 boaters annually are now using the 7,000-acre South Sump that makes up the southern portion of the refuge. However, the refuge is one of the most important nesting areas for canvasback and redhead ducks in the Nation. About 4,000 birds are produced annually, chiefly on the South Sump, and the area has potential to produce even more. Continental populations of both species are low, largely as a result of habitat loss.

Boats are necessary to fish in the South Sump, but bank fishing is permitted on the North Sump. Current fishing use on the refuge is about 165,000 activity hours (AH), with 65 percent occurring on the South Sump. Boating also supports 2,000 AH of water-skiing, 900 AH of pleasure boating, and 700 AH of hunting on the South Sump.

When boating was first allowed in the 1940's there was very little use and consequently not much disturbance to nesting. In recent years the annual increase in fishing has been 18 percent. The increase in boating has been even higher. The current level of boating use constitutes a serious threat to waterfowl nesting on the refuge, particularly canvasbacks and redheads. Additionally, the maintenance of higher water levels required by large boats in the shallow marsh precludes managing the water for optimum wildlife benefits.

The Refuge Recreation Act of 1962 (16 U.S.C. 460k-1), as amended, provides that recreation may be permitted on a National Wildlife Refuge only if such use does not conflict with the purpose for which the refuge was established. Wildlife, therefore, must be the dominant use of a National Wildlife Refuge and recreation must be secondary.

Under the current program, year-round boating without motors is permitted on the South Sump. Powerboating with no horsepower restrictions is allowed on the designated year-round powerboating area. Powerboating, with no horsepower restrictions is allowed on all areas of the South Sump from June 30 to December 31. Water-skiing is allowed on a designated small area only.

In June 1976, the Fish and Wildlife Service completed an environmental assessment on the effects of boating on the management of the refuge. The assessment is available from the Regional Director at the above address. Public hearings were held at four locations in Nevada in September 1976, on the Fish and Wildlife Service proposal to resolve the conflict. The Service proposal featured a 10 horsepower limit on motor size, and an August 1 opening for boats with motors. This proposal was designed to reduce the disturbance to nesting waterfowl to a minimum and also reduce the potential for serious boat accidents. Under this proposal water-skiing would have been discontinued.

Following a review of the Service proposal, the public hearing records, and an on-site inspection of the area, Assistant Secretary Robert L. Herbst decided to resolve existing conflicts by establishing speed limits and no wake zones in certain areas where boats with no horespower limitations will continue to be permitted. Mr. Herbst also made the decision to reduce the total water area available for powerboating by closing the north one-third of the South Sump to this use. As provided by 50 CFR 26.34, the Service hereby proposes the following special regulations:

§ 26.34 Special Regulations concerning public access, use, and recreation for Ruby Lake National Wildlife Refuge.

Boats will be permitted only on that portion of the Ruby Lake National Wildlife Refuge known as the South Sump. The South Sump will be divided into zones, which will be identified by signs and delineated on maps available from the Refuge Manager and on maps posted at the boat landings.

Copies can also be obtained from the Regional Director, U.S. Fish and Wildlife Service, 1500 NE Irving Avenue, Portland, Oreg. 97208. The zones and the regulations applicable to each zone are as follows:

Zone 1—Motorless Boating Area. Period of use: year round. Boats without motors or boats with electric motors only will be permitted. Motorless boats can go into zone 2 and 3, when these zones are open to boating.

Zone 2—Powerboat Area. Periods of use: July 1 to December 31 on designated area in the eastern part of zone; August 1 to December 31 on remainder of zone and in 10 hp. designated areas. Only boats with motors of 10 hp. or less will be permitted on certain designated areas beginning on August 1. The remainder of the zone will be open to all boats with no horespower limitations. Boats with motors exceeding 10 hp. will not be permitted outside of designated areas or outside Zone 2 even if the engine is disabled. No boat may exceed 20 mph except on the designated water-ski area. On critical areas identified by signs, no boat may exceed 5 mph (no wake).

Water-skiing will be permitted from 10:00 a.m. to 5:00 p.m. daily on the designated water-ski area only. No more than three (3) boats pulling waterskiers will be permitted to operate at any one time. If more than three water-ski boats are operating at one time, all boats in operation will be in violation.

Zone 3—Small Boat Area. Period of use: August 1 to December 31. Only boats with motors of 10 hp. or less will be permitted. Boats with motors of 10 hp. or less can enter any part of zones 2 and 3 when these zones are open to boating.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal which would require the preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: August 22, 1977.

LYNN A. GREENWALT,
Dirctor, U.S. Fish and Wildlife Service.

[Docket Nos. 20826, etc.; Order 77-8-85]

ALASKA SERVICE INVESTIGATION (BUSH ROUTES PHASE)

Order Dismissing Applications and Terminating Proceeding

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 18th day of August 1977.

By Order 74-6-21, June 4, 1974, the Board deferred action on the portion of the Alaska Service Investigation (Bush Routes Phase) involving applications by air taxi operators for certificates of public convenience and necessity that would result in the replacement of Alaska Airlines and Wien Air Alaska in certain bush markets. The procedural history leading up to this deferral follows.

The Alaska Service Investigation was initiated in March 1969, and contemplated a comprehensive review of major route patterns serving Alaska (Order 69–3–68, March 19, 1969). Hearings were held throughout Alaska during the summer months of 1970 and an initial decision was rendered by Examiner F. Merritt Ruhlen in March 1971. Later that year the Board, in conducting its review of the record, determined that it would be better to proceed with the Investigation in two phases (Order 71–3–172, March 29, 1971). The first was to center on the major trunk and regional routes encompassing the 48-States-Alaska and major intra-Alaska markets. The second was to review the issues of service from major regional hubs to the small outlying communities of the bush and among the small bush communities themselves.

After division of the Investigation into two phases, the Board decided to adopt the recommendation of Examiner Ruhlen to realign the bush routes of Alaska Air Lines and Wien Air Alaska (formerly Wien Consolidated Airlines), and to effect certain other changes. However, because of the paucity of the evidence with respect to bush points and routes, the Board concluded that a re-evaluation of bush issues should be undertaken (Order 72–9–91 and 72–9–92, September 25, 1972).[1] The Bush Routes Phase was accordingly reopened and remanded for further evidentiary proceedings to consider, among other things, broadened issues with respect to the establishment of standards for subcontracting arrangements between certificated carriers and air taxi operators; the certification of air taxis at any of the communities in question; and the identification of bush points where operation of subsidized services by air carriers, whether or not certificated, pursuant to competitive bid contracts might prove feasible and desirable if authorized by Congress.[2] Although a second prehearing conference was held in Anchorage in May 1973, and a conference report issued on June 1, 1973, established a procedural schedule for the Bush Routes Phase, the air taxi and civic parties did not submit evidence sufficient for an adequate decision on the issues of service alternatives. Some of the carriers filed pro forma certificate applications, failing to come forward with the detailed data necessary for resolution of the certificate issues. Moreover, no party sought to explore the other service alternatives contemplated by the Board in its order on remand.

To resolve these difficulties, the Board restructured the Bush Routes Phase, (Order 74–6–21, June 4, 1974), severing the following issues for separate disposition:

(a) Renewal of the Kodiak-Western Alaska certificate, Dockets 23604 and 23605, and the proposed King Salmon-Kodiak link between the two elements of the carrier's system, Docket 23757.[3]

(b) Termination and revocation of the Howard J. Mays certificate and transfer of the certificate to Munz Northern Airlines, Docket 25655.[4]

(c) Extension of the 30-seat/7,500-pound payload standard applicable to Part 298 operations in the 48 contiguous United States to air taxi operations within Alaska. See EDR–273, June 4, 1974.

(d) Establishment of standards for subcontracting arrangements between certificated airlines and Alaskan air taxis and requiring prior Board approval of those arrangements. See EDR-272, June 4, 1974.[5]

(e) Deletion of bush points no longer receiving ceritficated service.[6]

Decisions have been issued in Kodiak-Western Alaska Renewal Proceeding (Orders 75–8–72, August 13, 1975, and 75–10–35, October 10, 1975) and Howard J. Mays Revocation Munz Northern Certification Proceeding (Orders 75–8–117, August 21, 1975, and 76–3–169, March 26, 1976), and final rules have been enacted establishing the 30 seat/7,500 pound payload standard for Alaskan air Taxis and standard for subcontracting arrangements (see Regulations ER–970 and 946, effecting November 5, 1976, and February 27, 1976, respectively). Consequently, the only remaining undecided issue in the Bush Routes Phase involves the applications by air taxi operators for certificates of public convenience and necessity.[7]

Certain events have occurred since the Board deferred action on these certificate applications which, we believe, indicate the desirability of terminating the Bush Routes Phase of the Alaskan Service Investigation.

When the Board was contemplating the establishment of standards to make subcontracting more stable and attractive, the air taxi parties to the proceeding were directed to advise the Board whether the certificate applications would be prosecuted if the proposed subcontract guidelines were adopted. The parties were also directed to advise the Board what additional steps they believed necessary to expedite adjudication of the remaining issues in the Bush Routes Phase (Order 74–6–21, June 4, 1974). In response to these directives, Merric, Munz Northern Airlines, Parkair, and Tanana Air Taxi indicated a desire to prosecute their certificate applications regardless of any subcontracting standards which might be established. Yukon Air Service stated that it did not wish to prosecute its application, assuming adoption of the subcontracting guidelines and the continuance of its subcontract, and Sea Airmotive later filed a motion to reestablish a procedural schedule in the Bush Routes Phase.[8] Looking at all the responses received relating in any way to this matter, we find that, out of thirteen parties whose applications for new bush authority were consolidated into the Bush Route Phase, only six indicated any desire to proceed with the investigation. Two of those parties have now merged (Parkair and Sea Airmotive), and another (Merric) has merged with ERA Helicopters, which has indicated no desire to prosecute the application filed by its predecessor in interest, and the conditions of another (Yukon) apparently have been met. There remains, therefore, an unsatisfied interest in only three certificate applications. The last record interest that any of these expressed was in December 1974. In addition the Board has revised Part 298 so that the 30-seat/7500-pound payload standard is now applicable to Alaskan air taxi operations, giving them more flexibility.[9]

More importantly, in February 1976, Part 293 of the Board's Economic Regulations became effective. This rule requires prior Board approval of subcontract agreements involving the operation of scheduled air services by an air taxi operator over Alaskan bush routes of a certificated air carrier, and contains substantial requirements aimed at protecting the economic viability of the operations of the subcontracting air taxis and their services to the public.[10]

It is clearly desirable to avoid the expenditure of time and money in unnecessary certification procedures for small and financially marginal Alaskan air taxi operators, since other means of achieving the same ends are now available. Accordingly, in view of the limited interest of the air taxi in certification, and their lack of interest in the other service alternatives originally contemplated by the Board, the continued absence of a usable record, the promulgation of the protective standards in Part 293, and the revision of Part 298, we will terminate the Bush Routes Phase of the Alaska Service Investigation and dis-

[1] The intra-Alaska service issues deferred in the Part 298 Weight Limitation Investigation, Order 72–7–61, were also consolidated in the remanded proceeding. The bush points to be considered were also broadened by order of the Board on reconsideration (Order 73–4–29, April 5, 1973).

[2] The following applications for new bush authority were consolidated into the remanded proceeding: Fairbanks Air Service (Docket 25440), Foster Aviation (Docket 25454), Kodiak-Western Alaska Airlines (Docket 25522), Merric (Docket 25451), Munz Northern Airlines (Docket 25450), Northern Commuter Air Service (Docket 25543), Parkair (Docket 24865), Peninsula Airways (Docket 25502), Polar Airways (Docket 24862), Sea Airmotive (Docket 25536), Tanana Air Taxi (Docket 25442), Wien Consolidated Air Lines (Docket 25438), and Yukon Air Service (Docket 25443). See Orders 73–4–29, April 5, 1973, and 73–6–22, June 7, 1973. The latter order, which consolidated applications for certificates for consideration in the Bush Routes Investigation, also refined the meaning of bush points and routes. In addition, a bush application and motion to consolidate was filed late by Southeast Skyways in Docket 25653, and an application to transfer a Munz Northern Airlines certificate to Gallcher (Docket 25655) was also the subject of a motion to consolidate.

[3] That portion of the application of Peninsula Airways, Docket 25502, seeking certificate authority over portions of the Kodiak-Wsestern Alaska combined system was severed from the Bush Routes Phase and consolidated with Kodiak-Western Alaska Renewal Proceeding, and the Wien application in Docket 24103 for King Salmon-Kodiak authority was likewise consolidated.

[4] That portion of the application of Munz Northren Airlines, Docket 25450, seeking certificate authority paralleling the certificate of Howard J. Mays, but only that portion, was severerd from the Bush Routes Phase to be considered in the Howard J. Mays Revocation/Munz Northern Certification Proceeding.

[5] Since the Board never received legislative authority to implement the competitive bid contract proposal, that issue was also eliminated from the Bush Routes Phase.

[6] While technically this issue was not severed from the proceeding in the same sense as the others, the Board indicated that the deletions would be accomplished through show-cause procedures. This was completed pursuant to Order 76–8–30, August 6, 1976.

[7] An additional issue on remand relates to the possible alteration of the irregular route authority and authority to provide service under the 25-mile rule contained in the certificates of Alaska Airlines and Wien Air Alaska. No interest was demonstrated in this matter nor was information submitted by the parties to the Bush Routes Phase, and we have concluded that the carriers' irregular and 25-mile authority should not be altered. We note, in addition, that no pending application is prejudiced by this conclusion since the possible alteration of the irregular and 25-mile authority was placed in issue by the Board on its own initiative.

[8] The administrative law judge assigned to the Howard J. Mays Revocation/Northern Certification Proceeding, Docket 25655, stated in a notice served August 12, 1974, that he had received communications from Polar Airways, Sea Airmotive, and Southeast Skyways (not a party to the Bush Routes Phase) indicating the desires of those air taxis to move forward with the investigation. In addition, while Wien filed comments to Order 74–6–21, none of the comments were directed to the procedures for disposition of its bush application.

[9] The expansion was predicated in part upon the protection granted the certificated carriers by the limitations on air taxis in Alaskan set forth in section 298.34 of the Board's Economic Regulations where the certificated carriers provide stated minimal services in a market.

[10] At the same time the Board adopted Order 76–2–125, February 27, 1976, approving 22 agreements under which certificated Alaskan bush routes are being served by air taxi operators either for Alaska Airlines or Wien, such approval being conditioned upon the filing of further reports to bring them into line with the new Part 293.

V42N165 AUG 25 77 UM

miss all remaining applications pursuant to § 302.911 of the Board's regulations,[11] without prejudice to the right of the carriers to refile.[12] As a result, we will deny Sea Airmotive's motion to reestablish the procedural schedule, dismiss as moot Southeast Skyway's motion to consolidate and dismiss its application in Docket 25653 under § 302.911(b) of the Board's Regulations.[13]

Accordingly, *it is ordered*, That:

1. The Alaska Service Investigation (Bush Routes Phase), Docket 20826 et al. be terminated;

2. The following applications for certificates of public convenience and necessity for new bush route authority in Alaska be dismissed, without prejudice to the right to refile:

A. Fairbanks Air Service, Docket 25440.
B. Foster Aviation, Docket 25454.
C. Merric, Docket 25451.
D. Northern Commuter Air Service, Docket 25543.
E. Parkair, Docket 24865.
F. Peninsula Airways, Docket 25502.
G. Polar Airways, Docket 24862.
H. Sea Airmotive, Docket 25536.
I. Tanana Air Taxi, Docket 25442.
J. Wien Consolidated Airlines, Docket 25438.
K. Yukon Air Service, Docket 25443.
L. Munz Northern Airlines, Docket 25450.
M. Southeast Skyways, Docket 25653.

3. The motion of Sea Airmotive to reestablish a procedural schedule in the Alaska Service Investigation (Bush Routes Phase), Docket 20826 et al. is denied;

4. The motion of Southeast Skyways to consolidate its application (Docket 25653) in the Bush Routes Phase of Docket 20826 et al. be dismissed as moot; and

5. Petitions for reconsideration, if any, shall be due 45 days after the date of adoption of this order.

6. This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[Docket No. 23080-2; Order 77-8-97]

LOCAL SERVICE CARRIERS

Order Regarding Priority and Nonpriority Domestic Service Mail Rates Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of August 1977.

By a petition filed May 16, 1977, the Local Service Carriers (Locals)[1] have requested that the Board establish revised temporary service mail rates based on the initial decision issued by Administrative Law Judge Thomas J. Sheehan in this proceeding on October 27, 1976. More specifically, the Locals request that new temporary rates be established which provide for the payment of at least (1) 75 percent of the additional revenues which the ALJ found that the carriers should receive for the open-rate period from March 28, 1973, through December 31, 1975, and (2) 100 percent of the amounts that would be due under rates established following the ALJ's methodology for the period from January 1, 1976, until the date that the Board's final decision becomes effective. According to the petition, the relief requested would produce close to $120 million in additional mail pay for the industry for services rendered through the end of 1977, with nearly $30 million going to the Locals.[2]

By a separate motion filed May 16, 1977, the Locals also request that the Board advance its target date for the issuance of a final decision in this proceeding from December 9, 1977, to July 27, 1977.[3]

In support of their request for increased temporary rates, the Locals contend that during the four-year course of this phase of the proceeding cost increases have far outstripped the temporary rate levels established at the outset, notwithstanding the Board's additional authorization of linehaul element surcharges to cover fuel cost increases on two occasions.[4] Also acknowledging that the Board declined to increase the temporary rates to cover nonfuel cost increases in 1975,[5] the Locals argue that the following circumstances now favor immediate relief for the carriers: (1) The Board now has available a quantitative benchmark based on a full evidentiary hearing; (2) if the Board adopts the ALJ's findings in establishing final rates, the carriers would be entitled to approximately $120 million in additional mail pay for services rendered through the end of 1977; (3) there is little risk of overpayment if temporary rates are set at the proposed level because the positions of "virtually all other parties" would lead to final rates higher than those recommended by the ALJ;[6] (4) the underpayment to the carriers measured by the initial decision translates into an unwarranted and inequitable interest-free loan of $2.1 million per month to the Postal Service, and has resulted in a total of $18.1 million in potential interest income lost to the carriers during the open rate period; (5) the Local's share of the underpayment, approximately $30 million, is substantial in terms of their operations and its withholding "has or will soon create serious problems for the individual carriers in meeting working capital covenants in existing loan agreements, not to mention in arranging any further financing or refinancing"; and (6) under analogous circumstances the Board has adopted the rates set forth in an initial decision as reasonable temporary rates pending the establishment of final rates.[7]

Answers to the petition, reflecting a range of views and alternative recommendations, were filed by the Postal Service, the Bureau of Economics, and most of the trunkline carriers.[8] Briefly summarized, the Postal Service opposes any change in temporary rates at this time, arguing that (1) inasmuch as both the Postal Service and the Bureau have proposed final rates below the levels of the ALJ, the Locals' allegation of underpayment is speculative, the proposed levels would prima facie risk overpayment, and reliance on the initial decision at this time could subtly prejudice the outcome of the Board's final decision; (2) the Locals have not demonstrated a "compelling need" for relief under the Board's temporary rate policy, and in fact their own petition shows that they earned

[11] While § 302.911(b) is not strictly applicable since the applications were once designated for prehearing conference, which was held in May 1974, it is apparent that the inadequacy and age of the existing record in this proceeding would necessitate another prehearing conference before the case could move forward. For purposes of § 302.911 (b), therefore, this proceeding is being treated as if a prehearing conference had never been held. Such treatment will permit the refund of filing fees under § 389.25 (a).

[12] We note that Polar Airways was granted exemption authority pursuant to Order 75-1-137, January 31, 1975, to enable the carrier to provide scheduled service between Anchorage and Valdez, Alaska, subsequent to the reintroduction of certificated service by Alaska Airlines. That authority was scheduled to remain in effect for two years or until 60 days after final Board decision on Polar's certificate application, whichever first occurred. The two-year period has now expired without an application for renewal of the exemption by Polar. Our action herein, therefore, has no effect on the status of that authority since it has already expired by its terms.

[13] In view of the distances and number of parties involved in this case, petitions for reconsideration of this order shall be due in 45 days instead of the usual 20 days.

[14] All members concurred.

[1] Allegheny Airlines, Inc., Frontier Airlines, Inc., Hughes Airwest, North Central Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Southern Airways, Inc., and Texas International Airlines, Inc.

[2] Adjusting the ALJ's estimates of additional revenues set forth in Appendix B to the initial decision for the removal of fuel surcharge payments received, the Locals compute a "net underpayment" for the period through December 31, 1975, of $14.2 million to the Locals and $34.7 million to the Trunks (including Flying Tiger and Pan American). For 1976-1977, the Locals compute a net underpayment of $16.6 million to the Locals and $53.5 million to the Trunks, based on traffic forecasts applied to the ALJ's 1974 rates increased by 10.32 percent to obtain extrapolated 1976 rates and increased by 16.70 percent to obtain extrapolated 1977 rates. These percentages are the Locals' estimates of average ATM/RTM cost increases during the respective periods in accordance with the ALJ's update methodology. Petition, Appendix A.

[3] Notice of Target Date, served April 12, 1977.

[4] Orders 74-10-94 and 76-12-60.

[5] Order 75-7-87.

[6] The Locals note that if the Board adopts their methodology and proposed rates, the carriers would be entitled to $310 million in additional mail pay through the end of 1977.

[7] Citing the Domestic Service Mail Rates, 46 C.A.B. 716 (1967).

[8] American, Delta, Eastern, Flying Tiger, Northwest, Pan Am, TWA, and United.

a collective net profit of $42.6 million in 1976; (3) any new rates would have only a short active life prior to final decision; and (4) the Locals can point to no precedent applicable to the present circumstances.[9]

The Bureau supports the establishment of revised temporary rates but objects to both the methodology and the levels proposed by the Locals. Based on its own costing methodology and updating technique, the Bureau takes the position that (1) no change is warranted in the rates paid during the period March 28, 1973, to January 1, 1975; (2) the Locals' proposed 1975 rate levels[10] are reasonable temporary rates for that year; and (3) temporary rates for the period beginning January 1, 1976, should not exceed 100 percent of the ALJ's recommended 1975 rate levels.[11] Stressing that the ALJ's specific rate levels, formula, and methodology are in dispute, the Bureau urges that any interim mail pay increases be accomplished through amendments to the current temporary rate structure and payment formula in order to avoid any prejudgment of controversial issues by the Board. Alternatively, the Bureau suggests that if the Board has already decided the major methodological issues in this proceeding, it would be appropriate to establish temporary rates based upon these determinations.

Most of the trunkline carriers support the relief requested by the Locals for the reasons set forth in the petition. However, several carriers oppose any revision in temporary rates based on the methodology and rate structure recommended by the ALJ. Flying Tiger opposes, in particular, the ALJ's treatment of container mail rates, claiming that his formula would set daylight container mail rates approximately 25 percent below the levels reflected in the current rates and would require a substantial repayment by Flying Tiger to the Postal Service. The carrier contends that the Board cannot lawfully order such repayments in the context of temporary rate changes. As an alternative, Flying Tiger supports a revision in temporary rates implemented through a flat percentage increase in the existing temporary rate formula elements. Similarly, Pan American objects to rates based on the initial decision, arguing that such relief would entail erroneous and costly changes in the temporary rate structure and billing procedures.[12] Pan Am also suggests that the Board increase the temporary rates by means of an overall surcharge.

Upon consideration of the pleadings, the Board has determined to deny the requests for temporary rate increases at this time. This proceeding is clearly in the final stages of resolution, the Board having announced that it will issue its final decision on or before December 9, 1977. Allowing for procedural steps, preparation and decision time, and possible billing or other implementation changes, any new temporary rates would have a short life span and an uncertain impact on carrier revenues, even if it could be found that a compelling need for additional mail revenues exists.[13] Moreover, it is apparent from the qualifications, objections and alternative proposals set forth in the pleadings that the issues raised by the petition are complex, and that any proposal advanced by the Board for revising temporary rates would be highly controversial and time-consuming. Under such circumstances, we believe that a further expenditure of the Board's resources on the question of overall temporary rate levels would be counterproductive.

We also will deny the Locals' motion to advance the announced target date for our final decision in this proceeding. In support of their request, the Locals argue that the 13½ month interval between the issuance of the ALJ's initial decision and the Board's target date exceeds comparable periods in prior mail rate cases and is creating a substantial and inequitable burden on the carriers. The additional delay, assert the Locals, undercuts the Board's announced commitment to a greater expedition of hearing cases.[14] Although the carriers' dissatisfaction with the length of this proceeding is readily understandable, it should be born in mind that all parties have generally supported the recesses, extensions and longer-than-average procedural dates permitted on the grounds that the issues are technical, complex, and often quite controversial. Certainly the instant pleadings do not detract from that conclusion. In establishing the target date of December 9, 1977, the Board took all relevant factors into account, including those cited by the Locals. There have been no intervening changes in workload or other considerations which would permit us to advance that date on a formal basis.

Accordingly, *it is ordered*, That:

1. The petition for the establishment of temporary service mail rates filed by the Local Service Carriers in this docket on May 16, 1977, be denied; and

2. The motion for the advancement of the Board's final decision target date filed by the Local Service Carriers in this docket on May 16, 1977, be denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Secretary.

[FR Doc.77-24616 Filed 8-24-77;8:45 am]

[Docket Nos. 25427, etc.; Order 77-8-94]

LAKER AIRWAYS LIMITED—SKYTRAIN SERVICE ET AL.

Order Regarding Foreign Air Carrier Permit

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of August 1977.

Laker Airways Limited-Skytrain Service, Dockets 25427 and 25457; Transatlantic Standby Fares Proposed by Pan American World Airways and Trans World Airlines, Docket 31262; Airport Notice Filed by Laker Airways Limited for Skytrain Service Pursuant to Part 213 of the Economic Regulations, Undocketed.

By Order 77-6-68 (served June 14, 1977) the Board, with the approval of the President, provided for the issuance of a foreign air carrier permit to Laker Airways Limited authorizing Laker to engage in scheduled foreign air transportation of persons and their baggage between London and New York for a period of one year, subject to stated conditions. The service proposed by Laker was a limited-capacity, no reservation, low-fare service denominated Skytrain. In its opinion, the Board stated:

> In the absence of any evidence in the record as to the means by which Laker intends to cope with the obviously formidable problems that its proposed limited-capacity, no reservation service may create, the Board finds that the public interest requires that Laker's access to Kennedy Airport be granted only at such time as Laker can establish that services there can be provided without unwarranted disruption of the services of other carriers and other airport activities, and inconvenience to the traveling public utilizing those facilities (p. 28).

The Board included condition (a) in Laker's permit directing it (1) not to inaugurate service from John F. Kennedy International Airport (sometimes referred to as JFK) until it submitted plans for the handling of passengers at JFK that would be satisfactory in the respects discussed above either to the Board or to the Port Authority of New York and New Jersey (Port Authority), the proprietor of JFK, and (2) to await either an order of the Board finding that the condition was satisfied or a statement of the Port Authority filed in the docket stating its satisfaction with the plans submitted (Permit, p. 2).

[9] The Postal Service distinguishes the situation in the Domestic Service Mail Rates case, supra, on the grounds that Board action was necessary because the original temporary rates had expired, the Examiner's rates were close to the temporary rates, and all parties concurred in the Board's action.

[10] Understood by the Bureau to be the temporary rates paid in 1975 increased by 75 percent of the difference between those rates and the rates established in the initial decision.

[11] The Bureau estimates that its recommended temporary rates for 1975 and 1976 are approximately 10.8 percent and 14.4 percent, respectively, above existing temporary rate levels, and will provide the carriers with $18.8 million and $25.1 million, respectively, in additional mail revenues for the two years.

[12] Pan Am cites the ALJ's changes in the composition of the terminal and linehaul formula elements and his elimination of the X, Y, and Z station categories as areas of disagreement.

[13] There is at least a serious doubt whether such a compelling need has been demonstrated as that term has been applied by the Board in previous temporary mail rate situations. However, we need not decide the question in view of our judgment that the other factors are dispositive of the relief requested.

[14] An answer in support of the motion was filed by Delta.

[15] All Members concurred except Member Bailey who did not participate.

On July 29, Laker filed a motion for an order approving its passenger handling plan at JFK.[1] Attached to the motion was a letter to the Director of Aviation of the Port Authority setting forth its plan for the operation of Skytrain in and out of JFK and requesting the Port Authority to approve and file the plan with the Board.[2] To avoid congestion at JFK, Laker has arranged for the use of the El Al Orange Terminal located just off the airport property for waiting, parking and check-in for Skytrain passengers.[3] Laker's plan is to bus checked-in passengers to the United Air Lines terminal public entrances where the passengers would proceed directly to the Laker aircraft. In the winter no more than 189 passengers would be bussed for a departure at 2310 hours. In the summer 345 to 690 passengers would be so handled. Unitec would handle the passengers as it does for Laker's present flights. Luggage for checked-in passengers would be trucked directly from the Orange Terminal to the Laker aircraft at the United Terminal.

The Orange Terminal is in excellent working condition and has satisfactory space. Laker has hired Burns International Security Services (Burns) as security consultants to Skytrain. Burns has drawn detailed plans for the orderly reception and control and provision of comfortable waiting areas for prospective passengers before check-in and movement to the United Terminal.

On August 9, 1977, the Port Authority filed four papers opposing the use of JFK by Laker and, as in the main case, offering facilities at Newark Airport instead. The first paper was an answer in opposition to Laker's motion. It provided further information on Laker's plans as set forth in an exchange of correspondence between the Port Authority and Laker. However, it relied heavily on the second paper, which was a consolidated complaint against the standby fares of Pan Am and TWA filed in response to the Laker Skytrain and a request that they be suspended and investigated (Docket 31262).[4] The third paper was a memorandum in opposition to the airport notice filed by Laker pursuant to Part 213 of the Economic Regulations for the purpose of instituting Skytrain service from JFK on September 26, 1977. The opposition of the Port Authority was based on the same grounds expressed in the other papers. The fourth paper was a motion by the Port Authority for consolidation or concurrent consideration of the other three papers. We do not believe consolidation is necessary but concurrent consideration is practicable and sensible and we are following that course in this order. Nothing in TWA's answer requires a different result.

Before turning to an explanation of the Port Authority's over-all position, we will sumarize briefly the additional facts with respect to Laker's plan of operation for Skytrain disclosed by the Port Authority's answer. From May 1 to September 30, 1978, there will be two daily Skytrain arrivals and departures on three days of each week. These are scheduled for

Arrival JFK, IAB, 8:10 p.m., 10:10 p.m.
Departure JFK, UAL, 11:10 p.m., 01:10 a.m.

The Orange Terminal will be open 24 hours a day with guards on duty in accordance with the Burns' plan.[6] Check-in will begin at 7 p.m. daily. Checked-in passengers will be screened for security purposes just before boarding at United's terminal. The lease of the Orange Terminal includes a car park with 187 car spaces. The car park will be operated by a sublessor. Long-term parking is not anticipated as it is expected that nearly all Skytrain passengers will be less than affluent.

The Port Authority's first position is that it is better equipped than the Board to gauge the effect of Laker's proposal at JFK as it relates to disruption of operations and since it has not concluded its review of Laker's proposal it would at least be premature to grant Laker's motion. The basis for the Port Authority's statement that it has not completed its review of Laker's plan are the following: (1) On August 9, it wrote Laker asking "to what extent Laker plans to implement each of the various recommendations contained in the Burns plan in the event your proposal, as contained in your July 26 letter to me, is approved." No answer to this letter is in the record. (2) Laker's proposal calls for off-airport ticketing (at the Orange Terminal) but its British license states, "Tickets for a fight shall be sold only at the airport of departure." The Port Authority expresses concern as to whether it should continue its review of the Laker plan because this license departure "may lead to objections by others as to your proposed arrangements." In response, Laker states that it has already requested the British CAA for a license modification for off-airport ticket sales and that it would have no objection to the Port Authority conditioning its approval on a license modification by the British for Laker.

Without challenging the Port Authority's asserted superiority in assessing the possibility of disruption at JFK, and agreeing also that to some extent more facts can be ascertained if more time is spent on this matter, it does not appear to us that a determination by the Board is premature. On the face of it the Laker plan appears to be sound and the Port Authority has made no concrete objection to any part of it or suggested in what way the plan will cause disruption or could be improved. Further, the license departure referred to has not been objected to "by others," is the subject of corrective procedures, and is unrelated to the disruption which all seek to avoid. Most significant, however, is the fact that the Port Authority's real problem rests not with the Laker plan but with the competitive response to it offered by Pan Am and TWA. As the Port Authority's position makes clear, and we shall discuss below, even moving Laker to Newark would not solve the problem of disruption unless the Board also suspended and investigated the standby tariffs filed by Pan Am and TWA in response to Skytrain. The matter does not appear to us, therefore, to be premature. The airport notice filed by Laker becomes effective August 25, unless the Board earlier notifies Laker that the use of JFK may be adverse to the public interest. The tariffs filed by Pan Am and TWA for use September 15 become effective August 28 and 31 unless suspended earlier. It now appears that essentially the same tariff provisions will be submitted to the Board in the form of an IATA fare agreement. The sooner the Board acts, the greater will be the period of time available for response by the Port Authority or others before services are to be inaugurated.[9]

The heart of the Port Authority position is that the "interaction of Laker's proposal" with the "proposed standby fare services" of Pan Am and TWA in the New York-London market "will disrupt airport operations and the activities of passengers utilizing the airport facilities at Kennedy." It anticipates that the standby services may spread to other carriers in the market and to other cities in Europe.[7] The Port Authority also believes the low-fare service in the New York-London market will be very popular. Since Pan Am and TWA operate morning and evening flights in the market, their tariff rules would permit the sale of daily standby tickets beginning at 4 a.m. and 5 a.m. and later during the afternoon and evening. By 7 p.m. Laker's sales will start at the Orange Terminal. Thus, even if no other carriers

[1] Earlier, on July 25, it filed an airport notice pursuant to 14 CFR 213.4 for use of JFK in the performance of its Skytrain service.

[2] Skytrain arrivals do not appear to present any issue. Arrivals are scheduled for 8:10 p.m. daily at the International Arrivals Building for customs clearance. Ramp handling is to be by Allied and passenger handling by United. According to Laker these arrangements are the same as for their present DC-10 arrivals, which number six a week.

[3] The Orange Terminal was formerly used by El Al for 747 check-ins. It has been unused for three years.

[4] These are described as follows: Pan American tariff provisions—18th revised page 222—and Rule 155 on the 27th revised page 49 and 27th revised page 50 to Tariff C.A.B. No. 44 issued by International Air Traffic Tariffs Corp. Agent; TWA tariff provisions—14th revised page 174 and Rule 33-A on 15th revised page 30-W and 15 revised page 30-X to tariff C.A.B. No. 37 issued by Trans World Airlines Inc. TWA requested dismissal of the complaint.

[6] The Burns' plan was furnished to the Port Authority by Laker with its letters of August 5, but a copy has not been filed with the Board.

[7] Laker points out that there is a need for expedition to permit it sufficient time to acquire equipment for installation at the El Al Orange Terminal, to hire staff, and to take other necessary pre-operating steps.

[9] It now appears that the low standby and budget fares filed by Pan Am and TWA will be the subject of an IATA agreement which will encompass comparable fare filings by British Airways, Air India, Iran Air and El Al with the offering of 2900 seats weekly at the low fares.

or markets are involved, the Port Authority envisions many travelers either remaining in the airport for long periods of time or moving around the airport with their luggage between carriers seeking a standby ticket on the earliest departure or an advantageous position in the queue to secure standby accommodations. This, the Port Authority believes, will lead to a disruption of the airport operations and the activities of passengers utilizing the airport.

The Port Authority, while recognizing that the Board does not wish to restrict the competitive response Pan Am and TWA may propose to Skytrain, observes that Pan Am considers its standby fare uneconomic and projects a profit for its Budget Fare proposal,[8] and concludes that "in consideration of the effect on airport operations, the passengers seeking low-fare air transportation to London and the competitive nature of the proposals, that no low-fare standby, same-day reservation, or ticketing six hours in advance of departure services from Kennedy to London should be authorized by the Board."

We do not think the Board should accept these conclusions. First, the Port Authority conclusions as to the effect on operations are speculative. The number of carriers which propose to join the competition in the New York-London market apparently will increase to six. The number of other markets from New York to Europe which may become involved in a super Apex fare at a somewhat higher fare level with substantially different conditions not involving standby, same-day reservation, or ticketing six hours in advance of departure services may also increase. However, the number of passengers who will seek standby fares is unknown. The conduct of prospective passengers while seeking standby accommodations is unknown. These are not issues which can be resolved by investigations or hearings. They are issues "where a month of experience will be worth a year of hearings." *American Airlines* v. *CAB*, 359 F. 2d 624, 63 (1966), *cert. denied* 385 U.S. 843 (1966). Second, acceptance of the Port Authority conclusions will very likely defeat the whole low-fare experiment and the extensive public benefits which are projected. As the Port Authority recognizes, the Board wishes to leave the carriers free to propose the competitive response to Skytrain they deem best. It would be better, it seems to us, so far as the congestion and other airport arrangement issues are concerned, to accept Laker's plan, to permit all such services, conditioning their continuance on their not having a substantial, adverse impact on airport operations and the persons using the airport which outweighs the benefits of the services. The services could then be assessed on the basis of what actually happens and what can be done to remedy the problems that arise. The Board could then change its position if experience dictated that change was required and the changes made could be based on the facts experienced rather than the judgement of an interested person. We find, subject to the conditions of this order, that Laker has satisfied condition (a) of its permit. The same approach should apply to the new fares filed or to be filed by the regular route carriers, although regulations for the maintenance of orderly conditions at JFK remain the function of the Port Authority.

The complaint of the Port Authority in Docket 31262 is only against the no-reservation, standby fare portions of the Pan Am and TWA tariffs filed in response to Skytrain.[5] The complaint alleges that under the standby proposals confirmed reservations will become available each day at 4 a.m. and 5 a.m. on TWA and Pan Am, respectively; that the last of the flights of the two carriers in the New York-London market leaves at 9:30 p.m.; that prospective passengers may come well before 4 a.m. and that passengers who are successful will await their flights while those who are not will remain at the airport seeking acommodations or queue positions for later flights or go to Laker's Orange Terminal; that no provision has been made for the great number of potential passengers or their extraordinarily long stay at the airport; that their presence will result in a disruption of airport activities and inconvenience for travelers using JFK; and that the standby fares should therefore be suspended.[10]

The complaint against the fares adds nothing new to the Port Authority answer to the Laker motion unless it is the suggestion that Pan Am and TWA are not known to have made any special preparations for the crowds they may receive, but that of course has not been the subject of any investigation or report. It appears, however, that no standby tickets will be available for sale within three hours of a flight departure in New York. This should materially assist in eliminating disruption for regular passengers. In view of the Board's position with respect to the freedom of Pan Am and TWA to propose filings responsive to Laker's Skytrain, which was elaborated at length in Order 77-6-68, there appears to be no reason to suspend these rates at this time.

The Board has concluded that facts sufficient to warrant investigation or suspension of the challenged fares have not been presented and, accordingly, so far as the congestion and other arrangement issues are concerned. The Board will consider the complaints filed against the fares by other persons on other grounds in a subsequent order.

Likewise, for the reasons already stated, it does not appear to us at this time that Laker's use of JFK to perform its Skytrain services under the plan it has presented will adversely affect the public interest. We shall, therefore, permit the airport notice to become effective. Laker should be on notice, however, that if the condition upon which the Board is accepting Laker's plan of operations is exercised by the Board to halt Laker's use of JFK that action will also constitute a revocation of the airport notice with the acquiescence of Laker.

On the basis of the foregoing, and the powers vested in the Board.

It is ordered and declared, That:

1. Laker's plans for handling passengers at JFK for its Skytrain service are approved and its compliance with condition (a) of its foreign air carrier permit issued pursuant to Order 77-6-68 is satisfied, subject to the following conditions:

(a) The foregoing approval of Laker's plans and the foregoing declaration by the Board of Laker's compliance with condition (a) of its permit may be revoked, in whole or in part, upon 15 days notice to Laker and an opportunity to present its views orally or in writing, as the Board may decide, if it appears to the Board, on its own initiative, or on a showing by an interested person, such as the Port Authority, that the Skytrain operations of Laker and the interaction of such operations with those of competing carriers is in fact disrupting operations at JFK and the activities of passengers utilizing the airport facilities at JFK in so substantial a manner as to outweigh the benefits of the services giving rise to the difficulties.

2. The motion of Laker is otherwise denied.

3. The complaint of the Port Authority in Docket 31262 is dismissed.

4. This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,[11]
Secretary.

[FR Doc.77-24615 Filed 8-24-77;8:45 am]

[8] The Budget Fare proposal is at the same fare level as the standby fare but requires an advance purchase and payment 21 days before the week of travel with a guaranteed reservation during a given week, the precise day being fixed by the carrier one week in advance of the flight, or, according to the IATA version, not earlier than 10 days before the week of travel. No reference to the economic feasibility of the standby fares is made in the complaint in Docket 31262.

[5] There are other complaints against these tariffs which will be dealt with by the Board separately.

[10] No economic grounds are stated for the complaint.

[Docket Nos. 30782, etc.; Order 77-8-95]

UNITED AIR LINES, INC., ET AL.

Order Regarding San Francisco-Toronto/Montreal Route Proceeding

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of August 1977.

California-Toronto/Montreal Route Proceeding, Docket 30782; San Francisco-Toronto/Montreal Route Proceeding, Docket 30782; application of United Air Lines, Inc., Docket 30877; application of Western Air Lines, Inc., Docket 30875; application of Hughes Air Corp. d/b/a Hughes Airwest, Docket 28251.

[11] All Members concurred.

By Order 77–4–115 adopted April 22, 1977, the Board instituted the San Francisco-Toronto/Montreal Route Proceeding to consider whether the public convenience and necessity require the certification of an air carrier or air carriers to engage in nonstop foreign air transportation between San Francisco, Calif., on the one hand, and Toronto and Montreal, Canada, on the other, and, if so, to determine which air carrier(s) should be authorized to provide such service.

The Board's order consolidated into the proceeding the pending applications for nonstop authority between these points filed by American Airlines in Docket 27538 and United Air Lines in Docket 27730. The order provided that petitions for reconsideration and motions to consolidate any other applications should be filed with the Board by May 12, 1977, and that answers should be filed by May 23, 1977.

Western Air Lines, Inc., filed an application (Docket 30875) for authority in the San Francisco-Toronto/Montreal market, accompanied by a motion to consolidate the application for hearing and decision in the San Francisco-Toronto/Montreal Route Proceeding. Western's motion was unopposed and will be granted. Its application conforms to the scope of the proceeding as set forth in Order 77–4–115 and meets the criteria for consolidation prescribed in Rule 12 of the Board's Rules of Practice.

Hughes Airwest and the Spokane, Washington Parties have filed petitions for reconsideration of Order 77–4–115 to the extent that it did not provide for a hearing at this time on the issue of certification of a U.S. carrier to serve the Spokane-Vancouver transborder route provided for under the amendments to the U.S.-Canadian bilateral agreement dated May 8, 1974. We will deal with these petitions in a separate order.

On May 12, 1977, United Air Lines, Inc., filed a petition for reconsideration of Order 77–4–115 requesting that the Board include in this proceeding the issue of the need for U.S.-flag service in the Los Angeles-Toronto/Montreal market. United argues that in view of the numerous similar characteristics between the Los Angeles-Canada and the San Francisco-Canada markets, the reliance of both markets upon the same general beyond traffic, and the fact that the carrier applicants will be nearly identical, consolidation of the two routes is required to avoid duplication and waste of resources. United's petition for reconsideration was accompanied by an application for the Los Angeles authority (Docket 30877).[1]

American Airlines filed an answer in opposition to United's petition. American contends that United has advanced no valid reason for the Board to depart from its determination in the original order to hear the San Francisco and Los Angeles routes separately. American asserts that the routes involve clearly distinct markets and rely on different traffic bases, and the fact that Hawaii may be a beyond point common to both routes does not warrant combining them in a sigle case. American argues that the Los Angeles route is not effective under the U.S.-Canadian bilateral until April 1979, whereas a U.S. carrier will have the right under the agreement to operate a San Francisco-Toronto nonstop service effective April 30, 1978. American contends that the time is short enough anyway and that adding the Los Angeles route could result in delay sufficient to prevent designation of a U.S. carrier by that date. Finally, American argues that the Board's announced intention in Order 77–4–115 of placing in issue in the Los Angeles-Toronto/Montreal case the suspension or deletion of American's nonstop authority in the Los Angeles-Toronto market will complicate the proceeding, lengthen the record, and generate legal problems. Western Air Lines, the third applicant for the San Francisco authority, has not filed an objection to United's petition.

We have decided to expand the issues in the proceeding in Docket 30782 to include the Los Angeles-Toronto/Montreal authority. We said in Order 77–4–115, which was dated April 22, 1977, that we planned to set the Los Angeles case for hearing in six to nine months. Since this would have involved a proceeding commencing between October and December 1977, consolidation at this time will involve acceleration of only a few months in the previously announced schedule for handling the Los Angeles route.

We recognize that the San Francisco-Toronto route will be available for a U.S. carrier on April 30, 1978, while the other route segments cannot be operated until a year later. We recognize also that adding the Los Angeles route issues will place some additional burden on the participants in this proceeding, and that all will be required to move expeditiously in order to get a decision to the President as quickly as possible. We are persuaded, however, that the significant economy in the use of our hearing resources which will result from the avoidance of an entirely separate proceeding only a few months from now is well worth the added effort in this case. The two routes are clearly suited to handling in one proceeding. As United points out, there are a number of similarities between them, including certain of the beyond markets upon which they will both draw. Moreover, we will obviously have some of the same carriers, in addition to United, applying for both routes.

In these circumstances, we now conclude that the two separate proceedings outlined in Order 77–4–115 would represent an unacceptable and inefficient use of our resources. We find that inclusion of the Los Angeles-Toronto/Montreal route and consolidation of United's application would not cause undue delay, will be conducive to the proper dispatch of the Board's business and the ends of justice, and are in the public interest. We expect all parties to give the judge their full cooperation with a view toward permitting the board ample time to carefully consider all matters and complete its work and have a recommendation to the President on or before April 30, 1978. This will require issuance of a recommended decision by March 10, automatic review, and the filing of briefs by March 30.

Other factors cited by American Airlines in its answer to United's petition do not require a different result. For the reasons set out in Order 77–4–115, the proceeding, as expanded, will include the issue of the suspension/deletion of American's nonstop authority in the Los Angeles-Toronto market.

We will require United, and any other carrier filing an application in the proceeding for the Los Angeles authority, to file the information set forth in Part 312 of the Board's Procedural Regulations within thirty days of adoption of this order.

Accordingly, it is ordered, That: 1. The petition of United Air Lines, Inc., for reconsideration of Order 77–4–115 is granted to the extent that it seeks inclusion in Docket 30782 of the issue of nonstop authority between Los Angeles, on the one hand, and Toronto and Montreal, Canada, on the other;

2. This proceeding shall hereafter be known as the California-Toronto/Montreal Route Proceeding, Docket 30782;

3. In addition to the issues set out in Order 77–4–115 this proceeding shall include consideration of the following issues:

a. Do the public convenience and necessity require the certification of an air carrier or air carriers to engage in nonstop foreign air transportation between Los Angeles, California, on the one hand, and Toronto, Ontario and Montreal, Quebec, on the other hand?

b. If the answer to (a) is in the affirmative, which air carrier(s) should be authorized to engage in such service?

c. What conditions, if any, should be placed on the operations of such carrier(s)?

d. Do the public convenience and necessity require the alteration, amendment, modification, or suspension of the certificate of American Airlines for Route 56 so as to suspend or delete that carrier's authority to engage in foreign air transportation with respect to persons, property, and mail on a nonstop basis between Los Angeles, California, and Toronto, Canada?

4. The application of United Air Lines in Docket 30877 is consolidated with the proceeding in Docket 30782;

5. The motion of Western Air Lines, Inc., to consolidate its application in Docket 30875 for nonstop authority in the San Francisco-Toronto/Montreal market is granted and that application is consolidated for hearing and decision with the California-Toronto/Montreal Route Proceeding, Docket 30782;

6. Disposition of the petitions by Hughes Air Corp. d/b/a Hughes Airwest and by the Spokane, Washington Parties for reconsideration of Order 77–4–115 to the extent that such order failed to provide for a hearing on the issue of nonstop authority between Spokane, Washington and Vancouver, British Colombia is deferred;

7. United Air Lines, and any other carrier filing an application for Los Angeles authority in this proceeding, shall file an environmental evaluation pursuant to § 312.12 of the Board's Procedural Regulations within 30 days of the date of adoption of this order;

8. Applications for the additional authority placed in issue in this case, motions to consolidate, and petitions for reconsideration of this order shall be filed within 15 days from the date of adoption of this order and answers thereto shall be filed within ten days thereafter; and

9. All other requests in the petitions and answers discussed herein are denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,[2]
Secretary.

[FR Doc.77-24614 Filed 8-24-77;8:45 am]

[1] United did not file a motion to consolidate its application in Docket 30877 as contemplated by Order 77–4–115 and the Board's Rules of Practice. However, the entire purpose of its petition for reconsideration was to obtain consolidation of the two dockets and the last clause of its petition contains a request that this be done.

[2] All Members concurred.

DEPARTMENT OF COMMERCE

Economic Development Administration

LOW-CARBON FERROCHROMIUM INDUSTRY

Prospects for Adjustment Assistance for Firms

The Department of Commerce has conducted a study of firms producing low-carbon ferrochromium pursuant to Section 264 of the Trade Act of 1974. Such a study is required whenever the U.S. International Trade Commission makes an industry investigation under Section 201 of the Act.

On July 11, 1977, the Commission determined (by a 3-to-1 majority) that increased imports of low-carbon ferrochromium are not a substantial cause of serious injury, or the threat thereof, to the domestic industry.

Low-carbon ferrochromium ("LCF") is a ferroalloy which contains not over three percent by weight of carbon. Chromium is used in the manufacture of stainless steel, other high-chromium specialty steels and high-temperature alloys to provide strength hardness and resistance to corrosion, wear and heat. High-carbon ferrochromium and silicon ferrochromium are other types of chromium-containing ferroalloys generally made by the same firms that produce LCF. According to the Commission, over the past five years, all major stainless steel producers have been installing a refining process to obtain chromium by substituting less costly high-carbon ferrochromium for LCF. The effect has been a drastic reduction in the consumption LCF.

LCF is produced in three plants in Ohio operated by three firms. The firms also produce other products in the three plants and in their other diversified operations.

U.S. production of LCF totaled 19,686 short tons in 1976, 48 percent below 1975 and 68 percent less than in 1974. The estimated value of producers' shipments in 1976 totaled $41 million, off 42 percent from 1974. The average number of employees engaged in the manufacture of LCF declined to 290 in 1976 compared with 747 in 1974—a decline of 61 percent. While domestic production and shipments declined, U.S. imports of LCF increased from 30,763 short tons in 1974 to 39,933 in 1975 and 42,961 short tons in 1976, an increase of 40 percent over the three-year period. Imported LCF was equivalent to more than twice the volume of domestic shipments in 1976, compared with a 51-percent ratio in 1974. Leading foreign suppliers of LCF in recent years have been Japan, the Republic of South Africa and Rhodesia.

To be certified eligible to apply for trade adjustment assistance, a firm must petition the Department of Commerce and demonstrate that increased imports of articles like or directly competitive with those produced by the firm contributed importantly to decline in sales or production, or both, and to the separation, or threat of separation, of a significant number or proportion of the firm's workers. A trade-impacted producing firm may petition the Department for certification at any time regardless of a prospective Commission finding or its results.

For firms producing LCF that are considering petitioning for certification, the first requirement of the qualifying criteria apparently has been met, since U.S. imports of LCF increased in both 1975 and 1976. None of the three producing firms has petitioned the Department of Commerce for certification.

The production, sales and employment data provided in the Commission's report on a product line and establishment basis for the three producing firms in the industry are inadequate for determining the performance of the overall operations of the firms. For purposes of certification of eligibility, the Department of Commerce considers all products of a multi-product firm and all operations of a diversified company, including those of affiliates, subsidiaries and parents of the petitioning firm.

However, even in those instances where data are available and the firms have experienced the requisite declines, without an investigation of each individual firm there is no basis for determining whether imports contributed importantly to those declines. Under such circumstances, the Department is unable to determine the number of firms that are "likely to be certified as eligible" until the firms have actually submitted acceptable petitions.

Under the program of trade adjustment assistance for firms authorized by the Trade Act and administered by the Economic Development Administration ("EDA") in the Department of Commerce, a certified firm may apply for adjustment assistance to carry out its recovery plan. However, the fact that a firm is certified does not imply that such assistance will be furnished. Whether the firm obtains any financial assistance will depend upon the firm's adjustment proposal meeting all of the statutory criteria essential for approval.

Adjustment assistance may consist of financial assistance, technical assistance, or both. Financial assistance, in the form of direct loans and loan guarantees may be used for the acquisition, construction, installation, modernization, expansion or conversion of fixed assets, or for working capital necessary for a firm to implement its adjustment plan. Technical assistance may be used for management and operational assistance, feasibility studies and related research to aid in developing and implementing a firm's recovery plan.

The Trade Act provides for certification of communities located in trade-impacted areas or in areas where a firm or subdivision has transferred to a foreign country. Certified communities are eligible for public works grants, loans, and loan guarantees—all of which can be directed towards assisting affected firms. Under the Public Works and Economic Development Act of 1965 ("PWEDA"), as amended, direct and indirect assistance to firms is available without Trade Act Certification. Firms located in EDA-designated "redevelopment areas" and "economic development centers" can benefit indirectly from grants to the designated places and related entities for financing public works, and directly from business development loans and guarantees.

Under PWEDA, neither loans nor guarantees can be used to assist firms relocating from one area to another or to expand production in an industry found to have long-term overcapacity.

However, firms could obtain assistance under PWEDA for purposes of assuring the retention of existing capacity and employment. Moreover, PWEDA does authorize technical assistance to firms regardless of location and grants of loanable funds to communities with actual or threatened unemployment.
